An International Grass Roots

People travel the world for a broad spectrum of reasons. Businessmen go abroad to buy and sell. Students go to learn. Scholars go to undertake research in far-flung museums, libraries and universities. Statesmen go in their endless efforts to do something constructive about the problems that plague the world. And great numbers of people go primarily for fun, or because of wanderlust.

This has been true for many generations. But in our own era, world travel has taken on great new dimensions. The jet plane is the reason for that. It has, so to speak, conquered time. We can go almost anywhere in a matter of hours, flying high above the weather at dramatic speeds and in total comfort. The person with a two-week vacation can spend practically all of it abroad. And a gradual reduction in fares — which, incidentally, has been a pioneering effort of our principal international airline, Pan American — has vastly increased the numbers who can afford a big trip.

What this means is that there is a far greater knowledge among Americans of the wants, needs, traditions and attitudes of other peoples than ever before. The reverse of the coin is true also — the number of foreign visitors — to our shores is rising as well. They carry back home a new knowledge of America and what it stands

for. It all adds up to greater and greater understanding, at the people-to-people level. A sort of international grass roots is developing. The ultimate result must be a better, healthier, more pacific world.

DEATH NEVER TAKES A HOLIDAY

Pedestrian, you know the person who walks across the street! They're good folks to watch out for this time of year. The pedestrian should remember that traffic lights are for their safety, too. However, if you fail to observe them they don't help you to pay your doctor bill if you get hurt.

My fellow worker and I have to wait by the Central Bus Station, Wichita Falls for our ride home. Standing there watching the traffic, one wonders that there are not more people killed. Folks ignore traffic lights, cars cut corners, run thru red lights, back out of driveways into the traffic. It's not always the fault of the driver, when you or your children walk out into the traffic against the red lights, you're asking for it, and you may get a tin harp instead of a gold one, when you get to

CO-EXISTENCE IN VIETNAM

The following was excerpted from the recent letters of a young friend who is "observing" the "coexistence" in Vietnam:

"Hello there, fellow conservatives. Congratulations on the continued fine work. Maybe I can give you some incentive to fight Communism even harder by way of personal experience. I have seen the Mentagnard aborigines grind their corn with rocks. They use cross bows and poison arrows. I have been into over a hundred strategic hamlets and seen the intense disease, filth, ignorance of these pathetic people. I have seen leprosy and even a small Vietnamese girl with screw worms in her foot. I have had Vietnamese children worship me as I unloaded food in hamlets from my chopper.

"Many hamlets are surrounded by the Viet Cong enemy. We have to bring the food in by air. I have set down in a ham-

let to the tune of 500 children shouting in unison 'America OK' and then had children run over themselves trying to touch my flight suit.

"At Xuhn Loc, a town east of Saigon, the Viet Cong kidnapped the assistant province chief and town chief. They were taken to the edge of town and beheaded. The Viet Cong put their bodies in the road and laid their heads on their stomachs. More intense than ever will be my desire to fight Communism forever. Imagine co-existence with a Viet Cong! They believe in their doctrine very seriously; do we take ours that this writer is as close to Mao Tse Tung's Communism as any man can be.

"Yesterday I observed very closely three Viet Cong prisoners who were tied and bound. They still wore their black uniforms. I took liberty to walk up to one, a kid of about 17

Residential Christmas Lighting Being Sponsored This Year By Burk Chamber of Commerce

RESIDENTIAL CHRISTMAS LIGHTING CONTEST

To: The Burkburnett Chamber of Commerce

Please enter my home or apartment in your 1964 Christmas Lighting Contest. All homes or apartments are eligible to compete.

Name

Address

The Burkburnett Chamber of Commerce will again sponsor a residential Christmas Decoration Contest this year, Buddy Byars, Chamber of Commerce manager, announced today.

Four prizes will be awarded this year. Texas Electric Service Company will give the first prize winner a Reddy Light, installed. The First National Bank of Burkburnett will give the second place winner a \$50.00 Savings Bond. Third prize of a \$25.00 Savings Account will be given by the First Savings and Loan Association of Burkburnett, and fourth place winner an Electric blanket given by Texas Electric Service Company. Jerry Thomas, president

of the Chamber of Commerce, stated, "If the residential part of our city is well decorated and lighted, the entire population will be benefited by a greater understanding and feeling of the Christmas spirit."

Burkburnett residents who wish to enter the residential Christmas Decoration Contest should fill out the entry blanks published in the Burk News and Star and bring or mail them to the Burkburnett Chamber of Commerce office before December 21st.

Judging of the contest will follow four main categories: Artistic Merit, 30 points; Originality, 20 points; Lighting Techniques, 30 points, and Ingenuity 20 points.

and try to look him in the eye. This I did then turned and walked away.

This, my friend, is an experience every Christian American should have — one that will make me a better American throughout my life. There was a human robot, a life which is more dedicated to death than poison itself.

"Indeed, when free men will listen I shall always find time to inform them of the deadly menace that faces us, that cancer of the mind known to us as Communism. I feel as though I am fortunate in a way, because when I return home with possibly 500 aerial combat missions flown—I have 216 now—I will be able to tell the truth about Communism. I am fortunate because when the liberal, pink theorists start telling me how backward I am because I hate, hate, hate Communism, I can laugh at them until I become ill because of their gross, unforgivable ignorance.

"Last week northwest of Saigon, 55 miles I risked my neck to help stop a battalion plus of Viet Cong from overrunning two Vietnamese villages eight-tenths of a mile from Cambodia good ole neutral Cambodia.

These murderers came from Cambodia to strike terror, burn, kill and then return as we flew in ARVN troops. I saw them because I flew the lead ship. This is the point: "I'm telling you, the Communists are out to win.

"Terrorism, murder is a way of life for them—We either stamp out this disease in Vietnam, or we do it in Australia. If we appease, they will later come to Hawaii. Then it will be too late.

"Misfortune struck me on April 12th. While airlifting troops, I was hit in the right leg by a bullet. I presume from a machine gun. I barely missed bleeding to death but was evacuated to Saigon by helicopter. Then I was air evacuated here to the Philippines where my right leg was amputated at the knee. I'm doing fine now. Soon I will go to a large hospital in the U. S. where I'll have an artificial leg made. I fought a hard fight. It's tough over there."

AND WELL DONE

Servicemen in the Armed Forces contribute millions of dollars to charity and other causes. When there is need most of the service men give to help out.

Personally I would like to say well done!
A Merry Christmas and a Happy, Peaceful New Year.

IT'S UP TO YOU

Howard E. Kershner, L.H.D.

THE HOLY FAMILY

LET us drop our controversial comments for a few minutes and turn our minds and hearts toward Christmas, for it is a day of family celebration. We travel long distances to spend this day with loved ones. Children bringing their children return to the homes of their parents. Family circles are completed and we find great joy in the beloved group.

Dr. Kershner

With all the feasting, music and enjoyment of presents it would be well to remember the significance of the family circle and especially the Holy Family circle. Today, supremely, we celebrate the coming of Jesus Christ into an earthly family and the setting up of a holy ideal which makes possible the joy we experience in family reunions.

Beyond that is the plan of salvation, the inauguration of the way in which man may be reconciled to God. Therein is the source and secret of the happiness which we feel on Christmas Day.

Before the coming of Christianity women were mere chattels. The family circle as we know it, with mother enshrined as the focal point, was not possible. Respect and honor for women, making possible the loving family group with its sacred relationships, was one of the gifts of Christianity to our benighted world.

The thought of helping others, of a heart which overflows with love to God and expresses itself in kindness and helpfulness toward its fellow human beings is another accompaniment of the coming of Jesus Christ into our world. It is the source of our desire to help others and of the blessings that shower upon us when we give generously of our time and means to those who are in need.

The Holy Family of Joseph, Mary, Jesus and the other children was not merely an earthly circle. It was a part of heaven projected earthward. It makes us a part of heaven. It is the brightest hope of the world. It supplies us in microcosm an example of how evil may be overcome; of how strife and enmity may be vanished; of how poverty and war may be conquered; and of how men of all races may live together in peace and harmony. It is the hope of mankind. We do well to consider it a sacred day and with all the earthly happiness it brings let us not fail in our adoration of Christ, our love and dedication to God, and our supreme resolve that we shall so live as to help bring to the whole world the happiness and peace which the Saviour whose Birthday we celebrate makes possible.

This Peaches 'N Cream Cheese Cookie Pie is so easy to prepare that you'll want to treat the family to it often. Peaches 'N Cream Cheese Cookie Pie
1 roll refrigerated butterscotch nut cookies
8-oz. package cream cheese
1/2 cup powdered sugar
1 egg
can (2 1/2 cups) peach pie filling

Lightly grease and sugar the bottom and sides of a 9-inch pie pan. Cut cookie dough into slices 1/4-inch thick. Line bottom and sides of pan with cookie slices, overlapping slightly to form a scalloped edge (use about 1/2 roll). Bake at 375° for 8 to 10 minutes, until light golden brown. Cool.

Combine softened cream cheese, powdered sugar and egg. Beat until smooth. Turn peach filling into cooled crust; spread cream cheese mixture over top. Bake at 350° for 25 to 30 minutes. 8 servings.

Jr. Forum Study Club Met Tues., Dec. 8th In Jim Goff Home

The Junior Forum Study club met Tuesday evening Dec. 8th in the home of Mrs. Jim Goff. Ten members answered roll call by naming a Nationa Park.

Mrs. Raymond Schroeder gave a devotional on "Sampson."

Mr. Bryan Farris, FFA and agriculture teacher at Burk Burnett High School brought the program on "Saving Mother Nature for Tomorrow." He explained that conservation of the gifts of nature is the responsibility of every man, woman and child, not the farmers problem alone. He pointed out the fact that conservation is the best insurance and that lessons taught by mother nature are much more expensive than common awsuits. Americans unlike the Indians kill for sport and do not make use of all animals killed, thus upsetting natures balance. He said man should appreciate the gifts of nature and use them with conservation.

Following the program, Mrs. Jim Goff presented a special on conservation.

Mrs. Keith Hubbard, Federation Counselor, brought a paper on GFWC Jr. Care program concerning the purchase of "Little Bells" bracelets to be sold to raise money to build schools in Old Mexico.

Members then made final plans for the Christmas party to be held Dec. 19th in the Texas Electric Reddy Room. It was decided that instead of giving a basket of food to a needy family this year, each member

would bring a toy to be given to a needy child.

The meeting was adjourned and refreshments served to the following members, Mesdames: John Gill, Richard Smith, Keith Hubbard, C. L. Pruett, Robert Williams, Wayne Smith, Raymond Schroeder, James Roderick, Bill Wood, hostess, Mrs. Jim Goff and one guest, Mrs. Ralph Beckett.

Door prize was won by Mrs. Wayne Smith.

OPERATION "DEATHWATCH" DEC. 24 thru JAN. 3 ESTIMATE 105 MOTORCIDES

The figures above represent the estimated toll of 105 lives expected to be lost in Texas traffic accidents during the 11-day holiday period from December 24 through January 3. During this period, the Texas Department of Public Safety will tabulate these tragedies as they occur and make periodic releases in an effort to focus public attention on the added dangers of holiday travel. A special appeal has been issued to Texans to do their part in proving the estimate is too high.

21 Accidents In Wichita County In November

There were 21 rural traffic accidents in Wichita County during the month of November according to Sergeant E. L. Stroud, Highway Patrol Supervisor of this area.

From these crashes resulted one death, eight persons injured and a loss of \$11,635.00 in property damage.

Summarizing rural traffic accidents from January through November of 1964, the picture shows 179 wrecks, 12 persons killed, 118 persons injured and \$137,991.00 in property damage.

The most deadly month of the year is here again. The Patrol supervisor stated that during each month of the past five years there was only one month higher than the month of December. Of the 12,171 persons killed during the last five years over 10 percent of them were killed during the month of December.

Of the 1,246 persons killed in traffic accidents during the month of December over the past five years over 30 percent were killed during the Christmas holidays. This means that the Christmas holidays are about three times as deadly as the remaining days during the month of December.

The month of December for 1963 was the most deadly month in the history of Texas. The Sergeant appealed to every motorist and pedestrian, "Please do not let this become a reality again."

TRAFFIC FACTS

Given By BURKBURNETT STUDY CLUB

A survey of safety experts shows this is what's wrong with teen-age drivers: They want to be too good too soon, not sensing that experience on the highway is the only way of learning how to be a good driver.

As a general rule, a person can't make big money without having a high regard for what it will buy.

WHY CAN'T I MAKE ENDS MEET?

By HARRY BROWNE Editor, Freedom Magazine

"Why is it I can never seem to make ends meet? I'm making more money than I ever made in my life, yet I'm no further ahead."

"Why is it if I provide a product good enough to please my customers, the cost is too high for them to afford it?"

"Why does it seem that the only way we can afford the basic necessities of life is by borrowing? And even that has now run its course; we're in debt up to our ears!"

How many times have you heard comments like these?

They are typical of the dilemmas facing so many Americans. Despite new tools and technological effort, everyone's in debt prices of things we want are just out of reach, and no one ever seems to catch up.

WHY

We Americans are being defrauded. There are two roadblocks between ourselves and prosperity. But they're sneaky roadblocks—most of the time we don't even notice them.

These two roadblocks are TAXES and INFLATION.

Both emanate from government.

How much of your annual income goes to taxes? Do you have any idea? Would you guess that it's a couple of hundred dollars?

The California Taxpayers' Association recently reported that the total cost of government averages \$981.86 for every man, woman and child in California. This means a tax load for a family of four of \$3,927!

Federal, state and local taxes eat up over 30 percent of our productive efforts. Oh, I know your income tax probably isn't that high. But that's only one tax.

You pay property taxes, excise taxes, sales taxes and vehicle taxes. Not only that—the cost of everything you buy is increased because of corporation taxes, import taxes, taxes on financial transactions, etc.

This means 30 percent of all of the time on your job is spent working for the government. This means that a man who opens a restaurant must charge \$3.00 for a meal that's only worth \$2.10 to his customer. This means that the new wealth of the nation is lowered by 30 percent every year.

HOW

The word "TAXES" actually includes inflation — for inflation is just another way the

Company Coming Christmas?

government taxes its citizens. It prints valueless Federal Reserve Notes to pay for its expenditures. These notes take on value in circulation only by removing value from the dollars you already have. This is how inflation raises prices.

You pay the cost of government. It doesn't matter if the taxes are applied against your income, your property or the companies you do business with. It all comes out of your hide.

Where do these taxes go? Everywhere from financing poorly administered government business adventures to fluoridating your city water supply.

Since everybody's going on strike these days but us—when are we taxpayers going to go on strike?

To please everybody is impossible, so I don't even try.

News From The County Agent

Container-grown rose plants can be planted any time of the year, but many are set out during the winter and early spring months. To insure proper growth, several things should be considered.

Cut the container down to the bottom on both sides if the nurseryman has not already done so. Then dig a hole about six inches larger than the diameter and equal to the depth of the container. Remove the plant from the slit container and place it in the hole so that the bud union is about even with the soil surface.

Hybrid tea roses should be planted 24 to 30 inches apart, and floribundas should be set 16 to 24 inches apart. Newly planted roses, whether bare-root or from containers, should be watered often enough to keep the soil moist.

Using a two to three inch mulch over rose beds is highly recommended. Such a mulch will reduce the frequency of watering, keep the soil cooler to reduce both winter injury and summer drying and tend to keep down weed growth during the growing season. In applying mulches, keep the material about four inches from the bud union.

Good healthy roses, planted properly, will thrive with minimum care. The most important consideration is to keep them from drying out during the growing season.

One precautionary measure contrary to many old time recommendations and the beliefs of many gardeners is this: Never put fertilizer on roses at the time of planting. This means no fertilizer of any type should be placed below or around the roots or on top of the soil surface. Any excess of fertilizer around a newly planted rose bush may do more to prevent or retard root growth than to promote it.

With the fall season well underway, dairymen should begin checking their management to make sure they are ready for the colder weather that lies ahead.

Cow comfort is a major point to check for the coming months, explained B. T. Haws, county agent. A dissatisfied, uncomfortable cow is not going to perform at her best. Special attention should be given to good feed and adequate shelter; remember, contented cows usually make a more contented dairyman.

The county agent advises dehorning now that the normal fly and screwworm season is about over. This practice will save space at the feed rack and in the shelter barn. It will also prevent injuries to cows and heartaches to the owner. There is no place for horns in the modern dairy herd, asserts Haws.

Any herd can be improved by culling lowest producers, hard breeders and least desirable cows. Feed being consumed by unproductive cows can be saved and supplied to those that will utilize it more efficiently and productively for added profits. Now is a good time to cull those cows that will not carry their part of the load during the coming months. Carrying "dead weight" through the winter can only mean a reduction in profits.

Of all sad words the least welcome to me as a reader of newspapers and magazines are 'continued on page'.

An Enjoyable Egg Dish
Eggs make a nourishing and enjoyable meal, when combined with cheese. Baked eggs can be served for brunch, lunch or a light supper.

1/4 lb. sharp Cheddar cheese
4 eggs
6 Tbsp. light cream
1 tsp. powdered dry mustard
1 tsp. Lea & Perrins Worcestershire
1/2 tsp. salt
2 Tbsp. butter or margarine

Shred cheese on a coarse grater and sprinkle over the bottom of a buttered glass 8-inch pie plate. Break 4 eggs over the cheese, being careful not to break the yolks. Combine cream, mustard, Worcestershire and salt, and pour over the eggs. Dot with butter or margarine. Bake in a preheated moderate oven (350° F.) 15 to 20 minutes, or until eggs are set and cheese is melted. (Serves 6 servings)

LET'S NOT FORGET THIS . . .

"And she shall bring forth a son, and thou shalt call his name Jesus: for he shall save his people from their sins." Matthew 1:21.

For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.

"For God sent not his Son into the world to condemn the world, but that the world through him might be saved." John 3:16, 17.

We invite you to celebrate the birth of our Saviour by attending church this week, and by spreading good will everywhere you go.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

DEVOL NEWS

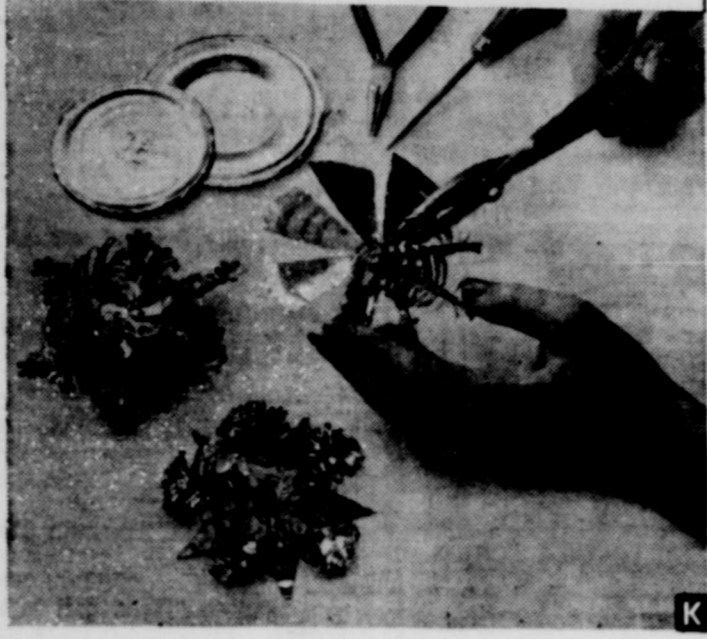

C. O. Woodley, Reporter
Christmas program will be held at the Baptist church on Friday night, Dec. 20th. Features of the program will be a play, "The Christmas Story," Mr. Charboneau, who is 90, will tell the story assisted by Mr. Charboneau and will be acted in pantomime by the people of the church. Everyone is invited to attend.

Esther Willis of Rush visited her brother and Mrs. A. J. last Thursday. Mrs. Jim Fender of was guests of his sister and brother-in-law, Mr. and Mrs. G. Weaver Sunday. Wallace Reid and child Grandfield visited her family, Mr. and Mrs. Harrison, Saturday. Wheeler was a guest in the home of Rev. Mrs. Howard Lester in a Christmas party in the afternoon and singing of carols. J. Mays of Dallas spent weekend with his parents, Mrs. Aubrey Mays, and Mrs. John Rankin of visited her brother, Mr. and Mrs. Ivan Powell.

Mr. and Mrs. Harold Kirby of Wichita Falls were Friday guests of her parents, Mr. and Mrs. W. C. Charboneau. Gertrude Farmer has reported on the sick list. Doty, son of Mr. and Mrs. Harvey Doty, who was ill week, was reported able to return to school Monday.

Mr. and Mrs. Norman Whiteley of Martinez, Calif. arrived this week to spend the Christmas holidays with his sister and brother-in-law, Mr. and Mrs. Aubrey Mays and other relatives. Mrs. Lorene Raleigh and children left last week to join Sgt. Raleigh in Charleston, S. C. where he was transferred after completing an 18 months tour overseas. Sgt. Raleigh had been stationed at SAFB several years before going overseas and the family made their home in Devol.

Christmas Cut-Ups

A spreading seasonal hobby is making Christmas medallions from tin-can tops. All you need are needle-nosed pliers, an ice pick and a pair of small tin snips. Cut tin-can lid into six even divisions, leaving a dime-size uncut area in the center. Then cut each section into thin strips, taking care to cut first from the right, then from the left of the section, leaving an uncut strip down the center of section. Snips will cause thin strips on left to curl up automatically; on right, to curl down. Using pliers, you can twist these curls into any other pattern desired. The ice pick is for punching a hole to string medallion on tree.

Officers Elected For Auto Mechanics Club

By Lahna Wood
This year a new class has been added to the schedule of BHS. This new class is Automobile Mechanics.

There are two of these Auto-Mech's classes; one in the morning with 16 boys and one in the afternoon with 17 boys. In both classes the boys have one hour of classroom work and study and two hours of shop. Mr. Leon Pace, the instructor of this class says that the boys "Learn by Doing." Mr. Pace also said they were trying to study the actual shop practices. In addition to the lesson and work, the boys have a test each week, except at six weeks when they have a six weeks test just as other classes do. There are freshmen, sophomores, juniors and seniors in Auto-Mechs. Each boy receives 2 credits upon completion of the course.

Mr. Pace said that they were studying electrical wiring, cooling, ignition parts, engine overhauling, transmissions, how to repair differentials, brake repairing and major and minor engine tuning. The boys will have approximately \$8,000 worth of equipment at the end of the year. All of this action takes place in a new Butler building, 40 x 80 feet located behind the gym.

Next year there will be two classes; one for beginners and an advanced class for those who have already taken the course.

In the Homecoming Parade the classes had 6 cars from the area dealers.

The classes are divided into 4 groups with a team captain of each. Each team repairs various components of an automobile. In the morning class the team captains are: Dan Hanks, Gary Harwell, Jerry Austin and Johnny McMullen. In the afternoon class the team captains

are Sammy Wise, Melton Cash, Rusty Ratliff, and Pete Van Winkler. The boys work on their own cars and those of the faculty. Students are invited to let the boys work on their cars.

Each class also has a club in which they elect officers from those who are in the class. Each club has a weekly meeting. The officers of the morning class are:

Dan Hanks, President; Johnny McMullen, vice president; Kevin Miller, Secretary; Gary Harwell, Reporter; Pete Quick, Treasurer; Mr. Pace, Sergeant at Arms.

In the evening class the officers are: Sammy Wise, president; Ronny Crain, vice president; Melton Cash, secretary; Jerry Gowan, reporter; Rusty Ratliff, Treasurer; Jerry Roe, Sergeant at arms.

Those who are taking the class in the morning are Jerry Austin, Richard Bell, Chester Bowling, Melvin Davis, Dan Hanks, Gary Harwell, Larry Locke, Kevin Miller, Johnny McMullen, David King, Jackie Pace, Pete Quick, Harrell Steele, Ray Simmons, Martin Trones, David Wampler and Ronald Gilbreath.

Those who are taking the class in the afternoon are William Black, Terry Brown, Melton Cash, Ronny Crain, John Derrow, Ronnie Dodson, Jerry Gowan, Dewayne Kinnett, Jim

Martin, Bob McDaniels, Jerry Roe, Glen Smith, Rusty Ratliff, Pete Van Winkler, Mike Garner and Sammy Wise.

The 1965 Ford rides quieter than a Rolls-Royce!

Hard to believe? Maybe . . . but it's true. The Ford ride proved quieter in tests conducted by the world's leading acoustical consultants (Bolt, Beranek and Newman, Inc.). These tests were certified by the U. S. Auto Club. But come make your own test. And be ready for many other Ford surprises.

And gives you luxurious new features like these...

Silent-Flo Ventilation (on 4-door hardtops). Fresh air is drawn in, stale air removed even with all windows closed.

New ultra-luxurious Ford LTD has quilted nylon-and-vinyl upholstery, thick cut-pile carpeting, rich walnut-like paneling in doors and instrument panel, and (like all Fords) —spaciousness. Even more hip, shoulder, knee room than last year.
