REV. IRA GALLOWAY

Wichita County Judge Evangelist For The First Methodist Church

Carroll Copeland, pastor of the First Methodist Church, announced the revival to be held in the Burk Burnett Church during the week of October 20-25. The evangelist for the week's services will be Rev. Ira Galloway of the Walnut Hill Methodist Church in Dallas.

In September of 1956, Rev. Galloway was an oil company executive. At that time he was manager of the Utilization of Valorem Tax Department of the Southern Methodist University. God had called a business man into the ministry of the Church. His new life was begun by the Galloway family.

Years earlier Galloway was county Judge of Coleman County. Secretary - Treasurer of the Board of Directors of the County and Commissioner of the State of West Texas, and active in the political affairs of his state.

After returning to his home, becoming County Judge, he had served two years as Administrative Assistant to the Texas Congressman Washington. He left the University of Texas as a Phi Beta graduate to go to Washington.

He was appointed pastor to the Hill Methodist Church in Dallas.

NEWSPAPERS "A BRIDGE TO THE WORLD"

By Permission of King Features Syndicate, Copyright 1963

A newspaper is lumber made malleable. It is ink made into words, and pictures. It is conceived, born, grows up and dies of old age in a day. Yesterday's newspaper is used to wrap today's fish. Or to start a log fire, which brings it back to its origin.

Most of all, a newspaper is current information. It is the bridge between a home and the rest of the world. It tells of people and events swiftly and in detail. It listens to the threats of a dictator, the crack of a bat against a baseball, the anguish of a lost child, and the recipe for making cookies.

Newspapers, like people, come in many sizes and many personalities. Some are fat and sedentary, others are lean and hysterical. And, like people, some are reliable and some are not. There are newspapers which scream for attention and there are others, on the same newsstand, which whisper the news. All newspapers reflect the character of their owners.

What is a newspaper?

Must Show Profit

A good newspaper must show a profit. All newspaper owners know this. That is why they establish good character in their papers, and maintain it. Character is an indefinable quality best understood by women. They live by it. They can detect it in merchandise, in people, in publications. They, more than their husbands understand the newspaper they buy. Men usually read the front page news, the sports section, and their favorite features. Women leaf through a newspaper slowly, carefully, concentrating more on local news than international, assessing the advertisements, relishing the woman's page with its club meetings, lawn parties and gossip, and reading the obituary notices.

1780 Bales Reported By Burk Burnett Gin

The Burk Burnett area crop, mostly picked by machine, is about 75 per cent completed. This year's crop is considered slightly ahead of the 1962 harvest in both grade and yield.

Responsible Enterprise

A newspaper is private enterprise for the public good. It relies on many minds to fill it every day, in addition to machines which chatter incessantly about news coming from Rome, from Bangkok, from Tokyo and Topeka.

A boy on a bicycle can take all of these things, roll them up, and toss them onto a front porch while chewing gum and preparing a good excuse for a poor report card. A blind news-dealer can sell all this information for a small coin without ever seeing it.

In some countries, the newspapers are the instruments of the government. In this one, the government is sometimes the instrument of newspapers. Perhaps the best thing which can be said about newspapers in the United States is that they are in chronic disagreement with each other.

This is what is meant by a free press. A newspaper is

BULLDOGS FACE VERNON FRIDAY NIGHT, OCTOBER 18

By D. W. Underwood

After a weeks layoff, the Burk Burnett Bulldogs get back in the form of a game bout with the Vernon Vipers on Friday night in Burk Burnett at 8:00 p. m.

The contest will match two of the most pass minded teams in the area, although both have more average ground yardage.

Vernon's rifleman is a basketball star, Dana Lewis, 67"-183, and Dale Moore, 67"-165, handles the receiving chores for the Bulldogs. Lewis is a boy with the ability to thread the needle on short or long passes. He will be watched with intense interest by Vernon's defense.

As he was once a resident of Burk Burnett, The Lion's head ground game is not overlooked. Alan Davis is a quarterback that can run around, or just out run the defense. Big Jud Byars, 185, backs up ex-quarterback Alan Davis with the power to pound the defense lines.

As is known, the Bulldogs hope to field their original Burk Burnett unit. The return of Henry Bauch should aid John Nyby and Jackie Smith in helping hand in

BULLDOGS' CONFERENCE DUE CHANGE NEXT SEASON

By D. W. Underwood

District 4-AAA will have a new look next season. For one thing, there'll only be seven teams instead of the present nine. Some old faces will be gone and a couple of new ones will be added.

The 1964 conference alignment will be as follows: Burk Burnett, Graham, Brownwood, Vernon, Breckenridge, Wichita Falls Hirsch, and Coleman.

The two new teams are Coleman, now a member of 18-AA, and the Hirsch Huskies, who are presently flexing their newly found muscles in 5-AA. Bidding farewell are Rider, Weatherford, Mineral Wells, and Stephenville.

The Rider Raiders are moving up to 4-AAAA with the big brother Coyotes. The other three are going to 5-AAA to play Fort Worth area schools.

Next season should see some fine football action, but for the time being, let's get back to this year. See you in Vernon Friday night.

VIRGINIA, MINN., MESBI DAILY NEWS: "Hardly a city-based politician exists who does not shout the need for urban renewal. But few bother to explain what it involves, except in the most general way. Nor do any of them tell the public that the little people in the small towns are paying for the urban renewal in the big cities."

CHIPLEY, FLA., NEWS: "For the first time in the peacetime history of the United States, it is proposed in legislation now pending before the Congress to deny the right of trial by jury. This is one of the more important (and least publicized) aspects of the S. 1731 and H. R. 7152. Under this insidious bill, the judgement of Federal inspectors, appointed to bring about social reforms, would supersede our traditional and Constitutional judicial processes. Through the sly device of eliminating criminal penalties, those who drew the bill have made it so a violator of the 'public accommodations' section (Title II), would be haled without hearing before a judge and placed under Federal injunction to cease and desist whatever act of discrimination the Federal overseers may have charged him with. And the penalty would be fine or imprisonment for contempt of court—from which there is no appeal."

WILLIAMSTOWN, KY., NEWS: "It was recently pointed out that one in every sixty Americans now achieves him home in the form of federal government public housing. This is in addition to the many aids provided by the federal government in helping keep mortgages inexpensive and to enable the private citizen to obtain his own home by private, long-term payments. One planning consultant, Carl Feiss, of Washington, puts his fears this way: You're getting into a situation in which public housing children will themselves get married, live in public housing, and raise children in public housing, and you'll get a new kind of 'dependence' society."

National Newspaper Week October 13-19

This week, October 13-19, is National Newspaper Week. WHAT is it? It's a nationwide celebration which pays tribute to the 1,770 daily and 9,000 weekly newspapers published in this country.

WHAT is it? Its purpose is to emphasize the big difference that newspapers make in your life, the vital role they play in protecting the people's three great freedoms—Freedom of the Press—Freedom of Speech—and Freedom of Religion.

The freedoms which the press protects makes an important difference in your life. They guarantee your right to KNOW what your government is doing, to VOICE your own opinions about current problems, and to BELIEVE in whatever ideals you choose, even in they don't coincide with the ideology of the men in power.

There are many places in the world today—not just in Russia—where editors are throttled for "causing public unrest" of "insulting" the government. Cuba is one of those places, and it is just a long swim from the U. S. coast. People are not free where the press is gagged. The big difference between our lives and their is a free press. Newspapers make a difference in people's lives every day. Their news and sports articles tell what has happened in the world; their editorials tell why. Their features and cartoons offer a world of entertainment; the ads, a complete shopper's guide in a nutshell. And that's not all. This newspaper, every newspaper, is constantly trying to improve itself, to serve you better, every day.

Join with us in saluting National Newspaper Week. America's newspapers and the freedoms they preserve for you indeed make a big difference in your life.

WHEN EVER RETIRE?

HELP! My husband is dead, and my father is dead. After being alone for 30 years I suddenly have two men underfoot. It's too much! Three days keeps me in bed, besides a large garden. WHEN does it get to slow down a bit? I have no idea how you do it, but maybe you do. Write to me, "Rabbit" in your hat? P.O. Box 100, Dayton, Ohio.

mouth who talks out of both sides of his mouth. First he says to me: "Tell her that 4 million lonely widows would gladly step into her kitchen. This might crowd her kitchen a little, but they won't mind." Next he says: "Show her how to 'retire' with the help of her men. Show her how thousands of retiree households enjoyably perform services FOR EACH OTHER so that no one person gets all the work and all the credit! Describe this in a letter to her quick!" I'm writing you today!

JUVENILE DELINQUENT AT 69?

We have a terrible problem. My father-in-law, 69, has become hostile, destructive, and act up like a juvenile delinquent. Can this be possible at his age? It's not just that it's

Shopping Scene

By Dorothy Owens Wright

Red meat supplies during the first half of the year were up considerably and the trend is expected to continue for the balance of the year. Lower prices are the natural result. Cold storage supplies of fish are also higher and there have already been sharp reductions in canned fish prices.

Here's a discovery you'll welcome. Curtiss Candy Co. has a new exclusive "Triple X" package of paper, polyethylene and foil to protect the flavor of Miracle Aid. We discovered it with our personal favorite flavor, grape. If your taste buds call instead for raspberry, strawberry, lemon, orange, cherry or root beer, it's still a tip-top thirst-quencher on these hot summer days.

Did you ever wonder about the difference between weiners and frankfurters? It's size... franks are usually about an inch thick and four inches long; weiners 3/4 inch thick and up to 5 1/2 inches long.

Did you know that nearly all the nation's Rock Cornish game hens are grown and packaged in Rockingham County, Virginia, the "Turkey Capital of the World"? And Shenandoah Valley Produce Co. reminds us that the tender little birds are easily grilled on a rotisserie over your outdoor charcoal brazier.

It's early for Christmas, but not for safety! The manufacturers inform us of an impending big push this Yuletide season on non-combustible metalized saran icicles.

Girl Scout Troop 94

On October 4, 1963 we divided into three patrols. We elected patrol leaders. 1—Patty Karmos. 2—Janet De Marzio. 3—Judy Echternacht. Assistant leaders are: 1—Ronda Roe. 2—Ann McMinn. 3—Betty Lou Martin.

We elected a secretary Cella Wickersham and a treasurer, Jill Delaney.

Janet DeMarzio brought the refreshments today and Lia Hodge is bringing the refreshments next week.

The names of the patrols are 1—Daisy Patrol, 2—Lightening Patrol, 3—Bright Star Patrol. Celia Ann Wickersham, Scribe

MRS BAIRD'S Pul-A-Part BREAD

P.S. Serve it Hot!

Can your range keep meals serving-hot for 4 hours without over-cooking?

With the new gas Cook 'n' Keep oven control you can go shopping and still be a guest at your own party without a last minute rush. Just set the time and temperature oven controls as your recipe requires. Dinner will cook automatically to perfection. When it's done the way you want it, Cook 'n' Keep oven turns itself down to exactly the right temperature for serving. An hour later—or two, three or four—food's still moist, tender and serving hot! No over-cooking. No drying out. Because of this new automatic oven control and the many other gas cooking conveniences, you'll want to trade in your old range. Now's the time—the new ones are on sale at Gas Appliance Dealers and Lone Star Gas.

embarrassment; but we can't seem to "handle" this. He's deliberately sloppy, he steals, and provokes arguments. He's visiting us now. Please rush some information so we can understand this.

No Name, Washington, D. C.
You're wise and decent to want to "understand" and to "handle." I would guess that suddenly he has been stripped of protection and feels angry, insecure and inadequate. These are comments made in a report in the Journal of the American Geriatrics Society on "geriatric delinquents"—exactly what you called it! Please examine your household. Are there irritants that your father-in-law cannot tolerate? Has he suddenly been bereaved of a support or something that sustained him? This can be a loss in anything from money to loss of a mate or a deep friend or status. Have you offered enough emotional comfort to replace the loss? So MUCH is involved! Be gentle as you try to work it out. If you cannot, get professional aid. Write to me at National Senior Center, Lehigh Acres, Florida and I'll be glad to help direct you in Washington, D. C.

At the Golden Age Club I attend, some pushy new people have taken over. They now end all meetings with dancing and even bring their own stupid music. It's disgusting. Before they barged in, I used to sit at the east side of the room and all the women would come over to chat. Now they hop all over the dance floor. I try to catch their eye but they avoid me. I sit all alone and feel like a wallflower. What can I do to make them ashamed of themselves? I am 73.

Wallflower, Albany, N.Y.
Who's the target, the pushy people or the dancing girls? Since you met defeat at the east side, try the west side. While you're busy stepping to make the switch, maybe you, too, will be caught up in the whirl!

NEWS for truck owners who need a new one now

Things Chevrolet has developed since the last time you bought to give you more for your money:

Double-wall construction. This feature of Chevrolet cabs and the Fleetside pickup body has two advantages. Insulation and sound-deadening material is sandwiched between the two layers of steel in the cab to give you more comfort; in the body, the lower inner wall acts as a buffer against load damage, preserving the outer appearance of the truck.

Suspension to fit the truck. Conventional half- and three-quarter-ton models have independent front suspension with variable rate coils in the rear. Variable rate coils do not "bottom out" as readily. Mediums and heavies have I-beam suspension with variable-rate leafsprings. It automatically stiffens as the load increases—and vice versa. It means a smoother, flatter ride regardless of load, a better handling truck.

The right engine. Chevrolet never has been in better position to give you the type and size you need for maximum efficiency. Today there are many different capacities of gasoline and diesel

Chevrolet truck engines—fours, sixes, V8's.

Stronger frames. Every conventional 1964 Chevrolet truck has a ladder-type frame. This type is more resilient, better able to give with the load and terrain. Its simple design also makes it easier to mount special bodies on the truck. Its riveted side rails are stronger.

Greater model selection. This time you're going to find it a simple matter to pick the exact type of Chevrolet truck for the kind of work you do. In delivery trucks, for instance, in addition to regular panels and pickups, we have eleven different sizes of ready-made walk-in vans, some with full-width rear doors.

Quality and value. Chevrolets today are a lot more truck than your money bought the last time, and yet the price tag is just about the same as 5 or 6 years ago. Call your Chevrolet dealer for information or for a demonstration.

Quality trucks always cost less!

NEW GIRL SCOUT LEADERS

The new Burk Burnett Neighborhood members are front, left to right, Mrs. Peggy Frazier, Mrs. Hatcher, Brownie Troop No. 90 Leader; Mrs. Lyda May Miles, Leader of Brownie Troop No. 40; Mrs. Frances MacIntire, Leader of Cadette Troop No. 48; Back, left to right, Mrs. Carolyn Greer, Co-leader of Troop No. 40; Mrs. Blevins, Troop Consultant and Mrs. Cathy Kormos, Neighborhood Chairman. Not shown are Mrs. Pilcher, Leader of Junior Troop No. 94; and Mrs. Brown, Leader of Troop No. 115. Mrs. Ruth Smithy is the Field Advisor for Non-Cen-Tex Girl Scout Council.

This year there is a "New Design" in the Girl Scout Program. While the age range for girl members remains seven through seventeen, Girl Scout troops are beginning to operate in four age levels: Brownie Girl Scouts (7 and 8 years), Junior Girl Scouts (9, 10 and 11), Cadette Girl Scouts (12, 13 and 14 years), Senior Girl Scouts (15, 16 and 17 years).

This is in contrast to three age levels, Brownies, Intermediates and Seniors, which were formerly the basis of Girl Scout troop organizations.

Commenting on the new age levels, Mrs. Kormos said, "These new age groupings will make it possible for the girls to enjoy scouting to its fullest because the programs are set up to the needs and interests of their own age level."

On Wednesday, October 16, at 10:00 a. m., there will be a meeting at the Youth Center of all mothers whose Junior and Cadette age daughters desire to become Girl Scouts. That afternoon at 3:00 p. m. there will be a meeting of 7 and 8 year-old girls who want to become Brownie Scouts and their mothers.

The new Girl Scout Adults have begun a training course. Two more sessions will be held for this group on October 15 and 17 from 9:00 a. m. to 2:00 p. m. at the First Christian Church in Wichita Falls. The course includes exploration of the Girl Scout program and ways to work in the area of program that explores the home, the arts, and the outdoors.

BURK CHURCH OF GOD LOSES YOUTH BANNER

After keeping the Iowa Park District Youth Banner for six months, the Burkburnett Church of God gave it up at a rally held Monday night in Iowa Park, yielding the banner to the Vernon Church of God.

Vernon pastor, Rev. Bob Bohanon said that he had waited for a long time for Burk to give up the banner and that now "the Vernon Church is on the move." Other churches in attendance in the order they placed, were Burk, Electra, and Iowa Park.

District Youth Director Jimmy Sheets, of Iowa Park, was in charge of the service. Choir singing was followed by special numbers from each of the churches. As the count was taken each of the pastors was asked to say a few words. Each expressed gratitude for the interest shown in the rallies and God's work.

Rev. Leon Goforth, who resides in Iowa Park, brought the message. Plans were discussed concerning a district convention to be held in November at Iowa Park. The State Overseer, Rev. W. P. Stalling, will be present at the convention.

North Texas Society For Crippled Children Trying To Locate All Handicapped Persons

In an effort to locate all persons — children and adults — in North Texas who are handicapped, either by disease or injury, a questionnaire is being distributed to all schools in Montague, Clay, Wilbarger, Young, Jack, Baylor, Archer, and Wichita Counties.

Spearheading the drive to identify those handicapped persons not now receiving rehabilitation is the North Texas Society for Crippled Children and Adults.

The questionnaires are being distributed at the school this week and it is hoped that by October 21 a complete list of such persons will have been compiled.

The society, a volunteer organization affiliated with the National Easter Seal Society, operates the North Texas Crippled Children's Center in Wichita Falls.

Mrs. W. T. Zimmerman, a member of the board of the North Texas Society for Crip-

pled Children and Adults, said, "If the society is to be of real help in this part of the state, the staff must know how many handicapped children and adults there are in the area and where they live."

She said, "We are particularly interested in knowing about adults who are now handicapped as the result of such things as strokes, arthritis, multiple sclerosis, Parkinson's disease. With therapy many of these people can be helped back to a functional life, she explained.

Naturally, we are also vitally concerned about crippled children, Mrs. Wages, a physical therapist herself, said. "There are many ways today in which a crippled child can be helped.

"It is important to get the best possible treatment for a child who has a handicapped condition as soon as it can be arranged.

At present, some 70 youngsters afflicted with a variety of crippling defects ranging from nine months to sixteen years of age receive treatments at the center where six professional therapists are on duty in addition to a consulting orthopedist.

Mrs. Zimmerman said that the questionnaires are being sent to the schools because "we feel this is one of the best ways to try to contact the majority of people in this area."

People who do not receive a copy of the questionnaire from the school can pick up a copy at their local physicians office.

Upon receipt of the questionnaire, parents are asked to fill it in if:

1. They have a crippled child of their own or a child with a speech disorder.
2. Some other member of the family is handicapped.
3. They know of some other person who is handicapped.

The questionnaire should be returned by the student to the school where the collection will be made.

Mrs. Jack Wages, executive director of the Society and the Center pointed out that "handicapped" refers not only to body movements, but also to speech and hearing.

A decision was reached to secure an authoritative speaker on Horticulture to be presented as a guest day speaker for all the members of Garden Clubs.

The members were asked to start thinking and planning as well as planting for the Spring Flower Show in April. This will be a Placement Show in some of the loveliest homes in Burkburnett and will be open to the public.

ESSENTIAL TOO!

The boys on the field are carrying the bulk of the game, but all the boys on the bench are eagerly awaiting their opportunity to get in the game. Some will get to play, others won't, yet each is essential to the team. During practice each week their efforts help build a better team.

To function properly, a church must work as a team. The Pastor and his associates carry most of the load. Many others are needed to help train and teach, or do many other tasks. However whether or not you can serve the Lord in some capacity, *your presence* in the worship services does help you and others too. **ATTEND CHURCH THIS SUNDAY... YOU WILL BE GLAD THAT YOU DID.**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

 HOWARD CLEMENT

New Location — Next To Legion Hall

The clothes are designed to suit the action filled lives of most women today. The lines are easy and relaxed.

And sportive fabrics are a natural for the layered look of two piece dresses, skirts, shirt-type blouses, vests, pull-overs and jackets, the agent adds.

Women who wear the sportive clothes may be of any age, may live in town or in the country. One thing she must remember is to coordinate her outfit carefully from head to toe. For although the sportive look is casual, it is far from careless.

Accessories complementing the easy lines and bulky fabrics of garments are shoes of fine leathers and low stacked heels to be worn with darker toned hosiery; smaller, more compact handbags in matching leathers or colors of fabrics, and gloves that go to all lengths. The sportive look features a four-button glove that disappears smoothly under long sleeves, and the short sleeve glove to complement the sleeve that stops at the elbow or half way down the arm.

The bare space of the arm may be filled with bracelets. When the arm is covered, omit the bracelets, reminds Miss Wirges.

Hats complement the sportive look both in shape and texture and have much importance in the fall fashion picture with the passing of the Leehive hair style. Hair of medium length tossing in the wind is part of the co-ordinated sportive look.

News From The County Agent

The 1964 wool incentive and mohair support prices have been announced by the USDA. Shorn wool incentive price was set at 62c per pound and the mohair support price at 72c per pound for the 1964 marketing year.

The marketing year in 1964 coincides with the calendar year for the first time. This is in accordance with recent changes.

Prices of pulled wool will continue to be supported at a level comparable to the incentive price for shorn wool.

The county agent notes that in 1961 marketing year Texas wool producers received a gross incentive payment of \$10,094,527.54.

The quality of eggs available to consumers today is higher than it was a few years ago, and in the future will be even higher, says B. T. Haws.

This difference is true, whether the eggs are purchased at retail outlets or directly from the farm.

This increase in quality is due to scientific feeding of the laying hens and the improvement of the environmental conditions under which the eggs are laid until homemakers purchase them. These environmental conditions are mainly proper refrigeration and controlled humidity. Another factor is

that eggs are not as many days old when the homemaker buys them as they once were.

Along with this higher egg quality, is a greater demand for these high quality eggs by the consumer. Research indicates that more homemakers want either AA or A quality eggs and more than 50 per cent of them buy eggs of a minimum weight of 1 1/2-pounds per dozen.

The county agent believes that eggs in the future will be of even higher quality than those marketed today, due to improved production and management practices, and better environmental conditions for handling them. The time required for the marketing of eggs will be further reduced, thus lessening the chance for loss in quality from the farm to the consumer.

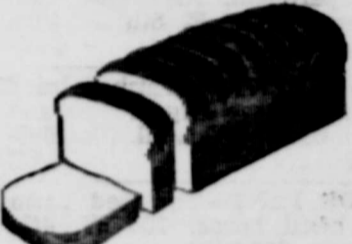

The homemaker of the future will buy more of the high quality protein food.

Raw milk can be produced with a bacteria count of under 10,000 per cc with average conditions on Texas dairy farms. And with a little extra care in washing, cleaning and sanitizing equipment it can be reduced to less than 3,000. Milk

temperature, the health of the cows, milking equipment, udders and teats, and the milking parlor should be checked when unusually high bacteria counts persist.

Mrs. Cheney is a clothing leader and demonstrator and is most willing to teach others things she has spent years learning. She is always willing to learn new methods which improve her skill and give clothing a more professional look. Mrs. Cheney is now adjusting to rolling hems and not giving them a sharp crease. This will be a life saver as hems start down, since that crease can be most difficult to press out.
