

## JAYBIRDS GO FOR DISTRICT CROWN

### What Choices Mean In The Cotton Referendum

Basic program choices will be made by cotton producers voting in the Dec. 1-5 mail referendum on upland cotton marketing quotas, said W. E. Walker, Chairman of the County Agricultural Stabilization and Conservation (ASC) Committee.

A "yes" vote by two-thirds or more of the producers voting in the national referendum means:

Marketing quotas will be in effect for the 1970 crop. Producers who plant within their farm allotment will be eligible for a price-support loan of 20,25 cents a pound (for Middling 1-inch cotton at average location) on cotton they produce. They also will be eligible for a price-support payment of 16,80 cents a pound for the projected yield of cotton planted within the domestic allotment which is 65 percent of the total farm allotment.

Farms with allotments of 10 acres or less or farms with projected production (allotment times projected yield) of 3,600 pounds or less may receive a payment of 11,95 cents a pound on the projected yield of 35 percent of the farm allotment. They also will receive the price-support payment on the domestic al-

### Roll Hermleigh Fri 70-29

There was no doubt about it, the Jaybirds went on the field last Friday night to play ball, and that they did. Before the end of the first quarter they had entered the end zone with four touchdowns. After this Coach Newton, made it an interesting game, and did some good will work with the visitors, by substituting freely and letting the younger boys play

a lot, and letting the visitors score four times. The final score was 70-29.

This was one of the Jaybirds greatest triumphs in football since the eight-man days.

The Booster club voted that it was a team honor, and they would declare every member of the squad as "Player of the Week."

### Treat Family To Beef Curry

Hesitate to serve a curry to the family because it seems too spicy? Then remember that the secret of preparing curry that everyone likes is simply to learn the proper amount of curry to use. Start with a small amount and increase it each time you use. Make the dish until you reach the amount the family prefers. For many, curry provides a new experience in flavors. What's even nicer is that it can be very easy to prepare. This beef curry relies on succulent canned roast beef with gravy to shorten cooking time to a few minutes. The fully cooked canned meat is ready for heating and eating; and its nicely seasoned gravy blends with the curry to make luscious sauce. Fluffy hot rice and typical curry accompaniments add interest.

- Family Beef Curry**
- 1 small tart apple, pared, cored and diced
  - 1 small onion, chopped
  - 1/4 cup butter or margarine
  - 1 to 2 teaspoons curry powder
  - 2 cans (12 oz. each) roast beef with gravy
  - Hot cooked rice
  - Raisins, chutney, salted peanuts, etc.
- Sauté apple and onion in butter until tender. Add curry powder; cook 2 minutes more, stirring constantly. Add roast beef with gravy; heat. Serve on rice with desired accompaniments. Makes 6 servings.

### This Week In Jayton

If you are one of those who is bored with the simple life of a West, you should take a trip to New York City and particularly Manhattan Island. Undoubtedly is the mad of the world.

You can read about it, scenes of it on TV, and about it in any way what, but still you can not fathom how it is.

The day I went to New York City, I left Little Rock at 10:30 a. m. by American Plane, dropped down at Memphis, and then at LaGuardia Field at my first real knowledge of the City came when I took to Second Avenue and Street to the New York Building where my son, works on the 12th in the UPI office. If you never had an exciting New York Cabbie can it to you. He gives it

to you, weaves in and out of it, stops quickly, and is helpful about using his when anyone pokes along front of him, or gets too close. I had heard about how courteous and rough taking cabbies were, but this old that drove me, I guess see that his fare was a very boy, so he treated me. He even cautioned me to watch the traffic, as he led me on the center busy 42nd Street. The fare was \$3.90. Most cabs have their rates painted on the door, 45¢ for the first sixth of a mile and 10¢ each additional sixth of a

mile. In the NY United Press International office, it is very busy and crowded. This of touching the news pulse of the entire world. Yet there is a place of work, and not a place. Anything important all over the world, after it happens, it goes through this office.

There are experts in all kinds of news. One old fellow at an old desk, punched at old Royal typewriter for 40 years of age (the writer) writing with the pen finger, hunt and peck man. Yet, Charles told me one of the finest high-speed sports columnist in the nation, and the most re-

nown. Manhattan Island is about 26 miles wide and 13 miles long, but thereon lives more than 10 million people, in addition to all those who commute to work. The streets are jammed at this time. You have never seen such traffic jams as they sometime. But when they get the signal, they give it all gas, and drive at high speeds. Pedestrians are on the right of way, and THIS WEEK, Page 4

Stockton will leave by plane from Abilene this Tuesday the 19th for Nashville, Tenn. for a visit with the Dardons daughter and family, Lt. Col. and Mrs. W. H. Reservations already made for the show.

Thirty six Kent County Grand parents enjoyed a Thanksgiving dinner with turkey and dressing and all the trimmings last Thursday night at Fraziers Cafe in Aspermont. ### This Week . . .

From page one

they don't mind using it.

We hear about the swanky business on Fifth and Park Avenue, but this was a real disappointment. The entire sky-scraper district is dingy, dirty and extremely crowded. There may be a very nice store, and right beside it a digny, dirty, crowded pawn shop, a cafe, a grocery, or a coin op, laundry. Not more than one person in 25 would look at home on the streets of Jayton They are of all colors, races and creeds, and everyone in a hurry to get somewhere.

If you see a cafe and a restaurant, it it doesn't have its menu posted in the window where you can see the prices you had better not go in, unless you are on an expense account and have some one else to pay the bill. Everything in the East is at least fifty percent higher than in this part of the country. Food is about twice as high.

The subway is really something. They are underground, of course, with three levels of operations. As you descend the stairs to get into the sub system, you buy tokens for 20¢ each. Put a token in the turnstile, and go to the train a reas, and this entitles you to ride until you go back up ground. The boarding stations are about every three blocks. They have two trains going in each direction. One a local, the other a cross town express. People get on the express, until they get as close to where they are going as they can, and then transfer to a local. The boarding stations are about a half block long. And that is about the length of the trains. The trains pull up parallel to the station with about 10 to 20 cars. Each car has four doors on each side. The cars can be completely filled and jammed, and yet they unload and reload in from 10 to 15 seconds and the train is gone again. A car is never considered full. There are rows of benches along the walls. When they are filled, they stand and hold to straps, and they just keep jamming in, and unloading.

My son lived in Staten

Island. From the south end of Manhattan, near the financial district and Wall Street, you catch a ferry, for a nickel. The ferry goes out by the Statue of Liberty. Each ferry can carry some 50 cars and about 1000 people and they keep them shuffling, with one departing about every 10 minutes in the peak periods.

I could write reams and reams about the strangeness of this the world's largest city, but will not bore you with it.

But it is worth the price of a trip, just to see another completely different world. Most of you would be happy to get back to the quiet solitude of West Texas.

FOR SALE: Slow-Moving-Vehicle Emblems. By January 1, 1970, all slow-moving vehicles will be required to display an SMV emblem when operated on any street, dirt road, or highway. Telephone 806-657-2351. Big "Milford" Dendy.

Mr. and Mrs. J. E. Ewing of Tulsa and Mr. and Mrs. Price of Happy were visitors in the home of the Tommie Ewings, Sunday.

### It's Such a Big World

Some folks say that as we grow older the world grows smaller. Is that because of the wonders of modern communication and transportation? Or is it because when some folks grow older they become preoccupied with their own little orbit of life?

Junior certainly enters life completely preoccupied with himself. But once he begins to walk and talk—gosh how his world balloons!

That's why he needs the religious training our churches provide. His faith must keep pace with his burgeoning world.

And as grown-ups, in worship and Christian devotion, we need likewise the spiritual gifts our churches offer.

For it really is a big world. Full of challenges, opportunities, and promising tomorrows. It always looks that way to a grasping soul.
