Also a former Abernathian, the Austin artist is a son of Mr. and Mrs. Hilburn Barrick of Abernathy. He is a son-in-law of Mr. and Mrs. Vic Struve, Abernathy.

## James Graham RESTAURANT OPENS HERE

It's hard to keep a good thing down this day and time; and thanks to the freedom we have in this United States, people are encouraged to do their own thing.

James Graham looked at the retirement end of the restaurant business after his brother, Ed, sold out earlier this year and found out pretty quick that wasn't for him. A goal already forming as the days passed, James (with the help of family and local people) opened on Saturday, April 13, 1974, what may be called a permanent and lasting house of food in Abernathy.

Our thanks to James not only for his past service, but for renewing the present.

## CL VOLLEY BALL TOURNEY OPENS HERE TONIGHT

A highly competitive volleyball tournament is being conducted this week in the Abernathy Junior High gym. A total of twelve men's and women's teams are participating, including the Texas Amateur Athletics Federation state champions mens team.

## TALK IN PRINT

-tip-  
We took more than a passing interest in the color photo Easter theme picture on page of the Lubbock Avalanche-Journal Sunday. The pretty little girl in the photo is our niece, Jana, the 8-year-old daughter of Hugh and LaVerne Fry of Lubbock.

-tip-  
Do not forget the Open House at Abernathy's new school building, the Academic Center and underground Junior High School. It's Sunday, April 21, from 2 to 5 p. m. You'll be surprised. It is a new concept in "school house" construction and arrangement.

-tip-  
It finally happened... my telephone has started observing holidays. 298-2033 took all day and night Good Friday as a holiday, and so did the repair department for the telephone company. That's what Ms. Enterprise 65002 at Memphis told me.

Holidays are horrible for country weekly newspaper people. We cannot take off every holiday that comes along. "The show must go on" and all that jazz, if we are to get a paper out on time. With businesses closed and our sources of news on holiday trips it's difficult to accomplish much toward getting the next paper together. And, when our telephone also takes a holiday it compounds our problems.

Oh, well, we all have our troubles in our respective occupations. I just needed to use the crying towel for a while.

-tip-  
We have been following the joint Dallas/Fort Worth airport project ever since the first news story was released concerning initial talk of plans for such an undertaking. The giant D/FW airport, located on about 18,000 acres near Grapevine, opened early this year. It was plagued with all kinds of "bugs" in equipment and operations. Now, according to publicity releases, many of these "bugs" have been eliminated. If you plan to fly into, or out of, the D/FW airport, better carry a pocket, or bag, full of quarters. Many things, including rest rooms, pay telephones and turnstiles to Airtrans, require quarters to operate.

## In Who's Who From S. P. C.

LEVELLAND -- Twenty-two students at South Plains College have been named to the 1974 "Who's Who Among Students in American Junior Colleges."

The students' names and biographical information will be listed in the 11th edition of "Who's Who" and they will receive personalized certificates. Now in its seventh year, the national "Who's Who" program annually honors outstanding campus leaders for their scholastic and community achievements.

Nominees for the honor were selected by an SPC committee, which submitted the names to the "Who's Who" staff for a final decision. More than 1,800 schools throughout the nation participate each year in the "Who's Who" program.

Included in the list are two AHS graduates, Cecilia Hardin, daughter of Mr. and Mrs. Virgil Hardin, and Linda Villegas, daughter of Mr. and Mrs. Adan Villegas.

Other posers and clubs participating in the parade were from the counties of Howard, Taylor, Callahan, Scurry, Mitchell and Martin and the towns of Roby, Hermleigh and Roscoe.

Eleven members left Friday afternoon and spent the night either with Pam and Nelda Rogers's grandmother, Mrs. L. D. Boyd, Sr., in their wagons, or in the Holiday Inn. Five missed out on a lot of fun by electing to sleep in their own beds and having to leave at 5:30 a. m. Saturday.

Our thanks to Mr. and Mrs. A. R. Boyd, brother and sister-in-law of Mrs. Bob Rogers, for stabling our horses over night.

All reported having gracious hosts, a great time and beautiful weather while the members who remained at home enjoyed work and a Texas sandstorm.

**If you can't get PIONEER Brand 8311 here are some excellent alternative hybrids for High Plains farmers.**

Pioneer Brand 8311, the "Golden Bronze Yield Leader," has been our most popular hybrid this year — so popular, in fact, that it may be in short supply in some areas. One reason is that the demand has been so great downstate where 8311's disease tolerance is so important. Fortunately, there are several other Pioneer Brand hybrids that are proven top performers on the High Plains. If you can't get 8311, ask your dealer about these.

**PIONEER Brand 8417**

This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non-irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing, good tolerance to smut and anthracnose.

**PIONEER Brand 820**

This top-notch full-season hybrid, is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the plains.

**PIONEER Brand 828**

One of the highest yielding sorghums you can plant, this full-season hybrid responds well to good management on good land with plenty of water. Plains growers like it because it holds its quality and threshes well even after an early freeze. It produces sturdy stalks with semi-compact heads of dark red grain.

**PIONEER Brand 846**

Famous for its versatility and adaptability, this medium maturity hybrid yields along with the full-season varieties. Resistant to smut, rust and MDM, its outstanding hybrid vigor and excellent drought resistance help it turn in consistently high yields even under stress.

Cool on the outside... that's an electric water heater! And what that means to you is more storage space. There's no flue or vent to keep you from storing things on top of an elec-

tric water heater and since it's cool on the outside, you can store things all around one, too. And, should service ever be needed, we have over 100 people trained for just that purpose.

They have used Go-Better for over 5 years and in 1972 skip-row planted approximately 10 lbs. per acre of acid delinted seed on 1,000 acres in early May. They began harvesting in late September, and, due to the early maturity, the bulk of the cotton was picked before the devastating heavy fall rains.

"Go-Better is one of the most profitable investments we can make. We have been making 2 bales per acre. The root stimulating growth produced by Go-Better gives us early maturity and increased yields. We wouldn't think of planting cotton seed not treated with Go-Better."
