REVENUE SHARING EXPLAINED BY CITY MANAGER

The City of Abernathy Council met in regular session at 7:30 p.m. December 11, 1972, at the City Hall.

Permission was granted to advertise for sealed bids for the 1973 Gasoline Supply for the City. Bid forms and further information may be obtained from City Hall. All bids are to be returned to the City Manager's office by 5:00 p.m. Monday, Jan. 8, 1973, and then opened at the regular City Council meeting at 7:30 p.m. Monday, Jan. 8, 1973.

A Sanitation Contract Proposal submitted by Preston Coomes of Triple C Sanitation Service was reviewed by the Council members. Following the review, several changes were suggested and it was the decision of the Council to have the City Manager meet with the City Attorney to draw up a preliminary contract for the next council meeting.

No action was taken on the proposed municipal rate increase requested by Southwest Public Service Company which is to take effect Jan. 1, 1973.

The City of Abernathy received its first Revenue Sharing check from the Department of the United States Treasury December 11, 1972, in the amount of \$13,586. This check is for the period from January 1, 1972, through June 30, 1972. The amount of the check was considerably short of the figures earlier released stating the City of Abernathy's share, and it is believed that possibly a mistake was made and Abernathy thus far has only received appropriations from Hale County and its share from Lubbock County is yet to come. An Office of Revenue Sharing Assistance has been established by the Texas Department of Community Affairs, Austin, Texas, and it is hoped that answers to the many and varied questions concerning revenue sharing appropriations will soon be at hand.

Members of the City Council noted that recently several complaints have been received concerning the inadequate service that has been given by the General Telephone Company. Most complaints have been in the area of not being able to place either local or long distance calls. It was decided that a method of registering such complaints should be established. As of this date, forms are available in City Hall on which persons wishing to register a complaint against General Telephone Company for inadequate service may state such complaint. All completed forms will remain on file in City Hall for future reference.

During the upcoming Christmas and New Year holidays many people will be in violation of the law by exploding or allowing their children to explode fireworks within Abernathy.

The Abernathy Police Department would take this opportunity to remind the citizens of the currently existing ordinance against the explosion of fireworks in the city.

This ordinance was passed for many reasons, some of which are: 1. Fireworks are potential fire hazards; 2. They are dangerous if not handled properly, e.g., a child could lose an eye or his fingers could be damaged severely; 3. We have elderly people and sick people who are bothered by the noise created. Then we have the people who just do not like the noise, especially at late hours of the night.

Certainly we must consider the rights of others. We must consider also the danger involved in the explosion of fireworks.

We ask that "You the Citizen" respect the rights and property of others. Think about your neighbor, your friend, the sick and elderly before you start shooting fireworks. Let's hold the noise down during the Christmas season and try to keep the grass fires, etc., down.

We will appreciate your cooperation in this matter.

both counties. Also a formula revision may be partly responsible for the decrease.

The first check was retroactive to the first of the year and covers the period from January through June 1972.

Shortly after Jan. 1, 1973, a check will be received for the period from July through December 1972 and thereafter payments will be received quarterly.

LETTER TO THE EDITOR

December 12, 1972
Abernathy Weekly Review
Abernathy, Texas

Dear Mr. Davenport:

I have never written you before, but I feel I should voice my opinion on a subject which was brought to my attention this morning. I know most of your readers have children or grandchildren in Abernathy Elementary School, and if they have not noticed I feel everyone should look into it.

I personally do not take my children to school everyday, but this morning I was late and I took them myself. The roads were very slick and icy and when I got to school it was already 9:10 a.m. The sidewalks (on the south entrances) were still icy and slick and no attempts had been made to clear them off. I was very appalled at the risks the school was taking by not salting the entrances and shoveling the frozen sleet away. I had taken it for granted that this was customary.

I feel, and I sincerely believe that all of you will agree too, that this should be done BEFORE the children arrive at school. I was told that they were shoveling the sleet off at the Junior High but that it was not snow and it was very thick and maybe it could not be cleared away. (I have always been under the impression that it was safer to walk on snow than on ice.)

I hope that all of you will agree with me and request that when we do have an ice storm and the walks are frozen over, that all the school entrances be salted and cleared of danger BEFORE the children start arriving.

I do not feel that I am being overly concerned in this request and I appreciate your help and cooperation. I feel the children of Abernathy are worth an effort when their safety is at hand.

Thank you,
Sincerely,
Gloria Torrez

NASA PROGRAM SET AT SCHOOL HERE JANUARY 4

Abernathy High School will host the National Aeronautics and Space Administration's mobile lecture-demonstration program at 10 a.m., January 4, 1973.

Representing the Manned Spacecraft Center, Houston, Texas, the program will be conducted by Mr. Nelson J. Ehrlich, a member of the Oklahoma State University faculty, he has served as a Space Science Specialist for two years, in addition to seven years as a science teacher in public schools.

Mr. Ehrlich received his Master of Science degree, and has completed his course work toward a Ph. D. at Oklahoma State University.

The NASA Space Science Education Project or "Space-mobile", as it has commonly become known during the past nine years, is a national program which is taken directly to students in their schools. Transported in a conventional panel truck, many scale models of launch vehicles, spacecrafts, satellites, electronic equipment, audiovisuals, and other equipment items are used for realistic and understandable demonstrations of many scientific principles and concepts involved in space exploration.

Last year, 7,520 programs were arranged and presented to an audience of more than two million students. Programs are supported regionally from various NASA centers. With four of

the mobile units, the Manned Spacecraft Center conducts programs in an 8-state region of 870,000 square miles or about one-fourth of the land of the United States. It includes the states of Texas, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, Colorado, and New Mexico. Scheduling of the schools within each state is normally handled by the State Department of Education.

A typical program lasts for about one hour and is presented in the school auditorium to an assembly of several hundred students. Discussions and demonstrations include aeronautical research, propulsion, orbits, probes, space communications, human factors, and manned space flight. Other topics include SKYLAB, NASA's next program to build and fly a prototype space station as an orbital workshop and laboratory for scientific experiments and work, and the Space Shuttle, a reusable spacecraft with landing capabilities much like a conventional spacecraft.

Following the auditorium program, the lecturer is available for classroom visits for further in-depth discussions of space topics directly related to specific disciplines or to the special interests of the students.

SHOULD CHRISTIANS TEACH ABOUT SANTA CLAUS
By David Haladay, Pastor
County Line Baptist Church

One of the first things that children learn is that Santa Claus is coming at Christmas to bring them toys and good things. The question I would like to deal with is, should Christians go along with such teachings? Let me make this perfectly clear, I am speaking to people who know and love the Lord, the rest of you will not understand. What is the duty of a Christian; it is to love and honor and bring glory to God. Will your teaching your children about Santa Claus bring honor to God?

Ask a person what is the first thing he thinks of when you mention Christmas, he will answer Santa Claus, toys, Christmas tree, etc. Is it pleasing to God for the emphasis to be put on a fictitious character and what he does, and ignore the One who died for man? You may say we tell them about Christ, but what really sticks in their mind? Remember your Christian duty is to bring glory to God through Jesus Christ.

The second problem is that we give to Santa Claus attributes that belong only to God; Omnipotence for example. Santa knows all. He knows who has been good, and who has been bad. He knows our thoughts and our deeds. Santa is nearly omnipresent. He can cover the whole world in just a night. Santa is the judge; he rewards our deeds. He judges by our actions whether we get a present or no present. Then

we call him Saint Nick--giving the idea that he is all good. God said, "I am the Lord; that is my name; and my glory will I not give to another." Isa. 42:8. What about giving God's characteristics to Santa Claus? Does this keep in accord with Isa. 42:8?

When a child finds out that Santa is a hoax and he can't do all these things, why should he believe there is a God who can? Will he accept the word of parents who told him the lie in the first place? Think about it, Christian, if someone tricked you once, can you trust him again?

This leads us into the final point, God is truth, and those who are His ought also to be truthful. The Bible never accepts lying as being right, no matter what the circumstances. You are flat, outright,

lying to your child when you tell him there is a Santa Claus, and there isn't. Later some friend will tell him the truth. He will feel foolish because he believed in Santa Claus, while his friend was wise enough to know better. His friend may make fun of him for believing in Santa Claus, which will add to the hurt. Then he resents Mother and Daddy for tricking him. No one likes to be tricked. He also loses confidence in his parents. If he is a very emotional child it can be a very shattering awakening to the truth. You tell him to be honest, always tell the truth, and then you turn around and prove yourself a liar. Why should he listen to you? Is the idea of Santa Claus worth it all?

The world is empty, looking for something that will bring a little joy to it. Santa

FFA ENJOYS WILDLIFE BARBECUE

The Abernathy FFA held its first annual Wildlife Barbecue Monday night, Dec. 11, in the Power Mechanics Shop.

Varieties of meat served included white-tail deer, mule deer (roasts, steaks, and sausage), armadillo, dove, pickled quail eggs, and pig fries. Trimmings included ranch style beans, baked potatoes, and tossed fresh green salad.

The cooking was supervised by Mr. and Mrs. Adams and Mr. and Mrs. Cox. Sixty-eight members and five guests were present.
