THE SPANISH TEACHER

—Sadowsky y Garcia ©appl. '78

One of my favorite stories is about the origin of the word Olé. Spanish speaking bullfight fans have traditionally screamed Olé at bullfights.

The Moors invaded Spain in 711 A.D. They, too, became bullfight fans. They would call out Allah when they thought the bullfighter might be gored.

The story claims that over the years, the cry of Allah has become Olé.

Practice this vocabulary.

Olé	(o LAY)
bullfight	corrida (coh REE dah)
fans	aficionados (ah fee cee oh NAH dos)
bull	toro (TOH roh)
Spain	España (ehs PAH nyah)
Spanish	español (ehs pah NYOL)

Daniel Fondy Hospitalized By Ski Accident

Daniel Fondy suffered a broken leg while skiing at Santa Fe Ski Area Saturday, February 24th. He and his wife, Don and daughter, Dana had gone to Santa Fe for a weekend of skiing. He was taken to a hospital in Santa Fe, N. M., and came to Methodist Hospital, Sunday. He was taken to surgery late Monday to have his leg re-set. It was reported that he could return home in a few days.

Mr. and Mrs. Lewis Young of Kermit visited Mr. and Mrs. Bill Smyers last weekend. Mrs. Young is Bill's mother.

Frontier names officers

Jermome M. Gutheinz, President of Frontier Savings, announced a branch application for an office in Slaton has been filed with the Savings and Loan Commissioner in Austin, and that two new buildings will be constructed for the branch offices currently located in Earth and Crosbyton. Coupled with land development taking place in west Plainview and the near completion of Winchester Office Park, located directly behind Frontier Savings, Gutheinz also announced the promotion of Jim Howell to executive vice president and Mary Allenson, Ron Bartley, and Rhonda Pritchard to vice presidents.

Howell has been with Frontier since 1977. Prior to Howell's appointment he served as vice president of the Loan Department. He is a member of the First Baptist Church and Plainview Noon Lions Club. Mrs. Allenson has been with Frontier Savings since 1976 and served in various positions in

the company prior to her appointment as assistant secretary-treasurer. Mrs. Allenson is a graduate of Los Alamos High School and attended Eastern New Mexico University and Wayland Baptist College. She is also a member of the First Baptist Church. Mrs. Allenson will serve as vice president in charge of data processing.

Bartley has been named vice president in charge of savings and marketing. Bartley is the newest officer with the Frontier staff and has moved to Plainview from Lubbock. He is a graduate of Texas Tech University with a BA degree in advertising and public relations and has done graduate work at the University of Texas at Austin. He previously served as public information director for a state agency. Bartley is a member of the United States Jaycees and Texas Public Relations Association and the Association of Business Communicators.

Mrs. Pritchard will serve as vice president of accounting and comptroller. She attended Plainview schools and graduated at Guyton, Okla. She joined Frontier Savings Association in February 1976. She has been the treasurer of Frontier since 1977 and was promoted to secretary-treasurer in August 1978. She is a member of Evangel Temple.

The new buildings that will be constructed in Earth and Crosbyton will be replicas of the recently completed Edgemere office located in Plainview on West 24th Street and the new Abernathy office, Gutheinz indicated. He also stated, "We feel that we can offer better service to our customers in Earth and Crosbyton with the construction of these facilities. The Slaton branch application is in keeping with our goal of servicing surrounding communities here on the South Plains and is another way to show our commitment to the future of West Texas."

Kelley Hill Wins at State

Kelley Hill, 12, set a record in Elks Lodge basketball free throw competition in Lubbock January 6, went on to win district competition in Amarillo, and placed third in state competition in Temple February 17.

Age groups winners from 10 districts competed in the state contest. Kelley, in the 12 to 13 age group, made 18 out of 25 free throws. His Lubbock record was 24 out of 25.

Kelley's mom, Jan Hill, said he enjoyed the competition and the trip to Temple. Contestants were treated to a Friday night social at the Temple Elks Lodge and, on Saturday, to a barbequed chicken dinner at which the Elks presented certificates to participants. Kelley made new friends from all over the state. He'll see several of them again this summer when they attend Texas Tech basketball coach, Gerald Myers' summer basketball camp.

BYRON ELDREDGE TAKEN TO DALLAS FOR TREATMENT

Byron Eldredge of Lubbock, who was injured in a traffic accident in Amarillo Feb. 9, was moved from an Amarillo hospital to a Dallas hospital last week. He went there to receive treatment from a surgery specialist. He was taken to Dallas in a van driven by David Waits of Abernathy. Byron was accompanied to Dallas by his wife, Nancy, who also was injured in that accident, and his mother, Mrs. Ed Eldredge, of Abernathy.

Another Lubbock couple, Mr. and Mrs. Donald H. Robinson, were killed in that accident. A pickup truck hit the car in which the two Lubbock couples were riding. Two men in the pickup truck were jailed following the collision.

But if we confess our sins to Him, He can be depended on to forgive us and to cleanse us from every wrong. (1 John 1:9)

From the TAP Kitchen

Texas Department of Agriculture-Reagan V. Brown, Commissioner

MICROWAVE PEANUT BRITTLE

1 C. sugar
1/2 C. white corn syrup
1 C. raw peanuts
1/8 tsp. salt

1 tsp. butter
1 tsp. vanilla
1 tsp. baking soda

In a 1 1/2 quart casserole, stir together the sugar, syrup, raw peanuts, and salt, mixing well. Microwave at High for 6-9 minutes until light brown. Add butter and vanilla and stir well. Microwave at High 1-2 minutes more. Peanuts will be light brown and syrup will be very hot. Add baking soda and gently stir until light and foamy. Pour onto lightly buttered cookie sheet. Let cool 1/2-1 hour. When cool, break into small pieces.

NEVER FAIL PEANUT BRITTLE STOVE-TOP STYLE

3 C. white sugar
1 C. white corn syrup
1/2 C. water
3 C. raw peanuts

3 tsp. butter
1 tsp. salt
2 tsp. baking soda
1 tsp. vanilla

Boil sugar, syrup, and water until thread spins. Then add peanuts and, stirring constantly, cook until the mixture turns a brownish gold. Remove from heat, add butter, salt, vanilla, and soda. Quickly pour onto buttered cookie sheet. Let cool and break into serving-sized pieces. Sprinkle with salt when cool.

DOWN IT GOES!...V.O. Holley, Larry Field(city manager) and John Henry(Holley & Henry are with the construction crew for the highway) are watching Roger (Red) Rightman, mount the bulldozer to get ready to level the old building on Ave. D that was once Harold's Super Market. He leveled the back part first and then hit the front and sides.

Work Underway On One-Act Play For UIL Contest

Almost every day February through March, the cast and crew of Abernathy High School's one act play prepares their presentation for UIL contest. Director Gary Stalcup planned a detailed practice schedule for the 15 actors and crew-alternates. The play is "Eden," by Jerome McDonough of Amarillo. He is the author of many plays for high school performers. In the play, the Leader of an unspecified country announces his displeasure with the quality of one facet of the National Product-children. The Chairman of the Board of a corporation, meanwhile, unveils a new product--synthetic human beings called Genefacs (Genies, for short). The new "children" (18-year-olds) will be available

to families whose women have been inoculated against fertility. A strong conflict develops between those favoring the new program and those opposing it. The opponents claim that Genies will eventually take over the world, making the human race obsolete. To find out what happens, attend a dress rehearsal or assembly performance scheduled for late March. Major characters are played by Cindy Stillwell, Dana Flud, Charles Badley, and Gay Hobgood. The other actors (who play several parts each) are Cliff Ward, Beverly Taylor, Buddy Bowen, Shana Toler, Linda Adkisson, Perry Evans, Lisa Wolf, Leah Skipper, Susan Sanders, Jill Blalock, and Jorene Hobgood. Crew members, who also serve as alternates, are Tony

Heath, Kelly Mills, Jolanna Ward, Carrie Smyers, Sharla Griffin, Jane Sanderson, and Lisa Garza.

High School Students To Visit Tech

LUBBOCK--As many as 1,200 high school students, and maybe more, are expected at Texas Tech University March 2 to learn about college life, roam the campus and end the day with a free swimming and dance party at the Aquatic Center. While most students will be coming for personal advice on college choices, there will be planned activities for fun as well as ongoing university events open to the visitors.

'DOZER LEVELS OLD BUILDING IN ABERNATHY

(By Vicki Havens) Friday, February 23, was a beautiful day in Abernathy and there was extra work being done. City Manager Larry Fields came by The Review office and told us there was a bulldozer knocking down some old building in the north end of town. We went to the site of the old grocery store that was Harold's at one time. We were standing in front and Roger Rightman, the man driving the bulldozer hit that front wall and it came tumbling down. The city owes their thanks to Henry L. Stafford Construction Co. who furnished the bulldozer and driver for tearing down these buildings. Stafford is the contractor for the highway work. Other buildings knocked down were the old tourist courts just north of the Harold's grocery store. Years ago it was Knight's Courts. Another building knocked down Friday was the Royal house on Avenue D between tenth and eleventh streets. There was a building knocked down on the south part of town also. Earlier in the week a new resident of Abernathy had made mention to us that the north end of town was an eye sore with all those old vacant buildings. We have heard several people talking about all this work being done and expressing their gratitude to the city for seeing this getting taken care of.

Organizing For Community Action

COLLEGE STATION--Do you really like the community where you live, or is there something lacking? If your community needs a "new breath of life," or if there are some basic needs of the citizens that are not being met, then it's time to organize for action, says a community resource development specialist with the Texas Agricultural Extension Service. According to John Henry, the key to community improvement and development lies in these words: "If it is to be, it is up to us." "Community improvement depends on people working together. People have found over the years that by working together they could acquire for themselves the good things of life that they could not otherwise obtain," notes Henry. "The word 'community' itself has become known as identifying a place where people have common interests, needs and objectives." The Texas AGM University System specialist points out that the whole aspect of community improvement and development hinges on good community leaders. Good leaders know how to listen, communicate and motivate. They also know how to plan and conduct effective meetings, delegate authority and solve problems. "The Extension Service through its community resource development program stands ready to assist communities in developing leaders and in planning and organizing for action," says Henry. "County agents are the key in this effort; they have a long history of helping people in every county solve their problems." Through a county program building committee in each county, the county Extension agent and community leaders can determine major community problems and the need for educational assistance, notes the specialist. Once needs are determined, various resources can be mustered, including Extension specialists in a wide range of subject-matter areas. "Extension's trademark is to help people solve their own problems through educational programs," contends Henry. "Through Extension, assistance can be secured from all levels of government, including research from the state's land grant university, Texas A&M." With educational assistance from county Extension agents, community leaders throughout Texas have worked together to acquire fairs and shows, community center, electricity, water and sewage systems, fire trucks, medical facilities and services, solid waste disposal systems, beautification programs, senior citizen centers, parks and recreation facilities, farmer's markets, better housing and better jobs, to name a few. "A visit to the county Extension office, usually located in the county courthouse, can be the first step to bringing about a solution to a community problem or to improving community services and facilities," contends Henry.

Mrs. Thompson To Head Local M/H/A Drive

Mrs. Pete Thompson of Abernathy was named Mental Health Bellingrue Chairperson for the May '79 campaign announced Dick Fredrick, president of the Mental Health Association in Texas. "The Mental Health Association is comprised of citizens concerned about the quality of life in their

communities. They are aware of the problems of the mentally ill--the lack of treatment or information--and have formed a statewide association to help solve these problems," said Fredrick. Current concerns of the Association include: community mental health center funding; mental health coverage in national health insurance; child care licensing; patient's rights and the impact of deinstitutionalization.

The Association utilizes a variety of information and education services in order to eliminate misconceptions, educate the general public about symptoms and encourage early detection and treatment of mental illness. Since the Mental Health Association in Texas is a non-profit volunteer agency, it must rely on private contributions to continue working to promote mental health.

Lockett 77

Cotton like you've never seen!

This great new variety was introduced for wide-area planting only one year ago. And already it's becoming one of the most popular cotton varieties in the Southwest! Farmers who've seen it are excited about its performance. Here's what they liked about Lockett 77:

- "Disease was not a problem." Multiple disease tolerance includes protection against the fusarium wilt-nematode complex.
- "It came out of the ground real fast." Excellent seedling disease escape and cold tolerance provide good early-season vigor.
- "It fit my conditions exactly." Early maturity makes Lockett 77 a good choice for short season production.
- "The lint tested out real well." Fiber qualities are outstanding with good strength and uniformity ratings.
- "Lockett 77 was a beauty in the field." Foliage is sparse on short- to intermediate-size plants. Short, close-fruiting branches make Lockett 77 ideal for stripper harvest.
- "The field looked white with my narrow-row planting." An excellent stripper cotton.

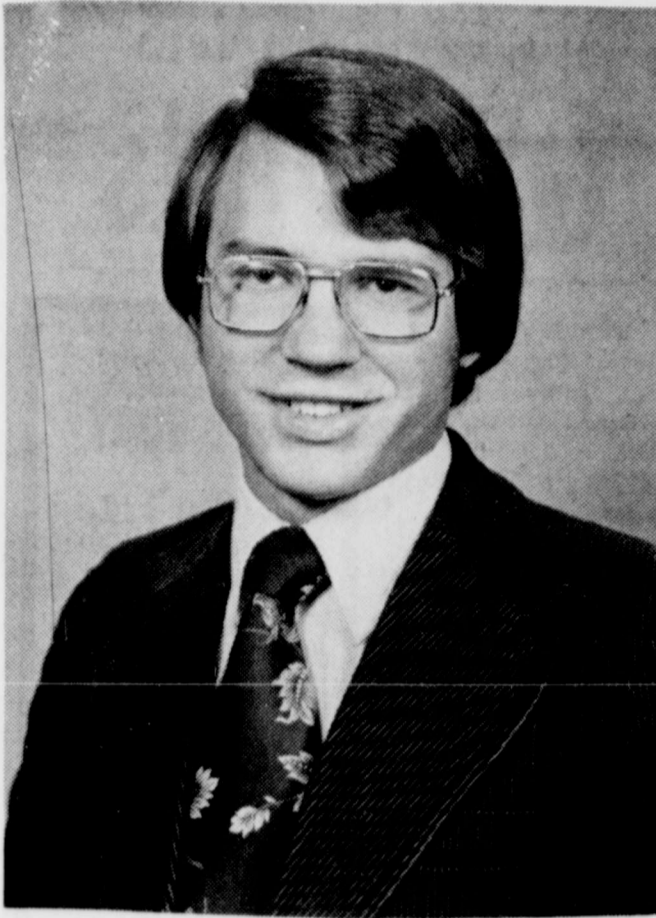

If you weren't among the farmers who planted Lockett 77 last year, talk to your ginner. If he doesn't have a supply on hand, he can get it for you. You're going to be really excited about the first field of Lockett 77 you see. It might as well be yours.

Lockett 77 is a U. S. protected variety (Plant Variety Protection Certificate No. 7500084). Unauthorized propagation and unauthorized seed multiplication prohibited by law. This variety of cotton planting seed can be sold by variety name only as a class of certified seed. It is unlawful to sell non-certified seed of this variety.

Registered trademark of Pioneer Hi-Bred International, Inc.
Pioneer is a brand name; numbers identify varieties.

Richard Pivonka

TRACTOR SHORT COURSE SLATED HERE

A tractor maintenance short course for adult farmers will be held March 12-15 under the sponsorship of the Abernathy High School Vocational Agriculture Department, and the Abernathy Young Farmers, according to Gerald Kelley, teacher of vocational agriculture, and Dr. Delwin Webb, Superintendent.

Mr. Richard Pivonka, tractor maintenance specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University, will

do the instructing. He is headquartered at Texas A&M University.

Mr. Pivonka received his B. S. degree in Mechanized Agriculture from Texas A&M University in 1975. From June, 1975 to April, 1977 he worked for the Rio Grande Valley Sugar Growers, Inc. as a Mechanical Equipment Foreman. He was responsible for the maintenance of a wide variety of shop and field equipment.

The short course at Abernathy is scheduled to begin March 12 at 7 PM in the vocational agriculture building. Other meetings in the series of four will be held March 13, 14, and 15.

During the dates the short course is in progress, Mr. Pivonka will be available to assist farmers with individual tractor problems and to provide "on-the-farm" instruction, according to Kelley.

Farmers interested in attending the short course should write or call the Vocational Agriculture teachers Gerald Kelley or Jerry Adams, or the Superintendent of Schools, Dr. Webb. An entry fee of \$5 will be charged.

Tractor Maintenance Short Course certificates will be presented to each individual who attends all the training sessions.

Mr. Pivonka states that the key to longer tractor life comes from a full knowledge of the fundamentals of an engine and the application of the proper maintenance skills involving lubrication, fuels, carbure-

Recipe Of The Week

Recipe from the kitchen of Myrna Davis.
GOLDEN CAKE BREAD
Scald 1 cup milk with 1 stick oleo.
Pour into big mixing bowl add 1/2 cup of sugar. Let cool to luke warm.
Add 2 beaten eggs (reserve 1 tbs.)
Add 1 tbs. vanilla
1 tsp. salt

Dissolve 1 pkg. yeast in 1/4 c. lukewarm water
Add this to milk and egg mixture
Add 4 1/2. flour (this will be thin)
Set aside--let rise
Beat down with spoon (Do not knead this bread)
Let rise again--beat down
Pour equal amounts in 2 loaf pans (greased)
Brush tbs. of egg on top of loaves
Let rise again
Bake at 350 degrees--25 to 30 min.

ion, air cleaners, cooling systems, valves and ignition. Mr. Pivonka will cover the proper adjustments and maintenance of the above, with emphasis on the importance of each in obtaining a longer tractor life and improved performance. Throughout the short course, emphasis will be placed on "learning to do by doing" through the use of several demonstration tractors. All enrollees will have the opportunity to perform actual adjustments and maintenance on their own tractors. Safety and operating techniques will also be stressed.

"Short courses in tractor maintenance, as well as other subjects, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University," stated Bob Jaska, associate professor, Department of Agricultural Education at Texas A&M University who coordinates the program for Texas A&M.

"This cooperative program," states Jaska, "is designed to make the services of specialists available to conduct short courses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people."

Specialists are now available in the fields of Beef Production, Farm Wiring, Electric Motors, Farm Arc Welding, Swine Production, Tractor Maintenance, Pasture, and Oxy-Acetylene Welding.

NEW HOUSING PROPOSAL AT COUNCIL MEETING

(By Jacquelyn Smyer)

A young man from Texas Housing Development Corporation in Austin got rather upset with Abernathy City Council at its February meeting. He came with Alice Pace, Director of Abernathy Neighborhood Center, Mrs. L. A. Suttle, and Tom Riney of Central Plains Community Action, to present his organization's plan to build low rent housing units with a Farmer's Home Administration loan and operate a rent subsidy program with HUD Section 8 funds. The council was not receptive.

The man said his organization is a non-profit "middle man" between people and communities who need nice low rent housing and government funding programs. They handle everything up to actual operation of the units which are owned and operated by the city. The loans cannot be obtained without community support and the man needed an idea of how much there would be in Abernathy before proceeding further.

He said a survey by Riney showed there were more than 70 people in Abernathy who would like to live in rent subsidy housing. Last fall, Riney presented plans for a different rent subsidy program in which local property owners could enroll their rental units in a subsidy program operated by Community Action. The council decided against that one. In the program presented in February, rental units must be constructed on paved streets convenient to all city services and not in predominately low income areas.

After the council asked questions about Texas Housing Development's role and discussed other programs in other towns, Mayor Pete Thompson said he hasn't talked to a single person here who wants such a program. Those who pay state and county taxes don't want to pay for other people to have a free ride. Mrs. Pace and Mrs. Suttle, though, brought up all the old people here whose houses are falling down. They feel it is not so much free rides but of people unable to do better because nothing better is available. The THD man said his program makes it possible for the city to get rid of substandard housing by moving tenants into nice new units.

Because people who need rent subsidy housing usually do not pay taxes, Councilman Charles Nelson was concerned about the effect of such a program on local taxes. He pointed out that the rental units would not bring in taxes but private owners of rental units do.

The THD man said Texas is the largest user of FmHA funds and if Abernathy doesn't want money for low income housing, the \$223,000 will certainly be spent somewhere else. Mayor Thompson said part of our trouble is the government shoveling out too much money. The THD man said this program doesn't involve government spending. It's a loan which will be paid back with interest. He stressed that his type program is run like a business and that FmHA doesn't guarantee loans if can't get back.

The mayor closed the discussion by pointing out the upcoming election. He said people who are for rent subsidy programs can work to elect city representatives who are for them, too.

OTHER ACTIONS

-Called for an election April 7 to elect a mayor and two aldermen. Added Leonardo Cortez to last year's group of election clerks. Cortez is fluent in both English and Spanish.

-Voted to hire Kim McReynolds to take the place of Officer Mark Kirkpatrick who is now a policeman in Lubbock. McReynolds is a police officer at Petersburg. Councilman Thompson questioned whether or not we even need a third policeman but after much discussion, most councilmen decided we do.

-Adopted an ordinance approving the Pioneer Natural Gas price increase because, as Councilman Thompson said, we have absolutely nothing to say about it. It's all controlled by the Texas Public Utilities Commission.

-Approved purchase of a \$2400 radar unit marked down to \$981. Police Chief Clyde Vandygriff said it is much better than his present

hand held unit and is needed while highway traffic is on city streets because of highway construction. He said we've had much less loss of life in traffic accidents during construction than expected so the radar helps. It will also quickly pay for itself. The first unit brought in \$1800 during its first month of use.

-Raise the "turn on" water rate from \$2.50 to \$10 because 20 or 25 people habitually wait until their water is turned off before they pay their bills. It costs the city much more than \$2.50 to have employees make special trips to turn on the water they just turned off. It is hoped this higher fee will make people more prompt to pay and save the city a lot of trouble and expense.

-Approved purchase of eight pagers at \$250 each for Emergency Medical Service personnel. There have been problems recently with on duty EMT's not receiving their calls. City Manager Fields said collection rate for EMS calls was 61% in December. There is less problem lately with EMS volunteers having to take off work to furnish non-emergency transportation to people. It was an awful bother for awhile but doctors are being more careful about letting families use their own transportation for non-critical cases.

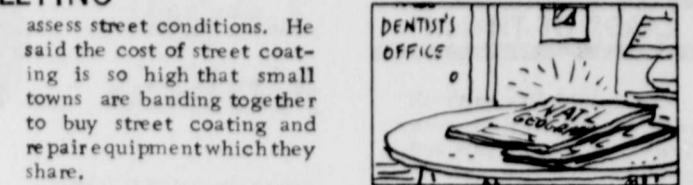

-Accepted a bid from Don's Chevrolet to furnish a new police car. Our giant size police chief wanted to know who is going to install a zipper so he can get into and out of the smaller car. Councilman Charles Nelson advised that the eight cylinder engine is the most economical.

-Accepted Jackie Barton's bid of \$510 for the city's property in Lakeview Addition. The lot's appraised value was \$500.

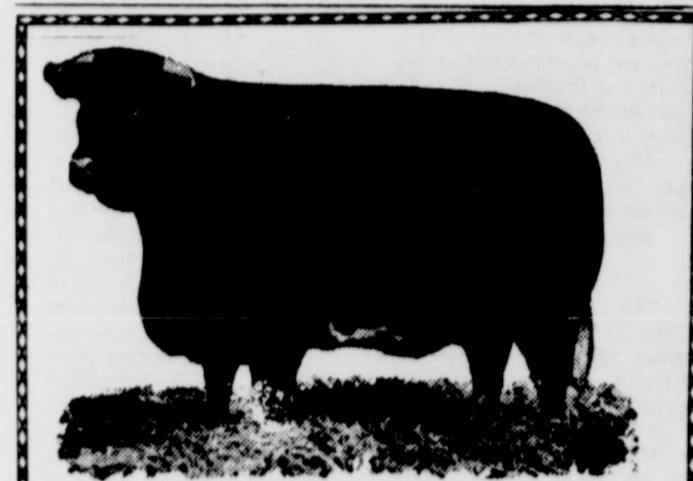

-Awarded a \$29,910 bid for installation of water and sewer in Pinson Place Addition to Panhandle Construction Co. Engineer Don Jennings said the company is a good reliable one, one of the top two in the area.

Developer James Pope asked the city to advertise for bids on street construction too and asked how much interest has been shown in other city paving. Fields said only three people contacted him and since cost are rising everyday, there's no need to wait longer.

Councilman Thompson said he thinks the city is going to be forced to seal coat every street in town to forestall severe damage to streets. There are no chugholes yet but the cracks to make them already apparent. Fields guessed it would take \$200,000 to seal coat all over town. City engineers are coming out soon to

The world's largest non-profit scientific and educational institution is the National Geographic Society, founded in 1888.

Proposals for an Update to the South Plains Association of Governments' Comprehensive Water and Sewer Plan:

Proposals addressed to the South Plains Association of Governments will be received at the Office of the Community Development Planner until 12:00 Noon March 12, 1979, for research and technical services in providing an update to the Regional Comprehensive Water and Sewer Plan. Proposals will be considered on March 13, 1979. The SPAG Board of Directors reserves the right to reject any or all proposals.

Affirmative action plans under Section 3 of the HUD Act of 1968, as amended, will be required.

Proposal guidelines are available in the Office of Community Development Planner, South Plains Association of Governments, 1709-26th Street, Lubbock, Texas, Phone (806)762-8721. (2-22 & 3-1)

LEGAL NOTICES

LEGAL NOTICE
NOTICE OF INTENT TO INTRODUCE A BILL IN THE 66TH LEGISLATURE, STATE OF TEXAS

NOTICE is hereby given that the undersigned intends to request introduction of a bill in the Sixty-sixth Legislature of the State of Texas, the general purpose, nature, and substance of which is as follows:

Such bill will provide for the creation of the Ogallala Water Import Authority of Texas, said Authority to comprise the whole of all Texas counties any part of which overlies the Ogallala Aquifer; and, further, said Authority to have the power and purpose to import, store and otherwise coordinate the use of water; and further, said bill will provide the purposes, powers, duties, operation, expansion, and financing of said Authority. The bill will empower the Authority to levy, assess and collect ad valorem taxes and issue bonds as necessary to carry out the purposes of the Act.

The foregoing enumeration of provisions to be contained in such bill is not intended to be exclusive, but only to express the general purpose, nature, and substance thereof. Such bill will make other provisions and confer other powers in connection with the general purpose, nature, and substance as stated above.

This Notice is given in accordance with the requirements of paragraph (d), Section 59 of Article XVI of the Texas Constitution.

OES Meeting Set March 1

"Public Schools Week" will be the theme of the March 1st stated meeting of Abernathy Chapter No. 877 Order of the Eastern Star. The meeting will open at 7:30 p. m., and Worthy Matron Mildred Tannehill urges all local members to be present. She also extends an invitation to visiting OES members.

Hosts listed for the March 1st meeting are: Betty and Asa Reynard, Cleo Thomas and Lucille McKenzie.

LEGAL NOTICE

Notice to Bidders
Paving Improvements in Pinson Place Addition, to the City of Abernathy, Texas

Sealed proposals addressed to the Honorable Mayor and City Council of Abernathy, Texas, will be received until 3:00 P. M., March 12, 1979, for the construction of approximately 4,200 S. Y. of asphalt paving (6" caliche base), 2,300 L.F. of curb and gutter, and related construction for the City of Abernathy, Texas. The above work will be paid for in cash. The City Council will consider bids on March 12, 1979, at the City Hall, subject to the right to reject any or all bids and to waive formalities. Bids may not be withdrawn after they are submitted.

Bidders are required to submit a cashier's or certified check or bid bond in the amount of 5% of the total bid and the successful bidder shall provide bond in the full amount of the contract executed by a surety company authorized to do business in Texas.

Attention is called to the fact that not less than the minimum salaries and wages set forth in the Contract Documents must be paid on this project, and that the Contractor must insure that employees and applicants for employment are not discriminated against because of their race, color, sex, religion, or national origin.

Plans and specifications are available in the office of the City Manager, Abernathy, Texas. City of Abernathy, Texas. By: Pete Thompson, Mayor
City of Abernathy, Texas (3-1 & 8-79)

The first power-model dishwasher was developed by Mrs. W. A. Cockran of Shelbyville, Indiana, and completed in 1889.

Psychology
Your teenager's attitude toward alcohol begins to form long before the legal age for drinking and is learned earliest in the home. say many experts on child behavior. Young people brought up by responsible adults are more likely to make the right decisions later on and more likely to realize that drinking too much too often is not grownup.

On the highway, a basic problem is the excessive drinker, not the moderate social drinker. Of course, it's best not to drink at all before driving, but since many people do, the Distilled Spirits Council of the United States advises that you know your limits, as well as the speed limit, and stay well within both.

RESPONSIBLE PERSON
Wanted to own and operate candy or Horoscope vending route. Abernathy and surrounding area. Pleasant business. High profit items. Can start part time. Age or experience not important. Requires car and \$1495 to \$4995 cash investment. For details write and include your phone number Eagle Industries, 3938 Meadowbrook Road, Minneapolis, Minn. 55426
