Lane-Felker To Celebrate 30th Anniversary

Just like the singing commercial on T.V. says, "You've Come A Long Way, Baby" could very well be the theme song of Lane-Felker as they celebrate their thirtieth anniversary.

It was thirty years ago March 1, 1940, the business with Mrs. R. A. Lane and Mrs. Viars Felker at the helm, opened the Lane-Felker Dress Shop in the Pierson building just north of the Haskell National Bank, catering to style-conscious women of this area.

Every since that "red letter" day, Lane-Felker has continued to grow to its now spacious quarters, 103 North Avenue E. Shoppers from all sections of the State have learned that "Lane-Felker" means fashion and name-brand merchandise for women and Misses.

To say a "big thank you" and to express appreciation, Lane-Felker is staging a gala birthday celebration, and the welcome mat is out to all to visit the store and join in the festivities.

Everyone is invited to attend Lane-Felker's Pearl Anniversary, Monday, March 2 through Saturday, March 7th.

There will be gift certificates galore baked in the birthday cake in denominations from \$5.00 to \$100.

Every lady, (18 years and over) attending, will receive a pearl necklace as a free gift.

Elsewhere in today's issue of the Free Press will be found an advertisement concerning the anniversary celebration.

Abilene Attorney Will Speak In Haskell March 5

R. M. (Bob) Wagstaff, Abilene Attorney, and member of the board of directors of Water, Inc., of the State of Texas, will be the principal speaker at a program to be presented by the Conservation Department of the Progressive Study Club of Haskell in the Community Room of the Haskell National Bank, Thursday, March 5th, at 7:30 p. m.

Mr. Wagstaff is an authority on water development and he will be able to acquaint the community with the facts concerning the development of water particularly in this area for its development in the future.

The Haskell area has had more than a decade of struggle to secure a source of good water. Only recently does the goal seem to be within reach. Since the long struggle to attain that goal is still imprinted on the minds of many, the program will acquaint the people with the facts concerning good water as it relates directly to them individually and to the progress of the community and to this area as a whole.

All citizens interested in the development and progress of the Haskell area are urged to attend.

The first call was to the East section of town when a four-room frame house and contents belonging to L. K. (Bud) Williams "went up in flames."

Satch Lusk, of the Fire Department, said that the blaze had too much headway at the time the fire was reported, and the roof was caving-in when firemen reached the scene.

The second call came at 8:30 p. m. to fight a fire at the Wayne Liles home, 205 North Avenue M. The 5-room frame house is owned by Elbert Johnson.

Heavy damage resulted to the kitchen and closets, plus smoke damage to other rooms. Quick work by firemen soon had the blaze under control.

Magazine Club Members Hear Program On Glass Factories; Glass Makers

The Magazine Club met Friday, February 20, at 3:30 p. m. in the club house for the second program on the Glass Factories and Glass Workers of America. The first program dealt specifically with the Cambridge factory. Mrs. E. M. Frierson gave a brief history of the early day glass makers. She pointed out the hard struggle these pioneers had in starting this new industry in America.

The second program continued the study on New England Glass Factories. Mrs. L. R. Burkett took up the history of these later glass houses. She chose to tell about the best known ones of that time. They, too, had many problems to surmount before achieving success as a thriving industry. The best known factory of this group was the Crown Glass Factory, others that followed seemed to be under the auspices of the Crown Factory. An important development was the Crown Bottle Factory.

Mrs. K. H. Thornton gave an interesting picture of life in the glasshouse neighborhood. These workers lived in an attractive section of the community. Their homes were pretty, they had beautiful flower gardens and trees around their homes. The glass neighborhood was a little world by itself. They were a

close-knit group, almost as if they were related. These people were really fine upright citizens and they did much to strengthen community life. Family tradition was most important and trade secrets were jealously guarded. They all had a strong sense of loyalty to one another and also to the company.

The glass-blowers were the most prosperous workmen in the community. Their pay was high—as much as nine or ten dollars a day. The other workers, Cutters and Decorators, received less pay.

Mrs. Thornton mentioned several of these early glass workers whose work was handed down for several generations. Through the efforts of these men, America finally became equal to the great European factories.

Mrs. Raleigh Lemmon served as hostess for the meeting.

She used Paul as an example, where he said in Gal. 6-17, "I bear in my body the marks of the Lord Jesus. 2. The face mark, the mark of happiness, which shows on the face of each Christian. Christians should always rejoice and be happy. 3. The knee mark, the mark of prayer. Every Christian should constantly be in prayer and pray without ceasing. 4. The leg mark, the mark that we must go out and win others to Christ, and tell the good news of our Lord Jesus Christ. She closed with the thought that we should all say, "I bear the marks of my Lord Jesus Christ."

Betty Jo Clanton, teacher, voiced the closing prayer. During the social hour, Mrs. Stella Trice led the group in singing, with Mrs. Hassie Couch at the piano.

Refreshments of cherry pie, topped with whipped cream, coffee and olives, were served to the following: Claudie Mae Bland, Nadine Sorenson, Emma Bland, Freida Carter, Betty Jo Clanton, Faye Woodson, Helen Oates, Mattie Muriel Felker, Allene Wheatley, Retha Mullins, Clarice Jones, Stella Trice, Lillie Mae Clare, Hassie Couch, Saide Payne, Jola Henshaw, Ruby Smith, Clara Biard, Opal Adkins and Ethel Lou Shelton. Mrs. Faye Woodson's group was hostess.

Now THAT'S Pumping Gas!

Novi, Michigan—(HK)—The latest wrinkle in gasoline service stations is being tested here; and according to station manager, Rob Muncey, customers—especially the males—like it very much.

Muncey's innovation is a team of six mini-skirted young ladies who do everything from pumping gas to changing oil.

The girls work in two daytime shifts at Muncey's Marathon Oil Company station and according to them, "It's a great experience. We keep busy, meet lots of people and get plenty of exercise."

According to Muncey, "The girls are the greatest thing that ever happened to this station. They relate to males and females alike."

A motion was made by Commissioner Perry, seconded by Commissioner Collins, that the County Treasurer and County Auditor be authorized and directed to carry out on March 1, 1970, the following:

OUTDOORS -IN- TEXAS

By Vern Sanford

It won't be long before you'll be buying a new boat...that is, if you haven't done so already.

Seems like nearly every family has at least one boat. It's "The Thing" nowadays. Double garages, or dual carports, now sport at least one car and one boat; sometimes two boats and one car, with the car—more often than not—left outside in the weather.

A statistical study made by the Boating Industry Association and the National Association of Engine and Boat Manufacturers reveals that in 1969 the recreational boating industry increased its annual dollar volume in retail sales by an estimated 4.5 per cent. Peak now is \$3,292,000,000. That's an aggregate total of nearly three and a third billion dollars.

Included in these purchases are new and used boats, motors, accessories, safety equipment, fuel, insurance, docking, maintenance, launching, storage, repairs and club memberships.

Total number of boats in use in the United States jumped an additional 2.4 per cent or 206,000. This made the grand total \$646,000 water pleasure craft. That's a lot of boats!

A million more people participated in recreational boating in 1969, with the total estimated at 43,230,000. This also represented a 2.4 per cent increase in those using the waterways more than once or twice during the year. It's obvious that boating is growing in appeal as more people seek leisure-time activities for the whole family.

Figures reveal also that sales of larger and more expensive boats and motors contributed to the general rise in dollar volume.

Like to know the breakdown on the boat population? Here it is by types of boats:

Inboard motorboats (including auxiliary-power sailboats)—615,000.

Outboard boats—5,101,000. Sailboats without inboard power—598,000.

Rowboats, canoes, dingies, prams, and other miscellaneous craft in use, many with outboard power—2,332,000.

Number of outboard motors in use during 1969 reached 7,101,000—topping seven million for the first time. Sales during the year reached an estimated 510,000—a 2 per cent rise.

There was a marked increase in the size of the average outboard motor sold in 1969. In '68 the average outboard ran 31.5 hp, in '69 it was 33.1.

Motors of 45 hp and up commanded 34 per cent of the market.

Motors up to 6.9 hp dropped from 29 per cent to 28 per cent.

Motors 7 to 19.9 hp dropped from 21 to 19 per cent of sales.

Those 20 to 44.9 hp fell by the

Texas Highway Commission Okays 2-Year Consolidated Highway Plan

In action that will mean better highway facilities throughout Texas, the Texas Highway Commission has approved a \$406-million, two-year Consolidated Highway Program.

The program calls for construction or reconstruction of US- and State-numbered highways. In all, a total of 1,968.6 miles of non-Interstate highways will be built or reconstructed under the program. Estimated cost of the construction work is \$365 million.

The program also covers the State's portion of the right of way cost on 1,327.9 miles of US- and State-numbered highways at an estimated cost of \$40.5 million. On these highways, the State shares right-of-way costs on a 50-50 basis with local governments.

In approving the program, the Commission earmarked funds for needed improvement on many routes of the State maintained highway system. This will permit the orderly development of plans for construction.

They attended the Brangus Show on Wednesday where Pueschel and Alene had several entries.

Pueschel took first place in the summer yearling heifer class; second in senior heifer calf; fifth in junior yearling heifer; third in get-of-sire class, and two females bred and owned by the exhibitor, placed second.

This was Pueschel's first year to show any of his cattle. He has a record of selling the highest priced cattle in Range Cattle Sale.

same figure... down from 21 per cent of sales to 19. Naturally there was a preference for larger boats to go with the horsepower. This showed the average length up to 15.9 feet the highest ever.

Estimated sales of outboard boats hit a 10-year high in 1969, reaching 301,000. Sales of stern-drive boats continued to climb, hitting an estimated 235,000 units.

Marinas, boat yards and yacht clubs increased by 100 for a total of 5,900 such facilities on the American scene.

So, the popularity of boating goes up, up and up... nationwide. As for Texas... our guess is that the percentages are even greater for the Lone Star State. Why shouldn't they be... with Texas' multiplicity of impoundments and virtually year-around boating weather?

Tax Questions And Answers

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q) If IRS has mailed you estimated tax forms, does that mean you are required to file one of these forms?

A) You do not have to file an estimated tax declaration for 1970 unless you meet the requirements as explained in the instructions that came with the estimated forms.

Estimated tax forms have been sent to every taxpayer who filed an estimated return for 1969 as well as to those taxpayers who may have been liable for one because they had a balance due of \$40 or more when they filed their 1968 return. The forms are identified with the taxpayer's name, address and Social Security number just as they appear in IRS files.

Read the instructions carefully and if you are required to file an estimated tax declaration, be sure to use the forms sent you. It will assure that

your estimated tax payments are properly credited to your account.

Q) I just sent in my tax return. What records should I keep?

A) Keep the records you need to substantiate the income and deductions reported on your return. Cancelled checks, paid bills, Forms W-2 (Wage and Tax Statement) and 1099 (U. S. Information Return for Calendar Year), bank books and similar records in addition to a copy of the return, will be helpful.

Q) Will the amount my daughter receives from a college scholarship affect my dependency claim for her?

A) No. Amounts received from a scholarship for study at an educational institution do not have to be included in total support in determining whether the support test for dependents has been met.

A) My wife and I both received 1040 tax form packages in the mail because we were single in 1968. We want to file a joint return for 1969. Should we put both name labels on the return we file?

A) No, use only your label since on joint returns the account is primarily identified by the husband's Social Security number. You should insert your wife's first name and middle initial on your label and her Social Security number in the space provided on the return.

To make sure you are properly credited for all withheld taxes and estimated tax payments, if any, enter the name your wife used when she filed her 1968 return on the line under the address section of the form. Check a g. s. in address should be given here, too.

Q) Last year I sent in my return and W-2 and you figured my tax for me. Will you still do this with the new form?

A) Yes, IRS will compute the tax just as it has in the past if your income is under \$5,000 and consists of wages subject to withholding and not more than \$200 of dividends, interest, and non-withheld wages. This is explained on the back of the Form 1040 you received in the mail.

Q) Our community just put in some new sidewalks and assessed the property owners for the cost. Is this a deductible expense?

A) No, assessments for benefits that tend to increase the value of property are not generally allowed as deductions. You may, however, add the amount of your assessment to the cost basis of your property.

RETROSPECT

During our Pearl Anniversary
 We hope you will pause with us
 To recall a memory or two
 When a certain style
 Marked a specific occasion in your life
 And brings to mind
 A special someone, a special time.
 So much has happened during this span:
 THREE WARS - the jet age - television - men on the moon.
 We take for granted things we use daily
 That were unheard of thirty years ago.
 Roosevelt, Truman, Eisenhower, Kennedy, Johnson, Nixon.
 Integration. The generation gap.
 Three decades so diversified they defy description.
 Women have always found fashion a must;
 Men have stared in disbelief as females followed the trends.
 The length of skirts, always controversial
 And the males of the species haven't approved the loose fit.
 Do women really dress to please men?
 Or do they dress to impress one another?
 During the forties and fifties and sixties. we've seen:
 Padded shoulders, waist cinchers, boleros, vests,
 Tents, sacks, shifts, princesses, gores, pleats, gathers,
 Shirtwaists, ballerinas, petticoats, mini, maxi,
 With an occasional softness to depict femininity
 And thus prevent the men in our lives
 From open rebellion and forbidding joint checking accounts.
 Hair styles have differed to great extremes:
 Pageboy, pompadour, upsweep, bubble, pixie, short, and long
 Alop these coiffures have been
 Picture hats, sailors, rolls, berets, cloches, pillboxes.
 Shoes have had spiked heels, clunky heels, high heels, low heels,
 Open toe, closed toe, pointed toe, round toe, square toe.
 Wedges, platforms, ankle straps, T straps.
 All bought too frequently for style instead of comfort.
 Women - consistent only in their inconsistency -
 Seem, however, to comply to sameness in their interest in clothes.
 They study fashion; they cultivate taste
 Then blend the two in their selections.
 Best dressed women are not measured by the amount they spend
 But in their choice of styles and colors best suited to them.
 The French say 'Viva la difference' between a woman and a man
 and a simple fact prevails:
 Give a man a day at a lake - a chance to hunt or fish
 and he is his happiest
 Give a woman an allowance - and a sale
 and contentment knows no comparison.
 As long as women care how they look
 Men will care to look at them.
 Perhaps this is what fashion is all about.

PERT ADVISE

Chairman of the Federal Reserve Board, explosive growth of federal spending and inefficiency of much of it, I am inclined to believe that a major reform may be even greater than we have created a costly government which duplicates and wastes, that often defies full understanding or evaluation, and that we need to control government to avoid strain on our physical resources and to assure the continuance of our economy as well as for economy in the private sector."

TAX MAN SAM SEZ

February 22 is not only the birthday of the Father of our Country, it is also the mid-point between January 1 and April 15. Although many taxpayers have taken advantage of the 52 days before February 22 to file their 1969 income tax return, at least 30%—and probably 1/3—won't take advantage of at least 50 of the 52 days between February 22 and April 15.

If you didn't celebrate George's birthday with your income tax filing chore behind you, it will pay to take advantage of the many figuring days you have left, rather than joining the 11:59 p. m. club on April 15.

Shaver, III, introduced the owners of Lane-Felker in Haskell, Mattie Merle Felker introduced the program and the two charming ladies took turns narrating the style show. Betty McBroom of Haskell ac-

complished the "almost" impossible. As the sole model, her quick changes of apparel kept the audience in awe. The fashions were stunning, accessories were changed and a new costume was created. The Slipper Shoppe in Haskell provided shoes to complete the outfit. The audience was duly impressed with a most unique presentation.

Basketball Round-up

Last Tuesday night the Rochester Steers made their final basketball appearance for the 1969-70 season as they went down in a disappointing game to Benjamin. The loss dropped them into a tie with Goree for fourth place in the eight-team district. Despite the final loss, the Steers made a respectable showing this season. Seniors playing their last game for the Steers were Randy Goode, Mack Martin and Chris Fletcher. All three did a real fine job all season. Steer fans will miss their services next year, but seven lettermen will return, plus several experienced B-team boys, so next year could be a better year. Now the Steers will have total concentration on the oncoming track season. The team this year will welcome back several key 1969 performers as well as some Freshman talent. This year the local cindermen might bag several ribbons as they enter several meets.

In Junior High games last week, they began the week with two heartbreaking losses to O'Brien. The girls met their match as they couldn't overcome the O'Brien girls' lead.

The next game started out to look like as if it would go down to the wire, but the O'Brien boys stampeded into the lead for good.

Saturday both teams played again. The girls played Benjamin in a game that was clearly a mismatch. Rochester girls soundly defeated the Benjamin girls qualifying them for a shot at third place.

The boys had to play Goree in the next game but didn't fare as well as the girls. They were defeated by a score of 48-36. This eliminated them from the tournament.

The girls' team advanced to play Old Glory for a shot at third place. Again the game was a mismatch as the Rochester girls whipped them by a score of 40-7. Substitutes were used frequently.

The final district standings in Junior High were Girls' division: O'Brien first, Weimert second, Rochester third. The boys' division: O'Brien first, Rule second, Goree third. The tournament was held in O'Brien.

The Rochester boys now will start track, and the girls will start volleyball. The Rochester fifth and sixth grade teams will be entered in a tournament in O'Brien this week.

March Draft Call For Texas Is 1,064 Men

The March draft call for Texas is 1,064, and no man will be selected and ordered for induction with a random sequence number higher than 90. Colonel Morris S. Schwartz, state Selective Service director, said Friday.

This March quota is up from 929 in February, which is being filled with random sequence numbers no higher than 60.

The state quota for pre-induction physical and mental examinations in March is 8,253, down from 9,359 in February.

The Texas March quota of 1,064 is the state's share of a national call for 19,000 men, all for the Army.

Colonel Schwartz said, when announcing the March quotas, that all volunteers at the draft boards must be inducted ahead of the non-volunteers selected and ordered by random sequence number.

He emphasized, however, that doubtless the big majority filling the quota would go into uniform by random sequence number.

Local board quotas for induction and pre-induction examination in March already have been mailed to the state's 159 boards.

Any man with an early random sequence number can join a Reserve unit anytime before his induction order is issued, if one is available to him, the state Selective Service director said, and he can enlist in any active service at any time up to the date of induction.

New Camaro. Feb. 26th.

We've never announced a car at this time before. But then nobody's ever announced a car like this before.

Super Hugger

If it were an ordinary sportster, we'd have introduced it at the ordinary time. Instead, we took the time to build a whole new Camaro.

We started with a sleek new shape and a low road-hugging stance.

And added more hood. A faster fastback. Wider doors. And new deeply contoured bucket seats.

The instrument panel wraps around you. With enough dials to make you think you're piloting a 747.

There are four transmissions. And six power plants up to the Turbo-Jet 396 V8 that you can order.

Pick the one that best suits your driving. Then go pick on an open road.

And make it one with plenty of twisting turns. Because Camaro has a remarkable new suspension. And standard front disc brakes for a leech-like grip on the road.

New Camaro. The Super Hugger.

Other sportsters always feared it might come to this.

And they were right. Only their timing was wrong.

Putting you first, keeps us first.

See it. At your Chevrolet Sports Dept.
