## FHA, Council Join In Welfare Project

To help children in Appalachia who need decent school clothing the FHA Chapter and Student Council of Abernathy High School, Chairman of the Bundle Days Committee, today appealed to the people of Abernathy to participate in the 25th Annual Save the Children Federation's Bundle Days Drive. The FHA Chapter and Student Council will serve as local sponsors for Bundle Days to be held from April 10 to April 14. American school children collected over 3,000,000 pounds of good used clothing in the 1965-1966 Bundle Days Drive. The clothing collected is distributed through the 105 Federation clothing centers in Appalachia.

Children in Appalachia need an education if they are to make a better life for themselves. They need warm, durable clothes to wear to school. We hope that our students will participate in this children-to-children giving. We also appeal to groups and organizations to send or bring clean, wearable shoes, coats, dresses, and suits, for children and adults, to the Homemaking Department during Bundle Days.

Founded in 1932, Save the Children Federation, international child welfare organization of Norwalk, Connecticut, helps children and their families in the United States and in many countries abroad through a sponsorship program, an international self-help scholar-

## INCOME TAX INFORMATION

TOPIC: Use Preaddressed Form 1040A

DALLAS, Texas--Taxpayers who received a 1966 pre-addressed Form 1040A are urged to file that form if it fits their needs and they are eligible to use it.

Ellis Campbell, Jr., District Director of Internal Revenue for northern Texas, said today that substantial savings will be realized if the form provided is used because fewer key-punch operations are necessary to process the return. "It also helps us utilize the full capabilities for which the Automatic Data Processing system was designed," he said.

If your name or address has changed make the necessary corrections and strike through lightly the preprinted information. If you have a refund due, this will help insure delivery of the check to the correct address.

Taxpayers should also verify that their correct social security number is entered on the return they file.

The filing deadline for 1966 tax return is April 17, 1966.

(Dallas, Texas)--The income tax instructions mailed to taxpayers do not tell the whole story for married taxpayers in Texas, Ellis Campbell, Jr., District Director of the Dallas District, points out that married couples in Texas must consider the Texas Com-

munity Property Law in determining what they should report on their income tax return. They must distinguish between what is community property and income if they plan on filing separate returns.

In filing separate returns each spouse must take into account half of the community income and deductions, and all of his or her separate income and deductions, to determine the proper tax on separate returns. Each may claim only his own exemptions and deductions. A dependent supported with community funds may be claimed by either spouse--however, an exemption may not be divided by the taxpayers.

Mr. Campbell says that--contrary to other states--a non-working wife in Texas is liable for filing an income tax return and paying the tax due on 1/2 of her working husband's income, unless they file a joint return that is signed by both husband and wife. Determining the amount of community income and deductions becomes especially important in divorce cases. The husband and wife are each liable for income tax on 1/2 of the income from the salaries of both and are each entitled to 1/2 of the deductions up to the date of divorce. Each is naturally liable for his or her own separate income after the date of divorce.

Mr. Campbell emphasizes three special areas affected by community property law: (1) **Extra Dividend Exclusion** Since dividends are considered community property in Texas, the husband and wife may claim a \$200 dividend exclusion rather than \$100, no matter which spouse owns the stock. An estimated 160, 531 Dallas District taxpayers filing joint returns report dividends on their tax return. Many of these taxpayers do not understand that the community property law gives them a double dividend exclusion. (2) **Extra Capital Loss Deduction** Community property law makes it possible for Texas taxpayers with a capital loss of more than \$1000 on sale of community property, to file separate returns and claim as much as \$1000 capital loss on each return. An estimated 22,462 Dallas District taxpayers file joint returns showing a capital loss each year. Some of these are eligible to file separate returns and claim an additional loss. (3) **Retirement Income Credit** The community property law works both for and against Texas taxpayers in claiming retirement income credit. When one spouse retires and becomes eligible for retirement income on his tax return and the other spouse continues to work, the community property law can eliminate part or all of the retirement income credit that would be available to the retired taxpayer in other states. On the benefit side, commu-

taxpayers who need additional information to claim the proper dividend exclusion, capital loss, or retirement income credit. Taxpayers who are concerned about the community property effect on their income tax return should call the Internal Revenue Service for help.

### SELECT A COMPETENT TAX ADVISOR

The Internal Revenue Service says that a majority of tax practitioners are competent and honest. They warn taxpayers to beware of the "expert" who will not be around to answer your questions after the return has been prepared and filed. Never sign a blank return and leave it with a stranger. Don't sign a return prepared in pencil since the return can be changed later. It is also a good idea to avoid the advisor who guarantees refunds or who wants a percentage of the refund.

Atrazine herbicide provides effective, safe weed control, not only during the critical early weeks, but through the rest of the season as well. Applied anytime after sorghum is up but before weeds are about 1 1/2 inches high, Atrazine solves your weed control problem, easily and efficiently.

Over 90 percent of the grain sorghum crop is grown in the Great Plains, where moisture can "make or break" the crop. Any practical way to conserve moisture for crop use is essential, because it frequently is the limiting factor in sorghum production.

Weeds often take more moisture and nutrients from the soil than the crop itself. Since weeds are perhaps the biggest single factor that adversely affects the growing crop, sorghum growers expend a great deal of time, labor and money to control them.

Weed control is particularly important during the first few weeks of growth, when sorghum develops slowly. Mechanical cultivation is only partially effective, since it can't control weeds growing in the row, and there's the danger of root damage from frequent cultivation—another yield-reducing factor.

These are just some of the reasons why chemical control is the most practical and economical means of eliminating weeds in sorghum.

herbicide controls weeds in sorghum as well or better than cultivation ever did. Apply Propazine at planting and you probably won't need to cultivate all season long.

### HOMES HERE BURGLARIZED

Bold burglars, ransacked the home of a widow, who resides on Rt. 1, Abernathy, Thursday night. Neighbors, who passed the home about 11:45 p. m. reported that "every light in the house was on". Furniture drawers contents were dumped in the middle of floors in various rooms. Bedcovering and mattresses were in a state of disarray as though the burglars had searched for hidden money or other valuables. The house "was a general mess" reports said. Only items known missing were guns and cameras. Entry was gained through the front door after breaking a glass storm door. A swastika was scratched on the interior wall by the front door. Abernathy police and Lubbock County officers investigated.

The lady had injured her back Thursday afternoon working in her yard, and was in the hospital the night of the burglary. Julian Cabrera's home south of Abernathy also was burglarized the same night.

An Idalou Highway resident east of Lubbock came home Thursday night to find all the lights on and his home ransacked by burglars.
