Antelope Basketball Boys and Girls

(By Sammy Hunley)

The past few days of bad weather have seemed to slow down the sports scene around Abernathy. The Antelopes have been able to play only one game since the Muleshoe tournament—January 2, 1973, at Sudan. The boys won their 18th of the year by beating Sudan 93-48. Ray Martin led the way with 18 points, while Andy Corning came in with 14. The girls game was a squeaker with Sudan winning 62-61, but only in the last 20 seconds of the game. Kathrina Allen led the Lady Lopes with a 20 point effort.

The highlight game of the season between the Antelopes and the Levelland Lobos had to be called off two nights in a row due to the bad weather. Who knows, maybe both teams wanted to remain undefeated for the season.

Bad weather or not, the Antelopes will start playing for keeps this week when they start their 1973 district campaign. Both teams (boys and girls) will begin to concentrate all efforts toward a district championship—something that has been absent from Abernathy for a number of years.

ATHLETICS

A student's a basic part of athletics is educational program. The success of any athlete is greatly determined by what others think of him or her. He must cooperate and adapt a friendly attitude towards teammates, classmates, teachers, administration and fans. To do so will insure the active and enthusiastic support of students, teachers and the general public. A real champion performs admirably on and off the playing court.

Making any athletic team at Abernathy High School is an honor. It is a very important part of an individual's endeavor; however, it is not the most important thing in the everyday life of the student. Each individual first has a responsibility to God, his home, and the people involved with him from day to day.

Each individual in the school has an opportunity to compete for places on a team. It is their choice to play a sport. There is nothing particularly right about those who have elected to compete, or wrong with those who have not. Every individual should have the right to choose for himself, as long as he does not interfere with the rights of others.

All individuals who have the desire and ability to represent the school must be willing to work long and hard, to discipline their minds and bodies in all of their activities, to be honest and loyal to the team, and to practice and play in a manner that will inspire teammates, classmates and friends.

Cotton Acreage Allotment Reduced

Base cotton allotments in the 25 High Plains counties represented by Plains Cotton Growers, Inc. for 1973 total 1,488,145 acres, down 197,388 acres or 11.7 per cent from the 1972 allotment of 1,685,533 acres.

A county-by-county breakdown of the national allotment was printed in the Federal Register of December 15. The 11.7 per cent cut on the High Plains compares with a national reduction of 13 per cent, from 11.5 million acres this year to 10 million in 1973.

Major effect of the allotment cut will be to reduce total price support payments to producers in the coming year. The payment rate for 1973 again will be 18 cents per pound. Total payments to individual producers will be figured by multiplying 15 cents times each farm's payment yield times allotted acres. Assuming the same payment yield for 1973 as for 1972, the total reduction in payments next year will equal the 11.7 per cent reduction in acreage allotments.

As in 1971 and 1972, farmers may overplant 1973 allotments to any extent they desire without penalty therefore the allotment cut is not expected to significantly affect the number of acres that will be planted to cotton on the Plains in 1973. The 25-county allotment for 1972 was 1,685,533 acres but an estimated 2.6 million acres were seeded to cotton last Spring. PCG officials point out.

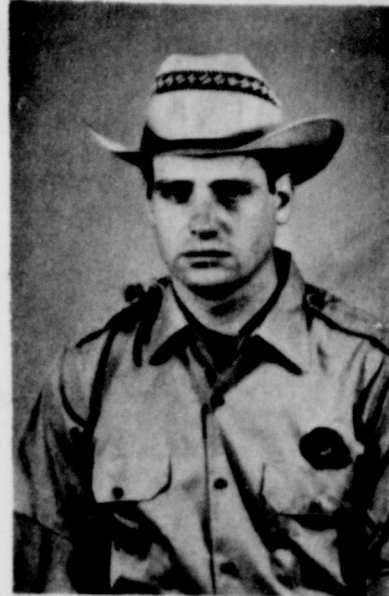

Eligible For Loan Cotton produced on non-irrigated acreage receives no price support payment but is eligible for Commodity Credit Corporation loans at 19.5 cents per pound, basis middling - inch, 3.3 to 4.9 micronaire at average location.

The percentage allotment loss on the Plains is less than the average loss across the belt because of acreage transferred to the Plains in 1972 through purchases from other parts of the State. PCG officials believe. It is also thought that such transfers account for the variations in percentage cuts between counties in this area.

For example Gaines County, which has been the most active in acquiring cotton acreage from outside the Plains through leases and purchases, shows a gain of 5.4 per cent in allotted acres for 1973 while Deaf Smith County shows a loss of 14.4 per cent, well above the national average.

Listed below are the 25 High Plains counties in PCG territory, their 1972 and 1973 allotments, the number of acres lost and the loss percentage. (Every county showed a minus percentage change except Gaines, which showed a plus percentage change.)

Cropping System Saves Water Use

More efficient management of available water supplies can increase dryland grain sorghum production with certain varieties, according to a study comparing Agrecoly and conventional cropping systems at the High Plains Research Foundation.

The term "Agrecoly" may not be familiar to many people. In this system, a special machine cuts a four-inch wide slot in the center of 80-inch middles. The machine fills this slot with stubble and slants the bed profile toward the slot, allowing available moisture to be "stored" by reducing runoff. Grain sorghum is planted on 40-inch centers located 20 inches on either side of the slot.

The conventional area was disked and worked with a narrow-stalk cutter-plane combination using and planted flat. When using an irrigated or medium maturing variety of grain sorghum in the dryland system, the Agrecoly cropping system significantly increased yields. In the Agrecoly system with above average rainfall available for crop production, the medium maturing variety produced 6294 pounds of grain per acre. In the conventional

ty. However, efficiency was increased on the medium maturing variety from 237.75 pounds of grain per inch of rain under the conventional system to 289.78 pounds of grain per inch of rain using the Agrecoly or microwatershed system.

HOBBY CLUB MEET IS HELD

For our first meeting of the new year, the Hobby Club met January 4th at 2:30 p. m. in the City Hall Clubroom. Despite the very bad weather, twenty-two (22) members were present. They were Thelma McGough, Dot von Struve, Lavail Gacy, Dorothy Crawford, Dyvena Davis, Faye Pope, Juanita Bell, Dorothy Boggs, Lalah Brewster, Blanche Brown, Tura Clapp, Merle Enger, Jean fluid, Frances Howard, Bertha Hunt, Rubye Knox, Buena Lincecum, Ollie Selke, Buena Woods, Helen Crow, Wilma Pope, and a new member we are proud to welcome, Dorothy Shipman. This was the first meeting for our new officers, Buena Lincecum, president; Dyvena Davis, vice-president; Dorothy Boggs, secretary-treasurer; and Wilma Pope, reporter.

During our business meeting, it was brought to our attention that three of our members, Juanita Bell, Bertha Hunt and Blanche Brown, had not missed a single club meeting during 1972. We are very proud of this achievement.

Ladies on the program this month were Juanita Bell, Buena Woods, and Dot Struve. Juanita showed us a pretty corduroy pillow trimmed with a yarn flower, a bird cage made from Reader's Digest magazine, a cute felt frog to decorate the refrigerator, and an old fashioned hi-top shoe made of felt that could be used as a Christmas decoration or to hold pretty pins.

Buena showed red crocheted house slippers, hot pan holders made from wash cloths and crocheted around the edge, and three plaques decouped with old-timely scenes.

Dot brought a pretty wicker basket made from all colors of egg cartons and several bottle coasters she had knitted.

Two very unusual and cute pot holders shaped like blue jean shorts and a yarn Santa were shown by Buna.

A Valentine party was planned for one night in February.

Melrose's Dan Ward Named Class A Coach Of The Year

AHS GRAD IS COACH OF THE YEAR IN N.M.

Dan F. Ward, an AHS graduate, and a son of Mr. and Mrs. Dan Z. Ward of Abernathy, has been named Coach of the Year in Class A football in New Mexico, according to the following, which appeared in the Clovis News-Journal, Dec. 11, 1972:

By United Press International
Coach Dan Ward, who led an underrated Melrose High School team to the state finals, today was named the Coach of the Year in Class A football in the annual United Press International All-State selections.
Coach Dan Ward remarked, "This is an honor and the kids on the team made the honor

possible." This year's team was a group of outstanding young men and when you have players of this caliber, a coach is just a glorified bus driver. "It's an honor to be chosen as the Coach of the Year," Ward added.

The Buffaloes under coach Ward have swept the District 2-A three straight years. Ward's Buffaloes weren't expected to make much trouble in the Class A division this past season but after losing their season opener to Ft. Sumner, Melrose ran off six straight wins and a tie.

Melrose went on to score a 14-6 win over heavily favored Hagerman in the playoffs and just missed winning the state title when it lost to powerful Carrizozo 19-14.

Carrizozo, paced by quarter-

back Gaby Chavez, landed five places on the All-State squad. The Grizzlies racked up an 8-1 season record before going on to capture the state crown.

There was an abundance of talent at the quarterback spot this season and the UPI All-State selections prove it.

This year's Class A All-State backfield has two quarterbacks on it. They are Chavez, who also was voted the Class A Back of the Year, and Reserve's David Baker.

The rest of the backfield is composed of Navajo Mission's fine running back Atlee Benally and Captain's workhorse Ted Sisneros.

Chavez personified the power of the Grizzlies. He was a three year starter for Coach Roger St. Louis and all three years, the Grizzlies captured the state title.

Baker led his Reserve squad to an unbeaten 7-0 mark before 11 of the Mountainers were suspended from the squad for disciplinary reasons. Baker, who was not among those involved in the incident, ran for 890 yards, passed for 560 more and hit on an amazing 63 per cent of his passes.

Melrose's Joe Reed, a two-way all-stater, was selected as the Lineman of the Year in Class A. Reed made the first team offensive unit as a guard and was named to the defensive unit as a linebacker.

Other Melrose players making the squad were defensive end Rex Rush and defensive back Kippie Black.

Other Carrizozo players named to the squad were offensive end David Roper, tackle Christy Monreal and defensive end Steve Ortiz. Roper was also voted the kicker on the All-State team.

Navajo Mission landed offensive tackle Phillip Tree, Benally and defensive tackle Ed Gomez, defensive tackle Kirk Potter and linebacker Albert Maestas.

Other teams with representatives on the squad included Hagerman, Capitan and Mountainair. Here is this year's All-State squad.

License Plates By Mail

scare you?

Well, you can cheer up. The Motor Vehicle Division of the Texas Highway Department will be mailing out renewal applications for 1973 license plates shortly.

Vehicle owners who wish to avoid the long lines can simply return the entire application by mail to the tax assessor-collector in their home counties with the registration fee and \$1 per vehicle for handling and mailing.

There are three things to remember:

1. Leave the handy three-part for intact. Don't separate the three parts.
2. Mail it to the county tax office in your home county. (Mailing to the Highway Department will only delay your getting your 1973 plates.)
3. Be sure to include your registration fee plus an additional \$1 for each automobile to be registered by mail.

You may apply for your license plates by mail after January 1. However, county tax offices won't be sending the license plates until after February 1. You should allow at least 30 days from the time you apply for the license plates to be returned.

The 1973 plates must be displayed on your vehicle by April 1.

In-person registration will begin at county tax offices and, in some counties, special substations on February 1.

Even though the automated registration application has speeded up the registration process, the waiting lines will grow progressively longer by the March 31 cutoff date.
