UNWANTED OLD HOUSE BECOMES LOVED HOME FOR ODOM FAMILY

By Jacquelyn Smyers

June Odom didn't want the old house on FM 597 at the south end of Abernathy. It had not been occupied for two years and was full of dirt and dead birds. It was conveniently close to the White Gold Gin which her husband, Jim, owns. Jim likes old houses and had fond memories of one his family lived in when he was 14.

The Jack Dillworths, who owned the house, had thought of moving it and had an architect see if it was structurally sound. He said it would be impossible to move but will be here long after the new ones are gone. So the Odoms bought the big two story structure and once June "got the feel of it," she liked it.

Other family members weren't so easily convinced. One son said he wasn't about to live in the crummy thing. He'd sleep in a tent at their other house first. June assured him the house would be completely cleaned, repaired, and decorated before they moved in.

They began a crash scrubbing and remodeling operation the middle of May 1976. Jim did much of the work himself with the help of Hugh Hill with carpentry, James Anderson with paneling, and Gary Perkinson of Hale Center with painting. They moved into a comfortable, beautiful home on July 2.

(The reluctant son changed his mind and moved with them.) They've never regretted it.

ORIGINS
The house was built in 1910 out of lumber hauled by wagon from Amarillo. W. A. and Isabell Herral, who lived in a dugout near what is now Hale Center, built the house so their sons, Henry, Leonard, William, and Jimmie could attend Abernathy school. Three more children, Robert, Ira Lee, and Isabell, were born in the new house.

Fireplaces were old-fashioned at that time so the new Herral house had the latest heating system—wood and coal burning stoves. Carbide plants lit the house and meals were cooked on a wood burning stove until a natural gas line was put through Abernathy.

The Herral family farmed and milked cows for a living until Mr. Herral's sudden death in 1940 at the age of 71. Mrs. Herral lived there for awhile longer, then sold the land to her

daughter and son-in-law and moved to a house on Ave. D. Mr. and Mrs. Harold Davis lived in the house, farming and tending the cows until they bought another place northwest of Abernathy in 1944 and sold the family home.

The O. L. Brownlows lived there next, then the Guy Brownlows. There was another house very similar to the Herral's across the way. It was built by the Sam Merrills but was eventually torn down or moved off.

OUTSIDE
By 1976, the Herral house already had white aluminum siding so the Odoms had only to paint the shutters and mow the lawn to make it look nice outside. The inside was a different matter. They trimmed the house and gracious porch in a shade of old gold because of the gin's name. Jim used and enjoyed that color in his office. That gold trim, contrasted with the black shutters and wrought iron, makes the house stand out as especially attractive, even to people who passed by for years and but never noticed it before.

It has a most interesting roof line with six gables. The wood shingles must soon be replaced but since the gables make re-roofing more difficult than usual, it's hard to find anybody willing to tackle the job.

INSIDE
The house has its original beveled, leaded windows with glass to wavy it's impossible to see through and so old it's impossible to clean. However, the Odoms wouldn't trade them for the world. There's an entry room and stairwell, master bedroom, two baths, large living room, kitchen and dining room, pantry and storage room downstairs; sitting room, two bedrooms and large hall with sitting area upstairs.

All the walls are double wood with sheetrock. June wanted to use lots of wall-paper but had to settle for paneling in most of the house. It needed a complete rewiring job and paneling was the only way to cover that necessity.

They manage, with some difficulty, to paper the entry room and along the stairway. The men had to cut grooves in the sheetrock to install new electrical wires and tape smoothly over that before papering. It was too hard to do all over the house,

The ceilings are so high in the main downstairs rooms that paneling wouldn't reach the top of the walls. The Odoms finished the top panel edges with decorative molding which adds even more old fashioned elegance to the rooms.

They took out nothing that was old. Every room had two doors leading to others making a sort of round robin traffic pattern—great for kids playing chase but bad for privacy. The house had no closets originally but some were added later. The Odoms made even more by closing off some of the excess doorways and added a central heat and air conditioning system.

They modernized the large kitchen and put an old wood burning stove in a corner of the dining room for atmosphere. June planned to make curtains for the many dining room windows but before she had time, she decided she liked them bare with only hanging baskets and plants all around.

They decorated the bathroom just off the kitchen in rustic country style. June is determined to give the fixtures an outdoor look as soon as Jim figures out how to do it.

June decided on a gold, blue, and green color scheme for the house. The downstairs master bedroom is paneled in pale blue. Blue patterned paper covers the entry room walls and the stairway banisters and woodwork are painted pale blue. Large portrait photographs of the three Odom children, Mike, Dale, and Keila, hang on the stair wall in oval antique metal frames with convex glass that June found in a relative's attic.

UPSTAIRS
The carpeted stairway leads to an inviting second story hall which June decorated beautifully with plants and antique accessories. The carpet layers thought the house so pretty they took extra care to lay the carpet just so between banister rails in the hall and on the stairway.

One upstairs room had no closets and no place to install one so June made it a comfortable TV and sitting room which doubles as nursery when the grandbabies visit. Keila likes to entertain her friends there.

A window in Dale's room looks out over the back roof. Keila steps through the window and makes the roof her private sun deck. She picked her own room at first sight because of all the angles, nooks and crannies. There's hardly a flat section or wall anywhere.

All the upstairs rooms, especially hers, are like that because of the gables. The men had a terrible time cutting the panels to fit all those angles but June insisted. Even they admit it was worth the extra work.

INVISIBLE GUEST
Keila's pale green room seems to be the favorite haunt of the Odom's unseen guest, too. Years ago, before they had any interest in the house, they had heard stories about a ghost but forgot all about it by the time they bought it. Unusual things do happen now and then. The Odoms attribute them to their ghost and aren't the least bit bothered.

At a shower at the Odom's house, the coffee maker, which worked beautifully before and since, violently refused to accept the water it needed to brew. It kept boiling out all over everything. Another day, June and a friend were in the kitchen talking about the ghost when several plaques suddenly jumped off the wall.

Keila likes to wear rings but for a while, she'd wake up in the mornings to find them off her fingers and scattered on her bed. She figured the ghost did it and enjoys her room as much as ever. After a bad experience in that room however, one relative of former residents absolutely refused to ever spend another night in the house.

Some former residents joke about it. That relative, however, doesn't think it's a laughing matter. The Odoms aren't nervous about the ghost—just interested.

ODOM FAMILY
The Odoms moved to Abernathy eight years ago. They are members of First Baptist Church and June serves on a crew of Abernathy's Volunteer Emergency Medical Service.

Son Mike is married and has a baby boy. He works at Texas Instruments in Lubbock and lives in a mobile home near the Odom house. Dale is a student at McMurry College and Keila is a sophomore at Abernathy High School.

CITIZENS EXPRESS HOPES FOR WHAT THEY WANT FOR ABERNATHY IN THE NEW YEAR

(By Jacquelyn Smyers)
We asked people what they'd like to see happen for Abernathy in this new year. Here are the comments.

DOT VON STRUVE would like to see a meeting place big enough to accommodate the Sunshine Group and other clubs. She also hopes for a return to usual traffic patterns along the highway so you can go the same ways you always have and get to the place you expect every time.

W. C. CLEMENTS would like to see the highway finished.

LARRY DEERING would like to see someone put in a restaurant right downtown. He said since Graham's closed, the street is practically deserted.

He also pointed out that every town around Abernathy—even New Deal—has a community club house but we don't. He's also concerned that there's no recreation at all for young people—no show, no hang-out that appeals to kids, not

CITIZENS EXPRESS HOPES FOR WHAT THEY WANT FOR ABERNATHY IN THE NEW YEAR

even a pool hall. They have only two things to do—sit on the city hall square or go to Lubbock or some other town (which sometimes gets them into trouble.)

IVA RHODES would like to see every business in town close for one day and clean up their alleys and make the outsides of their buildings neat. On that day, owners of lots—with or without houses—could clean off weeds and junk. They should be responsible for keeping their property looking nice all the time. Other towns do this and Abernathy can, too.

VIRGINIA SHUEY would like to see all the city streets paved, the dog ordinance enforced, and more stop signs put up.

WOODY PARKER would like to see property owners do a better job of keeping up their property and take pride in the appearance of our town.

CLYDE PITTMAN wishes a lot of good things would happen and not so many bad.

LANCE BIGHAM, age 10, wants to see a Pizza Hut in Abernathy and wants more people to build houses around his house.

FLINT BIGHAM, age 8, would like all his friends to move to within three blocks of his house because he's only allowed to go three blocks from home.

SUSAN BIGHAM said we have a fantastic town with everyone so nice and a closeness that's so good. Because her husband is a highway patrolman though, she is aware of and concerned about driving dangers related to the present condition of the highway. She hopes everyone in Abernathy has a safe year through all the construction work.

ANGELA POPE would like to see some community recreation facilities, including a swimming pool.

MIKE FLORES, 17, wants the highway fixed so people can get from one side to the other.

DOLORES FLORES, 14, wants a Pizza Hut for Abernathy.

OES District Official Will Visit Chapter

Mildred Tannehill, Worthy Matron of Abernathy Chapter No. 877 Order of the Eastern Star, made the following announcement: District Deputy Dorothy Hodges of Crosbyton is scheduled to pay an official visit to the Abernathy Chapter at the state meeting Thursday, Jan. 4, starting at 7:30 p. m. Hosts will be Lois and Joe Lovelace, Edith Lovelace and Sharon Richardson.

SPENDS CHRISTMAS IN COLORADO:

Mrs. Lillie Mae Wilson spent Christmas in Pagosa Springs, Colorado with her sister and brother-in-law, Mr. and Mrs. Charlie Cravey. Also visiting were the three sons and families of the Craveys.

Mrs. Wilson left Lubbock International Airport on December 22 and returned home December 28.

Mrs. Wilson said they spent Christmas Eve at the Wolfe Creek Ski Area, where they rode the round tubs and even put on ski's. The day after Christmas they went to another ski area called Purgatory. She reported that there was eight to ten feet of snow and the mountains were beautiful.

The Craveys lived in Lubbock for many years before they moved to Colorado.

Vowel sounds change in English. There are long vowels and short ones. The "a" in can is said to be short. The "a" in cane is called a long "a". In Spanish vowel sounds never change. They are always pronounced the same.

Learn the vowel sounds ah, eh, ee, oh, oo. The last one oo rhymes with suit or boot.

Children in Mexico sing this little song

Ah, eh, ee, oh, oo, el burro sabe más que tú.
 (A, e, i, o, u, the burro knows more than you.)

the burro	el burro	(eh! BOO roh)

I like to believe money earned by or donated to the many charitable organizations in this nation is put to good use. I also want to believe the greatest portion of this money is channeled to the proper outlets; that it is being used to help those in need, whether it be financial, physical, or mental.

That it does I sometimes wonder. This is not being negative or is it casting aspersions on any charitable or service institution. Simply that I don't know and ignorance creates suspicion.

Inversely, knowledge and experience allays doubt, and there is one service club, which happens to be the largest in the free world, for which I can wholeheartedly vouch. Let me quickly say I am not a member nor is any member of my family. There are no ulterior motives to what I say EXCEPT to render some small service to an organization that has done so very much for so very many.

The Lions Clubs of the free world have helped thousands upon thousands of people, young and old, rich and poor, black and white. Ethnic do not enter into any side of the commendable and humane benefits provided for these thousands of people.

A Chinese proverb says that one picture is worth a thousand words. Never has a proverb been proven more true. If people could give to Frontierwood, Texas to see

for themselves the length to which the Lions go to aid diabetics in this ONE CAMP ALONE, there would be no need for this to be written.

Or let anyone drive to Kerrville and see the camps for the cripple, the blind, and again the diabetic, and the written word would pale before the actual scenes. The organizations of these camps is phenomenal; the staff's highly intelligent and mercifully compassionate; the benefits to be gained can be measured to the Nth degree.

Needless to say I have seen the facilities at both Kerrville and Friendswood. The joy they give to pained and needy children is indescribable. Lessons taught to these unfortunate young people are invaluable, not for a mere two weeks, but for a lifetime.

There is no question the expense is staggering when one considers the vastness of the operations. But I believe the Lions' organizations afford these wonderful camps due to their sharp management; e. g.; every dollar earned or donated goes directly to the programs for the needy and not one cent is sidetracked by needless bureaucratic red tape.

I realize there are countless organizations in the states asking for money for worthwhile projects. I also realize in these inflationary times it is difficult, if not impossible, to donate to all.

But I have no qualms whatsoever in asking people that when the time comes, that they buy those brooms, bulbs, mitts, or any other item the Lions will be selling. I KNOW the money is put to excellent use.

Seven Students In Experimental Study Program

Seven eighth grade students are participating in an experimental advance study program in the Academic Center.

The students in the program had to meet stiff requirements. They must have scored not lower than a composite 11.0 as seventh grade students on their CTBS. They must have had outstanding grades for the previous year and have parental permission.

The students accepted come to the Academic Center every day during reading class period.

In the Academic Center the student is expected to complete as much work as possible.

The students read books, write reports, write their own short stories, and participate in various other studies.

This advanced study course will continue through the rest of the school year.

Between farmers and consumers

Of the total food dollar in the U.S., 60 cents goes not to the farmer but to middlemen—the processors, distributors and retailers of food—and nearly all the inflation in food costs in recent years has been in their sector.

Even for raw food products like beef and fresh fruits, middlemen take a large and increasing share of the consumer's dollar. But with more processing and packaging, the middleman's share increases geometrically, which is why the major food manufacturers are doing all they can to encourage greater consumption of highly processed items.

Here's a list of several food products and the percentage of their retail prices that went to corporate middlemen during the second quarter of this year:

Apples	59%	Margarine	64%
Beans, dried	63%	Milk, in stores	45%
Beef, choice	35%	Milk, evaporated	53%
Beets, canned	94%	Onions	62%

Parade Entries Sought For Stock Show

Invitations to participate in the annual Southwestern Exposition and Fat Stock Show Parade have been mailed to 150 riding clubs, 50 high school bands and about 25 merchants and organizations which sponsor horse-drawn floats.

Parade Chairman Chuck Shytles said anyone is welcome to participate in the parade, scheduled to begin at 2 p. m. Friday, Jan. 25, in downtown Fort Worth.

"We maintain the all western heritage of the Stock Show by not permitting the use of motorized vehicles in our parade," Shytles said. "Participants must be horse-back, ride in a horse-drawn vehicle or be a member of a marching unit."

The 83rd edition of the Fort Worth Stock Show begins its 12-day run Wednesday, Jan. 24, and concludes Sunday, Feb. 4.

W. R. Watt Jr., show president-manager, reported that riding clubs are invited to join in grand entries which traditionally start each of the 22 performances of the World's Original Indoor Rodeo in Will Rogers Coliseum.

"Persons wishing to participate in the parade or rodeo grand entry should contact the Stock Show office to make reservations," Watt said. "Riding clubs and are a chambers of commerce which have rodeo queens to be introduced at a performance of the rodeo should notify our office by Jan. 15," he added.

Last year more than 1,900 horses were involved in the Stock Show Parade. "We hope that number will be larger this year for the observance of the 83rd Stock Show," Shytles said. Parade and grand entry information is available at the Stock Show Office, P. O. Box 150, Fort Worth, Texas 76101.

The Stock Show Rodeo ticket office in the lobby of Will Rogers Coliseum is open and selling tickets from 9 a. m. until 6 p. m. daily, including Sundays. Mail orders are accepted at \$5 for each ticket, plus

My erudite Ph.D. brother is a constant irritant to my inflated ego. That he is intellectually superior I don't question. He keeps proving it by talking to me in Ph.D.

In his own inimitable way he manages to tear apart in seconds what has taken me hours, or even days, to put together, all the while deepening my sense of inferiority.

I am continually mesmerized by his disputation w r o a k i n g h a v o c o n m y c o l u m n s . I f I s a y o n e t h i n g i s b l a c k , t o h i m i t i s w h i t e . "Demps," I said when he answered the phone, "Have you read my last column?"

"Are you quitting the business?" he immediately asks.

"Why no,"

"Then it's not your last column,"

"You know what I mean. The latest one published."

"You didn't say that."

"Look," I say in total exasperation, "This is costing me. I don't have the time nor the money to engage in silly semantics so how about answering my question?"

"What question?"

"D---it. The one about my latest column."

"Too wordy."

"Is that all you've got to say?"

"No," he answers laconically, "You didn't prove your point."

"What point?"

"About the early bird getting the worm."

"Good goah," I say, "You know that's just an expression."

"Then you should have qualified it."

"Oh---," I yell in the phone, "Just forget it."

"I probably will," he answers calmly.

Without further ado, I hang up the phone, trembling with self-indignation. As I walk to another room, I suddenly burst out laughing. I realize that once again my Ph.D. brother has won yet another battle in the continuing war against my inflated ego. God, how I love that man.

Milner and Moore Promoted by SPS

Larry Milner

Doyle Moore

Berl Springer, president and chief operating officer of Southwestern Public Service Company, announced that effective January 1, 1979, Larry S. Milner became director of public

affairs for the electric company.

Milner earned a bachelor of arts degree from the University of Texas and started his career with Southwestern in 1966 as manager of industrial development. In 1972, he became manager of area development.

Milner is a member of the West Texas Chamber of Commerce and has been active in the United Way program and various civic activities. He is vice president of the Texas Industrial Council and is on faculty of the Basic Industrial Development Course at Texas A&M University.

Commenting on Milner's promotion, Springer said, "Larry Milner works well with both people and facts, the combination that it requires to be effective in legislative and regulatory affairs. Governmental actions at both the state and federal level are having more and more impact on both the day to day operation of our company and the planning we must do for the future. We must keep our public affairs program at full speed so we are putting Larry to work full time in that arena now so that we will have a smooth transition and no loss of effectiveness when Ed Weber retires at the end of 1979."

In a related action, Cliff Milnar, Southwestern's vice president of marketing, announced that Doyle Moore has been promoted to manager of area development, also effective January 1.

Moore is a graduate of West Texas State University where he earned a BBA in

JOY OF SHARING

SEEDS FROM THE SOWER
By Michael A. Guido, Metter, Georgia

On his return from church, President Coolidge was asked, "What did the minister speak about?"

"Sin," replied the man of few words.

"What did he say about it?" wondered Mrs. Coolidge.

"He was against it," said the president.

So was a singer, but he could not get it out of his life. It was so full of sins.

It was then that David asked, "How can a young man stay pure?"

Back came the answer, "By reading Your Word and following its rules."

The Bible is as water, it will cleanse you. It is as honey, it will sweeten you. It is as a fire, it will warm you. It is as a spring, it will refreshen you. It is as a rule, it will square you. It is as a cordial, it will soothe you. It is as a staff, it will strengthen you.

Read it, believe it and obey it. A chapter a day will keep Satan at bay.

Wedding Solemnized

In a 6:30 p.m. candle-light ceremony on Friday, December 29, at First Baptist Church in Abernathy, Miss Melanie Kay Moorhead became the bride of Mr. Larry Don Stansifer. The double ring ceremony uniting the couple in marriage was performed by Dr. Jacky Newton, of Abernathy.

Melanie is the daughter of the late Mr. and Mrs. Jerry Moorhead of Abernathy. Larry is the son of Mr. and Mrs. Gene Stansifer of Levelland.

The church was decorated with candlebras and candles, spirals entwined with greenery and baby breath. Two hurricane globes designated the parents pews. White bows and candles were used as aisle markers.

Mrs. Dayne Myatt of Irving and Miss Kym Thompson of Plainview presided at the bridal book as the guests arrive.

Mr. Mike O'Donnell of Abernathy provided the wedding music and accompanied the vocalist, Mrs. Mike O'Donnell as she sang a medley of "More" and "The Wedding Prayer" after the guests were seated. Mrs. O'Donnell also sang "The Lord's Prayer" as the benediction for the ceremony.

Given in marriage by her brother, Mark Moorhead, the bride came to the altar in a formal length white gown of silken organza and chantilly lace. The moulded bodice featured a Queen Anne neckline. Chantilly lace and seed pearls defined the neckline and empire waistline. The long lantern sleeves were embellished with chantilly lace to just above the elbow. A full circular skirt fell to floor length and was swept to back fullness forming a chapel length train. Chantilly lace motifs and seed pearls were scattered delicately over the front of the gown. A wide band of chantilly lace encircled the entire skirt and train. The veil was caught to a lace covered camelot capulet, and fell to a graceful waltz length. The silk illusion veiling was edged in silk lace.

According to tradition, for something old the bride wore a cocktail ring belonging to her late mother, Mrs. Beverly Moorhead, something borrowed was the veil belonging to her

Mrs. Larry Don Stansifer (nee Melanie Moorhead)

cousin, Michelle Ratcliff; something new was a diamond drop given her by the groom; something blue was the traditional garter; and for good luck was a six pence from Mrs. Allora McGuire of Levelland, placed in her shoe by her brother, Miss Betty Raff of Lubbock, cousin of the bride, served as maid of honor. Mrs. Elanie Lott of Lubbock was bridesmaid.

The attendants wore gowns of Blue Stone colored silesta chiffon. The moulded bodice featured an elasticized scoop neckline. A graceful flounce fell over the bodice in the front, and draped to just below the waist in the back. Full circular skirts fell to floor length from the elasticized empire waist line. Each carried a nosegay of blue and white carnations.

Mike Stansifer of Garwood served his brother as best man, Benny Stansifer of Levelland, also a brother of the groom, was groomsman. Ushers were Boogie Webb

of Levelland, Mark Lott and David Lott both of Lubbock, and Mike Dunn of Brownfield.

The reception followed the ceremony in the fellowship hall. The brides table was covered with a floor length white lace over white satin cloth, draped at corners with white bows and bells. A four tier wedding cake decorated with blue rosebuds was featured and silver and crystal appointments were used. The bride's bouquet and attendant's nosegays were used at the centerpiece.

Cuevas were served by Mrs. Steve Biley, Mrs. Ken Hendrix, Mrs. Pete Heinson, Miss Cleada Shires, and Mrs. Neil Stark.

The grooms table was draped with a floor length champagne cloth edged with lace. Crystal and gold appointments were used. Serving were Mrs. Mike Stansifer, Mrs. Mark Moorhead, and Miss Penny Palmer. Assisting in hospitality were: Mmes. Harold McCune, L. G. Montgomery, Jerry C. Adams, Delwin Webb, Lon Carmickle, Herbert Hardin, Hugh Hill, Royce Shires, Edd Heath, Frank Bartlett, Robert Gough, Joe Thompson, Billie Harrison, Joe Lovelace, J. W. Hamilton, Jack Hackler, Wesley Webb, Charles Bowen, Pete Thompson, Ernest Durrett, and Alma Ruth Patterson.

The bride is a graduate of Abernathy High School, South Plains College, and now attends Texas Tech. The groom graduated from Levelland High School, South Plains College and also attends Texas Tech.

After a wedding trip to Ruidoso, N.M. the couple will make their home in Lubbock.

The rehearsal dinner was hosted by the groom's parents, Mr. and Mrs. Gene Stansifer at K-Bob's in Lubbock.

PWIA receives weather license

AUSTIN — The Texas Water Commission has approved issuance of a weather modification license to Plains Weather Improvement Association, Inc., Plainview.

The approval does not, however, provide for any weather modification operations, which would be under an operational permit. Such permits do require that the operator have a weather modification license. TWC officials reported they are unaware of any plans by PWIA to seek such a permit.

Mr. and Mrs. Jerry Phillips of Big Spring visited here Christmas with his parents, Mr. and Mrs. Leland Phillips.

ODDFELLOW AWARDS RECIPIENTS — Rudolph Struve (left) and Ed Heath (right), both of Abernathy, were presented awards Tuesday night for 50 and 55 years of continuous membership, respectively, in the International Organization of Oddfellows. Owen Benn, president of the Caprock Circle, also presented Heath a plaque for being selected as the Circle's Oddfellow of the Year.

THE STAIRWAY

June chose a soft shade of blue for bannisters and woodwork and blue patterned wallpaper. Son Dale couldn't wait to slide down the bannister and found it pretty uncomfortable.

KITCHEN AND DINING ROOM

The Odoms kept the original cabinets and added new ones along with modern appliances.

KEILA'S ROOM

It's a soft green delight full of nooks and crannies. The ghost likes it, too.

THANK YOU NOTE:
 We would like to express our appreciation to everyone who stopped to help Jill when she fell on the ice Tuesday. It is wonderful to live in a town that cares so much. We also wish to express our thanks to the wonderful EMT'S for their service to our community. May God bless each of you.

Richard, Vicki and Jill Havens

CARD OF THANKS

We wish to thank all our friends and neighbors for their thoughtfulness and concern during our time of sorrow. The preparation and serving of the food was greatly appreciated. Most of all we thank you for your wonderful Christian friendship down through the years, and for your many, many prayers. Christmas has always been a very special time for our family, and now it will be more special to us.

Sincerely,
 J. C. Veach

Livestock Show Dates Are Set In Lubbock

LIVESTOCK SHOW LUBBOCK:
 The dates for the 46th Annual Southwest Junior Livestock Show have been set for March 11-14, 1979, according to an announcement made recently by Royce Wittie, chairman of the show's steering committee.

The show, held at the Panhandle South Plains Fairground, is sponsored by Lubbock Chamber of Commerce. Last year approximately 2000 4-H and FFA boys and girls from a 29-county area in West Texas and Eastern New Mexico exhibited animals in the show.

Wittie stressed the importance of local support for the show for it to be a continued financial success. "Traditionally are a businesses include the purchase of animals in their budgets and bid for youngsters' animals at the premium auction," Wittie said.

For 40 years we've sold our power. Now we want you to save it.

For 40 years the more electricity you used, the cheaper its cost per kilowatt hour. But electricity is not going to get any cheaper. The prices of generating fuels keep going up and in spite of the efficient delivery system built by your member-owned cooperative the price continues to rise.

The only sure way to save money is through conservation. So save power when you can. We promise to save costs when we can.
