APRIL 9, 1963

NUMBER 31

Chamber of Commerce Luncheon Each FIRST MONDAY at Town Hall. Everybody Invited. Each Pays for His Meal

Texas Day Observed By The Current Literature Club

Murtry presided over the business meeting. The club voted to donate a book to the Science Department of the high school. The Year Book Committee for 1963-64 was appointed with Mrs. Ralph White, chairman; Mrs. C. M. Archer and Mrs. Fred Hunt. The invitation to the Pioneer Tea to be given by the Burk Burnett Study Club March 21st was read.

Nine members of the club attended the cooking school presented by Bills TV. The club voted to help with the decoration for the President's Dinner, April 17th in Vernon at the Santa Rosa District Convention. Plans were completed for the Club's Fortieth Anniversary Tea which will be in the parlor of the First Baptist Church, April 11th and the Church Library will be open in observance of Library Week.

Burkburnett Names Trustees

F. A. Marten received 169 votes Saturday to lead a five-man slate of candidates vying for two positions on the Burk Burnett Independent School Board of Trustees.

Second top vote-getter was newcomer B. H. Preston, Jr., whose 147 votes, of a total of 237 ballots cast during the day, gave him the post vacated by Arnold Mueller.

Other three candidates in the race and their totals were: Paul R. Fisher, 80; Clifford E. Hagstrom, 38; and Tommy J. Hubbard, 35.

Marten and Preston will serve for terms of three years.

FIELD TRIP TAKEN BY METHODIST KINDERGARTEN MARCH 20th

The first year of the Day School at First Methodist Church is in its final weeks with twenty-three pre-schoolers presently enrolled. Many activities have taken place this year, but recent events have included field trips which are enjoyed by everyone. On March 20, twenty-three very excited youngsters climbed aboard Mr. Turner's Church bus for a trip to the new bridge which crosses the Red River. They were accompanied by their principal, Mr. Turner and their teachers, June Bridwell and Ruth Halsey. Science is one of our weekly lessons, so Mr. Turner explained some of the construction features of the bridge as we walked across it. Other reports of field trips will be forthcoming.

Special Services Episcopal Church

The Episcopal Church of St. John the Divine is holding special services this week to recall the events of our Lord's last days before the Crucifixion. This is a time of solemn preparation for his triumph through His sufferings, death and Resurrection. Holy Communion Service will be held Maundy Thursday at 9:00 p. m. The word Maundy comes from the Latin, "Mandare," meaning "to command." This refers to the two commandments given on the first Maundy Thursday: "Do this in remembrance of me," and "Love one another as I have loved you." The Last Supper of Our Lord with His Disciples, when He instituted the Holy Communion. At 10:00 p. m. Maundy Thursday begins an unbroken vigil before the altar at St. John the Divine by its members, ending at 6 a. m. with the Good Friday service. The Maundy Thursday vigil has been perpetuated year by year.

Special Services Episcopal Church

Survivors include his wife, Pauline of Burk Burnett; his mother, Mrs. Julia Morris, Grandfield, Oklahoma; a son, Ronnie Morris, Wichita Falls; a daughter, Mrs. Jerald Davis, Baytown, Texas; a sister, Mrs. Ira Neal, Chattanooga, Oklahoma; three brothers, C. C. Morris, Baytown, Alan Morris, Ada, Oklahoma; and L. B. Morris, Burk Burnett; and one grandchild.

Tuesday Star

No, the printers were not all drunk when this edition of the paper went to press.

Because of the difficulties and delay in securing a mailing permit for the Tuesday News, we have made application for a change in frequency of publication for the Star from once a week to twice a week.

Fred Morris, 54 Of Burk Burnett Dies

Fred Morris, 54-year-old retired civil service employe who had resided in Burk Burnett since 1918, died Friday night in a Wichita Falls hospital. Born January 8, 1909 at Chattanooga, Oklahoma, Morris had served as supervisor of maintenance at Sheppard Air Force Base prior to his retirement from the post in May 1958.

He was a member of the Masonic Lodge. Services were conducted at 3:00 p. m. Sunday from Central Baptist Church, Burk Burnett, with the pastor, Rev. Kenneth Bradshaw, officiating. Burial was in Burk Burnett Cemetery under direction of Owens-Brumley Funeral Home.

Survivors include his wife, Pauline of Burk Burnett; his mother, Mrs. Julia Morris, Grandfield, Oklahoma; a son, Ronnie Morris, Wichita Falls; a daughter, Mrs. Jerald Davis, Baytown, Texas; a sister, Mrs. Ira Neal, Chattanooga, Oklahoma; three brothers, C. C. Morris, Baytown, Alan Morris, Ada, Oklahoma; and L. B. Morris, Burk Burnett; and one grandchild.

Participating In Amphibious Exercise

Marine Private First Class Miliard B. Majors, son of Mrs. R. E. Almond of 615 East Sixth Street, Burk Burnett participated in a major amphibious exercise held March 2 through 10 off the coast of Southern California. The exercise provided training for the men of the First Marine Division and the First Fleet. More than forty ships and 24,000 Marines took part in the exercise. It included anti-submarine operations, amphibious landings, replenishment at sea, mine warfare, aerial and surface reconnaissance, and Marine simulated combat operations ashore.

Burk School To Integrate

Burkburnett and five other Texas school districts have agreed to accept defense base children on a racially-integrated basis, the government announced Wednesday.

Announcement of the agreement was made by the Department of Health, Education and Welfare.

An HEW spokesman explained that the agreements were negotiated under Public Law 874, which provides fiscal assistance for so-called federally-impacted areas. Burk Burnett has many students from Sheppard Air Force Base.

Under the law, the federal government contributes to operating funds of local school districts whose enrollments are swelled by children from nearby bases.

Former HEW secretary Abraham Ribicoff ruled last year that under provisions of the act, segregated facilities could no longer be considered "suitable" for such children.

The agency was directed to attempt to implement the ruling by September.

The Texas commitments announced Wednesday were the first to be obtained under the Ribicoff directive, the spokesman pointed out.

As part of the implementation program, school districts have been notified that funds would be withheld in the impacted areas unless integration was carried out.

Other schools include Abilene, Mineral Wells, Colorado, Potter County Consolidated near Amarillo and Connally Consolidated near Waco.

Lutheran Holy Week Services

Two special week-night services will be held at Grace Lutheran Church this week which is called Holy Week among many Christians. It is called Holy Week because it is the anniversary of the last week of the life of Jesus Christ before He was crucified on the cross and also because of the great acts which He performed during this week for the salvation of the world. The week extends from Palm Sunday, last Sunday, to Easter Sunday, next Sunday. On the first Palm Sunday Jesus rode into Jerusalem as a King. On Thursday He instituted the Lord's Supper through which He nourishes His followers through the eating and drinking of His body and blood. On Friday He suffered the painful death of crucifixion to take away the sins of the world.

Second Year Kindergarten Plans Made

Applications are now being taken for the Grace Lutheran Kindergarten of Burk Burnett for the school year which begins next September 3rd.

In coming to the end of the successful first year of the kindergarten the Board of Education of Grace Lutheran, headed by Chairman James Ludeke, is making plans for the second year. The services of Mrs. Arthur Ramming have been secured as teacher also for the second year.

The purposes of the kindergarten are training in Christian living and learning and preparation for the important school years ahead. The curriculum includes Bible stories, Reading Readiness, Number Readiness, Music, Science, Social Experience, etc.

Before coming to Grace Lutheran to teach, Mrs. Ramming taught kindergarten for seven years at St. Paul's Lutheran in Wichita Falls. Besides this valuable experience Mrs. Ramming has had college training to teach. She has attended several kindergarten work shops in Austin, Texas. She is a member of Grace Lutheran and serve the congregation as regular organist.

The kindergarten meets in the church Parish Hall at the corner of 3rd Street and Avenue E. Sessions are held every week day morning during the school year. Enrollment is open to all children who will be five years of age by the first of September. Application forms may be obtained at the church in the pastor's study on most mornings except Mondays. Those who desire more information may call the pastor, Rev. Phil Otten, 569-2706 or 569-3164.

Will Blackwells Celebrate 75th Wedding Anniversary

Mr and Mrs. Will Blackwell of Littlefield, Texas, were honored Sunday, April 7th with a dinner and open house. The celebration was in honor of Mr. and Mrs. Blackwell's 75th wedding anniversary.

Mr. and Mrs. Blackwell are the grandparents of Mrs. Gracie Bell McDonald of Smyrna, Georgia.

"Let's Go Fishing" WITH CATFISH PEPPER

Burkburnett Star-News Field and Stream Editor

These balmy days sure give me the fishing fever and practically every afternoon finds me at some pond in the area. Even with all this doctoring it just doesn't seem to lower my temperature a bit. Yep, it just seems that the more I go, the stronger the desire to go again.

The time of year is here, when just about all types of fish are really on the prowl. The water temperature hasn't gone as high as mine, but at times it is reaching a degree to where Mr. and Mrs. Fish go looking for each other. When fish are in this mood, they seem to cast caution aside and will bite most anything they see or smell. As a matter of evidence, I took several bass, crappie, and sunfish on the same plug a few days ago. Another thing that has helped a great deal, is the fact that the multitude of ducks that had been keeping the ponds churned up, have taken the hint of things to come from our 90 degree temperature and headed north for the nesting season. Sure hope that someone that has a little knowledge of wild life will have something to say about our future duck seasons. Since this duck exodus, it has been no trouble whatsoever to catch fish. One thing that puzzles me, is the fact that as of this writing, I'm unable to get a single strike on a top-water lure. This is the latest that it has ever been for top-water action for me.

Something that I never gave too much thought about, was brought to mind recently. A gentleman came by the shop and asked me if there were any tricks in keeping minnows alive after being placed on the hook.

He was told the three basic methods of hooking the minnow - 1st through the lip - 2nd just under the dorsal fin - 3rd behind the body cavity and about midway of back and lower side. Then there is the regulating the size of hook used to fit the size of minnows you plan to bait with. In other words, you will likely kill a small bait with a large hook where a larger minnow may survive the wound of a large hook. Another little thing to do, is keep hooks extremely sharp when using minnows, this will lessen the injury. A small hone kept in your tackle box is a handy thing to have for this purpose. Hope these few suggestions may help someone.

In the company of Mr. W. P. (Bill) Jones and Mr. and Mrs. Chester McAfee of Wichita Falls, this writer attended the annual Northwest Texas Field and Stream Assoc. wild game banquet at MW University on the night of Mar. 28. Those of you that failed to attend certainly lost out on a wonderful dinner and many good laughs. The great Cajun story teller, Justin Wilson, was the entertainer for the evening. His delivery is really something to hear. Many of his tales were hilarious and kept everyone roaring for the entire length of his talk. Be sure and make plans for next year - I am.

The before mentioned Mr. Jones with Mr. Carl Hyers and Mr. Ted Miller of Electra, had just returned from a weeks' fishing trip to Falcon Lake. Bad weather prevailed the entire time that they were at the lake. This weather didn't prevent them from catching about 160 nice crappie. Mr. Jones told me an interesting observation that he was able to make. The na-

tives at Falcon, told him that the crappie had completed their spawning for the year. Although these gentlemen were catching their fish in 14 to 16 feet of water, about 40 per cent had not yet spawned. Wished I knew more about the spawning habits of this particular fish.

Had two surprises while checking one of the local ponds that I'm experimenting with. The first surprise was an unpleasant one. Some knucklehead has put crappie in the pond and there is literally millions of the little bait stealers in it. Wish the person or persons that pulled this dirty trick could be forced to buy enough minnows to catch ever last one of them. This should cost enough to make anyone give a second thought about putting crappie in a stock pond. The second surprise was a pleasant one, as it disproved one of my pet ideas. In the past, I'd considered it worthless to place bass fry in an old pond. My theory was that sunfish and even minnows would catch the fry as soon as they were placed in the water. Well this particular pond was stocked with fry and as of now is teeming with bass. Due to the many small crappie present these bass are not getting a proper growth rate. Just don't know what to do, other than move a bunch of bass to new waters. Will be doing this very soon.

Have just come into possession of the nicest nine foot tubular glass fly rod and about 100 hand tied flies. This rod and flies were made by my brother, J. D. Pepper, while recuperating from a lengthy illness in a Dallas hospital. Am anxious to give it a real test. Hope some of this will benefit some person - Bye now.

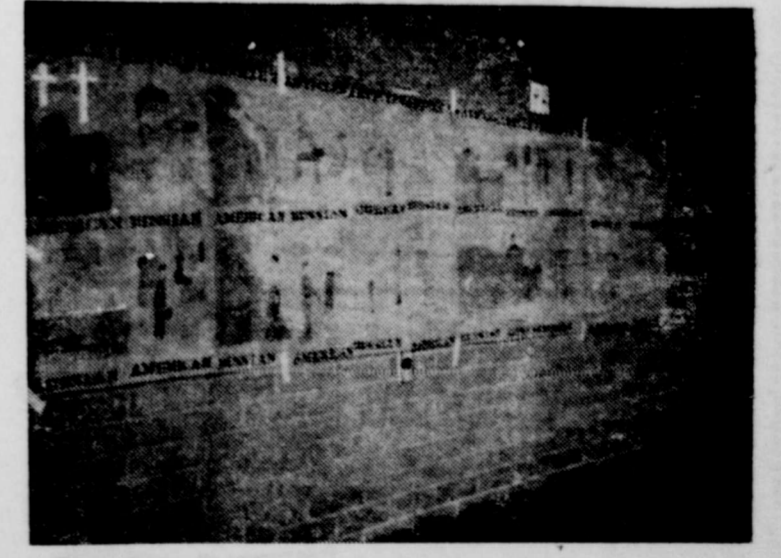

VALUE

Think about this for a moment: You have a plain bar of iron worth about \$5.00 to start with. Made into horse shoes, it is worth \$10.50. Made into screw drivers or kitchen cutlery, it may be worth \$250.00. Made into needles, it is worth \$3.50. Made into balance springs for watches, it is worth \$250,000. The same thing is true of another kind of material - YOU. Your value is determined by what you make of yourself. -Exchange

"THE BILL OF RIGHTS"

The Seventh Grade Geography Class at Sheppard-Burkburnett School recently took as an Americanism project a study of the "Bill of Rights."

The students studied each Article of the Bill of Rights and the history behind it. They studied ways as future adult American citizens the things they could do to preserve these rights.

As one student wrote that "Without the Bill of Rights our Nation would be like the play 'Cinderella,' but without the fairy God-mother. Without the fairy God-mother, Cinderella wouldn't be the queen of the land, and without the Bill of Rights, America wouldn't be the growing leader of the Democratic Nations that it is today."

Mrs. Louise Evans was the teacher who sponsored the project. The accompanying photograph shows one of several charts planned and developed by individuals and teams from members of the class.

WILL POWER WINS

Americans everywhere should be grateful for the impressive and timely reminder from the wintry wastes of the Canadian Northwest that there is still no earthly force comparable to the human spirit.

Among the bush pilots of the north, it would have been a fairly routine flight on which pilot Ralph Flores, 42, of San Bruno, Calif., and his passenger, 21 year old Helen Klaben of Brooklyn, N. Y., set off on February 4th from White Horse in the Yukon Territory to Seattle. Blown off course, they crashed hours later on a heavily-wooded 4,000-foot mountainside.

What could they do? Injured in the wilderness, 20 miles from an air lane, in 40 below-zero weather, they had no sleeping bags, no rifles, not even an axe. Their food supply consisted of two cans of sardines and two cans of fruit salad. Yet 47 days later, 19 days after hope of finding them had been officially abandoned, they were brought out in amazingly good condition, will soon be home and well.

Despite his injuries, Pilot Flores rigged a shelter against the driving snow, painfully tramped out the SOS that another flyer finally saw. He cut firewood with a hammer and chisel. And in the 47 days, he read his Bible aloud to Helen, from Genesis to Revelation.

Their food lasted one week. In calories, the total supply added up to less than a single day's allowance under the most stringent reducing diet. Thus, despite the fact that, according to the Maine Sardine Council, the 384 calories in a 4 ounce can of the little fishes are entirely fat and high nutrition protein, with thiamin, ribonflavin, niacin, pyricoxine and all the B-complex vitamins in large supply, their meager rations can not explain their survival.

Plainly, it was the courage of this pair, and their firm belief in God that nourished an unquenchable will to survive. "We never gave up at any time," Flores told his rescuers.

Their demonstration of indomitable spirit may now help to rescue dispirited fellow citizens from the listless, defeatist hedonism into which we seem to be slipping.

Best Idea Yet!

perhaps through lack of inspiring example. "We never gave up at any time," is a braver banner than "Eat, drink and be merry, for tomorrow we die."

BURKBURNETT... HISTORY

Revealed By The Star
 Files 20 Years Ago . . .

Mrs. Hunter Parks, who has been staying with her parents, Mr. and Mrs. Oscar Kemp left this week for San Francisco, California to visit her husband, Captain Parks for a few weeks.

1st Lt. Hammett Vance, an MP in the Marine Corps now stationed at Quantico, Virginia will be home in May to visit his mother, Mrs. W. T. Vance.

The Students and Teachers of the Burkburnett High School are going all-out on the 2nd War Bond Drive. They have purchased enough Bonds and Stamps this week to assure the Armed Forces eight or nine jeeps. Each \$900,000 worth of Bonds and Stamps assures the government of one or more jeep.

Miss Jerry Anita Strickland, daughter of Mr. and Mrs. Ray Strickland of Wichita Falls and Billy Jo Hill, son of Mr. and Mrs. Wiley Bloxom of this city were married Sunday P. M. April 11, at the Young Chapel in the First Christian Church

in Wichita Falls, Texas.

The Spanish IIB Class of Burkburnett High School has guests at the Mexican Fiesta in Wichita Falls, Friday night. After a delightful Spanish dinner and Fellowship evening went to the Wichita Theatre. Mrs. Rankin, Mrs. Stevens, Mrs. Gamblin and Mrs. Pugh provided transportation for class.

O. C. Willis, Frances Oscar Kemp, Glen Bear, Jeffers, George Eberly, Fred Brookman attended Oil Men meeting at 8 Tuesday night.

At this particular juncture world affairs, I'm glad I'm and irresponsible.

IRVIN "Smitty" SMITH, Service Manager

FROM THE
HEAD AGENT

\$50 million worth of... cleaning last year. This... probably will be doubt... year reports Thelma... county home demonstra... Miss Wirges did re-

ceive the figures from the U. S. Department of Agriculture's Agriculture Research Service. Coin-operated dry cleaning appeals to consumers in two ways, Miss Wirges says. It's economical and it's convenient. All the home maker has to do is place her soiled articles in the machine, the nremove them completely cleaned at the end of

the cycle. In spite of the growing popularity of the coin-operated machines, professional dry cleaning will still be needed. Some spot removal, for example, should not be attempted by amateurs. Many families also will continue to want professional pressing. As might be expected in a

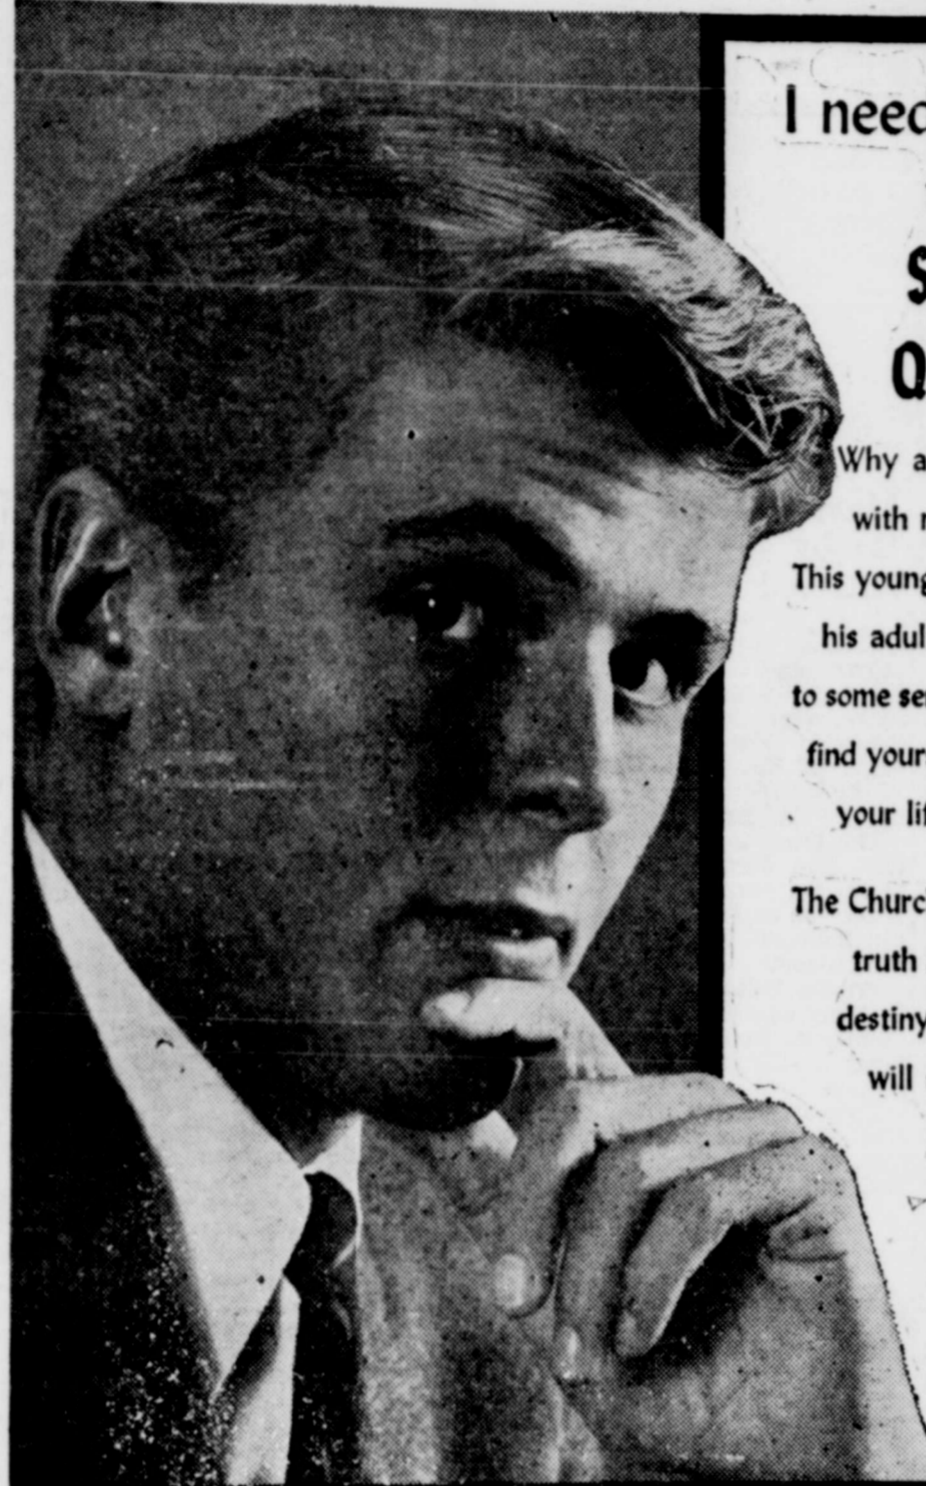

young industry, coin-ops are undergoing some changes. These changes may speed up the cleaning process but increase the cost. Two coin-operated dry cleaning systems are now in use. The first system on the market, and the one still predominately used, requires a time cycle of about 45 minutes to more than

one hour for completion of the cleaning-drying. The other system, until recently in the experimental stage, uses a rapidly evaporating solvent that reduces the time cycle to 15 to 20 minutes. The rapid evaporation of the solvent presents a problem to the machine manufacturers. Machines must be air-tight, and this adds to the expense of the

machine. The solvent used in the new system is also more expensive. So the cost of cleaning with this solvent may be higher. Some improvements to look forward to are improved spot-cleaning service — perhaps, attendants who are experts in the art of spotting; more pressing service offered on the premises — at an added cost, of course;

and continued effort on the part of manufacturers to make more efficient machines. Miss Wirges says the present cost of coin-operated machines rules out home units now, but one company predicts they are only about five years away. Ask advise, but use your own common sense in taking it.

TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

I need the Answers to some SERIOUS QUESTIONS

Why am I here? What shall I do with my life? Where am I going? This young man is at the threshold of his adult life and needs the answer to some serious questions. Perhaps you find yourself pausing to take stock of your life and groping for direction. The Church of the Living God tells the truth about man's life, death, and destiny. The truths learned there will set you free to live a more abundant, meaningful, and creative life. "And ye shall know the truth and the truth shall make you free." John 8:32.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Waters vary in their productive capacity, depending upon the type of soils surrounding them. Waters surrounded by rich soils produce good fish crops, while waters located in unproductive land areas produce a few fish.

Doubts of Progress
A FEW YEARS AGO you did not believe in the X-ray. If anyone had suggested there was a light that would make the body transparent so that you could see the bones in your hand, you would have laughed. A few years ago—you did not believe that a man's voice could be carried through the ether and heard around the world. A few years ago—you did not believe that immense passenger planes could fly over sea and land from continent to continent. What are some of the things you do not believe today?

Burkburnett Rebekah Lodge No. 67 will hold a BAKE SALE and BAZAAR at Boyd's Store on Friday and Saturday, April 12 and 13th. Coffee and sandwiches will also be served. 31-1C

Martha Jackson-Bobby Bolinger Married March 23

Miss Martha Jackson of Burk Burnett and Private Bobby Bolinger of Camp Campbell, Kentucky, were united in marriage Saturday, March 23rd in the home of Rev. L. L. Green in Wichita Falls. Rev. Green performed the ceremony.

The bride is the daughter of Rev. and Mrs. J. W. Jackson of 121 So. Ave E and the groom is the son of Mr. and Mrs. Warren Bolinger, 107 Hyland Drive, Burk Burnett.

Private Bolinger is in the U. S. Army now stationed at Camp Campbell, Kentucky. Mrs. Bolinger is still in school and will remain here with her parents. Present for the wedding were Mrs. Warren Bolinger and Jan, Mrs. J. W. Jackson and Ann, and Mrs. L. L. Green.

NOTICE

Burkburnett Rebekah Lodge No. 67 will hold a BAKE SALE and BAZAAR at Boyd's Store on Friday and Saturday, April 12 and 13th. Coffee and sandwiches will also be served. 31-1C

Medical Mirror

DRUGS AND DRIVING

Q. Do drugs, especially tranquilizers, affect driving ability?

A. Various drugs which act on the central nervous system can affect the performance of everyday acts such as driving a car or operating a power tool. This would include tranquilizers, sedatives, energizers, etc. Most tranquilizers do not seriously impair performance. However, the amount of drug taken must also be considered, with larger doses producing more pronounced effects. In addition, little is known about the build-up of such drugs in persons who take medication day after day. Although there have been no known instances of road build-up, a point might be reached where such effects on driving ability would be noticed.

TOO TALL

Q. I am 14 and have developed about the most girls my age. However, I am somewhat taller than my friends and this has worried me. Is there anything I can do to stop growing?

A. Doctors have ways of retarding growth in some cases but you are probably over-concerned. After the menarche (onset of menstruation) most girls (about 80 per cent) grow an average 4 inches in height. Doctors don't know why the other 20 per cent fail to respond to the braking of growth in a similar fashion. In any case, you have much more than an even chance of not growing much taller.

We package prescriptions in safe, efficient containers that protect the medicine against possible harmful effects of light, air or moisture.

 New Location—Next to Legion

"Fabulous Country Fair" To Be Held September 23 Thru 28

September 23rd thru 28th will be the dates for "The Fabulous Country Fair" serving the Northwest Texas and Southwest Oklahoma area according to Dr. Ted Alexander chairman of the trustees and T. Leo Moore, Executive Director of the Fair. The new location of the Fair Ground is on Highway 367 at Huntington Lane, one and one-half miles west of Wichita Falls.

The trustees for the fair are Dr. Ted Alexander, T. Leo Moore, Gene Hames, John E. McKelvey, Z. D. Allen, R. E. Waters and John Williamson. The old fair grounds at Iowa Park had lost all parking space and the fair had outgrown all the facilities. T. Leo Moore had been general manager of the fair since 1954 and at that time the fair was badly in debt and buildings were in bad repair and he got it out of debt and it has been one of the best fairs in the southwest.

"The Fabulous Country Fair" will be the most elaborate ever held in the Wichita Falls area Moore said. The fairgrounds were made possible by Dr. Ted Alexander furnishing the land. A Coliseum will be erected on the site which will seat 7,000 people and will cost approximately \$250,000. The Coliseum will be used for Banquets, Ice Shows, Circuses, Sports Shows, Basketball, Boxing, Wrestling, Rodeos and other year round activities.

5,000 automobiles can be parked on the free parking areas.

A contract was signed with Gene Hames, vice president of Bill Hames, Inc. Shows of Fort Worth, to produce a million dollar Midway which will be a "Fantasy Land" of shows, rides and the latest in entertainment features.

The huge Twin Skywheels and all of the latest thrilling riding devices will be in operation.

Admission to the Midway will be free. Moore stated that this

is the largest and finest Midway in the United States and shows all the major fairs and celebration in the country.

Plans are being finalized for the greatest fair program that can be obtained for all departments. Negotiations are under way for the Country's largest Ice Show and other feature attraction. The Fair will open with a huge parade in downtown Wichita Falls at 5:00 p. m., Monday, September 23rd.

THIS LITTLE LAMB couldn't wait for lunch-time so his mistress sneaks him a feeding—while watching the teacher.

THIS STRAY DOG looks forlornly at out-of-reach hydrant during flood at Du-buque, Iowa.

Vehicles Must Be Inspected By Apr. 15

Many motorists in Texas are going to be faced with long lines and waiting periods in order to have their cars inspected prior to the April 15 deadline. Only 39 per cent of the 586,270 registered vehicles in Region 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1963 safety inspection sticker, according to Captain Alen Johnson, Motor Vehicle Inspection Service of the DPS.

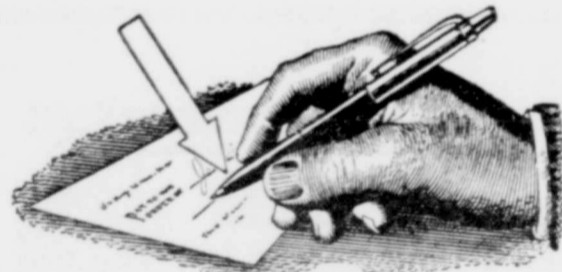

"All registered vehicles in Texas must be inspected by April 15 and have a 1963 inspection sticker on the windshield," Captain Johnson said. He stated that there would be no extension of the April 15 deadline and advised motorists who have not had their cars

inspected to do so now, before the long lines start forming. "In the past, many people wait until the last few days of the inspection period to have their vehicle inspected and have had to wait for a long period of time at the inspection station," Captain Johnson stated.

According to the records of the Motor Vehicle Inspection Service of the DPS there are 51,428 vehicles registered in Wichita County and only 21,660 or 42 per cent of the vehicles have been inspected to date. Due to this low number the Captain suggested that all motorists check their vehicles and see if they have a current 1963 inspection sticker on the windshield and if not to have their vehicle inspected today in order to avoid the last minute rush.

Ministerial Alliance To Sponsor Sunrise Easter Service

The Ministerial Alliance of Burkburnett will sponsor a Sunrise Easter Service this year. The Services will be held in the High School Stadium beginning at 6:00 a. m. and concluding at 7:00 a. m. Rev. Kenneth Bradshaw, president of the Ministerial Alliance will bring the message. Rev. Hollis Morris, pastor of First Baptist, will give the opening prayer; Rev. Merwin Turner, associate Minister at First Methodist will have words of welcome and the closing prayer will be by Rev. Rodney Spittler, Minister at First Christian Church. Rev. Travis McMinn of JanLee Baptist is

Chairman of the program. The Sunrise Easter Service will replace the Good Service previously conducted by the local ministers. The Ministerial Alliance in their Meeting held at the new Baptist Church set plans for a City-Wide Revival to be held in the summer of 1964. The group welcomed Rev. Rodney Spittler a new member. The next meeting of the Alliance will be at First Methodist Church April 1 at 9:00 a. m.

CHEESE CAKES
Everyone likes cheese cake. Like it baked and others love my unbaked cheese cake. Regarding the type you like, you'll find the May issue of TRUE STORY has one to fit your taste. Try this Fluffy Unbaked Cheese Cake for the next dessert hour!

Unbaked Cheese Cake
Mix one 9-inch cake mix with a spoon until light. Add 1/2 cup butter or margarine and 1/2 cup firmly packed brown sugar.

1 cup sifted flour
1/2 cup finely chopped walnuts

Pat onto bottom of (12 x 9") pan. Bake in a hot oven (400° F.) for 12-15 minutes. Remove from oven and cool with a spoon. Reserve 1/2 cup for topping. Immediately brush remainder against bottom and sides of a 9-inch square form pan. Cool. Combine in a heavy saucepan:

- 2 envelopes unflavored gelatine
- 1/2 cup sugar
- 1/4 teaspoon salt

Well. Gradually add to sugar-syrup mixture. Cook over medium heat, stirring constantly, until mixture reaches to a boil. Remove from heat.

2 tablespoons grated lemon rind
1 tablespoon lemon juice
1 teaspoon vanilla
Mix well. Cool.

2 packages (12 ozs. each) cottage cheese, sieved
Mix well. Chill until mixture begins to thicken. Place egg whites in a bowl and beat until foamy. Gradually add, while beating:

- 1/2 cup sugar

Beat until mixture stands in peaks. Fold into cheese mixture. Fold in:

- 2 cups heavy cream, whipped

Turn into crust lined pan. Sprinkle with reserved topping. Chill.

REFRIGERATOR SERVICE HINTS
When your refrigerator will not operate check the following before making a call to the service man:

1. Make sure refrigerator cord is plugged into wall outlet.
2. Test wall outlet with another appliance or lamp.
3. Check fuse. Fuse may need replacing.
4. Make sure refrigerator temperature controls are turned on. These four simple steps may save you the cost of a wasted service call!

DOUBLE POTTING
Plants that prefer a low level of soil mixture should be double potted. Set plants in clean porous clay pots inside a larger water-tight container, leaving enough space between the two to be filled with peat moss or shredded sphagnum moss. The moss should be watered to supply plant roots with moisture absorbed through the walls of the clay pot, as needed.

LUNCH BOX SUGGESTIONS
The mail from TRUE STORY readers provide the recipes which appear each and every month for the enjoyment of all families. Here is one recipe that fits the lunch box toting crowd.

Deviled Ham-Sour Cream Spread
Makes about 1 1/2 cups
Combine in a bowl:

- 2 cans (2 1/2 ozs. each) deviled ham
- 2 hard cooked eggs, chopped
- 2 tablespoons sour cream
- dash of paprika

Mix well. Chill until ready to use. Spread on rye or whole wheat bread.

Save the Children Federation Clothing Drive April 8 - 12 Sponsored By BHS Students

In response to Save the Children Federation's report that "Devastating Spring floods in the Southern Appalachian Mountain region resulting from the hardest winter in 76 years have nearly depleted our clothing supply," the students of Burk Burnett High School will launch the Federation's 21st Annual Bundle Days Used Clothing Collection on April 8th and April 12th in behalf of the needy children and adults of the American Southern Mountain Area and elsewhere.

Save the Children Federation operates 107 Clothing Centers in the Southern Appalachians where 1,091,709 pounds of used clothing collected by 6,078,642 American school children is sold. Many of these mountaineers are poor but proud; for them there is more dignity involved when they pay something for the clothing than when they receive it free. The clothing which you donate is repaired, if necessary, and sold in the Federation's Mountain Centers at a low price — enabling these people to retain their self respect. The Federation also makes available to the county welfare workers of attendance teachers clothing and shoes which may be distributed free where needed.

Won't you join with our school officials and students in this 21st Bundle Days Collection? States Roy L. Silkwood, principal, "Clothing will be contributed in communities throughout the country in cooperation with Save the Children Federation, leading U. S. educators and more than six million students. Both summer and winter shoes and garments are needed — coats, dresses, suits, underwear. We strongly urge our citizens to respond generously to the call and to contribute good wearable clothing that is outgrown but not worn out. The clothing should be taken or sent to the high school.

Save the Children Federation, the 30-year-old, non-sectarian, international welfare organization, is registered with the U. S. State Department Advisory Committee on Voluntary Foreign Aid. Children are aided by the Federation through sponsorships, family, school and community self-help projects and the annual collection of used clothing. The Federation helps American Indian children, children in the Southern Appalachian Mountains and in many countries over seas.

Any individual or group interested in helping children through the Federation should write to Save the Children Federation, Norwalk, Connecticut.

BOVINE HEADACHES

Much bovine misery is being prevented by the insertion of a special powerful magnet of nickel-aluminum-cobalt alloy into a cow's stomach. The compact magnet catches and holds the small pieces of iron, which may have been swallowed, and thus prevents disease and the need for surgery.

An angler at the fisherman's club was describing his toughest catch. "After three hours I landed this terrific monster of the sea," he said.

"I saw the pictures and he was only six inches long," said one member.

"Sure," admitted the angler, "but in three hours of fighting a fish can lose a lot of weight."

BASE FOR PLATE

One of the most widely used base materials for silver-plated tableware is the alloy of copper, nickel and zinc. Known as "nickel silver" and closely resembling silver in color, this alloy is also used to manufacture medium-priced hollowware.

THE BIG PUSH

The 66,300 ton passenger ship FRANCE, the longest luxury liner in the world, is propelled by four nickel-aluminum bronze screws, each of which weighs nearly 25 tons and is 19 feet in diameter.

NOTICE

Grass and Weed Burning Permits

Due to the city employee's being off duty from 5:00 p. m. Friday until 8:00 a. m. Monday except for standby emergency duty, no permits for burning will be issued for the weekends. Only the fireman is on duty during the week end and this will decrease the protection at this time.

The co-operation of the citizens in compliance with the trash burning ordinance has truly been appreciated.
CITY MANAGER

Inflation is a lot like overeating; it makes you feel so good, right up to the time when it's too late to correct it.

NOTICE

Etc. is a sign used to make believe you know more than you do.

Here's the best news yet... for the home-minded family!

Home ownership for your family may be years nearer than you think! We will arrange a Home Loan that will be custom-tailored to YOUR financial situation, YOUR needs, YOUR income. You repay your loan just like rent. A single monthly repayment can be set up to include principal, interest and property taxes.

COME IN AND TALK IT OVER WITH US... SOON

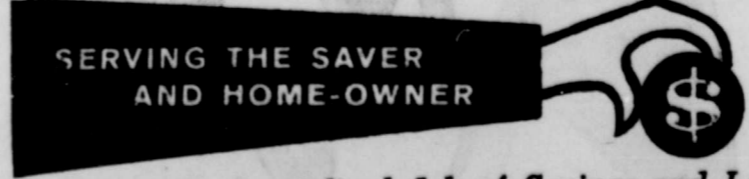

You will get friendly understanding and careful attention to detail from a staff which is long experienced in home financing.
