Museum Planners

Mrs. Jess Wayne (Iva Jean) West and John Skaggs display the architect's drawing of the planned Llano Estacado Museum to be constructed on the Wayland campus. The two are coordinating the fund drive to raise the final \$100,000 to cover construction costs.

"The proposed \$700,000 Llano Estacado Museum and Regional Heritage Center promises to be one of the showcase projects of the Bicentennial, not only for Hale County, but also for the state of Texas," according to Dr. Gwin Morris, member of the Llano Estacado Museum Advisory Board and executive director of the American Studies Institute of the Southwest.

A campaign to raise the additional \$100,000 necessary for the museum's construction was launched last week when bids for contractors exceeded previous estimates.

Endorsed by the American Revolution Bicentennial Committee of Plainview, the seventh community to be named a Texas Bicentennial

City, the museum is a joint project of the Hale County Historical Society and Wayland Baptist College to build a regional heritage center for Hale County.

When completed, the building will house office space for the Historical Society, storage and exhibit preparation space, small conference facilities, and exhibit space.

Scheduled for completion in early 1976, the museum will draw visitors to Hale County as part of the Bicentennial celebration, Dr. Morris said. "Among projects across the state, it will rank as one of the major projects to be completed in honor of the 200th birthday of the United States."

Father Julian, far from being a stranger in this area, has been preaching Missions or Revivals, in both English and Spanish, throughout the Southwest for the last 19 years. Originally from Escanaba, Michigan, he spent many years preparing himself for this work as Priest and Missionary, by studying Holy Scripture, Philosophy, and Theology, in various colleges of Ohio, Michigan and Indiana. Born June 23, 1909, he was ordained the Holy Priesthood June 8, 1939.

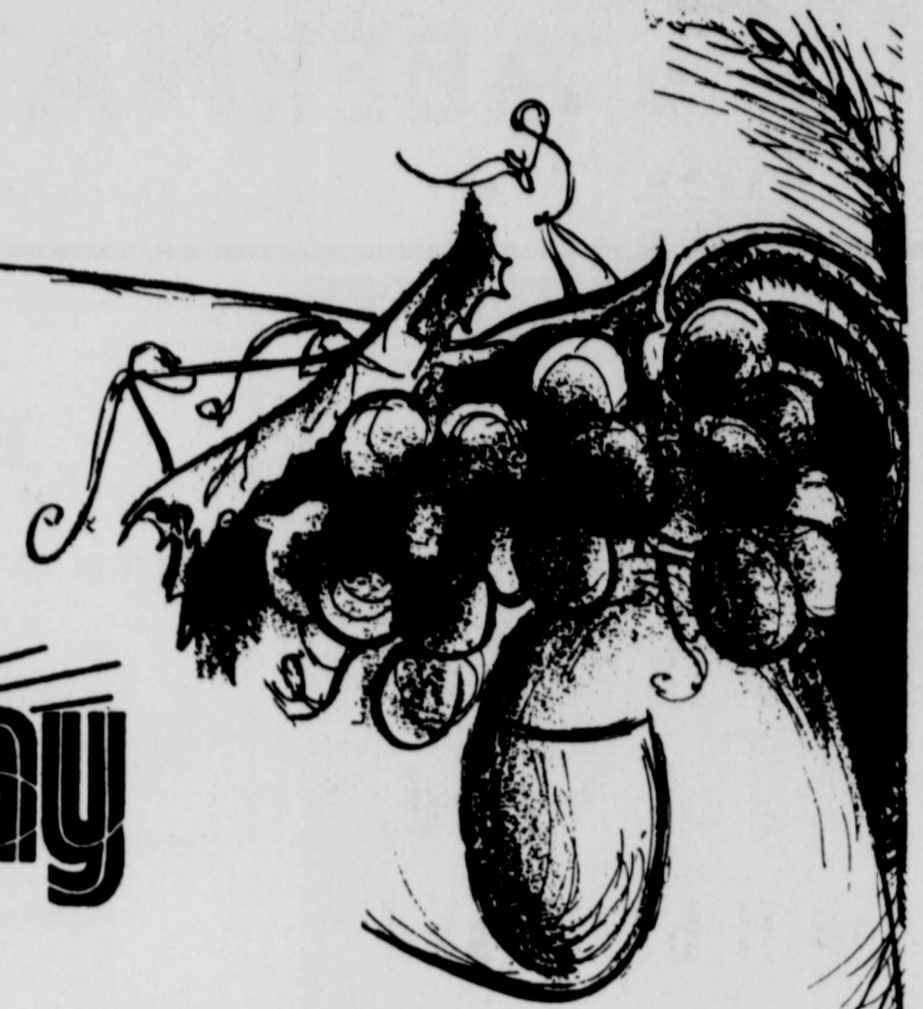

Together with the Pastor, The Rev. Father Clifton Corcoran, the visiting Missionary cordially invites and strongly urges all Christians of this area, both Catholic and non-Catholic, to attend the inspiring services for the Glory of God, for the good of their souls, and for peace in the world.

Dear Buford:
I am enclosing my check for one year subscription for the Abernathy Review. Again, may I say how much I enjoy the Review as it always lets me know what is going on in my home town. My mother is critically ill and in the hospital in Fort Worth. She has been very ill for the past six weeks. Her doctor is not giving us any good news. Please give my

warmest regards to my friends in Abernathy.
Sincerely,

(After type had been set on Vance's letter and while we were putting the Review together Sunday, we learned that Mrs. M. Thomas died Friday night in Fort Worth.)

Mr. and Mrs. Van Gal oway attended funeral services in McAdoo First Baptist Church Thursday for her uncle, C. R. Edinburg.

WAITS PROGRAM GIVEN FOR CLUB AT COUNTY LINE

The County Line Community Club met Thursday, November 21, 1974, in the County Line Community Club Building in County Line. The President, Audrey McQuire, presided. Opening prayer was given by Faye Ann Nelson. The secretary, La Nell Stone, read the minutes of the last meeting. The volley ball tournament was discussed, but no final plans were made. The president said that we could have a celebrity jewelry party and raise money, or a Mary Kay Cosmetics party. The two items will be discussed later. The Christmas party was set for December 12th in order to avoid the Christmas rush. Everyone is invited to come and bring a gift to exchange at the Christmas tree. Hot spiced tea and party mix was served by the hostesses from a table decorated

Page 3, Abernathy, Texas, Weekly Review, Nov. 28, 1974
with the Thanksgiving motif.
Visitors present were Mesdames, Dorothy Crawford, Dot von Struve from Abernathy and Elizabeth Watson of Ruidoso, New Mexico, Mary Lynn Rice, Jerri Floyd and Rita Coats. We hope they will come back to our Christmas Party.
Faye Pope introduced Mr. and Mrs. Monroe Waits of Abernathy who gave a wonderful demonstration on common weeds that grow around here and how they can be dried, bleached and dyed with rit any color one desired and then arranged in floral arrangements. He showed teasel, jimson and cat tail millet along with button weeds, cottonburrs and dried okra. He has it all for sale at his feed store in Abernathy. We certainly do appreciate them coming out and showing us the beautiful arrangements that can be made with just common weeds.

Hale County Home Is Donated To Tech

LUBBOCK, Nov. 18, 1974 --The gift of a two-and-a-half story home to the Ranch Headquarters was announced Monday night, Nov. 18, when more than 400 members of the Ranch Headquarters Association met at The Museum of Texas Tech University to hear a progress report and comments by western actor Dale Robertson.

The home was bequeathed to the Ranch Headquarters by the late Josephine Waddell Barton of Hale County. It was built in 1909 by Joseph James Barton, and it had been her home from the day she married Joseph's son, Jack Sneed Barton, in 1917.

When the house is moved to the Ranch Headquarters it will depict the era of the elegant home, after ranchers had built their industry to prosperity. Some ranchers who

started out in log cabins or dugouts eventually had homes like the Bartons, and its inclusion among the buildings at the Ranch Headquarters is a fitting climax to the story that's told there. It is an outdoor exhibit of authentically restored ranch structures which depict the history of the industry.

The message of the progress report dinner was "Partners -- your help is needed."

Robert L. Snyder, Ranch Headquarters director, told the guests that the ranch partners include the association, Texas Tech University, the Lubbock community, ranchers and individuals in allied industries and "all who share in the heritage of the West."

His comments followed a slide presentation of progress made to date. He said that more than \$1

million has been invested in the Ranch Headquarters, including the replacement cost of donated structures and furnishings, contributions by Texas Tech, and funds donated through the Ranch Headquarters Association.

Snyder asked the Ranch Headquarters Association members to assist in raising approximately \$392,000 needed to complete the restoration of the interpretative structures at the Ranch Headquarters, including moving of the Barton House, the Waggoner Barn, the Spur Granary and Corral and a Spanish Era house.

"Money for these projects," Snyder said, "must come from donated funds. The Lubbock community was asked specifically to share in the fund development in the amount of \$250,000. Snyder announced that

members of Josephine Barton's family have donated some of the furniture for the house that is to become a part of the Ranch Headquarters. The late Mrs. Barton left a daughter, Mrs. W. B. Albers, and two sons, Joe and Jack P., who live in Abernathy, and a third son, Bob, of Costa Mesa, Calif.

The gift of the Barton home leaves only one historic building yet to be acquired-- a house of the Spanish era of the 1700s. The Ranch Headquarters Association is a non-profit educational corporation responsible for securing, moving and restoring the buildings necessary to give historical integrity to the project.

The Ranch Headquarters at Texas Tech University is not yet open, but weekend visitors -- during the summer months -- have numbered 30,000. School tours are scheduled regularly. Its function eventually will be to serve in teaching and research, although its attraction for tourists is expected to be great.

Deneese Rhodes Gives Program For Center HD

Deneese Rhodes, 4-H state representative, gave the program at the meeting of Center Home Demonstration Club Thursday in the home of Mrs. Joe Stubblefield. With slides, she told about her trip to Washington, D. C., to 4-H Congress.

On her tour she visited Watergate Hotel which covers an area of 10 city blocks; the Kennedy Center with all its furnishings donated by other countries; Lincoln Memorial with one of its walls covered with the Gettysburg Address; Jefferson Memorial and the Capitol. Almost everything was under construction, getting ready for the 1963 celebration, she said.

The 4-Hers visited Congressman Mahon in his office and he took them to the Rayburn building. Many tried to get President Ford's autograph when they saw him getting a haircut in a barber shop, she stated. The tour also included a

visit to Arlington Cemetery. Concerning the Smithsonian Institute, she remarked one could not see everything even in two weeks. The National 4-H Center in Mt. Vernon was visited by 133 Texas youths.

Mrs. John Robertson, grandmother of Deneese, was a guest. With Mrs. Hobby Smith presiding, a committee of Mrs. Tom Karrh, Mrs. Grady Sheppard and Mrs. Bert Jacobs was appointed to plan the Christmas party.

THE ELEGANT HOUSE -- For years a spot has been marked "elegant house" on the Ranch Headquarters museum site at Texas Tech. Monday, the Barton home from Hale County was announced as the house that will sit on that spot. It once served as headquarters for a 50-section ranch. (Staff Photo)

Incredibly, during the years when stove wood was quadrupling in price, the cost of cooperative electricity has been cut in half. But that appears to be behind us. The higher cost of gas and oil means higher generating costs for our power supplier and thus higher electric bills. But when the South Plains Electric Cooperative, Inc. emancipated its members from the wood pile, they made a promise they will honor today; dependable power at its lowest possible price. Its a promise they'll keep in the future as well.

"Per-fect Con-trol" is a new concept of Cotton Seed treating by Gustafson, Inc. of Dallas.

"Per-fect Con-trol" combines VITA VAX 17F, a systemic fungicide from UniRoyal, GO-BETTER, an insecticide from Growth, Inc., and CAPTAN, a time proven fungicide.

All three combine to stop Rhizoctonia (damping off) Soil Borne Diseases, Early insect attack, Soil fungi, pre & post emergence diseases by systemic action.

"Per-fect Con-trol" does all this by penetrating into the seed (systemic action) and remaining with the young seedling for 3 to 4 weeks.
