National Newspaper Week

Newspapers are the schoolmasters of the people. That endless book, the newspaper is our national glory. —Henry Ward Beecher

Long before the spark of freedom was ignited at Concord and Lexington, the unique role of the press in maintaining and protecting the freedoms Americans now enjoy, was effectively demonstrated.

The first licensed newspaper appeared in 1704, but was heavily censored. A turning point in the fight for a free press in America came thirty years later with the famous trial of John Peter Zenger, publisher of the New York Weekly Journal, who was jailed for calling the colonial governor dishonest and oppressive. He was freed by a jury when he proved his accusations to be true, therefore not libelous.

Bit by bit, the right of the press to report and comment on public affairs was established and this principle was embodied in the First Amendment of the new Federal Constitution.

Today newspapers remain constantly on the alert to protect the public's right to know — in police stations, in court rooms, legislative bodies, city halls and executive mansions.

Newspapers inform the community on the local civic, social, fraternal, spiritual activities and strive for community betterment.

During National Newspaper Week, celebrated October 10-16, we re-dedicate our efforts toward greater community progress and understanding through sound reporting and objectional editorial interpretation.

GRASS ROOTS OPINION

TRAER, IOWA, STAR-CLIPPER: "The . . . U. S. Senate on August 11 defeated a proposed constitutional amendment which would have permitted the people of each state to retain some voice in how the representation of members of their own state legislative assembly shall be apportioned. An edict by the Supreme Court last year in Washington held that both houses of each state legislature must be apportioned solely on the basis of population . . . The effect of this court decision ultimately could make second-class citizens out of the people living in rural communities and small towns of our country."

PORTLAND, ME., PRESS-HERALD: "The constitutional rights of persons accused of committing crimes and the right of an orderly society to protect itself against criminals is now the question agitating the American bar and judiciary . . . Pres. Lewis Powell of the American Bar Association stirred great applause at the ABA's Miami convention when he declared that the right of the citizen to be free from criminal attack must be put ahead of the constitutional rights of persons accused of crime."

City of Excitement

IN THE SUNNY Plaza de Toros, a bugle blares. Men in gold and scarlet capes form a procession. Fierce animal sounds fill the air. The audience catches its breath . . . It's Sunday afternoon in the Guadalajara bull ring. A sight to thrill every spectator.

THE EXCITEMENT of a bullfight is only one of the new experiences awaiting visitors to Mexico's "second city." Those with adventurous appetites can sample a native dish called mole de guajolote. It's an intriguing combination of turkey, peppers, almonds, cinnamon, raisins—and melted chocolate!

LEISURELY sightseeing is a good follow-up to a nourishing meal. And Guadalajara abounds in fine examples of Baroque and Gothic Spanish-style buildings, and "patio" homes. Most recent addition to the city's architecture is a skyscraper—the 20-story, ultra-modern Guadalajara Hilton Hotel.

Local Births

New arrivals reported last week for the following Burkburnett couples:

Mr. and Mrs. Robert Ray Martin, girl, Karen.
Mr. and Mrs. Ronald Dale Kemp, boy, Charles Ray.

around. But you might have to quit your cigar smoking. Billie Sol doesn't approve of girls smoking and drinking.

Abe Fortas reportedly was instrumental in talking Johnson into selecting labor lawyer and sometime Supreme Court Justice Goldberg to head the American delegation at the world's foremost fifth column, the United Nations. It has not yet been made clear who collectivist Goldberg will represent in the UN nor why he agreed to this one-step-backward "promotion" from the Supreme Court. It has been suggested that the bait might be the 1968 Vice-Presidential post in the Johnson Dictatorship. Whatever the bait, the American people are the fish.

HOW TO BE A GOOD JUDGE

The new Supreme Court "Justice," Abe Fortas, has had no previous judicial experience, which qualifies him well for the present Supreme Court. He did not go to law school. Let us be thankful that Walter Jenkins (sexual deviate who was Johnson's "strong right arm" for 20 years) did not go to law school. In 1948 Fortas convinced a former member of the Ku Klux Klan, Justice Hugo Black, to seize a "technicality" to certify Lyndon Johnson, penniless Texan, as Senator in place of Coke Stevenson. Fortas had been Johnson's accomplice ever since. Johnson now owns the air in Austin, Texas, the Supreme Court, the Congress and a \$14 million estate. Who said this isn't still "The Land of Opportunity?"

No other President has ever appointed his personal attorney to the Supreme Court. Fortas knows practically all of Johnson's secrets, including how he became a multi-millionaire on governmental salaries.

Background

Fortas' first governmental assignment was with the legal division of the Agricultural Adjustment Administration. Among his buddies were Alger Hiss and Lee Pressman, later General Counsel of the CIO, who has since admitted he was once a Communist. Pressman testified in Congress that a number of members of the two communist cells in the Department of Agriculture at that time were very friendly with Fortas.

Fortas helped Alger Hiss and Harry Dexter White, communist agents, to draft the United Nations Charter.

An outspoken critic of government loyalty - security programs in the late 40's and early 50's, Fortas plugged for war against Germany before Roosevelt arranged Pearl Harbor (so we could join our communist friends in making the world safe for democracy). But although 31 years old and with no children, he got out in less than two months. Twenty-nine days of this was spent undergoing tests and examinations in a New York training camp where it was decided he had an "arrested case of ocular tuberculosis." It has evidently been arrested ever since. He swabbed no decks but immediately returned to work for Secretary of Interior Harold Ickes and at 55, after poring over countless lawbooks during the ensuing years, his eyesight is so arrested that he doesn't even wear glasses. Thus his "service" career also is similar to that of Lyndon Johnson. Neither could find a uniform to fit them for very long.

Career Girl

Mr. Fortas' wife is a senior member of her husband's law firm and specializes in tax cases. She says, "I have been in law all my life, and I don't expect to give it up now. Why should I?" You shouldn't, dear. Lyndon's friend, Billie Sol,

might have to carry his case to the Supreme Court some day and would like to have you

Simple Pie, Simply Great

Everyone loves pie; everyone loves ice cream. Chocolate Ice Cream Pie is certain to make a big hit. A brand new product, Chiffon Soft Margarine, is big food news, perfect for making the crumb crust. Chiffon is so smooth that it blends right from the refrigerator—or even the freezer. It comes in decorative little tubs, two to the pound. And because it contains so much liquid safflower oil, it has less saturated fat than any other spread including the corn oil ones. Has a delicate, fresh flavor like butter, too. Combine the soft margarine with chocolate cookie crumbs and nuts to make a crust, fill with ice cream, and add chocolate sauce for a real treat.

Chocolate Ice Cream Pie
4 tablespoons Chiffon Soft Margarine 1/2 cup chopped nuts
1 1/4 cups chocolate cookie crumbs 1 quart plus 1 pint vanilla ice cream
Blend together soft margarine, cookie crumbs and nuts. Press on bottom and sides of a 9-inch pie plate. Chill. Spoon ice cream into crust; freeze. When ready to serve, drizzle some of the Chocolate Sauce* over top of pie. Pass remaining sauce.
***Chocolate Sauce**
1/4 cup Chiffon Soft Margarine 1 6-ounce package (1 cup) semi-sweet chocolate pieces
1/2 cup milk
Combine soft margarine, milk, and chocolate pieces in saucepan. Place over low heat; stir constantly until chocolate melts and mixture is well blended, 3 to 5 minutes. Serve warm or cold. YIELD: 1 1/4 cups sauce.

Minimum time and effort is required in home freezing of poultry, meat and fish, says Thelma Wirges, county home demonstration agent.

Careful selection and wrapping of these foods are extremely important, however, she cautions.

She urges consumers to compare wholesale prices of meat bought in quantity with current retail prices of the same grade. The price you pay for the types of cuts you receive will determine whether buying meat in quantity is a good investment.

If you find that the savings in quantity purchasing are small, perhaps purchasing your favorite cuts when special sales are run in local markets will be to your advantage.

Give similar consideration to the purchase of pork. A side of pork not only contains roasts, chops and steaks, but it also contains ribs, sausage, trimmings and 15 percent or more of fat.

In preparing meat for the home freezer, remove excess bones and fat before wrapping. Select a moisture vapor-proof wrap and use either a drug store fold or a butcher's fold. Exclude the air, seal the wrap tightly, label clearly, date and

freeze promptly at 0 degree Fahrenheit.

The same guides used in buying and freezing meat apply to the purchase and freezing of fish. Poultry may be frozen whole or cut into pieces. Most fish freeze well, but are highly perishable and must be cleaned and frozen quickly.

Use frozen bread when you must make sandwiches several hours ahead of time, suggests extension foods and nutrition specialists. It is easier to spread than fresh bread. The chill from the frozen slices will keep the filling fresh. Even lettuce keeps crisp for several hours. When slices thaw they have the characteristics of fresh bread.

Use recommended methods to freeze and cook frozen foods. Get a copy of the extension bulletin, "Frozen Foods," from your local home demonstration agent's office. It gives directions for preparing, packaging and freezing fruits, vegetables, and prepared foods, such as cakes, pies, breads and combination dishes.

Garnish ice cubes to add a gay note to many fruit drinks. Fill an ice cube tray about two-thirds full of water. Boiled water tends to make the cubes clear. After the water freezes slightly, add an orange, lemon, or lime wedge, or pineapple tidbit, fresh berry, cherry or grape. Finish filling with water and freeze again.

Mellow, sweet honey is an interesting taste treat. It offers a delightful topping for fresh fruit, fruit cup, ice cream or fruit salad. It can be used in many other ways, says Thelma Wirges, county home demon-

stration agent.

The ancients considered honey a symbol of plenty—and it could well be considered so today. It is available in its own delicately structured comb as well as clear liquid or in a spreadable cream-style.

It is best to keep honey in a covered container at room temperature. The cover is necessary because honey loses aroma and flavor and absorbs moisture and odors readily when exposed to air.

Using Your Head

by Sylvia Schaefer
CONSULTANT TO FASHION TRESS INC.

Everywhere you go these days, you hear "wigs and wiglets," "demi-wigs and wiggy wardrobes," "postiches," "switches and curls," "topknots and tendrils," "braids and buns" . . . No, the beauty world hasn't gone mad. You might just say it has hairpieces on the brain! These terms are all names for this newest of fashion sensations. The styles and types of hairpieces now available are virtually endless.

Whereas until recently wigs far outnumbered hairpieces, the popularity of the latter has increased to such a degree that they now account for 40% to the full wigs' 60%.

A major factor in hairpieces' appeal is their versatility. Styles vary from the ultra-sophisticated to the very simple. Take a basic piece like a bun for example. During the day, a career girl with short hair looks smart with a bun pinned at the nape of her neck. For evening, the bun is transferred high on her crown and jewelry is added for a striking high fashion effect. No great skill is required to create such a hairpiece. A little practice and anyone can do elaborate styling. The possibilities are unlimited.

Hairpieces are fun. They bring out the imagination of their wearers. Some gals may twine their own hair through them; others use them as a filler and cover them completely with their own hair. Some women like to add bows, flowers, anything that strikes their fancy.

Hairpieces come in a wide variety of styles—braids, buns, ponytails, chignons, French knots, cones, even tiny streaks. Many women build a wardrobe of Fashion Tress hairpieces just as they would any other fashion accessory. They add to their wiglet wardrobe as they can afford them. Some women wear two or three at one time. A combination of a simple French knot hairpiece and a crown of the popular big Paris curls makes a dazzling coiffure for evening wear.

Another reason for the vast number of women using hairpieces is their comparatively small expense. There is a Fashion Tress hairpiece priced within the range of almost everyone.

Hairpieces were made to travel and a record number of fashion-minded women are including them in their vacation plans this year. In the space of an hour, hairpieces are taking women from a dip in the pool to a poolside cocktail party looking like she'd spent the afternoon in the beauty parlor.

But wherever women are—whether on vacation or just around the neighborhood, they want to look their best. Because of their versatility and convenience hairpieces and wigs are enabling women of every type and mood to add new dimensions to their fashion personalities.

NOW! '66 CHEVROLETS

Caprice Custom Coupe

NEW CAPRICE BY CHEVROLET

Custom Coupe, Sedan and two luxurious new Custom Wagons now. Liquid smoothride. Power you can order just as

smooth and pin-drop quiet. Turbo-Jet V8 engines that go all the way up to 425 hp. Shimmering new interiors. The look of hand-rubbed walnut trim. Elegance everywhere. Made by Chevrolet, so you know what a beautiful value it must be.

IMPALA

NEW CHEVROLET JET-SMOOTHER

We've again specially tailored those coil springs at every wheel to each body style. We've put in new softer shock absorbers. No Chevrolet has ever had a ride like this. Power begins with a thrifty Six at 155 hp, and goes on from there. Turbo-Jet V8's available at 325 hp, 390 hp and 425 hp in all the new Impalas, Bel Airs and Biscaynes. Model shown: Impala Super Sport Coupe.

NEW CHEVELLE SUPER SPORT 396

New 300's. New 300 Deluxe models. New Malibus. And two new Super Sport 396's—coupe and convertible—with engines that tell you exactly what kind of Chevelles they are. Both are available with 396-cu.-in. Turbo-Jet V8's, either 325 hp or 360 hp. And both come with special hood, grille, suspension, emblems, red stripe tires, floor-mounted shift. Twelve beautiful new Chevelles in all—and all as new inside as they are outside, headlamps to taillights.

Chevelle Super Sport 396 Coupe

Nova Super Sport Coupe

Corvair Sport Coupe

ALL NEW CHEVY II

It's so different, we should really call it the Chevy III. Roofs are swept way back on coupes. Fenders, grille, hood, taillights and bumpers are new on all seven models. Interiors are richer. Power available up to a 350-hp Turbo-Fire V8. You can even order headrests for the front seats and Mag-style wheel covers. What's the economical, dependable Chevy II coming to? A lot of smart '66 car buyers, we figure.

'66 CORVAIR UNIQUE

Still America's only rear-engine car. And with the special steering and suspension you can add, there's no better way to rid yourself of prematurely gray driving. Lots new. Corvair, like all the '66 Chevrolets, has a padded dash, seat belts front and back, new fully synchronized 3-speed. Corsas, Monzas, 500's. Get one. Stay young.

Quick Rainy Day Party

When a rainy day keeps your pre-schooler from going out to play—and he doesn't know what to do—why not ask a few of his friends over for a quick party?

A tempting and hearty beverage can be made in a matter of minutes if some cans of baby's strained fruit juice are on hand. For something to chew on, pass a plate of Animal Shaped Cookies with enriched icing.

Fruit Juice Creme

- 1 small scoop vanilla ice cream
- 1 can Gerber Orange-Apple-Banana Juice*

For each serving, place small scoop of ice cream in sturdy low punch mug. Fill each glass with fruit juice. Serve with straws.

Fruit Nog

- 2 eggs
- 2 cans Gerber Orange-Apple-Banana Juice*
- 2 cups cold milk
- 1 tablespoon sugar*

Beat eggs lightly, add other ingredients and blend thoroughly with mixer. Serve the drink in small punch cups so the youngsters will have fun calling for seconds. Serves four.

*Try other Gerber juices and let the children pick their favorite.

Mr. Schmoker said "The next day about 150 people were watching the oil flow some 20 feet above the top of the derrick. Suddenly the wind changed and everyone was showered with oil. But, they didn't care—everyone was happy. Soon oil derricks were shooting up all around the area."

THE JOY OF SHARING

There is pleasure in doing things with others. It may be looking at a picture magazine, or riding toys, or for parents it may even be sharing knowledge of the day's events that bring joy. God's people have a desire to share with you in the greatest joy, that of worshiping together in God's House. **ATTEND CHURCH SUNDAY**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Texas Makes Bid For Tourist Trade

The business concepts of "product improvement" and "product promotion" suggest the scope of two new programs announced today by the Texas Tourist Development Agency. The product: Texas as a vacationland.

Entering its third year of action aimed at enlarging Texas share of the booming \$30 billion a year domestic travel market, the agency's staff and staff are expanding under a budget nearly doubled by the 59th Legislature.

Announcing staff changes and additions as a new fiscal year began, Executive Director Frank Hildebrand said two new activities are embraced by the agency's enlarged mission.

The first, a community relations program, will be grass-roots. Sam Godfrey, a former independent tour director of Dallas, has been named to work closely with Texas communities and locales in guiding development of facilities to attract and hold visitors.

The second, a news and features bureau, will beam news of Texas as "A World of Difference" to travel editors nationwide. Keith Elliott, veteran Texas newsman and magazine writer, will head the bureau's production of color copy and new features to promote the pleasures of traveling Texas.

Hildebrand also announced appointment of Ben F. Holub, Jr., former staffer with Galveston and Port Arthur newspapers, as travel promotion specialist to assist in the agency's total spectrum of tourist-luring activities.

At the same time he announced the promotion of Walt Warner, former acting assistant director to assistant executive director of the agency, and the appointment of Mrs. Jerri Harris to its secretarial staff.

Formerly with the Dallas school system, Godfrey, 30, brings wide experience as an independent travel promoter in the U. S. and Europe to his new challenge of helping Texas locals develop tourist programs.

A graduate in history of North Texas State University, he has done graduate study at the University of Minnesota.

Elliott, 38, has served newspapers in San Antonio, Houston and Lubbock as a reporter and columnist. His writings have appeared in such publications as Reader's Digest, True, Saturday Review, Coronet and many regional magazines. Associated with the Texas Highway Department travel and information division for two years until last July, Elliott scripted the popular travelogue, "Texas: Land of Contrast."

Holub, 33, is a journalism graduate of Southwest Texas State College.

Warner, 31, has been with TTDA since its inception two years ago. A University of Texas graduate, he had extensive prior experience as a radio and TV newsman.

Another new venture looms for TTDA, Hildebrand pointed out. The agency has been charged with administration of a \$4.5 million appropriation for a state-sponsored exhibits building to adorn the 1968 San Antonio HemisFair. Personnel assignment on this function will be announced later, Hildebrand said.

In addition to its new development and promotional programs, TTDA will continue

Chuck Wagon To Join Other Old Vehicles At Sill

A historic old chuck wagon this week joined 21 other frontier, horse-drawn type vehicles in the Old Corral at Fort Sill Museum.

The wagon, more than 50 years old, was donated by Greer County Cowboy Association for permanent preservation and display at Fort Sill.

It was originally used in roundups on the Sid Clark Ranch on the Texas-Oklahoma line in southwest Harmon County and Texas. Sid Clark's son, E. Clark Dodson, Texas, is one of the last remaining members of the Association.

The wagon was used by the Greer County Cowboys Association for its annual July Campouts in Mangum from 1932 to 1963. The bed is painted green and the running gear red. The old bows, tarp, roundup pans and camp kettles blackened from the smoke of many camp fires, the tin cups and plates, and sourdough bread board, are part of the wagon's gear.

Two of the oldtimers, Louis M. Tittle, 77 and Albert Boyd, 67, presented the wagon to the museum in Mangum Sept. 21st. They helped pull it out of an old shed and load it into an Army truck.

Tittle's father, Sam Houston Tittle was an earlyday rancher and sheriff in Old Greer County, which was once part of Texas. Louis M. Tittle, born Dec. 14, 1887, was the first white child born in Old Greer County.

Albert Boyd's father, George W. Boyd, organized the first

National Bank in Mangum in 1900 but "didn't care too much about that inside business" and always kept his hand in the cattle business.

When the Greer County Cowboys Association was organized in 1931 and 1932, there were more than 100 old cowboys who could tell tales of their Texas Longhorn cat and of the days before settlement when this area was cattle paradise.

The oldtimers have gone to their last roundup. Their sons are scattered, and the last Mangum reunion was in 1963.

The chuck wagon will be at home at Fort Sill.

Gill Griswold, director of Fort Sill Museum, said "The museum has long wanted a chuck wagon to fill out its collection of frontier type horse-drawn vehicles, both because of Fort Sill's connection with the early cattle drives through Indian Territory, and because the post itself was once the seat of a big cattle industry in which these vehicles were used. Chuck wagons rolled for years across the military reservations' ranges in support of roundups staged by the Army and the Apache prisoners-of-war from about 1896 to 1913 when the Apaches were running beef cattle here. This herd, started by Gen Hugh L. Scott with former Apache warriors as cowboys, numbered at its peak 10,000 head and was acclaimed as one of the finest herds in the Southwest. The herd was sold at auction when the Apaches were given their freedom by Act of Congress in 1913 and left the military reservation, and the proceeds of a quarter of a million dollars went into the Apache fund for their use in resettling on allotments in Oklahoma and on the Mescalero Reservation in New Mexico."

The wagon joins a Conestoga Wagon, ambulance wagon, a surrey, an Army Buckboard and other historic vehicles in the Old Corral. The stone corral, which also has a replica blacksmith shop and trader store, is one of Fort Sill's 50

The First Press Is The Last Press

Wash-and-wear apparel made of blended fabrics has taken a giant step forward, due to a marvelous development in garment manufacture called "durable press." This process, which insures exceptional crease-retention, wrinkle-resistance, and unpuckered seams, works best on fabrics containing a high percentage of "Dacron" polyester, "Orlon" acrylic, or Du Pont nylon. The just-pressed look and the shape of the garment remain steadfast indefinitely.

These children's fashions are examples of durable-press clothes. The boy's well-tailored pants by Health-tex in sturdy poplin of "Dacron" and cotton have been washed ten times and look as meticulously pressed as before the first washing. The smart little jumper by Judy Kent, made in the same blend of fibers, has inverted pleats with locked-in sharpness.

The Giant-Killer Rides Again!

American Motors Challenges the "Big 3" of Detroit—With 4 New Lines of '66 Cars that Give the Public What it Wants.

Last time it was size. This time? Quality! Quality that's built in—not added on. The promise: more built-in quality features at no extra price.

Remember when American Motors came out with the trim little Rambler and knocked the Detroit "Giants" on their collective ear? Overnight, big fins and fat land yachts went out of style. American Motors came along with the right cars at the right time and caught the competition napping. This year, almost half the automobiles sold are Rambler-size cars.

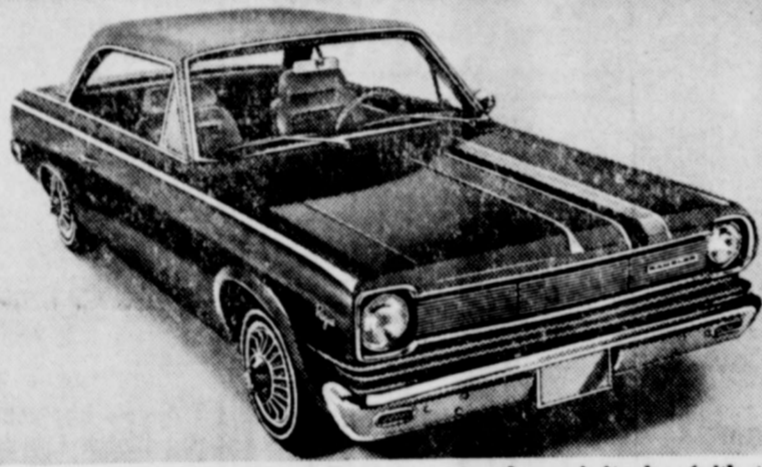

Round one to the "Giant-Killer." What next? For '66, American Motors again gets the jump on the big boys with a new rallying cry: Quality! A new kind of quiet quality that is built in as standard equipment on every car in the line.

This is the American Motors credo. Quality that's built in—not added on. First, determine what has to go into a car to make it stronger, safer, more dependable, more luxurious. Then put it there. Regardless of cost. Build it in.

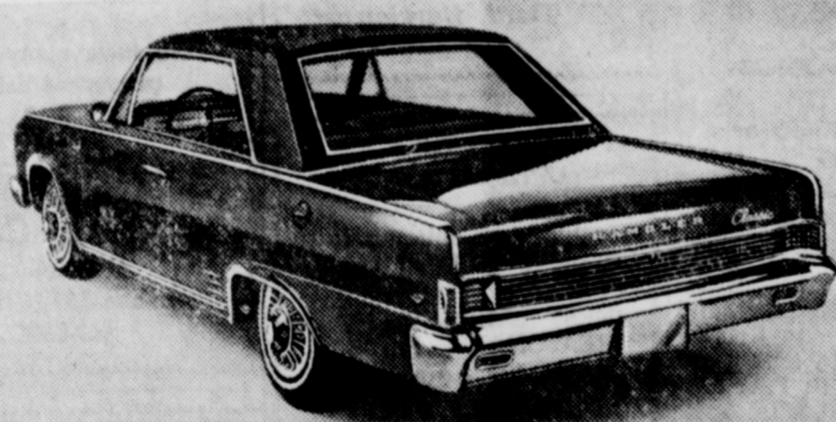

Ready to be convinced? Ready to be surprised? Check this page for a preview of the 4 sleek challengers. New cars. New names. Then admire the styling of these exciting new cars. ALL ABOUT DAIRY FOODS

FOR GOOD TASTE AND NUTRITION... AMERICANS ARE DRINKING MORE MILK! 1964'S FLUID MILK CONSUMPTION WAS UP ONE WHOLE PINT FROM 1963. PEOPLE ALSO ARE BOOSTING THE NON-FAT AND LOW FAT MILK MARKETS, AND EACH YEAR RECORDS HAVE INCREASED FOR CONSUMPTION... 30% IN 15 YEARS!

ALL DAIRY PRODUCTS ARE PRIMARY SOURCES OF PROTEIN AND CALCIUM—NUTRIENTS ESSENTIAL THROUGHOUT LIFE FOR GROWTH AND REPAIR OF BODY TISSUE.

DAIRY FOODS SUPPLY MORE THAN 75% OF AMERICA'S CALCIUM NEEDS. UNLESS INCLUDED IN THE DAILY DIETS OF PERSONS OF ALL AGES, IT IS DIFFICULT FOR THE HUMAN BODY TO OBTAIN THE RECOMMENDED CALCIUM CONTENT.

THE DAIRY COW IS CREATING IN NUMBER LESS THAN 16.1 MILLION IN THE U.S.A., BUT MILK PRODUCTION IS AT AN ALL-TIME HIGH... 7,830 POUNDS PER COW
