COUNTY LINE CHIT-CHATS  
by Faye Ann Nelson

Big Crowd Attends County Line Reunion, Aug. 14

County Line first reunion and homecoming huge success!

Boy, what a crowd.... people from everywhere and I never saw so much food in my life. There were 300 people registered and the club house walks were bulging with people from everywhere to come back and see their school mates that some of them had not seen since they went to school out here at County Line in 1926 and 1927 you could see little groups here and there exchanging news about themselves and their families. A plaque was presented to Mr. and Mrs. Forrest Garrett, Paris, Texas, for Mr. Garrett being the oldest pioneer of County Line present. A plaque was presented to Mr. and Mrs. D. H. Horton coming the greatest distance.... 1200 miles from New Hall, Calif. We wish to thank all of the men that worked so hard putting up a tent for the pioneers to sit and eat and reminence under in the cool shade. We also want to thank all of the women who met several times and planned

and cleaned and worked to make the reunion a success. Mr. and Mrs. T. A. Flemmings were celebrating their 67th wedding anniversary so the group sang happy anniversary to them. It took everybody to make it a huge success and we want to thank everybody who did anything. We even got a good shower in the afternoon which cooled everybody off for a while. The invocation was given by Noble Rice. Then everyone ate a big dinner and Wayland Nelson was M. C. and presented the plaques. Some of the group suggested we meet again in five years because they enjoyed seeing one another so much. We only had one minor incident and we hope and pray that Rudolph Struve who slipped on the steps of the club house while it was raining is not to sore and that he was lucky not to have broken any bones. Frances Hudson brought last weeks Abernathy paper and also week before last papers for people that wanted a picture of the old wooden school building built at County Line in 1918 and the brick building built in 1926.

Mr. and Mrs. Forrest Garrett, Paris, Texas were presented a plaque at the County Line Reunion for being the oldest pioneers of County Line present.

Hail Project Vote Declined In Hale Pct.

(From The Plainview Daily Herald dated August 9.)

By DOUG McDONOUGH  
Herald Staff Writer  
Floyd County residents will go to the polls Aug. 23 to test the hail suppression issue, but Hale County residents will have to wait.

In the Floyd County election, residents in all county voting precincts except Goodnight, Baker and Dougherty will be casting ballots in the election. Floyd commissioners set the date of the voting at their regular Monday meeting.

Taking a different view at their Monday session, Hale County Commissioners refused to grant petitions calling for the vote. Judge Henry Heck explained the move, "We don't have anything to vote on. It would be just another straw vote."

Last week, 33 county residents, most from Abernathy, asked that petitions be issued to call for the vote. Explaining the action of the court, Heck said that, according to the state law governing hail suppression elections, "there is no cause for action until an application for weather modification is filed. Although the law possibly allows persons living in the operational area of a project to get out by holding a vote, residents in the target area have to wait until an application for a permit is filed."

### News & Comment by Buford Davenport

**NGC--Wall-To-Wall Cotton?** Almost. Drive over this area and you will see more acres of cotton than have ever before been planted in a single crop-year.

**NGC--Wondering?** Has the Environmental Protection Agency checked the air, plants and earth under the cloud seeding areas to determine whether the silver iodide chemical used in the process is a hazard to humans, animals, birds and vegetation? Quoting from an anti-hail suppression page ad in the Dimmitt paper, Castro County News, dated August 11: "Silver from the silver iodide can concentrate in various organisms and thence to man, causing a buildup in the human system to a toxic level and possible respiratory or gastric ailments and cancer."

**NGC--Now,** to call any building in Abernathy Schools, there is only one telephone number to dial: 298-2563. The new PABX telephone system now is in operation. The "A" in the PABX is not a typographical error. The system is, in certain ways, different from the more familiar PBX operation.

**PRAYER**

Prayer is the direct means of communication with God, and everyone has entree to Him at any time. Prayer quickens insight, releases power, gives answers to problems and results in peace of heart. It is one of the greatest of all creative forces operating in life. The person who learns the lessons taught in the school of prayer can truly live victoriously.

If you do not doubt in your heart, but believe that what you say will happen, it will be done for you. (Mark 11:23)

**Even with a Homeowners contract, is it possible your house is underinsured?**

**You bet your premium!**

Chances are when you first bought your home, you bought the best protection available—a modern Homeowners Policy. Equally probable is that you insured it to its replacement value at that time. But the cost of rebuilding has risen radically. Even in five years, unless you have increased the limits, you could be dangerously underinsured!

Part of our service, as an independent agency, is to make sure you are covered initially, and remain properly insured for as long as you own your home. If you have any question about your present contract, please feel free to call.
