Here and There AROUND BURKBURNETT

Mr. and Mrs. J. C. Adams, Jr. and little daughter spent the Easter holidays with Mrs. Adams parents, Mr. and Mrs. E. C. Jones of Hamilton, Tex.

Mr. and Mrs. Douglas Moody of Abilene, Texas were in the city last week visiting friends and relatives. They visited in the home of Mr. and Mrs. H. C. Day who returned to Abilene with them for an indefinite visit.

Mrs. Sam Weaver of West 4th St., has returned home after a few weeks stay in a Wichita Falls hospital.

Mr. and Mrs. Kenneth Gage of 202 Mimosa St., had the misfortune of having their home partially burned last Thursday. The fire was supposedly started by lightning, during the electrical storm. The kitchen was completely ruined and a large portion of the house damaged by smoke and water. Mr. Gage estimates the loss at approximately \$2500.00 and states it would have been far more had it not been for Burkburnett's efficient and prompt Fire Department. We all, too often, fail to give these "Fire Boys" the credit that is due them.

Mrs. A. B. Sharp visited her son Gary through the Easter holidays. Gary attends Texas Tech. University in Lubbock, Texas.

Mr. and Mrs. Cecil Wheeler and daughter, Lynette of Amarillo spent a few days last week with Mrs. Wheelers parents, Mr. and Mrs. F. E. Scruggs of this city.

Mr. and Mrs. J. B. Morris left Friday on a vacation trip in Old Mexico. They are planning to spend a few days in Mazatlan, a coastal city and other points of interest.

Mr. and Mrs. Leo Dudley had as their guests this week, their daughters and families, Mr. and Mrs. A. D. Breeding and son of Baytown, Tex., and Mrs. O. H. Calloway of Wichita Falls.

Mr. and Mrs. B. N. Cauthorn spent the weekend with their son, Mr. and Mrs. Bill Cauthorn and family in Liberty, Texas.

Mr. and Mrs. Harold VanLoh and Mrs. J. H. Brumley visited their son and grandson, Kenneth VanLoh, through the Easter holidays. Ken is attending Roswell Military Academy in Roswell, New Mexico.

Club Praises Newspapers

Mr. Harry Dodson, Editor of the Burkburnett Star and News, Theta Epsilon Chapter of Epsilon Sigma Alpha and I would like to thank you personally for the important role you have played in making Burkburnett a better place in which to live.

Despite the development of radio and television as communications media, the newspaper today holds a stronger position than ever before. Papers like our own Burkburnett Star and News are the bulwarks of our democracy.

Epsilon Sigma Alpha in general—and Theta Epsilon Chapter in particular, is highly cognizant of your part in preserving our freedoms.

As an educational, philanthropic and social organization, ESA is striving to keep our democracy strong and our nation free. We firmly believe that the woman of today must be an intelligent, informed woman. She must know what's going on in this world before she can do her share in preserving these liberties we hold so dear.

Your newspaper has a proud tradition to uphold. All too often, unfortunately, it's a thankless job.

So we of ESA would like to offer our "thanks", through this public forum, for a job well done.

Appreciatively,
Mrs. Clyde Slusher, President

BADLY NEEDED BALANCE

BUSINESS VOICE NEEDED

The outstanding political fact today is that organized labor has developed the most effective political organization in the country and "one-faction" government is a very real threat.

The AFL-CIO can now count as its friends and supporters well over half of the members of the House and Senate and is in a position to dominate the making of the laws and the course of national affairs.

To help restore representative government, American business has created BIPAC — the Business-Industry Political Action Committee — to give the same kind of campaign support to congressional friends of business that COPE, the political arm of the AFL-CIO, gives to labor's friends.

BIPAC is a non-partisan organization of individual citizens devoted to the principles of government embodied in the Constitution, to maintaining fiscal responsibility, and to preserving free enterprise. Its headquarters are in New York.

Businessmen's Political Committees are being established in each state, through which BIPAC will work in cooperation with national, state and local business associations, to support candidates for Congress, regardless of party affiliation. It also will conduct a continuing program of political education to win understanding and support for its principles among the voters.

By organizing the great political potential of the business community, BIPAC can help correct the great imbalance which now exists in Congress and assure the continuation of truly representative government in this country.

Motorists planning vacation trips choose most frequently as their destinations six large metropolitan areas and six huge national forest areas. So report the more than 11,000 dealers of American Oil Company who display the familiar "As You Travel, Ask Us" sign. From West to East, the travel favorites are: San Francisco and Yosemite National Park; Grand Canyon; Yellowstone National park; the Black Hills and the Bandlands, in South Dakota; Chicago; Great Smoky Mountains National Park, in Tennessee and North Carolina; Miami-Miami Beach; Washington, D. C.; Philadelphia; and New York City.

The nation's gas industry, which includes distribution and transmission companies, increased the gross value of its plant by 119 percent from 1954 through 1964. This boosted plant value to \$27.6 billion, making the gas industry the nation's sixth largest.

The common idea that success spoils people by making them vain, egotistic and self-complacent is erroneous; on the contrary, it makes them, for the most part, humble, tolerant, and kind. Failure makes people cruel and bitter. — Somerset Maugham.

REPLY TO THE NCC

Mr. Fletcher Coates
Dear sir:

Is it true that in 1952, 95 translators, 30 of whom had been affiliated with pro-Communist fronts, projects and publications, completed and copyrighted the Revised Standard Version of the Bible for the National Council of Churches? Is it true that among the many changes, Isaiah 7: 14 removed the Virgin Birth from the prophecy? Is it true that in June, 1961, the General Board of the NCC voted 56-44 to support Martin Luther King in organizing Freedom Rides, sit-ins and demonstrations? Is it true that the NCC and the Communist Party promoted the March on Washington? Is it true that leaders of NCC ran a full page ad in the New York Times advocating that we get out of South Viet Nam as the Communists applauded? Incidentally, Mr. Coates, who paid the many thousands of dollars that ad cost? Surely not a bunch of "poor preachers"? Is it true that NCC has income tax exemption and that donations to it are tax exempt? Why? The Internal Revenue Service regulations state that "contributions are deductible to religious organizations unless the organization conducts propaganda or otherwise attempts to influence legislation." Is it true that on December 23, 1952, Langston Hughes was positively identified under oath by Louis Budenz as a Communist? And is it true that in 1957, five years later, more of his writings than any other writer had been placed on the recommended reading list by the Department of Racial and Cultural Relations of the NCC? Is it true that many Communists and leaders of NCC are members of the National Committee to Abolish the House committee on Un-American Activities? And that the Christian Century, on whose board are Dr. Eugene Carson Blake and W. C. Parlin, President of World Council of Churches, editorialized as follows in its December 9, 1964, issue?

"The Christian Century has declared its opposition to the House Un-American Activities Committee as both an ineffective instrument and a threat to the nation's welfare." Is it true that the Christian Century in its June 3, 1964, issue called for J. Edgar Hoover's retirement?

Isn't it true that Walter Reuther, who was described as a Socialist by his predecessor President of the United Auto Workers and as a Marxist by John L. Lewis, works extremely closely with Dr. Eugene Carson Blake, Bishop James A. Pike and other NCC leaders? Reverend Cameron P. Hall, Executive Director of the Department of Church and Economic Life of the NCC New York office, states that Walter Reuther is a member of their General Committee and that he is held in high esteem by outstanding leaders throughout the church. Do you believe brother Hall? Is it true that Walter Reuther's brother, Victor, is the

Walter Reuther on August 20, 1964, reportedly told a Detroit newspaper reporter that he has no church affiliation? Are you aware that after a speech to the Young Socialist League is

Department's Vice chairman? Are you aware that this same 1936, Walter Reuther, when asked, "Do you believe in religion and God or in science as a religion?" replied: "We do not believe in God, but that man is God." That is unadulterated Marxism and brings to mind these questions: Can Marxists hold office in the NCC? Is it necessary to believe in God to be an officer of NCC?

Isn't it strange how many aims and objectives the Communists and the NCC have in common? And particularly the Communists and Socialists and the individual leaders of the NCC? Isn't it true that the Communists and NCC leaders worked like Trojans to defeat Proposition 13 in California, which allows home owners to discriminate in the sale or rental of their homes? Wherein does your program for America differ from what criminal conspiracy called Communism advocates for us, Mr. Coates?

Yours Truly,
TOM ANDERSON

MOUNTAIN TOP

"MOUNTAIN TOP EXPERIENCES"... It is not yet vacation time, however that time is approaching and we start remembering the wonderful feelings and experiences of our last trip to the mountains, and now we can start to plan new adventures.

That closeness, and the exciting feeling when worshipping the Lord is often referred to as a "MOUNTAIN TOP EXPERIENCE." We invite you to come worship the Lord in his house, and receive the joys of being close to God. Attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long endure and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Purcell Asks Engineers To Proceed Rapidly With Water Pollution Control In Red River

Representative Graham Purcell today urged the U. S. Corps of Engineers to proceed as rapidly as possible with water pollution control in the Red River Basin. A statement prepared for Purcell to be held by the Engineers in Wichita County today, Purcell said. "We have a deep and lasting interest in the quality of the water in the Red River Basin." Pointing out that the sources of pollution which control works are being considered at the time outside the 13th Congressional District which he represents, Purcell's statement said. "However, insofar as the water flow flows down the Red River into Lake Texoma, we have a definite interest in the improvement of the work. The Red and Little Wichita Rivers almost wholly within my district and it is to these that my interest is primarily directed."

of good quality water is vital for the industrial and agricultural growth so badly needed in this area, and that the water supply available will be "one of the most significant factors that will affect the future economic growth of this part of Texas."

"Construction of the works proposed by the Corps of Engineers in the headwater areas of the tributaries to the Wichita River, so as to cut off the inflow of salt to Lake Kemp is one of the next steps that must be taken toward this goal (of an adequate water supply for the area)," said Congress Purcell. "The need and justification for this work is so apparent that there is little that I can add."

Purcell concluded, therefore, I endorse the proposed program for improving the quality of these rivers and urge that the report be completed promptly and submitted through appropriate channels to Congress, so that the needed works can be authorized and funds made available to accomplish the work.

16 Accidents In County During Month Of March

There were 16 rural accidents in Wichita County during the month of March, according to Sergeant C. L. Stroud, Highway Patrol Supervisor of this area. These crashes resulted in 9 persons injured and an estimated property damage of \$9,572. The rural traffic accident summary for this county for the first three months of 1965 shows a total of 52 accidents resulting in three persons killed, 34 persons injured, and an estimated property damage of \$32,137.00.

The final entry in the 1964 Texas Traffic book has been entered and closed with an astounding record. Yes, an all time record of 3006 persons were killed, 182,081 persons were injured, and there was \$486,846,000.00 property loss. This compares to the 1963 record high of 2,729 persons killed, 161,543 persons injured, and an estimated property loss of \$432,715,000.00.

Since the death count of 2,254 in 1960, Texas has gained each year steadily. The Sergeant stated, "If the death count increases during the last six years of this decade as it has during the first four years the death count will stand at 4134 in 1970." What is the remedy? Only you, Mr. Motorist, hold the answer.

Christian Crusade To Be Held In Wichita Falls Sunday, April 25th

Communist infiltration will be the keynote of the message to be delivered in Wichita Falls Sunday, April 25th at 2:00 p. m. when Christian Crusade, anti-communist organization of evangelist Billy James Hargis, Tulsa, Oklahoma, presents a one night anti-communist rally at the Holiday Inn in the Holiday Room.

Speaker at the rally will be Major Pedro Diaz Lanz, one-time commander in chief of the Cuban Air Force under Fidel Castro, and who was the first high ranking officer to denounce the Cuban dictator as a communist. He barely escaped with his life in 1959, shortly after he publicly split with Castro. Later in the year, flying an unarmed aircraft from a Florida base, he "bombed" Havana with leaflets warning Cubans of their fate under communism and Castro, and was arrested and jailed by the United States Department when he returned to the United States mainland. He was fined \$2,000 because of the incident.

Lanz will level several accusations at the U. S. State Department and will reveal the names of Cuban refugees now in this country whom he believes to be little better than communist "plants," now being infiltrated into refugee Cuban groups for a take over of the Cuban government after Castro is deposed.

The daily network broadcast, "Christian Crusade" is carried by radio stations in over 40 states and Canada and Mexico. Dr. Hargis publishes two national publications, Christian Crusade and Weekly Crusader. Probably the most famous and sought after speaker among the anti-communist organizations in the United States, he makes over 250 personal appearances each year throughout the nation. Feature articles on his anti-communist activities have appeared in Newsweek, Life, Time, Look, Saturday Evening Post and on nationally televised programs such as "Chet Huntley Presents" and "CBS Reports", and most recently on "Issues and Answers," ABS-TV and Radio Network program.

Members of Christian Crusade's National Advisory Committee include over fifty prominent American military figures, teachers, clergymen, statesmen, attorneys and professional men. Admission to the Christian Crusade meeting is free and the public is invited.

Survey Names Six Flags Top Attraction In Texas

In a statewide survey taken for the Texas Tourist Development Agency in October 1964 by Belden Associates, Six Flags Over Texas was ranked as the most popular single tourist attraction in Texas.

The story behind Six Flags vaults into such lofty prominence after only four years of existence is practically unparalleled for its dramatic growth and public acceptance.

The 115 acre, \$13,000,000 historical theme recreation Park commences its fifth season of operations April 18th. The four previous years has seen a steady and impressive increase of visitors from throughout Texas as well as every state in the Union. Beginning in 1961 with 564,000 visitors, attendance has soared to 1,272,000 in 1962, 1,433,000 in 1963 and 1,622,000 last year.

The opening paragraph of the summary of the 1964 Belden Survey says "Six Flags Over Texas, the amusement park between Dallas and Fort Worth, now ranks as high as the Alamo as a top tourist attraction in the state in the view of Texas residents. Between 1962 and 1964, the dates of two comparable surveys reported here, the Alamo and Other Missions maintained their popularity with 39 and 38 percent each year. Six Flags increased from 12 to 38 percent." A fitting chapter in a continuing growth story.

Obscenity Encouraged

A BOOK catalogue has been called to my attention showing the extent of obscene publications in our country. The catalogue lists about 250 items about 98 per cent of which, judging from the descriptions, must be classified as extremely obscene.

We have not seen any of the books but judging from the descriptions in the catalogue they reach a new depth of the vilest depravity. The catalogue contains nude pictures and offers for sale such pictures described as "dozens of the juiciest nymphs ever exposed," along with other unprintable descriptions. Extreme criticism has always been a prominent indication of a declining society. Those whose chief interest is in sex are not sufficiently constructive to maintain a civilization. America must react strongly against this evil that is being so energetically promoted among us (probably with the design of destroying us if we are to continue) as a part of a great civilization.

A press report from San Francisco discloses that clergymen of four Protestant denominations helped sponsor a private benefit for homosexuals in that city early this year. The report reads in part as follows:

"The ball was attended by nearly 500 homosexuals and their friends, and a dozen ministers, to raise funds to promote a dialogue between the church and the homosexual."

Sodomy is an ancient vice condemned in both the Old and New Testaments. It is strange indeed that Protestant clergymen, who should be aware of the evils of this moral cancer, were found sponsoring a benefit for those who engage in homosexual activities. More than any other group of professionals, our clergymen set the moral climate of our country. Assuming the integrity of the press report, it is a sad day when those who have been appointed to proclaim the truth of God in our land have gone over and identified themselves with the camp of the Devil. We believe that most of our clergymen will join in rebuking the few who have so defected, and we urge Americans everywhere to pray for and support all faithful ministers who are holding the line against immorality and other forces of darkness.

ESA International Week, May 2-8

Mrs. Clyde Slusher of the Theta Epsilon chapter of Epsilon Sigma Alpha here, yesterday explained why the internationally known sorority observes May 2 through May 8 as "ESA International Week."

"Epsilon Sigma Alpha is one of the oldest off-campus sororities in existence," Mrs. Slusher said. "It was founded in 1929 at Jacksonville, Texas, by a group of energetic women who believed that when the doors of academic education close behind us on graduation day, we face a severe challenge."

"That is the challenge of fitting into the economic and social structure of the fast-paced world around us. So many young women of today either fail to understand their roles and responsibilities in that world—or understanding it, still fear to assume it."

The local ESA president said the sorority developed into an international organization soon after E. Robert Palmer assumed command of the sorority in 1941. Palmer is a widely recognized educator, philosopher, author and lecturer.

"Now that ESA is international in scope," Mrs. Slusher said, "We have the opportunity to help spread ESA's principles of freedom and equality throughout the world."

ESA International Week recognizes all three facets of our sorority—the social, the philanthropic, and the educational. But during that week, our 1,500 chapters and more than 40,000 members place special emphasis on our philanthropic projects.

"Here in Burkburnett, for example, Theta Epsilon has undertaken such worthwhile projects as presenting a scholarship to a deserving high school senior; a Thanksgiving basket of food to a needy family; a Christmas basket of food, clothing, bed linens, towels, washcloths, toys, etc., valued at \$106.00 to a needy family who otherwise would not have had a Christmas; as well as helping with the March of Dimes, Easter Seal Drive and will help with the scheduled Cancer Fund Drive. Also, money and merchandise were donated to the Children's Center in Wichita Falls. These are some of the many things this chapter has undertaken during the past year," Mrs. Slusher said.

"We're proud of the contributions we make to our own community. But we're equally proud of the more than \$1 million annually which ESA chapters just like this one are donating to the welfare and comfort of the needy everywhere."

Swimming Lessons

The Burk Swim Club officials urgently and courteously request that parents of children desiring swimming lessons for the 1965 season refrain from calling the instructors or management. At some date to be set later, a time will be set for registration and will be carried in the BURK STAR in ample time for all interested.

"FACTS FROM FAR CORNERS"

by Vant Neff

Once upon a time, Brazil's cruzeiro was worth 50¢—two to the dollar. Today the rate is 1650 to the dollar! How come? Because of the wildly inflationary policies of a string of Brazilian politicians who had a ready answer to every economic crisis: spend more money.

Same story in Sukarno's Indonesia. There the rupiah is officially pegged at 45 to the dollar, but its real value on the free market has plummeted to 4500 to one dollar!

Could it happen here? It could and it has. A little more slowly, of course, yet I can remember when six bucks bought a good pair of shoes, fifty cents a steak, a nickel a bus ride or a telephone call!

Who's complaining? Not you and me—not as much as we should. For, though everything costs more, we're earning more too. When wages and prices both skyrocket, we feel we're doing fine. We're not likely to get upset about the slow but steady decline in the real value of our savings, insurance, government bonds, and so forth. That life insurance worth \$1000 when you bought it twenty years ago will buy only \$400 worth of anything at today's prices.

But we're not likely to raise our voices enough to be heard against the clamor for federal handouts, 35-hour work weeks and other spurs to inflation. We let ourselves be drowned out by the corps of government economists who feel that "planned deficits" are just dandy.

Results? Wages go up. Prices go up. Credit gets easier. Money gets cheaper. The spiral goes round and round, higher and higher, and common sense is forgotten in the euphoria.

But, before we all just lie back and enjoy the spin, we might take a minute to figure just how much, for example, our retirement income will be worth if the dollar is allowed to continue its steady rate of decay.

We provide wheat for the Russians. Koyun provides aid to the Viet Cong; so, like the damned fools we are, by helping Nasser, we pay for his armies attacking Yemen. How much more evil could Sukarno do if we hadn't given him the money to be dastardly?

Washington's unearliest men-in-the-middle: Senators and Congressmen from the 19 states with right-to-work laws in force. A battle royal is shaping up between down-home demands to keep the laws and pressures by union masters to wipe them off in one wholesale sweep.

Issue in Section 14-B of the Taft-Hartley Act, that section which permits states to keep right-to-work laws if they choose. The union hoppers—Meany, Reuther, Carey, et al—have the notion their wad of union votes entitles them to ignore the Congress, and

Meanwhile, back at the grassroots, the clamor is just as loud to keep 14-B intact. Up in arms are tens of thousands of workers who don't think they need unions and don't want to pay union dues as a condition to holding their jobs. They are the ones who sent the legislators to Washington to fight for their right-to-work laws, and they're the ones who can see that they don't go back.

This all the while Russia is spouting peace before the eyes and ears of all listening nations.

Did you know that we are helping finance Castro's Cuba? It works something like this: We give the money to the United Nations and the United Nations Agricultural Fund relays substantial portions to Castro's Cuba.

Analysis of the decisions by the National Labor Relations Board throughout the past three years would make clear that the Board thinks business is always wrong—and union leaders are always right. No wonder that lawyers and businessmen feel that cases under federal labor laws should be tried in the federal courts and not left to the bias of the present NLRB.

Did you know that we are breaking the U. N. Charter every year? It is mainly stated in this magnificent instrument that no country could contribute more than 6 2/3% of the required finances. Good Old Uncle Sam has violated this agreement... and incidentally with the applause and agreement of every country... but the poor little old American taxpayer knows virtually nothing about it!

I've just returned from a conference in Paris, having had an opportunity to view first-hand the seriousness of the widening split between France and the United States.

The split is a problem that can no longer be brushed aside. It has grown far too grave. It is crippling our efforts in the fight against Communism. Whatever General de Gaulle's intentions may be, his policies today are clearly undermining the Free World, with particularly disastrous results in three key areas.

Western Europe, De Gaulle's increasing opposition to NATO has seriously weakened the Atlantic alliance. He has withdrawn troops, cold-shouldered the U. S. sponsored MLF, now drops hints of pulling out altogether. Result: a disarray in NATO that could very well tempt the Reds into a new adventure in Berlin or elsewhere. Asia, De Gaulle's "lofty suggestion" that Southeast Asia be "neutralized" has undercut the United States' military position in South Viet Nam. It has hurt U. S. efforts to gain support for the war among so-called neutrals. It has demoralized our allies, who fear the French suggestion may have tested the wind for future U. S. policies.

Africa, De Gaulle's recognition of Red China, according to a top Chinese diplomat who recently defected to the West, has given Peking its biggest propaganda boost yet in its subversion of Africa. French influence is still strong in the former French colonies, and recognition from Paris gave the Chinese an authority there they are making the most of.

These are the most critical areas in which France and the U. S. are running at cross purposes; many more could be added. Official pronouncements from Paris and Washington do not reveal the full extent of the friction. Much of it has never been reported in this nation's press.

You probably know, for instance, that since President Kennedy's assassination General de Gaulle has seen top level U. S. diplomats reluctantly, if at all.

You probably do not know that de Gaulle is taking the dollars that American tourists and servicemen pour into France and demanding their equivalent in gold from the badly depleted U. S. reserves as frequently as possible (despite the fact that France owes us 6.3 billions).

But the problem is not simply a matter of the personal peccadilloes of Charles de Gaulle. It is not something that will disappear when de Gaulle is gone. It is a problem that reaches deep into the French personality, the frustrated nostalgia for past glory, the resentment of U. S. influence in Europe.

You realize this when you see how deep and widespread the "Yankee Go Home" sentiment is in France. Today in Paris you rapidly learn to count your change, to expect curt answers to your questions, to have a ready answer for diatribes against anything from Coca-Cola to the MLF. And you discover, when you get socked for the \$5 fee that France requires before you can leave the country, just what your real value is to the Frenchman.

The situation has grown too critical to be ignored. The time has come for the U. S. to demand that France act as an ally or we can pull out of all dealings which cost us money and prestige.

You'll enjoy cooking that's clean and cool because it's FLAMELESS

Only electricity offers you so much versatility. You can cook in the kitchen with your electric range... or in the family room or on the patio with your electric roaster-oven or frypan. And because electricity is flameless, you'll enjoy cleaner, cooler cooking wherever you choose to cook. Heat used in

electric cooking is as clean as electric light. There are no by-products of fuel combustion to soil walls and curtains... no open flames to waste heat into the cooking area. See your electric appliance dealer soon. Start cooking the clean, cool, modern way... with flameless electricity.

Frank Rush, Nationally Known Rodeo Producer Will Stage the Burk Rodeo Again This Year

Frank Rush, who so successfully produced Burkburnett's annual Rodeo last year, will again stage the show this year on June 3-4-5.

Mr. Rush is known for having some of the best rodeo stock in the nation. Cowboy contestants like rough, rank stock because the meaner the stock, the better chance they have to make a high score in the eyes of the judges.

The above picture was made in the

beautiful setting of the Wichita Mountains, on Mr. Rush's ranch near Meers, Oklahoma. Mr. Rusn is on the left. Next are his wife, his daughter and his son-in-law, all experienced in rodeo production.

Mr. Rush was in the Star office Monday and said: "Just tell the folks we will have an even bigger and better rodeo this year. I have several surprises which I know the folks will like."

New Real Estate Office Is Opened

A new real estate office has been opened at 410 Ave. C. The operator is M. E. Conkling who resided in and near this city for many years.

Having been a licensed broker in Fort Worth, where he constructed 80 houses and a shopping center, Conkling is no novice in the real estate business.

He worked for an oil operator in the Northwest field for a few years, then became engaged in the pipe line construction business, then utility contracting, and finally decided to re-enter the real estate field.

J. P. Conkling, a brother,

will be a partner in the business, having just recently moved here from Denison.

"M. E.", as he is addressed by many of his friends, says that though he has been in many places, best of all he loves Burkburnett, and that he plans to remain here from now on.

Success often lies not so much in what we do as in what we don't do. The efficient lawyer goes into court to win verdicts and not to impress country juries with his urbanity. Likewise, the successful salesman undertakes to sell his goods and not himself. Economy of effort is always the measure of efficiency.

Comets Hockey Club Awards Banquet Was Held Sunday

Sunday the Comets Roller Hockey team of Burkburnett had a banquet in honor of the two coaches, the team and the Savage family for use of the Orbit Rink for practicing. Mr. and Mrs. Gerald Savage and Mr. and Mrs. J. C. Youngblood were special guests of the Comets. The most important part of the evening—the presentation of awards—began after the meal. The Comets presented plaques to Gene Bond and J. C. Youngblood as a token of their appreciation for the excellent job that the coaches have done. Then J. C. Youngblood, Gene

Bond and Dick Reynolds awarded the team a trophy entitled "High Point Team, 64-65." They also gave each team member a medal as a remembrance of their first season of roller hockey competition and as a token of their team spirit, fair play and will to win.

Others who were not given awards but who were thanked for their support, help and interest were Dick Reynolds for refereeing, Mrs. Christopher and Mrs. Bruendel for decorations at the banquet, Gloria and Mrs. Youngblood for making a scrapbook, and all the parents who faithfully supported the team this season.

Zing into spring! in a new Chevrolet

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevelle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

The American Cancer Society says that there is hope of finding means of controlling the disease completely in the foreseeable future. Many scientists are deeply involved in leukemia research.

Hardin Home Club News

The Hardin Home Club met with R. Howell April 19. Mrs. Roderick conducted business meeting. Mrs. Wiggins spoke on Food and its importance to health.

She especially said C should be replaced. We do not retain it in our diet. Foods should be as little as possible and slowly and care should be taken not to cook them. Frozen or canned food is their food value after year.

In shopping a person choose darker tomato, green or yellow colored vegetables and darker and such. Care should be taken to always eat a meal.

Eleven members and visitors enjoyed her program. Daugherty gave a real "Life" which was enjoyed by all.
