and our bags were searched for arms... our flight out of Entebbe was 10 hours late because they feared seizure of the plane. The Uganda Air Force was out bombing Tanzania...

"We are enjoying every moment, even the war, and saw many animals in Uganda and here in Nairobi Park today... Tomorrow, 'tree tops'." (They will stay in a tree-top hotel, and watch the animals below feed at night).

No, seriously, we certainly can't blame an uprising of any kind on the Normans... One of the happiest couples we know, they are much too interested in everyday living, and enjoy people and places to the fullest. They have made several of these tours with the Farm Bureau organization, to many parts of the world... but I think this is the first time they've happened upon a war in their travels.

Here's wishing them a safe journey home.

## Red Letter Day At First Baptist

In observance of this very special occasion, First Baptist members are requested to wear something red. Carl Bailey served as chairman of the Building Committee and R. C. Couch Jr. served as chairman of the Plans Committee.

From the time the first deposit was made in the Building Fund, First Baptist has paid off the parsonage note, purchased a church bus, built a bus garage, purchased two parking lots and paved all the church's parking area.

The people of Haskell are invited to join First Baptist Church next Sunday morning in celebration and praise to God for His blessings.

## Indians Meet Breck Friday

After a full week of rest and practice the Haskell Indians meet the Breckenridge Buckaroos Friday night at Indian field.

Last Friday the Buckaroos were defeated by Stephenville 18-6. Breck scored their only touchdown in the second period when tailback Russell Herring plunged over the goal line from the 6.

Head Coach Tommy McAdams said that the Breckenridge defense hits harder than any team we have met this year. McAdams said the Indians have had several good workouts and have a good attitude. He commented again on the fine blocking of McCoy, Smith, Dodson, Erwin, Colbert, Josselot and Phemister in the offensive line which made Jackie Young's job easier in the two games played this year. Both Jody Mickler and Tim Pringle have done fine jobs blocking.

Just prior to the Breckenridge game will be the annual Rotary Club Chili Supper and everyone is invited to attend.

## Register To Vote Before October 6

October 6 has been announced as the last day to register to vote in the general election. This is the first time the books have been open this late in the year, but time is running out. There are currently 4,703 persons registered to vote in Haskell County.

During the last presidential election year, 1968, there was a total of 4,604 persons registered.

Until 1971, registration to vote ended on the last day of January, nine months before the fall elections. The 62nd regular session of the Texas Legislature amended the Election Code making registration continuous. Individuals must register 30 days before the election in which they intend to vote. The general election is November 7, and in order to meet the 30 day requirements persons must register Oct. 6.

In the process of making registration continuous, the legislature also did away with annual registration, meaning that your registration is good for three years. By voting in one election every three years there will be no need to re-register.

Formal dedication ceremonies will be held on the damsite of the Millers Creek Reservoir Friday at 11:00 a. m., according to Pete Beecher, manager of North Central Texas Municipal Water Authority.

Area individuals will sponsor a free barbecue on the dedication site and expect between 300 to 500 persons to attend the affair.

Several elected officials have announced a desire to attend the affair, but none have confirmed their appearance. State Senator Jack Hightower, Representatives Bill Heatly and Renal Rossen, Congressmen Bob Price and Omar Burleson

# County Fair Opens Today

An estimated total of 301 persons have been and are still working on this year's production of the annual Haskell County Fair which will officially open the gates, September 28. Fair officials are confident that 300 of these people are working closely together on the different phases necessary to stage a successful fair and only time will tell whether the other one (The Weather

Man) will fall in line and cooperate.

While the fair grounds and exhibit barns will be a beehive of activity Wednesday and all day Thursday with final preparations being made, the big event of opening day will be the huge downtown street parade scheduled to kick off promptly at 5 p. m., led by the Band of the Oilbelt from Shepherd Air Force Base.

Present indications are that the parade will have at least 40 individual units in it and will be at least one mile in length with many outstanding entries designed to please the visiting public, regardless of age.

Numerous high school bands of the immediate area will also participate along with school drill teams and pep squads to add a festive atmosphere of fine band music and color. The Haskell High School Band, the Junior High Band, the Rochester High Band, the Munday High Band and the Knox City Band will all be in their respective places in the gala event. Additional music will be provided through the courtesy of the S&M Music Company of Abilene, both for the parade and for activities to be staged on the midway. Other outstanding entries are floats, the famed Horse Mounted Platoon of the First Cavalry Division of Fort Hood, the six white horses and riders from Hardin-Simmons University; Chico, the wonder horse of pure Arabian blood, owned and ridden by Delton Galloway of Abilene, who was a former featured performer with the famous Cowboy Band of HSU, and one of the largest Santa Claus sleighs to be found anywhere. This will be the fifth annual

fair to be staged in Haskell since its re-organization into a county-wide Fair Association some five years ago. It has grown in popularity each year, making it necessary to add four new buildings to take care of the growing list of entries in livestock, Cultural and commercial exhibits.

Tom Kutch of Rule, livestock superintendent, estimates that from 150 to 200 head of show calves will be exhibited and judged from a six county area of 4-H and FFA boys and girls. Other livestock entries will include sheep, poultry and rabbits and the pens available are expected to be full and running over.

Under the supervision of Barbara Elliott, County Home Demonstration Agent, the exhibit halls will again be full to capacity with the many different divisions available for both youth and adults.

The entertainment on the agenda will include a concert on Thursday night, beginning at 7:00 and lasting until 8:00, by the Band of the Oil Belt of Shepherd AFB. Also in the arena adjacent to the fair grounds, a western variety show will be presented by the Horse Mounted Cavalry Troop, the six white horse riders from HSU and others. The Miller Brothers country and western musical organization from Wichita Falls, will also play an open air concert on the stage on the carnival grounds and all visitors are invited to attend this outstanding concert which will be repeated nightly during the three-day run of the annual fair.

On Saturday night, beginning at 7:30 the Western Activities night will be held in the rodeo arena under the supervision of Mr. and Mrs. Jerry Hannsz and Mr. and Mrs. Eddie Chambers of Haskell. Numerous contests both for teenage boys and girls and for adults will be staged.

Carnival attractions for the fair will again be provided by the Central States Shows.

Pat Hale, president of the fair, extends a cordial invitation to everyone to be present for at least a part of the three day and night event.

INITIATION COSTUMES worn by members of the Rule FFA decorated the halls of Rule High School recently. Pictured are Brenda O'Neil, Mary Ann Dessavia, Norva Lehrmann, Jami Barbee, Frances Macias, Barbara Plunk and Jackie Plunk.

## Benefit Nets Over \$600

The Haskell Roping Club netted over \$600.000 which will be donated to the West Texas Rehabilitation Center in a benefit roping and barrel race last weekend.

Some 20 ropers and 18 barrel racers competed in the jackpot events and matches. Of notable interest was the fact

that the winners of both jackpots and the three matches all donated their winnings to the Rehab Center.

When the roping was planned, it was decided that jackpots would be paid to winners and only the gate receipts and donations would go to the Rehab Center, but winners altered plans by taking out only their entry fee and donating their winnings to the Center.

Winner of the two calf average Saturday night was Bobby Tankersley. Wayne Rowan took second place honors. In a six-eighths match Saturday, Bobby Tankersley defeated Kenny Spitzer. In the open barrel

race, Lisa Boone took first place and Donna Chambers was second. Mandy Langford won the junior barrel race.

In Sunday's event, Frederick Dalby defeated Robert Koonce and Rusty Bradley beat Jack Strickland in matches. Kenny Spitzer and Bobby Tankersley defeated Bo Wilson and Jack Strickland in a team match.

Finishing one, two and three in the jackpot roping were Jack Strickland Jr., Frederick Dalby and Odell Blackwell.

Top three paces in the barrel race went to Joy Jameson, Maxine Hannsz, and Susie Hopkins.

# Rule Downs Munday, 25-3

The Rule Bobcats defeated the Munday Moguls last Friday 25-3. Art Briles led the Bobcat attack scoring two touchdowns from one and 34 yards out. Mike Lisle and Don Hisey both added touchdowns scoring on two yard runs.

Briles had 118 yards in 16 carries for an average of 7.38 yards per carry. Hisey had 65 yards in 18 carries for an average of 3.61.

Lisle had 39 yards, Rob Kittley had 21, Jesse Macias had 11, and Larry Barbee had 7.

Cole Turner led the Bobcats in tackles and was assisted by fine defensive jobs by Jesse Macias, Lynn Dudensing, Mike Lisle and Larry Barbee.

Leonard Rhoads intercepted a pass and Jimmy Macias and Dudensing recovered fumbles.

Action began as Munday received the kickoff and three plays later threw an interception to Rhoads. Quarterback Briles carried the ball in from the two for the first score of the game. Extra point failed. After several turnovers and penalties Briles scampered 34 yards for the Bobcats second score of the game. The extra point failed and the first period ended 12-0.

Rule scored early in the second period to make the score 18-0 and maintained this lead until about halfway through the second period when Munday kicked a field goal.

Beginning the second half with an 18-3 lead, the Bobcats were plagued by penalties. Several first downs were nullified because of penalties.

With 2:20 left in the game, Hisey scored the final touchdown and Jesse Macias kicked the extra point completing the scoring at 25-3.

Head Coach Dennis Briles said, "We are playing extremely aggressive football and expect some penalties. Only practice and game experience will eliminate this and we look forward to seeing improvement each week."

## Councilmen Open New Truck Bids

Members of the Haskell City Council met Tuesday night at City Hall and opened bids on a new truck which will be used as a dump truck.

Of five bids, the lowest was entered by Richardson Truck and Tractor of \$3,843.50.

Councilmen have received two bids on new garbage compactors and decided to wait until the next meeting to take any action on a new garbage truck or compactor.

The council voted unanimously

to pay the remainder of the airport note which totaled just over \$1,400.00.

The council also decided to install two new street lights within the city.

Mayor Belton Duncan presided at the meeting and gave the opening prayer. Present at the meeting were: councilmen W. O. Holden, Jimmy Brown, Buster Gholson, Carl Anderson and Loraine Johnson; Water Supt., Marvin Collins, and City Secretary, Ira Hester.

B. Patterson Sr. and Barney E. Moore of Munday and Leon Burkham and Joe M. Clonts of Knox City, are all expected to attend the dedication.

There will also be special representatives of several state and federal agencies at the dedication.

To get to the damsite from Haskell, go north on U. S. Highway 277 one mile past Weinert and turn right on FM 1760, turn left on FM 266, take the Goree fork of the road and turn right on FM 266, to the lake site. The road will be well marked and there should be no problem in finding the dedication site.

In a telephone conversation Beecher said, "We cordially invite everyone to the dedication and barbeque and look forward to meeting many of the fine individuals of this area."

### NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING CORRIDOR ROUTE

The Texas Highway Department is planning the improvement of U. S. 380 from the intersection of U. S. 380 and State Highway 6 in Stonewall County to a point that is 1.6 miles northeast. The proposed corridor route will pass through the town of Old Glory, Texas. The project will consist of eliminating the right angle turn within the town of Old Glory with a new location northwest of existing U. S. 380. The improvement will be a two-lane highway facility consisting of 26 foot asphalt paved travel surface and 9 foot shoulders, within a usual 120 foot right of way. Maps showing the proposed corridor route, environmental studies and any other available information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office at 249 North Central Avenue in Hamlin, Texas. Mr. Nelson Shave is Resident Engineer for the project. Also, maps have been placed on file with the County Judge of Stonewall County. Information about the State's Relocation Assistance Program, the benefits and services for displacees and the relocation assistance office as well as information about the tentative schedules for acquisition of right of way and construction can be obtained at the Resident Engineer's office. Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed corridor route for the development of this highway project by delivering a written request to the Resident Engineer's Office on or before October 5, 1972. In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

## Progressive Study Club Has Get-Acquainted Party

The Progressive Study Club began its 35th year of federated work with a "Get Acquainted Party," in the home of Mrs. Bailey Toliver last Thursday night. Members and guests easily became acquainted by discovering things they have in common from a list of commonalities chosen by the hostess.

Mrs. R. C. Couch Jr., presided over a short business session, in which she quickly persuaded the club members and prospective members that work will be a thing very much held in common.

The club is committed to work on the Red Cross Fund drive with other clubs the first week in October. The county-wide goal is \$1,692.00. Immediately following will be the flea market, to be operated by the club October 7, 14, 21 and 28, from 10 a. m. to 4 p. m. in the Oates building on the northside of the square. In addition to selling things of uncommon value, the specialty of the market will be home-made baked goods, including pies and cakes. The club is also committed to attend and support the city-wide evangelistic Crusade led by the Ed Robb team, throughout the week of

October 8-15 in the big tent on the Fair Grounds. Mrs. Couch gave special recognition to the social committee, Mmes. R. A. Lane, W. V. Felker, Bill Holden, Doyle High and Charles Chapman.

Guests attending the party were: Mmes. Bill Reeves, E. L. Wyche, Sam Rosser, Phil Henshaw, David Burson, Wallace Cox, Jr., Wayne Wain-scott, Robert Free, Darel Anderson, Dan Griffith, John Blackstock, and Ronnie Chapman.

## Naomi S. S. Class Officers Installed

The Naomi Class of the First Baptist Church met on Monday night, Sept. 25, for their social and installation of officers. Mrs. Stella Trice, President, was in charge of the program.

Mrs. Betty Gideon, Becky Richardson and Mary Kennedy sang several numbers, accompanied at the piano by Mrs. Felicia Bailey.

Mrs. Trice introduced Mrs. B. O. Roberson who installed the officers. Mrs. Roberson used as an effective center of interest for the installation, a beautiful violin and bow, surrounded by miniature paper gold violins against a background of red taffeta. Theme for the service was "Yielded Instruments." She stated that as the violin makes beautiful music when placed in the hands of a master musician, so must the officers for the new year be challenged to place their instruments of service into the hands of "The Master Musician."

Each officer was given a miniature violin. The violin is

our symbolic instrument because its make-up lends itself well to such analogy. Mrs. Roberson said the four strings represent the different facets of the work of the organization. The officers must use their instruments to set the tempo for all music for the year. They must have their instrument of service tuned and ready to be used when duty demands it. Man does not create music but God created it. Our harmony as officers must come from God through much prayer. The reading of a beautiful poem on prayer closed this very impressive installation by Mrs. Roberson.

Officers installed were: Miss Betty Jo Clanton, teacher; Hattie Couch, president; Ruby Smith, vice president; Helen Oates, secretary; Group Captains, Edna Burnett, Maurice Cothron, Frances Lane and Christine Bryant.

The class enjoyed a fellowship hour and refreshments. Attending were: Mmes. Betty Gideon, Becky Richardson, Mary Kennedy, Felicia Bailey, Stella Trice, Mattie Muriel Felker, Frances Lane, Lola Henshaw, Hattie Couch, Christine

Bryant, Alene Wheatley, Ruby Smith, Clairise Jones, Emma Bland, Claudia Mae Bland, Grace Payne, Clara Biard, Ella Moeller, Louise Greene, Roxie Parker, Helen Oates, Billyjo Roberson, Artie Mae Burkett, Della Medford, Edna Burnett, Grace McKeivain, Lillie Mae Clark, Freda Carter, Opal Adkins, Ethel Lou Shelton, and Miss Betty Jo Clanton.

All five forecasters had a short in their crystal balls last week when it came to the Stamford-Clyde game and all five lost.

Olen King, who is now tied with Dr. J. F. Cadenhead in last place on overall averages, has decided that his percentage would be much better if he could wait until Saturday morning to make his predictions, and Dr. Cadenhead sought a welcome reprieve from the forecasting by attending a medical convention in New York. Substituting this week will be Dr. Joe Thigpen.

Still holding the top average is Mrs. Howard Perry with .733. Elbert Johnson closed the lead somewhat this week bringing his average to .667. Tom Watson is in third place with .600, and Cadenhead and King are tied with .533.

In last week's games, Johnson took honors with an average of .750 missing only the Stamford game. Watson, Perry and King all had .500 and Cadenhead had .250.

In Friday night's action Albany defeated Anson 18-0; Colorado City defeated Ballinger 15-12; Clyde downed Stamford, 22-0; and Coleman downed Winters, 42-0.

This week's predictions include: PERRY, Clyde, Ballinger, Colorado City, Haskell, Jacksboro, Winters; WATSON, Clyde, Coleman, C-City, Haskell, Jacksboro, Winters; DR. THIGPEN, Clyde, Coleman, C-City, Haskell, Jacksboro, Winters; KING, Clyde, Coleman, C-City, Haskell, Jacksboro, and Winters.

Next week's action will see Anson at Ranger, Ballinger Open, Coahoma at Hamlin, Haskell at Olney, Childress at Stamford, and Winters at Brady.

Conservationist  
**J. C. YEARY, JR.**

If you want to see an agricultural "farm game" grown on private farms and ranches other agricultural crops, cotton, and water areas that make good wildlife habitat. Experienced hunters recognize the conservation practices that mark conservation farms and ranches.

Alternate bands of crops and grass, known as stripcropping, provide a lot of edges where wildlife food and cover are close together. They are favored habitats of quail and other game birds. Most farmers and ranchers are friendly to considerate sportsmen. Get acquainted with them before hunting on their land.

Fields protected from erosion by stubble and other crop residues furnish waste grains and weed seeds, which are pre-

ferred food for doves, pheasants, geese and quail. Stop by the farmhouse and ask for permission to hunt and fish. Windbreaks prevent soil from blowing, protect buildings, and provide food and shelter for game. Tree squirrels and other woodland wildlife now occur in the prairies because of the trees and shrubs planted for windbreaks. Leave fences and gates just as you find them.

Field borders of shrubs, grass, and other plants along the edges of fields and woodland provide homes for quail, rabbits, grouse, and other game birds. Extinguish campfires and burning tobacco. Fire destroys wildlife as well as trees, grass, cultivated crops, and buildings.

Two million farm ponds built for soil and water conservation have improved duck production and duck hunting throughout the United States. Quail, doves, deer, and other wildlife also use these man made water areas. There is good fishing in farm ponds, too. Pick up your trash. Carry away your cans, papers and garbage.

Old areas, such as abandoned roads, ditchbanks, and field corners, are retained by many farmers for wildlife. These protected areas are strips and islands of wildlife food and cover. Be careful not to shoot toward buildings, livestock, or field workers. Be certain of your target and background before you shoot.

Grassed waterways move water gently down slopes and help keep streams, ponds, and duck marshes free of sediment. Grassed waterways produce food for wildlife, and their edges are nesting places for quail. Obey fish and game regulations.

Irrigation reservoirs and flood-prevention dams as well as our lakes are stopover spots for migrating ducks and geese. They are used by other wildlife and provide good fishing, too. Treat the farmers' land just as you want your home treated. Respect his privacy and property.

The better cover of grass and browse on improved rangeland furnishes homes for deer, prairie chickens and other game. The added water supply from stock ponds, tanks, and wells benefits game as well as livestock. Let the farmer know that you appreciate his conservation efforts toward better hunting and fishing.

**Basic Education Classes Forming**

Plans are being made to begin our Adult Basic Education Classes in Haskell and Knox County.

Classes will start first week in October. Instructions will be offered at three levels in the Adult Basic Education Program: basic for those who have not completed the third grade, intermediate for those

who have not completed the seventh, and upper, seventh and above.

These courses offered are designed to alleviate poverty and eliminate illiteracy by teaching adults to read, write and speak the English language, and to acquire practical skills in arithmetic.

The ultimate goals of Adult Basic Education is to prepare students to pass the General Educational Development Test, which if successfully completed will qualify them for a High School Equivalency Certificate issued by the Texas Education Agency.

A new feature will be added this year. Instruction will be given in Driver's Education for those who need help in passing the written examination for drivers' license.

Knox City will have two classes with Mrs. Louise Kemletz and Mrs. Eva Gonzales as teachers. Rule will have one class at Sagerton with Bobby Lusk as teacher. Weinert will have one class with Mrs. Billie McKeever as instructor. Haskell will have two classes at

the CAP Center with Brenda Casey and Robert Wood as instructors.

No tuition charge is made and materials will be furnished free to each student.

Registration for classes at CAP Center will be Tuesday night, Oct. 3, at 7:30.

For more information please contact the Center or the Superintendent of Schools in the town which you are interested in attending.

**ROTARY**

Rule Rotary Club met Sept. 18 at noon with Bob Penman, son of Mrs. Nonie Penman of Rochester as their guest speaker. The meeting was called to order by president, Lavon Beakley, and Morris Neal led the opening prayer. Jerry Westmoreland, program director for the month of September, introduced the speaker.

Bob, a student of Rochester High School, was with a student study group of about 100, who left Houston and flew to Madrid, Spain. The various places visited in Europe were: Spain, Italy, France and England. All the tourist attractions at these places were visited, in the six weeks the group was gone. They traveled in a plane

furnished by the Mormon Church of Salt Lake City, Utah.

Some of the highlights of the trip was being in the Alps and also attending a folk fall festival held there once a year. Crossing the channel in a huddle craft, and another was in viewing the largest book store in the world in London. The store is two blocks long and four stories high. Bob purchased an old book while there. A Bible, printed in Latin and in 1543, about 70 years after the invention of the Gutenberg Press. Old books are one of his many interests and he brought six to show to the Rotary Club. Other interests he has are home chemistry, ham radio operator, coin collection and front pages of newspapers with notable events. The talk was enjoyed by all attending.

things at one time. This seems to be an exceptional rate. Professor Charles Marshall of John Hopkins University's School of Advance International Studies considers 6 worries sustained over a period of time highly exceptional and that 5 is a decent number. Some advance the theory that a number of worries at a time places less concentration on any one of them and, therefore, less trying than if there was just one personal problem. It is not easy to be selective on which worry to carry around.

across our Nation offering global coverage of news.

On a typical day in that time one might have had breakfast to reports and commentaries on witchcraft in the Carpathians, a hari-kari wave in Yeddo, ambushes in Rome, a massacre in Paris, treason charges against English Jesuits, carnage among Araucanians and a Mogul penetration in India. In the 16th Century there were abductions, conspiracies, piracy, plague and atrocities. In the period of the Islamic Empire, cruel rule was imposed on 2/3 of the then civilized population of the world.

A passage from "Jabberwocky" illuminates one aspect of the problem: "The horror of that moment," the King went on, "I shall never forget." "You will though," the Queen said, "if you don't make a memorandum of it."

WASHINGTON, D. C.—A cartoon has a wife saying to her husband, "Don't try so hard not to worry, Harry, or you'll get an ulcer." Maybe there is something to this advice. If so, with so many calamities and tragedies constantly occurring over the world we should be free of ulcers. We need a special capacity to worry about all of them at one time.

Floods, storms, war, holdups, unprovoked and irrational assassinations, such as occurred at the Olympics, are brought to us immediately by instant communication. The notion of these being uniquely bad times may not be entirely true. Imagine, for example, a 16th century existence with television and the daily papers

**Dulaney Has 100% Attendance For 12 Years**

The regular weekly meeting of the Rotary Club was held at the City Cafe September 21, with Bob Philpot presiding.

Club members gave a standing ovation to Rotarian Desmond Dulaney who tendered his resignation after having a 100 percent attendance record for 12 years.

Program chairman for the day was Stanley Furrh who introduced Myron Biard, leader in the Haskell Alcoholics Anonymous program and Aubrey Headstream, director of the three county outreach clinic located in Haskell. In his introductory talk, Mr. Biard gave some National and State wide statistics on alcoholism with a figure of 9,000,000 alcoholics nation wide. Texas accounts for some 450,000 of the total. He stressed the fact that the local AA club was one of the top such clubs in the State of Texas and he expressed his appreciation to the school system and the citizens of Haskell for the free use of the facilities where the club holds their meetings.

The second half of the interesting and informative program was presented by Aubrey Headstream who told of the closeness of the Outreach Clinic with the AA program. It was stated that when the local AA club first organized it was a rare occasion to have a person under 40 years of age in attendance at their regular meetings. Nowadays, numerous ones from 22 to 28 years of age are

present which definitely shows how alcoholism is affecting the younger generation. Mr. Headstream told of a new addition in the planning stages at the present time for the hospital in Vernon which would render services to the juvenile ages. This new addition will employ 200 people.

The invocation for the meeting was given by Rotarian H. O. Abbott and the song session led by Bob Herren with Rene Abbott serving as pianist. R. C. Couch Jr. introduced Mr. Wayne Baker of the Social Security office in Abilene as the only guest for the day.

DRIVING CONTEST

In an agricultural community such as ours, the refined aspects of farming are vitally important to our economy.

The Haskell County Fair is a public showcase of the progress of our agriculture. The Tractor Driving Contest, sponsored each year in the Fair, is one phase of this Fair that promotes the safety, skill and dexterity that is so vital to the major means of our economy.

Attend THE HASKELL COUNTY FAIR... and be present during the TRACTOR DRIVING CONTEST. Let's support this division of our Fair, and continue the work necessary to make our county the most progressive in the state, where Farming and its related activities are concerned.

See you at the FAIR, and we'll join you in watching our youngsters compete in THE TRACTOR DRIVING CONTEST.

The writer referred to says he has a neighbor who has developed a worry resistance by an indirect method. He gets about a dozen solicitations a day. He takes his mail into the back yard, sits in his lawn chair, folds them into planes and sails them against a stone wall.

Another placates his worry while listening to newscasts by simply saying, "Tut, tut." If an editorial in the morning paper irritates him he chants the phrase over and over and says it starts him on the day feeling better. Theorists in some of the sciences (someone else can furnish the name of the science) say that every sound ever produced can some day be recaptured for modern ears. When this is done, we can add the worry of past centuries to all these we have today. To do so we would just have to develop a much greater capacity to worry about more things.

If science can some day produce sounds made in the past—for instance, our own words—then we would really have something to worry about. Instead of "I wish I had said that," our worry would be "I wish I hadn't."

**FARM BUREAU MEETING**

There will be an important meeting of the Farm Bureau Cotton Producers, tonight, Sept. 28, at the Haskell Elementary School Cafeteria at 8:00 p. m. All Farm Bureau cotton producers are urged to attend the meeting which will plan desirable cotton legislation and discuss methods of having it passed in to law.

**Get Cutting**

The Grass! Does it make you smile in anticipation? Or want to pave the whole back yard? If you've got grass, it needs cutting. And when lawn work means more than just cutting the grass, you need the International Cadet riding mower that works all year... even to hauling firewood. Big 7 hp. engine starts fast with finger tip pull or (optional) key start. Cuts a path 32" wide. Also available in 5 hp. economy model.

from a month ago, but were at higher levels compared to a year ago. Poultry and eggs were below a year ago. Milk prices were up; wool and mohair were unchanged from last month, but showed some increase from a year ago.

The all-crops index was up four percent from a year ago. The majority of field crops were down from last year with the exception of wheat, rice, potatoes, and cotton which were above last year.

Only one farm commodity—calves—was above full effective parity. Cotton, for example, has a parity of 55.16 cents per lb. The price average was 30 cents per pound. Grain sorghum price averaged \$2.08, but the parity is \$3.33 per hundred-weight.

What averaged \$1.55 compared with \$1.38 a year ago. Livestock prices included: hogs averaged \$27.70 with full parity at \$30.60. Beef cattle parity is \$36.80; average price was \$33.20. Calf parity is \$44.20; average price received by farmers was \$44.20.

Parity price for eggs is 44.9 cents per dozen; average price to Texas producers was 34 cents per dozen.

Turkey production in Texas is expected to be four percent under the 1971 levels, the Texas Crop and Livestock Reporting Service reports. The current crop is estimated at 8,015,000 birds compared with 8,378,000 raised last year. Texas is now the sixth ranked state in turkey production.

Nationwide, turkey production is expected to be higher by seven percent this year compared to last year. Minnesota is the number one turkey producing state in the nation with an expected 20,700,000 birds this season.

Five Texas counties have been added to federal regulations relating to the imported fire ant control program. The counties are Nueces, Smith, Trinity, Victoria and Walker.

A total of 36 counties in Texas are now under federal regulations relating to fire ant control. They are located primarily in the coastal bend area of the state.

Red meat production in Texas and the nation has shown declines from a year ago. In Texas, commercial slaughtering plants reported a one percent decline in red meat production; nationwide, commer-

**Here's to Your Health**

A quick way to "old age" is thru boredom — the way to remain young and vigorous in old age is to keep active and enthusiastic about living. At age 65, we can look forward to another 15 years or more of life. If we let ourselves go to seed, life can become a burden. There is so much of beauty and stimulation all around us, so many skills and crafts we can experiment with, that life can and should remain active and satisfying.
