

THIS WEEK ...
IN JAYTON

The weather has done a wonderful thing for the people of our community. It has provided a new conversation piece for us as we meet and pass on the street.

When we have a long siege of uneventful weather, it gets embarrassing to meet people on the street, because we have nothing to talk about.

I am fully convinced that women are some times unreasonable with men, and often ask unreasonable things of them.

As a matter in point, one day last week, my wife gave me a letter and asked if I would mail it, to which I agreed. Then three days later when she found the letter in my coat pocket, she seemed to be upset.

A few tempers have been running very high here in recent weeks about dog poisoning. At least two people have discussed this with the editor of the Chronicle.

One man, who was a bystander to the affair had this remark to make. He said "I think there is an especially hot corner in hell reserved for dog poisoners."

One father of five children, who had their pet poisoned, said he wished the one responsible could have seen the sad faces of his children.

Reports are that the city trash hauler has picked up the dead remains of eight dogs recently, presumably that had been poisoned.

Stray and prowling dogs are at times quite a nuisance, but there are better ways of disposing of them. Poisoning is a serious offense in the sight of the law, not to mention the haphazard and promiscuous way it works, and the danger of children getting hold of it.

Dog poisoning proves itself that it is evil and subversive. It is always done under the shades of night and in the spirit of anonymity.

Our son Charles called us Wednesday, and he was really thrilled. He had been given an expense-paid seat on the chartered plane the Tech basketball team was taking to Alabama to play Auburn and the University of Alabama.

He will report the games for the college paper of which he is managing editor.

He said "This is one of my greatest thrills."

Lucius Johnson ran across this piece of wisdom in a paper that he reads and has asked that it be reproduced here:

Ten Laws of the Highway
Thou shalt hold nothing but thy steering wheel... neither a baby on thy lap, nor a babe in thy arms.

Thou shalt not make unto thee a god of thy horse power.

Thou shalt not take thee center lane in vain.

Remember the driver behind to help him pass thee.

Honor thy father and thy mother and all of thy passengers.

Thou shalt not kill, not even a pedestrian.

Thou shalt not commit inebriated driving.

CHRONICLE

JAYTON, KENT COUNTY, TEXAS

THE JAYTON CHRONICLE, FRIDAY, DECEMBER 14, 1962.

\$20,000 In Grass Lease Bids Are Accepted By Commissioners Court

In a regular meeting of the Kent County Commissioners Court Monday, some 5,137 acres of Kent County school land in Martin and Dawson Counties were leased for grazing.

Making up 29 labors, the land lays on both side of the county line south west of Lamesa. The lease price ranged in price from 25c to 1.01 per acre. The lease will yield the county fund about \$4,000.00 per year, and runs for five years. The motion to grant these leases was made by Commissioner C. D. Dickerson and seconded by Commissioner G. L. Hamilton, and all members of the court voting for it.

What's a gym jam? A Salk hop? A sock shuffle? Do you give up? Want a translation?

All three are names of dances that will be held by teenagers across the country this January in honor of the 25th Anniversary March of Dimes.

The authority for this information is a blonde, hazel-eyed beauty who is national chairman of the Teen Age Program (TAP) of the National Foundation-March of Dimes.

She's Suzie Willett, 18, Wilmington, Del., a freshman at Russell Sage College, Troy, N.Y., where she is studying nursing. She became a March of Dimes volunteer several years ago because she "wanted to help people."

An enthusiastic worker, she traveled the state of Delaware and showed high school students how they could help carry out the March of Dimes programs to fight birth defects, arthritis and polio—a trio of cripples of concern to young people as well as to older age groups.

Is Top Tap This fall and winter, as the top TAP, she's been corresponding and talking with teens all over the country, advising them how they can make themselves useful in March of Dimes activities in their home towns.

"Just about all the teens I've met in my travels for the March of Dimes really want to do something constructive," Suzie says. "Most of them in TAP groups because this is them an opportunity to contribute to the life of their community."

"There have been several national surveys which show that Dr. Jonas Salk, who developed the killed-virus polio vaccine solely with March of Dimes support, is a hero to teens. It's easy to see why. Dr. Salk is a dedicated man, absorbed in his humanitarian work. Teens are very idealistic and they gladly give their respect to anyone who earns it."

"I'm going to be a nurse because I want a career that involves doing something necessary and useful. I've worked as a hospital volunteer and I know that I'll be happy helping patients who can't help themselves."

Suzie, the daughter of Dr. and Mrs. Albert V. Willett, Jr., spent last summer as a Candy Stripe volunteer in Delaware Hospital in Wilmington. Her father, a chemist, is an executive with the Du Pont Company.

"I'm aware that occasionally a tiny minority of teens get into trouble and make headlines," Suzie says, "but I'll bet that if they found work which they enjoyed, even this small fraction would stay out of trouble. I think that most of all, a teenager wants to feel respected and needed. I guess in that sense, we're no different from anyone else."

Popular Events Planned From telephone and letter surveys among TAPs all over the country, Suzie reports that the following TAP activities are shaping up as the most popular benefits for the 1963 March of Dimes:

FOR SAFETY'S SAKE

MAKE YOUR MEDICINE CHEST A HELP — INSTEAD OF A HAZARD! Is your medicine chest a catch-all for grooming aids instead of an efficient, first aid station? When someone in your family is hurt or needs something to ease pain, he doesn't want to rummage. He wants relief — fast! For safety's sake, reserve one or two shelves for antiseptics, bandages, and pain relievers. Whenever possible, keep bulky items and cosmetics in another convenient place.

WEED OUT OLD PRESCRIPTIONS — Throw away out-dated prescription medicines and pills. Pour medicines down the drain and rinse out containers before discarding them so that children or pets cannot get at them.

MEDICINE FOR CHILDREN — Don't give a medicine prescribed for one member of the family to another without your doctor's permission.

Safety in dispensing medicine has been aided by the recent development of children's analgesics in pediatrician approved dosages. Added protection is offered in the safety cap designed for Children's Bufferin which can be removed only with firm, adult pressure.

For absolute safety, keep medicines and other potentially harmful liquids and solids out of the reach of children at all times.

Girard PTA To Meet Dec. 20th

The Girard PTA will have its regular meeting on Thursday, Dec. 20 at 7:30 o'clock in the school auditorium with the Christmas program being presented by Mrs. Geary James' music class.

The Christmas program will be "Faith Through Moral and spiritual growth."

Teen Talk Translators Needed For Events in March of Dimes

Suzie Willett, 18, Wilmington, Del., is national chairman of the Teen Age Program (TAP) for the 25th Anniversary March of Dimes held, as always, during the month of January.

popular benefits for the 1963 March of Dimes:

- Dances head the list, ranging from informal sock hops to Silver Anniversary Balls, glittering events which call for formal gowns and gardenias.
- Street sales—there seems to be an endless supply of items which TAPs plan to sell. These include tiny plastic Rainbow Crutches, balloons, lollipops, peanuts, donuts and carnations, among dozens of other products.
- Auctions — club members auction off their services to the highest bidder for a day or an afternoon, working as secretaries, baby sitters, shoe shiners and the like.
- "I'm thrilled that TAPs are so willing to pitch in and work for the March of Dimes," Suzie says. "This just proves one thing I've felt for some time—most of today's teens are idealistic, and they are searching for ways to express their idealism."

Daughter of Former Jaytonite Is Married to Danish Nobleman

Dear editor: I am inclosing a copy of an announcement published in the Pasadena Star News. Since Jayton was my home town for some years, I thought this might be of interest to some of your readers. You are probably aware that Mr. and Mrs. Joe Earnest, grand parents of Sarah lived for many years in Jayton. My father passed away

two years ago and is buried in Jayton. Since I have lost contact with many of my former close friends, I am hopeful that this announcement will reach them through your paper. Should you publish this I would appreciate three copies, and please mail me the bill. Sincerely Frances Earnest Crisler, 510 East Colaveras, Altadena, Calif.

Ala. Funeral For Father of Local Lady

Funeral services for Mrs. W. H. Prince of Conway, Ark. was held Dec. 10 in Brimingham, Ala. Burial was in the Maple Hill Cemetery of Huntsville, Ala.

He was the father of Mrs. R. L. Harrison of Jayton.

Mr. Prince was 80 years old and left 101 survivors including the wife, Mrs. Lucy Prince of Conway, Ark. four sons C. H. Prince of Russellville, Ark. C. S. Prince of Idaho Falls, Idaho, J. R. Prince of Birmingham, Ala. L. E. Prince of San Francisco, Calif.

Nine daughters, Mrs. H. D. Emerson of Fort Worth; Mrs. R. L. Harrison of Jayton; Mrs. Charlie Barbee of Pasadena; Mrs. C. A. Ratramble of Corpus Christi, Mrs. Jack Rankin of Morgan City, La. Mrs. J. H. Hoover and Mrs. Wilma Stone of Odessa; Mrs. W. M. Chambers of Rena, Neva and Mrs. Jim Fitzgerald of Venezuela.

He is survived by 46 grand children and 42 great grandchildren.

Mr. Prince lived in and around Jayton from 1924 until 1937 when he moved to Arkansas and remained until his death.

Originally, plans were made for a wedding in California next year, but when it was found that the bride groom's parents were arriving on the East Coast in November and the count could be away from his official duties in Copenhagen for only a week, a trip to California was out of the question. Hence the ceremony in the First Presbyterian Church of Annapolis.

The bridegroom was visiting with Mr. and Mrs. Lewis Andrews at Tulip Hill on the West River near Annapolis and his hosts invited Ulrik's parents and the bride's parents and the bride to make their headquarters at Tulip Hill.

A bridal luncheon was given there following the ceremony and the guests were friends of the count and countess and of Mr. and Mrs. Andrews including the latter's friends in military and diplomatic circles whom they have known at posts throughout the world.

Mrs. Andrews was matron of honor and the groom's cousin William Heering of the well known Danish family and now studying in New York as Best man.

Following a honeymoon in Washington D. C., the Blue Ridge Mountains and New York City the young Count and Countess Ahlefeldt-Laurvig sailed Dec. 4 and will live at Langeland.

A reception is being planned by Ambassador William McCormick Blair jr. in the US Embassy to honor the bridal pair, and in January the American Countess will be presented at the Royal Palace.

Mr. and Mrs. Crisler plan a trip to Denmark in the spring to visit their son in law and daughter.

How to collect pictures of Presidents for fun...and freedom

Each of the seven denominations of Series E Savings Bonds shows a different President of the United States. If you're interested in this kind of art, the seven make a nice collection. Along with the hobby, Savings Bonds offer such extras as riskless investing, 3 3/4% more money at maturity, and financial freedom for your future.

But there are other kinds of freedom tied in with your purchase of Savings Bonds. Freedom to speak your piece, choose your job, and own your property, to

name a few. Every Bond you buy helps our government further the cause of freedom everywhere in the world today. Why not start collecting U.S. Savings Bonds now? Only \$18.75 each for the George Washington variety, at your bank or on Payroll Savings where you work.

Keep freedom in your future with **U.S. Savings Bonds**

CHEVROLET... on the road every day!

ITS RELIABILITY COMES FROM ITS QUALITY

A nutshell description of Chevrolet trucks could be
 "Trucks That Work". It's not exactly earthshak-
 ing but it says a mouthful. It's what Chevrolet
 trucks are best known for—their reliability. Ready
 to work, day after day, whenever you are.
 You can't build trucks that perform like this
 if you don't put quality into engine, chassis and
 body. Chevrolet does: double-wall construction,
 insulated cab, select-wood body floor, chain-
 supported tailgate, ladder-type frame, the careful
 attention to upholstery and finish. It's this kind
 of quality that makes any Chevrolet truck—from
 pickup to heavyweight tandem—worth more on
 the average at trade-in!

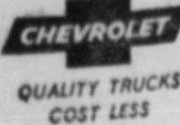

2 NEW 6-CYLINDER ENGINES

New High Torque 230-
 cu.-in. Six is more
 powerful than its prede-
 cessor. Standard in
 Series C10 through C50.

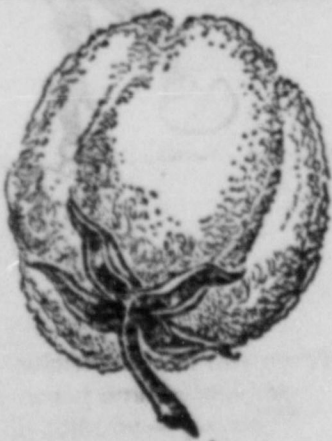

New High Torque 292-
 cu.-in. Six—most
 powerful truck 6 Chev-
 rolet has ever built!
 Standard in Series C60.
