1969 Class C State Bowling Champs—These boys bypassed the old saying of the third time is a charm by making it all of the way to the top the second time around. Runner-up last year to a team from Longview, this year in Corpus Christi a team from Orange could-

n't block them from the goal that eluded them in El Paso last year. Now let us meet the champions, The Doghouse Five from Boontown Bowl, from left to right, John Powell, David Powell, Tony Lay, Billy Key and Jerry Harrell.

Here and There AROUND BURKBURNETT

Mr. and Mrs. Claude L. Bowman had a delightful surprise Sunday when several of their family came unexpectedly on a visit, they were — their daughter and husband, Claudia and Col. Kirby of Manhattan, Kan., a son and wife, Bill and Nell Bowman and son, Casey, of San Antonio and granddaughter and husband, Nancy and Dana Carrier of Fort Worth. Each of the visitors knew the others had planned the visit.

Mrs. Loretta Steele of Houston, Mrs. Harriet Null of Dallas and Mr. Charles Dunn of Tulsa spent several days last week here visiting their aunts—Mmes. Willie E. Stegall, Nancy Jernigan and Sylvia Myers.

Mrs. B. L. Turner of this city, Mrs. Joe Adair of Wichita Falls and Mrs. Margaret McGuire of Nocona visited their brother-in-law, Sterling King, in Stamford last week.

Chief Petty Officer Donald Brookman, who has been here for approximately three weeks visiting his parents, Mr. and Mrs. John Brookman left by plane for Hawaii, where he is stationed. John who is still in the Wichita General Hospital is getting along as well as can be expected.

Mrs. James E. Wallner of 208 West 4th, received a phone call last week from her son, Pfc. Daniel Bush, saying he had been wounded in the shoulder, arm and hand while in combat in Vietnam. He had been evacuated to Yokahama, Japan. She has not received any further word of his condition.

Mr. and Mrs. Loran Allen of Hinton, Okla., visited Mrs. J. H. Cecil Monday. They are former residents of Burkburnett. Mr. Allen was employed by the Sinclair Oil and Refining Co., while living here and was a co-worker with the late J. H. Cecil. The Allens were amazed how Burkburnett had grown and had changed in so many ways since they left here.

Mr. and Mrs. B. M. Hamilton spent Sunday in Eastland visiting his mother, Mrs. T. Hamilton and sister, Mrs. P. A. Wheeler and husband.

Mr. and Mrs. I. R. Reagan spent Saturday and Sunday with his brother and wife, Mr. and Mrs. Royce Reagan in Oscar, Okla.

Mrs. Lucien (Nancy) Gronden of this city left Tuesday to visit her husband's parents, Mr. and Mrs. Gronden in Berlin, N.H. EM-2 Gronden is serving overseas. En route home Nancy will visit her sister, Mr. and Mrs. John Taylor in Baltimore.

Mrs. Gronden and Mrs. Taylor are the daughters of Mrs. Lillie Tyler of Burk.

ADD HERE AND THERE
Word was received here late Wednesday afternoon by Mrs. Lillie Cashwheeler, of the death of her son-in-law, Lt. Col. (Ret.) Carl R. Senkbeil in Panama, who passed away early Wednesday morning. Mrs. Opal Senkbeil flew to Panama Friday to be with her husband, who had suffered a severe heart attack earlier in the week. She found him dead in bed about 7 a.m.

The body will arrive here next Thursday, May 15th, Owens & Brumley will be in charge of the arrangements.

Col. Senkbeil would have been in Panama two years in June, following which he would have returned to the states. He was a Civilian Inspector of the Mess Halls in Panama.

CARD OF THANKS
Words are inadequate to express our appreciation to friends, neighbors, the school children and faculty for the kindness shown us in our recent bereavement. For the beautiful flowers, cards, food, prayers and every act of sympathy shown us, we will forever be grateful.

Burk Wins Zone Crown; Awaits District Playoff

Well, now to take on the diamond Friday afternoon, van-champs of the South Zone of District 3-AAA.

The Burkburnett Bulldogs, in a thrilling game on the Burk

quished the potent Hirschi Huskies, 4-3, to capture the North Zone championship before a roaring crowd of 400 or more

divided between Burk and Hirschi supporters.

Coach Janies was to be in Weatherford Thursday, to make arrangements for the district playoffs, if the south zone crown was decided.

Burk is also attempting to schedule a practice game for the home field Friday or Saturday.

Friday's game gave all indications of turning into a debacle for the Bulldogs, as they yielded two unearned runs in the first three innings, and another in the fourth.

Burk's big inning was the fourth, as they garnered three runs on Robbie Young's two-bagger, followed by singles by Mike Cardwell, Rick Kinnard and Randy Aaron.

The deciding tally came in the bottom of the sixth when Craig Peters singled, stole second and scored on one of the two Husky errors.

The win gave Burk a 6-6 record for the season, and 4-1 in district play.

Robbie Young went the distance on the mound, yielding seven hits, issuing one walk, and fanning five.

The district opponent, yet to be decided, will be Weatherford or Stephenville. A loss by Weatherford will eliminate them in favor of Stephenville. A win will negotiate a playoff game with Stephenville.

Coach Janies hopes to start the district playoff Tuesday, in the first of the three-out-of-five schedule.

Donna Greer Is Service Officer

Donna Greer, sophomore student from Burkburnett, attending North Texas State University, was elected treasurer of Tri-Service League, volunteer service organization. Other officers elected were Melonee Burnim, sophomore from Teague, president; Linda Grounds, junior from Van Alstyne, secretary; Kathy Clark, sophomore from Valparaiso, Ind., historian-reporter; Marcia Putzel, junior from Fort Worth, orientation chairman.

Officers were installed April 24.

Piano Recital Set Saturday Night

The students of Mrs. J. B. Riley Jr., will be presented in recital, Saturday night, May 10th, at 8:15 p.m., in the sanctuary of the First United Methodist Church.

Membership certificates in the National Fraternity of Student Musicians will be presented to eleven pianists who participated in the National Piano Fall Auditions held in Wichita Falls from April 18th until May 3rd.

Pupils participating in the recital and being presented Guild Membership Certificates are: Tova Ruetsch, Becky Tate, Terry Moore, Carol Tullis, LaVelda Norris, Ylaine Mills, David Schroeder, Debbie Horschler, Doris Horschler, Kenda Riley and Kayonnie Riley.

Families and friends of the students are cordially invited.

CARD OF THANKS
I wish to thank the friends HER while she was hospitalized the many acts of kindness shown us on the death of Mrs. E. B. (Bessie) Green. The beautiful floral offerings, food brought to the home, prayers, telephone calls and cards will all be remembered with humbleness. I want to especially thank members of the Cashion Baptist and Central Baptist Churches for the help in preparing for the funeral services. May God bless each of you.

Mrs. E. C. Stockton
Ft. Worth, Texas

CARD OF THANKS
We want to express our appreciation for the overflowing kindness and loving deeds shown our loved one, Mrs. Maurice Bryant. Your prayers were such a help to her and us. The loving visits and multitude of cards, letters, gifts, flowers and food were appreciated so much by her while she was hospitalized and later at home.

And we of the family do want to say "Thank You" for your prayers, for the many cards and letters received by us this past week, the delicious food served at the church and sent to the home, for the beautiful floral expressions of sympathy.

May we take this opportunity to express our gratitude to each and all instead of sending out the many cards otherwise necessary.

We pray God's blessing on each of you.

'SHARE IN AMERICA' '69' BOND DRIVE SLATED HERE

A "Share in America '69" campaign to promote sales of U.S. Savings Bonds and Freedom Shares will be held this spring in Wichita County, according to an announcement by the Department of the Treasury in Washington, D.C.

Bill Donnell, vice president of Times Publishing Co., Wichita Falls will serve as general chairman of the campaign, the Treasury said. He was appointed to the post by Rex Brack of Dallas, chairman of the Savings Bonds volunteer committee of Texas.

Other community leaders, representing business, banking, labor, communications and other

Randy Ridgway Unit Is Honored

CLOVIS, N.M. — Sergeant Randy J. Ridgway, son of Mr. and Mrs. Ira Ridgway of 1122 Cheryl, Burkburnett, is a member of the Cannon AFB, N.M., unit that has been selected as the best base supply squadron in the U.S. Air Force for a second consecutive year.

Sergeant Ridgway is assigned to the 832nd Supply Squadron that has again been named to receive the Daedalian Supply Effectiveness Trophy for the highest operational proficiency during a year-long evaluation.

The 832nd represented the Tactical Air Command in stiff Air Force-wide competition for the annual trophy. It is made available by the Order of Daedalians, an organization founded by World War I pilots.

His wife, Ella, is the daughter of Mr. and Mrs. M. Brown of 1305 W. Sixth, Friona, Tex.

Fishing Activity Up At Kickapoo

The state is busy installing a \$6,000 public boat dock near the boat ramp at Kickapoo. This facility will be greatly appreciated and welcomed by the boat owners.

Crappie, Black Bass, and Catfish have been biting very good at Kickapoo. David Estep, (one of our regular anglers here,) landed 6 3 pound Black Bass and 1 4 pound 4 ounce Black Bass. J. W. Still of Wichita Falls got 18 Crappie that averaged over 2 pounds each. Sidney Smith and Frank Brown of Wichita Falls caught a 58 pound and a 20 pound Yellow Catfish on Goldfish bait. Charles and Bobbie Norred landed 35 Crappie weighing 52 pounds along with several 3 pound Black Bass.

fields, will serve with Mr. Donnell on the local committee. Dates of the campaign will be June 9 through 30th.

In accepting appointment as chairman, Mr. Donnell stressed the need of increased Bond sales to counter inflationary pressures in the economy and protect the value of the dollar. He said that particular emphasis would be placed on encouraging savers to buy the 5% savings notes, "Freedom Shares," in combination with their Savings Bonds. These securities are available on a one-for-one basis with regular E Bonds, both over the counter at financial institutions and through regular purchase plans like Payroll Savings in industry and the Bond-A-Month Plan at banks.

"Buying Bonds and Freedom Shares is the best way I know of for the ordinary citizen to help both himself and his country," Mr. Donnell said. "It's a safe and rewarding way to save, and every dollar goes directly to work for a stronger America. That ought to be incentive enough for all of us to get behind this campaign in Wichita County."

Some 140 counties throughout the nation — including Wichita in Texas, will be holding "Share in America" campaigns this spring, the Treasury said.

THE MEANING OF ENERGY

Productivity is pointed to time after time as the key to rising living standards, higher living standards, higher wages and a general capacity of the country to carry the burden of high government spending, high taxes and a monumental public debt. The American worker is often called the most productive on earth. But, what does this mean? Is the U.S. worker physically superior to his counterpart in other nations? Does our high productivity mean simply that the average U.S. worker can swing a pick harder and faster than anyone else in the world? Hardly—a man can do only so much work regardless of his physical stamina.

U. S. productivity is linked indirectly to consumption of energy, and the best measure of energy use is electric power production. The U.S. produces 36 per cent of the world's total—more than the combined totals of Russia, Japan, the United Kingdom, West Germany and Canada. The might of the U.S. worker depends upon kilowatts rather than brawn. Average electrical use of a U.S. worker in 1967 amounted to an estimated 34,336 kilowatt hours. A man averaging 240 eight-hour days of manual work a year is estimated to expend energy equivalent to about 67 kilowatt-hours.

The bulk of electric energy in the United States is produced by the taxpaying, investor-owned electric industry. Thus, when we speak of productivity, we should update the ancient vision of sheer human muscle power of the worker. Standing with him are other workers, some 4 million direct owners of the electric industry—the shareholders, as well as the insurance companies, mutual savings banks and pension funds.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT (HJR)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 5, Article III, Constitution of the State of Texas, as amended, be amended to read as follows: "Section 5. The Legislature shall meet in regular session each year at such time as may be provided by law and at other times as convened by the Governor. When convened in odd-numbered years, in regular session, the Legislature shall devote the first thirty days to the introduction of bills and resolutions, acting upon emergency appropriations, passing upon the confirmation of the recess appointees of the Governor and such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided that during the succeeding thirty days of such session the various committees of each House shall hold hearings to consider all bills and resolutions and other matters then pending, and such emergency matters as may be submitted by the Governor; provided further that during the following sixty days the Legislature shall act upon such bills and resolutions as may be then pending and upon such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided, however, either House may otherwise determine its order of business during this session by an affirmative vote of four-fifths of its membership. "Regular sessions in even-numbered years, commencing in 1972, shall not exceed sixty days and shall be limited to legislation on the subjects of providing funds for the support of functions and activities of the state government and emergency matters submitted by the Governor in messages to the Legislature. At each regular session, commencing in 1971, appropriations shall be made for the support of functions and activities of the state government for the next fiscal year." Sec 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on August 5, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to provide for annual legislative sessions."

Postal Hike Due To Inherited Deficit Says Postmaster W. T. Zimmerman

An "inherited" postal deficit of \$12 billion is responsible for the proposals to raise the postage bill for residents of Burkburnett, Postmaster W. T. Zimmerman said recently.

Mr. Zimmerman said he had been advised by Postmaster General Winton M. Blount in Washington, D.C., that the record \$12 billion 1970 deficit compelled President Nixon to seek postage rate increases. Without higher rates the Department will be left with a staggering deficit that would become an added public tax burden.

In addition to increasing letter mail from 6 to 7 cents, as proposed by the Johnson Administration, President Nixon also asked that second and third-class mailers help reduce the large postal deficit which would otherwise be paid by taxpayers, the postmaster said.

For bulk third-class mail and most magazines and newspapers, the rates would be increased 16 percent to 29 percent above today's levels, he noted. These percentages include rate hikes already scheduled by previous action of Congress.

The President's recommended increases will reduce the 1970 postal deficit by more than \$600 million.

The postmaster listed these other details on the proposed increases:

First-class mail: Letters and post cards would be increased one cent, to 7 cents an ounce and 6 cents a piece, respectively, on July 1, 1969. Airmail postage would remain at 10 cents. This will yield \$537.2 million in new revenues.

Second-class mail: A handling charge of 3/10ths of a cent per piece for circulation outside home counties would become effective July 1, 1969. This would yield \$15.3 million annually and would represent a 12 percent increase in addition to the 9 percent rise scheduled to take effect January 1, 1970.

Third-class mail: For single pieces, rates would be increased one cent per piece. This would yield \$12.4 million. For regular bulk third-class, the minimum would be increased to a uniform rate of 4.2 cents January 1, 1973, as contrasted with the present rates of 3.6 cents. The 1970 increase would lift revenue by \$46.8 million annually.

Lone Star Seeks New Charge Rate

AUSTIN — Lone Gas Company recently filed with the Texas Railroad Commission an application for an increase in the intracompany gate charge for residential, commercial and distribution unaccounted-for gas. The company asked an increase from the present gate charge of 35.4 cents per thousand cubic feet of gas to 44.8 cents per thousand cubic feet. When the Railroad Commission establishes the new intracompany gate charge, specific computations will be made for each Texas town. In those towns where earnings are deemed inadequate, individual rate action will be pursued with each town's ruling body.

Juniors Can Apply For Air Academy

High school juniors who are interested in entering the United States Air Force Academy upon graduation should apply for a nomination this spring said Lt. Col. P. I. Eastlake, the Academy Liaison Officer in the Burkburnett area. Members of Congress, who nominate a majority of the applicants for each Academy class, have already begun to screen

and select their nominees for the class entering in June 1970. Since nominating quotas are limited, the student should not delay his application.

Senators and Representatives are interested in nominating successful high school students to be considered for Academy appointments. A good scholastic standing, participation in extra-curricular activities, and physical fitness are the most important factors.

Col. Eastlake is a member of the Air Force Reserve, not on active duty, who represents the Academy in high schools in the Burkburnett area. Students interested in the Academy may contact him for information at 1701 Grant St., in Wichita Falls, Phone 723-6728.

UTILIZATION RESEARCH TO BE REPORTED BY DR. BULLA

Dr. Lee A. Bulla, Jr., son of Mr. and Mrs. Lee A. Bulla, Sr., 512 Bluebonnet, Burkburnett, Texas, and a microbiologist at the U.S. Department of Agriculture's Northern Regional Research Laboratory, Peoria, Ill., will present a paper at the national meeting of the American Society for Microbiology in Miami Beach, Fla., May 4-9, 1969. His presentation, to be made Wednesday morning, May 7, will describe basic studies that he, along with a team of chemists and microbiologists, has made as part of research to develop a microbial insecticide for control of Japanese beetles. The specific aspects that Dr. Bulla will talk about concern a method to measure directly the products of metabolic pathways of microbial cells. Such cells often have several ways in which they produce energy during different stages of growth. The ability to determine the relative importance of these processes is valuable as a means of evaluating what happens when cells stop dividing and begin to form spores.

This is part of a utilization research program being conducted at the Northern Laboratory to find quantity outlets for cereal grains. It is hoped that methods based on nutrients from grains can be found for large-scale production of spores of specific bacteria which infect and kill such insects as Japanese beetles. In this way, a "living insecticide," harmless to man and animals but deadly to this insect, would be possible.

Dr. Bulla is a graduate of Burkburnett High School and received a B. S. degree from Midwestern University, Wichita Falls, Texas, in 1965. He joined the staff of the Northern Laboratory in 1968 after completing graduate studies at Oregon State University, Corvallis, Oreg.

Relatives And Friends Attend Bryant Funeral

Out of town friends and relatives who attended the funeral of Mrs. Leo Bryant were Mr. and Mrs. F. O. Bryant, Ft. Worth; Mr. and Mrs. Marion Carpenter, Irving; Mr. and Mrs. T. L. LUMBER COMPONENTS

Lumber is extensively utilized for engineered components whereby homes and apartments can be rapidly built with sectionalized floor, wall, partition and roof parts. According to the Southern Pine Association, such pre-assembly saves time, effort and material on the jobsite. Among the more efficient components are trussed rafters which clear span the home and thus relieve interior partitioning of roof supporting responsibility. This permits simplified partitioning, larger rooms and storage areas.

Tiny cats like these, and huge lions in battle, will star in a TV show May 9.

One woman keeps 50 to 100 cats in her home, another cat lover owns 600 felines, and a mountain lion named Candy lives in an apartment.

These and other cats of all sizes will star in a full-hour TV special on Friday, May 9, over the NBC-TV network.

African sequences in the show, called "Big Cats, Little Cats," include a life-and-death struggle between an aging lion king and his youthful challenger. There are also scenes of a cheetah chase by a professional hunter, and lion-stalking initiation rites still used by an African tribe when a young hunter has learned enough to deserve "graduation."

The cat's role in art, religion, superstition and legend will also be covered by the show, as will a variety of surprising facts about those familiar felines, alley cats. Purina is the sponsor.

Interestingly, the lions and tigers were easier to film than their smaller cousins. "Cats have a mind of their own," says Bud Wiser, producer-director-writer of the special. "They won't chase mice or..."

Lion cub enjoys bottle.

look in fish bowls unless they happen to be in the mood."

Narrated by Lorne Greene, star of "Bonanza," the show may make cats smile even more often. After all, since it's well known that "every dog has his day," shouldn't it be encouraging to cats that they have a day upcoming?

Maverick's hot! Any questions?

Measure it any way you like. By the crowds. The news stories. The sales. Few cars have caused a sensation like Maverick or broken so many records. Every day more and more people are asking questions about it. Here are the answers.

Q. Why did you build the Maverick?

A. We think of Maverick as another one of Ford Motor Company's answers to the gold drain. Now Americans who want small car economy don't have to send their U.S. dollars overseas.

Q. Why did you call it Maverick?

A. You know what a maverick is. A maverick breaks the rules. A maverick is different. Maverick plugs the big gap between the compact and the imports. It has a wheelbase eight inches shorter than a '69 Falcon, eight and one-half inches longer than a VW 1500. Nothing else like it.

Q. Why did you make it this size?

A. Maverick pinches pennies, not people. We gave Maverick more leg room. More shoulder room. More luggage room. Good example: the front seat of a Maverick offers you nine inches more shoulder room than the front seat of the leading economy import, and the trunk can handle all the luggage for a family of four, including a set of golf clubs.

Q. What do I get for the price?

A. You get your money's worth. A complete, built-for-Americans kind of car. Room. Hot styling. Color-keyed interiors. Even the heater is included. Some economy car interiors are about as luxurious as a park bench. Not Maverick's. You get plush seats. Cloth and vinyl upholstery with unique tartan plaid cloth inserts. You also get safety features like smart pull-out door handles. Strong safety door locks. Two-speed electric wipers. Safety belts. Head restraints. Plus conveniences like armrests, coat hooks, lighted heater controls... important little things that add so much to your driving comfort.

Q. What about options?

A. You can get 'em if you want 'em. You can order integral air conditioning. (It's built in, not hung on.) Other options include 3-speed automatic or low-cost semi-automatic transmission, and a hefty 200 CID Six. But lots of people won't put an extra cent into this car. Because it's all there. A complete car all ready to drive home.

Q. What kind of gas mileage can I get?

A. That depends on you as well as the car. You can get as much as 25 or 26 miles per gallon—if you have an educated toe and the right road conditions. If you have a lead foot, or do a lot of city driving, you will

get a lot less. In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg.

Q. What kind of power does Maverick have?

A. Maverick's Six lets loose 105 galloping horses. That's 52 more than you get in the 4-cylinder VW 1500. Maverick can cover 417 feet in ten seconds from a standing start. That means you can get up to highway speed in a hurry. When you enter a 70 mph turnpike, you won't feel like a retired bookkeeper thrust into the middle of a pro football game.

Q. If it has an eight inch longer wheelbase than the leading import, does it still handle and park easily?

A. Maverick can U-turn in a tighter circle (35.6 feet) than the leading economy import (36.0 feet). Maverick can slant through traffic like a halfback. It can turn on a dime and give you nine cents change. If you've been driving any other American car, you'll find Maverick's neat size adds up to 5 1/2 feet to any parking space.

Q. Can Detroit really build a small economy car that's tough and long lasting?

A. It's not easy, but we did it. Maverick's unitized body construction makes it light, strong and durable. It's welded like a battleship. Rustproofing compound goes into deep crevices that never see the light of day. Then all that strength is covered with four coats of paint for lasting beauty. Result: one tough little car that's put together to stay together. (The service schedule in the Maverick owner's manual goes up to 108,000 miles or nine years; that ought to tell you something about its rugged durability.)

Q. How about parts and service?

A. Maverick is designed to be unusually easy to service. You're dealing with made-in-America parts and 6,000 easy-to-find Ford Dealers. Fast repairs and easy replacements mean extra savings in both time and money.

Q. Is Maverick really easier and less expensive to maintain than an economy import?

A. Definitely. Maverick oil changes come only every 6,000 miles and chassis lubrication once every 36,000 miles. The leading economy import recommends oil changes every 3,000 miles (twice as often as Maverick) and chassis lubrication every 6,000 miles (six times as often as Maverick!). Those are

just a few examples of the many ways Maverick lessens inconvenience and lowers operating cost.

Q. Can I do my own maintenance work?

A. Yes, if you have an average amount of mechanical ability. The Maverick owner's manual contains 24 pages of detailed diagrams and easy-to-follow instructions for routine maintenance jobs you can do yourself, if you wish. You'll find it easy to change spark plugs, replace ignition points... plus many other do-it-yourself repairs and replacements.

Q. Can a small car be safe? And how safe is safe?

A. This small car incorporates the latest advances in engineering. Maverick's brakes are as big as a standard compact—designed to stop cars weighing hundreds of pounds more. Maverick gives you weight... power... stability. Designed for American driving conditions.

Q. How does Maverick ride?

A. Here's where Maverick's longer, wider-stance really pays off. You get a smoother, quieter ride. Maverick's tight, strong, unitized body helps eliminate squeaks and rattles. Special insulation blocks out road noise. The people who brought you a Ford that was quieter than a Rolls-Royce now bring you a small car that doesn't sound like a power mower.

Q. Is there an advantage in the fact that Maverick is really a 1970 car?

A. Slower depreciation is one money-in-the-pocket advantage. Maverick's 1970 model designation means it keeps its trade-in value higher, longer. (Maverick is built to be a good investment from the minute you buy it to the minute you sell it.)

Better come take a look at this one. You'll find it where the action is... right in there with other great Ford values like specially equipped Ford Galaxie 500's... Fairlanes... Mustangs and Falcons. You'll find them at your Ford Dealer's... the place you've got to go to see what's going on.

For an authentic 1/25 scale model of the new Ford Maverick, send \$1.00 to Maverick, P.O. Box 5397, Department N-50, Detroit, Michigan 48211. (Offer ends July 31, 1969.)

GOD'S WILL

The greatest commandment is that we should love our God. This is a free choice that man has, but it is God's desire that all would seek Him. He is our heavenly Father, and desires only the best for us.

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HELICOPTER OPEN HOUSE IS SET AT S.A.F.B. FOR JUNE 7

SHEPPARD AFB, Tex. — Helicopter Open House... Sheppard Air Force Base will host an open house here on June 7, 1969 to celebrate U.S. Air Force Helicopter training's 25th anniversary. That day will mark the date 25 years ago when the school received its first aircraft and began helicopter training.

The open house will begin at 11:00 a.m. and will feature static displays of military and civilian aircraft in and near the school's hangar.

The static display will feature nine of the ten aircraft used in the school's history. These include rare examples of the Sikorsky R-4 and H-5 helicopters. Others include H-19, H-23, CH-3, HH-43, H-21, and TH-1.

Many aspects of vertical flight will be represented by military and civilian displays. The U.S. Army will display its operational rotary wing aircraft such as the CH-47 Chinook, the CH-54 Sky Crane and the AH-1G Huey Cobra, if available at the time. Bell plans to exhibit its Jet Ranger and Enstrom will provide its F-28 helicopter.

Mock-ups, models and displays of helicopter equipment will be shown to the public during the open house.

A rotary wing airshow will begin at 2:00 p.m., lasting approximately one and one-half hours. This will include formation and single ship flyovers by school and other aircraft. The U.S. Army will fly CH-47 and CH-54 helicopter with heavy slingloads. A Tactical Air Command UH-1F will demonstrate its equipment including a minigun, psychological warfare loudspeakers and a McGuire rig. Rappelling and parachute demonstrations will be made from helicopters.

Military Airlift Command rescue personnel will demonstrate air-to-air refueling between HH-3 or HH-53 and a HC-130 tank-

Helen Jane Cameron vs Rodney W. Cameron
Citation By Publication
Issued this 14th day of April A.D. 1969.
WAYNE WIGGINS, Clerk.
By Cliff Hagstrom, Deputy.
Attorney: W. W. Ballard

THE STATE OF TEXAS TO: RODNEY W. CAMERON, Defendant, Greeting:

You are hereby commanded to appear before the Honorable 78th District Court of Wichita County at the Court House thereof, in Wichita Falls, Texas at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 2nd day of June A.D. 1969 then and there to answer Plaintiff's Petition filed in said Court, on the 10th day of April A.D. 1969, in this cause, numbered 85,552-B on the docket of said court and styled HELEN JANE CAMERON Plaintiff, vs. RODNEY W. CAMERON Defendant.

A brief statement of the nature of this suit is as follows, to-wit:
After alleging jurisdiction, Plaintiff further alleges that she and Defendant were married on or about June 26, 1949 and continued to live together as husband and wife until on or about July 30, 1949, when by reason of cruel, harsh and tyrannical treatment on the part of the Defendant toward this plaintiff, without cause or provocation, was of such a nature as to render their further living together insupportable; that there were no children born of this marriage and no community property, and that Plaintiff's former name was Helen Jane Short.

Wherefore, Premises considered, Plaintiff prays that the Defendant be cited to appear and answer herein and that upon trial hereof, she be granted a divorce, her former name of Helen Jane Short be restored to her and for such other and further relief, in law or in equity, to which she may show herself justly entitled, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.
