Report On City Dump Ground Work

Modern society with all its ecological and many pollution hang-ups causes a lot of changes in our so-called every day lives. One of the oldest landmarks to be found in any city, and our city is no exception, is the area commonly known as "the City Dump."

There is no argument against almost anything anyone says about it. There is no argument that many improvements need to be made. There are prescribed corrections that are being accomplished at the present and others will surely follow.

These changes are going to necessitate many alterations to the way the area is supervised and what can be hauled there for disposal. The city has been officially notified by the Texas State Health Department to fence the area and lock the gate when there is no attendant on duty. The fence is nearly complete and, as soon as it is, the regulation will be in effect.

This is going to cause considerable inconvenience and much unhappiness by those who go all the way out there only to find it locked.

A stringent effort is going to be made to stop those who are in the habit of dumping their trash and garbage in the ditch or road near the designated area. The city is presently spending a great deal of money keeping the road open to traffic. Several times an entire truckload has been dumped in the roadway itself. We are sure this was someone from another area, not from Abernathy.

Currently the area is undergoing somewhat of a face lifting, and to use the term loosely, beautification. At least as much as possible is being buried and rearranged so that it looks at least a little less unpleasant.

Some changes that will be instituted very shortly will be: No more car bodies, tractors, refrigerators, stoves or any other large objects will be accepted. No more huge pieces of broken concrete. No more trees. In fact, about what will be accepted is anything one would normally put in his trash barrel. One notable exception to this would be grass and shrub clippings and tree limbs small enough to be lifted and moved by one man. The reason for this drastic change is that everything accepted must be buried and these large objects. The job is almost impossible for the City as it will be under these vastly changed rules.

The question arises immediately, "What is to be done with these large objects that obviously must go somewhere?" The City's answer must be that, unfortunately, they do not have an answer. They have a pile out there now that is going to be an overwhelming problem for them to solve.

About half of the lower portion of the area has been cleared and will be used for burying. The area looks large but it will be used up all too soon and then another area suitable and acceptable to about five state and federal agencies will have to be located. This will be most difficult for the restrictions are many and hard to meet.

All city officials are constantly aware of this tremendous problem facing them. Efforts have been made to cope with the situation and to correct those that are within the realm of possibility.

Currently much trash and garbage is being hauled to the dump from surrounding communities. There is no way to allow this to continue. A fee could be charged to help defray the expense. But this would not solve the problem. The real problem is what to do with it after it is deposited on the pile.

The City respectfully requests that all parties concerned cooperate with the new regulations and restrictions. This is not something they have decided. It is going to increase their work load and supervision costs. Another old land-mark

is being lost and, for the most part, they are happy to see it go since it takes with it the rat and insect infestations plus breeding grounds for mosquitoes, a very unpleasant aroma and much smoke. All of this will not happen in a day, week, month, or even a year, but the time for action is here and now. Much activity is taking place NOW to hasten the day it will truly be a municipal sanitary landfill.

Report On City Dump Ground Work

All qualified voters residing in the Abernathy Independent School District are urged to VOTE Monday, May 29, in the school bond election. Voting will be in Abernathy City Hall starting at 7 a.m. and ending at 7 p.m. Monday, May 29. Charles Edwin Crow will be the presiding judge at the polls and Arno Struve will be alternate presiding judge.

Following is a question and answer interview, providing voters further information on the bond election:

The Abernathy Weekly Review has always supported the local schools and the Board of Education in providing programs and facilities in maintaining the fine educational system we have. The Review will continue its support by endorsing and asking for passage of the \$750,000 bond issue, May 29th. Your editor visited Dr. Webb, Superintendent, and asked him to state and answer the most pertinent questions that had been raised regarding the proposed issue.

How long an issue will this be? ANSWER: Twelve years (Ed. the average issue for school buildings is 20 years.)

Will a tax increase be necessary? ANSWER: If the bonds were sold today, No; should the bond market go up before the bonds are sold the rate might be increased two or three cents, but this would be only for a four year period.

Does this mean that school taxes will not be increased in future years? ANSWER: No, we can only forecast operational cost one year at a time; it does mean that rates would not be increased unless minimally, to pay for school buildings. As stated previously, this being entirely dependent upon the bond market.

Will \$750,000 do everything that needs to be done? ANSWER: No, but it will take care of a major portion of the existing academic needs.

Why is an underground school being considered? ANSWER: The learning environment would be efficient and as effective as a building on ground level. The climate of the building would be more easily controlled. It would serve as a shelter during school hours for all of our students and for the community when it is needed during tornado season. An underground school would be less subject to vandalism and would carry much lower insurance rates.

Would the purchase of additional land be necessary? ANSWER: No, it would be built on the present school grounds.

Are we out of classrooms? ANSWER: Yes, all available classrooms are being utilized and we are also using some of the libraries for classrooms.

Has school enrollment increased? ANSWER: No, the total enrollment grades 1-12 has not increased. If you include the 75 students in kindergarten, then, we have increased.

What grades do you anticipate will be in the new building? ANSWER: Grades 6-7-8 in the classroom part. Grades 4-5 would then go to the present Junior High. The Library Academic Center would be used by all students, more extensively by grades 9-12.

When would the building program be completed? ANSWER: We would hope that construction would start this fall and be completed in 1973.

Where can a person get answers in case they have additional questions? ANSWER: From any school administrator or Board Member.

Will new courses be added to the curriculum? ANSWER: Yes, it is anticipated that a number of new courses will be added, many of these on an individual basis.

Any final questions or comments? ANSWER: I would like to thank the Review for its support of the school system and urge all voters to vote for better educational opportunities and facilities on May 29th.

Report On City Dump Ground Work

Modern society with all its ecological and many pollution hang-ups causes a lot of changes in our so-called every day lives. One of the oldest landmarks to be found in any city, and our city is no exception, is the area commonly known as "the City Dump."

There is no argument against almost anything anyone says about it. There is no argument that many improvements need to be made. There are prescribed corrections that are being accomplished at the present and others will surely follow.

These changes are going to necessitate many alterations to the way the area is supervised and what can be hauled there for disposal. The city has been officially notified by the Texas State Health Department to fence the area and lock the gate when there is no attendant on duty. The fence is nearly complete and, as soon as it is, the regulation will be in effect. This is going to cause considerable inconvenience and much unhappiness by those who go all the way out there only to find it locked.

A stringent effort is going to be made to stop those who are in the habit of dumping their trash and garbage in the ditch or road near the designated area. The city is presently spending a great deal of money keeping the road open to traffic. Several times an entire truckload has been dumped in the roadway itself. We are sure this was someone from another area, not from Abernathy.

Currently the area is undergoing somewhat of a face lifting, and to use the term loosely, beautification. At least as much as possible is being buried and rearranged so that it looks at least a little less unpleasant.

Some changes that will be instituted very shortly will be: No more car bodies, tractors, refrigerators, stoves or any other large objects will be accepted. No more huge pieces of broken concrete. No more trees. In fact, about what will be accepted is anything one would normally put in his trash barrel. One notable exception to this is grass and shrub clippings and tree limbs small enough to be lifted and moved by one man. The reason for this drastic change is that everything accepted must be buried and it would be impossible to bury these large objects. The job is almost impossible for the City as it will be under these vastly changed rules.

The question arises immediately, "What is to be done with these large objects that obviously must go somewhere?" The City's answer must be that, unfortunately, they do not have an answer. They have a pile out there now that is going to be an overwhelming problem for them to solve.

About half of the lower portion of the area has been cleared and will be used for burying. The area looks large but it will be used up all too soon and then another area suitable and acceptable to about five state and federal agencies will have to be located. This will be most difficult for the restrictions are many and hard to meet.

All city officials are constantly aware of this tremendous problem facing them. Efforts have been made to cope with the situation and to correct those that are within the realm of possibility.

Currently much trash and d garbage is being hauled to the dump from surrounding communities. There is no way to allow this to continue. A fee could be charged to help defray the expense. But this would not solve the problem. The real problem is what to do with it after it is deposited on the pile.

The City respectfully requests that all parties concerned cooperate with the new regulations and restrictions. This is not something they have decided. It is going to increase their work load and supervision costs. Another old land-mark

All qualified voters residing in the Abernathy Independent School District are urged to VOTE Monday, May 29, in the school bond election. Voting will be in Abernathy City Hall starting at 7 a.m., and ending at 7 p.m. Monday, May 29. Charles Edwin Crow will be the presiding judge at the polls and Arno Struding will be alternate presiding judge.

Following is a question and answer interview, providing voters further information on the bond election:

The Abernathy Weekly Review has always supported the local schools and the Board of Education in providing programs and facilities in maintaining the fine educational system we have. The Review will continue its support by endorsing and asking for passage of the \$750,000 bond issue, May 29th. Your editor visited Dr. Webb, Superintendent, and asked him to state and answer the most pertinent questions that had been raised regarding the proposed issue.

How long an issue will this be? ANSWER: Twelve years (Ed, the average issue for school buildings is 20 years.)

Will a tax increase be necessary? ANSWER: If the bonds were sold today, No; should the bond market go up before the bonds are sold the rate might be increased two or three cents, but this would be only for a four year period.

Does this mean that school taxes will not be increased in future years? ANSWER: No, we can only forecast operational cost one year at a time; it does mean that rates would not be increased unless minimally, to pay for school buildings. As stated previously, this being entirely dependent upon the bond market.

Will \$750,000 do everything that needs to be done? ANSWER: No, but it will take care of a major portion of the existing academic needs.

Why is an underground school being considered? ANSWER: The learning environment would be as efficient and as effective as a building on ground level. The climate of the building would be more easily controlled. It would serve as a shelter during school hours for all of our students and for the community when it is needed during tornado season. An underground school would be less subject to vandalism and would carry much lower insurance rates.

Would the purchase of additional land be necessary? ANSWER: No, it would be built on the present school grounds.

Are we out of classrooms? ANSWER: Yes, all available classrooms are being utilized and we are also using some of the libraries for classrooms.

Has school enrollment increased? ANSWER: No, the total enrollment grades 1-12 has not increased. If you include the 75 students in kindergarten, then we have increased.

What grades do you anticipate will be in the new building? ANSWER: Grades 6-7-8 in the classroom part. Grades 4-5 would then go to the present Junior High. The library Academic Center would be used by all students, more extensively by grades 9-12.

When would the building program be completed? ANSWER: We would hope that construction would start this fall and be completed in 1973.

Where can a person get answers in case they have additional questions? ANSWER: From any school administrator or Board Member.

Will new courses be added to the curriculum? ANSWER: Yes, it is anticipated that a number of new courses will be added, many of these on an individual basis.

Any final questions or comments? ANSWER: I would like to thank the Review for its support of the school system and urge all voters to vote for better education opportunities and facilities on May 29th.

is being lost and, for the most part, they are happy to see it go since it takes with it the rat and insect infestations plus breeding grounds for mosquitos, a very unpleasant aroma and much smoke. All of this will not happen in a day, week, month, or even a year, but the time for action is here and now. Much activity is taking place NOW to hasten the day it truly will be a municipal sanitary landfill.

Mrs. Harral Is Given Honorary Doctor Degree

(SPECIAL TO THE ABERNATHY REVIEW)

Belton: Mrs. Lillian Shelton Harral, an Abernathy, Texas, resident and a 1926 graduate of Mary Hardin-Baylor College, was awarded an honorary Doctor of Humanities degree during Commencement exercises at Mary Hardin-Baylor.

Deadline For School Transfer

AUSTIN--Parents who wish to transfer children from their home school to a nearby district for the 1972-73 academic year must submit their requests to the receiving school district by June 1, 1972, according to an announcement from the Texas Education Agency.

Once approved by the receiving school board of trustees, the request must then be cleared by the Texas Education Agency. This state approval is a requirement of the order issued by the U.S. District Court in Tyler.

The order, related to the desegregation of schools in Texas, states in part that the Texas Education Agency "shall not permit, make arrangements for or give support of any kind to student transfers, between school districts, when the cumulative effect in either the sending or receiving school or school districts will be to reduce or impede desegregation, or to reinforce, renew, or encourage the continuation of acts and practices resulting in discriminatory treatment of students on the grounds of race, color, or national origin."

Only hardship cases will be considered for transfer approval after June 1, according to Leon R. Graham, Texas Education Agency assistant commissioner for administration. Any late application must state specifically the exact nature of the hardship and why the application was not filed with the receiving school by the June 1 deadline.

"We expect to approve few late transfer requests and those must definitely be hardship cases," Graham added.

recipient of Mary Hardin-Baylor's Distinguished Alumnae Award. She has given liberally and cheerfully of her time, talent and finances to MH-BC through the years. The Lillian Shelton Harral Chair of Speech was established by Mrs. Harral because of her interest in the art of communications. She also, established the Wash and Ida Shelton scholarship to be awarded annually to an outstanding student majoring in speech.

The gift of her cottage at Glorieta Baptist Assembly is indicative of her interest, not only in the students, but also the total college family.

Mrs. Harral is very active in Baptist work across Texas and contributes time and finances to other Baptist institutions. She plans to travel to Alaska this summer to assist in mission work where she can use her talents as a musician to share

Christ.

Not only does Mrs. Harral support and assist her colleges and other Baptist interests, but also is an active member of her home church, the Northside Baptist Church of Abernathy.

Her most recent contribution to Christian education will make possible the Lillian Shelton Theatre in the new student center under construction on the Mary Hardin-Baylor campus.

Walk through those portals, down those steps, into a new world - your world, the world of tomorrow. Best of luck, always.

Classroom Teachers Enjoy A "Cotton Pickin' Party"

The Abernathy classroom teachers, administrators, school board members and their "chosen" enjoyed an informal Hee-Haw style banquet Monday night in the school cafeteria.

Attired in all types of costumes from Grandpappy's overalls to LaLi's pinaflore, the members and guests enjoyed barbeque from Underwoods and some of that good old "Mountain Dew" (iced tea).

Everyone had fun in the relaxed atmosphere of the banquet. The social committee and the entertainment committee are to be highly commended for an enjoyable evening.

Mr. and Mrs. David R. Pinson of Abernathy announce the marriage of their daughter, Cathleen Renee, to Mr. Glenn M. Stanberry of Wichita Falls. The couple married in December, and they reside in Wichita Falls.

They attended McMurry College, Abilene, where the bride is a junior student and the bridegroom is a May graduate.

SAN DIEGO, CALIF. (FHTNC) May 12--Navy Seaman Recruit Louis G. Pierson, son of Mr. and Mrs. Virgil I. Pierson of Route 2, Petersburg, Tex., graduated from recruit training at the Naval Training Center at San Diego.

He attended Petersburg High, Petersburg, Tex., and Oklahoma State Tech., Okmulgee, Okla.

Summer Reading Program Begins Here June 2

The Abernathy Public Library would like to remind young readers of this area, both in town and country, that our Summer Reading Program will begin June 2.

We cordially invite all those who are interested in reading to come participate in this three months of relaxation. We also hope those who are not enthusiasts for reading will develop an interest--make it a challenge and not a bore.

The rules will be the same as they have been for the past seven years. You read twelve books on your age level and at the close of the program August 30, a Reading Certificate will be given to each that have read twelve books.

I'll tell you a secret, we are going to have more nice new books than our library has had in years. Mrs. Arno Struve, our library chairman, and her committee have spared no pain in selecting books they thought you will enjoy reading. I believe you will agree. The orders are already at the publishing house.

Although we have written from time to time thank you notes to the W. E. Guerrants, the Bill Caffey's, and in person the Shueys, we feel especially indebted to the Guerrants and Caffey's, who, through the years, have been more than generous in passing books after they have finished with them on to the Abernathy Public Library. Books that were like new.

The latest donation has come from the Paul Harrals. Thank you, Mr. and Mrs. Harral. To all of you who have been so generous and remembered the library with your books, we say a great big Thank You.

Do come and see us. Books added to the library May 12, 1972:

Private Adventure of Captain Shaw, The Scandalous Mrs. Blackford, Above Suspicion, Dangerous Ground, Great Outdoor Adventure, Raintree County, The History of Rome Hanks, Around the World with Auntie Mame, A History of Civilization, The Federal Union, The American Nation, Bear, Chapters in Church History, The Trampling Herd, Penrod and Sam, Adventures in Nature, Kingsblood Royal, Palmer's Fieldbook of Mammals, The Scarcen Blade, The Sign Language of Our Faith, We Obey God, Up the Street and Down, Under the Apple Tree, The First Book of American History, and Eight Cousins.

Sunshine Group Holds Meeting

The Sunshine Group met Thursday, May 18, in the City Hall club room for a covered dish luncheon. Thirty-three people enjoyed the activities. The meeting was opened with group singing. Bill Schreier led in prayer. Mrs. H. C. Von Struve gave a piece by Vida Gordon on being "Good Neighbors."

Mrs. Dan Ward showed slides of her trip through Switzerland, showing the beautiful flowers and mountains of the country. After lunch games of 42, 84 and Canasta were enjoyed by the group.

The next meeting will be June 16 at 11 a.m. for a covered dish luncheon. --Reported

The T. N. Teeter family has moved to 604 Avenue C. Mrs. Bob Adams went to Amarillo to be with her father, C. E. Grant, Sr., who is ill. Mr. Grant formerly resided in Abernathy.

Just Your Nerves

Many have been told, "Your trouble is nerves, just nerves, that's all." Nerves are too important to the body to be dismissed so easily. Nerves make possible all movements, nerves transmit all sensations to the brain. Nerves make possible sight, smell, taste and hearing. Nerves maintain balance and keep the body temperature at 98.6 degree. Nerves control blood pressure, stomach action, blood flow, speech and breathing. Nerves make the bowles move. Nerves make it possible to swallow. In fact, all functions are under control and coordination of the nervous system. . . It's nerves, see--

Nuptial Vows Read For Tech Students

MRS. HARLAND DOWNS JR.
(Jeanne Floodberg)

A double ring wedding service was read for Miss Jeanne Edytha Floodberg and Harland Sanford Downs Jr. at 7 p.m. Friday in Hodges Chapel of First Christian Church.

The Rev. Dr. Dudley Strain, minister, officiated. The bride is the daughter of Mrs. Edytha W. Floodberg and John E. Floodberg of El Paso. The bridegroom is the son of Mr. and Mrs. Harland S. Downs of Abernathy.

Miss Joanne Elizabeth Floodberg and Miss Janet Elaine Floodberg both of El Paso, the bride's twin sisters, were her honor attendants. Miss Laura Rice of El Paso and Miss Sally Marie Davis of Dallas were bridesmaids.

The bridegroom's father attended as best man. Groomsmen were Randy Downs and Danny Downs of Abernathy and Vernon John Witkowski and Robert L. Wolfe. The groomsmen seated guests. Miss Kathy Albrecht was organist.

Given in marriage by her father, the bride wore a formal empire gown of silk

organza over white crepe designed with scalloped neckline and bodice of French chantilly lace and Juliet sleeves.

The couple will reside in Lubbock, after a wedding trip to Ruidoso, N.M.

A 1969 graduate of Coronado High School in El Paso, the bride is a December candidate for graduation from Texas Tech University with a bachelor of arts degree in English.

A 1965 graduate of Abernathy High School, Downs is a December candidate for graduation from Tech with a bachelor of science degree in electrical engineering.

Senior Honored

Abernathy High School graduating Senior Cindy Oswald was honored with a Coke party Monday in the home of Mrs. Billy Shipman.

Hostesses were Mrs. Ted Wayne Watts, Mrs. Keith Shipman, and Mrs. Mary Megna.

Officers Are Installed For Garden Club

The Abernathy Country Garden Club met Tuesday, May 16, at 12:30 in the City Hall club room for a covered dish luncheon that closed out the 1971-72 club year.

Hostess for the covered dish luncheon was the social committee: Mimes, J. L. Miller, Jr., Horace Davis, Wesley Pope and Vernon Bartlett. There were 12 members and one associate member present.

The President, Mrs. J. H. Barnett, presided over the business meeting. The program was "History of the Club Year" presented by Mrs. Roy Matthews.

The President then installed the following new officers for the 1971-72 club year: President, Mrs. Ray Martin; Vice President, Mrs. Roy Matthews; Secretary, Mrs. W. H. Ray; Corresponding Secretary, Mrs. Jerry Nix; Treasurer, Mrs. Doyle Oswald; Reporter, Mrs. J. H. Barnett; Parliamentarian, Mrs. Vernon Bartlett; and Historian,

Mrs. E. B. Braly. The following members were present for the meeting: Mmes. John L. Harral, Roy Matthews, Ray Martin, Otey Shadden, E. B. Braly, W. H. Ray, Horace Davis, Vernon Bartlett, Jerry Nix, J. L. Mil-

ler, Jr., J. H. Barnett, Doyle Oswald, and Marvin Struve. The next meeting will be Tuesday, September 5, 1972, in the home of Mrs. J. H. Barnett. The program will be a "Tasting Party." --Reporter
