## Weldon Bailey Seeks Office Of County Sheriff

WELDON BAILEY

Weldon Bailey, candidate for nomination as Sheriff of Wichita County, subject to the May Democratic primary, issued the following statement in the formal announcement of his candidacy.

"It is costing the tax payers of Wichita County far too much money to operate the Sheriff's Department. In view of the fact that all of the cities of Wichita County have extended their city limits, this has reduced the duties and responsibilities of the sheriff's department. I propose to reduce the cost of operating the department by at least \$200,000 a term. This can be done by reducing the amount I spent my last term in office by only \$15,000 per year. I operated the department for over \$100,000 less for my last three years than it has cost to operate the past three years.

"Much has been said about the operation of the 'Hot Check' division in the Sheriff's office. We returned thousands of dollars to the merchants of Wichita County without charging one penny for this service. It was done in a legal manner prescribed by law and if elected I propose to help the merchants in every way prescribed by law. The things that seem to have been overlooked is that, apprehension, judgment, and punishment are the surest way to stop law violations. If a violator is permitted to only make restitution without punishment, we will never stop any violation. If a violator knows he will wind up in the county jail or in the penitentiary, he will be a lot more reluctant to violate the law.

"I propose to see that only persons authorized by law be permitted to eat in the county jail. This includes only prisoners in the county jail.

"The handling of all monies in the Sheriff's Department will be done as prescribed by statute and rules and regulations set out by the County Auditor.

"For the citizens of Wichita County, who might not know me, I am 53 years old and have had 25 years experience as a peace officer. I served 17 years with the Texas Highway Patrol and 8 years as Sheriff of Wichita County. I am married and we have one son, Bob. We live at 2206 Sheppard Street and have lived there since coming to Wichita Falls in 1944.

"During the time I was your Sheriff, dozens of decisions had to be made every day, some legal, many involving personalities. I know, in making those judgments, I made mistakes. If I offended or hurt anyone, it was not my intention, and I am sorry. I assure you that I will not again make the same mistakes.

"My son and I have operated a Mobil Service Station in Wichita Falls for the past three years. This has required all of my time. It is my aim and desire to see as many of you as possible before the election. If I miss any of you it will not be my intention. I humbly and sincerely ask for your vote and support. I feel that with my experience and qualifications, we can return the office of Sheriff of Wichita County to the respected position that the citizens of this county deserve and have a right to expect.

## John Gill Does Not Seek Council Post

A group of persons, unknown by this paper or to Mr. John Gill, have circulated cards asking that voters consider Mr. Gill as a write-in candidate in the coming City election.

In an interview with Mr. Gill this week he said: "Certainly I appreciate the confidence these people have shown in me. I consider it an outstanding honor. But under the present circumstances, I find every minute of my time budgeted out to activities I am already engaged in. I feel that the important office of City Councilman deserves far more time than I would be able to devote to it. Thanks for the honor, but I do not feel that I can take on any more obligations at this time."

## REVOLUTIONARY

To be against racial discrimination and racial segregation is to be on the side of the angels. But to remain silent or to stay your writing hand while a chance remains to defeat the Civil Rights Bill is to accept without a murmur the conversion of what has always been the "Land of the Free" into a police state.

Acceptance by the Senate of the so-called "civil rights" measures passed by the House would impose on all Americans—of all colors and all creeds—farmers, homeowners, banks and bankers, employers of every sort, labor unions and members as well as hotels, restaurant and theatre operators, the alien shackles of dictatorship.

It would mean the end of labor unions as we have known them and the loss to the rank and file of what have come to be regarded in the past 40 years of struggle as "labor's gains." Federal Gauleiters would be empowered in the fair name of "equal employment opportunity" to reject the rights and obligations of closed shop contracts, collective bargaining, seniority and apprenticeship.

If the Civil Rights Act becomes law, the Equal Employment Opportunity Commission, which it creates, decides whether or not the work force of any or every employer is in racial "balance" with the population of the area. If, with respect to whites and Negroes, there are too many whites—Negroes must be hired or whites fired, of both. Seniority is of no concern, either in hiring or firing. If the union cannot supply Negroes with the required skills, they must be hired outside. If they are not available, unskilled Negroes must be hired and trained in the jobs that skilled whites—perhaps with high seniority—have been forced to give up. Or, the "imbalance" may be vice versa—with similar results.

If the employer fails to comply, retribution can be swift and terrible. In the case of 99 percent of employers having contracts with unions, his contract may be cancelled and his firm blacklisted.

This is but one aspect of the bill that a minority report of the House Judiciary Committee describes as being "in the most literal sense revolutionary, destructive of the very essence of life as it has been lived in this

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Readers inquire as to why there is trouble in Panama, in Vietnam, in Zanzibar, et al. et al. and et al. The basic problem is that perhaps too many in the U. S. State Department are avid television viewers.

On TV the "good guy" always wins. The "bad guys" may open up with a multitude of guns, but in the end the "good guy" does not shoot, but throws away

his weapon and armed only with virtue uses his fists to chastise the "bad guys" who then see the error of their ways. But that is TV. While virtue may triumph on TV, it is unfortunate international relations do not quite work that way.

The Panama incident is a perfect case history. The governing clique of Panama has long wanted to "bootjack" a bigger cut out of the canal's revenues. On the basis of sound business, they have no argument. So they conveyed to their people, a poverty-stricken, excitable mob with a high degree of illiteracy, that somehow their national honor is involved.

In dealing with Castro U.S. has compromised, paid out ransom, feeling virtue will reap rewards. Over in the Kremlin they do not watch American TV so Cuba gave them a perfect opportunity to train a lot of ignorant zealots how to raise cane other than the sugar kind.

So some of these trainees go

to Panama where their leaders had already created ill will against the U.S. as a bargaining tool to get more money. But they had succeeded in keeping the mob in check. However, the Castro-Kremlin agents built on this basis, further exciting the poor, wretched Panamanians, no doubt helped by good, strong cheap Panama rum.

It seems apparent the Panamanian government did not want things to go so far. This is evidenced by the fact that when ten Castro agitators were spotted by U.S. security officers, the Panama military force did not hesitate to take them into custody. Thus, it was purely a case where foreign politicians, hoping to gain dollars, sowed the wind and reaped the whirlwind.

And immediately domestic crackpots who tried to establish the Castro loving assassin of a President was motivated by a right wing sought to sell idea Americans were responsible for the murderous attack.

Some have tried to establish that it was wrong for American youngsters to take pride in the American flag. Some have tried to impugn by maintaining decent living standards U.S. officials in Canal Zone encourage Panamanianism. Thus, to avoid this situation, they too should live like peons.

And so the story is repeated all over the world, wherever there are dollar hungry politicians over illiterate peoples. There is a time to negotiate, and a time to stand firm. Whenever gangsters inflame an illiterate mob, force, not logic, is needed to preserve peace.

country since the adoption of our Constitution."

But, if you and enough of your countrymen write to both of your Senators NOW, and tell them to vote against the Civil Rights Bill, it will be rejected.

## GRASS ROOTS OPINION

HILLSBORO, ORE., ARGUS:—"The United Nations member is now at 113. This includes 77 'underdeveloped' or 'new' nations, which it is now generally recognized were not ready for independence. Each has as big a vote in the UN as does the United States. It was the U. S. idea to rush the creation of these new nations. End result can and most likely will be that the U. S. will be outvoted on many world issues, adding immeasurably to world problems and headaches for us."

You cook for pennies...

when you cook electrically

You'll be delighted to find out how little it costs to cook the modern electric way. Surface units cook by direct contact with utensil bottoms, use heat thriftily. The electric oven, insulated all around including the bottom, keeps heat inside where it belongs. And once the oven reaches the temperature you select, it uses electricity about one-fourth of the cooking time. It costs the average family only about 3¢ a meal to cook with flameless electricity. ## Caution: Eggheads At Play

Looking for a party idea? Invite your friends to an Egghead Party. The main attractions will be hard boiled!

Guests will have fun creating their own personalities or caricatures of each other. Glamour Girl will have her eyes opened to what others think of the latest hair style and The Brain may show up as a wise old owl.

The sophisticate of the crowd could be a rag doll; Farmer Jones for her male counterpart. A striped sock over a piece of cardboard tubing makes a turtle-neck sweater for the ski fan. A "party-before-the-party" the night preceding should in-

clude a few close friends to help color eggs and organize. Start with clean white eggs and simmer gently for twenty minutes in water to cover. Plunge into cold water, drain and let dry. Don't touch them any more than necessary as the oils in your skin make them more resistant to the coloring. When thoroughly dry, dye according to package directions.

The makers of Rit Easter Egg Dyes tell us that eggs remain good to eat at room temperature for three days. Refrigerated they may be kept about a week.

If your guests don't take all the eggheads home and you can bear to part with them, eat them.

### Let's Go Fishin'

Trolling's Line Of Trouble  
Trolling can cause even the best behaved of fishing lines to act like a teen-ager doing the twist.

To prevent twisting and fouled lines caused by trolling, Mercury outboards' fishing experts offer a few ideas that lessen this ever-present problem.

It's important, they say, to realize that nearly all lures will revolve while being towed underwater. But, they do not all turn in the same direction.

Before chucking a lure over the transom, check its natural direction of spin by dragging the plug or piece of hardware alongside for a few seconds.

Do this with several different lures. When the time comes to snap on a new one, select a model that revolves in the opposite direction.

Swivels should always be tused between lines and lures. They help some, but do not prevent twist.

Keels or keel sinkers rigged ahead of the plug are far more effective in eliminating problems.

Keels have another value that is seldom recognized. Bright metal styles often call attention to the trailing bait or lure and result in a greater number of strikes.

At intervals, advise the Mercury folks, remove the plug and allow the line to run free for a few minutes. Do this again while cruising back to the dock at day's end.

The twist may be okay for the kids, but let's keep it out of fishing.

The Bobwhite quail can live all summer without drinking water because the insects it eats are mostly water.

## Burk's New Club, The Pacemakers Held Meeting In The Reddy Room

The Pacemakers of Burkburnett, an auto club, met Tuesday evening in the Texas Electric Reddy Room for their regular meeting and to discuss further organization of the club. Presiding was the president, John Nelepka, of 103 Linden. Present were about 70 persons 25 of whom were members, including Officers Cromwell of the police. This reporter was made an honorary member. Illness in his family prevented Eddie Hill, the expected speaker from attending. Mr. Hill will be at the next meeting if possible. If unable to be there Mr. Lloyd Ruby of Wichita will speak to the group.

Names were taken of members who have tools, parts or other needed essentials which they will put at the disposal of the club.

Members have promised to save all cigarette packages to help reach the goal of 2,000, which will aid a blind boy to receive a seeing-eye dog.

A soap Box Derby to be held about May was discussed. There will be further discussion about the derby at the next meeting.

Twenty-five members signed their names and paid their dues at the close of the meeting.

All members of the Pacemakers Club receive courtesy cards when they join and this is how they are used.

Sunday night, near the new Sheppard Road overpass, Sam Robertson and Allen Eaves noticed an automobile off the road, mired in mud. They stopped and attempted to pull or push it back to the highway, but were unsuccessful.

Though the car remained where it was, Mr. Bedford, the driver, was driven to his home by the boys. Later the car was removed.

The boys gave Mr. Bedford one of their courtesy cards and went on their way.

The card informed the man that the club members do not take money for aid on the highway, but that if the service was pleasing, to call the police department. Mrs. Bedford did.

### CARD OF THANKS

We would like to express our appreciation to the many friends and relatives who gave so much of their time and effort both before and after the death of our loved one.

Our thanks also for the food, flowers, the beautiful service and your many cards, letters and prayers. May God's richest blessing be with each of you is our prayer.

## Bloodmobile Was Here March 11th

The Red Cross Bloodmobile, which was here on the 11th, didn't do very well for a town of Burkburnett's population. Only 43 pints of blood were donated.

It is a good thing to know we will get another chance three months from now, to show we have more warm, life-saving blood to spare than 43 pints.

We do have some who give each time the Bloodmobile is in town. One is C. J. Lippard of 705 Sycamore Rd., who has given four gallons and Mrs. Loretta Hunt, of 211 Mesquite, whose donations have reached three gallons-three pints. I wonder how many lives their blood has saved?

To everyone who gave, the Red Cross extends their thanks. Refreshments were served to donors by the American Legion Auxiliary. Doing the serving was Mrs. Johnnie Fay Bartley, Mrs. Betty Brown, Maggie Harrison, Helen Fleming and Ann Dorland.

Registering the donors were Joann Thomas, Rita Hudshon, Pat McClure, Wanda Pierce, Evelyn Nichols, Selma Wright. In three months, the Bloodmobile will return. It is now permitted to eat before giving blood. Did you know that. Will you be there to give, Mrs. Hunt said, "People just don't realize how easy it is."

See you at the Legion Hall in three months!

**MOVING TRICK**

There's a trick to moving furniture over floors. To keep heavy pieces of furniture from marring the floor, slip a thick pad under each leg as the professional movers do. Thick folds of old bath towels are ideal. They not only protect the floor but also make it easier to slide heavy furniture into place. Your floor will keep its fresh good looks.

## Fresh Apples Ornament Snack Tray

The historic partners of apples and cheese make a decorative  
holiday appearance when they're teamed in unusual ways for  
modern snacking. At this time of year fresh apples are at their  
tangiast, sweetest, crunchiest, complementing perfectly the  
smooth, flavorful cheeses. Best of all eating apples are the Red  
and Golden Delicious from the world's Apple Bowl, Washington  
State. These large-sized, sweet-flavored apples are perfect for  
fresh eating, for holiday salads, for low-calorie snacking.

Unusual is the two-tier tray service above, combining Wash-  
ington Golden Delicious crescents with wedges of Edam cheese,  
spicy cream cheese and nut balls, slivers of smoked cheese or  
meat, and slices of American cheese. Your holiday guests will  
enjoy choosing fresh Washington applesnack combinations to  
please their individual tastes.

**Apple'n Cheese Christmas Ball**  
2 large Washington Golden Delicious apples  
1 small Edam cheese

Cut one Washington Golden Delicious apple into eights; put  
crescent-shaped apple wedges in lemoned-water bath. Cut Edam  
cheese into crescents to match apple wedges. Re-build ball on  
tray alternating cheese and apple wedges, using toothpicks to  
hold together. Arrange any remaining cheese crescents on plat-  
ter around second, uncut Washington Golden Delicious apple.

**Curried Cheese Balls**  
1 8-oz. package cream cheese 1/2 tsp. grated orange rind  
2 tsp. cream 1/2 cup chopped nuts  
1/2 tsp. curry powder 2 Washington Delicious  
apples

Soften cream cheese; blend in cream, curry, and orange rind.  
Let chill slightly, then form into balls. Roll in chopped nuts;  
chill until ready to serve. Then combine on platter with Wash-  
ington apples.

## It's The Law In Texas

**NO WILL? WHO INHERITS PROPERTY?**

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

estate prior to your death, and the law adds nothing to his share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

Homer Blalock, of Iowa Park, guest speaker at the Guest Day meeting of the Unity Garden Club, which met in the home of Mrs. R. C. Gilbow on March 11th.

Mrs. Blalock demonstrated her talk with a map of the United States held on an easel, to which she affixed pictures. Her review of the book was very interesting and informative.

Presiding at the meeting was Mrs. Herman Miller, vice president of the club. Present were approximately 20 members and guests. The guests were Mrs. W. L. Yost, Iowa Park; Mrs. Ralph White, Mrs. Walter Riley, Mrs. E. J. Simon, Mrs. Allie Chatham, Mrs. W. W. Chambers, Mrs. Clyde Peed and Mrs. Fred Thompson, all of Burkburnett and various garden clubs here.

Hostesses for the special meeting were Grace Stimpson and Mrs. B. H. Alexander. The decorations were in keeping with St. Patrick's Day and lovely white gladioli and green foliage graced the tray of the punch bowl. The cake was iced in white and green and a spray of white roses framed in green leaves and ferns, was the attractive center piece. Coffee was also served.

Zechariah (Curly) Procter, 84, was found dead in his home at 201 W. 6th, Tuesday morning by his sister-in-law, Mrs. Elnora Procter of 1611 Dallas, in Wichita Falls.

Mrs. Procter, who buried her husband, Lazarus just three months ago, had come to visit the elderly man and bring him some eggs, as was her custom every few days, since he had lived alone.

When she knocked there was no answer and she went to the police asking aid, fearing he had died.

It is not known at this time, how long he had been dead, nor the exact cause of death.

Mr. Procter was born in Oakwood, Texas in 1880. His wife, Mary, died in 1962. They had no children.

He was a resident of Burkburnett for over forty years and at one time did work as an auto mechanic.

Survivors are a sister, Mrs. Mary Slaughter of San Antonio,

**Business - Social Held By Home Builders**

Home Builders Class of the First Methodist Church met March 11th in the home of Mrs. D. M. Lowery for their regular business and social meeting.

In the absence of the president, Mrs. Sadie Jones, vice president, Mrs. R. H. Henry presided and opened the meeting with the group singing, Jesus Loves Even Me and an opening prayer by Mrs. Gragg.

# THE HIGHEST POINT

A steeple was first built on the town church so that anyone anywhere in the village could look out and locate the house of worship. The steeple on the church was the highest point in town. This was a physical fact and the people of the Lord knew it was a spiritual fact also.

Although a church's steeple is no longer the highest physical point in the city because of all the many-storied buildings and towers, the church itself is still filled with people who have reached the highest point of Godly maturity and who are filled with the highest degree of Christian love for God and man.

You are invited to attend the church of your choice this Sunday to learn of the love of God and His people toward you.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Page, Owner of Western Auto Announces Catalog Order Center His Customers In This Area

Burkburnett Western Auto store, owned by Mr. Page, this week announced the opening of a new catalog order center as an added service to its customers in this area. Mr. Page said the new service is a nation-wide catalog order program being launched by Western Auto at this time. The company has 438 stores in 4,000 home-owned and operated dealer stores. The largest group of catalog order centers in the U. S. he said. Distribution of millions of catalogs is now being made in all sections of the country and should be completed by the end of the month. Mr. Page explained that one of the most important features of the new service is that prices shown in the catalog are the prices the customers will pay, including postage and delivery costs. The customer does not have to figure weights, freight rates or shipping charges, and then add transportation costs to the price of the merchandise. All charges are included in the listed catalog price. He also emphasized that Western Auto will extend its long-standing policy of satisfaction or money back to include all

catalog order merchandise. At the company's home office in Kansas City, Western Auto President A. C. Swanson said that the company's entry into the catalog order field "is in keeping with the 55 year Western Auto tradition of constantly expanding customer services, while offering the utmost in quality at competitive prices. Mr. Swanson said the company will use its existing network of large warehouse centers throughout the U. S. to speed merchandise to customers. Specially designed catalog order desks have been installed in all company stores and most dealer stores, he said. Eye catching signs will call attention to the order center. Western Auto is one of the largest merchandising organizations of its type in the nation with sales last year of more than \$326 million.

## Lyle B. Cherry Is Candidate For Judge, 78th Judicial District

LYLE B. CHERRY

Lyle B. Cherry, 55, a practicing attorney for 32 years, is announcing his candidacy for Judge, 78th Judicial District, subject to the May 2 Democratic Primary.

Cherry said he expected to conduct a vigorous campaign and would seek to meet, personally, all the voters possible from now until time for the election.

In announcing his candidacy, Cherry said during his 32 years of practice he has served as an attorney for both plaintiffs and defendants and in both civil and criminal cases. He said he feels this varied experience as a trial lawyer well qualifies him to serve as district judge.

Cherry's judicial experience includes serving nine years as a district judge in Tennessee before coming to Texas and serving as assistant district attorney for Wichita County from 1953-55.

A graduate of Cumberland University College of Law, Lebanon, Tennessee, Cherry served as judge of the 13th Judicial District in Tennessee from 1942-

52 with the exception of two and one half years during World War II when he was given a leave of absence and served with the Ninth Air Force in Europe.

Since his arrival in Wichita Falls, Cherry has been honored by his fellow attorneys. He is currently serving as president of the Wichita County Bar Association, elected by attorneys of the county, and served three years as a member of the Board of Directors of the State Bar of Texas, elected to the position by the attorneys from the entire 13th Congressional District.

Among his civic activities, Cherry serves as chairman of the Civil Service Commission of Wichita Falls.

Cherry has been in general law practice here since 1955 and is presently associated with the law firm of McDonald, Anderson and Cherry.

He and his wife, Mozelle, live at 4712 Florist Street.

**RESEARCH**  
Q. We hear a lot about research. Just what is research?  
A. Webster defines research as careful, patient study and investigation in the field of knowledge, undertaken to establish principles. Like most things, research is glamorous when viewed at a distance. Close up, day-by-day research requires tears, teamwork, a lot of sweat, the ability to withstand frustration, and willingness to pay with 90 per cent failure. Research requires plenty of patience and a very eddy hard work, touches every phase of life. Seemingly unrelated things such as jet engines, cosmetics, and tax forms are products of research in one field or another.

**COLDS AND FEVERS**  
Q. Is "feed a cold and starve a fever" advice?  
A. Better follow your doctor's suggestion. The idea of "starving" fevers goes back to when typhoid fever was so common. These days many doctors "starve" typhoid patients. There was at least one excellent great Irish physician, Robert James (1786-1853), argued long and loud against the notion and even requested that his epitaph "He fed fevers."

The personal interest we take in the health of those we serve is of great importance with the professional skill in the dispensing of prescribed medicine.
