

## Schedule Takes Shape For Annual Celebration

Plans for the city's annual Independence Day celebration continued to take shape last Wednesday as members of the Chamber of Commerce

planning committee met at James Graham's restaurant. Plans are being finalized and arrangements made for many of the activities the committee had previously discussed as possible additions to the day's festivities, with many new activities being added to the celebration agenda.

The noon meal, at \$2.00 per plate, will be served in the new fire station by members of the Abernathy Volunteer Fire Department. The luncheon will feature barbecued beef and will be catered by a Lubbock firm.

Among the new activities scheduled for this year's celebration will be a "cowchip

throwing contest", and a "Paul Revere" ride kiding off the city's participation in the nation's bicentennial celebration.

The ride will be a joint project of the Abernathy and New Deal Riding Clubs, and will begin at New Deal, with riders continuing in relays into Abernathy. Mayors of both cities will participate in the ride, with Abernathy Mayor Pete Thompson riding into town with a special bicentennial proclamation to begin the day's activities.

Another highlight of the day's events will be the raising by local Boy Scouts, of a United States flag which once flew over the nation's capital, V.A. Dodson and Bob Parks have been named by the committee to direct for the flag-raising ceremony.

Representing Abernathy's Singing Disciples gospel group, Patsy Steward has announced that several well-known groups will participate in the celebration's Gospel Music Show, scheduled to begin immediately after the Old Fiddler's Contest in the new fire station.

### ETC.

Thanks to the efforts of the Abernathy Lions Club and Volunteer Fire Department, we can say our blood drive last week was a great success, with 35 pints of blood given—ten over the number required to keep the program in operation in the city. Special thanks to Nannie Bell Ritchey, who announced the drive over police and fire department channels, and to those Lions who drove around town announcing the drive over a fire department loudspeaker.

Manna Struve ...celebrates 99th birthday

I think the biggest 'thank-you', however, should go to those donors who went down to city hall and gave a pint of blood so that others might have a chance to win their battle against disease, or even death.

Members of the Abernathy Ministerial Alliance met Thursday morning, and those present voted to give their full support to the West Texas Billy Graham Crusade scheduled to begin in late August. The alliance expressed its desire to cooperate with the crusade organization when it calls for participation in various areas.

### County Raises Amount Paid For Fire Calls

Hale County Commissioners agreed recently to pay the city of Abernathy \$200 for each call the city's fire department makes in Hale County.

In the past, the county paid the city \$900 per year, regardless of the number of calls made. The decision came during a meeting in which Abernathy mayor J. Pete Thompson city manager Larry Fields agreed that the county would not be billed for false alarms.

The new figure of \$200 per fire is the same figure now paid to the Plainview Fire Department.

### NOTICE

There was a mistake in last week's Northside Baptist News. It was our error and not the writer of the Northside news. The error was that Mrs. Wayne Riley was a patient in Hi Plains Hospital, Hale Center. At the time of the writing, Mrs. Wayne Riley and three of her granddaughters were in Hawaii. The lady that was in the hospital was Mrs. Wayne Ray. We are sorry about this error.

### MANNA STRUVE CELEBRATES BEGINNING OF 100TH YEAR

Family and friends of Aunt Manna Struve helped her celebrate her 99th birthday Sunday June 15th.

After five months in the Hale Center hospital from August '74 to February '75 because of a broken tibia, she has been making a remarkable recovery. Her health is now excellent and she gives every indication of living beyond the centennial mark.

She was born when the nation was an even hundred years old and will celebrate her 100th anniversary when the country passes its bicentennial.

Her Eastern Star friends gave her a mini-party during the week prior to her birthday and made her a present of a miniature silver grand piano that is a functioning music box programmed to play a lovely modern melody when the lid is lifted. She treasures the token of love and wants to keep it close at all times.

Her children have been taking turns in helping to look after her, especially at night.

### Services Held For Mrs. A. H. Hodgson

Services were held Tuesday in DeKalb, Texas for Mrs. A. H. Hodgson of that city. Mrs. Hodgson passed away Sunday morning at High Plains Hospital after suffering a heart attack. She was 85 years old.

Two very faithful ladies alternate staying with her during the day.

She likes watching TV, taking auto rides, and going for a "walk" in her wheel chair. She still takes note of beautiful sunsets and delights in lovely flowers. She enjoys music and is still able to play the piano and the harmonica.

The only close attention she needs is when she walks with her "walker" at which time a steady hand on her arm is required to give her confidence.

Aunt Manna is living proof that surviving to a ripe old age can be a worthwhile experience. One of the few indications of loss of faculties is her continuing criticism that newspapers are using smaller and smaller print!

### Services Held For New Deal Lady

Services for Mrs. Maria Aurelia Marquez, 38, of New Deal, were conducted at 10 a. m. Tuesday in St. Ladore's Catholic Church.

Burial was in the Odd-fellow Cemetery in Abernathy under direction of Chambers Funeral Home.

Mrs. Marquez was dead on arrival Saturday at Lubbock Osteopathic Hospital, Justice of the Peace Charles Smith ruled death due to natural causes.

Survivors include her husband, Carlos; three sons, Felix Casares of Lubbock and Ricky and Feliciano Marquez, both of the home; a daughter, Estefana Marquez of the home; a brother, Ted Villanueva of Arionna; a sister, Maria Villanueva of Arionna; her father, Ignacio Villanueva; and a grandchild.

Performances will be held nightly at 8:30 p. m. with a single steer roping event Saturday, June 21, at 2 p. m.

Mrs. Robert Gough was in Archer City last week to attend funeral services for a friend. She also visited in the home of her mother.

### PLAINVIEW RODEO BEGINS TODAY

Other activities still listed as 'possibilities' by the committee were the launching of a hot-air balloon over the city, and tug-of-war and egg-toss events.

L. G. Montgomery and Dale Powell were named as chairmen for the Little Britches Rodeo, which will follow the Gospel Music Show, with admission set at \$2.00 for adults and \$1.00 for children aged 12 and under.

Committee chairman Hoppy Toler stressed the fact that out-of-town participants in the July Fourth parade would be presented with free tickets for the noon meal as a gesture of welcome for the annual celebration.

### FARMERS URGED TO RETURN AGRICULTURAL CENSUS FORM

Letters appealing to 99 thousand Texas farmers to return completed report forms for the 1974 Census of Agriculture are being mailed by the Bureau of the Census in January. 323 thousand forms were mailed to Texas farmers and residents associated with agriculture and so far, 69 percent have been mailed back or otherwise accounted for.

Bureau officials say this is the last in the planned series of follow-up letters, as collection of census data is scheduled to be closed out June 30. In addition, telephone calls are being made to selected farmers who have not yet returned the forms in order to obtain information about their 1974 agricultural operations.

Everyone who received a

form should return it, even those not actively engaged in farming, such as landlords or those no longer farming. That information can be noted on the form which should be mailed back in the envelope provided.

Response to the census is mandatory by law. By the same law, all information about individual farms is confidential and can be used only for statistical purposes.

Farmers can refer to farm business records for many of the figures called for in the form. When records are not available, reasonable estimates are fully acceptable. Bureau officials say. Return of the completed forms is essential in order that published statistics on agriculture for each county and for the State will be accurate.

**PRACTICAL TRAINING**--Teachers in vocational agricultural fields from over the state of Texas gathered here last week to participate in a Texas Tech sponsored training workshop designed to provide the training necessary for state-required certification of Vo-ag instructors. Dr. Lewis Eggenberger, top photo at right, directed the workshop and instructed teachers in basic farm equipment maintenance and repair. Also included in the local workshop agenda was the study of farm electrification, bottom photo.

**City Is Site For Agricultural Training**

Twenty-four vocational agriculture instructors from throughout the state gathered here last week for the first part of a three-week training workshop sponsored by Texas Tech University.

Under the direction of Dr. Lewis Eggenberger of the Texas Tech Agricultural Education department, the men received training in general agricultural mechanics, farm electrification and general tractor maintenance. They are continuing their study of small gas engines, soil and water management, and welding and agricultural machinery in Lubbock now through next week.

A second workshop will be sponsored by Texas A&M University in July, and both sessions are designed to provide state-required teacher certification.

Funded by the Texas Education Agency, the workshop prepares instructors for training high school students for farming or farm-related occupations. This marks the third year in which the local school district has participated in the program.

According to Eggenberger,

the program not only offers instruction in the theory of various farm operations, but provides actual experience in working with farm machinery and equipment as well.

He commended local and area farmers for their support of the program in providing

farm machinery for maintenance workshops, and attributed much of the workshop's success to the cooperation and abilities of local Vo-Ag instructor Speck Cox, who assisted Eggenberger in the tractor maintenance phase of the workshop.

Study in the farm electrification phase of the workshop was directed by Bill Bickel, of the Vo-ag department in Muleshoe and Joe Harbin, power use advisor to Bailey County Electric in Muleshoe.

Tech agriculture engineering professor Marvin Dvoracek will direct study in soil and water management, and Texas A&M agricultural education specialist Joel Barton will assist Eggenberger in the welding and agricultural machinery phase of the workshop. Eggenberger will also be in charge of training instructors in the operation and maintenance of small gas engines.

**Texas Taxes**

By **BOB BULLOCK**, State Comptroller

Austin--When was the last time you met someone who was licensed by the state to "scalp" football tickets?

If your answer is "never," don't feel left out. There never were more than 11 licensed "scalpers" in Texas--and what's left of them are about to become a thing of the past.

The \$250 scalpers license fee is one of several antique taxes to be repealed in a bill approved by the Legislature and now waiting for Gov. Dolph Briscoe's signature.

The measure was called the "omnibus tax reduction bill" but it will actually take only \$2.7 million worth of taxes off the books during the next two years because much of the bill is directed at such outdated and nonproductive taxes as the scalpers fee.

The Comptroller's Department supported the elimination of several of these old taxes because they produced so little money it cost more to administer them than we took in.

Another outdated tax which would be repealed by the bill is the oleomargarine tax--a tax which had never been collected since it was first passed more than 35 years ago.

At the time margarine was brand new to the world and was so much cheaper than real butter it threatened to drive butter out of the grocery store. The tax was aimed at vegetable oils used in margarine and produced outside of Texas as a means of raising the price to protect the homegrown Texas butter industry.

The bill now on the governor's desk would also abolish the sleeping car and dining car tax and something called the "express company" tax.

BUNKER HILL

On June 17 two hundred years ago one of the most famous battles of the American Revolution occurred. Even though its military importance was not very significant, and it was an American defeat, it has come to be a very symbolic event primarily because it reflected the courage and the willingness of the Americans to fight.

Actions to further aid the troops at Boston and the appointment of George Wash-

ington as commander-in-chief had occurred only days before, but they had no significance at Bunker Hill. On June 16, the day before the battle, Col. Richard Gridley was named as the chief engineer of the Continental Army by Congress. He was already on the scene in Boston and had designed the defense works at Bunker Hill.

Events leading to the battle began in May as both sides reinforced their positions. American forces in the area numbered approximately 10,000 men. General Gage, the British commander, issued a proclamation on June 12 that imposed martial law, declared Americans in arms to be rebels and traitors, and offered to pardon all who would swear allegiance except for Sam Adams and John Hancock.

The battle came when American forces decided to occupy and army Breed's Hill that overlooked Boston. Fighting started early on the morning of June 17 when the American activity was discovered. The fighting, which actually occurred on Breed's Hill, was fierce. Twice the British were driven off; but on the third attack, General Howe's men, reinforced by forces of Sir Henry Clinton, forced the Americans into a retreat which soon became a near rout.

Even though the British won, it was a costly victory. Among the 1,054 British casualties a large number were officers. American losses were 100 dead, 267 wounded, and 30 captured. One of those killed was Joseph Warren.

**FIRST-AID WORKSHOP OFFERED**

By **MERWYN SIMPSON**

Hunters in Texas, and everywhere else, are under the greatest pressure ever. Misguided animal lovers (and I am one of them--animal lover, not mis-guided) are heaping abuse on hunters, and the criticism is getting hotter and heavier. Let's set the record straight. Hunters are among the leading conservationists. Hunters have given 2.3 billion dollars of hard earned money to game and fish management over the past 50 years. Did you know that James Audubon, the famous birdwatcher, was an avid hunter and wild game was one of his favorite foods? A group of hunters founded the African Safari Club, providing funds to train game wardens. Texans will spend millions this year for the right to hunt and fish. So let's give the sportsman a pat on the back. In Texas they foot the bill for their hobby, and give ecology a shot in the arm.

### HOMEMAKING TIPS GIVE FOODS FOR SUMMER TRIPS

By Wynon Mayes, County Extension Agent

Thinking about really roughing it camping out this summer? You'll have to plan carefully for your food.

The large variety of canned and dehydrated foods now available help to make such planning a pleasure.

On a camping trip where there are no refrigeration facilities, limit your food supply and omit foods you won't need. Leftovers are a particular problem when camping, but reading labels and noting can and package sizes can eliminate this problem.

Don't spoil your vacation by trying to save bits of food without refrigeration and run the chance of getting food poisoning.

Before planning your meals, take a look at the canned food section at your grocery. You'll find many canned meats and canned combination meat dishes, such as roast beef, beef steaks, corned beef, ham (Canned hams, two pounds and under, usually do not require refrigeration), meat balls, tuna fish, shrimp, salmon, chicken, Vienna sausage, turkey or chicken fricassee, chili and spaghetti with tomato sauce.

Use a little imagination serving these canned foods, such as adding grated Parmesan cheese to spaghetti, or fluffy scrambled eggs to Vienna sausage for an energy-building breakfast. Instead of serving chili con carne plain, serve it over toasted cornbread squares. Make the cornbread from a package mix and have it for breakfast, then toast the leftover and pour chili over the cubes.

Corned beef hash can be served several ways. Brown it in a frying pan or place in a baking dish. Make hollows in the corned beef with a spoon and drop eggs into the nests. Cook until hash is heated and eggs are done.

Many of the chopped ham loaves can be sliced and served cold with salads or made into sandwiches. They can also be sliced and broiled or fried.

Use imagination with your sandwiches, too. Add pickle relish to deli ham spread, tongue or liver. Or combine

meats spreads with hard cooked eggs and salad greens for a salad treat. Chopped ham on a slice of bread covered with a slice of cheese is another easy sandwich to serve. Broil or heat until the cheese melts.

If you are a family that doesn't like camping in the great out-of-doors, and limit your "cooking" to the outdoor grill now is the time to get it in shape.

Remove the grate and place it on newspapers on a concrete surface or bare ground. Spray the grate thoroughly with a good oven cleaner and let it stand for about 6 hours (overnight if possible.) Be careful to keep the cleaner from getting on the lawn.

Using plastic or rubber gloves, wipe the grate clean with a damp cloth, sponge or paper towels where pets or children can't get at them. It is also important to keep the cleaner out of the reach and to closely follow the instructions on the can.

You might want to christen your clean-as-new grill with this barbecue sauce on your favorite cookout meat:

In a saucepan combine: 1/3 cup cider vinegar, 1/3 cup water, 1/4 teaspoon allspice, 3 bay leaves, a dash each of dry mustard, salt, pepper, and cayenne. Bring to a boil. Simmer for 3 to 5 minutes to blend the flavors. Use as a marinade and/or brush on meat as it cooks. Makes 1 cup of sauce.

Mrs. Jerry Brightbill:

## Town Appeals To Former 'City Girl'

A former resident of Phoenix, Arizona, Debbe Brightbill says it's taken her a while to make the adjustment to a smaller city like Abernathy.

She was born in Monahan, Texas, and lived there until she was three years old and her parents moved to Liberal, Kansas. The family moved again when Debbe was 14, and ended up in Phoenix, where she eventually met her husband, Jerry.

The two met when Jerry became lab manager at a photography firm where Debbe worked in the office. For her, at least, the reaction was love at first sight, and it must have become a mutual feeling, because they were married shortly afterward in 1972.

Brightbill's parents had been living in Wilcox, Arizona for the past 10 years, and moved back to their original hometown of Abernathy about a year before Debbe and Jerry made the move themselves.

They've lived here for about a year and a half, now,

and Debbe says the decision to move was made when Jerry's interest in carpentry and building led them back to Abernathy, where his parents were engaged in farming.

The couple lived out in the country until about seven months ago, when they moved into Abernathy to be closer to Jerry's business. Soon afterward, they were blessed with the arrival of Michael, their five-and-a-half month old son, Debbe describes his arrival just about the best Christmas present she's ever had.

Though she's lived in this area for a year and four months, Debbe says she's just now beginning to meet people and make new friends.

"No, I didn't like Abernathy at first," she says, "I didn't particularly enjoy it, but it's getting better all the time, and I feel great now!"

Debbe says she started meeting people here only about two weeks ago when she became involved in the ladies' Friday-afternoon Bible study group which is just getting organized.

"I'm having a great time now," she says, "I'm really enjoying the fellowship of the people in the group."

She even says now that she'd turn down a chance to move back to a larger city even if it were offered.

"I'd stay here," she says "I like a small town, and a small school for my child. There's something a little more peaceful about this town." She adds that Lubbock is close enough for shopping convenience, but that she wouldn't want to live there.

Debbe enjoys painting and sketching people and landscapes, and enjoys getting outdoors and riding a bicycle whenever possible.

"I enjoy being outside," she says, "and getting together with the family."

Right now she says the Brightbills are looking forward to getting their business "on its feet".

### BOND SALES NEAR HALFWAY MARK IN HALE AND LUBBOCK COUNTIES

Sales of series E and H United States Savings Bonds in Hale and Lubbock counties during the first four months of the year neared the halfway mark in reaching the 1975 sales goal for the two counties.

J. A. "Doc" Potts, County Chairman for the savings bond program in Hale county, reported sales of \$31,223 for April 1975. Sales for the first four months of the year totaled \$151,520, which represents 48 percent of their assigned dollar goal.

In Lubbock county, chairman Jimmie Holder reported a sales total of \$250,133 for the series in April, with sales for the first four months

of the year at 1,233,025--- a figure which represents 45 percent of the 1975 goal for the county.

Now God says he will accept and acquit us declare us "not guilty" if we trust Jesus Christ to take away our sins. And we all can be saved in this same way, by coming to Christ, no matter who we are or what we have been like. Rom. 3:22, (L.B.)

So there is now no condemnation awaiting those who belong to Christ Jesus. Rom. 8:1 (L.B.)

Mrs. Fred Pruner of Wichita Falls, visited with friends in Abernathy recently.

### "RAYS OF HOPE"

by Pat Stanton

Many people today blame God for everything that happens and also for things that aren't happening.

God is not the author of hurt, misery, and even poverty. James 1:17 says, "Every good gift and every perfect gift is from above, and cometh down from the Father."

Man usually brings about his own disaster or condition. What ever kind of life that you want to have, God will not force change upon you.

Many Christians are sitting around waiting for God to take authority over evil. The scripture says that we are to overcome evil with good. We as believers have been given the authority and power to combat any situation. James 4:7 states that "we are to resist the devil and he will flee." The Bible also teaches in Ephesians 4:27 that we are to "give no place to the devil."

If you carefully read the book of Ephesians, you will find that Jesus has been raised far above other powers and He gave this same authority to the church, which includes all believers.

In all bad situations, you are to take command and not sit around hoping that God will do something. God is not going to do anything to bind or defeat the enemy until the day that Satan is finally and forever put into the lake of fire.

Because of the sin and rebellion of man in the Garden of Eden, God has allowed man to have a free will and choice between good and evil. Therefore, man today

still has the freedom to combat evil or to let evil rule over his life.

Too many Christians today go around with the attitude that they are so low and humble that they have no right to exercise their authority over anything.

If Jesus Christ lives in you, you have all the strength and power of heaven available for your life. I John 4:4 says "that greater is he that is in you, than he that is in the world."

Read I Peter 5:8 and II Timothy 2:26 to see who is causing all the confusion, hurt, and pain. Read Romans 8:32, II Corinthians 9:8, and Matt. 7:11 to see how much God loves us and longs to give us good things.

### TEXAS TALK

by Harold Thompson

Mix a little cotton with your orange juice and it nearly equals milk. At least in protein percentage. This is just one of the many possibilities now being considered for the new gossypol-free cottonseed flour produced by what is called the Liquid Cyclone Process. LCP for cotton flour will soon be utilized on a commercial scale by the plains Cooperative Oil Mill at Lubbock. The new food-grade cottonseed flour will have as much as 65 percent protein compared to about 13 percent for wheat flour. Unusually high protein content of the flour was the primary reason for the concentrated research. Scientists say that as much as six percent of the total world supply of protein is in cottonseed, but until LCP was discovered the protein could not be utilized directly by humans because of the toxic gossypol pigment in the cottonseed. LCP's success in making possible the production of the food-grade flour is being hailed as a major achievement by world nutritionists.

## 4-H'ers Express Life-styles In Projects

CHICAGO—Consciously or not, people are affected by color. Red expresses a mood of boldness and power, blue seems hopeful and serene, and yellow happy or frivolous.

Color, texture (the feel and look of things), and design (sizes, shapes and arrangements) are all basic to the creation of pleasant, functional living spaces.

For the nearly 170,000 young people in the national 4-H home environment program sponsored by The S&H Foundation, Inc., living spaces might mean a shared room or one's own room, an apartment, the family home, or housing in the community at large. Personal and family life-styles differ, and 4-H'ers find that furnishings, equipment and housing can be means of expressing these differences—ways of saying "This is me!"

Projects are varied "Learning by doing" activities in the Cooperative Extension Service conducted program are educational and fun. Attics may turn out to be treasure troves of discarded furniture and accessories that can be restored to usefulness with some repairs, sandpapering, and refinishing or painting.

Has the family outgrown its home or has some room ceased to serve its purpose? 4-H'ers might blueprint structural additions to the house or draw up plans for remodeling a room. They'll compute costs and decide who will do the work: themselves, other family members, or outside contractors.

4-H members from 9 to 19 help budget, shop and care for household equipment—from hair dryers to stereos to automatic washers. In the process they develop the con-

sumer skills they need to cope with today's inflationary economy.

Developing citizenship Shifting their sights to the larger area of the community, 4-H'ers study zoning laws, how they operate and how they can be changed if necessary. As they become aware of special housing needs of the elderly and of lower-income families, they grow in responsible citizenship.

For outstanding achievement in the 4-H home environment program, S&H provides \$800 college scholarships to six national winners. The six are chosen from among 24 sectional winners who receive expense-paid trips to the 54th National 4-H Congress, to be held in Chicago Nov. 30-Dec. 4.

A \$50 U.S. Savings Bond goes to one winner in each state, and four medals of

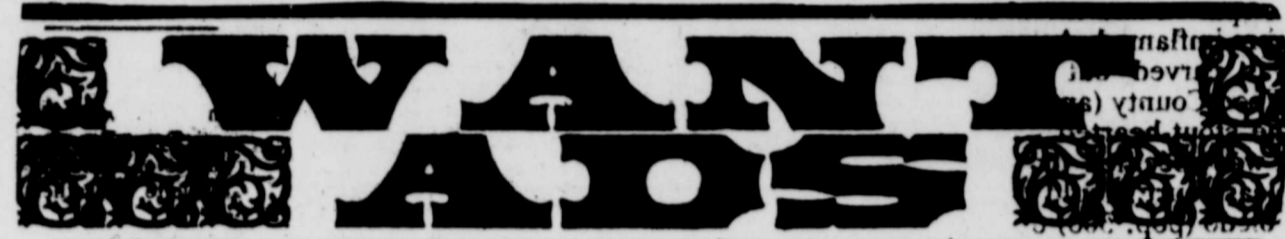

honor are awarded in each county.

More information on the 4-H home environment program is available from county extension agents.
