Fair Game For The Fun-Minded

Summer time brings cycling fun-whether at the World's Fair or under fair skies. As Kathy Sims and Harriet Stafford here can attest, their free-wheeling, lightweight bikes lend more enjoyment to sightseeing. According to the Japanese bicycle industry, whose lightweight models are more in evidence in the United States these days, more young Americans are taking to twowheelers today than at any time in the nation's history. Over 37 million Americans now ride them for health and recreation. And the sport is no longer child's play. Almost 30% of American bicycle owners are over eighteen years of age.

GRASS ROOTS OPINION

ROSHOLT, S. D., REVIEW: "We doubt whether Congress overwhelmingly liberal as it is, will knuckle to the demands of the big union to repeal right-to-work laws, and forcing people to join labor unions if they want a job. If they can make this stick, then it would be logical to assume that every individual could be compelled to join a particular religion or a particular political party. Is this he kind of infringement upon an individdual's freedom of association, freedom of choice that most Americans want? We certainly would say it is incompatible with a

CORRIGAN, TEXAS, TIMES: "Don't feel left out if the government hasn't yet got around to building you a house, paying you for not growing something, or providing a guaranteed wage. The latest idea to pay rent for those not poor enough to get in a housing project and too poor to pay regular rent. A lot of us ought to qualify."

STORM LAKE ,IOWA, PILOT-TRIBUNE: "Various resolutions have been introduced in the Senate and House at Washington calling for a constitutional amendment to overturn the Supreme Court's decision on State legislative apportionment. It is the property of said J. L. our hope the administration wakes up and smells the coffee."

SCOTTSVILLE, KY., NEWS: "The myth that the federal government's urban renewal program has been responsible for improvement in cities has been explored by an expert in the rehabilitation of heavy populated areas. Dr. Martin Anderson of the Graduate School of Business, Columbia University, in a recent speech, declared that it was private enterprise that has succeeded in renewing our cities while the high-cost urban renewal program has been a failure. Congress should take a good hard look at the federal urban renewal program to determine if it is deserving of being continued."

FINDIAY, IHIO, REPUBLICAN COURIER: "There's at least one U. S. government corporation that makes money. The other By G. H. Where can we go?" The answer is, go home! Hang the storm windows, paint the woodwork, rake the leaves, mow the lawn, shovel the walk, wash the car, learn to cook scrub some floors, repair the sink, build a boat, get a job. Help the minister, priest or rabbi, the Red Cross, the Salvation Army, visit the sick, assist the poor, study your lessons. And when you are through, and not too tired, read a good book.'

GRAND JUNCTION, COLO., SENTINEL: "Most of all, labor wants to end all state Right-to-Work laws. President Johnson has publically mentioned repeal of the section of the Taft-Hartley law which permits such state legislation. He is expected to go even further in this field. It may be that the President is attemping to trade support for labor legislation.

A challenge to scientifically inclined Texas high school students to seek careers in the oroad fields of nuclear science Mills Grain vs 1st National Bank was made in the closing sessions of the Texas Nuclear Science Symposium for High

at the University of Texas. Nearly a dozen outstanding scientists and educators address ed the 300 students and 200 high school science teachers in the four day symposium cosponsored by the Texas Atomic Energy Research Foundation and the University of Texas.

The students were told that this nation is on the verge of an age of "energy unlimited" in which man will have almost unlimited power to extend and transform his environment. They heard Dr. Gerald F. Tape. member of the US Atomic Euergy Commission urge them to complete many of the tasks that present day scientists have

Other speakers included Dr. W. E. Drummond, professor of physics at the University of Texas, one of the nations outstanding authorities in the field of plasma theory as applied to nuclear research. He described the major step that has been taken in the development of education in the new science of plasma physicis as a result of the financial support being given research at the University of Texas and Texas A and M University by the Texas Atomic Energy Research Foundation.

The TAERF, composed of 10 investor-owned electric power companies in Texas, including Texas Electric Service Company is supporting a major research effort aimed at harnessing the thermonuclear (fusion) reaction -the source of power of the hydrogen bomb-for the eventual economical generation of electricity.

This research is being carried out in the laboratories of the General Atomic division of General Dynamics Corporation at San Diego, California, and at the University of Texas and Texas A and M University, where Texas scientists work in cooperation with General Atomic scientists in the long

It's News To Me Elegance That Endures | News from Lady Gillette NEW CONCEPT of complete women's shaving care is found in the Lady Gillette

CORNING Glass Works has a new gift for brides this year: Centura platinum edge table-ware. Not only is the table-ware guaranteed against shaving method in the Lady Gillette Tote Bag. This completely feminine, start-to-finish breakage or damage for three years of normal household use, but the decoration itself is likewise guaranteed against wearing or washing off! It's even dishwasher proof! Truly elegance that endures, the new Centura tableware serves safely for everyday use, yet elegantly graces the most distinguished settings.

Games of Strategy

HIT THE BEACH, based on World War II battles in the South Pacific, is an exciting new addition to Milton Bradley's American Heritage series including "Battle Cry", a Civil War game, "Broadside", based on the War of 1812 and "Dog Fight", replaying air battles of World War I. Each has an outline of the war replayed, edited of the war replayed, edited by American Heritage with historical accuracy. "Stra-tego" is another game of maneuver that enthralls strategists of all ages; it is played with Napoleonic troops.
