Texas Governor Signs Crop Production Plan

A program to increase agricultural income by more than a billion dollars by 1976 has been announced by Texas Extension Service Director John E. Hutchison. This plan calls for \$3.76 billion in total cash receipts from agricultural crops in Texas by the end of the 1976 crop year.

Texas presently accounts for about five percent of the total national agricultural cash receipts. Livestock and livestock products account for over half of all agricultural cash receipts in Texas. With the next few years, this figure will approach 70 percent of the total.

Cotton continues to be one of the three top cash crops in Texas. The future potential cotton can be enhanced by the use of multiple row equipment, mechanical and chemi-

cal weed control, and continued production for market demand.

Total production for Texas vegetables will increase because of mechanized production, hybrid varieties, freezing-canning and more efficient marketing.

Aquaculture is a new Texas industry. Catfish and shrimp farming offer potentials as new or expanding industries. Recreation, fishing, and hunting represent areas of unlimited potential.

The "3.76 in '76" effort is for the development of the full potential of Texas agricultural industry. Recently Texas Governor Preston Smith and Extension Service Director Dr. John E. Hutchison made plans for this state-wide program with an official proclamation of 3.76 in '76 in Texas.

New WTU Manager Moves To Jayton

Dayton L. Jackson, WTU serviceman in Santa Anna for the past seven years, has been transferred to Jayton where he has assumed his new duties as local manager. He has succeeded Lanier Foster who was transferred to Aspermont in November.

The new Jayton local manager joined WTU in March, 1964, as a serviceman in Santa Anna and before joining WTU Jackson was employed by the Santa Anna Silica Sand Co. He was born in Coleman in 1943 and is a 1962 graduate of Santa Anna High School. He served 4 years with the Texas National Guard.

Mrs. Jackson is the former Joyce Ford. The Jacksons were married in 1963 and are the parents of two children; Michele, 6; and Wesley, 3. They are members of the

Dayton Jackson

Methodist Church where he has served as a member of the official board.

Jackson served two years as Chief of the Santa Anna Volunteer Fire Department; he has been an active member of the Quarterback Club; and has been serving as a team manager in the Santa Anna Little League program.

Jaybirds Falter On Road To District

Even though big Jim Phillips dumped in 30 points, it was not enough, and the Jayton Jaybirds saw their title hopes fade away, as they lost Tuesday night to Flomot 92-75. They could figure out no way to stop Alvie Calvert who burned up the basket with 45, and David Hunter who came

in with 35. While this was happening McAdoo was beating Guthrie 73-35. Only a miracle now could help the struggling Birds.

The girls kept their hopes alive as June Brewer was flying high to lead the Lady Jays to a 47-29 victory over the Flomot girls.

Kent Bond Sales Show Sharp Incline

December sales of United States Savings Bonds in Kent County were \$2025,000, according to County Bond Chairman Judge Bobbie T. Gallagher. Sales during 1970 totaled \$12,278,000 which represents 61 per cent of the yearly sales goal of \$20,000,000.

Texans purchased \$14,698,804 in Series E and H Savings Bonds during the month. Total Bond and Freedom share sales for 1970 were \$181,582,787

for 101 per cent of the state's goal of \$179.9 million. Seventy counties and seven districts in Texas have achieved their 1970 sales goal.

Nationwide, sales of E and H Bonds during December were \$384 million for an increase of 11.1 per cent over December 1969 sales. Total cash sales of E and H Bonds for 1970 amounted to \$4,665 million—6.2 per cent above 1969.

Where Is It?

This week's mystery picture is familiar to many Kent county residents. Be the first to call after 1 p. m. on Friday, and get a year's free reading. No guesses will be accepted before then, or in person.

Lee Parker Gets The Mystery Picture

There were some "Sooners" this week who called before 1 p. m. on the mystery house. Lee Parker was the first one to call after 1 p. m. Friday with the correct answer, the Cooper house northeast of Girard. Others calling were Mrs. Bill Harrison, Darrell

Long, Ben Boland, Raymond Hooper, Laura Arnold, Estelle Luna, Royce Stanaland, Tommy Sanders, Amanda Harris, Eva Hahn and Louis Smith. Try again this week. You might be the one to get the line first. Thanks alot.

Student Is Honored

Roger Wilson Pierce of Jayton earned "Distinguished Student" ranking at Texas A&M University.

The undergraduate honor is awarded students who have excelled academically. "Recipients must earn at least a 3.25 grade point ratio (out of a possible 4.0) during the grade period. In addition at a 3.25 or higher GPR, a student qualifying for "Distinguished Student" honors must have been enrolled in a minimum of 12 hours and have no grade lower than a "C".

"Distinguished Student" ranking is limited to 10 percent of Texas A&M's undergraduate enrollment.

Pierce, a junior geology major, is the son of Mr. and Mrs. R.N. Pierce of Jayton.

"Those who expect to reap the blessings of freedom must undergo the fatigue of supporting it."
Thomas Paine Sept. 12, 1777

"We, the People of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

This short paragraph - the Preamble of the Constitution for the United States of America - states in one sentence the intentions of the men who wrote it. Not many would find themselves in disagreement with the proposed objectives, but from the beginning there has been disagreement over the laws which would be necessary to fulfill these objectives. Some of this disagreement arises out of the tendency of many of us to look at everything in the light of our own personal desires, ambitions and material gain.

In order to be able to properly evaluate laws, either those now in force or those being proposed, we need to take a more impersonal point of view and try to think more in terms of "WE, the people of the (WHOLE) UNITED STATES."

From The Recipe File Of Opal Richards

THIS IS MY "Surprise" Recipe . . .
YOUR BASIC MIXTURE

6 cups all-purpose flour 1 1/2 teaspoons salt
1 1/2 teaspoons Baking Soda 3/4 cup shortening

1. Sift, then measure flour. Sift three times with salt and baking soda.
2. Cut shortening into dry ingredients until it is as fine as coarse corn meal.
3. Store in tightly covered container in refrigerator. Use as needed to make the following recipes. This mixture may be kept on hand for many weeks.

CINNAMON NUT WHIRLS

4 cups Your Basic Mixture* 2 tablespoons melted butter
1/2 cup granulated sugar 1/2 cup brown sugar, firmly packed
1/2 cup sour milk or buttermilk (about) 1/2 teaspoon cinnamon
1/4 cup finely cut nuts

Note: If 1/4 cup sour milk or buttermilk is not available, a substitute may be made by placing 1 tablespoon lemon juice or vinegar (preferably white vinegar) in a measuring cup, filling 3/4 full with sweet milk or diluted evaporated milk, and mixing well.

Mix Your Basic Mixture with the granulated sugar, and enough sour milk or buttermilk to make a soft dough. Turn onto lightly floured board. Knead slightly. Roll dough 1/4 inch thick. Brush with melted butter.

Spread with mixture made by adding the 2 tablespoons melted butter to the brown sugar, cinnamon and nuts. Roll firmly into the dough.

Cut in strips 1 x 6 inches. Using two strips of dough, place one on top of the other, sugared side up, and twist together. Bring ends together to make circle. Bake in greased shallow pan.

While hot, glaze with thin icing made from 1/2 cup confectioners sugar and 2-3 teaspoons water. Sprinkle with finely cut nuts.

Amount: 6-7 rolls. Temperature: 475° F
Time: 10 minutes.

See how easy it is to twist dough made from Your Basic Mixture into these appetizing sweet rolls.

Tea Ring

1/2 cups Your Basic Mixture* 3/4 cup sour milk or buttermilk (about)
1/2 cup granulated sugar 1/2 cup brown sugar, firmly packed
1/2 cup sour milk or buttermilk (about) 1/2 teaspoon cinnamon
1/4 cup finely cut nuts

Note: If 1/4 cup sour milk or buttermilk is not available, a substitute may be made by placing 1 tablespoon lemon juice or vinegar (preferably white vinegar) in a measuring cup, filling 3/4 full with sweet milk or diluted evaporated milk, and mixing well.

1. Thoroughly mix Your Basic Mixture, sugar and grated orange rind. Add enough sour milk or buttermilk to make a soft dough. This may take 1 tablespoon more or less milk.

2. Turn onto lightly floured board. Knead slightly. Roll into rectangle 1/4 inch thick. Brush with melted butter. Spread with Orange-Pineapple Filling. Roll as for jelly roll. Cut into slices 1 inch thick. Place in greased baking pan. Bake.

Amount: 10 rolls. Temperature: 475° F
Time: 18-20 minutes.

ORANGE PINEAPPLE ROLLS

2 1/2 cups Your Basic Mixture* 1 teaspoon grated orange rind
1/2 cup granulated sugar 1/2 cup brown sugar, firmly packed
1/2 cup sour milk or buttermilk (about)

Note: If 1/4 cup sour milk or buttermilk is not available, a substitute may be made by placing 1 tablespoon lemon juice or vinegar (preferably white vinegar) in a measuring cup, filling 3/4 full with sweet milk or diluted evaporated milk, and mixing well.

1. Melt butter, add flour and mix well. Add orange juice, rind and pineapple and cook until very thick, stirring constantly. Remove from heat, add sugar and mix until sugar is dissolved. Cool.

ORANGE-PINEAPPLE FILLING

1 1/2 tablespoons butter 1/4 cup drained, crushed pineapple
2 tablespoons flour 1/2 cup sugar
1/4 cup orange juice 1/2 cup sugar
1 teaspoon grated orange rind 1/2 cup sugar

1. Melt butter, add flour and mix well. Add orange juice, rind and pineapple and cook until very thick, stirring constantly. Remove from heat, add sugar and mix until sugar is dissolved. Cool.

To make dough for ONE DOZEN BISCUITS

1. Add enough sour milk or buttermilk (about 3/4 cup) to 2 1/4 cups Your Basic Mixture* to make a soft dough. This may take 1 tablespoon more or less milk.

Note: If 1/4 cup sour milk or buttermilk is not available, a substitute may be made by placing 1 tablespoon lemon juice or vinegar (preferably white vinegar) in a measuring cup, filling 3/4 full with sweet milk or diluted evaporated milk, and mixing well.

2. Turn onto lightly floured board. Knead slightly. Roll 1/2 inch thick and cut with floured biscuit cutter. Prick with fork.

3. Place biscuits on ungreased baking sheet. Bake.

Amount: 12-2 inch biscuits. Temperature: 475° F. Time: 12-15 minutes.

EARLY DAYS

Rules Strict, Tasks Many For Teacher

By TANNER LAINE
Avalanche-Journal Staff

THE LATE George R. Bean, who was a schoolteacher in the Red Mud community below the Caprock before he became one of Lubbock's early attorneys, often said he was amazed at the improvements and innovations in the school teaching profession through the years.

The pioneer pedagogue would indeed be impressed with current developments which range from coffee breaks to teachers' aides, who take the pupils out for playground exercise, and to the cafeteria at lunch, spelling the regular teachers.

It would be interesting to post in teachers' lounges today some rules issued by a principal in the 1800s:

—Teachers each day will bring a bucket of water and a scuttle of coal for the day's sessions.

—Teachers each day will fill lamps, clean chimneys and trim wicks.

—Make your pens carefully. You may whittle nibs to the individual taste of your pupil.

—Men teachers may take one evening each week for courting purposes, or two evenings a week if they go to church regularly.

—After 10 hours in school, the teachers should spend the other two reading the Bible or other good books.

—Women teachers who marry or engage in unseemly conduct will be dismissed.

—Every teacher should lay aside from each pay a goodly sum of his earnings for his benefit during his declining years so that he will not become a burden to society.

—Any teacher who smokes, uses liquor in any form, frequents pool or public halls, or gets shaved in a barber shop will give good reason to suspect his worth, intention, integrity and honesty.

—Any teacher who does not smoke, labors faithfully and without fault for five years, will be given an increase of 25 cents per week in his pay — provided the board of education approves. Wow!

COLOR-SCHEMING COTTONS—Coordinated cotton prints in shades of rich chocolate, licorice, and white set the theme for this distinguished setting. Cotton in a tiny black and brown leaf pattern covers the lower part of the dark wall. The same print with an overlay of white blossoms re-appears on the sofa and in tie-back curtains. Completing the decorative window treatment is a white shade banded in black and brown textured braid. The only color accent: sofa pillows in bitter green.

DECOR-BUILDING COTTONS—Fabric can set the atmosphere in any room. Here, a cozy corner in a den-TV room is created by using nubby-textured cotton in a distinctive cane print for chair cushions and full draperies. By Desley Fabrics, the 54-inch cotton has a stain-repellent finish.

Driving CAN Be A Pleasure Again!

Remember when a weekend drive was something you did for fun? How everyone looked forward to piling into the family car for a leisurely Sunday drive to look at the scenery, visit friends? You could wheel along enjoying the view without tensing up over some driver determined to tailgate or revving his engine to speed past you.

Not any more, you say. Times have changed. Weekend driving has become something to endure only if absolutely necessary. On a holiday weekend, you are further unnerved by publicized projections of doom—how many people will be killed on the highways that weekend. Instead of the spirit of the open road, driving is more of a *specere*—something that must be endured.

According to the Atlantic Companies (Atlantic Mutual Insurance Company and the Centennial Insurance Company) w/ Americans are responsible for more deaths on the highway than on all the battlefields of all the wars we've ever fought! More than 5 million people—about the population of two cities the size of Los Angeles—were killed or injured on our highways last year.

Does it have to be that way? No. Believe it or not, you CAN make driving a pleasure again if you, and every man or woman behind the wheel follow the unusual checklist recently released by the Atlantic Companies. It lists things we should avoid; the steps we can take to lengthen our driving pleasure instead of shortening it.

Try the following... it may add years to your life span:

DO ... Test that new car under all conditions—before you buy. Is it comfortable? Easy to park? Can you see in all directions? Controls within easy reach? Does it suit all of your intended purposes?

DO ... Consider renting a similar model before buying.

DO ... Equip your car for every need. A mirror for the right side as well as the left. Bumper guards to prevent those nicks and bumps.

DO ... Review brakes, wipers, horn periodically. Even if your car passed inspection within the past year, it may not be safe today.

DO ... Have your windows and headlights cleaned every time you buy gas.

DO ... Examine tires frequently for balance, worn treads and inflation. For safety and convenience, studded snow tires may be worth their weight in gold on ice-slicked streets and in snow country.

DO ... Adjust your driving to meet special conditions. Different driving defenses are called for in morning get-to-work traffic, snow, fog, winding roads, poor street surfaces. Creepers can be as hazardous on the road as speeders. And if you merely want to watch the scenery, take the less-traveled scenic route or, better yet, be a passenger and leave the driving to someone else.

DO ... Plan your trip. Be certain of every part of your route.

DO ... Start early. Drive long distances only when you are rested and traffic is light. Avoid those busy-time, busy-area rush hours.

DO ... Decline that one "for the road." Know your capacity. Better still, if you drive, don't drink unless its coffee.

DO ... Break up your trip with frequent stops. You'll cover more miles—and enjoy them more, as well.

DO ... Stay alert on super-highways. Those many directional signs demand your full attention.

DO ... Sound off to the appropriate traffic department and local newspaper about worn, defaced or obscured

road signs.

If the courtesies of the road can be brought back, there's no doubt that the casualties of the road can be rolled back. After you've equipped yourself, your family and your car for enjoyable driving, Atlantic's way, there's only one more thing necessary to bring back the enjoyment of driving.

DO ... Your part.

What role do the sun's ultraviolet rays play in molding the earth's weather?

Ultraviolet rays from the sun are short wave rays which, curiously, tend to heat the earth's equatorial zone more than the polar zones. This has a great effect on the winds which circle the earth, as can readily be seen, because heat is a producer of wind and cloud.

Generally speaking, when the sun's ultraviolet rays are more numerous than usual, the greater area of the United States is due for stronger west-east weather movements and wetter weather.

Fewer ultraviolet rays from the sun mean warmer and drier weather for most of the country.

Land Bank Announces Interest Rate Drop

John C. Storey, Manager of the Federal Land Bank Association of Spur, received word this week that The Federal Land Bank of Houston has reduced the interest billing rate on variable rate loans to 8%, "this reduction affects more than 90 million dollars of variable rate loans to more than 2800 farmers and ranchers throughout Texas," Mr. Storey stated.

The variable rate loan plan which was introduced by the Houston Bank in July 1969 lets the interest rate "float" over the variations in the money market. In large measure, therefore, the rate in any specific year will reflect the changes in prices which the Bank must pay for the money it makes available for farm mortgage loans.

Storey pointed out that this action is in line with the Bank's policy in providing farmers and ranchers credit at the lowest possible cost consistent with sound business practices.

The Federal Land Bank of Houston makes long term real estate loans on farm and ranch lands throughout Texas. On January 1 of this year, the Bank had over \$529 million in volume of loans outstanding.

The local association makes and service loans in Dickens, Kent and Stonewall Counties. Members of the local board of directors are; M. L. Bilberry and B. F. Hoy, Stonewall County; M. V. Jay and Tom Wilson, Kent County; C. P. Witt and Coy Morris, Dickens County.

NEWS OF SCIENCE

Dr. Alexander White Spears, III accepts the Award for Distinguished Achievement in Tobacco Science from Ross R. Millhiser, President, Philip Morris U.S.A.

More Research Planned
"The Tobacco Industry is committed to research as a means to develop quality products and scientifically resolve the many unanswered questions that remain in controversy," a group of eminent tobacco chemists was told recently.

Ross R. Millhiser, Philip Morris U.S.A. President, made these comments before a group of several hundred scientists attending the 24th Tobacco Chemists' Research Conference in Montreal.

Addressing himself to Tobacco Industry critics, Millhiser illustrated the industry's commitment to research by pointing to the \$6 million Philip Morris Research Tower, currently under construction in Richmond, which will double the Company's tobacco re-

HEALTH AND BEAUTY

One of the finest boons to beauty and health is available to everyone—and at no cost. Planned exercises taken for at least ten minutes each day is the answer.

As simple as this may sound, doctors tell us that this is one of the hardest principles of self-discipline. Even people who can stick to a strict diet find it impossible to do planned exercises.

Perhaps the modern rush we all face each day saps so much of our energy that there is no energy left to take exercises. However, if you get into the habit of exercise, it will increase your backlog of energy.

search capacity.
Millhiser appeared before the tobacco chemists' conference to present the Philip Morris award for distinguished achievement in tobacco science to Dr. Alexander Spears III. Dr. Spears is Director of Research and Development of Lorillard Corporation.

Dr. Spears, 37, was chosen to receive the Philip Morris Tobacco Science Award for his scientific achievements in fundamental and applied research in the fields of tobacco, tobacco smoke and filtration of tobacco smoke.

Exercise increases your circulation, tones up the muscles and improves the color. It redistributes weight or keeps excess weight from forming the undesirable parts of the body.

There are a number of disorders which respond to increased amount of exercise. Of course, there are many ailments which make exercise harmful. For this reason, it is a good idea to consult a doctor, if you are over the age of 40 before you begin any intensive exercises.

If you have a figure problem, find an exercise tailored to help you and work at it.

When is a pound like more than a pound? When it's a pound of coffee with chicory.

Housewives fighting inflationary food prices, take note. The bit of chicory blended into some brands of coffee acts as a flavor amplifier. It does such a good job of bringing out the rich, full body of coffee, that you can use smaller amounts — and still get the same amount of coffee with chicory, get many more extra cups — at a considerable saving.
