All District Team

The 5-B Football All district team was heavy with Jayton Jaybirds, and two Jaybird squadmen made the team going both ways, offense and defense. They were Alfonso Trevino as offensive guard and defensive end, also Parker Kidd as a running back on the offense and linebacker on defense.

Other Jaybirds making the mythical honorary team were: Offense, end, Tommy Parker; tackle, Jim Phillips; and quarterback Brad Dibrell. Defense, Harold Judy, back. Honorable mention, were Phillips and Bill Parks on defense; and on offense Judy and Brad English.

Jayton School Gets Southern Accreditation

Jayton Junior-Senior High schools of Jayton have been continued as an accredited school by the Commission on Secondary Schools of the Southern Association of Colleges and Schools.

The action was taken at the annual meeting of the Association held November 28-December 1, 1971, in Miami Beach, Florida, and was announced by Principal Ralph W. Newton and R. N. Pierce, superintendent of the school. Membership in the Association is official recognition

that a school is committed to school improvement through the accreditation process. Each member school periodically conducts a thorough self-study and is visited by teams of competent educators who help to determine the school's strengths and indicate areas needing improvement. Only those schools which voluntarily enter into these self-improvement programs and commit themselves to compliance with accepted educational standards are admitted to membership.

School Board Meeting

A regular monthly meeting of the Jayton school board of trustees is scheduled for tonight. (Thursday)

Several important matters are on the agenda. One of which is to open bids on the carpet to be installed in the high school. "Our recently installed carpet in the elementary school is looking most favorable", Supt. R. N. Pierce told members of the board.

A matter to be discussed is Christmas bonuses for school employees. They received \$75,000 last year, but this is determined from year to year. The board will be told that the State has approved! About half of \$10,132.91 of funds requested for the Auto Mechanics shop. Also the board will set the fee to be charged for work done in the department.

On painting, flooring and lighting to be done soon, Pierce told the board he thought some money could be saved by negotiating with

local labor, rather than importing it from Big Spring or other points, where high hourly rates are charged, and high mileage costs are also charged.

At the November meeting of the board, it was voted to install a count-down type score board at the football field for the next season, with no outside advertising, and with the Student Council and the National Honor Society sharing the cost.

Also a motion passed to accept the building program, and to enter into contract with architects for plans on remodeling areas as presented.

The meeting will get under way at 7:30 in the board room.

The Roscoe Tournament

Jayton boys played a good game Saturday night to win the Backland-Divide Tournament in Roscoe.

The Jaybirds won their first game in the tournament by defeating Bronte Thursday evening by a score of 49 to 41.

Friday the Jaybirds beat the Lorraine Bulldogs by a score of 55-45 to advance to the signals of the tournament.

By the outstanding rebounding of Jim Phillips and a field goal by Parker Kidd with about 12 seconds on the clock the Jaybirds beat the Hawley Bearcats 51 to 50. The leading scorer in the game for Jayton was Brad Dibrell with 20 followed by Harold Judy and Jim Phillips with 11 each. To finish out the team we had good efforts from both Tom-

mies, Johnson and Parker. Brad Dibrell made the all tournament team.

The Lady Jays played very good basketball but not good enough to beat Roscoe.

The girls won their first game of the tournament by defeating Bronte 67 to 54.

They played Roscoe the second game of the tournament and was defeated by a score of 44 to 37. There was not a third place given in the tournament so the lady Jays were eliminated.

CARD OF THANKS

Many, many thanks to our friends and neighbors for being so thoughtful and kind during Buck's stay in the hospital. The visits, telephone calls, flowers, cards, just everything. Words cannot express how grateful we are. Thanks again. Buck Thompson and Family 45-1tc

Fisher Co. History

A 208 page History of Fisher County has just been released. This book deals with the area including southern Kent County during Indian period and should prove interesting to residents of this area.

Several years work has required in research and interviews and all portions are recorded, covering Spanish expeditions in 1514 to the present time.

In addition to text many interesting pictures are included. Limited supply is available at Jayton Chronicle office.

CARD OF THANKS

I want to thank the people of Jayton and Girard for their thoughtfulness and helpfulness shown to me and my children during my stay in the hospital. The gifts received then and later, are greatly appreciated. May God Bless each and every one.

James Baker Reassigned

Army Sergeant James D. Baker, 21, son of Mr. and Mrs. James S. Baker, Jayton, recently was assigned to the 2nd armored division at Ft. Hood.

Sgt. Baker is a squad leader with headquarters company, 2nd Battalion of the Division 41st Infantry.

The soldier was graduated in 1969 from Jayton High School and attended West Texas State University at Canyon.

CARD OF THANKS

We wish to thank each one of our friends who had a part in the observance of our 50th anniversary. We appreciate the lovely gifts very much, but more than that we appreciated the friendship and love expressed by the gifts.

Once again many thanks, Adolphus, Bertha and R. A. Moreland Jr.

Stanley Seeks New Term

Kent County Sheriff R. J. Stanley has authorized the Chronicle to announce that he is a candidate for another term to the office.

Stanley served one year of the unexpired term of Bob Gallagher, who was appointed county judge. At the time he was appointed, he immediately ran and was elected to a full term in office.

Stanley told the Chronicle that he has done his best to perform the duties of office of Sheriff and Tax Collector, and to do a good job, and he would appreciate being reelected to

a new term.

He will make a formal statement at a later date.

One way to extend the Christmas spirit throughout the whole year is to capture happy Yuletide moments on home movie film. The model 233 Compact Camera from Bolex is ideal for this purpose. It weighs only 21 ounces, slips easily into pocket or purse, uses the big Super 8 film, and with zoom lens and automatic electric eye, almost anyone can get professional results without fuss or bother.

Miss Duncan had many new ideas for Christmas decorating with materials that are available in most households. Of course she used lots of electrical lights in her decorations to make them more colorful and to give them a glow of Christmas cheer.

There were also good ideas for wrapping foods to be given as gifts; Annette had delicious breads, cookies and candies all specially wrapped for the holidays. The recipes are available in the Extension Office. Why not pick up a recipe and bake a special friend a loaf of Holiday Nut Bread?

TERRACE MAINTENANCE
By Carroll Johnson

Would you, as a farmer, buy a new tractor and simply run that tractor until it quit without any thought about upkeep or maintenance? How long do you think that tractor would last without changing the oil and filter, grease jobs, tune ups and replacing worn out or broken parts? Probably not very long, and for that reason you take proper care of your tractor. But what about terrace system? The terrace system you may neglect probably cost as much or more than your tractor and will in a sense, "wear out" the same as your tractor and requires replacement if not maintained. On the other hand, a terrace system that is maintained properly will last you indefinitely.

Terraces will work down after a few years of normal plowing and need to be plowed back up every year or so to maintain their height and do the job they were intended to do. This can be done by using either a breaking plow or a one way plow. Using either plow you should start plowing in front of the terrace and plow up the slope toward the terrace until you reach the top of the terrace. Plowing both front and back slopes of the terrace. Some farmers start plowing too far out in the interval between the terraces and after a few years will end up with a dished out effect between the terraces. This especially true if you use a one day to do your plowing.

All breaks in terraces should be repaired before you start plowing and this is a good time to clean up any silted areas and put this material in the breaks. End blocks should be repaired and built back up if needed. One of the functions of your terraces is to conserve moisture and if the end blocks are not in good repair

the terraces cannot serve this function.

Good plowing habits such as plowing with the terrace instead of plowing across them will make your job of terrace maintenance much simpler.

If you want any further information or assistance on terrace maintenance contact your local Soil Conservation Service personnel in the Court House in Jayton.

"Dad, could I borrow the key to the refrigerator?"

A London newspaper published the following conversation between a visiting American and an Eton school master, with the usual assurances of its absolute truth:

American: "Do you allow your boys to smoke?"
Eton master: "I'm afraid not."
American: "Can they drink?"
Eton master: "Good gracious, no."
American: "What about dates?"
Eton master: "Certainly, as long as they don't eat too many."

"The glasses are straight, all right -- it's your head that's crooked!"

The George Dardens visited with his father M. A. Darden.

UNKLE ZEKE

They is things about folks in this country that is wonderful and sneaky at the same time. One of em is that we can laugh at anything, and another is that we can sell anything. I was thinking about these two the other day while I was helping the old lady clean out the pantry.

She says gitting the pantry straightened out ever six months is a all-day, two-man job, and I believe her. While she moved 15 year old preserves and canned beans from one pantry shelf to another she was listening to the radio. I had to choose between her chatter about everthing under the sun and the radio, and I found that if you can dial a station that ain't got all that prunting and hollering you can learn a lot from radio without even looking at it.

But what I liked beside the news was the music. I don't mean the regular music. I mean the music in the commercials. They was one real good tune that was set to a beer commercial, and cars and loan companies got some pritty good music. This one announcer must like em to, cause he played the beer music all the way thru out without the words, and he said he gits requests for "No Matter What Shape Yore Stomach Is In," which he said was music fer prutt to take when you eat to much.

Then this nice ballard come on the air. Soft playing guitars, and this feller starts singing about worms. Yessir, it was a song about a dog wormer, but if you jest listened without paying attention to the words it come thru a heap easier on the ears than the lead yelled out by lead airplanes and iron butterflies. That pritty worm music made me relize that jest a dash of sass is all a feller needs to peddle anything we can think on and make.

I thought how selling and asking is tied so close. I saw a piece in the papers where the TV commercials that got the best results was the funny ones, like the talking stomach and them extry long cigarettes that used to git caught in potter's wheels and everthing afore the Government decided they was doing their selling job to good fer the good of the country's health.

Actual, Mister Editor, it probably is a blessing that we can find fun in so much. I reckon in some cases we laugh to keep from cracking under the strain, like the feller that says he's fer President Nixon cause he's keeping us out of Northern Ireland. I see Georgia says she owns a chunk of North Carolina and Tennessee, but nobody will take Georgia serious, which may be the best thing, cause what would happen if she does? The North Carolina legislature passed a law giving the governor power to declare war to preserve the border, but the governor won't.

The "sahara" means "Sahara desert" "desert desert."

A group of amateur cave explorers entered a huge cavern, "know," remarked one, "something of a post-holiday for me." "Come!" he was asked. "A dentist."

Our high-pressure clear systems come from the northwest. This high pressure, giving one a feeling of mild exhilaration and a cheerful mood, is especially welcome in the early fall after the hot humid weather of late summer.

So, in a general sense, a northwest wind is a sign of cheerfulness and "business" weather.

What goes on?

"What goes on in the beauty parlor? Bet you hear all the gossip in town." That's what my husband says.

Well, I'll admit it — there is talk. When people get together — whether in a beauty parlor, a barber shop or, in the old days, around the cracker barrel in the general store — tongues start flying. It is human nature to talk, to criticize, to complain.

But isn't it refreshing to hear something good about someone? Sometimes it takes a lot more strength to say something good than something bad! Sometimes it takes more strength to stand up and be counted as a churchgoer than it does to sit on the sidelines, espousing neither faith nor cause.

Which side are you on? If you're not sure, why not cast your vote for the Church? Try it next Sunday.

Poem Of The Week

By FLORA SMITH DEAN

WINTER POSES

Paper red as roses
And green as waxen leaves;
Paper that is golden,
As wheat, in shining sheaves;

Just cut out bits of paper
That friendly hands can take,
And with wire and paste and vision,
A flower likeness, make;

We know they're just a likeness,
But they cheer our winter hours,
And when there's cold and ice and sleet,
We have no other flowers!

As It Looks From Here

By Rep. Omar Burleson
Member of Congress, Texas

PROFESSIONAL SPORTS ARE A WAY OF LIFE for many Americans. Sports-minded people have much to enjoy, either as a spectator at games or looking at contests on television.

After the World Baseball Series ended, College and professional football moved in and are now nearing the end of their season. Professional basketball is very popular in the East, Midwest and in the Mid-southern states.

Sports activity can provide much needed respite from the tensions and worry that responsible men and women feel when they apprise the affairs of a troubled world and as they face daily demands of routine living. Sports could seem to be one of the few remaining fields where revolutionary change is not present.

The fact is, however, that professional sports are now in the midst of litigation that could bring radical change in its structure and in some ways threaten its very existence.

The United States Senate is now conducting hearing on a bill which would allow professional basketball to merge its two leagues into one. This would require separate legislation since professional basketball as well as professional football, boxing and most other sports are covered by anti-trust laws. The laws prevent competitors from inhibiting competition. The Sherman and Clayton Acts outlawed price-fixing, boycotts, mergers resulting in monopoly and collusive bidding. These laws applied to most, but not all industries. Among those excluded is professional baseball.

The exemption for baseball goes back to 1922 when Justice Oliver Wendell Holmes ruled that "baseball was not engaged in interstate commerce, but was only giving exhibitions which were purely a State's affair." In 1922 there was no television. Radio had not

BLACKBERRY MERINGUE CAKE

Be ready for compliments when you serve this impressive Blackberry Meringue Cake. The golden cake layers are put together with rich, dark raspberry preserves, then the cake is covered with a snowy almond meringue and baked until it is lightly browned.

Of course, if you prefer a different flavor for the filling, it's a simple matter to substitute another jam or preserve such as apricot, strawberry, raspberry or grape.

Blackberry Meringue Cake

- Cake:
- 2-1/4 cups sifted cake flour
 - 1 teaspoon double-acting baking powder
 - 1/8 teaspoon salt
 - 2/3 cup butter or margarine
 - 1-1/4 cups sugar
 - 1-1/2 teaspoons vanilla
 - 4 egg yolks
 - 2/3 cup milk
 - 1/2 cup blackberry preserves

- Meringue:
- 4 egg whites
 - 1/8 teaspoon cream of tartar
 - Dash salt
 - 1/2 cup sugar
 - 1/2 cup ground almonds

with milk. Mix until well blended. Pour into 2 greased and wax paper lined 8-inch layer cake pans. Bake in a moderate oven (350°F) for 30 to 35 minutes or until done. Let stand in pans for 10 minutes. Remove from pans; cool on wire racks. Put layers together with blackberry preserves.

For meringue, beat egg whites with cream of tartar and salt until mixture forms stiff peaks. Gradually beat in sugar. Continue beating until mixture forms stiff peaks. Fold in ground almonds. Frost sides and top of cake with meringue. Bake in 350° F. oven for 5 to 7 minutes or until lightly browned.

Mod Mom Bazaar

The MOD Moms have decided to hold another bazaar, on December 13th in the foyer of the court house. They will have many baked items as well as handmade items that will make your Christmas shopping

easy. They are taking special orders on baked items such as cakes, cookies, etc., but none will be taken after the 10th of December. They hope to have better

weather this time. To place orders call 237-3043 or 237-2336.

Professional sports are big business. Some athletes in football, baseball, basketball and, of course, boxing, draw salaries of six figures and a few close to one million dollars.

Ball club owners claim that their business is different from ordinary industries and should not be subject to the same legal limitations. Their reason is that they employ a comparatively few people who are specialists and for a relatively short time. Second, they depend on the loyalty of fans for

profit. They say this loyalty could be destroyed if players were permitted to leave and go with another club during a mid-season and go from team to team as a better opportunity came along.

Undoubtedly, there are inequities that must be settled to protect the rights of players, those who have invested in teams, and particularly the public. Professional sports must have a high and respectable appearance.

Important decisions have to be reached and soon.
