Number 23

New Storage Program Announced By Brannan

Washington, June 7—Secretary of Agriculture Brannan announced Tuesday a three point program to help grain farmers meet a critical storage problem. He said lack of storage threatens the price support programs.

The program was announced shortly after President Truman signed a law letting the Commodity Credit Corporation provide storage for farm products.

The program provides:

1. "Distress" price support loans on grain piled on the ground or in temporary storage facilities pending construction of permanent storage to care for it.

2. Loans to farmers to build permanent farm storage facilities. Up to 85 per cent of the cost of the facilities will be loaned.

3. CCC to construct 50 million bushels of bin-type storage facilities at country points to supplement 45 million bushels of such storage already owned by it.

Under the "distress" loan phase of the program, farmers may obtain loans equal to 75 percent of the price support on grains stored in the open, on the understanding that they build or acquire satisfactory storage for the grain within 90 days.

Heretofore, price support loans have been made only on grain stored in satisfactory permanent storage facilities.

When this grain is put in satisfactory storage, farmers will get the balance of the price support which, in the case of wheat, averages about \$1.95 a bushel nationally.

The distress loan feature will apply almost wholly to the Southwestern wheat area where prices have fallen as much as 50 cents a bushel below the price support in recent days.

In areas where the climate is too wet to store grain in the open, the department itself will undertake to find temporary storage in government-owned war-surplus facilities, such as airport hangars, arsenals and the like. Owners of such grain will be granted 75 per cent price support loans pending acquisition of satisfactory storage within 90 days.

The loans to farmers for construction of additional facilities on farms will be payable in five annual installments or earlier at the farmer's option, and will bear interest at 4 per cent a year. Under this program, borrowers would be allowed additional time to pay off loans in the event of crop failure.

In the case of the distress loans, the government will take the risk for any deterioration during the period the grain is on the ground or in temporary storage.

New Method Found For Dehorning Calves

A new electric method for painlessly removing horns from a calf by destroying its horn-producing cells, has been developed by engineers of the General Electric Company, it was announced today.

In contrast to the old method of sawing off the horns with a hacksaw, the new method is one in which the tissue covering the budding horn is seared before the horn actually breaks through, according to the engineers. The searing which destroys the horn-producing cells, is an ordinary soldering iron which is attached to a removable tip. The tip is hollowed out on the end to fit over the nub on the calf's head which would grow to be a horn.

Besides being painless, bloodless and free from danger of infection, this electric method takes only two and a half minutes to complete. After a few weeks the unwanted budding horn falls off, and no further growth occurs.

Salvation Army Officer Retires

W. D. Pedigo, Texas field representative for The Salvation Army for the past 25 years, has retired at the age of 78.

Pedigo became a familiar figure in Texas, and regularly visited Jayton on his trips about the state and he has many friends here. Before coming to the Salvation Army he had been in the railroad and banking business.

Mr. Pedigo will be succeeded by Major Bernice Lyons, now in charge of The Salvation Army unit at Pampa. Major Lyons has served 19 years as a Salvation Army officer in Texas.

WITH THE CHURCHES

Assembly Of God

Last Wednesday night we had a wonderful service, Br. Eads and wife of Spur preached for us. God gave him a wonderful message which was enjoyed by all present. Several prayed their way through to salvation. The other services were well attended. We had 55 in Sunday School with about 75 for the Sunday night services which was a blessing to all.

There will be a revival starting at the Assembly of God Church June 12th. Rev. J. F. Eads of Spur will be bringing the messages from God's word each night. Rev. Eads is a forceful preacher of the old time gospel without fear or favor, that "Hell is Hot", "Judgment Sure", and "Heaven Sweet". A special invitation extended to all.

"Don't Be Like Dad"

My Dad has rheumatism, it bothers him severely. It's the kind that comes and goes and acts a trifle queerly. On Monday, Tuesday, Wednesday, He doesn't mind the showers, but rainy Sundays, rheumatism. Bothers Dad for hours. It takes him in the morning. Of course I do not doubt him, but I have always wondered, just why a rainy Sunday is so much worse for rheumatism. Than a rainy Monday.

Remember Friday night, June 10, we have our District Young People's Rally. We will be looking for you. E. O. McElyea, Pastor. By T. N. Sanders

First Baptist Church Jayton, Texas

The attendance was off for both morning and night services last Sunday. We had 65 present for Sunday School and 31 for Training Union. We are so thankful for the faithful people who attend every service each week. If there were only more who were interested in their church work the churches would grow. If you are a Christian do your part in your church to make it a more sacred and religious place. If you are not a Christian, come to church and hear the word of God preached that you might hear and believe that you also may become a Christian. Live everyday in such a way that you might be a shining light to someone and not a stumbling block. We should make every day with Jesus sweeter than the day before. Christ gave his life for us and he expects us to give our life to Him. If God were the head of every home there would be happier homes and not as many homes broken up.

We want to urge everyone to make use of the playground on Tuesday nights. We have been having good attendance so we hope you will continue to come.

Bro. J. Henry Littleton our district Missionary now located at Leuders, will do the preaching Sunday in the absence of Bro. Beatty who is attending school in Fort Worth. Bro. Littleton is truly a man of God, you will miss a blessing if you do not attend church and hear him proclaim the word of God.

We are having good attendance at prayer meeting every Wednesday night. We urge you to attend every week if possible.

May the Lord bless you every day that you might live for Him. Marie Smith, Reporter. Bro. C. C. Beatty, Pastor

Hours Changed At Spur FHA Office

The Farmers Home Administration office in Spur will operate on a limited schedule beginning June 13, 1949. The office will be open from 8 a. m. to 5 p. m. on Tuesday and from 1 p. m. to 5 p. m. on Friday. This schedule will be maintained until about July 15, 1949. From that date, the office will be kept open five days a week.

Bill McGee Seriously Burned Monday

Bill McGee was carried to the Rotan Hospital Monday afternoon after receiving first and second degree burns. Bill was working on a tractor in the work shop of O. H. Hamlin's when the gasoline he was using to clean the tractor became ignited causing his clothes to catch fire.

His hands and arms, hip and back were badly burned, however, reports Wednesday night were that he was able to sit in a wheel chair for a short while Wednesday afternoon, and that he is recovering rapidly.

Maritime Service Starts Drive For Men

The United States Maritime Service has a drive on for a limited number of men interested in a special six months training which prepares a man for a career in the United States Merchant Marine.

To be eligible an applicant must be an American citizen between the ages of 17 1-2 to 35 years of age. He must have completed the ninth grade of school and satisfactorily complete a physical and aptitude examination. While in training enrollees will receive \$75 per month plus subsistence and quarters, uniforms and text.

This training is conducted at the United States Maritime Service Training Station, St Petersburg, Florida. It is divided into two main classes. The first being three months preliminary training on the base and the second, followed by three months of actual sea duty aboard the U. S. Maritime Service 10,000 ton training ship, The American Mariner. Upon satisfactory completion of the course of training enrollees will be graduated as fireman, oiler and water-tenders in engine department, second cook and bakers in the steward department, and ordinary seaman, Lifeboatman in the deck department.

The present group of high school graduates will find this opportunity most interesting educationally both through the training and world-wide travel upon completion.

All interested applicants are requested to contact the Enrolling Officer, Room 110, Custom House, New Orleans, Louisiana, for further particulars and applications. Your inquiry will receive immediate processing.

Cotton Markets Quiet During Past Week

Oklahoma and Texas spot cotton markets were quiet following the Memorial holiday. Merchants were cleaning up their stock and preparing for another season as the new crop approaches. Domestic mill interest was also quiet, but a few inquiries were received for small, prompt shipments. However, export demand for European countries continues good.

Reports from farmers indicate that equities in government loan cotton moved slower and in less volume last week than the preceding week. Prices ranged from \$2 to \$7.50 per bale.

The Commodity Credit Corporation loan rate on 1949 would be about 29.54 cents per pound for Middling 15-16 inch at average location if parity as of June 15 should be at the May 15 level. This is about 2.91 cents below current prices for cotton in the 10 spot markets and 1.20 below the loan rate of 30.70 cents applicable to the 1948 crop.

Services Held For N. C. Moore

Nicolas Clem Moore, age 66, Stamford carpenter, died Thursday at 8:30 p. m. at the Stamford Sanitarium of a heart ailment.

Funeral service was held Sunday at 2 p. m. at Kinney Funeral Chapel. Smith Kite of the Stamford Church of Christ, conducted the service. Burial was in Highland cemetery with Kinney Funeral Home in charge.

Mr. Moore was born September 27, 1882, at Prion, Ga. He married Minnie Motes O'Brien on November 1, 1908. They had lived in this vicinity since 1916. Mr. Moore was a member of the Church of Christ.

Survivors include his wife, three sons, E. E. Moore of Graham, R. M. of Jayton and W. C. of Stamford; three daughters, Mrs. Elmer Boyd of Stamford, Vivian Moore, Houston and Mrs. J. E. McCann of Abilene. Also surviving are 10 grandchildren, a sister, Mrs. Ettie Brock of Swenson and a brother, A. A. Moore of Wichita, Kansas.

Grasshoppers Hit County Farms

A heavy infestation of grasshoppers have moved into the Harmony Community and the Duck Creek area west of Jayton. These hoppers are of the large jumbo type and move in large bands across the country. Since the excess rains have ceased and the vegetation around fence rows has begun to get a little dry, these hoppers are moving into the fields to feed on the green tender cotton and feed plants.

Poison bait for the control of grasshoppers is available at the Jayton mixing station and can be obtained by contacting the County Agent. The poison bait is free for the asking, but a fee will be charged for the mixing. In order to get the best results from the poison bait, it should be put out either in the early morning or late evening, and scattered evenly over the infested area at the rate of 15-20 pounds per acre. Farmers should avoid putting it out in large flakes, since it has been known to poison cows and chickens when they consume enough of it.

Toxaphene and Chlordane are the materials being used for spraying or dusting grasshoppers. When the hoppers are small, use a 10 per cent Toxaphene or Chlordane dust or spray at the rate of 15 pounds per acre. Later when the hoppers are larger, use 18-20 pounds per acre. There are two precautions to remember, too. Don't feed forage treated with these insecticides to dairy cattle until at least three weeks after spraying or dusting. And it is a good idea to protect bees when possible, so try to avoid applying these chemicals to legumes in bloom. During ordinary years, spraying and dusting are not recommended because there is not enough vegetation growth to hold the poison; however, this year we have had ample rain to produce lots of vegetation for holding the poison to kill the hoppers. There is no government support on this method of control, however.

During the week of June 12-19, the County Agent will be out of town but farmers can get poison by contacting Don Jay at phone 49 in Jayton. Poison will be mixed only on Monday, Wednesday and Friday of next week and farmers who want poison should arrange to get it on one of these days. There will not be mixed on Sundays.

Storage For Wheat Presents Problem

The lack of adequate storage for the bumper grain crop that is now beginning to move in the state is causing much concern. This, coupled with the drop in price, has brought the producer face to face with a real problem but fast action may yet save the day. It isn't too late to provide much on-the-farm storage and at the same time qualify for a government loan on the crop says, W. S. Allen, extension agricultural engineer-buildings of Texas A and M College.

According to Allen, 500-bushel capacity grain storage bins or granaries can be built for about 50 cents per bushel of storage capacity and 1,000 bushel bins for about 40 cents per bushel capacity. These construction costs can be further reduced through the use of materials that may be available around the farm, adds Allen. Due to the high cost of materials, it may be advisable in some localities to buy prefabricated bins or granaries. Allen says such structures in some instances are selling from 28 to 31 cents per bushel capacity.

Whether you build or buy prefabricated bins will depend on the local situation, he says. If you need a blueprint for building on-the-farm storage or information on fumigation, and figuring storage capacity, so see your local county agent. Through him plans are available for many types and sizes of grain storage structures.

When you get the plan, says Allen, get a local estimate on the cost of construction and then compare this figure with what a prefabricated building would cost. Then take your choice. It is well to keep in mind, continues Allen, other uses that can be made of such structures after the grain is taken out and plan them for such.

Grain storage structures, concludes Allen, should be well built so they will last for many years. And, too, one of the qualifications for government loan is that the grain be stored in bins or granaries where it will not be subject to damage from moisture, insects, rodents or from other causes.

Mrs. H. K. Kearney underwent a major operation at the Rotan hospital last Thursday. Last report was Mrs. Kearney was recovering nicely.

Kent County Rodeo To Be Held June 15 - 18

"and!!"

It continues to rain in Kent County. Light showers Monday, an inch rain Tuesday night and two more showers Wednesday brought the week's total to about two inches. The rains of the week completely stopped the wheat and oat harvest in this area and put the farmers even further behind with their planting and their battle against weeds.

xXx

The wheat harvest in Kent County got under way last Saturday and according to reports the yield is averaging from 10 to 30 bushels per acre. A very high average for this county.

xXx

Those who plan to enter the reining horse contest at the Kent County Amateur Rodeo next week can see the trophy that will be given to the winner of that event by visiting the Lewis Drug. The trophy is a 15 inch gold and silver horse and saddle mounted on a very attractive gold base and engraved with the words "Champion, Reining Horse, Kent County, 1949. This is something for the boys to really work for.

xXx

Mr. Glenn Vickers was doing a very nice job of grading the streets of Jayton until the rain Tuesday night completely ruined his work. In addition to having the streets worked the city also had the walk cleaned where the store buildings burned several months ago.

xXx

Don't forget folks the 3rd Annual Kent County Amateur Rodeo will get under next Wednesday night at 8 p. m. at the Davis grounds at Clairmont. This Rodeo will give you a chance to see many of the 'ccr' cow hands perform. Make plans to attend Kent County's own Rodeo, to be produced, judged and announced by Kent County people.

No Show Of Oil In Ohio Wildcat

Drilling continued below 7,357 feet, in lime, Tuesday in the Ohio Oil Company No. 1 Emery Estate section, 39, block 2, H&GN survey, Kent county wildcat 15 miles southwest of Spur. Cores from 7,248 to 7,300 feet had recovered 51 feet of lime, with no shows.

Insect Control Urged By Geo. G. Chace

George G. Chace, chairman of the Texas unit of the National Cotton Council, said today that Texas cotton farmers would have been able to profit an additional \$61,368,000 if insects had not reduced the state's 1948-49 cotton yield approximately 7 per cent.

Mr. Chace, in announcing initiation of a campaign by the Cotton Council to reduce damage to cotton by pests during 1949, said last year's losses in Texas amounted to an average of 4.1 cents per pound of lint harvested, and that insects one out of ten bales produced.

"Pests last year kept out of production approximately 359,833 bales of cotton and an estimated 147,000 tons of cottonseed. Based on average prices, this lint would have brought farmers of the state some \$50,740,000 and the seed would have meant an additional profit of \$10,628,000," the Council spokesman added.

"Recommendations on how best to control cotton pests in Texas already have been issued. This information, which may be obtained from county agents or vocational agricultural workers, tells farmers how to apply potent insecticides which will control effectively such pests as the boll weevil, bollworm, pink bollworm, cotton aphid, fleahopper, thrips and others."

Mr. Chace explained that though the percentage of cotton damaged by insects throughout the Cotton Belt last year was the second lowest since 1924, an estimated 6.6 per cent of the crop, valued at approximately \$202,264,000 was destroyed.

He observes further that a mild winter in many Cotton Belt states favored a high survival of cotton pests, and said that the Cotton Council is warning cotton farmers that unless effective insect control measures are taken, damage to this year's crop may run much higher than that incurred in 1948.

H. W. Davis and Son announced this week that the 3rd Annual Kent County Amateur Rodeo would be held the nights of June 15, 16, 17, and 18 at their Rodeo grounds in Clairmont.

Extensive preparations have been made to give the people of this area one of the best Rodeos ever held in Kent County. The stands have been recently covered, new chutes have been built to handle the bucking stock, the entire arena has been put in first class condition and a new permanent cook shack is under construction.

The show this year will include: calf roping, ribbon roping, older men's roping, Junior Kent County Cowboy's roping, Junior bull riding, exhibition bull and bronc riding, reining horse contest and sponsors contest.

The Kent County Amateur Rodeo is one of the few amateur Rodeos where the contestants compete for all the entrance fee money plus additional cash and other prizes. The generous prizes are expected to attract a large number of outstanding performers.

H. W. Davis and Son will furnish the stock for the show. W. D. Vencil of Jayton has been named as the official announcer and according to Mr. Davis, the judges for the show will be selected from the ranches of Kent County.

In addition to the Rodeo, a dance will be held each night. A new large dance pavilion has been built in order that the crowd can be better accommodated.

Farm Markets Lower In Southwest

Most southwest farm markets displayed easier to definitely lower tendencies during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports. Some products sold steady to strong.

Tomato shipments from east Texas added to those from south Texas to bring much lower prices this week. Lower Rio Grande Valley growers received mostly 1-2 to 2 cents a pound over the week end. Increased haulings of onions in North Texas found fairly good demand in most steady markets. Fifty pound sacks of U. S. No. 1 yellow Bermudas loaded mainly from \$2.15 to \$2.25. Good greens were scarce at Fort Worth, but watermelons and East Texas potatoes were liberal and lower.

New crop supplies dropped wheat and barley prices.

Hens sold lower than a week ago, but fryers held firm. North Texas markets paid 23 to 26 cents a pound for heavy hens, 20 to 23 for light hens, and 28 to 31 cents for fryers. Denver quoted similar prices and New Orleans some higher. Eggs eased only slightly. Current receipts ranged largely from 37 to 39 cents a dozen.

Hogs and sows gained 25 to 50 cents and pigs \$1.50 at Fort Worth but San Antonio and Denver showed slight declines for the week. Top butchers closed Monday at \$21 at Fort Worth and Oklahoma City, \$21.25 at San Antonio, and \$22.50 at Denver. Receipts fell off from the previous week. Pork sold steady to \$1 higher.

Moderately lighter receipts of cattle and calves at southwest markets sold steady to slightly higher than a week ago. Beef prices advanced 50 cents to \$2.50 at the eastern wholesale markets, but veal sold steady to \$1 lower. Canner and cutter cows ranged from \$12 to \$16.50 in Monday's trade at Texas markets and \$16 to \$17.50 at Denver. Medium and good grades brought \$16.50 to \$19 at Oklahoma City.

Cotton declined around \$1 a bale since a week ago Friday. Spot middling 15-16 inch closed Monday at 32.10 cents a pound at Dallas, 32.20 at Houston, and 32.3. at New Orleans.

Mrs. I. F. Murdoch has as her guests this week her mother, Mrs. O. C. Callaway, her sister, Mrs. T. W. Hughes and son of Palestine, Texas and her sister, Mrs. H. M. Myers of Dallas.

Nancy Donoho, daughter of Mr. and Mrs. R. G. Donoho, left last Friday for Kilgore, Texas, to accompany her aunt, Mrs. Gus Coleman and son, Wayne, on a trip to New York City. Wayne is to sail for Europe to do missionary work. Mrs. Coleman and Nancy plan to be gone four weeks touring the eastern coast.

THE JAYTON CHRONICLE

T. O. Wade, Editor and Publisher

NOTICE TO PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm, or corporation that may appear in the columns of The Jayton Chronicle, will be gladly corrected when called to our attention.

Speaking the other week, of old schoolmates whom I met while visiting in Memphis, Tenn., there was Sims Edmondson, a successful attorney. When he was attending Central High, Sims would begin to recite and then, in the middle of a word, he would start stammering and, despite the most strenuous effort, he was unable to finish. The teacher would say, kindly, "You may sit down, Sims."

Personally, I had always had my doubts, so on this visit I cross examined the middle-aged attorney, "Wasn't that just an act to conceal the fact that you didn't know

the lesson?" Sims grinned and said, "Yes".

It had taken more than 30 years but at last the truth came out. Also this columnist had a chat with an old-time newspaperman in Memphis who back, about the time of World War I, started a penny daily—yes, there was a time when a daily paper could be bought for one cent.

He had quite a struggle but kept the paper afloat for a good while. It was office gossip I was editor for a time that when there was a payroll to meet and not enough money on hand, the publisher would go out and sell more stock. There were stockholders of all creeds, races and political views and, again according to office gossip, there never was a stockholder's meeting—the publisher didn't dare call one for fear the stockholders would kill each other off!

Like the Irishman who went up to the priest after a sermon about the Final Judgment and asked, "Did I understand you to say that everybody who has ever lived will be there?"

"Yes" was the reply. Pat persisted, "The Republicans and the Democrats? The Rebels and the Yankees? The Irish and the A. P. A.?"

Again the answer was "Yes". "Then," said Pat, "Father, there'll be dommed little judgin' that first day."

CARD OF THANKS

Our thanks and deepest appreciation go to each of you who were so kind and thoughtful during the time of our sorrow. We will always remember your kindness and sympathy expressed in word, song, flowers, food and help.

Thank you and may God bless you.

Rheumatic Heart Often Fatal To Young

The disabling and often fatal disease of children, rheumatic heart disease, is one of the leading causes of death among children and young adults in the age group 10 to 25 years.

Unfortunately, there has been developed for this disease no vaccine such as we have for smallpox, diphtheria and whooping cough, but by recognizing the early symptoms and obtaining a competent physician's diagnosis and treatment, some of the damaging results of rheumatic heart disease can be prevented or moderated.

The State Health Officer, Dr. Geo. W. Cox, says that "in general the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows and wrists. The pain is felt usually in one of these joints, and spreads frequently to the others. Often a doctor's examination of a child who becomes irritable and cross without apparent cause, cries easily, and develops nervous habits, will disclose the presence of rheumatic heart disease."

Predisposing causes to this serious illness include frequent chills, living in damp, steamy quarters, poor diet, frequent colds, and sometimes scarlet fever or other infections caused by certain streptococcus germs. All such conditions should be avoided if at all possible.

Protection for children against rheumatic heart disease, should in-

clude a thorough physical examination by a physician at least once a year; a well balanced and nourishing diet; sufficient rest and sleep, and dressing at all times in accordance with the temperature of the room or playground. Consult a physician at once if any symptoms suggest that this disease may be present or in the process of developing.

Mr. and Mrs. Milton Harris of Vernon, are the parents of an eight year old son born the 24th of May. She was named Betty Marie.

Mr. and Mrs. Tom Jones and Janice, of Bryan spent last week end here with Mrs. Lou Emma Jones and Mrs. W. J. Lane.

Mr. and Mrs. W. J. Hembree of Ballinger visited her mother, Mrs. Lou Emma Jones last week end.

Grandson Grace is visiting in Hico, Texas, with his Zella Grace and daughter Joyce.

Mr. and Mrs. John Nelson Kelley of Dallas visited Mr. and Mrs. J. M. Kelley a few days last week.

Mr. and Mrs. Doyle Clark of Lubbock visited Mr. and Mrs. Weldon Clark and family and J. O. Lee last week end.

Mr. and Mrs. Dallas Kenady, Mr. and Mrs. Wayne Williams and Jim Lumpkin attended the district A.C.A. meeting in Childress last week.

Rhoda Lou Kelley and Joyce Branter of Lubbock were Jayton visitors last week end.

Maurine Dibrell and Ivey Murdoch had business in Abilene Monday of this week.

Bobby Hamilton had as his guest the past week end, Wesley Richards of Abilene.

Mr. and Mrs. Paul Lane, Mr. and Mrs. W. J. Garrett and Mrs. Eva Riley of Lamesa, went to Cross Plains last Friday to attend the funeral of their niece, Susan Barr.

Mr. and Mrs. W. J. Garrett, Jr., are the proud parents of a daughter born May 21 at the Grand Saline hospital. She was named, Margaret Elaine.

Mrs. Geo. Toilette of Fort Worth visited her grandparents, Mr. and Mrs. B. L. Armes last week.

Born to Mr. and Mrs. LeDell McAtter of Stamford at the Roten hospital, Tuesday, June 7, a girl, weighing 8 1-2 pounds. Mother and baby are reported doing well.

Junior Class Members Travel To Christoval

On the morning of May 23, thirteen members of the Junior Class and two room mothers met at the home of their sponsor, Mrs. E. M. Jones. They were all loaded down with good things to eat, in fact there was so much that they had to take a trailer. Within 30 minutes everything was packed and they were off for their destination, Christoval. Sweetwater was the first stop and it was there that the six boys were lost because they didn't care for window shopping. It was agreed that the City Park in San Angelo would be the meeting place for lunch. This City Park is especially beautiful at this time of year.

Due to the fact all were anxious to get to Christoval, the lunch period was very short. On arrival, two cabins were secured and from then on the room mothers did most of the work, because the boys and girls could hardly wait to take a swim in the beautiful Concho River. Immediately a great splash was heard—Frank Sandell jumped in! Most of the Juniors spent their ex-

cess money for motor boat and speed boat riding.

The first night, we enjoyed a show at the Stardust Drive-In Theatre. On arriving back at Christoval everything seemed entirely too quiet; however this quiet did not last long with thirteen Jayton High Students to keep things going. Billy John Harrison climbed a tree and turned on a switch, then the sound of music and skates could be heard until three in the morning. Due to the fact there were five early birds in the crowd, no one could sleep late. Those early birds liked to take early morning swims, and awaken everyone. Ask Joy Jean if she has ever blistered or had a sun tan.

On Tuesday afternoon we went to the beautiful Ben Ficklin Lake, where some swam and some went speed boat riding. After a delicious supper, everyone went to the wrestling matches, which were thoroughly enjoyed by all except two, who couldn't stand the cruelty. Just before the third round Mrs. Harrison and Alma Joy walked out looking very sick. After the matches, the Class enjoyed refreshments at a drive-in where Jackie and Naylan test their hearts to a pretty car-hop.

On arriving back to the cabins all were very sleepy, except the girls.

On Wednesday everyone was allowed to do as he or she wished. In the afternoon the boys went on a sight seeing tour and the girls shopped. No one knows what the room mothers did. Their story is that they went to the Chamber of Commerce to make an appointment for a sight seeing tour on Thursday.

Our sponsor had to leave us this night because of sickness in the family. It fell Mrs. Vencil's lot to drive the green Buick but she did very nicely.

On arriving back to the cabins, it began to rain, much to our sorrow. Everybody went to bed but you might ask Henry D. if the boys slept. Jon Allen might tell you how it feels for a bed to fall in about 2 in the morning.

On Thursday morning everyone was up bright and early, arranging to leave and to tour San Angelo with a representative from the Chamber of Commerce as a guide. Our tour began at 10:00 o'clock, with our first stop at Goodfellow Field. One of the Captains secured a G. I.

bus to tour the field in. The tour of the field was of educational interest to the boys, and the Cadets were of interest to the girls, in fact the girl's cameras clicked continuously.

After leaving Goodfellow Field it was lunch time. After lunch the radio station KGKL was the next stop. Other places visited were Gendy's Creamery and the Coca Cola Bottling Plant. Then the girls went shopping again and the boys continued the tour to Fort Concho Museum, which was established by the U. S. Army in 1867. The boys were not seen again until arrival in Jayton.

To sum it all up, everybody had a wonderful time. Don't ever think thirteen is an unlucky number.

Mrs. W. J. Garrett spent last week in Van, Texas with Mr. and Mrs. W. J. Garrett, Jr., and daughter.

Mrs. W. D. Vencil and Mrs. K. P. Brantner had business in Lubbock last Thursday.

Mr. and Mrs. B. J. Kellett attended the funeral of her sister-in-law in Fort Worth Monday of this week.

J. M. Johnston attended the Johnston family reunion at Mason, Texas this week.

Billy Glenn Vencil who has been attending Texas Tech is home for the summer.

Kirby Clayton and Jim Lumpkin attended a farm meeting at Paducah Wednesday afternoon.

Mrs. George Rice and son are visiting Miriam Parks in Midland this week.

R. A. Moreland, Jr. and Roy Ensledow came in last Sunday from College Station, where they have been attending A. and M. College the past term.

Mrs. Rube Grice and Arlene and Mrs. Thelma Russel and Ronnie visited Grandma Hamlin in Jayton last Sunday.

SPUR, TEXAS

Candidate

Caso March of Waco has resigned his position as professor of law at Baylor University to make his third consecutive race for Governor of Texas. The Waco lawyer has announced that he will open his campaign headquarters in Waco and hit the campaign trail in early June and stay on the road until the election, 1950. March's platform calls for the redistribution of the tax burden in Texas from the small home owner and farmer to certain natural resources; \$50 a month old age pensions, rural roads, aid to institutions for the mentally sick, veterans bonus, assumption by the State of the local bond indebtedness of school districts and the preservation of local self government in Texas.

Mr. and Mrs. E. M. Jones, Mrs. Lou Emma Jones and Mrs. Cora Lewis had business in Rotan last Wednesday and Thursday.
