## SEN. RALPH YARBOROUGH'S NEWSLETTER

On Monday the Senate approved and sent to the President the Federal Aid Highway Act of 1968, extending our commitment to a strong interstate highway system through 1972. This is good news for Texans, because when these highways are complete Texas will have more miles of interstate highways than any other state — over 3,000 miles. Today construction is on schedule. We already have more complete mileage than all except California.

On completion these highways will represent a \$2.5 billion investment in Texas. The Texas Highway Commission oversees construction of these modern roadways, but the federal government actually provides the guidelines and most of the money.

In renewing the highway act some members of the House tried to take from the Secretary of Transportation his authority to rule on the routes for highways.

As our population grows, more roads will be needed. Lately, there has been a disturbing tendency for engineers to map highways through parks and public lands, cutting them up and destroying recreation areas and even historic shrines, because this way they take the park lands without paying for them.

In San Antonio, despite a public outcry, officials want to route a freeway through Brackenridge Park, one of the oldest and loveliest parks in the Southwest. Located on the San Antonio River, Brackenridge Park covers 323 acres inside the city. It includes one of the best zoos anywhere.

In Senate debate I described the Brackenridge Park situation to Senator Randolph of West Virginia, sponsor of the highway bill. He agreed with me that the Transportation Secretary would still have the right to prevent new freeways from cutting up specially significant

## 800 TIMES

Since colonial times, the Southern Pine forests have supplied this nation with more than a trillion board feet of lumber. That's enough to span the distance between the earth and the moon by nearly 800 times.

## Cook-Out At Evergreen Manor

On the evening of August 3, 1968, the residents of Evergreen Manor enjoyed a cook-out on the home lawn.

The hamburgers were charcoaled by Charles Greb and home-made ice cream served by the nurses, and Beth Dorsey and Wanda Rutherford, afternoon cooks.

Judging from the smiles and various comments, it was an enjoyable experience for our Senior Citizens.

## Burk Watermelon Festival Big Success, Enjoyed By 1200 People

The sixth annual watermelon festival was enjoyed by about twelve hundred watermelon hungry people. The gala affair was opened with a short word of welcome from Mayor Al Lohofener, who extended to the public the wishes of the Chamber of Commerce, that every one enjoy themselves and to assure that everyone that there were plenty of ice cold melons.

The streets were literally lined with watermelon eating people of all ages, from all over North Texas and Southern Oklahoma discussing the good old times, to the beat of the pop music furnished by a local musical group known as the Sweet Smoke.

Old and young alike seemed to enjoy this southern treat as twenty thousand lbs. of ice cold watermelon was consumed in about sixty minutes.

This Festival was sponsored by the Trade Promotion Committee, of the Burkburnett Chamber of Commerce, and they did a real fine job of securing the finest watermelon and a fine program so that all might enjoy some extra fine community fellowship.

All thru this program you could view our fine City Police Dept., with Chief Buck Abbott and his fine officers directing traffic and assisting in every way possible.

After the program our fine Volunteer Fire Department and Chief Eryon Key took over where our committee left off and did a swell job of completely washing down main street.

To these two fine groups, The City of Burkburnett Police Department and to the Burkburnett Volunteer Fire Department we say Thank You.

### STOP THIS FLOP

### LET THE NEW CONGRESS DECIDE

The new Congress in January 1969 should be given the opportunity to decide long range legislative farm policy, asserted Charles B. Schuman, president of the American Farm Bureau Federation.

"Instead of continuing down the dead-end road of government supply management — with acreage limitation, stockpiles to depress market prices, price fixing and subsidies — farmers need a broadbased program to expand markets, increase prices, cut costs and thus, provide the basis for increased net farm income," he declared.

Extending the Food and Agriculture Act of 1965 costs more than an estimated \$3 billion per year to operate — or nearly \$9 million each day. This lavish scheme soaks up approximately one-third of the recent increase in taxes with little if any benefit to the farmers.

The farmers are in a serious cost-price squeeze. Extension of the Act of 1965 does not reduce this pressure. It's time for a change in farm programs — not more of the same.

### WATCH WHO YOU HIRE

In 1968, some 75 million voters will be electing a president and vice president, congressmen, governors, legislators and local officials — thousands all told. The people are hiring all these men and women to run governmental affairs with tax money taken from all of us. It is important therefore that the voter use his very best judgment in weeding out officials who have shown lack of ability in handling public funds and expenditures economically.

Public officials need public support and understanding in working out answers to such problems as war, unemployment, inflation, riots, taxes, strikes, breakdown in law and order, etc. Money alone won't solve these problems. It takes thinking and planning — not just spending. No saying is more appropriate today than the old one, "if we get bad government — we usually deserve it." It's up to the people to watch their public servants — that's what they still are — and they need help and opinions of their employers.

Georgia-Pacific Corporation will participate in a major South American timber development program from manufacturing to long range reforestation and international trade. The development area is in the Province Esmeraldas in the northwest coastal region of Ecuador. The program follows recommendations of a joint development study by the United Nations Food and Agriculture Organization and the Ecuadorian government.

### The Mutual Fund Way

There are a few people today who still delude themselves into thinking of Wall Street in terms of quick market killings and fancy themselves modern-day Walter Mittles carving fortunes out of stocks that only rise.

It is a concept familiar to anyone who has ever heard a success story of the "poor boy to millionaire" variety. Fortunately, most people keep this for their day-dreaming moments, while seeking more practical methods to help them acquire some of the possessions that go to make the American living standard the highest in the world.

Growth is usually a slow process in nature, but frequently the end results far exceed what might have been predicted. And the same principle can be carried over into human effort: just as a mason builds a wall a brick at a time, a far-sighted investor can build an estate— little by little.

One method, which has proved attractive and convenient to millions of investors, is the use of mutual funds in a systematic accumulation plan.

The Investment Company Institute, the national association of the mutual fund industry, reports that such plans have been growing at the rate of 40,000 a month. They provide for the purchase of shares for as little as \$25 monthly or quarterly, and upon maturity in 10 or 15 years, the proceeds may be used to supplement current income, provide for the education of children, or to fill retirement needs.

This is only one of the services offered by mutual funds. There are other types of plans tailored to specific requirements—but all share in the basic advantages of the mutual fund: continuous supervision of one's investment, and diversification, with even one share of a mutual fund representing a proportionate interest in the securities of as many as a hundred or more corporations. The ownership of so diverse a portfolio would be difficult, if not impossible for the investor of average means to achieve on his own. Today mutual funds manage assets worth close to \$48 billion.

### SENSING THE NEWS

By THURMAN SENSING  
Southern States Industrial Council

If all churchmen throughout the world could work together for peace with freedom, it would be a splendid thing. The ideal of our civilization for almost 2,000 years has been peace on earth, good will towards man. Unfortunately, churchmen have not yet found a worthwhile instrument for promoting the only kind of peace that is meaningful — peace with freedom.

Certainly, the World Council of Churches, which recently completed its Fourth Assembly at Uppsala, Sweden, is not the desired instrument. Instead of promoting the cause of freedom, the WCC gave aid and comfort — and supplied useful propaganda — to the forces of tyranny in the world today, forces that often deceitfully describe themselves as "peace" forces.

For example, the World Council of Churches called for an immediate, unconditional end to the U.S. bombing of North Vietnam. But it didn't demand that the North Vietnamese Communist regime stop its campaign of aggression and terrorization against the South. That the WCC would take the side of the Hanoi regime that is guilty of the most terrible atrocities, including beheadings and the burying alive of captives — as revealed following the allied recapture of the historic Vietnamese city of Hue — gives insight into the real character of a body that falsely describes itself as a voice of conscience. Only a conscienceless organization would lend itself

to the political goals of Ho Chi Minh and his henchmen.

The WCC statement against U.S. bombing was not the only indicator of the organization's bias in favor of revolutionary action. One speaker from India urged the delegates to the Assembly to accept the idea of disorder and strife as a normal part of change in our time. The Assembly also gave a platform to the American radical, novelist James Baldwin, who spoke to the "churchmen" in praise of Stokely Carmichael, the Black Power advocate and Castro ad-

mirer who specializes in incendiary threats against American society. When Baldwin finished his hymn of praise of Carmichael, the delegates to the Council applauded.

Finally, the WCC came to the aid of the four Americans, including the chaplain of Yale University, the Rev. William Sloane Coffin, who were convicted in a federal court of conspiring to influence young Americans to violate the draft laws. The World Council of Churches endorsed the principle of selective objection to "particular" wars, which is the principle upheld by Rev. Coffin and his co-conspirators.

Neither the United States nor any other free republic could long endure if each citizen decided whether or not he wanted to support the wars in which his country engaged. As the old saying goes, all good men should come to the aid of their country in time of trouble.

If selective participation in wars were permitted, the cowardly and the greedy would never render service to their country. They would prefer to sit home in safety or seek ways of prospering while others faced the dangers of the battlefield and devoted months and years of their life to national survival. The burden of defending a society must fall equally on all — except as where infirmity or extreme hardship applies. The laws of the United States clearly recognize special circumstances. The laws even provide for those who have a true conscientious objection to fighting of any sort any time. But justice would be done to all brave and loyal citizens if the cynical were exempted from service to their nation and fellow countrymen.

It is interesting, in terms of historical parallel, that the WCC declaration favoring "selective" objection to war was issued from a meeting place in Sweden. The Swedes spend much time criticizing the United States for its defense of freedom in South Viet Nam and attacking Rhodesia and South Africa on the ground of their domestic policies. Yet the Swedes led out World War II, selling war material to the Nazis while their next-door neighbors — the Norwegians — and the Danes — were under Hitler's iron rule. Truly, the Swedes have no warrant to lec-

ture anybody on what is right. It would be a mistake to treat the World Council of Churches' declarations as the voice of organized religion. For years, the WCC has been a sounding board of anti-American anti-Western opinion. It has encouraged the same revolutionary forces and struggles that were inspired by the Soviets and Red China. It has condemned all Western attempts to augment defenses against communist expansionism.

The danger is that innocent churchmen will be duped into believing that WCC speaks for Christians everywhere. It is important, therefore, that the WCC's actions be seen in political perspective.

## SOME FOLKS THINK OUR AUTOMATIC BANK DRAFT PAYMENT PLAN IS GREAT...

Others couldn't care less

Folks who use our Automatic Bank Draft Plan to pay their electric bills seem to like the idea. ♦ They like the convenience of having us draw a draft on their checking account for the amount of the bill. ♦ Then they don't have to bother writing a check, hunting for a stamp and remembering to mail it. ♦ And they don't have any trouble keeping their records straight because we immediately send them the portion of the bill they would normally keep, and it's marked "paid." ♦ Of course, many of our customers aren't interested in the Automatic Bank Draft Plan. They still want to get their bills at home and come in to pay us or send a check in the envelope we enclose each month. ♦ We started the Bank Draft Plan because some of our customers asked for it, and we want all our customers to know it is available. ♦ If you'd like to know more about the Bank Draft Plan, we'll be glad to tell you all about it. Then you'll know whether it makes sense for you. ♦

**P.S.** Naturally, this plan cannot go into effect on anyone's account until it is requested, and necessary authorization forms are signed.

# MAYOR AL LOHOEFENER MADE FIRST CALL ON DIRECT TELEPHONE DIALING AUGUST 2nd

Floyd Marten, Southwestern Bell Telephone Service Foreman, looks on as Mayor A. H. Lohofener prepares to cut the first DDD circuit into service.

Mayor A. H. Lohofener places the first DDD phone call to Lt. Governor Preston Smith in Lubbock, Texas, Friday morning during ceremonies at the local telephone office as a number of interested spectators look on.

The conversation between Lt. Governor Smith and the local citizens during the first DDD call Friday morning was sprinkled with bits of humor.

Burkburnett telephone users can now span the nation with a few simple flicks of the finger. This became a fact shortly before 8:00 a. m. Friday when the city's new Direct Distance Dialing telephone system went into operation.

The occasion was observed with a brief ceremony by civic leaders and Southwestern Bell Telephone Company representatives at the company's Burkburnett telephone building.

Mayor Al Lohofener did the honors by cutting the first circuit into service, then making the first customer dialed long distance call in the city's history.

The first call went to Lt. Governor Preston Smith. The Democratic Party's nominee for Governor received the call at his office in Lubbock.

Mayor Lohofener made the call over a Speakerphone, allowing several Burkburnett citizens who attended the ceremony to participate in the conversation. The Speakerphone arrangement also enabled guests to hear both sides of the conversation.

The call and conversation ceremony were preceded by a breakfast at Town Hall.

Mayor Lohofener found a special plug with three large D's when he arrived at the telephone company's equipment room. When he removed the gold-colored plug from the bank of equipment the city's first DDD circuit went into service.

He reached Mr. Smith by dialing the code "1", then 806, the Lubbock area code, and Mr. Mr. Smith's office telephone number. Burkburnett telephone users can reach distant city numbers by following the same procedure. The only exception to this involves the 817 area. When a caller wishes to call another telephone with the same area code as his own — 817 — he simply dials "1" and the telephone number, leaving out the area code.

Lt. Governor Smith answered the call on the third ring, then exchanged greetings with Mayor Lohofener. The Mayor explained that this was the first DDD call in Burkburnett's history and marked a major milestone in the city's communications history.

Mr. Smith recalled his trip to Burkburnett to help the city celebrate its 60th anniversary in 1966.

"I'm honored that you selected me to receive the first call," Mr. Smith told the group.

Jack Aaron, president of the Burkburnett Chamber of Commerce, promised Mr. Smith, "We'll be visiting with you in Austin."

The entire call was sprinkled with remarks about Smith's current drive toward the Governor's chair.

Mr. Smith asked County Commissioner Clark Gresham about problems in his precinct. Mr. Gresham got a laugh when he mentioned re-districting. Mr. Smith commented that this was a Supreme Court ruling.

C. J. Lippard, a former Burkburnett Mayor, told Mr. Smith, "things are looking good for you up here."

Mr. Smith told Dub Zimmerman he would not be Lieutenant Governor any longer unless Governor Connally calls another special session of the Legislature. He added that this was not a likely prospect.

Mr. Smith told former Mayor Alvin Hill that he'd never had the pleasure of talking with "so many ex mayors in one group."

Guests were about eight minutes deep into the call when the perennial topic of the weather cropped up. That came when Mr. Smith asked Harold VanLoh about the crops in the Burkburnett area.

As Mayor Lohofener wrapped up the ceremony, Mr. Smith commented that this new "DDD" system certainly marks a milestone of progress of which you can be proud."

Mr. Smith then invited all the citizens of Burkburnett to attend the inauguration. "You don't have to have a special invitation," he added.

At the conclusion of the ceremony, Southwestern Bell Man-

Local citizens participate in the first DDD call through a Speakerphone arrangement which enabled guests to hear both sides of the conversation.

ager Dub Deuschle presented Mayor Lohofener with a framed replica of the DDD plug he used to cut the city's first Direct Distance Dialing circuit into service. The plaque read "August 2, 1968, Burkburnett, Texas. The first long distance call was dialed over the new Direct Distance Dialing equipment by Mayor A. H. Lohofener."

Friday's activities climaxed months of intensive work and planning by scores of telephone people here and in other parts of the area.

New long distance switching equipment had to be installed and tested. New long distance lines were added to the system here," Floyd Marten, Southwestern Bell's service foreman, noted.

It was Marten who briefly explained the new equipment to guests at the ceremony before the Mayor cut the first circuit into service.

The new DDD equipment was installed by trained technicians of the Western Electric Company, the manufacturing and supply unit of the Bell System.

Local telephone people will operate and maintain the new

equipment.

Local telephone technicians are under the supervision of Marten and Combinationman Wayne Smith, both of whom played key roles in bringing the new system to Burkburnett.

Three other near-by cities will receive this new service during August. Iowa Park changes to Direct Distance Dialing Friday. Henrietta gets the new service on August 16 and DDD will go

in operation in Wichita Falls on August 30.

Direct Distance Dialing is used for station-to-station long distance calls.

Operators will continue to be on duty to handle person-to-person, credit card collect, pay telephone and other calls requiring special attention.

The new, mechanized long distance system will not cause any lay-offs in telephone personnel.

## JOE WAS A GOOD FELLOW

Joe provided well for his family. He was a good father and husband. He paid his debts and gave to charity. He was fair in his business dealings. He was a good citizen. He left his family with a comfortable income and a good home.

There were many flowers and lots of friends. The preacher made a nice talk about Joe's good qualities, but he didn't have much to say about Joe's hereafter. You see, Joe was not a Christian. Religion was "for little children, or perhaps women," but not for him. So Joe ignored God in his life; he didn't obey his will; he didn't talk to him; he made no effort to become a Christian, or to worship and serve as a Christian should. If there was a hereafter, he trusted in his own goodness to carry him through.

He had no promise that it would. He just figured it out that way.

But Joe was guilty of sin, even as you and I. There were some things that he did when he was younger that he didn't like to think about, and he had tried to avoid those mistakes since then. But those sins were committed and they injured others and himself, and the sins and the injuries still stand on Joe's record.

He was much like Cornelius, who in some respects was better than Joe (Acts 10:1,2). But the goodness of Cornelius was not enough to save him. He, too, had to hear words whereby he and his house could be saved (Acts 11:14). Neither Joe nor Cornelius could be saved with Christ, for Jesus himself said, "No man cometh unto the Father but by me" (John 14:6).

Joe could have put his faith in Christ, repented of his sins, and been baptized for the remission of sins (Acts 2:38). He could have been forgiven by the Son of God who gave his life for that very purpose, to forgive and blot out, for those that obey him, the sins that mortals cannot correct. But he didn't. He just figured out a way of his own,\* and now he is gone — gone to meet his Maker, the one he ignored all his life. Joe had provided for almost everything except the main thing.

Well, it is all over for Joe. But at the funeral there were other Joes and Harrys and Petes and Sues and Marthas and Janes just like him who some day will attend their own funerals. Will they be ready? It all depends on what they do about it now. "And now why tarriest thou? Arise, and be baptized, and wash away thy sins, calling on the name of the Lord" (Acts 22:16).

\*O Lord, I know that the way of man is not in himself: it is not in man that walketh to direct his steps" (Jeremiah 10:23).

"There is a way that seemeth right unto a man, but the end thereof are the ways of death" (Proverbs 14:12).

**IN MOTHER'S FOOTSTEPS**

What joy in life is seen in those eyes. That smile is given freely to everyone. Now look at them both. Which one am I talking about? Aren't they both the same? No, she's not an exact, carbon copy, of her mother — for when you look again, you see that there is a generation between them. She wears the bright colors in her dress with the cute designs. Her dreams are different than her mothers. She is more outgoing. Yet in the mother you can see a quiet humor and in her closeness to her daughter, a gentle protectiveness. Her mother's dreams are sometimes too ambitious, but in the "Encouragement Department" she works just fine.

There is one dream and ambition they both have, however; and that is to be like our Lord and Saviour Jesus Christ, and to be of service to the church. Their goodness is of God.

*"For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil." 1 Peter 3:12.*

EVERYONE IN THE CHURCH  
 THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**People, Spots In The News**

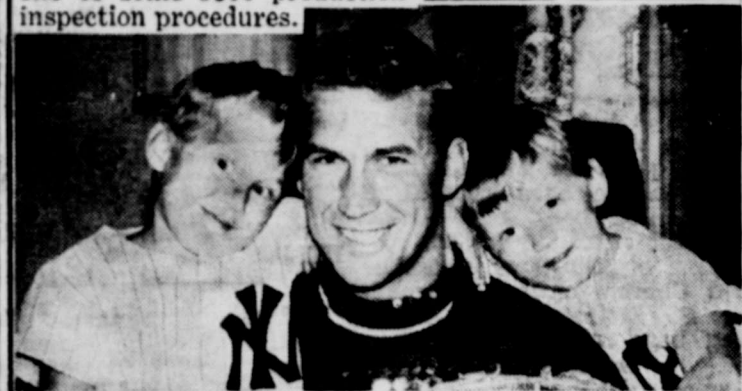

**'BIKING MAJORETTES'** show off new uniforms, in blue and orange, in Paris.

**'GRANNY'S KNOT'** as any Boy Scout could tell you, describes this modern German sculpture.

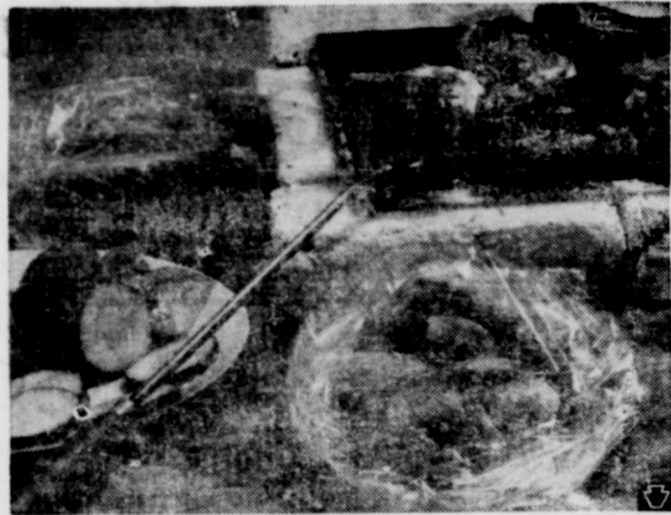

**WATCH PARTS** just coated with pure gold are checked at Bulova plant in New York, in one of some 3500 production-inspection procedures.

**'OUR POP, THE PITCHER'**—Sons Todd, 3, and Mel Jr., 4, show their pride in Dad, Mel Stottlemire of New York Yankees. Pictured at their Nutley, N.J. home.

**Picnic Chicken In The Bag**

2 chickens (2-1/2 to 3 pounds each), cut into serving pieces  
 2 teaspoons dried farragon leaves  
 1 bottle (16 oz.) barbecue sauce

Combine chicken pieces, barbecue sauce and farragon in a food wrap size Baggies® plastic bag. Secure with tie band. Refrigerate at least 4 hours, turning plastic bag over several times to coat chicken evenly with the marinade. Grill chicken over hot coals until crisp and brown, turning to brown both sides (about 1 hour). Drizzle from time to time with any marinade left in the plastic bag. Serves 6 to 8.

**PICNIC NOTES**

Keep food chilled enroute to picnic by filling food wrap size Baggies® plastic bag with ice cubes. Secure bag with tie band. Stack bags of food around ice filled bag.

For direct chilling — Fill Baggies® food wrap size plastic bag 3/4 full with ice cubes. Set sandwich size plastic bags of food such as hamburger meat, cold cuts, butter sandwiches on top of ice and secure larger bag with tie band.

**Trades Day Promotion Sign**

This is the sign to look for when trading with merchants in town. It shows that the merchant is participating in the Trades Day promotion of the Trade Promotion Committee of the Chamber of Commerce, which will last until December 24th. On that day a 1968 Mustang will be given away. For each dollar spent in one of the local stores, you will receive a ticket entitling you to take part in the monthly drawings which will be held the last Saturday of the month, and a chance to win the automobile. Look for this big orange sign and shop locally.

**LIBRARY CORNER**

For those who have read the article in this week's LIFE on RAILROADS and are interested in the subject we have TO HELL IN A DAY COACH by Peter Lyon. If this doesn't appeal to you how about trying one of the latest fads THE MAGIC OF WALKING, even in Texas some are trying it. On

World War II we have THE GI WAR, a combination of pictures, articles, jokes etc. And for the investor CHOOSING TOMORROW'S GROWTH STOCKS TODAY.

In fiction we have COME OVER RED ROVER, a spy-suspense story. THE PLAYBOY BOOK OF CRIME AND SUSPENSE, for humor try THE GOONEY BIRD by Anderson.

For the juniors we have two new science fiction books by Norton. Two mysteries by Orton, one of their favorite writers. Anderson's BLAZE is back

in the Lost Quarry and in the Indian Cave.

Finally we have THE QUICK AND EASY WAY TO EFFECTIVE SPEAKING which is Dorothy TIVE SPEAKING which is Dorothy Dale Carnegie's revision of AN INFLUENCING MEN IN BUSINESS.

If there's a new book you'd like to read we haven't mentioned please ask us — there's a good chance we do have it. We just don't list everything.

Of Texas refining 87% is done on the Gulf coast.

**Personalizing Rods**

It is easy to write your name or initials on a glass fishing rod. Just use talc powder, white chalk, or similar to buff the rod near the butt, write your name with India ink and cover over with clear nail polish.

Clear days and dry roads are the motorists greatest invitation to tragedy. An annual survey by The Travelers Insurance Companies shows that approximately 80 per cent of 1967's 52,200 highway deaths occurred in this type of weather.

Capital expenditures by the Texas petrochemical industry total about \$5 billion. Synthetic rubber production from the Texas Gulf Coast amounts to 80% of U. S. total.

.. A PLEA ..

On a nation-wide basis the American Red Cross is again co-ordinating the Christmas Gift Bag program for men and women in the U.S. Military service in Vietnam.

The quota for Wichita County, which has been accepted, is 1200 filled bags, out of the National quota of 700,000.

Civic organizations, Churches and Church groups, communities and individuals will be filling bags from a preparation list of suitable gifts. Each group or donor will be asked to include in the bag identification so the service man or woman will know where the gift

came from and who gave it. Hundreds of "Thank-You" letters were received here last year from the recipients in Vietnam, expressing appreciation because they had been remembered.

The material for the bags will be already cut and draw strings are included, ready to sew. A list of the appropriate gifts will be included. These will be gathered up and shipped about the middle of September, to be delivered Christmas week. A minimum of one hundred of these Christmas bags has been assigned to Burkburnett for completion and help of every loyal group and individual is needed.

Will YOU or your group or club, give to this "Service above Self" to our boys and women in Vietnam so that every one will be remembered at Christmas time?

If you can and will give your help please call Mrs. Al Lohofener, phone 569-2488 or Mrs. E. C. Mallett, phone 569-1878, the will see that you are included on Burk's roster of Workers for our Vietnam service personnel. Either by sewing or filling the bags or both or will give the money to purchase the gifts. — PLEASE HELP.

"Chief Screeching Train Whistle," said the Indian. "And to what do you wish it shortened?" asked the judge. The Indian folded his arms majestically and grunted, "Toots."
