And in other business. President Jack McCready appointed two members of this Chamber to work with the Corpus Christi Chamber industrial and tourist promotion committees for closer liaison on projects of mutual interest.

In a letter to McCready, Joseph F. Wolff, president of the Corpus Christi organization, pointed out that there were many ways in which such collaboration could be to the benefit of everyone con-

cerned. "For instance," he said, "there are possible opportunities in industrial development where the company would prefer to locate in a smaller city than Corpus Christi. Under such circumstances, the Corpus Christi Chamber would urge the company to consider other cities in the Coastal Bend-and if there is established liaison, the contact would be quickly made.

. . And this same logic applies to the work of our tourist committees. A better performance by each of these committees directly results in a profit to the entire Coastal Bend."

Buy just one unit to cool and heat your home. No more need for two separate investments — to say nothing of space and storage problems. Besides cooling and heating, the electric heat pump gives you all the plus features of genuinely conditioned air. Moisture control and filters keep the air sweet and clean. Makes housekeeping a lot easier, too.

No doubt about it, the new reverse cycle air conditioners are the best way to keep comfortable all year long. See your dealer or electrical contractor about the electric heat pump that fits your needs - either the central unit or window type.
