## Health Fair Is Set For Friday

A "Health Fair" was held in the Kent  
County Community Center at Jayton on  
Friday, March 12, from 10:00 a.m. until  
6:00 p.m.

Blood pressure was taken by  
representatives of the Department of  
Health and the Texas Heart Association.

Hemateocrits, T.B. screening and  
Diabetes screening was done by the  
Texas Department of Health.

There were educational exhibits and  
films on lung cancer, heart disease, and  
breast cancer as well as an emergency  
medical unit.

The health services were free of  
charge and the results of the screening  
and blood pressure will be given later.

The fair was sponsored by the Texas  
Agricultural Extension Service and the  
Kent County Family Living Committee.  
Many volunteers from the county helped  
with records and registration and  
members of the family living committee  
furnished workers a covered dish  
luncheon.

## Letter to Editor

Dear Editor,

I'm hoping you will print this letter,  
because I feel it concerns everyone  
involved in our School System.

There has been talking of ousting two  
of our coaches and I think it is time to let  
the coaches and trustees know how we  
feel about it. Even though their contracts  
have been renewed, they may not be  
signed, because not enough people are  
willing to stand behind our coaches and  
at the same time say to our school board,  
"we do not want these men and their  
families to leave."

As far as I'm concerned, there has  
never been a better group of coaches to  
work with our kids. The student body as  
a whole likes and respects these men and  
what is more, they are learning  
sportsmanship. It is a shame a lot more  
of our adults can't take lessons in this.

Please help me to convince these two  
men and their families, that we do  
appreciate their hard work and all of the  
things they do for our kids. Students,  
this plea includes you as well as your  
parents!

This isn't meant to hurt anyone's  
feelings, but I do believe in speaking out  
for what I believe is right. We have a  
fine school and it is up to everyone of us  
to do our part in keeping it that way.

Sincerely,  
Sheila Chisum

- Beat well and add...
- 2 eggs, one at a time beating after each addition
- 1/2 cup chopped pecans
- Grease and flour two 1 lb. coffee cans. Fill each half full and bake approximately 1 hour at 350 degrees. Remove cake from cans immediately.

Letter to Editor

Jayton Chronicle - I look forward to getting The Jayton Chronicle every Friday. Keep sending it another year. I like the school news and the 4-H club news. I would like a few things about the Old Timers. Best wishes to all my friends at Jayton. Thank You Mrs. B.J. Kellett

ABOUT YOUR HOME

By April Rhodes

It's not Easter yet, but we warn parents not to buy baby rabbits, chicks or ducks for their small children unless they make provisions for their care.

Plants that have been kept in a hothouse or indoors should be conditioned with short periods outside before leaving out for good.

Suggest to your husband to place his favorite fishing hooks on a wide strip of transparent tape and cover with another piece. This can be wound around an empty line spool.

Start saving egg shells now. After they have been washed and dried, dye them and plant a seed in each or use them for small candy containers for an Easter party.

**Fashion** Sandals in all shapes and colors are in the shops this spring. High heels, low heels, wedges and flats are all there. One may choose the kind and color to fit all costumes.

**Now You Know** A woman motorist was being examined for a driver's license. Examiner: "And what is the white line in the middle of the road for?" Woman: "Bicycles."

Colored sheets have been used on occasions for holiday tablecloths and now tablecloths are being cut up to make skirts and bodices.

**Helpful Hint** Telephone operator to new girl she is breaking in - "No, honey, you say, 'Just a minute please,' not, 'Hang onto your pants, Mister.'"

When something spills or cooks over in your oven, sprinkle it with salt and leave it overnight. Next day it should come off easily with a pancake turner.

Why Make A Will Is Club Topic

The subjects for the last two Girard Home Demonstration Club meeting were; "Why Make A Will", given by Mrs. Hugh Turner, and second, "Meal Planning" by the agent, Mrs. Bobby Stanaland. Mrs. Turner stated that making a will has eight points to consider. One which leaves the contents of your property to be settled legally by law and cost less money to clear the contents of the stated properties. A good fact sheet to be studied is form L-950 which can be obtained at the Extension office.

Mrs. Jim Wyatt read a short sketch entitled: "The Seven Ages of a Woman", as the opening exercise. Mrs. Jake Swaringen read an article "The meanest Mother".

Eight members answered roll "Its Time To Make A Will." In the stock show report, there were 12 peach cobbler pies baked by persons who helped the 4-H'ers. Mrs. Simpson was hostess for this club meeting.

For the meal planning program we were taught to use the four basic foods, two servings of meat, two of milk, four of fruit and vegetables and four of bread. The foods should be planned in your menus as you choose but be sure to include the 2-2-4-4 foods so that you will get the full food value. This was a joint meeting with the Jayton Club.

Those attending from Jayton were: Mmes. Jake Fuller, Ben Boland and Mrs. Pauline Wilson. Two visitors, Mrs. D.D. Thompson and Mrs. Stanaland and five Girard club members answered roll call, "My Mother Taught Me To Do" Mrs. Earnest Thomas was appointed to have charge of the cultural arts program at the District meeting in Sagerton April 6.

The display is to be early handwork of the early days, as set up by the T.H.D.A. cultured art recreation recommendation. Mrs. Orwin Stephens was hostess. The next club program will be food preservation at Girard, April 7. Come, meet with the club.

SOPHOMORE CLASS NEWS

The Sophomore Class members have really been competing in sports and 4-H contests. Sophomore Harold Parker made the All-District Basketball Team and is presently burning the track in the 220 dash, 440 dash and the last leg of the 440 mile relay. Harold ran a 50:5 in the 440 as his season's best and is 8th in the Big Country in the 220 dash with a time of 23:7. Other Sophomores on the track team are: Randy Prince, Billy Ballard, Steve Sweet, Leslie Partridge, Ronnie Cheyne and Gene Cleveland. Craig Hagar is the Boy's Track Manager. Danella Sartain represents the Sophomores on the girl's track team.

Sally Garcia and Melodie SoRelle are playing tennis and doing a great job!

Golfers Brigette Hamilton, Janet Johnson, Becky Brooks, Barbara Baker, Lesa Pickens and Priscilla Dixon are working on lowering their scores in hopes of forming a Women's Golf Team for next year's District Competition.

P.E. girls Grace Chavez, Jane Reed, Sally Trevino and Julie Panter have been busy taking the President's Physical Fitness Test and playing hockey, volleyball, and boy's basketball.

P.E. boys Billy Harrison, Bobby Grice, Bobby Capps and Charles Arnold have been building up their muscles by lifting weights and playing volleyball.

Four Sophomore boys attended a Soil Judging Practice Meet in Roby on Tuesday, March 16th and won 1st place. Members were: Ronnie Cheyne, Charles Arnold, Steve Sweet and Bobby Grice.

The Sophomore Class is also planning the entertainment for the Junior-Senior Banquet.

Well, that's the Sophomore news for now! Be sure and come to the Rolling Plains Relays on March 27th here in Jayton and see some of these "Super Sophomores" in action! See ya there!

Energy For Agriculture Is Meeting Theme

LUBBOCK--Energy for agriculture will be the theme of the annual meeting of the South Plains Development Program set for Tuesday, March 30 at South Park Inn in Lubbock.

Discussions will center around current problems, trends and future outlook associated with the supply and demand for energy in agriculture.

Heading the lineup of speakers will be representatives of Southwestern Public Service Company, Lighthouse Electric Cooperative, Pioneer Natural Gas Company and Exxon Oil Company, plus the associate director of the Texas Agricultural Extension Service.

The South Plains Development Program (SPD) is a volunteer organization composed of members of county program building committee members and resource persons from throughout the South Plains.

The one-day meeting will include a morning session beginning at 10:00 in which task forces for cotton, feed grains, swine and family living will convene, and an afternoon session getting underway at 1:15 which includes a special panel on energy.

According to Billy C. Gunter, "is an intensely cultivated, productive agricultural area that is the standard by which many other agricultural areas are measured. This agriculture has evolved because of the desirable physical characteristics of the land, the endurance of the inhabitants, and favorable economic factors."

"Plentiful, inexpensive energy for agriculture has played a significant role in the development of large-scale commercial crop farms. Recent substantial increases in energy costs have spurred concern for agriculturalists, since this area is dependent upon intensive utilization of energy to maintain the current level of agricultural productivity."

Dr. Daniel C. Pfannstiel, associate director for the Extension Service at College Station, will provide the opening address entitled, "Texas Agriculture--A Proud Achievement." Marvin Sartain, area Extension economist in farm management, Lubbock, will discuss the role of pump efficiency in reducing irrigation costs. He will be followed by the four-member panel on "Energy for Agriculture--Current Problems and Future Outlook." Moderating the panel will be Lee Roy Colgan, Dawson County Extension Agent.

Panel members will include Bill Helton, manager of industrial development, Southwestern Public Service Company, Amarillo; Alton Higginbotham, manager of Lighthouse Electric Cooperative, Floydada; Harry Walden, vice-president of Pioneer Natural Gas Company, Amarillo; and Charles Wyatt, distributor relations co-ordinator of Exxon Oil Company, Dallas.

The gathering of agricultural industry officials, businessmen and guests will hear a presentation on food prices by Dr. William J. Vastine, Extension Service economist from College Station.

The afternoon portion of the event will be chaired by S.M. True of Plainview, chairman of the SPD program.

SPD task forces, said Gunter, are made up of leaders in cotton, feed grains and swine industries. In their deliberations they will focus primarily on current achievements, problems and concerns of their respective industries.

The feed grain task force is a newly formed entity of SPD, reflecting the increasing importance of corn and sorghum in the South Plains area. County Extension agents, farmers, program building committee chairmen and industry officials will be among those involved. Interested citizens from throughout the South Plains are encouraged to attend the task force meetings of their choice.

Sponsoring the annual meeting are the county program building committees of SPD, the Texas Agricultural Extension Service and Texas A&M University System.

The 19 county SPD area extends from Floyd, Hale, Lamb and Bailey counties, southward to Midland, Andrews, Howard and Martin counties. The organization was founded in 1965 to promote the economic growth of the South Plains area through increased agricultural production.

Swine Shortcourse Set In Plainview For April 10th

PLAINVIEW--The annual Texas A&M Shortcourse, which in the past has been offered on the Texas A&M University campus at College Station, this year also will be presented in Plainview, Saturday, April 10.

"Because of the distance to College Station the number of swine producers on the Texas Plains," says Gilbert R. Hollis, area Extension swine specialist, "the shortcourse will be offered this region. It is scheduled just one day before the Texas A&M shortcourse."

Practically the same topics and speakers slated for the Plainview meeting that will be held at College Station, says Hollis.

Site of the event is the Hale County Agricultural Center. Registration is at 8 a.m. welcome and introductions at 8:45. The shortcourse is expected to conclude about 4:15 p.m. Hollis special emphasis is being placed on sow selection and management. A lineup of noted specialists, university faculty members and industry representatives have been selected for the shortcourse.

BROODING SYSTEMS FOR POULTRY

A good brooding system gets a poultry operation off to a good start, contends a poultry specialist for the Texas Agricultural Extension Service. Baby chicks and poults (baby turkeys) must have a clean, dry, warm place with an abundance of clean, fresh feed and water in which to start their lives.

Use three to four inches of litter on the floor brooding quarters. fortified starter ration some form of heat lamps are used. A cardboard about 12 inches high young birds close to feed and water during first week. Young require particular care to reduce "starve-out"

## Traffic Deaths Show Upclimb in 1975

**AUSTIN—**Figures released today by the Texas Department of Public Safety show that 1975 traffic deaths in Texas rose 13 percent over 1974, but the toll fell 263 short of the all-time record set in 1973.

Colonel Wilson E. Speir, director of DPS, said a total of 3,429 persons lost their lives last year in 2,945 fatal accidents. The figure compares to 3,046 who died in 2,626 fatal accidents during 1974 and 3,692 who were killed in 1973's 3,074 fatal mishaps.

Speir said the traffic death rate per 100-million vehicle miles was 4.054 last year—up from the 3.9 rate in 1974 but under the 1973 death rate of 4.6.

The DPS director said reports were received on 92,510 injury accidents which resulted in injuries to 138,962 persons. In 1974 there were 83,341 injury accidents and 123,611 injuries, while in 1973 some 87,631 accidents resulted in 132,635 injuries.

Non-injury accidents for 1975 totaled 373,141, compared to 348,227 in 1974 and 373,521 in 1973.

Considering all types of traffic accidents in Texas, Speir said there were 34,402 more total accidents in 1975 than in 1974, and 4,370 more than in 1973.

Speir said the largest increase in deaths occurred in cities over 5,000 population—up 17 percent over 1974. Deaths in towns of less than 5,000 decreased by 0.3 percent, while rural deaths increased by 12 percent.

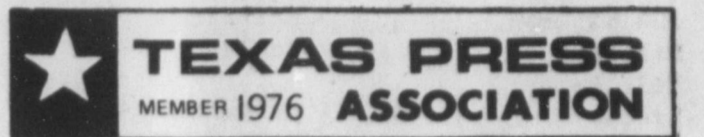

The DPS director said the sharp rise in deaths and accidents is due in part to a large increase in total driving over 1974. Last year Texans and visitors drove 84,575 billion miles compared to 78,290 billion miles driven in 1974 and 80,615 in 1973. Total driving fell drastically in 1974 due to the impact of the national energy crisis.

Speir noted that even though 1975 mileage was well above 1973 figures, and even though there were more total accidents in 1975 than in 1973, the 55 mile speed limit apparently made a sizable contribution to the reduction of 263 deaths when compared to 1973's record toll.

"While voluntary compliance with the 55 mile speed limit is not as good as it should be, traffic continues to move slower than it did in 1973 when the speed limit was 70," Speir said.

**PIRATES NEAR?**

The jolly roger, the ancient flag of the pirates, threw fear into every ship that sailed the high seas. These armed robbers sought to raid every ship they came across. None was safe when they were near.

The Bible teaches that there is a devil called Satan who is a robber and a thief, who "goes about like a roaring lion seeking whom he may devour." (1 Peter 5:8) But when the pirate threatens, we need not be afraid. We are encouraged by Romans 8:38 & 39: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come; nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

Our faith in Christ, can overcome Satan's fiery darts. Through Him we can overcome all. We invite you to attend the Church of our Lord this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny. The truth which alone will set him free to live as a child of God.

## Now's the time to call your air conditioning serviceman.

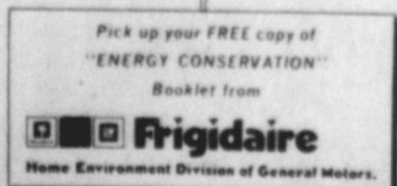

(Get a checkup before the heat's on.)

Right now your air conditioning serviceman can easily work your call into his schedule and get your unit ready to deliver dependable cooling through the summer ahead.

We know that many people wait until the heat's on to install electric air conditioning or have their units serviced. Later on, your dealer or serviceman may have a waiting list.

WTU wants you to get the greatest value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.

## Burleson Reports From Congress

Omar Burleson, M.C. 17th District, Texas

WASHINGTON, D.C.—The cost of being hospitalized has increased far beyond the ordinary rate of inflation. We are inclined to blame high charges on the hospital, its administrator, the doctors, nurses and other visible people and things which go with hospitalization. The invisible costs escape criticism.

As a matter of fact, the Federal Government itself is contributing to the high cost of health care. Its involvement grows larger all the time and the federal bureaucracy grows with it. In too many instances, everyone connected with hospitals and health care is harassed and hassled by one regulation or the other. The "it" crossing and "it" dotting bureaucracies often are in conflict with one another in the various departments of Government which apply regulation.

Fairly New Hospitals, after having been approved under building codes of State and local Governments, often find that they are not in compliance with some technical requirement which the inspectors can find. Three years ago, the Department of Health, Education and Welfare got Congressional approval to "validate" the Joint Commission on Accreditation of Hospitals. This means that the Government's own inspectors, applying their own criteria, should check hospitals to approve their validation. Out of 144 hospitals first inspected, 105 lost their accredited status. In 16 States every hospital failed to qualify. In one hospital, although built to specifications including air conditioning, the inspectors required that all windows be made to open readily. It did not matter that the locked windows had a key at the nurses' station on each floor. No matter that a sick or mentally upset patient might open the window and fall or jump out.

Another item that seems typical—at another hospital the administrator was advised that the plastic liners in wastepaper baskets were prohibited, lest a spark

## SPDP Sets Annual Meeting For 30th In Lubbock

LUBBOCK—Energy for agriculture will be theme of the annual meeting of the South Plains Development Program set for Tuesday, March 30, at the South Park Inn in Lubbock.

Discussions will center around energy problems, trends and future outlook associated with the supply and demand for energy in agriculture.

Heading the lineup of speakers will be representatives of Southwestern Public Service Company, Lighthouse Electric Cooperative, Phillips Natural Gas Company and Exxon Oil Company, the associate director of the Texas Agricultural Extension Service.

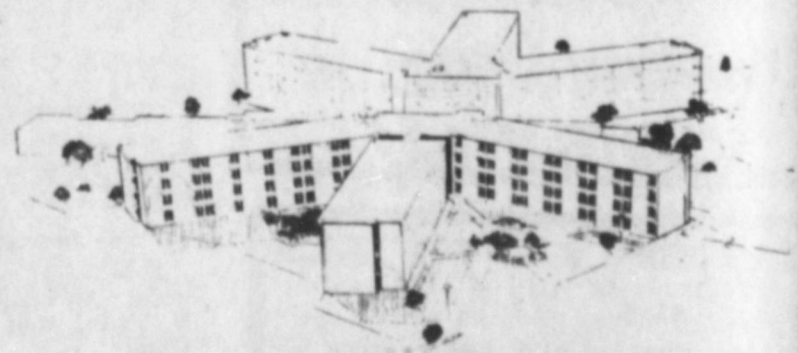

The South Plains Development Program is a volunteer organization composed of members from throughout the South Plains area.

The one-day meeting will include a morning session beginning at 10:00 in which task force members will convene, and an afternoon session getting underway at 1:15 which includes a special panel on energy.

According to Billy C. Gunter, district agent for the Texas Agricultural Extension Service, the annual meeting brings together agriculture leaders to review progress of South Plains agriculture and discuss how current problems and needs should be met.

"This region," said Gunter, "is an uncultivated, productive agricultural area that is being measured by which many other agricultural areas are measured. This agriculture has evolved because of the desirable physical characteristics of the area and the endurance of the inhabitants, and few economic factors."
