ND Wins Over New Home: To Anton

The New Deal Lions romped over the New Home Leopards 28-6, at New Deal Friday night but the victory may prove costly: halfback Duyane Agnew suffered a broken collar bone in the first quarter.

Agnew, an honorable mention all-state choice last year, had scored the game's first touchdown on a 40-yard run, then ran the extra points for an 8-0 lead.

Later in the first quarter, quarterback Wayne Price passed 20 yards to end Gary Justice for another TD. The Lions made it 20-0 in the second period on a screen pass from Price to halfback Jerry Cooley that carried for 70 yards. Cooley ran the points.

New Home countered with a 5-yard run by Wayne Fillingim but, in the third quarter, Price scored from one yard out for the final counter. A penalty in the fourth quarter nullified a 55-yard run by Lion L.J. Brad-

Antelopes Meet Buffs Here Friday Night; Beat Frenship

Coach Don Williams' AHS Antelopes will host the strong Petersburg Buffaloes in the first home football game of the season Friday night, starting at o'clock on Antelope Field.

The Antelopes won their season opener last Friday night (see story following) and the Buffaloes took the Slaton Tigers by a slim 14-13 count.

The Abernathy Antelopes launched their 1966 football campaign with a 20-0 victory over the Frenship Tigers Friday night, September 9. The non-conference game was played at the Frenship High School stadium.

Abernathy completely dominated the game, both on the statistics and the scoreboard. The 'Lopes gained a total of 347 yards and picked up twelve first downs in addition to their three touchdowns. The Tigers never

The ball was brought back to the thirtysix yard line where the 'Lopes began a thrust which was to carry them to pay dirt. The Antelopes moved from their own territory to the Frenship thirty-four yard line. Mathis was then given the ball on a counter play and galloped through the Tiger defense to reach the goal, Roland Murry ran on the conversion attempt to tag two more points to the Abernathy score.

Although the fourth quarter was fought well offensively by the Antelopes, they never were able to score again.

Green Cards To Have New Code System

The Lubbock, Brownfield, and Lamesa cotton classing offices of the U.S. Department of Agriculture will use numerical codes to designate grade and staple this season, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the U.S.D.A.

These numerical codes will replace the traditional grade and staple designations and will appear on all class cards or "Green cards" returned to South Plains farmers this sea-

This numerical code system reduces the grade and staple designations to only four numbers and will be of substantial advantage to growers, gins. and to the cotton merchandising

industry. Virtually all cotton merchandising is now handled by computer systems using these numerical codes. This new system will provide economies in cotton merchandising by eliminating the time formerly used in converting the traditional grade and staple designations to these numerical codes.

The numerical description for grade and staple is made up as follows: The first digit represents grade, the second digit, color, and the last two digits, the staple length. For example, with a classification of 4130 on a class card the

'41" would appear in the grad box on the class card and the "30" would appear in the staple box. The "4" indicates that the grade is Strict Low Middling, or "SLM", the "1" indicates that the color is White, and the "30" indicates that the staple is 15/16 of an inch.

Code sheets and explanations have been mailed to all South Plains gins for distribution to their customers. All loan cards and price sheets at gins will include these numerical designations along with the traditional grade and staple designa-

Mr. Palmer also indicated that all micronaire readings on class cards will be stamped this season rather than written.

Postmaster Commended

Postmaster Herman Lambert has been commended by William H. Neal, National Director of the U.S. Savings Bonds Division, for his leadership and service to the Treasury Department's School Savings Program.

In a letter to the Postmaster, Mr. Neal said "The mission of School Savings is in many ways more important today than at any time since the end of World War II. Today's young people, growing up in a world whose troubles admit to no easy so-lutions, need grounding in the simple truths of their Amerithe challenges they face. The lesson of thrift is important in itself; but it becomes even more so when it also involves the investment of dimes and quarters, often saved at a sacrifice, in the future of our country through Savings Stamps and

Bonds." School Savings, which operates in many Abernathy schools, is a part of the mationwide Savings Bonds Pre-gram. Mr. Neal told the Postmaster that "the good service you render plays a major part in its success." Savings Stamps in five denominations, from 10 cents to \$5, are on sale at all times at the post office and on Stamp Day in schools.

Postmaster Lambert com-mented that "the sale of Savings Stamps to the public --especially to young people through the School Savings Program -- is a service we are proud to offer. I know of no finer way to build for a better tomorrow than by training our youth in the sound American heritage of thrift."

There will be no diversion requirements for substituting wheat for barley under the 1967 Wheat Program, E. J. Pope, Jr., Chairman of the Hale County Agricultural Stabilization and Conservation Committee, has announced.

Barley growers who had a 1966 barley base under the feed grain program and who wish to substitute wheat under the program can do so on an acre-for-acre basis, but they should request a special barley base for this purpose from the ASC County Committee, Pope said.

Pope said that Secretary of Agriculture Orville L. Freeman has announced that barley will not be included in the Feed Grain Program for 1967. He

said this means that the farm feed grain base will be made up of corn and grain sorghum bases only. Details of how substitution

of wheat for barley will fit individual farm situations can be obtained from the ASCS County Office Pope said.

I noted last week where Jackie Vincent, former Miss Acuff, and former school buddle has returned to the City of Idalou as a Cosmotoligist for one of the local beauty salons there. She and I both attended the University of Acuff when things were really rough. We had to walk oh, 15 or 20 feet from our cars to the building. Once inside it was rougher. The class on advanced paper wad throwing was the one I liked best. You know those teachers said I never would amount to anything. I just wonder how many of them could guide and mold the city of Acuff into what it is today, as I've done. I've taken Marvin Winniford and released him from the bonds of farmin made him an ideal for the of Acuff to look up to. I've t Rita Dunagan when she w nobody and thanks to my as sis ting was for awhile privileged to be Director of Acuffs famed peace corps. Incidently, Rita will be married this week in what promises to be the wedding of the year at Acuff. Live and direct color coverage will begin over ABC TV (Acuff Broadcasting Co.) on Friday and a full report will probably follow in next weeks paper. You'd be surprised at the problems Rita and I have solved. She'd tell me what she would hear over at the beauty shop, and I'd tell her what I heard at the service station, and then we'd make up a bunch of stuff, and before you'd know it we'd have a bunch of gossip going full blast, then we'd sit back and watch the homes break up and people fighting. Oh we had fun. If things got a little dull we go

over to the old soldiers home and yell "Charge." Ladies and gentlemen, you have just read the highest rated news column in the entire southwest or maybe the world. If my buddies up at KSEL can say that about their radio station, I can say that about my
