

## Opportunity Plan Loan Fund Organization Is Planned Here

(By Arno Struve)

Lack of funds prevents many local students from continuing their schooling. One of the ways that has been provided to overcome this difficulty is a self-help plan established at West Texas State University by Mr. Milton Morris several years ago. It has proven so successful that it has been used as a pattern in a great many West Texas towns to help their young people to continue schooling who would otherwise have to quit school.

Through the sponsorship of the Abernathy Lions Club, a Division of the Opportunity Plan is going to be established in Abernathy. After the organization is established it will be separated entirely from the Lions Club and have an identity all its own. Memberships in the organization will be the source of capital on a regular basis. Voting members will pay a minimum of \$25 annually to increase the capital of the organization. It will be entirely non-profit and there will be a minimum of operating expenses. All persons connected with the organization will be working on a volunteer basis.

A revolving loan fund will become available to make non-interest bearing loans to students who have exhausted all other avenues for school financing. A committee chosen from membership will administer the loaning of money and the making of collections.

Loans will not be limited to students wanting to attend college and university, but will probably more often be made to students wishing to learn a trade, though the organization and its committee will make all final decisions as to who will receive loans.

Contributions other than membership dues will be actively solicited as memorial funds or gifts to the loan fund at any time. It is contemplated that there will be fund raising efforts made at various times to add to the capital of the fund.

such as entertainments, banquets, or any other such function that can yield a profit.

Our sister city of Petersburg has had a successful program of this type in operation for several years and have been of significant help in the planning for the establishment of the plan in Abernathy.

An organizational meeting will be held in the near future at which time we hope to have Mr. Morris with us to explain more fully the workings of such a plan. The date for this meeting will be amply publicized so that all citizens wishing to take part and support the movement will be able to attend.

The extent of participation in such a meeting will determine whether Abernathy can support such a project.

## Lakeview News

Mr. and Mrs. Charles Spence of Floydada spent the weekend with their sister and husband, Mr. and Mrs. A. B. Colwell.

Mr. and Mrs. Larry Monk of Tahoka are parents of a 7 pound 11 ounce baby girl born Wednesday, Jan. 19, in Methodist Hospital, Lubbock. Mr. and Mrs. Herbert Watson and Mr. and Mrs. M. M. Monk of Gail are grandparents.

Mrs. Grace Pallock and Mrs. Viola Braden of Mabank are spending seven days with their sister, Mrs. N. Matthews, and their brother, James Holcomb in Lubbock.

J. A. Smith, who has been home for two weeks from Veterans' Hospital in Houston, will return there Tuesday for a checkup and hopes to return later this week.

Mrs. S. M. Harrison spent the weekend visiting relatives in Burk, Burnett, and Wichita Falls.

The Rev. Wayland Culp, a Baptist minister from San Francisco, Calif., preached at the Midweek Service Wednesday, Jan. 19, 7 p.m. He is a relative of Clayton Enger. His parents are Mr. and Mrs. Walter Culp of Happy Union.

Mr. and Mrs. Kenneth Enger of Lubbock visited his parents, Mr. and Mrs. Herman Enger, who moved to the farm vacated by the Clayton Engers.

the week nor the condition of the weather, much less the location of the fire, ever seems to cause them to have a second thought. They seem to have a healthy respect for the property of every citizen and all the surrounding area. A well deserved "Thanks for a job well done" is constantly in order for these men. The best way we can say "thanks" to them, as we see it, is to remove the fire hazards that are piling up around many of our homes. Some own vacant lots that need immediate attention. Some own dilapidated buildings. These need to be removed. Some own lots that are grown up in weeds and brush. Do whatever you can to decrease these problems. This will help prevent brush fires and may let these fine firemen spend a warm night at home with Mama and the children rather than risking their lives breathing smoke and dodging falling death traps of fire.

We repeat what we have said before, we can only do what you are willing to have us do. We can only make those improvements that you are prepared to have done. We will manage the money we get from taxes and water sales and any other collections we make for services rendered. We are accountable for every penny and welcome anyone anytime to see how we are spending it. We do not always spend it as some would have us do. Many times we do what we have to at that exact moment and seldom is it possible to solve an emergency in the best economical fashion. Outside of this we know of many major projects that could be done. There are dozens of streets that need paving. We need additional elevated water storage. We need up-dated garbage disposal facilities. We need sewer lines in every block of our city that does not have them. No one denies or even disputes these. But to do them all important dollar pops to the surface very quickly. Some are within the realm of possibility under present conditions. Most are not.

We are sad when we think of all the unfulfilled needs in our community, but we are proud of the facilities we have and know that many thousands have sacrificed in the past so that we could have them today. Thirty years from now others will be saying the same about us. Let us cooperate together rather than demand of each other.

--Jim Davis

## Neighborhood Center Names New Officers

The Community Action Board met Tuesday, Jan. 18, at 7:30 p.m. at the Neighborhood Center. Purpose of the meeting was to elect new officers who will serve through December 1972.

The following were elected to office: Mr. James Davis, President; Mr. Wendell Jones, Vice-president; and Mrs. Clorene Henderson, Secretary.

A regular meeting time was set. It will be the first Tuesday of the month at 7:30 p.m. at the Neighborhood Center.

Mrs. Sepeda then gave a brief report of the training session she attended in Floydada on January 11, 12, and 13. She pointed out that the next two years have been referred to by C. A. P. as a turning point in the program. Much emphasis has been given on strengthening local C. A. P.'s and organizing to more effectively meet the needs of those in poverty. It will be up to the entire community to help and support the C. A. P. Program or leave the job of fighting the war on poverty to just a handful of individuals.

In other business the board approved a suggestion by Esther to try working with Texas Employment Commission and maybe obtaining a worker to come down to Abernathy once a week so that the people would not have to go to Plainview to apply for employment. We hope to get something worked out soon on this.

Board members attending were Mrs. Micki Villegas, Mrs. Clorene Henderson, Mr. Claude Mullins, Mr. Wendell Jones, and Mr. James Davis. Meeting adjourned at 8:30 p.m.

--Reported

## Mr. Chapman Dies Sunday

Daniel Edward (Ed) Chapman, 79, an Abernathy resident since 1940, died about 11:40 a.m. Sunday, Jan. 23, in West Texas Hospital, Lubbock. He had been a patient in that hospital about ten days.

Funeral rites were held at 3 p.m. Tuesday in Abernathy First Church of the Nazarene with Pastor Louis Schaap officiating. Graveside services were held at 3 p.m. Wednesday in Parks Cemetery northwest of Loco, Okla. Chambers Funeral Home of Abernathy was in charge of arrangements.

Mr. Chapman was born July 13, 1892, at Parks, Indian Territory, Oklahoma. He and Miss Myrtle Mae Mitchell were married March 24, 1918, at Loco, Okla. The Chapman family moved here from Loco, Okla. He was a retired carpenter.

Survivors include his wife; three sons, Dan of Abernathy, D. W. of Longview, Wash., and Arrel of Clovis; five daughters, Mrs. Geneva Brandon of Central Point, Ore., Mrs. Opal Sherrill of Dayton, Ore., Mrs. Virdean Wilson of Duncan, Okla., Mrs. Bernice Emerson of Auburn, Wash., and Mrs. Janice Rosestien of Norwich, Vt.; a sister, Mrs. Flora Shaw of Sallisaw, Okla.; 21 grandchildren and 19 great-grandchildren.

## Lula Farris Dies; Services Friday

LUBBOCK (Special) -- Lula Mae Farris, 73, of 2222 16th St. died about 3:30 p.m. Wednesday, Jan. 19, in West Texas Hospital after a lengthy illness.

Services were held at 10 a.m. Friday in Ford Chapel of First Baptist Church in Lubbock with the Rev. J. T. Bolding, associate pastor, officiating. Burial was in Resthaven Memorial Park under direction of Rix Funeral Directors.

Mrs. Farris was a daughter of the late Rev. and Mrs. J. M. Rankin of Abernathy.

Mrs. Farris' sister, Miss Mary Rankin, a former Abernathy School teacher, died Dec. 21, 1971, in Falls.

A resident of Lubbock since 1921, she graduated from Wayland Baptist College and taught in Lubbock rural area schools. She was a member of the First Baptist Church and a 50-year member of Eastern Star.

Survivors include a son, Paul of 2622 39th St.; four brothers, Jim Rankin of Falls, the Rev. Harvey Rankin of Washington, D. C., the Rev. John Rankin of Stanton and Gamber Rankin of Brownsville; a sister, Mrs. Grady O'Rear of Loco; and four grandchildren.

## IOOF Lodge Holds Officer Installation

Officers of Abernathy Lodge No. 809, IOOF, were installed in due form Thursday night, Jan. 20, by District Deputy Grand Master Warren Graham and staff from Plainview Lodge No. 12.

Local officers installed were: Lloyd Jones, Noble Grand; Joe Chambers, Vice Grand; Virgil Brantley, Secretary; Bryan Phillips, Treasurer; Hilburn Barick, Conductor; L. O. Oswalt, Warden; Finis Hill, R.S.N.G.; Wayne McClendon, L.S.N.G.; Robert Totty, R.S.V.G.; Hubert Robertson, L.S.V.G.; Ray Higginbotham, R.S.S.; Marvin Tolier, L.S.S.; Garland Brantley, Inside Guardian; Frank Ruston, Outside Guardian; Edgar Heath, Chaplain; Owen Benn, Acting Past Grand; Bryan Phillips, Reporter.

## Struve, Hoppy's Sales Start Here Thursday

Two big sales begin in Abernathy Thursday, Jan. 27, and continue Friday and Saturday, Jan. 28 and 29. They are the January Clearance Sales at Struve Hardware & Dry Goods and at the companion store, Hoppy's Shop, Shoes & Men's Clothing, owned by Hoppy Toler, who also is manager of Struve's. See Struve's and Hoppy's Sale Advertisements in this paper for a partial list of the many bargain-priced items that will be on sale.

REV. JACK L. RILEY

## Dan Ryan Is Co-op Grain's New Manager

Mr. and Mrs. Dan Ryan and son, Trent, 3, have moved from Lorenzo to 305-B Ave. F in Abernathy. Ryan is the new manager of Co-op Grain Company of Abernathy and Heckville. Dan and his wife, Donna, had resided at Lorenzo the past four years. He was general manager of the Lorenzo Grain Co-op during that time. Prior to that period, they resided in Oklahoma City, where he was employed by the Kerr-McGee Chemical Co.

The Ryans have bought one of the two houses being built in the Virgil Phillips Addition and will move there when it is completed, in about two months.

Rev. Jack L. Riley, missionary to the Republic of South Africa, Northern Field, now on furlough, will be the speaker at the Sunday evening service at the Church of the Nazarene on January 30 at 6:50 p.m.

Rev. Riley has held many positions of responsibility in the Johannesburg area, and in Salisbury, Rhodesia. In addition to evangelism and other general missionary work he has had building responsibility, and has had the duties of zone leader, and has led the Christian Service Training Program.

Rev. Riley studied at Olivet Nazarene College, Kankakee, Illinois, and at Pasadena Nazarene College, Pasadena, California, receiving his AB degree at the latter. He pastored in Pasadena, Forrest Park, and Glendale, California.

In the service Sunday night Rev. Riley will bring reports of victories on the mission field. He will relate how God has used the missionaries, and the prayers and support of those who send the missionaries to redeem souls in Africa.

The Rev. Louis Schaap, pastor of the local Church of the Nazarene expressed for the congregation a warm invitation to attend this missionary rally. He said, "With the current report of missionary cutbacks by many major denominations because of lack of funds, it would be well for all to find out first hand just what impact missions have upon our world today."

The local church continues to support the world-wide evangelistic efforts of the Church of the Nazarene by contributing 15 percent of all monies raised by it to this purpose. The Church of the Nazarene International continues to operate an aggressive and growing missionary program, seeking to meet the needs of men in these turbulent days.

MEMPHIS, TENN. (FHTNC) JS Jan. 18--Navy Petty Officer Second Class Lyle F. Greene, son of Mr. and Mrs. James F. Greene of Abernathy, Texas, completed the Aviation Support Equipment Technician School at Memphis.

His duties will include the maintenance of turbine and diesel engines gas turbine compressor units, air conditioning and related systems essential to the operation of naval aircraft.

He is a 1954 graduate of Abernathy High School, Abernathy, Tex.

OKINAWA (FHTNC) LS Jan. 17--Marine Staff Sergeant Harold G. Overstreet, son of Mr. and Mrs. L. S. Overstreet of Route 2, Petersburg, Tex., won the Camp Foster Doubles Handball Tournament Championship at Camp Foster, Okinawa.

## News Of Area Servicemen

ST. ISIDORE'S CHURCH NEWS

The children who earned prizes in the young people's revival in the local Catholic Church for the best recitation of The Apostles' Creed were: Jane Kveton, Sylvia Manzanales, Jack Ramos, and Josie Menzales. Francisco F. Julian made the awards Wednesday afternoon, Jan. 19, at the closing of The Children's Preaching Mission.

There were two baptisms at St. Isidore's Catholic Church in Abernathy Sunday: Eli, Jr., child of Eli and Jamie DeLeon Paz, with Sippian and Adelberto Martinez as sponsors; Marcus, child of Jose L. and Eva Martinez Costilla, with Lorenzo and Maria Casias as sponsors.

The 6th and 7th grade Sunday School students, along with Joe Ramos, Parish Council President, and Sunday School teachers Amy Garcia and David Barrera also attended the baptisms.

## C-Club Members' General Meeting Set Feb. 3

Due to lack of interest of the members, planning of the "Night at the Club" has been postponed indefinitely.

The annual meeting of Abernathy Country Club will be held Feb. 3, 1972, at 7:30 p.m. at the Country Club. New officers will be elected at this time. All members are urged to attend. This is your club and unless you take an interest in it, it will become of no use to anyone. So mark Feb. 3, 1972, 7:30 p.m. on your calendar.

Doughnuts, coffee and cokes will be served.

Delton Stone, President

## Revival At Church Here

Revival is now in progress at the Abernathy Community Foursquare Church with Rev. Lawrence Bates of Lubbock, speaking each night. Brother Bates is a forceful and oriented speaker of God's word. There is special musical talent nightly.

Rev. and Mrs. Welton Parrish, pastor, welcome the public to worship with them. The church is located at 14th St. and Ave. E. Services begin at 7:00 p.m.

## Smitty Covey Scores With Judging Team

The Lubbock Christian College Livestock Judging Team, under the coaching of Jess Holloway, placed ninth overall out of 22 teams at the National Western Senior Livestock Judging Contest, January 14 and 15. The team was fourth highest in swine judging and seventh highest in sheep.

Smitty Covey, son of Mr. and Mrs. W. A. Covey, 1102 Avenue G, Abernathy, was third highest individual in swine judging; and Steven Hanes, Nazareth, was second highest individual in sheep judging.

Other team members are: Jim Judah, Casey, New Mexico; Roy Puckett, Lake Arthur, New Mexico; and Jimmy Glenn, Kress, Texas.

## Miss Bartlett On Honor Roll

Virginia Bartlett, daughter of Mr. and Mrs. Frank Bartlett, Abernathy, has been named to the Dean's Honor Roll for the Fall semester just completed at Lubbock Christian College.

A grade point average of 3.5 is necessary to be named to the Dean's Honor Roll. Miss Bartlett had a 3.5 GPA.

LCC is a small, private, senior liberal arts college offering BA and BS degrees in 16 majors.

## Upholstery Firm Moves, 1312 Ave. D.

Floriene & Betty's Upholstery Shop is moving from South Abernathy to the building recently vacated by Newton Radio & TV at 1312 Avenue D. The firm is operated by Mrs. R. C. Patterson, Jr. (Floriene) and Mrs. W. D. Hani (Betty). They invite you to visit them in their new location.

Mrs. Allie Smith has returned home after spending Christmas with her son and family in Azusa, Calif. On her way home she visited her sister in Phoenix, Arizona. She made the trip by plane, her first plane ride.

## Great Society Club To Meet

The Great Society Club will meet Monday, Feb. 7, at 1:30 p.m. at the Neighborhood Center.

The program will be on Menopause and will be presented by Hale County Nurse, Mrs. Mary Lou Truesdale and Mrs. Betty Morton.

We believe the program will be of special interest to women of all ages. So we invite you to come out and visit with us. All club members are urged to attend this very important meeting.

--Reporter

## Draft Notices Temporarily Come To Halt

Draft calls of Plainview and area men have come to a standstill and those subject to the draft may not receive notices until March at the earliest.

No one will be considered for induction until a new set of directives are received from the national draft agency, explained Miss Bertha Clapp, secretary of Local Board No. 45.

Since the new draft law was passed in late 1971, local board's still have not received directives by which to operate. One directive is that board must give inductees 30 days notice prior to induction.

For that reason, if new rules are not received here in February, no men could be inducted until March, 30 days later, Miss Clapp said.

Draft continued withdrawal of armed forces from Vietnam and a general military cutback, draft calls could continue to be far below figures for 1971.

Only four men were inducted here in December. However, due to last minute revision of draft laws, orders were received in this induction, Miss Clapp said.

## EVENT HELD HERE BY THE OES CHAPTER

Abernathy Chapter O.E.S. entertained with a well attended Salad supper Saturday evening, Jan. 22. Beulah, the program chairman, dedicated the program of the evening to the Chapter Mother, Manna Struve, by presenting her with an appropriate robe and crown. Mrs. Struve has been dedicated Chapter Mother the last 20 years, at one time having 15 relatives on the Chapter Roll.

The Tempo Aires Quartet from Slaton entertained the party with renditions in close harmony of favorite sacred songs.

--Irma Ward, W.M.

## Tech Students On Honor List

Two Abernathy students in the College of Home Economics at Texas Tech University qualified for the Dean's Honor List for the fall semester. They are Karen McClendon, daughter of Mr. and Mrs. Wayne McClendon, and Mrs. Patricia A. Johnson, daughter of Mr. and Mrs. Grover Stevens.

## G. M. (Pappy) Carr is in West Texas Hospital, Lubbock.

Mrs. Robert Adams has returned home from University Hospital, Lubbock.

R. R. Knox is in University Hospital, Lubbock.

Mr. and Mrs. Alvin Hardir are visiting in Porterville, Calif. Mrs. Douglas Chapman and Mrs. Cecil Faulkenberry of Seagraves plan to fly to California Saturday and return home with the Hardins the middle of next week.

Mr. and Mrs. Eddie Curry and son of Monahans spent Monday night here in the home of Eddie's aunt, Mrs. Douglas Chapman.

Mrs. C. C. (Opal) Shipman is the new secretary at Abernathy Church of Christ.

Bill Waits was a patient in Hi-Plains Hospital, Hale Center.

Mrs. Charles Ray Owens underwent surgery last week in Highland Hospital, Lubbock.

Mr. and Mrs. Leland Phillips attended the Gimmers Convention in Dallas week. He is manager of Abernathy Farmers Co-op Gins.

Mr. and Mrs. S. W. Royal and Mr. and Mrs. Hilburn Barick returned home Thursday from a trip to Nassau in The Bahamas. They were guests of Farmland Industries of Kansas City, supplier for much of the merchandise stocked at Abernathy Consumers Fuel Association. They made the trip by charter jet from Amarillo with other guests of Farmland Industries.

## OES Meeting Set. Feb. 3

Abernathy Chapter No. 877, Order of the Eastern Star, will hold a stated meeting Thursday, Feb. 3, starting at 7:30 p.m. Hostesses will be Karen Bradley, Ruedelle Hill, Amelia Ray, and Sharon Richardson.

Mrs. Dan Ward, Worthy Matron, urges all local members to be present, and extends an invitation to visiting Eastern Star members.

Linda Adkisson, daughter of Mr. and Mrs. Gid B. Adkisson, Jr., was a patient in West Texas Hospital, Lubbock. She was scheduled to come home Tuesday.

## Masons Meet Here Feb. 10

Abernathy Lodge No. 1142, A. F. & A. M., will conduct a stated meeting at 7:30 p.m. Thursday, February 10. All Masons, local members and visiting members, are invited to attend, said Worshipful Master Guy Bartlett.

The January 18 meeting was well attended, and the program was Mr. Troy Hurley, assistant district attorney, Lubbock. Mr. Hurley is in charge of the drug traffic investigation in Lubbock and surrounding territory. This program was secured by Mr. Charles Bowen, Lion Bowens when he was at Smyer, Lion Jim Bob Smith had the January 25th program. Your attendance is invited.

--Hoppy Toler, President

## From The Desk of the City Manager

This spring-like weather has brought about many signs and feelings that summer is just around the corner. There are bound to be many more days and nights of real winter ahead, but they will be fewer and fewer until suddenly we will get up some morning and our farmer neighbors will be cranking up the old planter and feeling of the soil to see if their built-in thermometer says it is 65 degrees and the time has come to start the big gamble all over again.

As we drive around our beautiful City, we see a few not so beautiful sites that we would encourage our neighbors and fellow citizens to also take a hard look at and, if it is at all possible, to correct them. There are some abandoned houses and lots in town that are fire hazards now--health hazards later when the mosquitoes return and certainly a detriment to the value of property around them. Some of these are hopelessly bogged down in estates, foreclosures, and inability of some owners to do it themselves or hire others to do it. These will take special handling and we will not be able to do anything on them. But we would hope that there are only a very few like this.

There are other situations in town that we as individuals can do a great deal about and we have to be optimistic that most of us will correct those situations that are within our ability to accomplish. In many instances there are rules governing these situations. But rules and regulations are not the answer now, nor will they ever be in a friendly, neighborly, family-type community such as we are. As far as we are concerned, these attributes are the things that set us apart and make us a desirable place for peace-loving, independent-thinking people to live and rear their families. Here you never hear people say such things as "The policeman or fireman will get you if you don't tow the line and do as you are told." We have one policeman on duty all of the time. With this kind of manpower it is easy to see that we cannot "make" anyone do anything unless they choose to do so.

Again, though, we are not asking for any more policemen or for full-time firemen. We like everything just the way it is. If you could see our fine Volunteer Firemen literally running to get to the fires at almost record time, you would certainly be more appreciative of their efforts. The hour nor the day of

### The Struves' 5-Month Trip

(Editor's Note: The Review wishes to thank Mr. and Mrs. Arno Struve for sharing the experience of their five-month trip to foreign lands with The Review readers. This is the last installment, one that we overlooked somewhere between the first and the final story, which appeared Jan. 13.)

When we went back to Camballin to get the station wagon I met Charlie Hudson from Portales, New Mexico. Charlie is in charge of farming operations for the company. Currently there is a "small" acreage in production. A previous attempt at farming rich had left a system of irrigation from the Fitzroy and three thousand acres as a start toward grain sorghum cultivation. Rice had failed because of high costs and the presence of huge numbers of wild birds and kangaroos.

We returned to Liveringa where we washed the Holden. It was so hot by this time I was glad to put on my swimming trunks and help Wesley clean up the car and at the same time get liberally splashed with water.

Wesley returned to the airstrip to await the coming of Mr. Court. While he was away I used the time to take pictures of the house and very interesting surroundings. A large number of aborigines live around the house at a distance of several hundred yards from it, is their ancestral home and they live here because of the permanent water supply furnished by the "billabong" in the valley below the house. A billabong is a blind water channel that leads nowhere but usually contains the apparently connected to the underground water bearing formation and thus is permanent.

Beyond the billabong is a vast plain that extends for many miles. The recent precipitation had caused a greening up of the Mitchell grass that becomes almost non-existent during the dry season. A scattering of small eucalyptus trees is also a part of the native plant population of the beautiful plain. This plain is the area that will someday be a vast farming operation. The presently farmed area is several miles eastward from the house in the middle of the proposed farming area. Frequently during the wet season the Fitzroy River floods this huge plain to a depth of three feet or more making it necessary in the levee will cost about a million dollars. There are a number of low hills in the plain that are abrupt rises but small in acreage. When a flood comes it is said that large numbers of animals, wild and domestic, gather on these little hills of refuge from the water. It must be an interesting sight to see sheep, cattle, kangaroos, dingos and no telling what else on these islands.

While awaiting Wesley's return I became interested in their piano. It had been brought all the way from Perth and had been transported many of the hundreds of miles on rough dirt roads. Naturally it was very much out of tune. I had brought a few tuning tools to Australia with me but had left them in Adelaide when we sorted out the things we thought were absolutely necessary to take with us. I was very vexed with myself for not bringing the tools along, but somehow I knew that we'd have to tune that piano! Just how this was actually accomplished I will relate as the necessary tool substitutes came in hand.

Wesley returned to report that Mr. Court who had been warned by radio of the condition of the Camballin airstrip would not be able to come. There was some relaxation in the tense atmosphere of anticipation when this news arrives.

In the afternoon I went with Wesley to get a tractor that was bogged down in one of the fields. We were unable to come within a half mile of the tractor due to the muddy roads. All the rain that falls stays right where it lands. The ground is so flat that the cultivated fields, roads, and turnrows absorb almost every drop of rain.

After we returned to the house a delightfully cooling shower made relaxing on the big veranda a most pleasant experience. After the rain there was a double rainbow in the sky that seemed so close to us that we might have reached out and touched it. The arch of the rainbow framed the billabong that was now a center of interest for the aborigines who were enjoying the coolness in their own traditional way around the water's edge. Although the billabong is a half mile from their "homes" there was never a time during our stay that there was not some native activity around the water. In the heat of the day there might be only two or three people in the shade of a tree or sitting at the water's edge with their feet in the water.

The "homes" of the natives were not really what we would consider fit places for humans to live. The more affluent like the "chief" had a tiny sheet iron hut but the others had shelters of tree limbs. Some lived in old car bodies and still others had no cover at all. In case of rain they could find shelter under the nearby sheep shearing shed.

The very substantial sheep shearing shed was silent witness to the past days of glory of the wool industry. The building and equipment was in excellent condition and would be ready at a moment's notice to be useful again. Wesley very liberally offered to let us take any of the equipment with us that we might want but we declined the offer inasmuch as it would be difficult to crowd a hydraulic wool packer into our luggage!

After a substantial supper we returned to the veranda to enjoy the evening coolness following the rain. Interesting conversation covered many subjects from Texas to Western Australia. We reported as much as we could about their friends in Hale Center. Minnie is a Hale Center native and knows so many people that she could give them a lot of news about the folks back home. The Roddy's recounted their experiences following their decision to live and work in Australia. They do not intend to make Australia their permanent abode but they have such an attractive arrangement at the present that it would seem that as long as the Australia Land and Cattle Company is viable they will be tempted to stay.

Liveringa is the traditional gathering place for the blacks from a large area around. The special meetings they have here are called corroborees and are both religious and festive in nature. Modern medicine had intruded itself on the natives in the form of tetanus shots for the young men, who are to be initiated into the tribes as adults during these corroborees. These shots are supplied by the government health department. I have heard it said that I "leave nothing out" in this story of our travels but I assure you that the description of these rites will be omitted!

As we sat on the porch we heard the natives beating out rhythms in practice for the coming Christmas corroboree. They have no drums but use two sticks to beat the time and perhaps they use their boomerangs since these weapons have a special significance to them. They also chanted and moaned and "sang". At the time of the Christmas corroboree they expect some three hundred aborigines to gather at Liveringa. The climate in northwestern Australia is from hot to mild. It never really gets cold, frost completely unknown. A recent letter from Mrs. Roddy stated that they were using blankets at night which is quite a change from what it was while we were there.

### News From Soil Conservation Service

Conservation of water has become one of the major concerns of South Plains farmers. The erratic rainfall pattern of this area is the chief cause of this concern. The ability to make efficient use of rainfall is going to become an essential part of the farming operation if the South Plains farmer is to remain prosperous.

The South Plains of Texas is located in an 18" per year average rainfall belt. This is sufficient moisture to produce high yields for cotton and grain sorghum if it could all be made available to the plants. Due to the high intensity of the rains in this area, as high as two-thirds of this yearly rain runs off the land and becomes of no value to the crops. The amount of runoff is directly related to the soil type, percent slope, moisture condition, and surface condition of the soil. It is evident that the key to the water conservation problem is to hold the rainfall on the land.

It has been recognized for several years that Standard Terraces will control water erosion and, with proper end enclosures, will hold the rainfall of the land. As more concern over this moisture conservation problem was shown, the need for improved terrace systems became evident. In response to this need, parallel terraces were developed. Parallel terrace systems control water erosion effectively, as do Standard terraces. They are superior to Standard terraces because they provide better water distribution over the terrace interval. Their alignment is also superior because large equipment can be used easily since there are usually no "point rows" and very few "angle rows".

The decline in the underground water supply has stirred new and wide-spread interest in water conservation. To meet the demands of this new interest, a new type of terrace system has been developed. This new system, parallel ridge-type terraces with level intervals, is recommended on slopes of two percent or less in areas where the average annual rainfall does not exceed twenty-five to thirty inches. This new system will do the same job of controlling water erosion that parallel terraces will do but with the interval leveled, the water distribution will be improved. The terrace ridges in this type system will not normally be large enough to be row cropped. They are required to have a 4.0 foot crown and must be at least 1.0 foot high. The side slope may vary as needed to produce uniform width throughout the terrace interval. The width of these terraces will usually be about 10 to 12 feet.

The interval between the terraces shall not be farther than 250 feet or less than 80 feet. Soil depth, depth of cuts required to level the interval and width of farm machinery to be used must be considered in determining terrace spacing. The variation in the interval after completion of work shall not exceed 0.2 foot in any level section of the terrace length. For more information about Parallel terraces, Parallel terraces with level intervals, or any other conservation items contact your local Soil Conservation Service office. The Soil Conservation Service Work Unit for Lubbock County is located in the Federal Office Building, 1205 Texas Ave., Room 219, telephone 747-3711, Extension 646.

The addition of cotton burrs to cropland has proven to be very valuable in many ways. Cotton burrs are especially effective on fields that produce little or no residues such as those planted to cotton.

Cotton burrs should be applied at the rate of three tons per acre and 1/2 ft on the soil surface as long as practical. Burrs left on the soil surface mix with the soil gradually. This process improves the organic content of the soil in the top five to six inches. This increases the moisture penetration in the soil and reduces the evaporation loss.

Cotton burrs increase crop yields due to the conservation of moisture, preventing surface compaction and reducing runoff as direct effects of the improved physical, chemical, and biological conditions of the soil. Wind erosion is decreased on cotton or other fields which otherwise would have little protection.

Your local Soil Conservation Service office, assisting your Soil Conservation District, can furnish you information for applying burrs or any other conservation practices.

Mrs. Jack Cogswell of Victoria visited here last week in the home of her cousin, Mrs. Lloyd Edwards.

Mr. and Mrs. Clayton Enger moved from a farm east of town to their new home at 903 First

## Richter, 25-Year Company Veteran, Builds Cars, Skis, Considers Flying

(Editor's Note: The following is from the North American Rockwell News, El Segundo, Calif. It concerns Hugo Richter of North Hollywood, Calif., an employee, Hugo, a son of Mr. and Mrs. H. E. Richter of Abernathy, is a graduate of Abernathy High School and of Texas Tech.)

If no man is really happy without a hobby, the world has to be doubly bright for Hugo E. Richter, Jr.

Richter, a Nuclear Engineering designer who recently completed 25 years with NR, has two hobbies going for him and a third in the making.

Anyone calling at his Northridge home will likely find him in the garage pursuing his major interest — restoring old cars. He'll show you a 1915 Model T Ford that looks as if it just came off the assembly line. Hugo put it together himself, from parts collected here and there. The parts he couldn't find, he made. Now he's working on a 1914 Model T roadster.

In repainting the cars, Hugo has been faithful to Henry Ford's dictum — "You can have any color you want, so long as it's black." But he is about to break with tradition. "I think," he says, "I'll dress the next one up a little."

While he is putting a car together, he keeps on the lookout for accessories appropriate to the model period. They are hard to find, but persistent searching turns up a few.

Value Going Up  
Acquiring antique cars can be an expensive hobby for people who simply buy them. "It isn't so costly, though, if you put them together yourself," says Hugo. "In fact," he adds, "the cars I've built are worth a great deal more now than I have invested in parts."

A second hobby, when he can manage time for it, finds Hugo riding a pair of water skis, towed by his wife, Jolene, in an 18-foot outboard. He first tried the sport about 12 years ago, like it, and bought the boat in 1966. His favorite water is Nacimiento Lake, north of San Luis Obispo.

The distance makes frequent ski trips impractical, however. In addition, it is required that there be an observer in the boat. "It takes three to ski," Hugo points out, "and it isn't always convenient for someone else to go along."

There's another prospective hobby, however, that may work out better. Hugo has been taking the ground course at a flight school. "If I pass the final test, I think I may take

Hugo Richter

flying lessons," he says.

### Joined NR in 1946

Richter joined NR's Los Angeles Division at the Inglewood plant in 1946. His first design work was on a wind tunnel model. Moving into the Aerophysics department, he went with that department to Downey. One of his major assignments was design work on launching equipment for the NATIV missile.

In 1952, he joined the Atomic Energy Research department, forerunner of AI. During the period 1953-57 while the Sodium Reactor Experiment was being built, he was a supervisor. Later, he did design work on the SNAP 4 compact reactor.

Last summer, he was assigned with an AI group to Argonne National Laboratory for six weeks of safety studies on the Fast Flux Test Facility. His present assignment is on the FFTF in-vessel fuel handling machine.

Two married daughters, Karen and Kimberly, and a grandson live in Dallas.

## Alternate Crops For Set-Aside Are Outlined

Farmers participating in the 1972 cotton, feed grain and wheat programs will have the opportunity of planting any of eight alternate non-surplus oilseed crops on their set-aside acres, the U.S. Department of Agriculture has announced.

The alternate crops for 1972 are castor beans, crambe, guar, mustard seed, plantago ovate, safflower, sesame and sunflower. The list is unchanged from that in effect for the 1971-crop year.

Producers planting any of the alternate crops on set-aside acreage will have a deduction made in their per-acre set aside payment. The payment deduction for 1972 will be related to the

WELCOME TO THE COMMUNITY FOURSQUARE GOSPEL CHURCH 14th Street at Ave. E in Abernathy, Sundays and Thursdays, Children's Church Saturday at 2 p.m. JESUS SAVES

average productivity of the land. An average productivity deduction rate will be used for each county, with rates varying from \$6 to \$10.20 per acre. The per acre reduction rate established for Hale County is \$9.10.

For 1971, when any of the alternate crops were planted, there was a straight \$10 deduction per set-aside acre planted. A total of 53,888 set-aside acres were planted to one or more of the eight crops this year.

For 1972, the county set-aside payment rate deduction for alternate crop plantings will be available at all applicable county ASCS offices.

## Roy Tolk Elected SWPS Chairman

Roy Tolk was elected chairman of the board, president and chief executive officer of Southwestern Public Service Company at a meeting of the electric company's directors Wednesday in Dallas.

Tolk joined Southwestern in 1938, shortly after his graduation from the University of Texas. He became a vice president of the company in 1957, executive vice president in 1965 and president and a director in 1967.

A registered professional engineer in Texas, Tolk is also a member of Eta Kappa Nu engineering honorary fraternity. He is active in electric industry affairs and is a director of the Edison Electric Institute, The National Association of Electric Companies and the Texas Atomic Energy Research Foundation.

Other important business and civic posts in which he serves include membership on the board of the First National Bank of Amarillo; directorships in the Texas Manufacturers Association and the Texas Research League; vice president of the board of trustees of St. Anthony's Hospital, Amarillo; and member of the board of regents of Amarillo College.

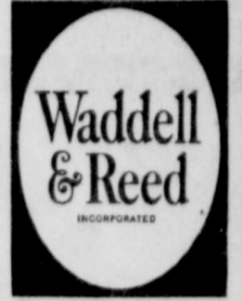

At the annual stockholders' meeting which preceded the

## 1954 Women's Club Meets

The 1954 Women's Club met Wednesday, Jan. 19, in the club room. A business meeting was held and plans for family night were discussed. Members present were Joanne Allen, Joy Allen, Liz Attebury, Liz Spradling, Karen Bradley, Pam Gilvens, Kay Knight, Janice McKenzie, Frankie Mills, Gwen Pope, Frances Thompson, Peggy Waters, and Linda Webb. Jackie Hutchison attended the meeting as a guest.

## 184,000 Mile Long Extension Cord

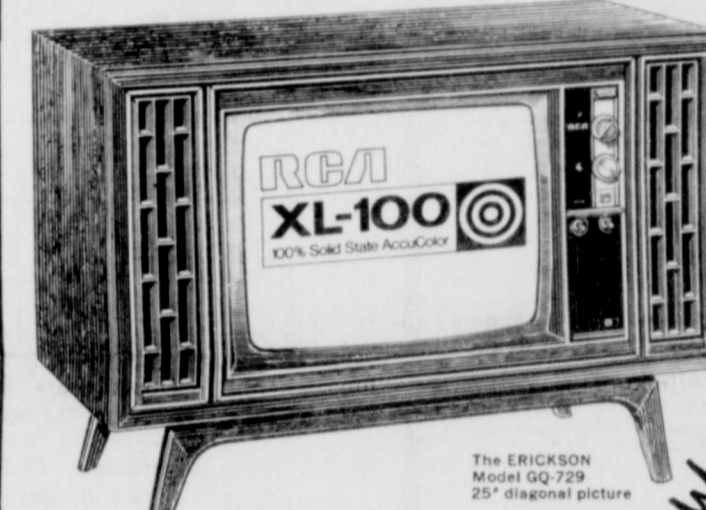

There's an extension cord 184,000 miles long that stretches from the panhandle of Texas to the Rio Grande Valley, from Louisiana to the New Mexico Border and points in between. These are the electric power lines of the 79 independent, member-owned, rural electric cooperatives who pioneered electric service in the remote reaches of the Lone Star State, helping Texas grow. South Plains Electric Cooperative with 2,877 miles of line furnishes the extension cord for this area.

**Hale County Assigned To Price In District 13**

The federal court order issued in Dallas Saturday resetting the boundaries of U. S. House districts in Texas means Hale County will remain in the district now represented by Congressman Bob Price of Pampa.

In the plan approved in 1971 by the Texas legislature, Price's district would have been moved east so that Price and Congressman Graham Purcell of Wichita Falls would have been competing for a single space in the House.

At the same time, Hale County would have been placed in the district now represented by Congressman George Mahon of Lubbock.

District Enlarged Under the court's plan, Price's district has been enlarged from 28 Panhandle counties to include all of 11 other counties located to the southeast of the present district, along with parts of three others.

New counties in the district, which will be changed in number from the 18th to the 13th, include all of Childress, Hardeman, Foard, Cottle, Motley, Floyd, Crosby, Dickens, King, Kent and Stonewall. Also added is the west half of Haskell County, all of Knox county but the southeast corner, and all of Hockley County but the southeast corner.

Counties already in Price's

district include Hale, Lamb, Bailey, Hall, Briscoe, Swisher, Castro, Parmer, Collingsworth, Donley, Armstrong, Randall, Deaf Smith, Oldham, Potter, Carson, Gray, Wheeler, Hemphill, Roberts, Hutchinson, Moore, Hartley, Lipscomb, Ochiltree, Hansford, Sherman and Dallam.

Under the court plan, Purcell, a Democrat, and Omar Burleson of Anson, another Democrat, will be facing each other in a race for a single place in the House, rather than Purcell facing Price, a Republican.

**SOCIAL SECURITY Questions and Answers**

By MANCIE KING Social Security Representative

Q. I received social security checks last year and earned more than \$1680.00. I think I am supposed to make a report about this. How do I do this? Is the report on my income tax return sufficient?

A. You need to make a report with the Social Security Administration by April 15. This is called an "Annual Report". This report has no connection with your income tax return. The Annual Report will result in settlement in social security benefits for last year. Social

security pays benefits or withholds them according to your estimate of earnings during the year. Then settlement is made based on your actual earnings soon after you have submitted your report for last year.

Everyone who received one or more social security checks last year and earned more than \$1-680 must file the Annual Report by April 15, 1972, or risk a penalty for late filing. There are two exceptions to this rule: 1) if age 72 or over all of last year; or 2) if a disability beneficiary.

If you need help or more information, call your social security office at 293-4371 or drop in at 1401-B West 5th Street in Plainview.

**Legal Notice**

Sealed proposals addressed to the Honorable Mayor and City Council of Abernathy, Texas, will be received at the office of the City Manager, City Hall, until 7:30 p.m., February 14, 1972, for furnishing all necessary materials, machinery, equipment, superintendence and labor for furnishing and installing low intensity lighting together with the necessary underground cable, segmented circle, lighted wind cone, a rotating beacon, and other incidentals of work at the Abernathy Municipal Airport.

Bidders must submit a Cashier's Check or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond from a reliable Surety Company, payable without recourse to the order of the City of Abernathy, in an amount not less than five percent (5%) of the bid submitted as a guaranty that the Bidder will enter into a contract and execute bonds, bids without the required check or Proposal Bond will not be considered.

The Successful Bidder will be required to furnish a Performance Bond and a Payment Bond each in the amount of the of the contract, written by a responsible Surety Company authorized to do business in the State of Texas, and satisfactory to the Owner.

Attention is called to the provisions of the Acts of the 43rd Legislature of the State of Texas, page 91, Chapter 45, (Article No. 5159A Civil Statutes 1925) concerning the wage scale and payment of prevailing rates of wages as established by the owner. Said scale of prevailing minimum rates of wages is set forth in the specifications. Information for bidders, proposal forms, specifications and plans are on file in the office of the City Manager, City Hall, Abernathy, Texas; and copies of the Plans and Specifications may be secured from Parkhill, Smith & Cooper, Inc., Consulting Engineers, 201 Avenue R at Clovis Road, Lubbock, Texas, 79415, upon a deposit of \$20.00 as a guarantee of the safe return of the plans and specifications.

DTP and/or Td	3	3	3*	3**
MEASLES	NONE	1	1	NONE
RUBELLA	NONE	1	1	NONE

NOTE: \*At least one of these doses must have been received since the 4th birthday.  
\*\*At least one dose must have been received within the past 10 years.  
If a child has had measles illness, measles vaccine is not required.  
Requirements for Kindergarten (five-year-old children only) and grades 1 thru 5 are the same as those for ages 5-11 years shown above.  
Requirements for grades 6 and above are the same as those for ages 12 years and older as shown above.

**Esty Gives Talk On Farm Safety**

JAMES ESTY

Assistant Hale County Agriculture Agent James Esty spoke to the Microterm Safety and First Aid class at Wayland Baptist College Tuesday on "Farm Safety."

Esty, agronomist for Hale County, quoted the 1970 statistics of tractor and machine related deaths and emphasized how unnecessary these tragedies are to the rural population of Texas. Common safety rules were discussed with the class joining in to question terms and procedures.

Also relevant to the subject, new Farm Legislation was explained with particular emphasis on the new trailer law, and the "Slow Moving Vehicle" sign law.

Fifteen students, with Sylvia Nadler as instructor, are meeting for a three week semester attending class Monday through Friday 9-12 a.m. The course covers several aspects of safety education and the accompanying First Aid.

THANK YOU NOTE  
We want to say "thank you" again to each one who had a part in welcoming us into our new home. The money tree was very nice, and we especially appreciate the thought behind it.  
THE DAVE CAVITTS

THANK YOU NOTE  
Just to say "Thank you" seems so inadequate after being the recipient of such lovely flowers, beautiful cards, and needed prayers, but until I can touch your hand and say, "God bless you for caring," I will just say, thank you.  
MRS. JACK BARTON

THANK YOU NOTE  
During the recent holidays, my car ran out of gasoline early one night. A teenage boy and his date stopped to help. They went after gasoline, he poured it in the tank of my car, and they stayed with me until the car started. I don't know the names of the young people who helped me, so I take this means of expressing my appreciation and contented and bolstered my contention that the biggest percent of our teenagers are fine, decent young people. Thank you again,  
MRS. ED GRAHAM

"All tied up" usually suggests that one's movements are restricted.

But to us, "all tied up" means good things. For example, this year we'll complete building a transmission line that will enable us to move electric power to the Public Service Company of Oklahoma... maybe even as far away as the East Coast. Or, to bring electric power into our system from far-away places.

Either way, it's a good deal for you — our customer. It means efficiency in the distribution of electric power and it means firming up dependability.

Yes, "all tied up" means we'll be — so you won't be!
