Local Voters Go Democratic

Burkburnett voters went solidly for Democratic nominees in the general election Tuesday, although nation-wide a Republican president was elected.

In Pct. 28, the first local box to report, Hubert Humphrey enjoyed a wide margin, with 119 votes, as George Wallace, the independent Party candidate, garnering 42. Here Republican candidate Richard Nixon received only 25.

Paul Eggers, GOP nominee for Texas governor, trailed his Democratic opponent, Preston Smith, 141 to 102.

In the race for congressman, Graham Purcell received 166 votes, and GOP candidate George Crowley had 79.

Eggers led in Pct. 27, junior high school, 590 to 548, while Humphrey led the presidential race 498, Nixon 447, and Wallace 228.

Purcell led in Pct. 27, 747, and Crowley, 592.

The same trend was evident in Pct. 29, at the city barn, where the totals were Humphrey when tabulations showed 114, Smith 321, Eggers 300, Purcell 409, and Crowley 202.

The election brought out one of the greatest voter turnouts in history. Nationwide, Nixon, in a close race, bested Humphrey when tabulations showed Illinois in the Nixon column.

The decisive returns, however, were not tabulated until late Wednesday morning.

Statewide, Smith, Lubbock businessman, was an early victor over Wichita Falls attorney Paul Eggers, standard bearer for the GOP.

A DAY OF HOPE

(Editorial)

Monday is Veterans Day, November 11, 1968, a day of hope. Fifty years have passed since the end of one of America's great attempts to ensure freedom and peace for the world. Silence had fallen over No Man's Land in Europe at 11:00 a.m. on November 11, 1918, ending World War I. This date and time marked the moment for an annual observance by the United States. It was called "Armistice Day."

Today, fifty years later, we are still looking forward toward the future and the achievement of a world free of aggression.

For eight years, the people of the nation paused on November 11 to pay homage to the 4 1/2 million men who represented the United States in this great conflict. There had been 126,000 men who paid the supreme sacrifice. They were remembered in services beginning on November 11, 1921. Five years later, in 1926, "Armistice Day" was made the official name for this observance. Twelve years later, in 1938, a Congressional Resolution proclaimed the date a legal public holiday.

Just one year later, in 1939, the hopes of man were shattered when World War II began. Once again, America responded to the challenge. 16 1/2 million men were called to bear arms for the protection of our allies.

Twice since then Americans have rallied to the oppressed . . . once in Korea and now in Vietnam. When communists invaded Korea and South Vietnam, we came to the aid of those suffering men and women who had envisioned a land of freedom.

Today, even though we are in the throes of such aggression, we still maintain hope, as Americans, for peace for the world, and will not accept a peace of slavery, but a peace of honor.

As we celebrate Veterans Day this year, we pause to remember the Tomb of the Unknown Soldier, symbolic of all those Americans who paid with their lives, that our freedom might endure. In the past fifty years, over one-half million men have given their lives in this endeavor.

We have inherited a great treasure and are the recipients of a trust which we must keep, or we shall lose this freedom which has been maintained at such great cost. The 39 million men of past wars, all across our nation, have given us this torch to carry. More than 26 million of these fighting men are alive today. We have a great responsibility and we owe a great debt to these men who have given us the freedom that we cherish so dearly.

To these men that we honor today as veterans, we owe a pledge of assurance . . . that we are indeed worthy of the sacrifices they have made in order that we may remain free men.

We face the future with confidence and are filled with hope that peace will come because of the actions of our veterans of past wars, and our men who today bear our battle in Vietnam.

Today we salute those men throughout our nation who have provided us the incentives and the responsibilities for preserving this democracy. We honor those who have died for freedom's sake, and pledge to those who live that we will remember their contributions to our own freedom.

Burk Meets Vernon

The Burk Bulldogs will be seeking their first win of the district race when they travel to Vernon Friday night.

Burk slipped by the favored Lions in last year's contest, a fact that no doubt lingers in the memories of Lion supporters.

The Lions, too, will be seeking their first win of the district, season, after losing three tilts.

While most football prognosticators seem to favor the Lions, Burk fired up and tired of losing, stands an excellent chance to upend the Lions.

Last week, the Graham Steers pasted a 35-9 defeat on Burk in the last home game for the Bulldogs.

Burk's lone touchdown came in the waning seconds of the game, as Mike Hanks passed for short yardage to Larry Sullivan.

Drake Andrades kicked the conversion.

Around the district, the Eoeker T. Washington Leopards of Wichita Falls are riding high and handsome in the north

zone, with three wins and no defeats in district play. For the season, they hold a 6-1 record.

Hirsch, Graham and Bowie, with 2-1 district marks, are still

in contention. This week, Washington visits Graham, Hirsch plays at Bowie, and Burk at Vernon. All are Friday night games.

VETERANS DAY 1968

The commitment of the United States to battle in Viet Nam did not come because of direct attack against the territory or the armed forces of this nation. Our immediate survival is not the reason young men are called upon to fight as they were, for example, on the day of Pearl Harbor. Then the threat could be easily seen; there was nothing abstract about it. And, World War I was "the war to end wars." The young men were called, and the nation stood behind them. Now, in the jungles of Asia, they fight again, and this time perhaps for the most urgent cause of all—to gain time in which the governments of the two great nuclear powers can recognize the realities of this age which they have created and learn new ways to settle their differences.

Veterans Day is observed on November 11, for the purpose of honoring those veterans living or dead who have served in the U.S. armed forces in time of war. Special honor should be accorded to the veterans of Viet Nam—the men who still fight there and those who have yet to go. They do more than defend their country's honor and ideals which in itself would be enough. They are buying time for the survival of civilization itself.

DIVIDEND FOR ALL

Oilmen are exploring large areas of the continental shelf, searching for petroleum and gas to meet increasing demand, reports Oil Facts, an American Petroleum Institute publication. Studies have indicated petroleum resources may exist off northern sections of the U.S. West Coast, and a search for oil and gas is underway off the Atlantic Coast.

So far, U.S. oil firms have invested more than \$7 billion in high cost offshore oil exploration and development. At present discovery rates, it may require 12 to 15 years to recover money invested in offshore work. This is one obvious reason for the 30 year old depletion allowance tax credit granted oil producers to permit the more rapid recovery of the immense sums of money required for exploration and development of new oil reserves. As an oil well is pumped, it loses value and finally when it is exhausted must be replaced with a new producing well. The depletion allowance is available to mineral producers engaged in the development of around 100 exhaustible natural resources. As it applies to the petroleum industry, it provides that oil producers may deduct 27.5 per cent of their gross income from the sale of crude oil when reporting it for tax purposes.

The oil depletion tax allowance is a dividend to all of us as oil users, assuring abundant oil supplies at lower prices than could otherwise prevail. And, it is an essential element of national defense to encourage continued development of domestic oil reserves which can assure availability of essential petroleum products in time of emergency.

GRASSROOTS OPINION

John Day, Ore., Blue Mountain Eagle: "The turbulence on American college campuses has upset a lot of people, but it seems unfashionable today to attribute it to Communists . . . a speaker at a political convention in New York . . . said there are Communists on most of the major campuses in this country and that these Communists had been involved in the student protests. The speaker? Gus Hall, general secretary of the American Communist Party."

WASHINGTON AND Small Business
 BY C. WILSON HARDER

Militant Middle Class?

What's new in demonstrations . . . civil disobedience . . . and rabble-rousing?

Minorities of every type and description (and some which defy description) have used all manner of extreme behavior for an array of "causes" for several years now. And the public is fed up. So what's new?

It turns out that one Saul Alinsky, who has built militant organizations for the poor and other minorities, is now turning his efforts to the middle-class American. He plans to teach high-pressure tactics — sit-ins, boycotts, demonstrations, etc.—to the middle class so that they, too, can become a strange political force.

Alinsky says this segment of society is virtually disenfranchised because it doesn't know how to apply political pressure. With a \$200,000 grant from a corporation, he is opening a training school in Chicago.

Half the students will represent what he calls the "middle class," middle-income group.

Hard-working, middle-income families who make up the majority, deplore the demonstrations that hog news space.

The quiet American is the forgotten American, perhaps disenfranchised, but full of pent-up resentment, frustrations and despair over what's happening in this nation.

"The average American is fast becoming a weary human being. He is war-weary, inflation-weary, crime-weary, and

tax weary." That's how Representative Sam Devine of Ohio expressed the frustrations of the quiet majority.

"I'm sick and tired of being blamed for all the problems of the lower class," a businessman told the National Federation of Independent Business.

Another said he can't understand why legislators consistently ignore the will of the majority. That's not Democracy.

Another one wrote, "Somebody up there is trying to kill small business because it is the last stumbling block to complete socialization of the country. The dolts in Washington are giving aid and comfort to Communism."

The tax burden falls most heavily on the middle-income group. And these Americans have endured years of fantastic waste of tax money in countless social and economic experiments whose most apparent result has been a weakening of the nation's moral fiber.

And incentive-killing welfare handouts may soon reach a climax in a guaranteed annual wage.

Many law-abiding, industrious, patriotic Americans are in a bitter mood, but they are not demonstrating as Mr. Alinsky says they should. They condemn such activities. No one's going to teach them civil disobedience. A middle-class revolution may be brewing, but it most likely will come in the voting booth, where it should come.

CITY VOTES PAY RAISE

A 10 per cent wage increase has been authorized for employees of the city of Burkburnett.

Action was taken Monday night at the regular meeting of the city commission, on the recommendation of City Manager Gary Bean.

A raise had been planned by the city, if the city sales tax election of last month met with the approval of the voters.

The measure carried easily in the October 21 election by a margin of four to one.

Handling charges for collecting trash hauling fees, which are collected by the city for an independent contractor, were reduced from 20 cents to 10 cents per month.

Further action was taken to alleviate traffic conditions in the vicinity of Southside school.

An agreement is to be negotiated for acquiring right of way for a street and sidewalk from the school to the expressway access road.

All members of the council, including Bean and city secretary C. R. Chambers, intend to attend a meeting of the Texas Municipal League in Dallas Sunday, Monday and Tuesday.

The jolly roger, the ancient flag of the pirates, threw fear into every ship that sailed the high seas. These armed robbers sought to raid every ship they came across. None was safe when they were near.

The Bible teaches that there is a devil called Satan who is a robber and a thief, who "goes about like a roaring lion seeking whom he may devour." (1 Peter 5:8) But when the pirate threatens, we need not be afraid. We are encouraged by Romans 8:38 & 39: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come; nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

Our faith in Christ can overcome Satan's fiery darts. Through Him we can overcome all. We invite you to attend the Church of our Lord this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
