4-H WEEK IS BEING OBSERVED

National 4-H Week is being observed October 6-12, with the theme: "4-H -- We Can Make It Happen", and this offers a good opportunity to take a look at the 4-H program in Texas during the past year.

According to Karen Miller, Assistant County Extension Agent, "4-H enrollment continues to make good strides. For 1973-74, a total of 124,747 Texas youth between the ages of 9 and 19 were active in 4-H activities. This is about an 8.75 per cent increase over the 1972-73 period."

Of the 4-H'ers, the biggest percentage live in towns under 10,000 population -- 33 per cent. About the same number live on farms and ranches as live in central cities -- 23 to 24 per cent. Some 16 per cent of the members live in towns and cities of more than 10,000 population.

Mrs. Miller notes that there were a total of 3,433 different 4-H clubs or special groups, with at least one such club in each of the state's 254 counties.

The 4-H'ers were enrolled in nearly 200,000 different projects. Those concerning agriculture and related subjects totaled some 71,000 while those in home economics and related areas total about 66,000. Some 60,000 other projects were in a wide range of special interest areas.

"Almost 21,000 volunteer leaders were involved in 4-H programs and activities during the past year, up several hundred from the previous year," points out Stormer. Of this number, some 14,600 are adults while the remainder are junior and teen leaders.

The 4-H Enrollment in Hale County is down from 1973-74. The current enrollment is 316, with approximately 90 adult leaders.

Hale County 4-H members will be setting up a 4-H window exhibit in a store in their community. The windows will be judged, and the winning club will be awarded with a plaque at the November Achievement Program.

"So, 4-H is continuing to progress in Texas. Programs are providing more learning and leadership experiences for youth so that they will be better equipped to take their place in tomorrow's world. "4-H is indeed making it happen," not only in Texas but throughout the nation," contends Stormer.

LOSE TO OLTON Open Date Friday

by Sammy Hunley
 The Antelopes attempting to corral the Olton Mustangs Friday night got caught in the stampede and lost by a 33-6 margin.

The Antelope defense playing inspired football at times during the contest found themselves unable to contain the awesome power of the Mustangs (option type offense).

The Mustangs controlled the first half of play adding 20 points to their cause against 6 for the Antelopes. The Antelopes got their lone touchdown on a 30 yard pass from Wayne Riley to Mickey Davis. Mickey grabbed the pass under heavy pressure for the 6 points. Extra point failed and the half ended 20-6 in favor of Olton.

SECOND HALF
 The Antelopes at times using as many as seven sophomores on defense, managed to shut off the Mustangs inside the five yard line two times during the second half.

The spark of life was not shared by the offensive unit as they were unable to produce any points for the remainder of the game.

Olton scored twice during the last half to end the game 33-6 in their favor.

THE ANTELOPES
 Our team has had its troubles throughout the first half of the year managing only 1 win in 5 games. They are young and inexperienced in many areas of the game, but they have fought hard, displaying hustle and sportsmanship in the face of some pretty good opponents.

The Antelopes have not won on the score boards, but they are winners and will continue to represent Abernathy with enthusiastic effort.

The Antelopes will have even stiffer competition as the district campaign begins to take shape. They may win a few and lose a few, and it's going to be up to us the citizens to continue our support 100% and help produce a healthy enthusiastic attitude for the sake of our Abernathy Antelopes.

THE LONELY FLAG

(Editor's Note: The following was written by Abernathy High School Junior Harry Wolfe, son of Mr. and Mrs. Elmer Wolfe, 407 Ave. M.)

The Flag of the United States has a many beautiful colors. It has 51 stars to represent our states. It used to fly high in the air and also it was proud to be part of the country we live in today. Now the flag is not so proud.

Oh yes it flies high, but it is not as proud as it used to be. The flag watches over us like a mother would watch over her child. The flag's been through a lot of trouble, but not like it's going through now. It's watching how America, I mean our country is going down hill. People are too busy about inflation, or they are worrying how to make money fast. People go by the flag with no respect. They go by it, but how many of them look up at it. When

our flag goes down the streets in parades, people just look down at the ground like their ashamed of it. That flag of ours is very lonely, it does not have any friends or respect. Really it almost hates to fly high and show it is proud of our country. So the next time you go by the flag of our country, look up and see what it represents. Put your hand over your heart and say, thank you flag, you've made this country grow.

Abernathy Weekly Review
Abernathy, Texas 79311
Dear Mr. Davenport:
In recognition of National Newspaper Week I wish to take this opportunity to express my thanks to you and

your staff for your outstanding cooperation in publishing items of interest to the veterans in the area you serve.
Your contribution in getting "the word" to our veterans and their dependents on various benefits is certainly invaluable. Without the excellent public service efforts

your newspaper has made in bringing this useful information to your readers, many of our veterans would not be aware of their benefits.
Again, on behalf of the Veterans Administration and its employees, I extend our most heartfelt thanks.
Sincerely yours,
JACK COKER

EFFICIENCY ECONOMY COMFORT

you get it all with **NATURAL ENERGY Gas Heating**

Fresh, warm air gently circulating from floor to ceiling... so nice to take for granted. Comfort is clean gas heat.

And that dependable comfort is such a bargain here in West Texas. Though gas energy costs a little more than it used to, gas furnaces still **cost less than one-third as much to operate** as similar electric furnaces.

And at the same time you're saving money with gas heating, you can also have a warm feeling knowing that you're helping conserve energy. Gas heating uses **only half as much energy** as an electric system doing the same job.

Comfort, efficiency, and economy... you get it all with natural energy gas heating.
