

THE JAYTON CHRONICLE

VOLUME 39-- Number 46

Entered As Second Class

JAYTON, KENT COUNTY, TEXAS 79528

\$4.00 PER YEAR

Friday, April 10, 1970

This Week In Jayton

"Spring is wonderful" many people were heard to say here Monday. But Tuesday, they were just a bit in doubt as it appeared the wind might get started blowing.

April is the month for the "Dusters" to get going. The ground, generally, is in good condition and maybe dust will be at a minimum this Spring. We would like to think so, anyway.

State Representative R. E. McAllister talking one day this week about the prospects of the next session of the Legislature. He predicted a big fight over the sales tax and its status. He was wondering how much time at the session would be spent in getting down to the matter at hand, and how much would be spent in manners and on matters not to the public good.

Notice in the official State Ballot sent out by the Secretary of State that Governor Preston Smith is listed as residing in Travis County.

Prospects of politics in Crosby County are not very much this year. With only one contested county race and one race for Commissioner in Precinct No. 4, things are relatively quiet.

Kent County is one of the warmest in the area this year. They have two contested county wide races, and two contested precinct races and things are beginning to warm up.

One reason for this is that the Salary Schedule in Kent is one of the highest in the area.

The Girard HD Club Meets

The Girard Home Demonstration Club met April 1st in the home of Vera Rockwell at 8 p.m.

The president, Opal Swearingen brought the meeting to order. Neta Stephens read the minutes and gave roll call. (A good menu for a day). Lois Turner and Lois Simpson gave the program.

Three different low calorie recipes were served to eight members present, Mrs. McCaha, Ethel Clark, Opal Swearingen, Stephens, Turner, Simpson and the hostess, Vera.

The next meeting will be at the Community Center. Hostess will be Lois Simpson. Spencer Campbell will be the speaker. Time is 2 p.m. All are invited.

BOYS TRACK MEET

The Jayton Boys will attend the Boys District Track Meet at Snyder, Friday, April 10th.

Special Cotton Meeting Here Tuesday Afternoon

A meeting on cotton production will be held on Tuesday afternoon, April 14, at 2 o'clock in the County Courtroom. A team of Extension Service specialists will discuss various topics of interest for cotton producers.

Fred Elliott, agronomist, will discuss varieties, cultural practices and harvesting for yield and turnout. B. G. Reeves, an agricultural engineer, will discuss mechanical harvesting, ginning, and other mechanical problems. Entomologist Don Rummel will discuss insect control.

All cotton farmers are invited to attend and get the latest information on varieties, weed control, insect control, and harvest for high yield.

FRED ELLIOTT

Mrs. Louise Churchill of Crowell is visiting with her niece Mr. and Mrs. Leck Wall of Claremont this week.

This Week's Mystery

Do you know what this is, and where it is? If so be the first to call the correct answer to 237-3593 and get a year's reading.

On week before last mystery scene, an old house two miles southeast of Girard, near Highway 70, Vera Parker was the

first to get the correct answer. Others correctly identifying it were Roy Nance, Mrs. Buck Thompson, Jack Montgomery, Mrs. D. C. Scoggins, Grace Stanaland, and H. T. Stanaland Jr. of Coolidge, Ariz. also called in long distance.

Light Vote Is Cast In Trustee Election

A very light ballot, with no opposition greeted voters in the Jayton-Girard school trustee election last Saturday.

Only 43 persons took the time or trouble to go to the polls.

Five men were returned to the school board. Their names, with the votes are: Bill Parks 42, Buddy Gallagher 39, Bilby Wallace 41, James Long 40, and Ed Murrell 41.

BIRTHDAY

Mrs. Ab Ham celebrated her 85th birthday March 29th. Said she was doing fine and even though she was alone most of the time she was enjoying life.

TO HOUSTON

Euel Harrison, Johnny Davis and Jon Allen Kelley left Tuesday for Houston where they will attend a meeting with the General Crude Oil Company.

POLAR VISITORS

Mr. and Mrs. Ernest Ford of Polar Community were in Jayton attending to business Monday.

BACK HOME

Hartense North carried her mother-in-law, Mrs. North, home to Smyer, Tuesday after spending a week visiting with her and Mrs. M. S. Sandell.

Funeral For Mother Of Jayton Lady

Funeral services for Mrs. Sara Martha Havins, 77, mother of Mrs. Claud Senn of Jayton, were held at 10 a.m. Monday in Hammons Funeral Chapel in Lubbock.

Mrs. Havins died early Sunday in a Littlefield hospital.

Bob Wear, pastor of the Crecent Baptist Church conducted the funeral.

Mrs. Havins is survived by her husband, E. P.; three sons, Edwin of Odessa, Edward of Fort Stockton and Jimmie of Austin; four daughters, Mrs. Clara Senn of Jayton, Mrs. Inez Mendenhall of Lunday, Calif., Mrs. Marion Cline of Redding, Calif., and Mrs. Marie Key of San Angelo; three brothers, L. N. Yantis of Littlefield, Oscar of Stephenville, and Lawrence of Rotan; a sister, Mrs. Edna Gant of Cross Plains; 18 grandchildren and 21 great-grandchildren.

Louie Hilton Gets Award From Ford

Louie Hilton, service manager at Goodall Ford Sales, has received a Bronze Medallion Award presented by the Autolite-Ford Parts Division of Ford Motor Company in a program honoring Ford and Lincoln-Mercury dealer parts and service managers for outstanding achievement.

Mr. Hilton was presented his plaque and pin at a banquet in Dallas. In addition he received a \$50 scholarship to enable him to further his training in the parts and service business.

The Bronze Medallion Award is presented annually to those parts and service managers who are judged outstanding in customer service, sales and management ability, according to C. E. Reddick, Autolite-Ford Dallas district sales manager.

Luedecke Named A & M Chief

Major General A. R. Luedecke was named Acting President of Texas A & M University and The Texas A & M University System on March 30, 1970. Prior to his appointment as Acting President, General Luedecke had served since May 1968 as Associate Dean of Engineering at Texas A & M University. He was given additional responsibilities as Associate Director of the Texas Engineering Experiment Station in February 1969.

President Luedecke has had a distinguished career in the military and related fields. He is a native of Eldorado, Texas, and a 1932 graduate of Texas A & M University with a B.S. Degree in Chemical Engineering.

DOING BETTER

Last report received regarding Charles Parks is that he is making progress, even though it may be slow progress, it is good news.

NOT WELL

L. O. Lowrance is in the Aspermont Hospital where he is reported not doing too good.

County 4-H Food Show Here Sunday

You are invited to the 1970 Kent County 4-H Food Show. April 12th at the School cafeteria at 2:00 pm with the public tasting party at 3:30.

The Food Show culminates food projects 4-H girls have been working on during the year. At meetings with food project leaders the girls learn cooking techniques, grocery shopping, nutrition and the four food groups, kitchen safety habits, meal planning and working together. Junior high girls have studied foreign foods.

The following girls have participated in foods project groups:

Girard: Meeting with Mrs. Durwood Pickens, Mrs. Billy Ray Ballard, Mrs. Garth Gregory and Mrs. Jimmy Bural have been Cheryl and Lesa Pickens, Cathy and Lisa Ballard, Rena Bural and Patricia Gregory.

Mrs. Don Trammell has been meeting with the following Jayton girls: Kim Davis, Lisa York, Rhonda Williams, Pam Trammel, Kathy McMeans, La Donna Stanaland and Donna Wright.

Mrs. Carroll Johnson and Mrs. Bill Sartain met with Jayton 4th graders Janet Johnson, Danella Sartain, Elaine Gallagher, Sally Trevino, Sally Garcia, Jane Reed and Barbara Baker.

Red Mud- Mrs. Gordon Cravey: Lisa and Vena Lee Cravey.

At Claremont Mrs. Ken Panter was the project leader for Valrie and Julie Panter and Cathy Underwood.

Mrs. Bill Sartain and Pat Nilson have met with Jayton Junior High girls Penny Sartain, Nancy Sandlin, Barbara Grice, Tresa Smith, Cindy Garcia, Minette Geeslin and La Fonda Arnold.

These girls have worked hard and are looking forward to seeing you all at the food show.

Decoupage Workshop

Mrs. Nita Bennett, of Tandy's Handicrafts in Abilene, gave a decoupage workshop April 7th at the Girard Community Center, Mrs.

Bennett had enough supplies for the 37 people attending to actually make a decoupage as she explained and demonstrated each step.

A noon buffet was enjoyed by all as paint and glue were drying. Attending the

workshop were women from Jayton, Claremont, Snyder, Rotan, Spur and Crowell.

RESTING

A. R. Hilton is reported to have suffered an apparent heart attack over the weekend. Last report he was resting comfortably.

HERE FROM PANAMA

Mr. and Mrs. Harry Kaercher and Joey of Panama Canal arrived Sunday evening to visit with her parents the John Martin Johnsons.

Students of history can find vacation Bikeways, well-marked, through Abe Lincoln's country.

IN HOSPITAL

John Martin Johnson is in Methodist Hospital where he is receiving medical treatments.

BACK HOME

Bernadine Brownlee is home after spending quite some time in the Hamlin Hospital.

FT. WORTH VISITORS

Mr. and Mrs. Larry Cox and daughter of Fort Worth were here over the weekend to visit with his parents, the Marshall Cox.

Know Your Faculty

By Jayton High School Journalism Department

"I like kids and teaching is fun", stated Mrs. Lena Locke, Jayton's fourth grade teacher, who is a 1966 graduate of Texas Tech and holder of a BS degree.

A high school graduate of Portales, New Mexico, Mrs. Locke later attended Eastern New Mexico University for two years before attending Texas Tech. She is currently working on her Masters Degree at Southwestern State University of Oklahoma.

This is Lena's first year to teach at Jayton, but she has previously taught the third and fifth grades for a total of three years at Meadow, Texas.

Working as secretary, usher, and cashier for a movie theater in Portales, Mrs. Locke still found enough time for studies to become a member of the National Honor Society and a member of Who's Who of American High Schools while a student in Portales. Also, while attending college in New Mexico, she worked

at the University book store.

An active member of the Baptist Church and one who likes to sew in her spare time, Mrs. Lena Locke is the mother of Keith, 9, and Kim, 7, and she is the wife of Jayton High School's counselor, Mr. Duane Locke. Lena also has two brothers and one sister who live in Los Angeles.

We sincerely hope Mrs. Locke has enjoyed the past months at Jayton High School, and we wish to extend a hearty hand of friendship for a pleasant future.

Three Counties To Participate In 4-H Horse Workshop

Three counties will be represented at a 4-H Club Horse Shortcourse at the 4-H Barn at Claremont, April 10-11. Club members from Kent, Dickens, and Stonewall Counties and their adult leaders and parents are invited.

B. F. Yeates, Extension Service Horse Specialist, will conduct the shortcourse. Yeates is a native of Dickens County and graduate of Patton Springs High School. He is an approved judge for several horse breed associations

and has served on several state and national committees for various horse associations.

The shortcourse will begin Friday night with a session on judging, type, and conformation. Two classes of horses will be judged and demonstrated to the 4-H members and leaders.

The Saturday session will include demonstrations on showmanship, performance classes, and timed events.

Kent Due New Venture

American Petrofina Co. of Texas will drill No. 1 L. C. Harrison in the Wallace Ranch, Northeast (Noodle Creek) Field in Kent County.

THE planned 3,900-foot venture is 5 1/2 miles southwest of Jayton. It spots 660 feet from the south and west lines of Section 67, Block 98, H&TC Survey.

The Wallace Ranch, Northeast (Noodle Creek) pool gained its third producer and a 1/2-mile south extension with completion of American Petrofina Co. of Texas No. 3 Claude Senn.

It was finalized to pump 14 barrels of oil and seven barrels of water per day, through perforations at 3,867.74 feet, after acid treatment with 1,000 gallons. Gravity of the oil was 36 degrees.

It spots 2,066 feet from south and 1,150 feet from west lines of Section 66, Block 98, H&TC Survey.

SISTER VISITS HERE

Thursday visitor in the Lee Parker home was Mrs. Parker's sister, Mrs. Pat Byrum of Anton.

HERE FROM OKLAHOMA

Mr. and Mrs. Charles M. Bryant and three sons of Oklahoma City are here visiting her parents, the James C. Kidds for a few days this week.

School Board Meets 9th

The Jayton School board was to have met Thursday night at 6:30 for a special meal, preceding their monthly meeting at 7:30.

In observance of National FHA Week, Mrs. Katherine Owen and the Future Homemakers prepared a special meal for the board personnel. On the agenda was the item of approving the election results, and certain minor adjustments in the budget.

Supt. R. N. Pierce said Wednesday he was not expecting any unusual action to come from the meeting, but just the handling of routine matters.

HAMLIN VISITORS

Mr. and Mrs. Charlie McIlwain of Hamlin were visiting her parents the Bud Avants over the weekend.

VISITING

The Bud Avants and Bill Parks visited with Charles and Kathleen Parks in Hillsboro last Wednesday and Thursday.

ON SICK LIST

Lucille Kyle was on the sick list with a cold this past week.

Girard Potshots

Easter visitors in the home of Mrs. Ruth Spradling were her son and family, the Elvis Spradlings of Ropesville and Mr. and Mrs. Gene McWaters from Paris.

Visiting the Alton Clarks over the Easter Holidays were Alton's sister, Mrs. Elsie Lundy from Borger and Mrs. Una Hunnicut of Jayton and the Shorty Clark family from Lubbock.

Mrs. Lewis Williams from Spur visited in the home of Mrs. George Darden on Monday, March 30th.

How time gets away! Here it is April. If the cold weather ever permits a little sunshine, there will be many folks digging in their gardens.

Due to bad weather, the local "Quilting Bee" at the community center has slowed down for a few days—but now back in full swing.

About a mile north of Jayton on Highway 70 we counted 100 coyotes hanging on fence posts, a sight that most folks never see in a life time. We understand that the wolves were caught by greyhounds in the Free State of Kent. Anyway, when you drive down near the Kent County capital, drive slow and count the coyotes. The first time we counted 'em there were 54 and on last Tuesday there were 108.

Mrs. M. A. Darden is in the Aspermont Hospital. She was taken there last Tuesday and is some better at this writing.

Made two hospitals last Friday; the wife had minor surgery in the Rotan hospital; then on to the Aspermont hospital to see my mother. While in Rotan at the hospital the wife talked with Mrs. Clemmie Carr, who was there to see her doctor. Mrs. Carr was on her way to Clovis from Sweetwater for a visit with her sister. For many years Mrs. Carr lived in Girard, but has lived several months in Sweetwater.

School trustee election was held at the community center last Saturday; gotta' notion that not very many people knew about same, as there was little or no publicity pertaining to said election.

Mrs. Tom Cooper of Spur visited her sister, Mrs. Matt Darden in the Aspermont hospital last Thursday and Friday.

Charles Parks of Jayton, who suffered a severe heart attack in Hallsboro while visiting in that city has been reported as still critical at this writing.

Visiting Mrs. Ted Darden last Friday were her brother, Virgil Beadle from Ruidoso, N. M., Mrs. Jess Beadle from Roswell, and Mr. and Mrs. Chester Beadle from Artesia, N. M.

It seems that the folks are not getting so worked up over the senators race thus far. Lloyd Benson is making a "Big Splash" via TV and radio and Ralph Yarborough seems unconcerned with reference to his opponent; maybe Republican Bush will live up things in the general election in November.

Mr. and Mrs. George Willis visited friends in the Aspermont hospital last Saturday, in addition to other friends in that city.

Howard Darden from Lubbock visited his mother in the hospital in Aspermont last Saturday, he also visited brother, George and wife in Girard.

Folks in this "neck of the woods", who receive social security checks appreciate very much the 15% raise on the April checks. On the other hand, some gripes about the suggested raise in

stamps and parcel post. Maybe so a case of robbing Peter to pay Paul-----or "Dog eat dog."

Election officials for the trustee election held in Girard last Saturday were: MRs. ORwin Stephens, Ju dge and Mrs. Jake Swarengen and Mrs. C. V. Hagar, clerks.

Another Kent County pioneer, Ott Lawrence of Jayton is seriously ill in the Aspermont hospital.

Mr. and Mrs. David Williams from Amarillo visited her parents, the Logan Williams last week end. Her mother, Mrs. Logan Williams went home with them and for a check-up with her doctor in Amarillo.

Mrs. Lela May Williams is visiting for a couple of weeks in the home of her parents, the Henry Stiles in Girard. Her home is in Borger.

From the Free State of Kent, that's about it until next week.

THE FAMILY LAWYER

Gambling at Home

Seated at a kitchen table, the home owner and his next-door neighbor were intent upon their little game of poker. But a passing policeman, glancing through the window, decided they were breaking the law and placed them under arrest.

At the trial, the prosecutor told the court: "What makes their game a crime is the fact that they were playing for money. It so happens that gambling is against the law."

Nevertheless, the court found the men not guilty. The judge said gambling is not criminal if it takes place within the "sanctity" of the home.

Most anti-gambling laws do make an exception, either expressly or by implication, for the private home. The theory is that, within these limits, society should not mix in.

However, even a private home may become "public" enough for the community to become concerned. Consider this case:

A home owner and his family went away for a vacation, leaving a house guest on the premises. The house guest promptly threw the place open for dice and poker games, with all comers welcome.

In short order he was arrested, tried, and found guilty of violating the local gambling ordinance. The judge said the mere fact that the gambling took place within a private residence did not change the public character of the activities.

What if the gambling takes place on private premises, but not within the house itself?

Generally, it is a matter of degree. In one case, a farmer and his cronies did their gambling in a storage building, about 250 yards behind the farmhouse. When arrested, they claimed the immunity of a private residence.

However, the court could not see things that way. Finding them guilty as charged, the judge pointed out that the building 1) had no furniture, and 2) was never used for sleeping. Its mere physical nearness to the farmhouse, said the judge, was not enough to confer upon it the special "sanctity" of a real home.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Eleven meetings are slated on the High Plains for the week of April 13 to explain a soybean referendum to producers in 11 counties. These meetings are required prior to a certification by the state commissioner of agriculture for the Texas Soybean Association to conduct such a referendum.

Purpose of the referendum is to raise funds with which to conduct programs of education, research, disease and insect control and marketing relating to soybeans. The referendum calls for an assessment of one-half-cent per bushel of soybeans produced.

An educational program will be conducted at each of the meetings to explain the provisions of the referendum

KENT -- General Crude Oil Co. completed two wells nine miles northwest of Clairemont in the Salt Creek (Canyon Reef) Field.

No. 193-9 Salt Creek Field Unit spots 500 feet from the north and 750 feet from the east lines of Section 193, Block G, W&NW Survey.

Daily potential was 275 barrels of 40.4 gravity oil, plus 118 barrels of water. Flow was through a 22-64-inch choke with 180 pounds tubing pressure.

Production is from perforations at 6,488 to 6,503 feet, treated with 750 gallons of acid. The 7-inch casing is set at 6,579 feet, one foot off bottom.

Other well is No. 193-11 Salt Creek Unit, 1,100 feet from the north and 2,100 feet from the west lines of Section 193.

It had a daily potential of 41 barrels of 37.7 gravity oil, plus 48 barrels of water. Flow was through a 24-64-inch choke with 200 pounds tubing pressure and perforations at 6,454 to 6,570 feet. The 7-inch casing is set at 6,626 feet.

Total depth was 6,630 feet, plugged back to 6,597 feet.

Attend The Church of Your Choice

Close-up of a nerve?

THE CHURCH FOR ALL... ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

No. It's just a rope... at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle."

The Church has never claimed that religion is a cure for frayed nerves. But a man's Christian faith does this for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted... he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

Women's Page

pantry patter

By Pat Nilson, CHDA

Cereal grains are our best sources of thiamin or B1, and good sources of the other B vitamins. These vitamins and iron are found in outer layer, the bran, of grains. If grains are highly refined as white flour or polished rice, the nutrients are lost due to the removal of this outer portion. By 1941, there was evidence that many Americans were suffering from a lack of B vitamins and an enrichment program was started in May, 1941. "Enrichment" means thiamin, riboflavin, niacin and iron have been added to cereals and grain products. Whole grain cereals will not be enriched because the bran was removed during milling. If a food is enriched it will be stated on the package or sack. Most flour and cereal have had these nutrients added, but some have not. When buying groceries, look for "enriched" on the label, especially of packaged mixes of breakfast foods and desserts.

Breakfast cereals add flavor and variety in texture to many foods. When added to meatballs and meat loaves, they help keep them moist.

One cup of ready to eat cereal equals 1/4 to 1/3 cup of crumbs. Add a crunchy texture to foods by using breakfast cereals in the following ways:

As crisp coating for meat,

poultry or fish--in place of bread crumbs or flour.

As topping for casseroles--combine crushed cereal with melted butter and seasonings.

As croutons--use unsweetened puffed corn, puffed wheat, or bite-sized pieces of shredded wheat, corn or rice.

Combine with melted butter and grated Parmesan cheese or herb seasoning. Use on tossed salads or hot soups.

As a crunchy coating for cookies or biscuits--or as a dessert topping.

This week's recipe using Vitamin B was contributed by Mrs. Don Trammel of Jayton.

OATMEAL CAKE

Put in bowl and let stand 20 minutes:

- 1 1/4 cup boiling water
- 1 stick butter
- 1 cup raw oatmeal

Add:

- 1 cup white sugar
- 2 eggs
- 1 1/4 cup flour
- 1 cup brown sugar
- 1 tsp. soda
- 1/2 tsp. cinnamon

Mix together by hand and pour into greased floured loaf pan. Bake at 35 minutes at 350 degrees.

ICING FOR CAKE

Heat together:

- 1 stick oleo
- 3/4 cup sugar
- 1 cup coconut
- 1/4 cup canned milk
- 1/2 tsp. vanilla

1 cup pecans
Let come to a boil. Leave cake in pan. Pour icing over top of hot cake and put under broiler for a few minutes.

All creation, from whirling atoms to blazing suns, proclaims the existence of God.

Any trip with a baby requires a certain amount of paraphernalia, but with a little careful planning you can keep it down to a minimum and make the trip much easier.

A baby thermometer is also a useful item to take along. And be sure to take the name and telephone number of the baby's pediatrician in case of emergency.

April 5-11 Acclaimed National FHA Week

April 5 through 11 has been designated NATIONAL FHA WEEK. During this week members of Future Homemakers of America, homemaking students in junior and senior high schools, will carry out special projects and activities designed to share their experiences and achievements with family, friends, and neighbors.

The theme chosen for this year's National FHA Week is "25 Years of Sterling Opportunity," tying in with the objective for this 25th anniversary year of Future Homemakers of America, "To Promote Communication for the Improvement of Human Relationships."

Mrs. Betty Romans, State Advisor, points out that several million young people have been challenged by the unlimited opportunities offered through membership in Future Homemakers of America over the 25 years since its establishment as a national organization. "They have had an opportunity to grow as an individual," she stated, "to contribute to home and family living develop leadership and cooperation, open doors of service to others, prepare for a vocation or profession, make new friends, find new experiences, gain an understanding of others, make creative and constructive use of leisure time,

GROOVY LITTLE TRAVEL IRON irons out vacation wardrobe wrinkles in minutes. It goes to work anywhere, on both 120 volt AC or DC and 230 volt AC. For overseas use the traveler need only flip a switch, and iron away! Folding handle and cloth bag. By General Electric.

Guide: This castle has stood for 600 years. Not a stone has been touched. Not a thing has been altered, absolutely nothing has been replaced.

Visitor: Sounds as if they have the same landlord as we have.—*Billy Shiver, Perry, Fla.*

Quiz: Why can't a bike stand up by itself?
Whiz: Because it's two-tired.—*Rosemary Monagle, Medford, Mass.*

Farmer: Well, how does he smell?
Farmer: Simply terrible.—*William Atwell, Brooklyn, N.Y.*

A very bad golfer talking to his caddie: How do you like my game?
Caddie: It's OK, but I like golf better.—*Brian Goodykoontz, Livonia, Mich.*

Nash: Why are hurricanes named after girls?
Robert: Because girls can talk up a storm.—*Raymond Duncan, Tyler-town, Miss.*

Nothing attracts Mustard from wieners As quickly as slacks Just back from the cleaners.—*Mark Santee, Richeyville, Pa.*

Daffynishion: Crowbar—Fountain where crows drink.—*Joey Hille, Burien, Wash.*

You can lead a horse to water, but you can't make him put on a bathing suit.—*Tommy Risdal, Delta Junction, Alaska.*

Young bride: Oh, darling, I'm going to cook and darn your socks.
New husband: Just darn them, please.—*Allen Abbott, Goldsboro, N.C.*

An applicant tried his best to fill out a long employment form. On the feel free to talk to me as if I were your father.
Private: Hey, Dad, can I use the jeep tonight?—*Craig Penas, Carrrington, N. Dak.*

Nab: Do you know Wayne Newton?
Bisco: No, but I think I know his brother, Fig.—*Bruce Beynon, Mitchell, S. Dak.*

Daffynishion: After-dinner mint—What you need when the waiter hands you the check.—*Bruce Blackwell, Bartlesville, Okla.*

Little Johnny, who never before had seen a dish of gelatin dessert, stared as it quivered. "Go ahead and eat it," his mother ordered. "Eat it?" questioned Johnny. "It isn't even dead yet."—*Craig Guilbad, Canton, Ohio.*

Mickey: I'm a little short of money this week. Do you think you could spare a buck?
Donald: I don't have a buck. Would a little doe do?—*Larry Clark, Independence, Mo.*

Nervous woman bus passenger: Driver, that man sitting across from me is crazy. He keeps muttering that he's George Washington.

Driver: I'll take care of this, madam. (Raising his voice.) ALL OUT FOR MOUNT VERNON!—*Mark Atherton, Dexter, Iowa.*

Abby: Did you hear about the pig that had eight piglets one day and seven the next?
Julius: No, what happened?
Abby: One died.—*Gary Moree, Fort Lawn, S.C.*

"It's his favorite hobby."

Ask Amy

BY AMY ADAMS

WHEN IS A MAN CONSIDERED OLD?

Dear Amy:
When, in your opinion, is a man considered old? I'm a man in my early fifties and feel no different than I did 10 years ago. Our family doctor said a man is middle-aged in his forties.

Herman:
You're never old if your hair turns grey.
You're never old if your teeth decay.

But, brother, you're headed for eternal sleep.
If your mind makes a date that your body can't keep.

Dear Amy:
I have been married only a short time (7 months). My husband and I lived with his parents for almost the whole time. When we got a place of our own, it was very different.

Dear Amy:
I like your ASK AMY column in the local newspaper, and I, too, want your help. Several years ago, I stayed in town at my friend's house so I could get to work every day as I lived about 12 miles from my work. I had to go to work to support my family and myself for my husband was a drinker and quit work at 48. During my stay at my friend's house, a man in the neighborhood always came over to play cards with them and he fell for me. My friends, he and I went to the movies and he also took me to dinner. Soon he was getting too serious. I stayed out of his way and wouldn't see him.

Recently my husband started acting peculiar. I decided to find out what was wrong. I caught him in the arms of another woman. Now he wants out!

I still love him but he does not love me... so he says.
Do you think he will do it again? Shall I let him go? Your advice is needed because we are both so young... in our teens.

This was almost 10 years ago. My husband passed away 3 1/2 years ago and he must have just found out. Now he started to come to the factory where I work. He has been there 3 times in two days. I don't want to see or have anything to do with him. The bosses help me to get away after work to avoid him.

Dear Newlywed:
No one can guarantee your husband will be faithful to you in the future. But if you love him and ever hope to be happy with each other, I suggest you both visit the Family Counseling Service for help with your marriage. Men who marry before they are emotionally ready need all the help they can get.

I can't stand him and I am living a clean and peaceful life and I want to keep it this way. Should I put him under a peace bond if he doesn't leave me alone? He is a disgrace.

Mrs. M.P.

Dear Amy:
I'm writing to you in answer to the letter written by a Marine who wanted to know if an unseen girlfriend could love him. May I say my situation was about the same except I am the girl.

I met some nice people who asked me to write their son in the Army because we were both developed a friendship like none other and as the months flew by, I began to realize that I had grown to love this unseen person very much. I argued with myself that it wasn't possible, and he also did the same.

Finally we admitted we had grown to love each other and

waited anxiously for the day we would meet.

It is now four years later and we are married happily and have a fine son. We still marvel at the events that brought us together, and we are also very grateful. I sincerely hope this Marine and his 'love' find real love and happiness as we did.

George Mahon Discusses The New Farm Bill

Congressman George Mahon reports that the most frequent question which comes to him from West Texas farmers is: Without question, Mahon says, the new farm program will have a vital effect not only on farmers but the entire economy.

For months Mahon has been working in close contact with farmers and farm groups and with members of the House Committee on Agriculture in an effort to make progress toward a new farm bill.

The House and Senate Committees on Agriculture have conducted extended hearings with officials of the Department of Agriculture and others. Some progress has been made but details of the new program are still unpredictable.

The prospect is that the House Agriculture Committee will present a bill to the House for action in April or no later than May.

Mahon says that a permanent type bill is widely favored by farmers and that he prefers this course but that at this time it appears that a program of three years duration is most likely.

The trend is toward a program financed at about the same general level as the present program. Many technical provisions of the bill which nonetheless affect the producers in a very direct way are being debated in the House Committee but there is no way to predict the final outcome of the legislation.

First, there must be action by the House Agriculture Committee, then by the House itself, then by the Senate Agriculture Committee and the Senate itself. Thereafter differences between the House and Senate bills must be resolved in conference.

"There is a long road ahead," Mahon said, "but action within the next few weeks on the House version of the bill should shed some light on what the final version of the new farm law will be like."

Mahon states that the new farm program will continue to be top priority with him. He says that the Committee which he heads plans to present to the House in late May the annual appropriation bill for the financing of the USDA and all farm programs.

He feels that it is highly desirable that the bill for the new program pass the House before the appropriation measure is considered.

MAVERICK. \$1995*...it's a little gas.

*Ford's suggested retail price for the base Maverick model. White sidewall tires are not included, they are \$30 extra. Since dealer preparation charges (if any), transportation charges and state and local taxes vary, they are not included, nor is extra equipment that is specially required by state laws.

Our little Maverick is America's best selling small car. The reason is simple—solid value. Maverick is simple to drive. Turn on the engine and you turn loose the power of 105 horses. Yet Maverick rivals the economy imports in gas mileage. Simple to park. Maverick can U-turn in a tighter circle than the leading import. Simple to service. Maverick requires fewer oil changes, fewer chassis lubrications. You save time and money. Simple to repair. The Maverick Owner's Manual has 24 pages of instruction for routine maintenance jobs you can do yourself. Simple to own. Save right from the start—the Simple Machine is your Ford Dealer's lowest priced car.

For a little more...it's a GRABBER!

The new Maverick Grabber has all the same features as our Simple Machine but we've added an extra sporty flare to it. Here's what Grabber gives you: 1) Racy bodyside tape stripes, choice of five hot Grabber colors, 14-in. whitewall tires and wheel trim rings. High excitement, yes. High price, no. 2) 200 CID Six and 3-speed fully synchronized manual transmission. Lots of pep, but not hard to tune. Grabber adds to your fun, not your mechanical problems. 3) Dual racing mirrors. But no high "muscle car" insurance rates. 4) Three-spoke woodgrained steering wheel just like the racing cars. But no hard, stiff ride. Grabber's sprung for comfort, not for the track. 5) Black-painted hood and grille. Grabber puts on a great front, but maintenance costs are low. Service is fast and simple. With lots you can do yourself. 6) Rear deck-lid spoiler. Even an economy car can dream, can't it?

MAVERICK Ford

THE NEW MAVERICK GRABBER IS AT YOUR FORD DEALER'S NOW.

For more information about Maverick, see your Ford Dealer or write: Maverick Catalog, Dept. N-21, P.O. Box 1503, Dearborn, Michigan 48121.

Goodall FORD Sales - Jayton

PLANTING POTTED ROSES

With the growing popularity of roses grown in containers, a few simple directions for proper planting might be helpful.

Roses grown in containers can be planted anytime from frost-free spring throughout the summer.

As is necessary with any other rose, plant in a sunny, well-drained location. Make the hole large enough so that the bud union will be one inch below the ground level and wide enough to accommodate the potted plant. Slit the container before removing the plant, being very careful not to disturb the ball of soil around the roots.

Carefully set the plant in the hole. Any roots that are coiled on the outside of the ball of earth should be straightened out.

Half fill the hole with soil, then water. When the water has disappeared, finish filling the hole around the plant ball with soil and pack. Leave a shallow depression for future watering when necessary, and give a final watering.

It is not necessary to mound soil around potted plants.

1—Slit container and remove. Be careful not to disturb ball of soil around roots.

2—Carefully set plant in hole which should be deep enough that bud union will be one inch below the ground level.

3—Half fill hole with soil, then water.

4—When water has disappeared, finish filling hole with soil and pack. Leave depression around plant as in picture for watering when needed. When leveled the bud union will be slightly below ground level.

HANDSOME PLANT OFFERS EDIBLES

A formal herb garden is decorative and practical too. Form the edging into squares and you have individual pockets of soil for the plants.

If a free-form herb garden is more to your liking, choose a sunny location and lay the steel edging in a pattern that pleases you. It can be in the shape of a corkscrew or ever widening circles, for example. Fill in with soil and rake the surface even. Since

many herbs are easy to grow from seed, choose low growing ones for the outer areas and taller herbs for the middle or central portions. Try seeds of basil and dill combined with plants of thyme, rosemary and chives.

An elegant strawberry patch is easy with steel edging. Place a circle of edging half-way in the ground and fill it with soil. Place another smaller circle in the center of the larger one in pyramid fashion. Fill that in with soil and then top it with a third layer. Plant the strawberries in each mound for a charming decorative effect.

BASEBALL

BY PETE FRITCHIE

Washington, D.C.—Baseball needs a few stars with charisma and color and this year's spring training spotlights the void in this field. The old-time flamboyance of a Dizzy Dean, a Babe Ruth, a Ty Cobb, is missing.

The game hasn't lost them forever, they will appear again, but now they are absent. Denny McLain is out of commission. Mickey Mantle is retired. Ted Williams and Joe DiMaggio are active but not as the great stars they were.

zannies would lighten the scene, produce a few smiles.

The talk today is about strikes and the owners and the Supreme Court and Curt Flood refusing to play, etc.

But the Yankees are building back slowly and with more teams and four divisions in the Majors characters are certain to appear here and there. Baseball has always been fun for many of its players—not all and perhaps not even a majority—but there have always been many who have admitted they would play for nothing, if necessary.

Travel-Iron Is At Home Abroad

This summer, whether vacation means a two-week package tour in Europe, a jaunt to old Mexico, or even a stay at a breezy resort on domestic shores, the vacationer can keep her wardrobe looking neat at all times. Only 28 ounces, and a few inches long, General Electric's groovy little travel iron is designed to take a minimum of space in the traveler's suitcase. It will press pants and blouses anywhere.

If it's gay Paris, or even London Town, where the voltage is commonly 230 A.C., the traveler need only flip a switch and iron away! For travel inside the U.S.A., the little iron operates on 120 volt

Idleness is the mistress of wanton appetites, and fortress of lust's gate.

—John Northbrooke.

Of all our faults, the one that we excuse most easily is

idleness.

—La Rochefoucauld.

Idleness is the root of all evil.

—George Farquhar.

Clean Clothes when you have an electric water heater!

Hot, hot water washes whiter. Always plenty of it, too, for all other household needs. Flameless • Economical • Dependable • No flues • No vents

Often men's white shirts that are still wearable have a dingy, limp look. A hot-water, full-cycle wash may take out that greyness. But wash them only with other white fabrics because some man-made fibers pick up color from garments that normally don't bleed. There's help for the limpness too. Magic sizing, sprayed on as you iron, adds like-new body and finish to perk up those dingy shirts.

ROGENE'S FLOWERS

Impala '400' Sale.

You save when you buy it. You save when you drive it.

When you buy any Impala V8 model during our "400" Sale, here's how you can get two popular extras at no extra charge.

You order your Impala equipped with a Turbo Hydra-matic transmission, radio, Comfortilt steering wheel, front and rear bumper guards and white stripe tires. Items you'd probably order anyway.

Then we add our big 400-cubic-inch V8 at 265 hp that runs on regular gas, along with dual exhausts—both at no charge. (The manufacturer's suggested retail price including Federal excise tax for the regular fuel 400 V8 and dual exhausts is \$93.75.) But that's only the beginning. Because your Chevrolet dealer is really anxious

to deal these days.

And the Impala you're buying, of course, got to be America's No. 1 car, because of all the value features built right in. Features like flush-and-dry rocker panels that fight rust. Inner fenders to protect the outer fenders. Long lasting bias ply tires, steel guard beams in every wheel for added protection, an acrylic lacquer finish over its solid Body by Fisher. All of which contributes to Impala's traditionally high resale value, too.

You're getting America's No. 1 car on sale. The car more people buy—year after year after year.

How can you beat that?

Putting you first, keeps us first.
