TIME TO ACT

Federal excise taxes — including the World War II "nuisance taxes" levied at retail on cosmetics, luggage, jewelry and other articles in universal use — produce some \$5 billion a year for the Treasury. The President has approved reductions and repeals in this area of taxation totaling \$1.75 billion at this time, with more to follow in the future. All of the "nuisance taxes," which are responsible for \$550 million of the revenue, would be removed from the books.

That move is long overdue — they were purely war emergency measures and should have ended with the conflict. They impose an unfair burden on consumer and retailer alike. And, as more and more observers are saying, repeal should now be accomplished with all possible speed.

The reason why speed is needed is obvious. That these taxes are on the way out is considered a certainty. So, many potential buyers of the affected wares will put off their purchases in order to save the amount of the tax. In other words, something resembling a buyer's strike could occur, with all the depressing effects on the economy that would result.

Passage of a constructive excise tax bill should take a small amount of time and debate — just about everyone is for it. There's no good reason for further delay.

RIGHT-TO-WORK AND UNION MEMBERSHIP

The drive is under way to cause Congress to repeal section 14(b) of the Taft-Hartley Act, which permits the states to pass Right-to-Work laws prohibiting compulsory unionism as a condition of employment. In the 19 states which have done so, every worker voluntarily decides whether to join or not, and is protected from coercion by either union or the employer.

The unions argue that Right-to-Work is, in effect, a union busting tactic and is designed to play havoc with union membership and the effectiveness of the unions in obtaining benefits for labor.

In the light of that, some information provided by James R. Wason, Specialist in Labor Relations, Legislative Reference Service, Library of Congress, is extremely significant. He says: "For the period 1958 to 1962, at least, the trend in (AFL-CIO) membership in major union states without Rights-to-Work laws is more unfavorable than in Right-to-Work states." Specifically, union membership went up in 40 per cent of the Right-to-Work states, as against 30 per cent in the non-Right-to-Work states.

One reason for this, perhaps, is that the unions must do a better job where membership is voluntary rather than compulsory. They must sell themselves on the basis of service and make joining up a more attractive proposition to the worker. And they must be far more responsive to the wishes of the rank-and-file.

Finally, if a man can't hold a job without joining and paying dues to an organization, irrespective of his wishes in the matter, an absolutely basic freedom is denied him. There is no room for that kind of coercion in a truly free society.

BOOKS FOR APPALACHIA

The Appalachian aid bill has been passed, and in time we will learn the degree of success this unprecedented effort attains.

But, meanwhile, we should not be led to believe that doing something constructive in depressed areas is exclusively a function and responsibility of the federal government.

Appalachia itself provides an example. In parts of it, books have been very hard to come by and are much wanted. To remedy this shortage of books for Appalachia's youth, a voluntary plan has been set up to send a million volumes into depressed areas in the region. This is a joint effort of the Parent-Teacher Associations, REA Express, and the Office of Economic Opportunity.

The books will be collected and specially boxed by parent-teacher groups throughout the country, then shipped at a low rate by REA Express. At first the program will be concentrated on some 800 isolated schools in eastern Kentucky. Later it is expected to be expanded to other areas on the 11-state Appalachian region.

Part of any war on poverty is education — books are at the heart of it. Here is proof of the ability and willingness of organizations and enterprises to help solve public problems.

FURTHER ADVICE ON MAKING WILLS AND CODICILS

As we pointed out last week in this column, it is thoughtless and unfair for any person, whether of moderate or extensive means, to put off making a will. Much pain and confusion can beset one's heirs and family in case of death, if one's estate is not clearly allocated. Death—whether we like it or not—is one of the inevitable facts of life. And in this day of 70 mph speed limits on the highway and the feverish pace of every day existence, sudden and unexpected death strikes too often.

Review Your Will Regularly

Have your lawyer draw up your will with one carbon. The original should be signed, sealed and placed in your safe deposit box for safe keeping. Your duplicate copy may best be kept in an easily available place so that you may review its contents periodically. It should, of course, not be signed.

Most people should read over their wills at least once a year. If your holdings increase, you will undoubtedly wish to raise the provision for your church and perhaps some of your favorite charities. Also, you may find there are surprisingly changes in estate assets; and too, you may wish to make changes in potential beneficiaries. This is another important reason why you should make periodic revision of your will a significant part of your estate planning.

Amend Via Codicils

Choose your own executor, rather than have some judge appoint an executor who will almost certainly have less genuine interest in your affairs. He may be chosen in the original will or in the last codicil. But even your executor need not know what is in your will until it becomes his business after your death.

If there is a major change to be made in your will it will be better to have your lawyer draw a new will and destroy your present will. If, however, your present will is quite complete as it is written by you, it may be better to let it stand as it is and have your lawyer draw a codicil covering what you wish added or altered.

A codicil is an amendment or change in the provisions of the original will.

Provide For All Contingencies
When making a will, you can

living expenses. Through a will or a codicil you can give your executor the power to pay out to your wife and or children, so much per month until final settlement is made. In case of illness or other emergencies, extra layouts may be made possible at the discretion of your executor.

Dont Forget Trusts

Do not forget, too, that court disbursement of your estate could involve advertising for heirs and the appearance on the scene of unknown claimants you would not want as beneficiaries. Your own executor can make certain that your enumerated heirs get what you want them to have, particularly if he has the authority to divide property, investments, and other assets at their fair evaluation without going through the long process of reducing everything to cash before final distribution. By will, you can leave money in trust if you desire—so that your wife, brother or sister, or any chosen beneficiary can receive the in-

come for life, and subsequent disposition can be made of the property in any way you may wish.

Above all, remember: A regular ritual of reviewing your will—perhaps on your birthday—could prevent the misfortune of "not getting around to" changes you really want to make.

Whistling Shell

Before your deer hunting party splits up for hunt, agree on a whistle signal using an empty shell. Piercing whistle carries a long distance in woods, can signal for help or to alert others to game on the move.

Surplus Sale At Sheppard AFB Thurs., July 22

A sealed bid sale on surplus government property at Sheppard Air Force Base is announced by the Defense Surplus Sales Office, P. O. Box 6297, Fort Worth, Texas, according to Maj. James C. Hurley, chief of the Material Division at the base.

The property includes trainers for KC-97-2M2 and KC-97-3M2 turbosupercharged and inter-cooler system; KC-97G cabin pressure and heating systems and an engine analyzer.

Inspection may be made from now through July 21st excluding Saturdays, Sundays and holidays. Daily inspection hours are 8 a. m. to 3 p. m. Anyone interested is asked to contact Pete W. Hogan, redistribution and marketing officer at Sheppard Building, 2135 or telephone 851-2712.

Bids should be mailed to Defense Surplus Office, P. O. Box 6297 Fort Worth, Texas, 76115, where they will be opened at 9:30 a. m. on July 22nd.

Now Is Time To Send Samples Of Soil For Testing

Soil samples should be collected now and submitted for testing in preparation for fall planting, advises C. D. Welch, Extension soil chemist, Texas A and M University.

Early soil sampling and testing is encouraged to avoid the fall rush that crowds the state's three testing laboratories. Also, early sampling is important if lime is needed. Since lime reacts over a long period of time, it is important, explains Welch, to make the needed application two to four months before planting legumes.

Established legume pastures and hay crops are among those which will be needing fertilization and possibly limestone this fall, points out the chemist. An increasing number of acres is being seeded to vetch, crimson and white clover, and since fertility and lime needs of these crops vary, soil tests will help in developing a profitable treatment, says Welch.

Liming is especially important in East Texas and the Coastal Prairie. The chemist points out that half of the East Texas and the eastern Coastal prairie soils need lime, and that it should be applied before fall plantings are made.

For information on soil testing and instructions on collecting samples and mailing them, Welch suggests a visit with the local county agricultural agent.

After a few hours of cooking on a hot summer day many homemakers need a period of relaxation before serving the meal. The Gas Appliance Manufacturers Association points out that the top burner with a thermostatic control and the low temperature oven in modern gas ranges make this possible. They keep foods at the right serving temperature for hours without constant attendance. GAMA adds that these controls eliminate the need for a double broiler and the dangers of overcooking, burning, scorching, drying out and boil overs.

Devil's Backbone Skyline Drive Good Weekend Place For Outings

RIDING THE DEVIL'S BACKBONE — An area of growing tourist popularity is the hill country southwest of Austin, where these two ranchers are riding along the Devil's Backbone, a scenic range of hills, not far from Canyon Dam Lake. President Lyndon B. Johnson's famed "LBJ Ranch," only a few miles north of the area, has served to focus motorists' attention to this region. (Photo Texas Highway Department)

Devil's Backbone Skyline Drive and Canyon Dam country — the play on names is allurement enough, and the weekend tripper and tourist who swings through this part of Texas southwest of Austin certainly will not be disappointed.

The tour route lies only a few miles south of "LBJ Country" where President Lyndon Johnson has his ranch home on the Pedernales River between Johnson City and Fredericksburg.

Visitors will be rewarded with a scenic drive in the stimulating hill country air and with the outing and recreational opportunities offered by the numerous parks, no less than seven around Canyon Lake itself.

Fun-bound traffic may approach from the west side of the area on National highway 281 and, just south of Blanco, turn east on State Highway 32, a stretch of which is Devil's Backbone Skyline Drive. It is recommended that the trip continue past Fischer about ten miles to Purgatory Road, a right turn route to be followed (by signs) into Canyon City and to Canyon Dam and the lake.

On the San Marcos side, to the East, motorists should follow State Route 12 westward about ten miles to its junction with state 32. They should follow Route 32 all the way to Fischer before turning south on State 484 to the Canyon Lake area.

Either way they go, visitors

are due to get a thrill in motor-ing garnished with scenic beauty. Devil's Backbone is a ridge route that undulates, weaves, dips and turns, unreeling a sequence of Texas views of color slide quality.

Residents properly boast of the high altitude-low humidity of the magnificent hill country. Canyon Lake, over 900 feet above sea level, is the highest lake in Texas. Water from the Guadalupe River already has filled the lake to a depth of more than 75 feet at the dam.

The state is building new wide paved roads to encircle the lake, and the whole area is vibrant with the bustle and excitement of a new playground and resort frontier.

Meanwhile, guests may enjoy the inviting visitors area at North Park and Overlook Park at the dam.

One may even find time enough left to roll south to New Braunfels' Lands Park or even Natural Bridge Caverns.

Count Your Fish

Experts try different depths until they find fish. Here's how you can too: Use a sinking lure. Cast, count to five, retrieve. Next cast, count to six, retrieve. Keep counting higher until you start getting hits. Then retrieve after that count.

DID YOU KNOW THAT

According to the Texas Service, the forest regions of Texas embrace 26 1/2 million acres, more than the total area of the states of New Hampshire, Rhode Island, Vermont and Massachusetts. Accounting for the vast share of acreage is the hardwood area of East Texas, million acres. The other 14 million acres of forest include the pine, oak and cypress timber of Texas, mountain forest of Texas, coastal forest, and various forest in stream beds.

COOPER HD CLUB NEWS

The Cooper Home Demonstration Club met Tuesday, June 29, 1965 in the home of Mrs. Bob Stewart, Thornberry Highway, at 2 o'clock p. m. The meeting was called to order by Mrs. J. H. Gill, president, and prayer repeated in unison. Roll call was answered by "Annals I Have Planted."

Minutes of June 14th were read by Mrs. Bee Bryant, secretary, and approved as read. Reports were called for from the various committees. Mrs. Ralph Swinford told of the work of the cooking class of the 4-H group of the Friberg school; Mrs. Swinford and Mrs. Roy Burbank are sponsors of the group. The project for the month of July is to do something for the Wichita Falls State Hospi-

tal. The group voted to bring items such as quilt scraps, clothing, purses and jewelry to our next meeting on July 12th when we meet in the home of Mrs. D. B. Clark. Mrs. Dawson Owen was presented by Mrs. Bob Stewart, program chairman, who spoke on "Accident proof Your Home." The speaker stated "Man's Home is his Castle," and that 30,000 people die a year from home accidents,

which is more than those killed in automobile accidents; and stated, the sad part, most of the ones killed in home accidents could be avoided, and happens when we least expect them. The unlucky seven major hazards are falls, fire, burns, suffocation from swallowed objects, mechanical suffocation, poisons, firearms and poison gases. A window in the bedroom should always be open ed.

Mrs. Gill conducted a parliamentary drill. Refreshments were served by the hostess, assisted by Sandra Stewart to Mesdames J. H. Gill Bee Bryant, Fred Vollmer, Ralph Swinford, D. B. Clark, Dawson Owen, W. P. Rogers.

The forests of the state provide full time employment for 34,000 persons in wood-using plants, according to the Texas Forest Service.

Degree of hunter cooperation in Texas Parks and Wildlife Department studies of harvest results was reflected in the Southwest Texas Game management Survey Area where 6,375 card questionnaires were mailed out and 2,059 returned for a percentage of 29.51. Counties were Houston, Polk, Walker, Montgomery, Trinity, Tyler, Jasper, Newton, Orange, Hardin, Jefferson and Liberty.

Americana for Modern Living

by ELEANOR WAY, Union Carbide's Fibers and Fabrics Stylist

Every homemaker who is drawn by the warmth and charm of Early American design wants both qualities reflected in her home. But that doesn't mean she always wants to invest either the time or money required for the care and upkeep of rare old pieces. While many of them have charm, not all of them serve a practical purpose in a modern home. And not always are they comfortable.

But in this year 1965, Americana lovers may have the charm of such design combined with modern comfort. The master craftsmen of The Charlton Company have produced Americana

designs with all the welcome of the original pieces plus the comfort of a new upholstery that possesses beauty, cleanability and

durability.

A soft, rich leathergrain fabric named Liso in a handsome shade called black cherry has been used for a roomy sofa (above) and companion (wing) chair (left) in an Early American theme. Vileau is a vinyl fabric very close to a natural topgrain hide both in appearance and touch. But it will retain its look of newness, despite daily wear and tear, for years to come. It doesn't require constant care or admonitions to the wee tad with regard to scuffing.

What this all adds up to is that a girl really can have her cake and eat it, too, if she just tries. Few of us can resist charm. But most of us have a deep appreciation of practicality and comfort. To get all three in one package is a little like Christmas every day. Or attending a clearance sale on diamonds and caviar. It naturally isn't the sort of thing a girl encounters every day but when she does, she knows her luck is holding. Vileau is for lovers of both antique and modern, for everyone who has an innate feeling for elegance.

Miss Janelle Hinkle To Become Sept. 3rd Bride Of Billy David Rudd

Theta Epsilon Wins Top Awards At Dist. VI Meet In Abilene

Theta Epsilon Sorority of Burkburnett won top awards recently at the District VI meeting held at the Downtown Hotel in Abilene, Texas.

First place honors went to the chapter for their scrap book and history, compiled by Mrs. Helen Eaton and Mrs. Audrey Tibbets and their year book compiled by Mrs. Evelyn Farris and Mrs. Bobbie Klinkerman. Third place was won on the chapter's Educational program. Theta Epsilon Sorority also received the 100 percent Chapter award and honorable mention on their welfare work.

Two members from Theta Epsilon chapter were installed in the District VI roster of officers: Mrs. Clyde Slusher as District VI vice president and Mrs. Quinton Howard, as District VI Reporter.

The chapter also won the attendance award for the second consecutive year. Plans are being made by several of the chapter members to attend the Epsilon Sigma Alpha International convention that is to be held at the Gunter Hotel in San Antonio, Tex., from July 8th through July 11th. During that time the chapter scrap book, history and year book will be entered in international competition.

Members planning to attend from Burkburnett are, Mesdames

Lyl: Eaton, Elmer Klinkerman, Bruce Shepard, Bryan Farris, Clarence Bridges and Quinton Howard.

THIS SUMMER Burglar-Proof Your Home

SUMMER is vacation time for most people. But for burglars, it's the busiest season of the year. Protect your home when you leave it by securely locking all doors and windows, by never leaving extra keys where thieves might find them, by locking all ladders in the garage, and by latching screen doors from the inside.

WAIT until after you return from vacation before notifying the local paper of your trip. Arrange by phone to have milk, mail and newspaper deliveries stopped. It's safer than leaving notes that a thief might read. Ask neighbors to accept packages for you, and request the police to periodically check your house and grounds.

TO GIVE the illusion that your house is occupied, leave shades up and venetian blinds partly open. Use an automatic timing device which turns lights on at dusk and off at bedtime. Use sturdy Yale pin-tumbler cylinder locks on all exterior doors. For glass doors, use double cylinder locks which require keys on each side.

Mr. Merchant: YOU LOSE 3 OUT OF 10 Customers Every Year

... AND THIRTY PER CENT OF YOUR BUSINESS GOES WITH THEM. HARD TO BELIEVE, BUT TRUE. IF YOURS IS AN AVERAGE BUSINESS, YOU NORMALLY LOSE APPROXIMATELY THIRTY PER CENT OF YOUR CUSTOMERS EVERY YEAR. IF YOU DON'T BELIEVE IT, LOOK THROUGH LAST YEAR'S ACCOUNTS AND SEE HOW MANY ARE NO LONGER ACTIVE.

Why do you lose them?

Through death, hard feelings, moving to another community or through the efforts of hard-driving competitors ... a variety of reasons ... some of them beyond your control.

AT THE SAME TIME THERE IS A NORMAL BUSINESS INCREASE OF ONLY FOUR PER CENT EVERY YEAR. THAT LEAVES YOU FACING A TWENTY-SIX PER CENT HANDICAP EVERY YEAR ... A HANDICAP YOU MUST OVERCOME IF YOUR BUSINESS IS TO REMAIN HEALTHY AND PROFITABLE.

What to do about it:

The answer lies in better merchandising, better planning and more vigorous promotion of fast selling goods and services.

The Surest Most Profitable Method of Sales Promotion Is Consistent Timely Advertising In Your STAR and NEWS.

Time To Face Facts

Under Texas so-called "right to work" law, the incomes of Texas people have fallen way behind the rest of the nation. Because most Texans have not had the right to bargain collectively for better wages, we have always been behind other states but things have actually gotten much worse since 1947 when the so-called right to work law was passed. Texas is one of the few states to have enacted this unfortunate and harmful law.

Thanks to the leadership of our Texan President, Lyndon Johnson, we now have a chance to put the family wages of Texas back on an even basis with people throughout the nation. President Johnson has asked Congress to approve new labor legislation repealing the section of the Taft-Hartley law that has done so much to lower the average incomes of millions of Texans. This section is called 14-B. President Johnson knows that Texans stand behind him in his program to help the wage earners of Texas. Write your Congressman today and ask him to support the President by voting to repeal section 14-B of Taft-Hartley. You'll be helping the economy of Texas and helping your children grow up in a state with greater opportunity for all in the years ahead.

GAS AIR CONDITIONING SAVES MONEY AND HEADACHES YEAR AFTER YEAR

You save in operating efficiency, low maintenance, amazingly long service. Combined heating and cooling costs with gas are substantially lower than for electric heating and cooling. Add to that the savings in maintenance and electric compressor replacements and you'll see why gas is your best home air conditioning investment.

SPECIAL SUMMER GAS AIR CONDITIONING RATES

Owners of gas air conditioners get reduced gas rates for cooling during the hot summer months. This makes for even more economy from an efficient gas unit!

LOW DOWN PAYMENT, AS LITTLE AS \$25/MO. FOR 2.8-TON UNIT

This new gas unit for medium-size homes both cools and heats . . . puts the world's finest air conditioning in reach of everyone.

HOW GAS UNITS CAN LAST TWICE AS LONG AS ELECTRIC

Gas cooling for homes has no compressor. A simple gas flame is the heart of the cooling cycle — with few moving parts to

wear or need repair. No wonder the life-expectancy of gas air conditioning is double that of compressor types!

CALL FOR A FREE ESTIMATE ON GAS AIR CONDITIONING. NO OBLIGATION.

Don't be fooled by "horseback estimates" on costs! Get a bona fide air conditioning price from Lone Star Gas and compare with the price of the same size electric unit. You'll find the little extra per month to buy a gas unit buys you a lot more air conditioning over the years! There are two types of gas systems for the home: a combination cooling and heating system and an add-on cooling system. Investigate the possibility of gas air conditioning your home now.

GOOD FRUITS

"The wisdom that is from above is first pure, then peaceable, gentle, and easy to be entreated, full of mercy and GOOD FRUITS."

There are two forces at work in this world, evil and good. We have the freedom to choose between these two things.

"O taste and see that the Lord is good: blessed is the man that trusteth in him."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Shareownership: Democracy In Action

Many members of our affluent society may point with pride to their two cars, swimming pool and stereo set, but how many can pick up a newspaper and say, "I own a piece of more than 100 stocks listed on the financial page?" Well, at last count, there were more than three million Americans who could make that statement. While we are not a nation of millionaires, more and more people, who once felt that investing in the stock market was only for the wealthy, are finding that they too can invest like a millionaire by buying shares in a mutual fund.

An investor in a mutual fund gets basically the same advantages that once only the very wealthy could afford—a diversified investment and professional management all in one package. This money is pooled with that of many others and invested in a broad range of securities. This diversification tends to reduce the risk inherent in any investment program. Each mutual fund has a team of professional managers who constantly supervise the fund's investment portfolio, being always alert to changes in economic conditions that may affect the securities in which the fund's shareholders have a vested interest.

What stocks do these men invest in? Primarily, they invest in the securities of major American corporations. The Investment Company Institute, national organization of the \$31 billion mutual fund industry, found in a recent study that its member companies currently had more money invested in oil securities than in the stocks of any other industry.

But while oil shares may be the popular fund investment of the moment, the constant search by the fund manager for the best value, may make chemicals the top holding next month or next year, or financial institutions, or utility issues, or the securities of other industries, as economic conditions and changes affect the value of these securities in which the fund and its shareholders hold an interest.

cleaner dishes in half the time automatically with an **ELECTRIC DISHWASHER!**

After meal clean-up time is cut in half when you have an Electric Dishwasher. Instead of soaking, washing, rinsing and drying dishes by hand, you just load and start your Electric Dishwasher and your dishwashing chore is over. An Electric Dishwasher not only saves you hours of drudgery every week, it gets your dishes hygienically clean, using water hotter than hands can stand. It helps keep your kitchen tidier, your hands lovelier. And mealtimes are more enjoyable when there's no hand dishwashing to do afterward. See your electric appliance dealer soon.

Goodwin Rites Will Be Saturday

Funeral services for Harliss A. Goodwin will be at 2:00 p. m. Saturday from the First Baptist church in Burkburnett with Rev. Lamoine Champ, pastor, officiating. He will be assisted by Rev. A. E. Harrison of Houston, Texas.

Burial will be in Burkburnett Cemetery under direction of Owens and Brumley Funeral Home.

Goodwin, 71, a Burkburnett resident since 1907, died early Thursday morning in the Wichita General Hospital following a short illness. He retired from civil service work in 1961.

Goodwin was born Nov. 4, 1893 in Alvord, Texas, and was married to the former Alice Claer of Wichita Falls on Jan. 2, 1916. He was a member of the First Baptist Church.

Survivors include the widow; Alice; 1 daughter, Mrs. Maurine Pearson of Wichita Falls; 2 brothers, Wade Goodwin of Hobbs, N. M. and Gerald Goodwin of Midwest City, Okla.; and 4 grandchildren, Linda Beth, Gary, Karen and Jimmy Pearson, all of Wichita Falls.

A bit of bonus sightseeing is to be found on Brazos West Columbia, the state er and flag pole on the Texas history buff, the lover of period pieces in a proper setting, and the wheeling admirer of the scenic coastal country.

The Varner-Hogg Plantation State Park will prove interesting to the motorist with one or all three yens. Since 1965 is another year with more than the usual number of three-day holiday weekends, it is a good time to make this tour. The spot has been drawing a fair share of vacationists.

Relatively small by some standards, the state park embraces 52 acres and is located one mile northwest of West Columbia in Brazoria County. It is just one mile off State Highway 35.

The centerpiece against a background of trees is the colonial-style mansion, built in 1836, and which has period furnishings. It was the early sugar plantation home of Governor James S. Hogg, which was given to the State by Miss Ima Hogg of Houston, daughter of Texas' first native governor, with an endowment "to perpetuate an appreciation of the simple, industrious and sometimes elegant life of the early settlers of Texas."

Mementos of the "Texian Campaign," the Mexican War and the Confederacy are reminders that excitement, too, reached this quiet spot.

Other reasons to go—Houston, Galveston, Freeport Beach are less than an hour away.

Mr. and Mrs. Larry of Crandall, Texas, and Mrs. Glen S. McCurley, son Craig of Midland, spent the 4th of July with their grandparents and Mrs. B. H. Alexander.

A Scotsman was arguing the conductor while the price of fare was 25¢ and 50 cents. In desperation, the conductor tossed the man's traveling bag out the window and it landed in the river with a loud splash. "Hoot mon," screamed Scot. "First you try to and now you've drowned boy!"

Varner-Hogg Plantation State Park Interesting Spot For Tourists

GOV. JIM HOGG'S HOME—Texas tourists visit sugar plantation home of one of the state's great governors, Jim Hogg (1891-1895) in Brazoria County, located in Varner-Hogg Plantation State Park.

A leisure drive along the upper Gulf Coast offers a number of attractions, but one in particular will appeal to the Texas history buff, the lover of period pieces in a proper setting, and the wheeling admirer of the scenic coastal country.
