Dogs Played A Fine Game Against Eisenhower at Lawton

Burkburnett Bulldogs won their third defeat of the season in Lawton Friday night when they defeated the Eisenhower Eagles 22-0. The Bulldogs' nickname is "The Green Wave" and they traveled by aerial route to down the Eagles, 28-6.

Bulldogs got a beautiful passing game from Lawton's Rick Bridges. The contest was a Bulldogs showed the what they had learned. Hubble passed for 81 yards and picked up 187 yards.

Despite all this, the Bulldogs played their best game of the season. Three chances escaped scoring game, scoring 15 yards, compared to 14 yards for Eisenhower.

Hubble passed for 81 yards and picked up 187 yards. The Bulldogs covered 18 yards. Eisenhower try failed, leaving the Bulldogs with a 22-0 lead.

Four minutes later, Bridges personally delivered the mail for Eisenhower, galloping 11 yards on a keeper to tally, then passing to George Sellars to make the score 22-0, going into the final period.

Then Bob Hubble, who's nights' performance was overshadowed by Bridges, came up with some aerial hi jinks of his own. He capped it off with an 11 yard strike to end David Salter, with 10:45 on the clock. An attempt for two points failed and the score remained 22-0.

Bridges picked another receiver, Jerry Churchwell, for his final scoring toss of the night. This one went for a total of 30 yards. The conversion attempt failed and the final summary was 28-6.

On defense, the ever present Pete Glover teamed with Jerry Bingham and David Salter to lead the assault of the orange and black.

Next week, the Bulldogs host the powerful low Park Hawks in an 8 p. m. Friday night battle in Morgan Stadium.

Iowa Park Coming Strong Saturday Night

The Burkburnett Bulldogs play host to one of Texas' best AA football squads this Friday night at 8 p. m. in Morgan Stadium, as they take on the vaunted Iowa Park Hawks.

The "green wave" has been very successful thus far, winning four of four, and having their goal line crossed only once. The Hawks can boast of weight, speed, experience and desire. They play every game as if it were the state championship game, giving it all they've got. They won victories over Henrietta, 36-0; Stamford, 27-0; Decatur, 32-0; and Wichita Falls Hirschi, 19-6. The one thing that could possibly hurt them is lack of depth. Iowa Park only carries 24 boys.

For a change the Bulldogs will hold an edge in available replacements. But they don't hold an edge in weight, speed or experience. As for desire, the Bulldogs are on a par with anyone in the state. They want to win and they always give it their best, even against tremendous odds. This kind of fighting spirit can't always be overwhelmed, and sooner or later someone will get the point.

The Hawks' finest running back is Billy Jackson, 170, a boy with speed, power and guts. Robert Dawson, the 170 pound signal caller for the Hawks, is a smooth operator, cool headed and doesn't make many mistakes. He can throw the ball well and has to be considered a well balanced player. Big Terry May, 205 pound fullback, is one of the reasons Iowa Park is highly regarded. A bruiser on offense and a stalwart on defense, he is a fine all around ball player. Guard, Mike Pastusek, 188, and tackle Gordon Parkey, 173, also draw praise for their ability.

The Bulldogs uncovered new rays of hope last week with the power running of Dean Thompson, 170 pound fullback and the play of field general Bob Hubble. The ground defense showed signs of greatness, limiting Eisenhower to 42 yards via that channel.

All in all, Friday's game should be an action packed affair, with the Bulldogs showing the fire and determination for which they are nicknamed.

Remember, game time is 8 p. m. at Morgan Stadium.

Mr. and Mrs. Ralph Brookshier of Burkburnett are spending a months vacation with their son, Dr. and Mrs. Russell Brookshier and family in Hanford, Calif. They report that things really look good there. Cotton is more than waist high and loaded with a predicted yield of 4 or 5 bales per acre. It is irrigated land.

Nobody, yes nobody, has ever mastered tipping, on the high seas, in Paris or New York, or at home in an apartment building.

The Burkburnett Kings rip Vikings in Semi-Pro Game Here Last Sat.

The Burkburnett Kings got off to a good start in their new home facilities, Saturday night, ripping the Chillicothe Vikings, defending state semi-pro champions, 20-7, in an exhibition game of introducing Red River Valley Semi-Pro ball to Burkburnett.

This was a trick the Kings had failed to turn in two years, exhibition or regular season. The issues on the Kings 1963, 10-2 record were both to the Vikings.

Things looked bad for Burk at the half, as they trailed 7-0. The Vikings' Dan Kubisk had run a second quarter interception 47 yards for a t. d. with Jabe Brazzle kicking the extra point.

Speedy Gerald Combs tied the contest in the third quarter sprinting 35 yards to paydirt. Bill Stachan kicked the extra point.

The Kings went ahead in that same period, when Joe Anderson plunged over from the one.

WASHINGTON AND "SMALL BUSINESS"

B. C. WILSON HARDER

The fact that Washington, D.C. leads the nation in per capita consumption of alcoholic beverages and the fact that the city also experiences a very high rate of traffic accidents may not necessarily go hand in hand, but there is a possibility that in the near future some interesting data will be developed.

If this does come to pass, it will largely be due to the work of Senator Wayne Morse of Oregon. While many people hold different opinions on the expressed philosophies of the Northwestern Senator, it is generally acknowledged that as a former university dean of law, he does bring to the Congress one of the most comprehensive legal backgrounds to be found in either chamber.

And lawyers by and large usually believe that the law is the law, regardless of whether they may personally agree with the provisions of a law.

Thus, it was quite interesting the other day in the august United States Senate when Senator Morse introduced a bill entitled "A bill to prohibit the fixing of traffic tickets in the District of Columbia."

In introducing his bill, the Senator displayed an exhibit of paper documents that lacked but a quarter of an inch of being

ing a foot thick. He stated that in 1961, 28,129 tickets were fixed. In 1962, 33,739 and in 1963, 26,977 traffic tickets were fixed.

The Oregon Senator also rejected the polite phraseology used in Washington regarding these tickets. These tickets, which were torn up, have been officially referred to as "adjusted."

He said every place else, they are called "fixed" and thus his bill spells out that adjusting is actually fixing.

Now perhaps as legislation goes in Washington, this particular bill, assuming it gets passed, will probably not go down in history as a major legislative act, yet perhaps this is an instance where history will fail to emphasize the truly significant.

After all, the main business of Washington is that of making laws, administering laws, and interpreting laws.

The District of Columbia is governed by Congress, and there are traffic laws. But what use is it for Congress to pass laws if they can be sidestepped, as evidenced by the wholesale fixing of traffic tickets in the Capitol.

This bill may set a trend. Congress also passed the laws known as the Robinson-Patman Act. The action of the Senator may lead to a study of what happens to the enforcement of these laws, too.

HUMBOLDT, IOWA, INDEPENDENT: "I like newspapers that are extremists—newspapers that have ideals, newspapers that print what the people need to know and not necessarily what they want to read. Some day, it is hoped . . . newspapers will be so extreme as to be recognized for their strength of character. May we never be so liberal as to forget our ideals."

Bring out the beauty in your home...

with modern light for living...

The lighting in your home can do much more than merely dispel darkness. Good light in the living room, for example, can add an atmosphere of charm and cheer. It can bring out the beauty of your furnishings. It can make the room a hospitable background for entertaining . . . and an inviting center for your family's leisure hours. To enjoy both beauty and eye comfort in the living room, you need three kinds of light: (1) general lighting for overall room illumination; (2) local lighting at chairs and sofas for close visual tasks; (3) accent lighting for decorative purposes. Your lighting dealer will gladly help you choose the lamps and fixtures you need for modern Light for Living. Or call our office and we'll send a lighting specialist to help you with suggestions.

TEXAS ELECTRIC SERVICE COMPANY
JOE T. SALTER, Manager 569-3373

For close visual tasks, like reading or sewing, portable lamps should be a part of each furniture grouping. The average living room needs from three to five portable lamps.

Overall lighting adds glamour and spaciousness to rooms. A lighted valance like this provides indirect light on the ceiling plus dramatic down-light on drapes and wall.

Accent lighting with recessed or exposed downlights brings out focal points of beauty. Lighted wall brackets may be used for the same purpose.

1966 High School Graduates To Register Now For 1965-66 National Merit Scholarship Test

All 1966 graduates of Burkburnett High School who wish to enter the 1965-66 National Merit Scholarship competition should register now at the counselor office, M. D. Groenewold, counselor, announced today.

The National Merit Scholarship qualifying Test will be given in the school at 9 a. m. Tuesday, March 9 (or Saturday, March 13), 1965.

Students who will complete secondary school in 1966 and enter college in the same calendar year are eligible for scholarship consideration in the 1965-66 Merit Program. Merit Scholarships are four year awards. The extent of a winner's financial need determines the amount of his stipend.

To receive consideration, the student must take the test when it is offered in his school. Participating students pay \$1 fee. If the test is administered on a Saturday, the school may charge an additional fee up to \$1 for special administrative costs for testing on a non-school day. Any interested student who is unable to pay the fee should consult Mr. Groenewold.

A student's performance on the qualifying test also provides him with information that is useful in career planning or in selecting courses in high school and college, Groenewold stated.

After the test, each participating student receives a handbook for Merit Program Participants, prepared by Science Research Associates, the testing agency. The handbook is designed to help students understand their individual test results, to make

comparisons with scores of high school students across the country, and to use this information in making educational and vocational plans. Thus, Groenewold said, students can learn more about their educational strengths and weaknesses, whether or not they plan to attend college.

In addition to the awards made by the National Merit Scholarship Corporation, about 230 business corporations, foundations, colleges, professional associations, unions, trusts and individuals give scholarships through the Merit Program. A considerable number of other scholarship agencies utilize the services of NMSC in awarding their scholarships.

NMSC was established in 1955 through the grants from the Ford Foundation and the Carnegie Corporation of New York. An additional Ford Foundation grant to extend the Merit program through 1970 was announced in 1962.

In the period of 1956-64, about 9,100 students have received Merit Scholarship awards and thousands of other high scoring students have been assisted in obtaining financial aid from other sources.

Methodist WSCS Met In Dave Revier Home

Circle 1 of the WSCS of Methodist church met in the home of Mrs. Dave Revier with her mother, Mrs. J. B. Grace as co-hostess. Mrs. Blake Browning, assistant circle leader, called meeting to order. Opening song, "Help Somebody Today". Opening prayer by Mrs. O. E. Melton.

Mrs. Bertha Mitchell had charge of the lesson. Each member brought a Bible verse. The subject, "A New Age opens New Doors." Scripture, Mark 2:21-22. Mrs. Mitchell quoted one of the questions being thrust upon us as Christians is, "Will you make all your talk about peace and brotherhood reality in this generation?" This new age is demanding that we find new ways of thinking and acting about age old problems if we are to measure up to the awesome responsibilities that are ours.

This sounds difficult, and it is. What is needed is a way of living that is disciplined and purposeful as opposed to one that is haphazard. What is needed is a return to things of the spirit, putting aside wasteful indulgence in a false materialism. We must accept the basic facts of our human condition and strive within them for fulfillment, a mature fulfillment, which will free us for meaningful living in our time. Closing prayer.

A nice refreshment plate was

served to the following members, Mesdames: Browning, Caffee, Hall, Bunstine, Cauthorn, Lowery, Grace, Melton, Gage, Gilbow, Brady, Revier, Bazell, Bruce, Mitchell and Henry.

All About Dogs

Needed — Love and Care

The national trend of increased dog longevity is impressive—particularly when it affects you—the individual owner. Your main concern, of course, is to keep your own dog alive and healthy as long as possible.

"You can do this if you take advantage of what we've learned," says Clarence C. Fawcett of the Purina Pet Care Center.

Don't overlook the fact that your dog, just as your son or daughter, needs plenty of love and affection. Like any youngster, or adult for that matter—your pup's metabolism, appetite and digestion are affected by his treatment and environment.

No animal is quite as responsive to kindness and attention as is your pet. His greatest joy is pleasing you.

Teach him to respect—and avoid—cars! Hazards of traffic are a dog's worst man-made enemy. The number of pets maimed and killed by cars every day is shocking. All the loving care in the world won't keep alive the dog that chases cars.

One effective way to teach your dog that cars, "fight back" is with the aid of a friend, a car and a charged seltzer siphon, good water pistol or clean garden sprayer. Have the driver move slowly past your dog. When he lunges at the car, suddenly lean from the window and spray your pet, preferably in his face. This should keep him away from cars.

 Loop a short piece of wire into an empty .22 shell and fill with lead. Makes a good, light sliding sinker. Works equally well without the loop as a wrap around sinker if longer wire is used.

What Does It Take To Build A Church?

Perhaps you glance at the church on the corner once in a while and wonder what it would be like to visit during a service. What is it that draws those people to that particular building every week? What built that church?

The only possible answer is — the love of God. Their love of God prompted them to sacrifice and give so that the sanctuary might be built. The love of God compels them to meet there with others who serve Him. Their love of God compels them to "go, and tell others".

We pray that you will be drawn to such a church this week and that you will align yourself with it. You can help build it into something even better.

Year's most talked-about new cars

'65 Chevrolet Impala

It's '65's biggest, most beautiful change. There's striking new styling. New length, width and lowness. A roomier new Body by Fisher housing an interior that's a knockout. And a more serene Jet-smooth ride with a new Full Coil suspension system. Fact is, if you overlook just one thing you can easily convince yourself you're onto a big expensive car here. And that thing is its Chevrolet price.

'65 Corvair Corsa

There's never been anything like it from either side of the Atlantic. There's new thin-line hardtop styling for all closed models. More length and width, more entrance and shoulder room in all models. And a higher powered range of engines—with up to 180 hp available in the top-of-the-line Corsas. How sporty can a car get? Your dealer's got the Corvair that'll show you.
