Kings Host Oklahoma City Team In Exhibition Game Saturday Night

By DEE UNDERWOOD

With a 1-0 record, and trailing the Sherman-Denison Jets, 2-0, in the Texas Professional Football League title chase, the Purkburnett Kings take the week off from league wars to do some shaping up, as they host the Oklahoma City All Stars Saturday night, in Burk's Jr. High Stadium at 8:00 p.m.

Not a whole lot is known about the All-Stars actual strength, but they are in an area abounding with football talent. They are prospective members for the 1967 Texas Football League season, along with Hammond, Louisiana, New Orleans, and possibly Little Rock, Arkansas.

The All-Stars are led by quarterback C. B. Speegle and end Tom Pearson, along with fullback Tom Bell, Speegle is considered an excellent field general and is capable of delivering the bomb at any time. Pearson, his prime target, is a big boy with real good hands.

Bell is one of the finest running backs in the Sooner state. He recently returned after a try-out in the National Football League. Pearson is known to have pro experience, having played for the Denver Broncos of the A.F.L.

Burkburnett Bulldogs Travel To Oklahoma City Crooked Oak For '66 Season Opener Friday Night

By DEE UNDERWOOD

(Directions to Crooked Oak Stadium are as follows: Take H. E. Bailey Turnpike to Oklahoma City; Cross Interstate Hwy. 35, make circle, and proceed north on Interstate Hwy. 35; exit at Southeast 25th St.; proceed East to East-avenue, then south to S. E. 22nd St.)

The Burkburnett Bulldogs face a double tough test this Friday night in Oklahoma City, as they tackle the big and rugged Crooked Oak Rufnex in an 8:00 p.m. non-conference opener.

With hopes high, the Bulldogs go into the contest with a bright attitude and even brighter prospects for a successful season. With seven starters back from a 4-6 season, most followers feel that the road to follow is up.

Coach Froman naturally would like greater depth, but several of his front line men are top notch. Probably two of the league's finest linemen are left tackle Larry Johnson, 195 pound senior, and right guard Jerry Harsh, 165 pounds and a senior also. They will be joined by Rusty Hubbard, a 198 pound senior tackle, Eill Zimmerman, a 155 pound junior, and Rudy Robinson, a 144 pound junior center. Veteran ends, Steve Cozy, 155 pound junior, and John Edwards, 170 pound junior, round out the line.

Both Johnson and Harsh are known for their furious offensive blocking, as well as the fine defensive work they do. Cozy was a starter last season, proving to be a fine pass catcher, and playing defense also. Edwards saw quite a bit of action last season. Having good hands, he stands around 6 feet 5 inches tall.

At quarterback, we find Tony Hodges, a 150 pound senior. Although small, Tony is a fine, hustling athlete. He threw for seven touchdowns last season. Veteran halfback, Dale Hoffman, a 170 pound, powerful

senior speedster, is joined by Bill Roe, 157 pound senior halfback and Rusty Todd, 162 pound junior fullback. Backs Mark Seay, 156 pound junior, and Rod Turner, 136 pound senior go in on defense, as do Mark Schroeder, 165 pound senior end, and Butch Wood, 168 pound junior linebacker.

Crooked Oak has some dandy performers themselves. Tailback Roger Smith, 195 senior, is one of the Sooner State's best running backs and has a lot of speed. Running off the "I" formation, the Rufnex have a talented quarterback in Mike Jones, a 165 pound junior. Senior ends Lowery Whisenant, 175, and Mark Hayes, 195, provide excellent targets for Jones' aerials.

Wayne Reap, a 210 pound senior tackle, and Ronnie Robinson, a 190-pound senior center, are both "Blue Chip" stock. Robinson is also a tremendous kicker, leading the state last year in extra points and field goals.

The Rufnex are a solid football club, big, and especially good hitters. As Bulldog Coach Bill Froman put it, "They'll be there to play ball!"

Coach Froman told a Monday night Booster Club crowd of around 60 people that Crooked Oak was the high caliber of football club that the Bulldogs like to play, adding, "It will take a supreme effort on our part to defeat them."

The Bulldogs themselves have proven to be good hitters in two previous scrimmages, one with Mineral Wells and one with Anadarko, Oklahoma.

Coach Froman said that he felt there would be a great deal of offense, but, "in the end it'll come down to the basic fundamentals of who plays the best defense and who kicks better."

One can hardly ignore the Rufnex imposing credentials and they command a great deal of respect. However, with a great new horizon in view, we predict a Bulldog victory by a touchdown.

IS HE KIDDING?

Some recent statements by John F. Thomas, Washington, D. C., director of the Cuban Refugee Program, so vividly demonstrate the kind of "double-think" that permeates Foggy Bottom that we feel obliged to quote him directly.

Referring to the airlift arrangements made with the Soviet's Castro regime some time ago, purportedly giving priority to the reuniting Cuban families, Mr. Thomas said: "This is one of the few times in history when a communist country permits an orderly flow of its citizens to escape to a so-called capitalistic country." We wonder, in passing, why Mr. Thomas refers to the United States as a "so-called capitalistic country." But, more to the point, is his subsequent description of that "orderly flow" of refugees.

"Castro gains the property and possessions of the refugees," said Mr. Thomas. "We gain their skills. The refugees gain their freedom." Then the Refugee Program Director asked himself some questions, which he said were often asked?

"What is Castro's motivation in permitting refugees to leave in large numbers?" His answer, in part: "We have every reason to believe that Castro's government is trying its best to operate . . . in an efficient manner. This means that the official policy of the free movement of people . . . is being carried out down to the lowest level. Would it not be wonderful if such a policy could be established through the world? . . ."

The next question to himself: "Why have some people who have placed their names with the Cuban Immigration Service for leaving on the airlift not come out, so far?"

His answer, again in part: "One can deduce many reasons from the questioning of refugees who arrive in Miami . . . The Cuban government will not permit a male of military age . . . to depart. If there is a son or husband who is denied permission . . . many times the whole family will remain behind . . . it might be that a member of the family is a political prisoner . . . If there is evidence that . . . (an applicant) . . . may have sold his car, or his house, or withdrawn a sizeable amount of money from the bank within the past year, he will be requested (sic) to replace the item before he is permitted to depart . . ."

One question which Mr. Thomas put to himself was not answered. We repeat it: "Would it not be wonderful if such a policy could be established through the world?"

Mr. Thomas, you are kidding, aren't you?

PRESSURE FOR RED TRADE

For reasons that escape us, President Johnson persists in his efforts to expand trade with Communist countries. In South Vietnam, we are warring with the Communists and the enemy is being supported by Communists everywhere. But we are not at war with them. Perhaps that delicate distinction is the reason.

In any event, despite Congressional rebuffs, the President is still trying to push through a bill which would make it easier to deal with Communist countries, and the administration is said to be planning other trade missions like those that visited Poland and Hungary last fall. These trade missions would be made up of hundreds of American businessmen, escorted by retinues of Washington bureaucrats. The President is said to be offering legislators an inducement that is usually attractive to junketers—assurance that the Commerce Department will pick up the tab for the month-long trips.

It's impossible to tell precisely where the pressure is coming from to permit American firms to deal with an avowed enemy. No doubt some American businessmen want such trade, just as certain American companies had no compunction about selling scrap iron to the Japanese in the months before Pearl Harbor. The British and other wheeler-dealer nations would like to see the U.S. take a more tolerant view of East-West trade.

Of one thing there can be no doubt: most of the pressure for trade with the Communists comes from the same element that constantly strives to build up the Reds at the expense of the Red, White and Blue. And this should be the tipoff, and the best reason for opposing such trade.

Rep. Wilbur Mills, (Democrat from Arkansas) Chairman of the Ways and Means Committee, is obviously conscious of this fact. He has made it plain that he's opposed to sending trade missions to such countries as Bulgaria and Hungary because they are shipping arms to North Vietnam. In his book that constitutes trading with the enemy, regardless of what the President thinks.

We think he's right. And we think it is asinine to "build bridges" to Red regimes when those regimes use those bridges to send supplies to Communists who are killing American G.I's.

Imaginative Dividers, Built-In For Homes

Every house has as many partitions as the separation of living areas requires. When these walls between rooms are put to work in various ingenious ways, the entire home becomes more attractive and more livable.

The time to see to this, of course, is when the house is in the early planning stages.

According to the Southern Pine Association, storage, television, Hi-Fi and many useful functions can be built into room partitions. For example—a combination stove and pass-through between kitchen and breakfast nook or dining room.

This practical built-in greatly alleviates the workload of the lady of the house whether she's cooking for her family or serving as hostess for an informal gathering.

Solid wood paneling and trim provide an ideal background with artful camouflage for built-ins and imaginative dividers. Even indirect lighting may be encoined in the handsome concealment of finish lumber.

For partition surfaces, modern patterns of Southern Pine paneling have striking effect. There is a slight spacing between panels so that thickness is visible as well as width and length. This creates a dramatic three dimensional impression with striking shadows and highlights.

The new trend in partitioning is to employ dividers of less than full floor-to-ceiling height wherever practical. Not only are these ample for storage or as containers for TV, but they also offer the room occupants an intriguing glimpse of what lies beyond. Freedom of vision enhances the sense of spaciousness. Functional dividers are especially desirable in a small home where living area is necessarily limited.

Booster Club Has Ice Cream For Coaches, Wives

An extra treat was added to the Bulldog Booster Clubs' regular Monday night meeting this past Monday, as homemade ice cream and cake was served, featuring all the coaches' wives as special guests.

Several matters were discussed, including a "Go Bulldog" banner of heavy canvas to be hung in the Bulldog Stadium. Gene Turner reported that work was well underway on it. There were not enough people committed to warrant chartering a bus to Oklahoma City for the Crooked Oak game, so the idea was dropped.

Coach Mike Bridges gave a report on the progress of his Freshman team, followed by a report from Bob Carpenter, coach of the Jr. Varsity. Head Coach Bill Froman gave a report on his team's condition

and the Anadarko scrimmage. He then showed a film of the scrimmage to the crowd of about 60.

Everyone agreed that the ice cream and cake was delicious. If you haven't already purchased your Booster Club member-

ship, don't hesitate to do so when approached by a club member, or come on out to the meetings and buy your membership at the door. The Booster Club meets every Monday night at 7:30 in the Community Room of the Burk Burnett Bank.

DON'T YOU NEED A LIGHT?

"Thy word is a lamp . . ." Psa. 119:105. The Bible contains: "The mind of God, the state of man, the way of salvation, the doom of sinners, and the happiness of believers. READ IT to be wise, BELIEVE IT to be safe, and PRACTICE IT to be free."

How do YOU take the Bible? DO YOU GIVE SERIOUS CONSIDERATION?

The 3 R's are important. Isn't the 4th R (the Religion of God) most important?

With vacations over, let's make it also — BACK TO BIBLE STUDY. Won't you study the Bible with us this semester? BEGIN THIS Sunday, 9:45 A. M.!

FEEDING THEMSELVES

As part of Ceylon's grow-more-food campaign, volunteer students in a 5-month period weeded 13,500 acres for school gardens. Americans are helping by sending vegetables seeds for the gardens, at \$2 per package, through CARE, 216 Empire Bank Bldg., Dallas 75201.

Have You Forgotten The Flag?

Vern Scofield, manager of the Nebraska Press Association, recently authored an inspiring article entitled "What's Happened to the Display of the Flag?" It has been reprinted and quoted in many forms since he wrote it on the afternoon of July Fourth.

Seems Scofield took a drive on that most patriotic of days and found that out of 300-plus American homes along his route only 21 displayed Old Glory.

His thoughts were that perhaps people took our country and our free heritage, as well as its symbol—the flag—much too much for granted. "For this there is no excuse," he commented. He strongly urged the newspapers of his state to remind readers of Old Glory's meaningful status in America TODAY.

Here are listed 16 days of the

year when it would seem vitally important that the Stars and Stripes be flown proudly everywhere in these United States.

Labor Day—First Monday in September; Citizenship Day—September 17; Columbus Day—October 12; Veterans Day—November 11; Thanksgiving Day—Fourth Thursday in November; Christmas Day—December 25; New Year's Day—January 1; Inauguration Day—January 20; Lincoln's Birthday—February 12;

Washington's Birthday—February 22; Easter Sunday, Six weeks after Ash Wednesday; Mother's Day—Second Sunday in May; Armed Forces Day—Third Saturday in May; Memorial Day—Half mast until noon, May 30; Flag Day—June 14; Independence Day—July 4.

COLUMBUS OPENS THE NEW WORLD; OUR JOURNEY TO GREATNESS BEGINS

We are pleased to bring you the distinguished series—"Greatest Events In American History"—which begins today with Installment 1.

In each succeeding week, this series will trace the story of our land and show how and why we have become the greatest nation on earth.

It actually all began long before Columbus. The rich natural resources were here; and others, like Leif Ericson, had explored here.

But Columbus' discovery opened up this land, made other nations aware of it, brought developers here, and started the new world on the road to greatness.

On Aug. 3, 1492 Columbus set sail from Spain. On Oct. 12 he sighted one of the Bahama Islands.

Now the new world was ready for settlement—and, democracy.

How democracy got its start here will be shown next week. Watch for Installment 2 then.

Going away to
SCHOOL

At this time of the year, all over our nation, boys and girls are leaving home to attend the school of their choice. Many, for the first time in their lives, will be away from home and their home church. They should be encouraged to, immediately, seek a church nearby where they may continue to worship the Lord, and have the companionship of friends with similar outlooks on life and God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Peachy Eating

The ancient Romans enjoyed peaches so much they were willing to pay the equivalent of \$4.50 for each one. Fortunately, today's peaches are a lot less expensive. This year's crop has been a good one. Why not treat your family to delicious fresh peach desserts while peaches are plentiful—and can or freeze some for use in the months ahead? In addition to paying a high price for peaches, the Romans didn't have a modern convenience product like FRUIT-FRESH* to keep sliced peaches from turning brown. This ascorbic acid mixture is invaluable for canning or freezing fruits. Count on it to keep peaches, pears, apples, blueberries, strawberries and other favorite fruits at their most flavorful and colorful best. Use FRUIT-FRESH, too, when you want to prepare sliced fruit ahead of time. Even bananas will still be fresh-looking and have that "just sliced" appearance.

PROPER STUDY LIGHT IS GOOD PROTECTION, TOO!

GOOD LIGHT HELPS PREVENT EYESTRAIN AND FATIGUE... MAKES HOMEWORK EASIER

Thanks to an alert safety patrol, school-bound youngsters are protected from harm as they cross busy streets. At home, proper study light is good protection against eyestrain and fatigue. For best light from a table lamp, use at least 150-watt illumination in a lamp that's tall enough to spread light evenly over the work area. It should be properly shaded to shield the light source from the eyes. A diffusing bowl is recommended to soften the light and prevent glare. Check your children's study light now. Better sight can mean better grades.
