## News From The County Agents' Office

### 4-H CLUBS

The County Agent has been organizing the Different 4-H Clubs in the county the past week. So far he has met with the Higgins 4-H Club and the Clairmont 4-H Club. This week he will meet the Jayton, Polar and Girard 4-H Clubs to get them organized and complete enrollment.

We have had 13 boys and girls enrolled at Clairmont and 10 at the Higgins School.

Any boy or girl may enroll from the ages of 9 to 19, so of you are out of school and wish to join, please get in touch with the County Agent, Come by the office or drop him a card.

A five percent DDT dust will control household ants.

Fertilizing fruit trees is an early spring orchard job. Recommended application is one pound of 5-10-5 or 4-12-4 fertilizer for each inch of the tree trunk diameter.

Complete eradication of mesquite from rangeland, no matter what method is used, depends upon killing the sprout buds on the underground stem of the tree.

Number of livestock on farms in the United States declined during 1946 for the third successive year.

Half the battle of raising healthy dairy calves can be won by clean, dry, calf pens.

Material for inoculating the seed of many crops is handled by most seed dealers. Inoculation costs little and means added insurance against plant disease.

One ounce of nicotine sulphate and a half bar of neutral soap, well mixed with six gallons of water, is an effective control mixture against flying insects in the garden.

### NEWS FOR HOME CANNERS

College Station. — Here's news for housewives who plan to can vegetables this year.

Food Preservation Specialist Gwendolyn Jones, of the Texas A. and M. College Extension Service, states that U. S. Department of Agriculture research has caused some changes in general recommendations for processing low-acid vegetables when canned in a pressure canner.

Low-acid vegetables include asparagus, beets, carrots, corn, greens, sweet potatoes, beans and peas. The USDA research has shown that processing time for these vegetables can be generally lowered, which will give the housewife better-flavored canned goods with better texture, and still render the vegetables safe from bacteria that cause food spoilage.

Quoting an example, Miss Jones says that a pint of greens was formerly processed 95 minutes. She now tells housewives to process the pint of greens only 45 minutes, to conform with the new USDA recommendations. Another big change is in sweet potatoes. Processing time for a pint of yams has been cut down from 95 to 55 minutes.

Extension Circular 223, "Can Vegetables in a Pressure Canner", has been revised to give the new processing times. Miss Jones advises homemakers to ask their local county home demonstration agents for a copy of the folder.

Marvin Jean Hall has been ill this week with sinus trouble.

## Jayton Baseball Team To Open Season Sunday Afternoon

The Jayton baseball team will play their first game of the season Sunday afternoon at 2:00 o'clock, against the Spur nine on the local school diamond.

The Jayton Club has joined the Caprock League, which is composed of about six other teams from towns north of Jayton.

A practice session will be held Friday afternoon for the local team, and manager Jackson has asked that all players be there if possible.

Be on hand next Sunday at the Jayton School diamond to support the local team in their first game of the season.

## Pills Rank With Disease As Death Dealers, Doctors Hear

Chicago. — Medicine in the near future is going to change its teachings and include economics and sociology so doctors can better keep people from getting sick.

This prediction was made at the American College of Surgeons Tuesday by Dr. Wilson G. Smillie, professor of public health and preventive medicine, Cornell University Medical College, New York City.

He explained that the causes of death are rapidly changing. And he declared that medicine, pills and drugs are now substituting for tuberculosis, pneumonia and the great infections which for thousands of years were man's worst enemies.

The new diseases, he said, are degenerative, those of aging, like hearts and arteries, and also the chronic diseases, which do not kill but, which for no apparent good reason keeps millions of people constantly ailing. This latter class of disease, he said, affects mostly men and women in their 30's and 40's. He said the amount of chronic disease is astonishing.

The doctor of the future, he said, will consider his patient's home life, his job and his attitude toward life. He will be as much concerned with well people as the sick. For the degenerative diseases there is at present no adequate remedy. There is not likely to be, Dr. Smillie argued, until doctors begin preventive measures that involve man's social and economic condition as a probable starting place for bad hearts and the like.

## Vacation Bible School Date Changed

Due to a conflict with the Campfire Girls encampment, the date for the Vacation Bible School of the Jayton Methodist Church has been changed.

The date now is June 21st through 29th, according to Mrs. Grady Jones, Supervisor.

### READY FOR WHEAT HARVEST?

College Station. — A call to custom combine operators to be ready for the 1947 wheat harvest is being made by the Texas A. and M. College Extension Service.

J. B. Kidd, farm labor field assistant in charge of the Extension wheat harvest program, announces that more "outside combines will be needed this year than ever before". Texas wheat and small grain acreage is eight per cent larger than the record acreage of 1946.

"The wheat crop is in better condition at this time of the year than in many seasons", says Kidd. "The soil moisture is good and Texas County agricultural agents report 98 per cent of the wheat in good condition, the other two per cent in fair condition. Some green bug damage is reported but the present prospects are for a bumper Texas wheat crop."

Kidd also urges combine operators to plan to bring their trucks to the harvest. Independent truckers, not attached to combine outfits, may be needed, he says, and harvest labor of all types will be in great demand if the crop develops as it looks now.

The farm labor field man invites custom combine operators to contact him for any information regarding the coming harvest. His address is Extension Service District Farm Labor Office, Box 1110, Plainview, Texas. The farm labor office will keep operators posted on crop conditions; combine, truck and labor needs; and what counties need help.

Rex Alexander, local druggist, is sporting a new 1947 convertible Chevrolet.

Martha, one of the most popular of operas, is being rehearsed by the School of Music at Hardin-Simmons in preparation for its presentation May 1 and 2. The opera will be conducted by Giuseppe Bamboschek, director of the New York Metropolitan opera. A total of \$1,500 is being spent in costumes, stage setting and music for the magnificent musical presentation. Shown above in early practice is Miss Ethel Rader, head of the voice and ensemble department of Hardin-Simmons, directing the soloists in a group number. Standing left to right are Miss Rader, Penryn Rasor, who will sing Plunkett; Scott Griffin, the sheriff; Grace Crump, Nancy; and Kenneth Ballinger, Trestram. Mrs. Emily Gose is at the piano. All are members of the Hardin-Simmons School of Music. The opera will be given with the assistance of the school's orchestra, directed by Prof. Herbert Preston, and the university chorus, conducted by Ballinger.

## Forecasts Drop In Wheat Price

Washington. — Secretary of Agriculture Clinton P. Anderson said Monday that the price of wheat may drop to \$2 a bushel when the new crop starts moving to market this summer.

He made his prediction before the House Agriculture Committee. He urged that Congress set up some kind of a long-range surplus food distribution program — perhaps an allotment plan — to siphon off surpluses during emergency periods.

Anderson's proposal won the endorsement of Chairman Clifford R. Hope of Kansas. He said he agreed with the secretary "100 per cent" — assuming of course that the details of the program can be worked out.

Anderson discussed wheat prices when Rep. Edwin Arthur Hall, of New York, asked if anything could be done to keep dairy feed prices in line so consumers could afford to buy dairy products.

Asserting that the "best and most effective price control is production," Anderson noted that wheat already had dropped from a peak of \$3.05 a bushel to about \$2.50.

"And with the new crop, it may get back to \$2 a bushel," he said, noting that a record 1,250,000,000 bushel crop was expected.

## A BLIND VETERAN AND HIS 'EYES' WILL GRADUATE TOGETHER

Denton, Texas. — When college degrees are awarded in June at North Texas State College, a blind veteran and his "eyes" will graduate together.

The vet is Noble M. Masters of Denton, and his "eyes" are those of his bride of seven months, the former Lois Bayne of Houston.

Victim of a premature hand grenade explosion at Camp Edwards, Mass., Masters was a completely blinded in his left eye, but has slight perception in his right eye. Masters will graduate with a "B" average and at present is teaching in the NTSU Demonstration High School.

The Veteran's Administration pays a fee to Mrs. Masters for her services. She not only acts as his reader, but checks the work for which he is responsible.

Red Payne has been on the sick list this week.

## VICTOREE BENTON HENDRICKS SINGS IN OPERA PRESENTED BY HARDEN-SIMMONS

Mrs. Victoree Benton Hendricks, daughter of Mr. and Mrs. Alfred (Bud) Benton, Route 1, Jayton, Texas, will be singing a soprano role in the opera "Martha" when it is presented by the Hardin-Simmons university School of Music on Thursday and Friday nights, May 1st and 2nd. Mr. Giuseppe Bamboschek, former director of the New York Metropolitan opera company is in charge as the conductor.

Mrs. Hendricks, who will graduate from Hardin-Simmons this spring, will sing in the student chorus, the part of a servant's maid. She also did under-study work for the leading role.

Mrs. Hendricks has had four years of voice under the instruction of Ethel Rader; is a member of the Acappella Choir at Hardin-Simmons, and a member of the Beta Mar Kappa. She also studied piano several years under the instruction of Bessye Benton.

After graduation, Mrs. Hendricks plans to sing in some light operas, and her highest ambition is to sing with the Metropolitan Opera Company.

## Methodist Church To Hold Conference

The last quarterly conference for the Jayton Methodist Church this fiscal year will be held Wednesday, May 7th, at 8:00 p. m., the Rev. S. H. Young, District Superintendent, announced. The date was formerly scheduled for May 4th. The following officers for the ensuing year will be elected at the conference: Stewards, Trustees, Sunday School Superintendent, Divisional Superintendents, Golden Cross Director, Financial Secretary, Pulpit Committee, and Delegate to the Annual Conference.

This is an official statement; Bro. S. H. Young will leave the District Superintendency to accept a regular pastorate. He especially invites each and every member of the Official Board to be present and also every member of the Church for this closing conference session. All reports and business should be in hand, and will you help to make this a good conference?

Prayerful your pastor,  
Marvin E. Fisher.

## Old Fashioned House Cleaning

Austin. — A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today, "From a practical standpoint the old adage that 'Cleanliness is next to Godliness' is still well worth emphasizing."

A general clean-up program of state wide proportions with the objective of bettering health conditions for our citizenship should include the surface cleaning of streets and alleys, proper drainage or filling in of low areas, cleaning all parks and playgrounds and the clearing of weeds and rubbish off of vacant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up Cox, "of inestimable value in Dr. Cox, "of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid, and poliomyelitis. Good community housekeeping and ordinary sanitary measures require prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the State."

Dr. Cox stressed the fact that many dangerous diseases are filthy-borne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

## Rotan Man Fined \$1,000, Gets Jail Term On Liquor Charge

Roby, April 29 — A jury in Fisher county court today fined Joe Rushing, about 55, Rotan resident, \$1,000 and court costs and assessed a six-months jail term against him on a charge of possession of liquor for purpose of sale.

Sheriff R. L. Walkins and the Rotan police department several days ago seized 104 pints of whiskey at his home, according to Abilene District Liquor Control Board Supervisor George W. Connell of Abilene.

The jury was out only eight minutes after receiving the case, Connell said.

—Abilene Reporter-News

## LEYTE, ANZIO BATTLES RATE STARS

Service in the Leyte and Anzio campaigns will rate a separate star for the Pacific and European theater ribbons, respectively, the War Department has announced.

The Ardennes Campaign has also been redesignated the Ardennes-Alsace Campaign, broadening the area of action correspondingly to entitle a number of troops of the old 7th Army to another star on their ETO ribbon.

### NEW STARTING TIME AT LOCAL THEATRE

Beginning Sunday all evening shows will start at 8:00 o'clock at the Texas Theatre, according to Mr. Gaston Jackson, manager.

Work on the new house, being built by Dallas Kenady, in the North central part of Jayton is progressing nicely this week.

## Swing Of Southwest Farm Markets

Weak spots showed up all through the farm markets the past few days; but many items strengthened, and only hogs, feeds and corn registered sharp declines, according to Production and Marketing Administration, U. S. Department of Agriculture.

Butcher hogs dropped \$1.25 to \$2.50 per hundred for the week, and hogs \$1.50 to \$3.00. Closing bulk of good and choice butchers sold at \$22.50 at Texas markets; and \$23 to \$22.50 at other southwest terminals. Sows turned mostly at \$18 to \$22.50.

Cattle moved higher at Houston and San Antonio; and vealers and calves gained at Oklahoma City. Other southwest cattle prices receded to slightly lower levels last week. Common to medium steers and yearlings cleared at \$13.50 to \$17.50 at Houston; and \$14 to \$19.50 at Fort Worth. Medium to low good kinds moved at \$19 to \$21 at San Antonio; \$18 to \$23 at Oklahoma City; and mostly \$19 to \$22 at Wichita. Numerous load of good and choice steers cashed at \$23.75 to \$24 at Denver.

Spring lambs climbed mostly 50 cents to \$1.50 during the week; while old crop lamb and aged sheep held generally steady to strong. Good and choice spring lambs brought \$18.50 to \$21 at San Antonio; and mostly \$20.50 to \$22.50 at other southwest markets.

Hens held firm last week, and fryers advanced to 35 cents per pound at Dallas. Eggs weakened at some points. Egg prices averaged 39 cents per dozen at San Antonio; 39 at Oklahoma City; 40 at Fort Smith, Amarillo, and Fort Worth; 41 at Denver, El Paso, and New Orleans; 42 at Houston; and 43 at Shreveport. Indifferent trading last week left most grain little changed. Liberal offerings of corn stepped prices down several cents, however; and oats also appeared in plentiful supply. Corn closed Friday at \$1.90 to \$1.91 per bushel in Fort Worth and Galveston; and oats \$1.03 to \$1.05. Sorghums ranged from \$3.17 to \$3.20 a hundred.

Slightly larger quantities of rice moved into domestic trade channels last week. Rice seeding proceeded haltingly between rains. Feeds registered moderate to drastic declines, as new crop harvest approached. Rapidly diminishing supplies of hay failed to meet daily needs at firm prices. Peanut planting made good progress. Treated shelled seed peanuts sold around 21 cents per pound, and farmers' stock about 15. Some well grown Texas Delaine wools sold at 46 to 46½ cents per pound to the grower.

Vegetables in the Lower Rio Grande Valley found fairly good demand at mostly steady prices last week. Farmers about cleared their fields of the season's onion and cabbage crops, as cabbage and carrots went up sharply the first part of the week. Tomato movement gained volume, and flowers got around 10 to 15 cents per pound. Onions came in strong from the Laredo and Coastal Bend districts in good demand. Louisiana strawberries hovered about \$5.00 per 24 pint display crate in auction sales, Colorado asparagus, green onions, and spinach weakened on Denver's farmer market.

Sharp early-week rise in cotton markets encouraged spot selling, as demand picked up for some grades. After a midweek slump, prices closed Friday \$2.75 to \$4.25 per bale higher than a week earlier.

### NAVAL RESERVISTS NEEDED

Washington, April 24. — President Truman said today that enlistment of an adequate number of Naval Reservists will make the peace of the Nation and the world more secure as he focused attention on Naval Reserve Week, May 18 to 25, in a statement which wished the reserve force "every success in its mission which is so vital to the future of this nation."

Pointing to the "distinguished record of the Navy throughout 172 years of service," the President said that "We are especially proud that in the two most recent wars this Navy maintained its magnificent standards when predominantly composed of men and women who learned their naval duties under the stress of an emergency already existing." Those Navy veterans, he said, form the nucleus of the trained Naval Reserve.

To their ranks, he added, "we must add others in order that our peacetime Naval Reserve may be maintained a high efficiency and adequate strength." The reserve week will constitute a special enrollment effort, Mr. Truman said.

## TEXAS STOCK FARMER FEATURED IN NATIONAL ADS

The typical Texas farm of J. M. Pfleger, San Angelo, Tom Green County, is illustrative material for the fourth of a series of "Master Farmer" advertisements in national farm publications by The Studebaker Corporation. These pictures of Mr. Pfleger and his farm are appearing currently.

# THE JAYTON CHRONICLE

H. D. Wade, Editor and Publisher

Published Every Thursday at Jayton, Kent County, Texas

Entered as Second Class Matter, February 10, 1921, at the Post office at Jayton, Texas, under the Act of March 6, 1879.

Subscription, One Year, \$1.50

### NOTICE TO PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm, or corporation that may appear in the columns of The Jayton Chronicle will be gladly corrected when called to our attention.

A masterpiece of oratory was the eulogy by James G. Blaine on the martyred President, James A. Garfield.

Great in life, he was surpassingly great in death. For no cause, in the very frenzy of wantonness and wickedness, by the red hand of murder, he was thrust from the full tide of this world's interest, from its hopes, its aspirations, its victories, into the visible presence of death—and he did not quail. Not alone for one short moment in which, stunned and dazed, he could give up life, hardly aware of its relinquishment, but through days of deadly languor, through weeks of agony that were not less agony because silently borne, with clear sight and calm courage he looked into his open grave.

What blight and ruin met his anguished eyes, whose lips may tell—what brilliant, broken plans, what baffled, high ambitions, what bitter rending of sweet household ties! behind him a proud, expectant nation, a great host of sustaining friends, a cherished and happy mother, wearing the full, rich honors of her early toil and tears: the wife of his youth, whose whole life lay in his; the little boys not yet emerged from childhood's day of frolic; the fair young daughter; the sturdy son just springing into closest companionship, claiming every day and every day rewarding a father's love and care; and in his heart the eager, rejoicing power to meet all demands. And his soul was not shaken.

His countrymen were thrilled with instant, profound and universal sympathy. Masterful in his mortal weakness, he became the center of a nation's love, enshrined in the prayers of a world. But all the love and all the sympathy could not share with his suffering. He trod the wine-press alone. With unfaltering front, he faced death. With unfailing tenderness, he took leave of life. Above the demonic hiss of the assassin's bullet, he heard the voice of God. With simple resignation, he bowed to the Divine decree.

As the end drew near, his early craving for the sea returned. The stately mansion of power had been to him the wearisome hospital of pain and he begged to be taken from his prison walls, from its oppressive, stifling air, from its hopelessness and its hopelessness. Gently, silently, the love of great people bore the pale sufferer to the longed-for healing of the sea, to live and to die, as God should will, within sight of the heaving billows, within sounds of its manifold voices.

With a wan, fevered face tenderly lifted to the cooling breeze, he looked wistfully upon the ocean's changing wonders; on its far shores; on its restless waves, rolling shoreward to break and die beneath the noon-day sun; on the red clouds of evening, arching low to the horizon; on the serene and shining pathway of the stars. Let us think that his dying eyes read a mystic meaning which only the rapt and parting soul may know. Let us believe that in the silence of the receding world, he heard the great waves breaking on a further shore and felt already upon his wasted brow the breath of the eternal morning.

Mr. and Mrs. Glenn Hancock had business in Rotan last Friday.

Mrs. G. H. Huls of Stamford, Texas visited Inez Rice in Jayton last Thursday.

Mrs. Dallas Kenady, Mrs. W. K. Joiner, and Mrs. Clegle Hayes took their mother, Mrs. J. H. Fowler, to Scott and White Clinic at Temple, Texas for a checkup the first of the week.

For correct information contact your nearest VETERANS ADMINISTRATION office.

### DDT VS. FLIES

College Station. — A nation-wide drive is underway to kill out million of pests that have been hampering health since Adam and Eve. Flies are the pests, and DDT is the weapon.

Launched by the U. S. Department of Agriculture, the drive is being taken up in the Lone Star State by the Texas A. and M. College Extension Service. Extension entomologists state that the people of Texas, both rural and urban, have never had the chance they have this spring to make war on flies. DDT has proved itself as a fly-killer.

Most recent research has shown that the worst of the disease-carrying flies can be killed by spraying DDT around the places where the flies rest. The entomologists are not only asking farmers to use the DDT around sheds, barns, pig pens and cow lots, but are also urging city officials to spray garbage cans, curbs and gutters, stock yards and other places where flies swarm. In the home, 2 1/2 to 5 per cent DDT is very effective against houseflies.

"The more people that get in the fight against flies early in the season, the less bother we'll have with flies this summer", the entomologist says.

### Farmer and Ranchman

WE DO WHAT OTHER LOAN AGENCIES DO NOT DO.

We loan money to pay off loans held by other agencies charging higher rate of interest than we charge, also those who have restricted payment clauses in their mortgages.

We loan 75 per cent of the normal agricultural value of farms and ranches.

We make the smallest loans to serve the needs of the people, also loans up to \$50,000. to buy lands, build homes, and other improvements.

We issue dividend paying stock, such dividends will reduce your interest cost down from 4 per cent to approximately 3 1/2 per cent.

You do your business at home, with home folks, with a board of directors elected by you to manage the affairs of your association.

The Stonewall-Kent National Farm Loan Association has distributed approximately \$18,500. in dividends to borrowers over a period of the last 2 1/2 years.

You can pay off your loan at any time you wish without any extra cost or penalty.

Feel free to discuss with us your plans or needs and we will be glad to assist you.

### What is Management?

Management is as old as the hills. There is nothing complicated about it at all. It is a natural function of human society.

A man and a woman marry, set up housekeeping, and raise a family. Both are managers.

They manage as they buy a home, educate the children, plant a garden, pick out a car, a refrigerator, a piano. A hundred decisions a day around the house are management decisions.

Management occurs at all levels in government, charity, education, lodge. It is the plumber with his helper, the elevator starter, the superintendent of schools, the master of the grange.

But in America, management probably has had its most scientific application in business.

Business management, even before World War I, helped build up a volume of production surpassing that of any other nation. In World War II, the results were even more spectacular. America outproduced all other countries combined.

By 1941, the value of an hour of work in terms of the staple necessities of life, bread and butter, had so been raised that an American could buy from two to eight times as much as a man in Europe. This didn't just happen. Neither the men and women in industry nor the money in industry can be effective without good management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.

West Texas Utilities Company

Mrs. M. D. Fuller and Mrs. W. C. Dibrell had business in Abilene, Texas Monday.

Mrs. Ramsey Myers of Peacock, Texas was shopping in Jayton Saturday.

Mr. and Mrs. A. J. Lafoon and daughter and Mr. J. A. Lafoon visited Mrs. H. A. P. Lafoon at Wichita Falls, Texas last week.

**HAVE YOUR TRACTOR RECONDITIONED**

... With Modern Precision Equipment

We have the best in modern precision equipment to give your machines first-class repair service.

COMPRESSION GAUGES—Measure your engine efficiency and operating economy.

VACUUM TESTER—Takes the guesswork out of adjusting carburetors and timing magnets — detects leaky valves, weak valve springs and defective sparkplugs.

PULLERS AND PRESSES—Permit us to install cylinder liners with greater accuracy and safety.

VALVE REFACERS—Put new face on worn valves for all makes of tractors.

MICROMETERS and other precision measuring instruments — Accurately check all parts of your motor to determine wear.

WELDING EQUIPMENT—We can save you expense and delay by welding cracked and broken parts.

PAINTING EQUIPMENT—A new paint job "weather-proofs" your equipment and improves its appearance.

Don't wait until the last minute! Be one of the first on our list, and you'll be sure of having your tractor ready when you need it.

**SCHOOL NEWS**

The seniors wish to thank everyone who helped out in the senior play last week, not forgetting Melvin Murphy with the drums, and also those who watched the Lady Punks from Podunk beat the senior girls 24 to 18 the week before.

The Annuals will soon be out. There will be 85 copies, and 79 deposits have been made to date.

The Annuals this year will sell for \$3.00. The cost is about \$3.60 or \$3.70 per copy, so our advertising receipts will only help to cover the deficit. The exact date of the arrival of the books is not known, so we are asking those who have made the \$1.00 deposits to have the other \$2.00 ready.

The few remaining copies on which deposits have not been made will be sold on a cash basis in the order of first-come, first served.

The seniors are to leave next Wednesday morning on their trip. They will go to Austin, and make that their headquarters for three days. They are to make one trip to San Antonio. They are to come back by Fort Worth. The trip is to end Sunday.

The juniors are leaving on their trip Thursday of this week. They plan on going by Wichita Falls to Craterville Park, Oklahoma, 17 miles from Lawton. They are to return next Sunday.

The Jayton boys baseball team held Aspermont even until the fifth inning in a game at Aspermont last Friday, but finally lost 10 to 3.

The senior girls went over to play softball, but played volley ball instead, and won 3 to 1.

The final inter-school athletic contests, senior boys' baseball and senior girls' softball contests with Girard originally scheduled for this Friday, have been postponed until Friday, May 16. The games are to be played at home.

Mrs. Margaret Reeves and daughter Posey of San Antonio, Texas visited Mr. and Mrs. L. H. Mason Tuesday.

R. A. Moreland Jr. has been indisposed this week with sinus.

Bess Porter of Lubbock, Texas visited friends and relatives in Jayton last week end.

Mrs. L. H. Mason and Mrs. Claude Brannen visited Mrs. Mason's brother Earnest Brannen at Ralls, Texas this week.

Tec. 5 Jesse Taylor has been ordered to the Separation Center at BAMC for separation from the Armed Forces.

He was formerly stationed at Brooke Army Medical Center, Fort Sam Houston, Texas, largest and most complete medical installation of its kind in the world.

**CHEESE SOUFFLE**

One dish can make a truly enjoyable meal, especially when it's served with a green vegetable or fruit salad. So, next time when you want to prepare a wholesome meal quickly, try as the main dish.

- Cheese Souffle**  
 4 tablespoons fortified margarine  
 2 tablespoons flour  
 1 cup scalded milk  
 1/2 teaspoon salt  
 1/8 teaspoon pepper  
 dash cayenne pepper  
 1/4 teaspoon chili powder  
 1 cup grated cheese  
 4 eggs

Melt margarine; add flour. Add scalded milk and stir; cook until thick and smooth. Add salt, pepper, and cheese. Remove from fire, add unbeaten egg yolks; beat well. Cool; fold in stiffly beaten egg whites and pour into greased baking dish. Bake in moderate oven (350° F.) 35 minutes. Serve at once. Serves 4. Any leftover chopped cooked vegetables, chopped meat, or fish may be substituted for the cup of grated cheese.

For other taste-tempting recipes write today for your free copy of the new two-color, 32-page recipe booklet, "Mealtime Magic," to National Cotton Council, Box 18, Memphis 1, Tenn.

**200,000 4-H MEMBERS GET SPECIAL TRAINING IN SOIL CONSERVATION**

More than 200,000 4-H club members have received special training in soil conservation during the last three years, according to the National Committee on Boys and Girls Club Work. Last year, 43 states and Puerto Rico made that activity a part of their 4-H program.

The club members' training includes among many other soil conservation practices, contour farming, strip cropping, terracing, soil testing, establishing permanent pastures, sodding waterways and planting shelter belts and windbreaks. The activity is conducted under the direction of the Federal and State Extension Services.

Merit awards for top ranking 4-H soil conservation records on county state, sectional and national levels are again offered in 1947 by Firestone. Awards include gold medals for county winners and \$50.00 U. S. Savings Bonds for the six highest rating entrants in each state. In addition, 16 selected state winners receive a sectional award, which is a trip to the 4-H Club Congress in Chicago. Eight of the sectional winners are chosen for national honors, each receiving a \$200.00 college scholarship.

Last year's state winner in Texas was Carrol Fowler of Lakeview.

Mrs. Claude Brannen of Fayetteville, Arkansas is visiting Mr. and Mrs. L. H. Mason.

Mrs. Tom Jones of Spur, Texas was visiting in Jayton Tuesday.

**CREAM IN YOUR COFFEE**

Chicago. — If you want to do yourself a favor, put cream in your coffee.

Because the cream will give you a 40 per cent better chance of avoiding coffee-induced ulcers.

"Research has shown," declares the National Dairy Council, "that cream is good for you. But the value of putting cream in coffee is one of these mighty important little things that many men and women ignore, or forget, or don't know about."

"Yet thousands of adults are trying to get rid of them."

"So here's a simple little thing that you can do, if you are a coffee drinker, that might add greatly to your health and happiness: use cream in your coffee."

"It works this way: The caffeine in coffee provokes an unusually heavy and prolonged flow of digestive juices. That heavy flow may contribute to the tendency to ulcers, or may aggravate an existing ulcer. But add cream to the coffee and the cream reduces by 40 per cent the flow of digestive juices that is caused by caffeine."
