NorCentTex Scout Meeting Is Slated

Mrs. Earl W. Aldrup Sr. of Jacksonville, Alabama will conduct a conference on April 22 and 23 for members of the Board of Directors of the NorCentTex Girl Scout Council. The conference will be held from 6:00 p.m. to 9:30 p.m. Friday and from 9:00 a.m. to 4:00 p.m. Saturday in the Wrangler Room of the Country House in Wichita Falls.

Mr. Floyd Marten, Council President, said the conference is a new service of Girl Scouts of the U.S.A. to its local councils. It will focus on the dynamic leadership role of a local board of directors and will include an opportunity to relate the responsibilities of a board to the fundamental beliefs and principles of the Girl Scout movement and to the policies and standards through which these principles are carried out.

Mrs. Aldrup is a member of a national corps of local board trainers made up of volunteer and professional workers experienced in administration and with knowledge and understanding of all phases of Girl Scouting. She is also a member of Region V's Regional Committee and is currently chairman of its Selection Committee. She has been active in Girl Scouting for twenty years serving in almost every adult capacity while moving about with her husband when he was in the service. She was also a professional worker, serving as Executive Director for four and a half years.

Mrs. Aldrup is active in the Jacksonville, Alabama Book Club, AAUW, President of the local Women of the Church, member of the Knox Music Club of Anniston, a Volunteer Trainer for her local Girl Scout Council and a member of its Personnel Committee.

Our community is represented on the Board of Directors and will be represented by Floyd A. Marten, President, Jerry Thomas, Vice-President, and Earl Martin, Camp Committee Chairman.

Troop 154 Of Boys Scouts Has Court Of Honor

Opening ceremony was conducted by Flaming Arrow Patrol. Then 11 boys were presented awards. Terry Thomas and Gary Fisher received their First Class. Troy Rogers, Allen Hatcher, Philip Civiletto and Darrell Rivard received their Second Class. Bert Crowder and Rodney Bile got their Tenderfoot awards during a ceremony conducted by Skip Puder and Lynn Landrum. Skip Puder got his Jr. Assistant Scoutmaster Warrant.

The following boys received merit badges: Lynn Landrum, Firemanship and First Aid; Terry Thomas and Gary Fisher, First Aid.

Badges of office were presented to Troy Rogers, Quartermaster; Edward Crouch, Librarian; and Darrell Rivard, Scribe. Terry Thomas and Gary Fisher were given their patrol leader badges.

Following the presentation of awards, a skit was put on by the Apache Patrol. Then the boys and their parents enjoyed a movie on the Philmont Scout Ranch.

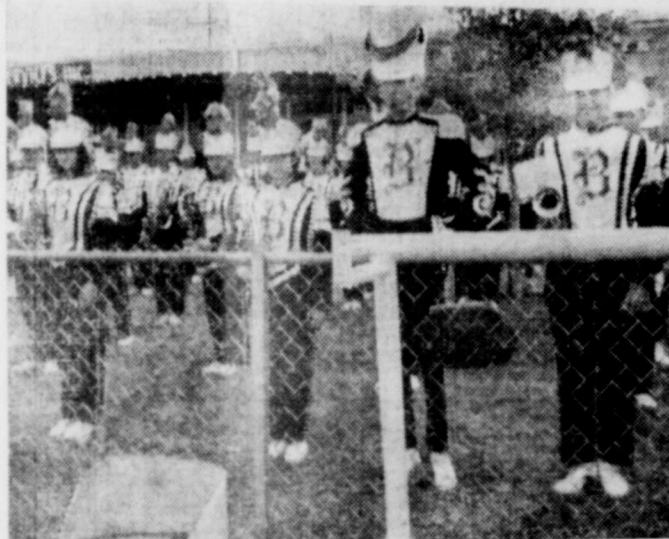

After the movie, The Flaming Arrow Patrol held the closing flag ceremony. Then refreshments were served.

Troop 154 is sponsored by the American Legion Post 265. Meetings are held every Tuesday night at 7:00 in the Legion Hall. Scoutmaster is Dean Rivard, assistant is John Rogers.

Locals

Weekend visitors in the home of Mr. and Mrs. J. T. Deckard were Mrs. Billie Audas and daughter Sandra of Gladewater and Miss Joyce Smith of Kilgore. Sandra and Joyce, both students at Kilgore College, participated in the tennis tournament at Odessa Friday and Saturday.

Tuesday's Activities Pictures

The Burkburnett High School Band greeted the National Judging Team at the airport.

New Mayor, C. J. Lippard and Chamber of Commerce President, Joe Salter, meet and welcome Sears-Roebuck Foundation Representatives.

Representatives of the General Federation of Women's Clubs listen attentively to the story of Burkburnett Community Improvement Program.

Sears-Roebuck Foundation Representatives, Robert E. Buckner, Ernest L. Arms, Robert McIntyre and Hubert Burnham, Jr., are shown with Senator Jack Hightower.

The judges who will evaluate the work of cooperating clubs in Burkburnett and the nine other finalist cities are shown, left to right, Robert C. Child, Stephen L. Brower and Ernie B. McCue.

'Burkburnett Story' Is Presented To Judges By Club Women And Citizens In Tuesday's Meeting

A smooth-flowing presentation of the story of Burkburnett's Community Improvement Program was heard by representatives of the Sears-Roebuck Foundation and the General Federation of Women's Clubs, April 19, at Town Hall.

Burkburnett is one of the finalists in the \$150,000 Community Improvement Program in which there were 11,325 entries. The national judging team was here to evaluate the work of the cooperating clubs as part of the tour to the ten finalist cities.

Arriving by plane at 2 p.m., the team was met by the Burkburnett High School Band and a large civic welcoming group. They were escorted through downtown Burkburnett to the Town Hall by the Burkburnett Riding Club.

After introductions by Mrs. P. A. Carpenter, Mrs. F. M. McMurry, President of the Council of Federated Study Clubs, introduced the program. Mrs. James Frye began presentation of the program with a brief outline of the cooperative community efforts of the past year, then called upon others present for more detailed reports.

G. H. Bear gave the Library Board progress report and Walter Riley told the group of the newly organized "Friends of the Library," whose aim he stated is to "acquire members and put money in the bank for the library."

President of the Community Service Council, Harold Kennedy, told of the Council's endeavor to coordinate the efforts of the clubs and organizations to prevent an overlapping of projects. He then called on committee chairmen of C.S.C. for reports. Some of these were Parks and Beautification, Mrs. Carl Morrison; Education, Mrs. James Pearson; Health and Welfare, Lamion Champ; Civic Improvement, Joe Salter; Youth Committee, Ken Blankinship.

Sketches were shown of "Boomer" dressed in different attire. Boomer is Burkburnett's happy little cartoon type character, created by Blankinship and adopted as a symbol of community spirit in Burkburnett. In the first sketch Boomer was dressed in his best to greet the visitors, then back to his work clothes, eager to return to the tasks remaining to be done.

George Provence, Student Council President, reported there had been a notable increase in youth participation in civic affairs and young people have a greater pride in their town since the have had a part in the overall improvement.

Joe Salter, C of C President, told judges of the success of the clean-up campaign last November. This project was initiated by the Jaycees and participated in by virtually every organization and individual in Burkburnett, including school children. Salter said "... the clean-up project proved we could move fast and work together toward a common goal."

Mrs. Marjorie Kauer, author of the C.I.P. story was scheduled to give a summation, but stated, "... there can be no summing up because we aren't finished. Our efforts are continuing toward ever greater improvements."

Area Residents To Attend TARC Meet In Midland

Mr. C. C. Schmitt, President of the Wichita Falls Council for Retarded Children, has announced that at least five people from the Wichita Falls area are making plans to attend the Annual Convention of the Texas Association for Retarded Children in Midland, Texas, April 21-23.

The theme of the convention will be "Changing Traditions." "New developments in the field of mental retardation will be discussed thoroughly," Mr. Schmitt said. "We are most anxious to learn how to increase our efforts to serve the retarded of the Wichita Falls area."

Official delegates to the TARC Convention from the Wichita Falls Council for Retarded Children will be Mr. C. C. Schmitt and Mr. John Griffin, alternate. Other persons planning to attend from Wichita Falls are Mr. and Mrs. Dan Nolte and Mr. Dave Hopkins.

Over 1000 members of TARC throughout the State of Texas are expected to attend the convention. Membership in the statewide organization includes primarily leading educators, school administrators, special education teachers, professional and businessmen, parents of retarded children and citizens interested in the future welfare of the mentally retarded.

'Friends' Show Rapid Progress

Rapid progress of the recently organized Burkburnett Friends of the Library was reported at a meeting of officers Friday afternoon, with Walter Riley, president, in charge.

Twenty members of the Current Literature Club were the first purchasers of memberships in the Friends group, according to Mrs. F. T. Felty, membership chairman.

Mrs. Felty emphasized that while the Burkburnett Library will be a free public facility, everyone is eligible to join the Friends of the Library in its efforts to stimulate interest in the Library and publicize its services.

Mrs. Jack Smith, fund raising chairman, announced that more than 150 cakes donated by local clubs will be sold at the Friends booth at the tent sale during Library Week, April 18-25, proceeds going to promote the Library.

James Frye, treasurer, stated that the group is preparing an application for non-profit status, so that all donations will be tax deductible.

Rattlesnake Hunt Set At Mangum

Mangum Chamber of Commerce has announced the first annual Rattlesnake Derby to be held here Saturday and Sunday, April 23-24.

A program of special features is being planned with the hunt to provide interest and entertainment for hunters and spectators. Good rattlesnake hunting is expected as this will be the first organized hunt to be held in the area.

The hunt will be open to anyone who desires to participate and will be held, rain or shine. Registration starts at 8:00 o'clock Saturday morning. Instruction on catching and handling snakes will be given all hunters.

THE OILMEN'S WORLD

Few things are more dramatic than the sight and sound of an oil gusher exploding high into the air and drenching everything around it with "black gold." This has been a climatic moment in outstanding films, and it has been celebrated in fact and story. The days of worry and anxiety are over — the agonized waiting until it can be known for certain whether the driller is to achieve success or face catastrophic failure. The oil-soaked crew shouts for joy — it's just a matter of time until untold sums of money will roll in.

Well, it has happened. But it is a much, much rarer event than most readers of fiction and viewers of the films realize. Nowadays, advanced technology usually is able to control the underground pressures and prevent the waste that a rare gusher represents. The profits from oil discoveries — if there are to be any profits at all — come slowly and arduously, and only after the taking of great risks.

Look at Alaska. Oil companies have invested about \$430 million in the search for petroleum in Alaska and plan to spend \$130 million more in 1966. But their total income from sales since the first major discovery in 1957 has been about \$126 million. The state, meanwhile, has collected about \$125 million in rentals, royalties and other levies.

So it goes in the oilmen's world. They must take great risks. And few indeed would accept those risks unless they could see, glimmering in the distance, the chance of profit, if luck, combined with courage and determination, smile on them.

CONGRESS HAS THE POWER

The strike of transit workers which virtually paralyzed New York, a city which is absolutely dependent on its public transportation system, was an example of union arrogance and disregard of the public interest to an almost unbelievable degree. Now the nation has suffered from a railroad strike.

The question is not whether the transit or railroad workers had just grievances. If they did, there are established ways for bringing about correction. The question is whether the country can continue to allow a few labor leaders, wielding enormous and arbitrary powers, to bring havoc if and when they choose.

Long ago, Congress acted to prevent the use and abuse of comparable powers by finance and industry. And there can be small question that sooner or later the sheer, unstoppable force of massed public opinion will force Congress to take similar steps affecting monopolistic labor. As David Lawrence wrote, "Congress has the power to regulate labor-management relations. During the last 18 years virtually no important amendments to existing laws have been enacted to cut down the abuses in the conduct of labor relations." The public can't wait another 18 years for protection.

WATCH YOUR HIDE

Taxes have been described as the price we pay for civilization. By the looks of things, we may be getting too civilized for our own good.

The editor of the Belton, Texas, Journal and Democrat, observes that: "More taxes seem to be coming. Something ought to give . . . and many of us hope the Great Society will be curtailed, while we are still alive to enjoy the society we already have. Some government economists look upon us taxpayers as sheep, figuring we can be sheared and sheared again. True, but you can skin a sheep only once."

If any of the voters are worrying about this, they might look in the mirror to find the cause of their concern. When we ask for federal handouts we get them for votes — but we pay for them in taxes, and then some. When we send a tax dollar to Washington, the "free lunch" we get back may only be worth fifty cents, with political overhead, carrying charges and inflation taken out. If we want to give our wool for civilization, but keep our hides for ourselves, we can make our wishes known in the voting booth at every opportunity.

"Modern capitalism encourages innovation and it has prospered because it caters to change and seeks out new and better ways to achieve its end. Capitalism can adjust itself to regulation when necessary and still remain a viable, productive system." — Henry C. Nolen, chairman of the board, McKesson and Robbins, Inc.

Did You Know?

1789—A HISTORIC YEAR

In the Spring 1775 years ago Congress met for the first time and selected George Washington for our first president. The hero of the American Revolution took the oath of office on a balcony of Federal Hall in New York City.

The first Thanksgiving Day was celebrated on November 26 of the same year. Washington, at the instance of Congress, had proclaimed it a day of thanksgiving for the Constitution. The holiday met with popular acceptance and quickly became a national tradition.

The year 1789 was a productive one for the young republic. One of the most notable achievements was the discovery of Bourbon whiskey which was distilled for the first time by Baptist Preacher Elijah Craig in Bourbon County, Kentucky. This September Bourbon celebrates its 175th birthday.

TOPS Snack Snubbers To Have Exercise Expert April 25

The TOPS Snack Snubbers do hereby tender an invitation to any and all persons interested in losing weight to attend the meeting this coming Monday night, April 25th at the Scout Hut behind the Methodist Church on Avenue C. We will have Mrs. Jean Davis Potts from the YWCA in Wichita Falls as our honored guest and speaker. She will speak to us concerning exercise and it's use in reducing. She will also give us advice in the area of spot reducing, by exercise. It will be a profitable evening for all.

We are planning to have at least one educational program each month to help us improve ourselves in the following areas: dieting, hair care, body and figure care, nutrition, especially how to plan balanced meals even though dieting. All the programs will be planned to be of interest to those of us that are overweight and are trying to do something about it. If you are such a person and have trouble losing weight and you feel it just can't be done by you, come visit us this coming Monday night to find out what TOPS is all about. One principle of TOPS is that of group therapy which

contributes to the feeling and the knowledge that "I'm not doing this dieting all alone." Instead, I have friends and fellow dieters in the chapter with me. These friends and fellow dieters will rejoice with me when I do loose weight, just as they will grieve with me when I have a weight gain, also they will encourage me to do better next week, if I have gained.

HEAR YE! HEAR YE!
The TOPS snack Snubbers are making this a VERY SPECIAL INVITATION to those members that have dropped out. We WANT YOU back with us, and most certainly we would WELCOME YOU back with us, so why don't YOU, former members make a special effort to come this next Monday night April 25th. We will be looking for ALL INTERESTED PERSONS to be with us April 25th at the Scout Hut, Avenue C at 7:00 P. M. If you have a weight problem come visit with us. If you want to know more about the Chapter call Jenne Stetson 569-1740.

Local Lutherans At Convention

Twelve hundred Lutherans gathered at Hotel Texas in Fort Worth Monday evening, April 11th to open the 41st Convention of the Texas District of the Lutheran Church — Missouri

Synod with a service of Holy Communion.

Dr. W. Harry Krieger of Jackson, Michigan, the Synod's Fourth Vice President, declared the sermon: "The Church must be the cross-exalting agency to save mankind."

"Headline - hunting churchmen" he said "compound confusion in offering theology of doubt instead of eternal truth." "When they say 'God is dead,' he went on, 'it is their faith that is dying, if it isn't already dead."

Philip Otten, pastor and Oscar Frieling, lay delegate of the Grace Lutheran Church of Burkburnett, attended the meeting.

CARD OF THANKS

We wish to express our appreciation to our many friends and neighbors for their thoughtfulness and prayers during the recent illness and death of our loved one. For the beautiful flowers, cards, food and other kindness we extend heartfelt gratitude. We especially want to thank Brother Morrow for his help and comforting words while our need was great. May God bless each of you.

Lady, you'll just love
flameless electric cooking
...it's so dependable

There's no guesswork to cooking with an electric range. Whether you're cooking in the oven or on surface units, you just set the controls for the heat you want and you get exactly the same heat from the same setting every time. Only an electric oven can be insulated all around, including the bottom. An elec-

tric oven is flameless and requires no flow of air into or out of it to support combustion. Temperatures inside the oven remain constant and heat is evenly distributed for best results when you're baking or roasting. Accurately measured heat is one of many reasons why you'll love flameless electric cooking.

Andy Rogers Issues Statement For State Senate Re-election

Due to the Federal Courts ultimatum your Texas Legislature was forced to re-district. The old 30th District I have represented for nearly 14 years has been greatly enlarged—300 miles across.

This job of State Senator belongs to YOU, the people, not to me or any other candidate. The whole object of filling this post is that YOU elect the person best able to serve you—not necessarily the most popular, best known and certainly not just the one who can spend the most money in a campaign.

I wish very much to see and visit personally with everyone, and will do so, as much as is humanly possible.

However, the huge size of our district, very limited money resources and the work and responsibility my Seniority places on me limits this personal contact, by me, quite severely.

Therefore, I sincerely request you to examine my record, satisfy yourself and help me spread the word to others.

I am a farmer, stockman, and small businessman, 41 years of age, have been active in church, lodge, civic work and farm and Veterans organizations. My wife, myself, two daughters and one son are native West Texans, of the area including our Senate district. I served three years in the United States Army during World War II and have seven years of college — Texas A&M and the University of Texas.

It is dangerous in our State Legislature not to be a "go along to get along" person. It is dangerous to speak loudly and firmly against some big officeholders when you do not agree with them 100% of the time or oppose some of their programs you believe harmful to your District or State. It is dangerous to seek to really stop pollution of our surface and ground waters. It is, perhaps, even more dangerous to raise your voice against corruption in high places when it arises or to oppose the great out-of-state owned corporations who have so much power in Austin—those who seek to evade their fair share of taxes and seek to shift an ever greater burden to the worker, farmer and Texas-owned businesses.

Andy Rogers has done all of these and therefore is on their list for extermination.

When I first ran for the State Senate in 1952—there was then a great hue and cry to clean up the "mess in Washington." I was an oddity among candidates

THEN, as I charged that "Austin is as rotten as Washington" and that "moral integrity is needed most".

I further demanded a law to require state officials and legislators to file for public record, a statement showing their income and its source.

This wasn't and still isn't, the way to be very popular in Austin and certain other circles.

In 1954, I, and a few others, urged investigations into several matters, including the Insurance Commission, certain land transactions and certain state contracts. For our efforts we were slandered.

A few months later the lid blew off.

I have authored and passed legislation against obscene, dirty literature, pep pills and narcotics.

Yes, I have made many good friends among those who work for the interests of our District. I have also made many good enemies of those selfish minority blocs whose interests conflict with those of our District.

In two of my more recent races they have used ever trick; deceit, slanderous anonymous mail and threats to me and my closest friends.

During this race they have, so far, at least, been more subtle. But their money and power behind my opponents become more obvious each day.

This is not to say that my two opponents would employ or use these tactics — they both seem like nice guys — but they don't have to use them — some others will gladly and freely do this for them if they think it will work.

These methods of deceit, etc. have been perfected to an art. And, as has been said, "the perfection of art is to conceal art." But look closely—it is obvious that they are at work—not necessarily because all of them love my opponents, but because they seek to destroy an old and proven enemy, Andy Rogers.

Meanwhile, my opponents readily seek and accept campaign money from various ones of these enemies of the people.

I and my family and some friends have suffered economically, socially and politically at the hands of some powerful lobbyists and others. But, I have not run from them in the past — I will not do so now, or in the future.

ISSUES

1. So the first real issue in this race for the 30th Senate District post is, can those who deceive the people and try to manipulate the people and try to manipulate the Legislature and other state officials to their advantage, finally succeed with their tactics and limitless money.

2. In Wichita Falls, the main population center of our district, a group there, several of their number extremely wealthy, pretty well control their city and county. Now they intend to control your Senate representation in Austin. Recently, a banker, and a very rich oilman, among their number called a "SECRET" meeting in Wichita Falls to rant and rave how horrible Andy Rogers was and to raise money for one of his opponents. He didn't bother with the facts. MORE IMPORTANT, he didn't tell why he was really against me.

The truth is that in 1959 your then Senator George Moffett and other leaders in Wichita Falls asked me to sponsor a law creating a pollution authority to control oil field pollution as Wichita Falls HAD to seek a new water supply and the proposed new lake would be worthless until firm pollution control was initiated.

I passed this bill for Wichita Falls and neighboring towns and it has brought wonderful results.

But the banker and oil man who called the "SECRET" meeting did not explain how he had been and still is considered one of the worst violators of pollution control.

Most of our oilmen, including the major companies have cooperated wonderfully with the pollution authority — but not this gentleman.

He regularly contacts our legislators and other state officials to try to destroy the pollution authority. He is regularly known to be one of the major political contributors to candidates on every political level.

Shall we let him destroy Andy Rogers who passed the bill to protect our water for all our citizens?

3. The "Iron-Curtain press." In my eighteen consecutive years in politics I have never encountered any news media as

slanted and biased as the Wichita Falls newspaper.

They have persisted in making "news" for their favorite son and denied every opportunity possible to let their readers know there are even other candidates running.

They have so arrogantly and fragrantly denied the public of its "RIGHT TO KNOW."

Shall the voters reward this un-American like institution??

4. Seniority. If a candidate has a voting record to please most of the voters, the next most important thing in his ability to represent them, is his Seniority.

Andy Rogers now ranks 6th in Seniority in our Texas Senate by virtue of four years in our House of Representatives and nearly 14 years in our State Senate.

Seniority in our Senate is the most important factor in determining which committee a Senator will serve on and the ones of which he will be chairman—and therefore his ability to serve.

Nothing else can take the place of experience and Seniority—it can't be purchased at the Supermarket or acquired by taking a pill.

This job belongs to the people, not me or any other candidate.

The people of our area have an 18-year investment in the experience and seniority of Andy Rogers. To elect either of his opponents would mean at least a 12 year wait to again have another Senator with this important asset.

Should the voters throw away this most valuable asset they already own???

There are many other subjects I would like to discuss, but I will close by saying it has been a privilege to co-author and work for the bill that changed the name of West Texas State to a University and to have a vital role in the efforts to place Texas Tech where it stands today.

Yes, check my record—ASK THOSE WHO KNOW.

Andy Rogers' long record of service for the people of our area is clear. You can know where he stands—while many have been known to falter and

will in the terrible heat and pressure of the jungle of Austin politics.

WHY TRADE A RECORD FOR A PROMISE???

I need your vote and support. It will be deeply appreciated.

Sincerely,
ANDY ROGERS
