## HUMPHREYS OUT OF RACE

Hon. R. B. Humphreys of Throckmorton County, who has been considered one of the leading candidates for Speaker of the next Legislature, was in Dallas yesterday for the prohibition executive committee meeting, and announced that he would not be a candidate for reelection to the Legislature, which means, of course, that he is no longer in the speakership race.

"A poor man can not afford to serve in the Texas Legislature," he said. "Of course, that is looking at it from a selfish standpoint, but a fellow with a living to make has to take that standpoint sometimes. I'm serving my third term in the house and the experience has cost me a good deal more money than I have got out of it. Besides, the time I have been away from my business has had its effect on my private affairs, and so I have just figured it out from a cold-blooded business standpoint that a poor man can not afford to serve the state in the legislature."

Mr. Humphreys has been one of the prominent figures of the last two legislatures, and began to make his personality felt during the Thirty-First, when he came in to fill a vacancy caused during the sessions of that body. He first came into notice by securing the passage of his "wolf scalp" bill, over a determined opposition, and after other Western members had failed for several years to get such a bill through. He was one of the leading advocates of a Constitutional convention and sought during the last regular session, though ineffectually, to start in motion the machinery for securing a new Constitution for Texas. He was a member of the last penitentiary investigating committee, and has taken an active part in penitentiary reform measures, redistricting bills, banking and insurance and "blue sky" legislation. He has been one of the supporters of all educational measures and of liberal appropriations for educational and eleemosynary institutions.

It was announced during the last special session that Mr. Humphreys would be a candidate for Speaker. He said yesterday that he had been given much encouragement, and had reason to

believe he would have been elected, but the "high cost of being a member of the Legislature" and the low emoluments attached thereto have caused him to abandon thought of further legislative service.

"Who are you for governor of Texas?" he was asked.

"Nelson O'Shaughnessy of the City of Mexico," he promptly replied. "You know we Irishmen must stand together. I haven't the least hesitancy in declaring my unqualified indorsement of Mr. O'Shaughnessy for the office of governor of Texas."—Dallas News.

### Friendship Necessary in Business

By W. Holt Harris.  
Friendship is as necessary in business as advertising, and they are inseparable companions. All advertising must be backed up by the truth and truthfulness is the first requisite of friendship. Kind words, when spoken over the counter, are business getters and trade holders and they are an excellent publicity medium. The successful merchant knows that when friendship dies off the face of the earth, business too will go by the board and he seeks no better form of advertising than by making friends.

The merchants whose ads appear in this paper are offering you the glad hand of friendship, and the truthfulness of their statements is affirmed by their business reputation, based upon many years of successful selling.

### CITY BUILDING NOTES

By L. M. Ward

Skill, without will, is bound to stand still.

Business prosperity is measured by eternal hustling.

Energy and perseverance are the stepping stones of success. The greatest field and the least pastured is that of city building.

That city is best known abroad whose citizens are most loyal at home.

Dead men are better than lazy ones in that they don't clog the wheels of progress.

The development of the sanitary facilities of a community is a good index to its progressiveness.

The commercial organization is the pivot upon which a city revolves and throws out its flagrant lights of publicity.

## NEWS AMONG THE CHURCHES

### An Announcement

On and after next Sunday, Jan. 18th, the service which has hitherto been held at night, at the Christian Church, will be held at 4 o'clock p. m., and there will be no service at night until further notice.

The public is cordially invited to meet with us, at any time, but especially in our afternoon service. Good singing and good fellowship await you. Subject for next Sunday afternoon will be "Only Two Kinds of People." Come and hear it.

Jno. D. White, Pastor.

### Missionary Notes

The meeting of the Auxiliary this week was a good beginning for the year. More members were present than usual. The new officers were installed, and Mrs. Belle took up the lesson, the fourth and fifth chapters of John. The example of Christ's life as given in this lesson teaches that we should help others to a better life, and not simply seek our own pleasures.

Mrs. Turrentine gave an interesting talk on the Sabbath. She told us about the first Sabbath. Thy God instituted the Sabbath. Contrasted the Sabbath observances of the olden times and the present day. Suggested that we take Christ's life as an example of how we should keep the Sabbath.

On January 19th, we have the third lesson in our mission study course.

Let every member try to be present and each one pray especially for God's guidance and blessing on our work this year.  
Pub. Superintendent.

### The B. W. M. Workers.

Only 22 members were present Monday evening, but all were very enthusiastic, and a beautiful lesson was recited. Its simply glorious to have Bro. Sams for our teacher. You all miss a real blessing when you fail to attend, so do bestir yourselves, and be there on time. Our God is on the giving hand, and His blessings are worth while. We received one new member, Mrs. B. Stewart, which gives us 71 members. Our lesson for next Monday begins at the 8th chapter of II Samuel, seven chapters. Monday week we have a missionary program, and all are especially invited to come.

### Symphony Club Entertains

On the afternoon of January 7th at the home of Mrs. Walter Murchison, the ladies of the Symphony Club entertained their many friends with a delightful musical program.

The guests were given a very cordial greeting at the door by Mrs. Murchison, and were invited to be seated in the spacious music room prepared especially for the occasion, where they met and mingled with the other club ladies.

For sometime after their arrival they engaged in pleasing conversation. A pastime dear to all feminine hearts.

Many were the topics discussed—even the time worn one of weather was heartily entered into by all, as it seemed on this particular afternoon to flaunt its great beauty in the face of all beholders. It has been the custom of these ladies twice in the year to prepare a feast of music for their friends, but for this occasion it was a short program of such quality as to please the most fastidious. The following program was rendered after which tea and sandwiches were served:

1 Vocal Solo—Mrs. T. C. Cahill  
2 Piano Solo—Mrs. O. E. Patterson.

3 Vocal Duet—Mesdames Baker and Adams.

4 Vocal Solo—Mrs. Ernest Adams.

## Why Wrap Your Precious Goods in Butcher Paper?

Those five or six feet of manly merchandise called "yourself"

—can you afford to display them to the world in a covering that is cheap and shoddy?

You know that today the world picks and judges many of the articles it buys by the packages in which these articles are presented.

The diamond is voluptuously displayed in a luxurious bed of plush and velvet. The ruby and sapphire are encased and cushioned in a casket of mahogany and satin. Champagne is served in handcut glasses, good books are always bound in genuine morocco—and so it goes. If a thing is any account the world expects it to present itself in an appropriate setting.

Good clothes are a sign of self-respect and healthful self-appreciation. If you do not think enough of your ability to dress the part you can't expect the world to give you a high valuation. Here we have the proper covering for all people in all walks of life. They cost no more than the others, and not so much if you will look closely. Don't be a faker, act the part. Come here and be wrapped in the covering that befits one of your walk in life.

bells, all suggestive of the holidays and the room presented a very pleasing and attractive appearance. The officers of the Club greeted the callers as they came in, while a nice musical program was carried on throughout the afternoon.

After exchanging greetings for the New Year, each one was served with delicious tea and sandwiches, the tea table being gracefully presided over by Mrs. Roy English and Miss Lois McConnell.

Everyone who called seemed well pleased and complimented the club ladies in their efforts.

### ABOUT GOOD ROADS

By Homer D. Wade.

Good roads will aid in the solution of rural problems.

Good roads will keep the boy on the farm and make him prosperous.

Nothing will conduce more to diversified farming than a good road in each community.

Where is the community that has a good system of public highways and is displeased with them?

Do not hitch your wagon to a star, or your horse to the moon—put them to work on the road in your community.

My 1914 resolution: To give some of my mind, some of my time, some of my means and some of my muscle to aid the Lone Star State in conquering her greatest enemy—bad roads.

The voices of the women are being raised for good roads. They have a right to speak on this question, for theirs is an object of slavery if they cannot travel when they get ready.

## Social Pleasures

theatres, late suppers, dances, etc., often mean nervous headaches the next day.

We sell many good headache cures. It's not hard to find a remedy for a headache, but often the remedy is worse than the malady. Many cures contain dangerous drugs that cause harmful after effects.

We heartily recommend **Rexall Headache Wafers** because we know their formula and guarantee them absolutely free from antipyrin, opium, morphine or chloral. They are a simple and positive cure for headaches and neuralgia—quickly kill the pain and soothe the nerves. Perfectly suited to women. Silos to Be Demonstrated at Corn Exposition.

"When you say silo in Texas now, you do not have to stop and explain what it means," says Prof. J. L. Thomas, Dairy Division, U. S. Department of Agriculture, and Texas A. and M. College. Two or three years ago you had to explain what you were talking about.

"The silo furnishes the best feed for the Southern dairyman winter and summer. It is needed more in Texas in summer than in winter. Ensilage (silage) is valuable for fattening cattle, but it is more especially necessary for the dairyman who wants to make a profit off his milk cows. I think dairymen of Texas are beginning to realize this, as there were 2500 silos sold in Texas last year; these were scattered widely over the state. The demonstration of silos at the Sixth National Corn Exposition, Dallas, Tex., February 10-24, 1914, will enable farmers and dairymen to learn still more of their uses and value which will result in much good to the dairying interests in Texas."

MODEL DAIRY DISPLAY. Demonstrations of Best Methods of Feeding and Milking Cows Will Be Given at Corn Exposition.

Mr. C. O. Moser, president Texas Dairyman's association, in charge of the dairy department of the sixth National Corn Exposition, Dallas, Tex., Feb. 10-24, 1914, states that dairymen will meet at the exposition on Feb. 11, which is also Silo Day, Beef Cattle and Livestock Day.

"The dairying department of the exposition," says Mr. Moser, "will conduct a school of dairying on the best methods of feeding dairy cows for profit, the most sanitary manner of handling milk and conduct of a butter contest with entries from every state in the Union."

"Liberal prizes will be offered for five pounds of butter in one-pound prints."

"Texas exports of butter are less today than Texas imports, and special attention will be given to the making of good butter in the hope of stimulating this industry in Texas. Seventy-five per cent of the butter made is sold to the country merchant for 12 or 18 cents when, if sold to the creamery, it would bring 25 or 30 cents."

"The average cow produces less than 100 pounds of butter a year at a cost of \$25 for keep. A few cows have produced more than 500 pounds of butter per year at a cost of between \$60 and \$70."

Mr. Moser wants the farmers of Texas to come to the exposition on Feb. 11 and learn how to make the milk cows on the farm bring in better results for the feed given them.

## AMUSEMENTS ARE EXTRA ATTRACTIVE

### TO BE UNUSUALLY GOOD

Alber's Eight Polar Bears to Be Seen at the Circus Royal—Greatest Amusement Feature Ever Shown in the Southwest Will Thrill and Entertain.

Program already arranged gives promise of unusual attractions. The special feature different from those ever given before in Dallas is the Circus Royal, comprising the biggest and grandest circus acts secured from all of the large circuses. A partial list of the features are as follows: Alber's Eight Polar Bears, which prove to be the biggest and most talked of sensational novelty ever seen in the South. Alber's eight full grown Polar bears are monsters that will be seen in astounding performances. These wonderful animals, while they may seem to the public ungainly and awkward, and while it is generally conceived that Polar bears are, as he is, ferocious and dangerous, nevertheless, they perform with a dexterity in skill the most difficult tricks, forming pyramids, throwing and balancing brands and balls of fire, doing acrobatic stunts, roller skating and comedy tricks that are almost human. Under the direction of Professor Alber, they give without doubt the most remarkable trained animals in the world. Coming direct to Dallas from the great Hagenbeck & Wallace Animal Show, The Riding Crandalls, America's premier equestrians, performing wonderful feats of horsemanship, vaulting from the ground to the backs of their beautiful thoroughbreds. The men riders performing marvelous acts. They are aided by Marsells, who introduce his high-class circus clowning as ring master.

## LESS COST FOR ELECTRIC LIGHTS

Proper Size Lamps Save Current—Do Not Waste Light

A certain New York State electric light company investigated a number of complaints about the excessive cost of electric lighting and found that in nearly every case, lamps of too large candle power were used.

More than half of the complaints of excessive bills—especially in the case of residences—are traceable to the use of lamps of unnecessarily high candle-power for the volume of light needed.

That the cost of lighting keeps step with the increase of candle power is readily shown. A ten watt Mazda lamp will burn 100 hours for a total cost of but 15 cents where the rate is 15 cents a kilowatt, or a 1000 watts. A 25 watt lamp on the same circuit will burn 40 hours for 15 cents, and a 40 watt candle power lamp 25 hours for 15 cents. It is evident then, that by exercising a little judgment in the choice of lamps a considerable saving can be made.

With proper shades which do not absorb the light rays, and proper reflectors to direct the light rays where it is needed, the 25 watt lamps will give as much useful light as those of twice the size where the light is undirected and wasted.

See Haskell Power Co. for shades.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst. I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.
