Civil Rights And Civil Wrongs

For the first time in the peacetime history of the United States, it is proposed in legislation now pending before the Congress to deny the right of trial by Jury.

This is one of the more important (and least publicized) aspects of S. 1731 and H. R. 7152—that legislative Trojan Horse named "The Civil Rights Act of 1963"—in which dictatorial Federal control of business, industry, individual citizens and the 'sovereign states is disguised as protection of racial and religious minorities.

Under this insidious bill, the judgement of Federal inspectors, appointed to bring about social reforms, would supersede our traditional and Constitutional judicial processes. Through the sly device of eliminating criminal penalties, those who drew the bill have made it so a violator of the "public accommodations" section (Title II), would be haled without hearing before a judge and placed under Federal injunction to cease and desist whatever act of discrimination the Federal overseer may have charged him with. And the penalty would be fine or imprisonment for contempt of court—from which there is no appeal.

Given this cloak of civil rights, the President would thus have raw, unchallenged power. Similarly, under other provisions of the bill, Federal control would be extended to every home, every school, every business, every bank and to every citizen who owns property or casts a vote. The President—or his political appointees—would have the power to tell the owners of every business whom they may hire, fire, promote or demote; to call, foreclose or refuse loans; to exclude individuals and businesses from federal programs, activities, subsidies and benefits; to blacklist banks, contractors, schools, businesses and individuals. Think of that.

As one critic has said: "The Administration's bill proposes, in effect, that the Congress abdicate, and turn its legislative powers over to the White House. The powers here demanded are not the powers rightfully to be

THE AMERICAN WAY

The One And Only Needed Control

exercised by a President in a free country. These are the powers of a despot."

No citizen, whatever his color, race or religion—for this bill extends to all races and creeds—should need further urging to demand of his Senator (both of them) and his Representative that they vote down S. 1731 and H. R. 7152—Kill it all.

GRASS ROOTS OPINION

CUERO, TEXAS, RECORD: "Accidental death, as a result of swallowing poison, is increasing each year. You may not realize it, but more than 600,000 children each year swallow some kind of poison. This should make every parent think twice and carry out a routine check of bathrooms cabinets, kitchen, etc."

BEDFORD, IND., TIMES-MAIL: "President Kennedy's recent order—issued without the consent of Congress—may open up more troubles than it will dissolve. The President has ordered that all companies engaged in government contracts, and all contractors doing government work, must hire more negro workers. The President or anybody else can issue edicts, but he can't make (a) skilled person out of an unskilled person in a minute. That takes time, and if the President starts to put white men out of a job just to put negro workers in those jobs, then we might see a few demonstrations of the majority. They could be more dangerous than the demonstrations of a minority."

CANTON, N. C., ENTERPRISE: "We have freedom of the press and we must keep that right. In freedom, though, there is duty. It is the duty of the press to keep people informed. In the long run, a free press is better than a muzzled one. It has to remain that way no matter how distasteful some news events are handled."

IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

CUBA is expected to produce about 2,500,000 metric tons of raw sugar this year compared with an average of about 6,000,000 tons in pre-Castro days. Here we have a new and impressive demonstration of the fact that communism cannot produce food. Scarcities extending to the point of starvation prevail in all Communist lands.

The Communist governments could provide food for their people if they were willing to abandon socialized farming and turn the land back to individual farmers. The little plots which the collectivized farmers are able to cultivate for themselves and their families are very productive while the collectively farmed fields are neglected and unproductive. The purpose of collective farming is not to produce food but to control people. It is one of the principal means by which the Communist bosses exercise iron control over their subjects. One cannot resist government if he is dependent upon it for food. Here we have one of the main reasons for private property. Those who control the means of subsistence and can live without the favor of government, are in a position to resist it and preserve their freedom, but those who must exist on food tickets, government pay, government handouts, government schools, hospitals, news, medical care and retirement allowances, are completely dependent upon government and cannot resist it.

This is the reason why those who are ambitious to control us want more centralization of power in Washington, and more and more socialization. If we travel far enough along that road, we shall be the slaves of our government bosses just as are the unfortunate dwellers in Communist lands.

The shrinkage of the Cuban sugar crop to less than half of normal is a serious blow to Castro's Communist dictatorship, for sugar is the principal, almost the only, means by which Cuba can secure foreign exchange. The Castro government is committed to sell the Communist nations nearly five million tons of sugar annually but this year's production will amount to little more than half of his commitment with nothing left over for sale to other countries where foreign exchange might be secured. The Communist nations pay for their sugar in goods which does not, of course, provide the Castro government with cash.

WE NEED YOUR HELP

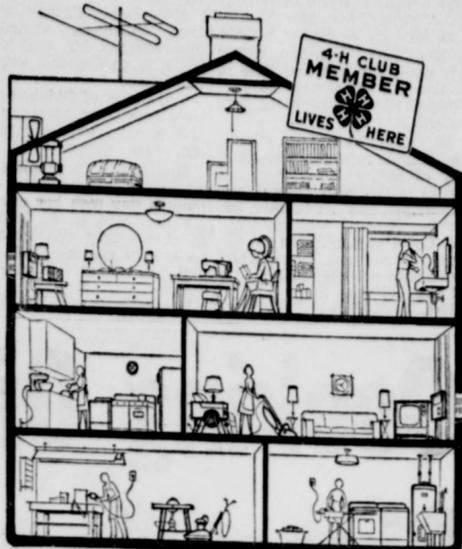

For the first time, Burk Burnett High School is sponsoring a high school debate tournament. We hope that this will become a yearly event and one of the most highly regarded in the state. One sure way to achieve our aims is to provide the most competent judging available, to provide judges who have the ability to make unbiased and intelligent decisions. We anticipate needing about fifty judges; hence, we must enlist more than are available from Midwestern University alone. We know you will enjoy listening to these fine high school speakers, many of whom will go on to the state championships this year, and we hope you are available at one of the times listed below.

The tournament runs from 9:00 a. m. Saturday, October 26th through 6:30 p. m. the same day. We are in particular need of help from 9:00 a. m. until about 3:00 p. m. (Rounds, 1, 2, 3, and 4 of debate.)

Please indicate your availability by CHECKING the appropriate lines below. We promise we will not use you for more than two of these time periods, unless you check the last line.

I will be able to help at:
9:00 to 11:30 a. m. Sat.....
12:15 to 3:00 p. m. Sat.....
3:00 to 6:30 p. m. Sat.....
I really enjoy judging, assign me as often as you wish.....

Please return this information plus your name and where you can be contacted promptly to: Cordell Parker, Burk Burnett High School, Burk Burnett, Tex.

National 4-H Electric program sponsored by Westinghouse Educational Foundation

How many ways is electricity used in this picture?
How many ways is it used in your home? Do you ever wonder what happens when you plug into a wall outlet? Where does the power come from? You usually can't see it unless it is in a light. Why do fuses blow? Why should you NEVER touch an electrical object with wet hands? Scores of 4-H Club members could tell you the answers. They found them while working in the 4-H electric program. Through the Cooperative Extension Service and sponsoring groups, the young people have access to some of the best personal guidance and informative literature in the electrical field. Boys and girls interested in electricity should see the county extension agent.

Man's triumph over a *Menace* to Life...

Sharks have always been man's enemies in the sea. They are a danger to the shipwrecked, and occasionally threaten the lives of swimmers along our coastal waters. Sharks are only one of the many dangers that man faces every day. The world, today, is in a turmoil and we must be alert and on guard for the enemies' moves. Now is the time to trust in the Lord and to seek His help.

"Unto thee, O Lord, do I lift up my soul. O my God, I trust in thee; let me not be ashamed, let not mine enemies triumph over me."
Psalm 25, 1-2

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Janlee Baptist Church Schedules Revival Services Beginning Sunday, Sept. 15

T. D. CARROLL

Jack Jeter, Southern Baptist Church is to announce Revival Services beginning Sunday morning, September 15, 1963, and continuing through Sunday evening, September 22, 1963, with daily services at 10:00 a. m. through Friday, and each evening Monday through Saturday.

more than forty years with some of the greatest evangelists of the day; such as, Gypsy Smith, Hyman Appleman, George W. Truett, and W. R. White. His rich experiences will bless your heart as you hear him, not only in his special music and congregational directing, but also, as you hear his wonderful testimony. Mr. Carroll has traveled over many areas of our country singing the gospel of Christ for congregations of all sizes.

Jack Jeter was born in Haskell, Texas, in 1930. He was saved at the age of fourteen at First Baptist Church, Rule, Texas. He answered the call to preach in 1947 and graduated from Rule High School the same year. Dr. C. A. Powell was his only pastor until he went to college. He attended Baylor University and Wayland Baptist College. He majored in Speech under the teaching of George Stokes and Mrs. Agnes Durant Pylant. He received many honors while in college including being selected for Who's Who in American Colleges and Universities. He married Fran Rowell, a student in Wayland, in 1950. In 1952, Jack

The Age of Private Transportation

"Get the farmer out of the mud" was the battle cry of the highway program in the 1920's and 1930's. In the early days of the automobile age, a paved road outside of the limits of a city or incorporated town was rare enough to be a curiosity.

Today, almost 70 percent of the 3,127,225 miles of rural roads in the United States have some kind of surfacing. A substantial amount of the remaining non-surfaced road mileage is so little traveled that paving is not justified; nevertheless, much remains to be done before we can claim a complete all-weather road system in the United States.

Nowadays, however, "getting the farmer out of the mud" is one among many objectives of the national highway program. The automobile and the truck have become such an integral part of American life that good highway transportation is essential to the success of almost every activity. Industries, schools, churches and shopping centers share the farmer's vital concern with the highway program. Commuters get stuck in urban traffic jams more often than farmers get stuck in the mud.

The essentiality of highway transportation to the national economy and the national defense is reflected in the Federal-

aid highway program, which has assisted the States in the improvement of their highway networks since 1916.

Federal-aid expenditures for highways, increasing in line with the increase in highway travel, now approximate \$3 billion per year, all of which is collected by means of special taxes on highway users, chiefly the 4c-per-gallon Federal tax on gasoline.

These special tax receipts are allocated by Congress to four categories of Federal-aid highway expenditures: (1) aid to the State primary, or trunk-line, highways, (2) aid to farm-to-market roads, (3) aid for the improvement of city arterial streets and expressways and (4) aid in the construction of the 41,000-mile National System of Interstate and Defense Highways, the new system of coast-to-coast interconnecting expressways designed to meet our defense needs and to serve as the backbone for our total highway network. The Federal government pays 90% of the construction cost of the Interstate highways and 50% on other Federal-aid highways.

State, local and Federal officials are all working together to coordinate their highway construction activities, recognizing that the roads are economic and social lifelines which are the key to better living for all of us.

graduated from Wayland and received the Bachelor of Divinity Degree from Southwestern Baptist Theological Seminary, Fort Worth, Texas, in 1958.

He has pastored six churches in Texas: Fairview, Happy; Finney, Plainview; Pinkerton, Rule; Hillburn Drive, Dallas; First Baptist, Bovina. He has pastored the First Southern Baptist Churches in Pinehurst, Washing-

ton, and Buena Park, California. Jack resigned the pastorate a few years ago to enter into full time evangelism and he and his family now reside at Happy, Texas. He is a very dedicated man of God and his soul stirring messages will thrill the hearts of those who attend the revival services.

Janlee extends to everyone of you a very hearty and sincere invitation to attend any one or every one of these services thru out this week.

We have a place for every member of your family in our Bible teaching program and in our training program. We are the only church that can offer you two Sunday Schools on Sunday morning. The first beginning at 8:30, with worship service following at 9:45, and the Second Sunday School beginning at 10:45.

It would delight us and we feel it would please the Lord for you to attend this revival.

Rev. Travis McMinn is the pastor at Janlee Baptist Church Burkburnett.

A new type of decorative wall plaque eight times lighter than plaster has been developed by Kalon Products Company, Santa Ana, California.

This news should prove particularly timely as September signals the start of a period of redecoration for high school and college age students.

According to company officials, the newest type plaques boast excellent surface detail and resistance to chipping — just the items, it would appear, to live up to a dormitory room.

The plaques are produced by a process that will reproduce almost any type of metal, ceramic or wood surface from molded rigid urethane foam. "The process," says Paul E. Killian, Kalon's general manager, "captures the finest and most delicate lines of the artist. A wood finish plaque looks exactly like wood. A metal finish plaque looks as though it were sculptured from expensive metal."

The plaques can be hung by pressing them against a small finishing nail driven in the wall. Wood glue can be used, of course, to fasten the plaques more permanently in place.

Kalon products offers 22 standard plaque designs in sizes from 10 x 10 inches to 17 x 40 inches for decorative use in homes as well as hotels, motels, restaurants and offices.

In addition to the line of 22 standard plaques, others will be especially designed upon request for use as club insignias, family crests, team emblems, church and school symbols, company trademarks and graphic arts.

HORSES—INSIDE AND OUT

Q. Is horserback riding good exercise? Is it true that "the outside of a horse is good for the inside of the man?"

A. Equestrians will probably flood us with letters explaining the inside/outside-man/horse relationship but frankly, we have never heard the expression. If the number of sore muscles a novice gets from riding a horse is any indication, horserback riding must head the "good exercise" list.

EYE CARE

Q. I have considerable trouble with my eyes. The lids itch and my eyes water a great deal. Would eye drops help? I am 74 years old.

A. Eye drops would not be advisable unless prescribed by your doctor. As we age, the skin and mucous membranes become thinner and more sensitive to physical irritants such as cold, heat, and light. Moderation is called for in eating, bathing (water should not be too hot or too cold), sunbathing, exposure to wind, etc. As for the eyes, persons over 50 or so should have regular checkups, just to rule out serious trouble.

We package prescriptions in safe, efficient containers that protect the medicine against possible harmful effects of light, air or moisture.
