Hale County - Abernathy, Texas - Lubbock County VOLUME 54

Thursday, Nov. 14, 1974

MICKEY DAVIS (99)

standing player of the game

last Friday night at Lockney.

The 150 pound junior caught

two passes for a total of 103

yards. One reception went

for a touchdown and the other

set up the Antelopes second

touchdown. Mickey also

'kicked both extra points.

Play Tulia

Here Friday

the Tulia Hornets when they

come to Abernathy Friday

night for a District 4-AA

game. This will be the final

tilt of the current football

season for the AHS Ante-

The Antelopes used their

passing game to throw a scare

into the Lockney Longhorns

Friday night, but came out

on the short end of the score

124 yards through the air

scored twice in the first half.

The first score came on a 57

yard bomb from Wayne Riley

to Mickey Davis. Extra point

was good and the Antelopes

at the effectiveness of the

Antelope attack gave up the

football, and in no time the

Antelopes were on the score-

board again. Wayne Riley

aftermoving the team to the

Lockney four yard line hit

Ken Davenport in the end

zone. Extra point was good

and the Antelopes led 14-7.

Lockney managed to score

before the 1st half ended and

as the teams headed for the

dressing rooms the score was

SECOND HALF

in the second half scoring 4

touchdowns and completely

shutting off the Antelope at-

tack. The young Antelopes

continued to play with au-

thority, but were unable to

muster any scoring drives

against the larger Longhorns.

The game ended 36-14 in

district record, while the

Antelopes remained winless.

Lockney moved to a 2-1

Mr. and Mrs. C. C. Tur-

favor of Lockney.

The Longhorns got unstuck

The Longhorns surprised

tied the game 7-7.

MR. AND MRS. J. BRAD SEALE ... to Observe 50th Wedding Anniversary

Mr. and Mrs. J. B. Seale will observe their 50th Wedding anniversary Sunday, Nov. 17, 1974. A reception will be hosted by their children: J. B. and Marthalang Seale, Harry and Velma Reeves and grandsons: Jeff Seale, Brad and Randall Reeves from 3 to 5 p. m. in the parlor of First Methodist Church, 7th and Houston in Plainview, Texas.

Mr. and Mrs. Seale were married Nov. 16th, 1924 in Lamesa, Texas. They made their home in Abernathy, Texas, 20 years, Lockney, Texas, 20 years and Plainview, Texas, the past 10

Friends and relatives of the couple are invited to attend the reception.

Thickstun Is Honored by Co.

LUBBOCK, TEXAS --- An Abernathy resident was honored Tuesday night, Nov. 12, at Pioneer Natural Gas Comdinner at the Lubbock Coun-

Millard D. Thickstun was presented a service award recognizing his 20 years of service to the company.

K. Bert "Tex" Watson, president of Pioneer, presented the award at the banquet which was the first of three such events being held by the company at different cities in its service area. This year a total of 210 employees, representing 2,430 years of service, are being honored.

PRATHER HEADS YOUNG FARMERS

The Abernathy Young Farmers met Tuesday, November 5, in the Vocational Agriculture Power Mechanics Building. Miss Linda Farrell, Special Assistant to Texas Agriculture Commissioner John C. White, presented an informative program on the services provided by the Texas Department of Agri-

Following the program, the group elected as officers for 1975: Laurin Prather, President; Jim Barton, Vice -President; Ronnie Hamilton, Secretary; James Neve, Treasurer; Bud Rhodes, Re-

SCHOOL AUDIT REPORT GIVEN

The annual audit report of Abernathy Independent School District for Sept. 1, 1973, to August 31, 1974, now is available for the public to inspect. The audit covers several pages in a bound book. One of the pages is reproduced in this issue of The Review, as required by state law. Check the audit page in this paper, Also, interestspect the complete audit report of several pages may do so by going to the school business office, or The Abernathy Weekly Review office,

605 Ave. C. pen left early this week for The school audit was made by Bolinger, Segars, Gilbert & Moss, Certified Public Houston, where she is to undergo examination at a hos-Accountants, Lubbock.

BASKETBALL SEASON IS OPENING

Basketball, 1974-1975 season, will take over the athletic interests of the AHS Antelopes and fans following Friday night's AHS-Tulia football game here, the final game of the current season

for the Antelopes.
The AHS A &B girls go to Ralls for a basketball scrimmage Nov. 16, starting at 1 p. m. The B girls play Morton at Abernathy Nov. 18, starting at 8 p. m.

The A girls and A & B boys go to Lubbock to play Christ The King High School teams Nov. 19. First game starts at 5 p. m.

The AHS A girls will play in a tournament at Slaton Nov. 21-23. On Nov. 26, Cooper

brings A & B girls and A boys teams here to meet the corresponding Antelope teams. First game starts at 5 p. m. AHS A & B girls and boys

go to Dimmitt Nov. 29. First game starts at 4 p. m. On Dec. 3. Littlefield brings their A girls and A & B boys teams to Abernathy to play the Antelopes, starting at 5 p. m.

Morton B girls come to Abernathy Dec. 5, for a game starting at 8 p. m. Coach Carl Wayne Irlbeck will take his AHS Ante-

lope A boys to a tournament in Plainview Dec. 5-7. The AHS A & B girls go to Levelland forgames Dec. 6, starting at 5 p. m.

Roosevelt will bring A & B girls and A boys teams to Abernathy Dec. 10, for games starting at 5 p. m.

Highlight of the basketball season will be the annual Abernathy High School Tournament for A girls and

boys Dec. 12-Dec. 14. 7-8-9 Grades Basketball Activities

Following is the schedule of games for Abernathy Junior High School for the early part of the 1974-1975 basket-

ball season: Nov. 18: 7th grade boys play Christ the King in Lubbock, starting at 5 p.m.; followed by 8th grade boys and girls games at Christ the King, Lubbock.

Nov. 18: 9th grade girls play Morton here at 6:30

Nov. 21-22-23: 7th grade boys and girls to play in the Cotton Center tournament. Nov. 25: 7, 8 & 9th grade boys play Lockney here in games starting at 5 p. m. Nov. 25: Abernathy, 7, 8 & 9th grade girls go to Lockney for games starting at 5

Dec. 2: 7, 8 & 9th grade girls play Tulia here in games starting at 5 p. m. Dec. 2: 7, 8 & 9th grade boys go to Tulia for games starting at 5 p. m.

N. D. Lions End Season Friday The New Deal Lions will close out the current football season Friday with a conference game with the Chiefs

SCHOOL PLANS **IMPROVEMENT** OF FACILITIES

At the November 4th Board of Education meeting of the Abernathy Independent School District, the board authorized the architectural firm of Brasher, Goyette, and Rapier to make recommendations for remodeling the interior of the school auditorium. The recommendations will be presented to the board during the December or January meeting. Other building improvements discussed were the remodeling of the rooms in the old 4th and 5th grade building into a food preparation training center for students in Mrs. L. G. Montgomery's Vocational Education class. One room will become a western style dining room and the other one will be a modern cafe type kitchen. This should be completed in the early

Also approved were minor projects including concrete work in various areas of the school and filling the track with screened rock and rolling it. This will make a much better track than the school now has but it will not be an

all-weather track. In other action, the board approved bills payable for the month, examined and certified the tax roll. The total evaluation for the Abernathy School is now \$58, 372, 744. An enrollment report was examined and 1235 students are enrolled at the Abernathy School, which is 45 over the comparable date in 1973.

The lunchroom report indicated that an average of 744 students ate in the lunchroom during the month of October.

The next regular board meeting will be December 2, 1974, 7:30 p.m. Those in attendance at this meeting were: L. J. West, president; Billie Harrison, vice-president: Joe Lovelace, secretary; Joe Oswalt; David Pinson; Bob Riley; Lop Carmickle. Also present were Farl Carter, business manager, and Dr. Delwin Webb, super-

Hearing Set For School's Renewal Application

OFFICE OF: Marcia Zierlein, Emergency School Aid Act

Public Hearing December 5, on Renewal Application

Abernathy citizens have been invited by the Abernathy Public Schools to attend a public hearing Thursday evening, December 5, concerning the school district's renewal application for funds under the Emergency School Aid Act program. Persons attending the meeting will hear a discussion on the application and will have an opportunity to make recommendations. The hearing is set for 7:30 p.m. in the Gold Auditorium of the Aca-

demic Center. An Advisory Committee of eight adults and eight students is serving to make recommendations about the applications.

Adult members of the committee are Dan Ward, Carroll Bradley, Mrs. Esther Sepeda, Mrs. May Bell Glass, L. S. Chen, Harold Stillwell, Mrs. Ruth Fulton, Miss Alma Ruth Patterson. Eight students are members of the committee. They are Shelia Mathis, Michele Neis, Victor Garza, Alonzo Ramos, Debra Burn ett, Robin Wright, Jay Black-mon, and Judy Valdez.

The public hearing is re quired by law to give local citizens an opportunity to make recommendations and hear discussion concerning

the application. Adult and student mem bers are encouraged to attend this meeting, December 5, along with all interested members of the community.

Waymon Jones, who recently underwent knee surgery at a Lubbock hospital, has returned home.

Clifford B. Jones Station is Southwestern Public Service Company's largest generating plant. It is located southeast of Lubbock on Farm Road 3020, just west of the Buffalo Springs Lake Road and has a generating capability of 512,000 kilowants. The public is invited to visit the station during open house Saturday and Sunday, November 16 and 17, from 12:00 to 6:00 p.m.

Southwestern Public Service Company's largest generating plant is Clifford B. Jones Station, located southeast of Lubbock on Farm Road 3020, just west of the Buffalo Springs Lake Road.

The second 256,000 kilowatt unit was completed and put on the line in July of this year and the plant now has a total generating capability of 512,000 kilowatts.

Southwestern will hold an open house Saturday and Sunday, November 16 and 17, and the public is invited to visit the plant from 12:00 to 6 p. m. each day.

There are 6-million pounds of structual steel and 30-thousand tons of concrete in the plant building and the cooling towers weigh 2-million pounds each and have a million board feet of redwood lumber in them. The piping and tubing in Jones would reach from Lubbock to Abilene and back if you could get it all in a straight line.

Primary fuel for the boilers at Jones Station is natural gas. The number 2 unit was designed to also use number 2 fuel oil as standby fuel and the first unit has been retrofitted to also burn fuel oil.

The huge boilers can boil over 10-million gallons of water per day into steam at 2-thousand pounds pressure. This would be enough water to supply a city of about 50thousand people, but it is used over and over again with only a small loss - approximately 6 gallons a minute. The steam produced by each boiler passes through 23 miles of tubing and comes out at a temperature of one-thousand degrees - that's hot enough to make steel pipe glow a dull red. On its return trip to the boiler in the form of water, the steam must pass through another 31 miles of piping and tubing.

The high pressure steam produced by the boiler passes through the turbine blades and causes the massive rotor on which the blades are mounted to revolve at 3600 times each minute. If it were free to roll down the highway, it could cover the distance between Lubbock and Midland in about six minutes. The generator rotor is directconnected to the turbine so that it also rotates at 3600 RPM and while turning, generates electricity at 22-thousand volts. The voltage is increased to 230-thousand volts in the transformers at the substation outside the plant, which improves the economics of power transmission over long distances.

The turbine control system at Jones Station was the first of its kind to be installed anywhere in the world. The turbines - and in fact all the major equipment in the plant - are controlled by a computer which is programmed to perform all the nctions of starting, operating and shutting down. It ilso responds to equipment faults by notifying the operain the event of a serious ab-

normality, it initiates the re-

moval of equipment from service.

This ultra-modern power plant is a viable example that the environment and electricity are not enemies. You can have power generation without pollution and nothing that is harmful is discharged into the atmosphere at Jones Station. On cold days you'll see a big white cloud over the cooling towers, but that's nothing more than water vapor. Actually, the vapor is washing the part of the atmosphere that passes overit, but that's not its pur-

Another important aspect of the operation of Clifford B. Jones Station is that it makes a major contribution to the water conservation efforts of this area. Sewage effluent is used for all purposes at the plant except for drinkwestern buys 4 to 6 million gallons of sewage effluent per day from the city of Lub-

bock.

In addition to water used for the boilers and for human consumption, there is a third water system in the plant. This is the water used in the cooling system that converts the spent steam back into a liquid form. After the steam passes through the turbines. which takes about one second, it loses its pressure and high temperature and enters the condensers under a high vacuum. The condensers each contain about 105-miles of stainless steel tubing through which 146-thousand gallons of cool water per minute are pumped. The cool tubes cause the steam to condense into water. This same water is returned to the boiler for reuse, but on its return trip it must pass through some 31 miles of tubing where it is heated to 500 degrees before

entering the boiler. The heat absorbed by the cooling water in the process of condensing the steam into water in the condensers is dissipated into the atmosphere by the cooling towers. This devise operates something like the evaporative coolers used by many to cool the air in their homes. In this case the towers are cooling water instead of air and to do the job properly for Jones Station, they had to be 462 feet long, about 50 feet wide and 61 feet in overall height. As was said in the beginning, they weigh nearly 2-million pounds each and contain almost a million board feet of redwood lumber. It also takes 1650 horsepower to operate the hugh fans in each tower.

More than 400-million gallons of water per day pass through the cooling towers, but it is used over and over with all the water in the towers making a complete trip through the condensers and back to the towers every 7 minutes. In passing through the towers some of the water is evaporated and some of it is drained into a man-made. sealed lake near the plant where it is held ready for further use as irrigation

generating capability at Jones Station is controlled by an automatic dispatching system, which regulates the production of all of Southwestern's major generation facilities. The automatic dispatching system knows which generators do their work the most efficiently when everything, particularly the cost of fuel, is taken into consideration. So, the ADS loads up those machines which are least efficient

The 512,000 kilowatts of

der any given conditions of electric load - maximum average - minimum - the electric company is working to provide its customers with the most efficient - and economical - electricity that it can produce.

first. The result is that, un-

The plant has a central information system which takes nearly 1,000 different readings every minute, records them and calculates their meaning insofar as the plant's efficiency is concern-

The excitement or romance of the central information system lies, of course, in what it does on those infrequent occasions when there are problems, It is both the alarm that reports trouble and the detective that finds out why there was But, it is its day to day

operation - routine operation, so to speak - that is of greatest importance to the electric company's customers insofar as the cost of their electric service is concerned. The information that it provides to the control room helps make it possible to generate electric power at the lowest possible cost, at the same time it assures the customer of the most dependable service.

The combination of new, efficient, larger generating units, which produce more kilowatts for less fuel, plus the central information system working to keep those machines producing at the high levels of efficiency for which they were designed are vital weapons in the fight against inflation.

While it isn't something you could put together with a "do-it-yourself" kit, the plant is, in fact, a homemade product. The design, engineering and construction supervision was done by Southwestern Public Service Company's own engineering department, under the direction of H. O. Hodson, vice president Missouri Valley Constructors, Inc., of Amarillo, was the mechanical and structural contractor and Budwine Service Electric Company, Carlsbad, New Mexico, was the electrical

contractor. I. B. Bottomas was resident engineer for Southwest-ern Public Service Company plant, and Floyd Starks is the lant manager.

Jack Lane has returned ome from Methodist Hospital, Lubbock.

ANTELOPE BAND WINS a FIRST RATING AT UIL

The Abernathy Antelope Marching Band competed at Jones Stadium in Lubbock on Wednesday, November 6. The event was the University Interscholastic League Regional Marching Contest. The band was rated lst division by Judges Charles Trayler, of Abilene Christian College, J. W. King, of Canyon, and Gerald Smith of Panhandle. In the twirling competition, Kym Thomp-son, Terri Hill and Glends Shires, senior twirlers with the Antelope Band received lst divisions. Debbie Knox, Nancy Irish, Denice Thornton and Kelly Henderson received 2nd divisions and Julene Dorman a 3rd division Judges for the twirling event were Dub Crain and Mr. Don

Craig, both of Dumas. The band was complimented by each judge for the difficulty of the drills that were marched, and for the pride it reflected as it marched. Mr. Smith wrote. "Good diagonal marching good carriage -- some playing problems, but an overall good job. These people march with pride. Keep it up!" Mr. King wrote, "Band marches well--outstanding show.' Dr. Trayler wrote, "A good band--pretty show--effective drills, some quite difficult--obvious pride in your

After football season, the band will be busy preparing for concerts and for another contest in the spring of the

ADVISORY COMMITTEE MEETS HERE

The District-Wide Advisory Committee for the Emergency School Aid Act met Thursday, November 7, at 7:30 p.m. in the Gold Auditorium of the Academic Center. Interest centered around the renewal of the ES-AA grant. The renewal grant will contain two components: (1) a reading program for elementary, and (2) a career education program for the secondary school. (It was announced that there would be a public hearing later this

Committee members present were: May Bell Glass, Ruth Fulton, Alma Ruth Pat-terson, Shelia Mathis, Michele Neis, Harold Stillwell, Carroll Bradley, L. S. Chen, Charles Bowen, Wilma Still-well, and Marcia Zierlein.

Palmenaders

BRIEFS---

A longtime Abernathy resident, Mrs. Levi (Maude) Pettit, has moved to this address: 10202 Alta Loma, Houston, Texas 77034.

Jerry Bartlett of Cameron was in a hospital for back treatment. He is a former director of Abernathy School

Pat Bundick has graduated from the Ryder Technical Institute at Dallas as a diesel mechanic, and is employed by Ryder in Lubbock. A 1973 AHS graduate, he is the son of Mr. and Mrs. C. E. Bundick, Abernathy.

The United Methodist Youth will have a chili supper at 6 p. m. Sunday, November 17, in the fellowship hall. It will be to raise money for a ski trip to be taken in February. Following the meal there will be singing and Bro. Al Jennings will continue the study on the twenty-third

Mrs. Chris Waters returned home from Methodist Hospital, Lubbock, following surgery.

TEL CLASS MEETS

Eleven members of the T. E. L. Sunday School Class of First Baptist Church met in the home of Mrs. Lizzie Lebow, Nov. 8, for our regular class meeting.

Mrs. Allie Slater opened the meeting. She called on Mrs. Maude Givens for opening prayer. After which the current events were discussed. Reports were given on the sick and those in hospital and nursing homes.

Mrs. Eunice O'Niel brought the devotional from Dr. Norman Vincent Peale's book. Especially on being 'Thankful for Ourselves" this Thanksgiving. Mrs. Olga Higginbotham gave two readings with a Thanksgiving theme.

We were glad to welcome Mrs. C. F. Phillips and Mrs. E. G. Thompson.

Refreshments were served before we joined hands and sang our class song "Amazing Grace".

Closing prayer by Mrs. Pearl Grimsley. -Reporter

As in the past, quality Ruby Red Grapefruit and Texas Oranges will be avail-able in 20 and 40 pound box-

Twenty pound boxes will sell for \$4.00 and forty pound boxes for \$6.00. Due to extra handling and boxing expense, the smaller boxes require a higher selling price per box.

FFA members will collect for the fruit at the time the order is placed and give the purchaser a receipt. The member will then deliver the fruit the second week in December.

If an FFA member does not call on you, call the Vo Ag Department at 298-2555, mornings, on school days. Your name will then be taken, then a member will call on you

The funds raised from fruit sales are used to sponsor the Parent-Member Banquet in the spring.
Sales will end Friday,

November 22.

NORTHSIDE BAPTIST

CHURCH NEWS Don Olive, a professor at Wayland, filled our pulpit for morning and evening services. Don spent the day in the home of Mr. and Mrs.

Tom Conway. RA NEWS Our RA boys were in charge of our services Sunday. They taught our Sunday school class and training union. Also were in charge of the singing and offerings.

They did a fine job. Anyone who would like to attend our services and are vithout transportation may call 298-2668. Ralph Hanes vill be glad to come by and pick you up. Our morning

services are: Sunday School - 9:45 Worship Service - 10:45 Training Union - 6:00 Worship Service - 7:00 Wednesday Night Prayer Service - 7:30

INDUSTRIAL SEMINAR IS HELD HERE

The Southwestern Public Service Company and the Texas Industrial Commission co-sponsored an Industrial Sales Team Seminar Thursday afternoon, November 7, at South Graham's Restau-

The seminar was for citizens interested in the economic development of Aber-

Dave Cavitt, SPS manager, opened the meeting and ntroduced Homer Tucker, industrial development consultant for the Texas Industrial Commission. Tucker spoke on the services offered the T. I. C. and on industrial financing.

SPS area development manager, Larry Milner, discussed Total Community Development and How to Prospect. Kenneth Owen, SPS area development consultant, talked about Store Front Modernization and a Community Housing Improvement program.

The seminar was presented as part of Southwestern's Area Development Department program to help communities in their service area to effect planned and orderly growth and industrial ex-
