THE ABERNATHY WEEKLY REVIEW (Hale, Lubbock Counties)

Thursday, March 5, 1981

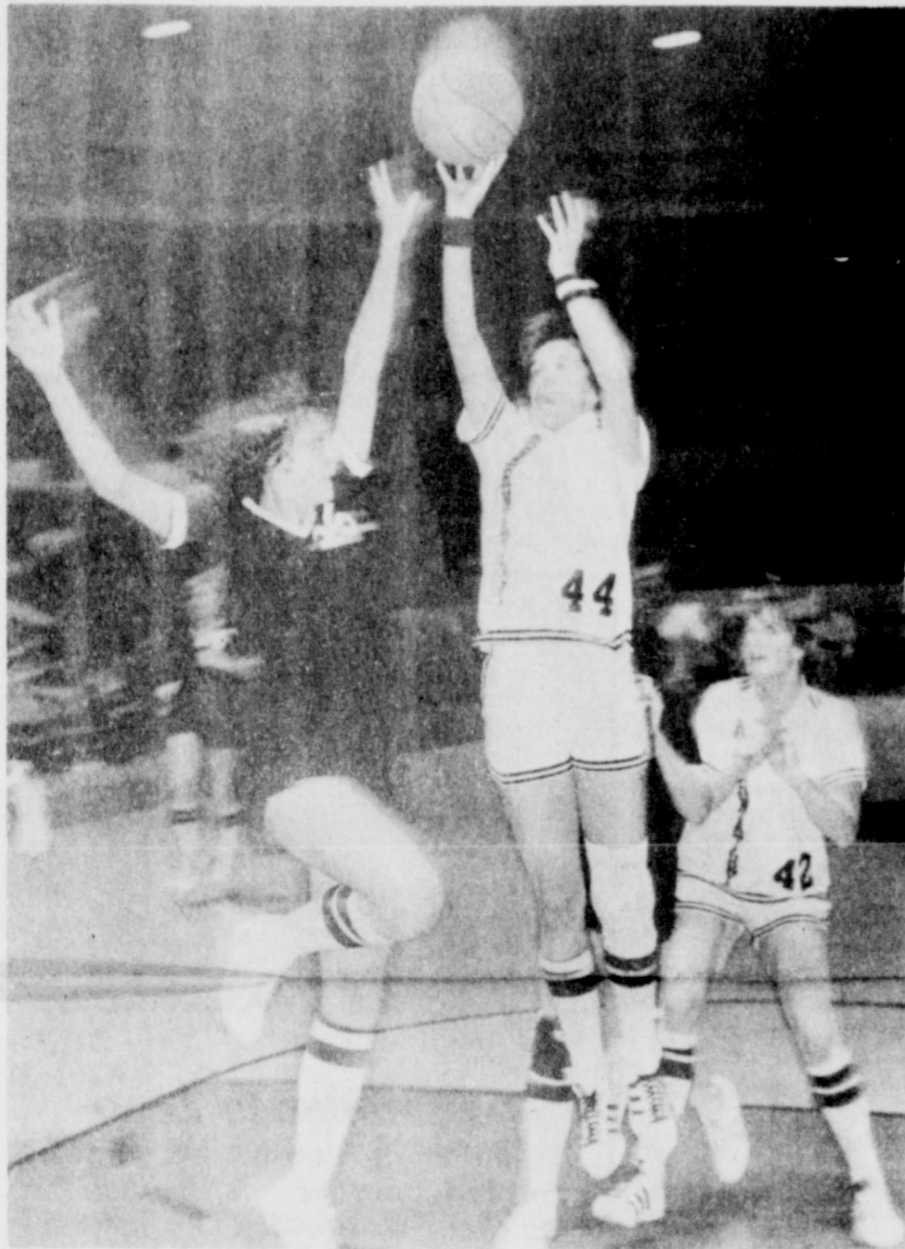

U.S.P.S. NO. 003-340

Lady Lopes Win Regional

The Lady Lopes defeated Comanche Friday night and Coahoma Saturday at noon, to become the Regional Champs. It was all Lady Lopes Friday night against Comanche. From the very start it looked as though Comanche wasn't in the game. The end of the game could not come soon enough for the Maidens losing 84-31 to the awesome Lady Lopes.

the Lopes ahead 44-17 at the half, 63-23 at the end of the third, and a finish of 84-31. Leading scorers in the game were Ramona Iribek with 18 points, Lori Oswalt with 16 and Dana Fondy, Vicky McKenzie, and Darla McGuire each made 10 points. The Lady Lopes made a total of 35 field goals, 14 free throws and 16 fouls in the game. Then on Saturday at mid-day, the Lady Lopes struck again. This time they struck with less force defeating

Coahoma 66-50 in the regionals final. In the first quarter it looked as if the Lady Lopes would easily conquer Coahoma. It ended with the score Lady Lopes 16, Coahoma 8. This was not to be the case. The Lady Lopes were plagued with fouls and several attempts to hit the basket were missed. The second quarter ended with the Lopes only controlling the game by a 4 point lead, 29-25. The Lady Lopes came back the second half then to stay ahead of Coahoma throughout the rest of the game ending it in triumph. Leading scorers in this game were Ramona Iribek with 24 points, Shelley Toler 9, and Dana Fondy with 7. There was a total of 22 field goals, 22 free throws and 25 fouls made in the game by the Lady Lopes.

LORI OSWALT - out-jumps a Comanche opponent Saturday. Darla McGuire looks on. (Review Photo)

On To State
The Lady Lopes will play the state semi-final match-up today against Brownsboro at 2:00 Thursday afternoon in Austin. If they win this game they will play in the state final Saturday at 11:00 against the winner of the Kountze-Sweeny game.

Games To Be Aired On Radio

The state games will be broadcast in our area on Channel KRLB, 580 on your radio dial. The Lady Lopes first game will be aired on this station at 2:00 Thursday. If they win this game, the finals can be heard at 11:00 Saturday. KRLB is a Lubbock station that broadcasts the Dallas Cowboys in football season.

Boosters Sponsor Bus To Austin

The Booster Club will sponsor a chartered bus to Austin on Saturday for the girls state game. Interested persons should contact David Pinson or Mrs. Jack Moss. Your tentative reservations should be made immediately. The cost will be \$30 round trip per person.

Booster Club To Meet

The Abernathy Booster Club will meet March 12 in the school cafeteria. The time of the meeting will be 7p.m. All members are urged to attend.

VICTORY - The Lady Lopes bring home the trophy after defeating Coahoma in the finals of regional play. (Review Photo)

February Police Report

For the month of February there were a total of 115 citations issued. There were 101 speeding citations, 6 for no drivers license, 1 expired drivers license, 1 drivers license restriction, 1 failure to drive in a single lane of

traffic, 1 failure to have vehicle under control, 1 unsafe driving, 1 driving on walking area, 1 defective tail lights and 1 defective headlights.

There was a total of six accidents for the month, but none were injured in these. A total of eight arrests including one juvenile were made.

Offenses for the month total 15. There were 2 public intoxications, 2 burglaries of a motor vehicle, 1 carrying a prohibited weapon and 2 forgery offenses.

In one of the forgery attempts, one adult male and one juvenile attempted to cash a forged check at Sav-A-Lot. They had previously stolen the check from the Olen Crump residence in Abernathy.

Other offenses include 1 attempted murder, Porfilio Guerrero who was indicted with a trial date to be set. Bond was set at \$25,000. There were 2 disorderly conducts, 1 failure to identify to a peace officer, 2 terrorist threats and 2 evading arrest.

Presently, the Abernathy police department is a two-man force. Police officer Frank Harper resigned February 22 to return to his home state of Mississippi.

Weapons Protection Class Offered
The Abernathy Police Department would like to know if there are any citizens desiring to enroll in a weapons protection class. This is a class in self or home protection.

The class will consist of a working knowledge of a hand gun. Safety first will be a top priority.

Anyone wanting to take this class can send a post card to:

Chief Jim Williams
P.O. Box 310
Abernathy, Texas 79311

To begin a class we must have a minimum of 20 people.

girls. Rick sings bass and is employed as the Region 1 Inventory Control Specialist for Cameron Wholesale Business Supply in Lubbock. Rick and his wife live in Lubbock.

The group is accompanied by their pianist Alma Ruth Patterson of Abernathy. Alma has lived in Abernathy all her life and is presently employed as a 2nd grade teacher.

The Schaap brothers' next performance will be at Littlefield March 21. It's well worth the trip to attend. All are invited.

First Federal To Acquire Abernathy Frontier Branch

First Federal Savings and Loan Association of Lubbock will purchase branch offices of Frontier Savings & Loan in Abernathy and Crosbyton.

By obtaining these two branch offices, the Lubbock savings association will control an additional \$6 million in assets. Presently they operate four other branch offices.

First Federal Savings and Loan was approached by Frontier and offered the purchase of any of its branch offices in Abernathy, Olton, Earth, and Crosbyton.

The purchase has been approved for the branch office in Crosbyton and the branch office located at 611 Avenue D in Abernathy. First Federal will begin operating these two offices March 31. The personnel at the branch office in

Abernathy will remain the same. The name will be changed to the First Federal Savings and Loan Association.

On The County Line

BY KEITH TOOLEY

The Lady Lopes did it! They easily defeated Comanche and Coahoma this weekend to win the Regional Championship. This is really a great achievement and we hope to see them take State this weekend.

After their performance this weekend, it's pretty obvious who the best team in our region is, the Lady Lopes. Slaton proved to be the town to beat. Congratulations to coach Steele and the entire Lady Lope Basketball staff.

I really do appreciate Larry and Dorothea Deering providing us with the weather report each week. When I first arrived at Abernathy I had hoped someone in the Meteorology field could help me with the weather.

Luckily I don't have to go outside at 7:00a.m. to see how cold it is every morning thanks to the Deerings.

The following article was brought to my attention by a concerned Abernathy local. It was taken from the Pro Family Forum, which I believe is a monthly publication. The article constitutes one of the more demoralizing aspects of today's culture being practiced in America, homosexuality. Citizens of Abernathy can help prevent homosex-

uality from being accepted in our society. It reads as follows:

Pornography in the Living Room
Despite a postponement, ABC-TV still plans to air the situation comedy ADAM AND YVES sometime after this fall. The show is about two male homosexual lovers: blatant propaganda about the pleasures of sexual perversion.

Such would constitute a major victory for the campaign to force people not only to tolerate homosexuality but to accept it as a normal, even glamorous, lifestyle for young people to follow. This is being taught in some schools now. For instance, the proposed sex curriculum guide for Humboldt County, California, provides that six and seven-year-old first graders be taught that homosexuality is "totally acceptable and is a viable choice available to them which they should understand and explore before they make a choice as to how they will conduct their lives."

ADAM AND YVES would glamorize this principle - beamed right into every house in America, where millions of innocent children can see it. What can you do? Write: Mr. Elton Rule, President, ABC, 1330 Avenue of the Americas, N.Y., N.Y., 10019. Protest also to your local ABC affiliate.

Monday Was Declared Patrick Lewis Day

Lewis Receives Outstanding Achievement Award

Monday, March 2, was declared Patrick Lewis Day in Abernathy. Patrick received an Outstanding Achievement Award from Mayor Pete Thompson for his performance in the movie, "The Acorn People" aired Monday night. The award reads as follows:

WHEREAS, the City of Abernathy and surrounding community is proud to have citizens who bring honor to their

city; and PATRICK LEWIS has demonstrated outstanding ability in scholarship, acting and a sense of humor that brings joy to his fellow citizens; and

WHEREAS, the entire community has been inspired by a fellow citizen who disregards his handicaps and works and performs to his utmost ability.

NOW, THEREFORE, I, J. Pete Thompson, Mayor of the City of Abernathy, Hale-Lubbock Counties, Texas,

do hereby present this OUTSTANDING ACHIEVEMENT AWARD to Patrick Lewis and declare Monday, March 2, 1981, to be PATRICK LEWIS DAY in the City of Abernathy, Texas.

IN WITNESS WHEREOF, I have hereunto signed my name officially and caused the seal of the City of Abernathy to be affixed thereto, on this 2nd day of March, 1981.
Mayor, J. Pete Thompson

Schaap Brothers Record Gospel Album

The Schaap brothers just finished recording their first album February 21, at Don Caldwell Studios of Lubbock. The album consists of 11 gospel songs sung by the five Schaap brothers, Craig, Steve, Dan, Jeff and Rick, and they are assisted by Alma Patterson on the piano. Among the songs recorded, are hits such as "Sweet Sweet Spirit", "I Rise Again", and "What A Day That Will Be".

The album will be available in four to six weeks. Three hundred albums will be available at this time and can be acquired from any of the Schaap brothers.

The Schaap brothers have been singing gospel music together for the past 15 years. Their group performs at church services and other get-togethers over the entire west Texas area surrounding Abernathy. Their latest performance was at a Plainview church February 28.

The Schaap brothers are sons of the Rev. Louis Schaap of the Nazarene Church in Petersburg. Rev. Schaap helps promote the group by getting them contacts with churches that would like to hear the Schaap gospel singers.

The Schaaps were originally from Minnesota before moving to Texas in 1969, when their father became pastor of the Nazarene Church in Abernathy. When asked if they had grown to

support the Cowboys over the Vikings, four of them still preferred the Vikings. Steve Schaap favored the Cowboys.

The Schaap family members have always remained very close and have made it a point to live near each other. Steve Schaap is the group leader and singer, most of the lead vocals. He is employed at Pollard Ford in Lubbock, as a car salesman. Steve has a wife and two girls and they all reside in Abernathy.

Dan Schaap sings baritone and tenor.

He is single and is employed as the Director of Pharmacy at West Texas Hospital in Lubbock.

Craig Schaap sings bass and some lead vocals. He is employed with southwestern Public Service at Jones Station in Lubbock. Craig has a wife and two boys and the family resides in Abernathy.

Jeff Schaap sings baritone and tenor for the group. He is the Assistant Mill Manager for the Farm Discount Store in Lubbock. Jeff has a wife and two

Society

Iota Tau Chapter Meet At Cotton Center

Cotton Center members served as hostesses for the February meeting of the Iota Tau Chapter of Delta Kappa Gamma. The meeting was held in the Cotton Center school cafeteria.

Stuffed potatoes, salad, homemade rolls, and a cherry dessert comprised the menu with a valentine theme used for table decorations.

A patriotic sing-along fol-

lowed the regular business meeting. Then a program on quality living presented five steps to becoming fully alive: to accept oneself, to be oneself, to love, to believe, and to belong.

Abernathy members present were Ruth Fulton, Wanda LeMoine, Bettie Hardin, Peggy Tooker, Patsy Tucker, Jan Montgomery, Kathryn Newton, Alma Ruth Patterson, Louise Samsel,

Marion Struve, Amelia Ray, and Charlotte Carter.

MICKY SANSOM AND LISA KITCHENS

Engagement Announced

Mrs. Nobuko Kitchens wishes to announce the engagement and approaching marriage of her daughter, Lisa, to Mickey Sansom of Petersburg, son of Mr. and Mrs. Freeman Sansom, of Petersburg.

The couple will exchange vows Friday, March 27, at 8 p.m. in the Northside Baptist Church in Abernathy.

Lisa attended Abernathy High School and Mickey is a 1980 graduate of Abernathy. Mickey will be farming in Petersburg, where the couple plan to make their home.

SUSAN AND DWAYNE STONE

Dwayne And Susan Stone To Hold Revival

Rev. Renay Rice, pastor of the First Assembly of God Church in Abernathy, announces that they will have a revival each night beginning March 8 and will continue every night through the 11th. The services will begin at 7:00 p.m. each night.

Dwayne and Susan Stone

of the Solid Rock Ministries will be sharing the power, grace, and love of God through His Son Jesus Christ. Ministering "Today's Message For Today's World" in song and God's Word.

"You won't leave like you came...in Jesus Name."

Mark Andrew was born to Mr. and Mrs. Danny West February 26, weighing 8 pounds 2 ounces. The Wests presently reside in Houston.

The paternal grandparents of the new child are Mr. and Mrs. I. J. West of Abernathy.

Aerobic Country Classes Offered

The Department of Health, Physical Education and Recreation at Wayland Baptist College is offering "Aerobic Country" classes for persons in the Abernathy area this spring, according to Dr. Sylvia Nadler, head of the Department.

"Aerobic Country" is a rhythmic aerobic program

created by Nancy Kabriel which choreographs exercise to country-western music. "We feel that this program will have great appeal to country-western fans in the area," Dr. Nadler said.

The course, to be taught by Karen Henderson, will meet each Tuesday from 7:00-

9:00 p.m. from Feb. 24 through May 26.

Registration will take place on Feb. 24 beginning at 7:00 p.m. at the City Building, and persons planning to enroll should wear exercise clothing and tennis shoes. The first class session will be held the evening of registration. Several people

from Abernathy are already enrolled.

Cost for the class, which offers one hour college credit, is \$50 for credit and \$33.33 for persons wishing only to audit the course. In addition, a \$15 application fee will also be charged to credit students who are enrolling in Wayland for the first time.

Although the classes are primarily designed for college students and adults, high school students, freshmen through seniors, may also enroll in the course; however, only high school seniors may take the course for college credit, and anyone younger than freshman age must be accompanied by a parent.

The program will be geared according to each individual's capabilities, and heart rates will be constantly monitored in each class.

1935 Study Club Met

The 1935 Study Club met February 26, in the home of Mrs. Cal Tucker.

The program was on "City Government", and Mrs. Arno Struve introduced Mr. Ed Ellis, Abernathy City Manager, as the guest speaker for the day.

Mr. Ellis enumerated some of the fine facilities Abernathy citizens enjoy that are not available in most towns the size of Abernathy. He also pointed out that we do have problems, but that those involved with City Government are constantly working to find a solution to these problems as they arise.

Delicious refreshments were served by the hostess to 13 members and the guest.

The next meeting will be March 12, in the home of Mrs. E.A. Houston, with Mrs. Cal Tucker in charge of the program.

And this gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come.

Preacher's Weekly Devotional

"The Good News of Jesus Christ"

Text "For I am not ashamed of this good news about Christ. It is God's powerful method of bringing all who believe it to heaven..." Romans 1:16 (The Living Bible) Amidst all the bad news we hear in the world, the good news from God stands out like a rainbow of hope proclaiming salvation to a world that is despairing and dying without God. The gospel of Jesus Christ is God's good news to all men. There are some great affirmations about the gospel in our text.

First - The pride in the gospel is affirmed. Far from being ashamed of the gospel, Paul was eager to share it with everyone. Paul was saying, "I am proud of the good news." We should have this same pride today.

Secondly - The power of the gospel is affirmed. The gospel has the power to save those who believe. No matter how badly you need it, or how far you have strayed from it, the gospel has power to retrieve and receive those who believe.

Finally - The purpose of the gospel is affirmed. It's purpose is that people believe it. The good news is that God has come in Christ to reconcile us unto himself. The good news is that Christ has done all that needs to be done when he died on the cross for our sins. The good news is that Christ will save all who believe in him.

This is why we need to share the good news of Jesus Christ with all the world. Let's begin with self and spread to others.

FUTURE FARMERS OF AMERICA

building tomorrow today

FFA

We Believe In the Future of Farming!

LEARNING FROM THE PAST

America's agriculture has a rich heritage that is the backbone of our Nation's history. The desire for an adequate amount of good food has always been paramount among the people.

Thus came the program of vocational agricultural education. Agricultural education was brought into the classrooms of America's high schools. A way to educate, motivate, present new techniques to the young men in farming.

But no one was willing to completely relinquish the time-proven method of "let 'em do it" under the watchful eye of an adult, and he'll learn from his experience." So shortly came an organization The Future Farmers of America providing educational opportunity beyond the classroom.

For the 500,000 future farmers, future ranchers, future agribusinessmen currently enrolled in the vocational agricultural program, the Learning By Doing principle is still used.

There have been some drastic changes though in agriculture's classrooms. More than text books and a little room in the back of the school, vocational agriculture goes out into the local agricultural community, onto the farms, into the laboratory or greenhouse, in the dirt and among the animals, on the machines.

Like the basic industry of agriculture, vocational agriculture has a rich heritage. The program has trained millions of young men and women for careers in agriculture. That heritage will continue in the 8,000 vocational agricultural classrooms in America.

**It's National
FFA WEEK!**

**We Congratulate
FFA Members**

**And Their Work For
America's Future.**

Today's Future Farmers of America will be tomorrow's leaders in agriculture. FFA offers young members the opportunity to work and learn through on-the-job training and various community projects all aspects of agri-business... the business that keeps America growing strong. We're proud to support them!

New Deal News

Jo Nell Hudson—Correspondent

TOO LATE - Melissa Mayo scores two points in the game against the Forsan Queens Saturday morning. (Photo by Russell Crosby)

New Deal coaches Jimmy Noland and Ronnie Cuss.

New Coaches At New Deal

Coach Jimmy Noland member of the New Deal coaching staff this year

Coach Noland comes to New Deal from Lubbock where his football team advanced into the playoffs and his Lubbock track team captured the Regional Championship.

Coach Noland was the defensive coordinator for the New Deal football team this year. The Lions went 9-1 losing district to eventual Regional runner-up Shallowater. The Lion defense allowed only 37 points all season for a stingy 3.7 points per game.

Noland also coached the 7th graders this year. They came out second in District 4AA in football and third in basketball. Coach Noland will also be the head track coach at New Deal this year. His track teams in the past have won four consecutive district championships along with a regional championship and a regional runner-up title.

Coach Noland expects great things from the New Deal track team this season as they are the defending district champions.

Noland is married to the former Becky Wright of Hamlin, Texas. Becky is employed at New Deal as a 5th grade teacher.

Coach Noland and Becky are both 1976 graduates of West Texas State University where he lettered in football under Gene Mayfield.

Lonnie Cuss
Lonnie Cuss graduated from Slaton High School in 1950. He attended Texas Tech and graduated from there in 1955.

Cuss has been coaching various teams for the past five years. After graduating from Tech, Cuss coached at Luling Jr. High School for one year.

Next he was a coach at Frenship High School. Cuss was the defensive coordinator for their football team for a period of three years. Cuss led his team to the district co-champs position in football and his team became the district champs in track for two years.

In New Deal, Cuss is the JV and Varsity Football coach. In basketball season he is the freshman and JV basketball coach. He also coaches varsity track for New Deal.

Lady Lions Win Regional

Austin Bound
By J.N. Hudson

The regional basketball tournament in Lubbock proved to be a dream true for Coach Jan Whisenhunt and her girls basketball team.

Friday night saw the girls winning over Winters by a score of 52-43. In that game, junior Melissa Mayo went down with a severe ankle injury and all who were there doubted that Melissa could return the following morning to face a tough Forsan team.

However, when the girls ran on the court Saturday morning, Melissa Mayo was running with them - noticeably limping - but that was deceiving. Not only did Melissa play, she played her heart out. She was the games leading scorer with 18 points and had 8 rebounds. The final score was New Deal 42, Forsan 40.

In the game against Winters, New Deal fell behind early in the game, but came back making the score 8-6. From then on, New Deal was in control.

The leading scorer in that game was Vickie Teal with 25 points, but again one must sound praise for Melissa Mayo. She was everywhere, doing everything right. She played pressure defense and finished the game with 17 points and a performance that no one there is likely to forget for some time to come.

In the game against Forsan the score at half time read 26-19 in favor of New Deal. In that first half Melissa Mayo hit her first seven shots from the floor for 14 of her teams 26 points. Hitting the other 12 points was Vickie Teal.

Forsan's Christy Adams hit 11 points and kept her

team close. At half time, the general feeling was that the game was far from being over. This proved to be the case.

In the second half after the Lions hit two quick baskets - a shot by Melissa Mayo and a layup by Juanita Abercrombie - the Lions went the next six minutes without scoring. The Forsan Buffalo Queens came up with 9 straight points to tie the score when the buzzer went off to end the third quarter.

In the fourth period, the Lions scored the first 4 points and held several 4 point leads until Christy Adams hit an inside jumper to put the Buffalo Queens within one point, 39-38.

Free throws by Lori Bigham and Juanita Abercrombie gave New Deal enough margin to hold off the Forsan team in the closing seconds of the game. In the last 7 seconds of the game the Buffalo Queens had an opportunity to tie the score and go into overtime, but time ran out.

Memories of last year's game against Panhandle in the closing seconds haunted those who sat in the stands - but this time the New Deal girls would be on the winning end of the score, 42-40, the same score by which the

Lions were defeated by Panhandle last year.

Although praise must surely be high for the dynamic duo of Vickie Teal and Melissa Mayo, those in and around New Deal would surely agree that this victory was a

team effort. All the girls deserve recognition for a job well done.

Coach Jan Whisenhunt and her winning team are as follows: Senior Lori Bigham, Senior Tammi McNew,

Senior Renay Looney, Senior Trameela Shropshire, Senior Angela Teeter, Senior Vickie Teal, Junior Mary Walker, Junior Melissa Mayo, Junior Juanita Abercrombie, Junior Barbara Hale and Junior Peggy Emery.

A hearty congratulations to these fine young girls and the very best of luck in Austin. They are truly champions!

Lady Lions Aired KRLB

The New Deal Lady Lion state games can be heard on KRLB, 580 on your radio dial.

The first game will be aired at 11:00 Friday. If they win, the finals can be heard on KRLB Saturday at 2:00.

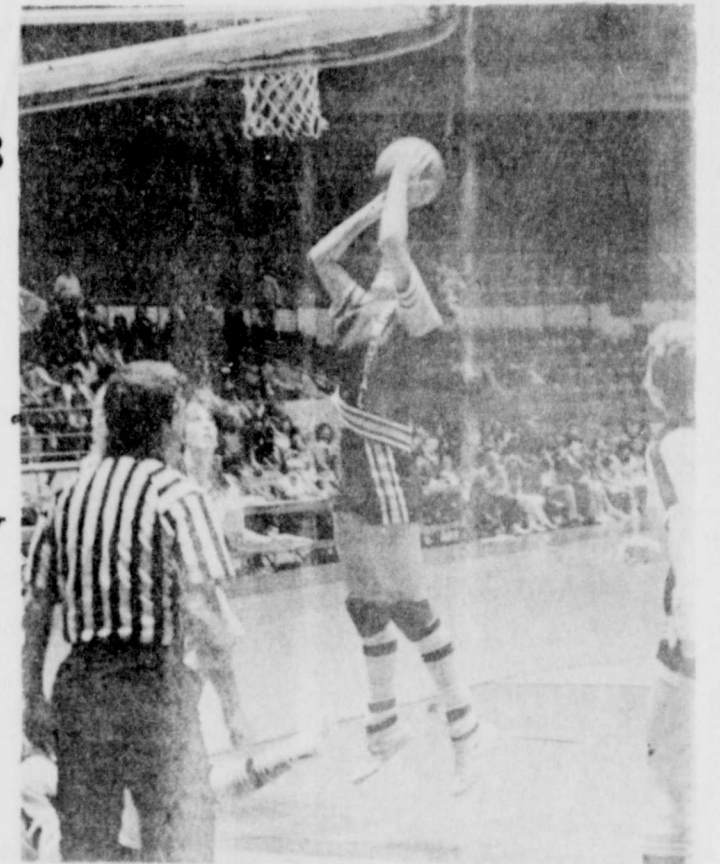

KRLB is a Lubbock radio station.

Bridal Shower

Tina Garland, bride elect of Rob Sanders, was honored at a miscellaneous bridal shower Sunday, February 22, in the New Deal Club House.

Special guests were Mrs. Bill Gartland, mother of the bride-elect, and Mrs. John Johnson, mother of the future bridegroom.

The couple plan to be married March 14 in the First Baptist Church of Shallowater.

ALL ALONE - Vickie Teal goes up for two as opponents look on. (Photo by Russell Crosby)

Princess Catherine Speaks Against Communism At Abernathy Schools

"You do not have to live with liberty lost," admonished Princess Catherine Karadia of Romania. Princess Catherine, guest speaker in Mrs. Sharon Kester's business classes in Abernathy High School, has made it her mission for the last 25 years to warn Americans

of the dangers of complacency in the face of the spreading cancer of communism.

"They are like bullies. They attack only if they think you are weak. They will not attack if they think you will fight. It is no coincidence that Breshnev

now wants a summit meeting. You are now on the right track. You must face up to them," she stated.

Princess Catherine escaped from Romania in 1952 after having endured communist oppression for eight years under Stalin and Nazi oppression for

four years under Hitler. The communists closed her vocational school in Romania for teaching indecent independence!

"When Americans were trying to find common ground, points of agreement, with the communists, they would broadcast your own words back to us and sneer 'see how weak and afraid they are, they are trying to butter us up,' but I know you, you are kind, not weak."

Although 88 years old, the princess is a positive, dynamic speaker who holds her audience's attention.

"You Americans have your freedom and you're taking it for granted. You somehow have the idea that by kissing evil, you can make it good, both in your domestic and foreign affairs. Wake up!" she warned.

The princess is a woman of action. During World War II when an American bomber crash-landed on her 1,000 acre estate, she rescued the crew and saved them from capture by the Germans. She helped 100 other surviving flyers in POW camps in Romania during 1943 and was instrumental in helping 1,000 others. She was awarded the Lafayette Freedom Award.

She spends about half the year traveling, taking the message of freedom and what it can mean everywhere she can, to schools, churches, clubs, and other organizations.

Students from several classes listened to her message each of the five times she spoke in the Gold Auditorium, Wednesday, February 25.

Princess Catherine

THESE WEBELOS - earned awards at the Blue Gold Banquet held last Thursday night honoring cub scouts on their 51st anniversary. Each member made the picture he is holding. They are: front row left to right, Timmy Rice, Rene Remos, Jeremy Knight and Chad Blalock. Back row left to right are: Jeffery Herman, Mark Heath, Kelly Vandygriff, Shane Gainer and Dustin Oxford. The March pack meeting will be the annual father-son cake bake and auction. Not pictured are Max Vandygriff, David Lopez, Kenny Casey and Jared Knight.

(Review Photo)

Girl Scout Week March 8-14

March 8-14 is Girl Scout Week, marking the founding of Girl Scouting on March 12, 1912.

Each of the 341 Girl Scout Councils in the United States will observe the week in accordance with the national theme, Girl Scouting

1980's Style," said Mrs. Nolen Swain, President of the Board of Directors, Caprock Girl Scout Council.

She further noted that Caprock Council would utilize the theme at the annual Reunion Luncheon, scheduled

March 6 at the service center in Lubbock; the Girl Scout Fair to be held at Fair Park Coliseum on March 7; and in all troop activities the following week. Adults and girls from the eighteen county area will take part in the events.

Mrs. Swain also announced, in connection with the birthday, the selection this past week of two Girl Scouts for national opportunities.

Mandy Stavlo, daughter of Mr. and Mrs. Danny Stavlo, and member of Senior Troop 132, was selected to attend "Upstate, Onstage," to be held in New York City. Fifty participants were chosen from a field of 250 applicants for the drama event.

Valerie Seymour, daughter of Glenys Bailey, Cadette Troop 2 will attend "Ho West We Go," a wider opportunity sponsored by GSUSA and

scheduled at the National Center West, Ten Sleep, Wyoming. Archaeology, horseback riding, geology, and photography will be emphasized.

The Reunion Luncheon will feature a program on Girl Scouting presented by Mrs. Craig McDonald, Dallas, and Mrs. Keith Strain, Mrs. John Mallory, and Mrs. James Burkeholder all of Lubbock. Mrs. W.C. Warren, also of Lubbock, will serve as hostess for the event. Reservations may be made through the service center, 2567 74th Street.

Scheduled 1-4:30 p.m., March 7, at the Fair Park Coliseum in Lubbock, the Girl Scout "Fair" will bring Girl Scout troops in the council together to share songs, folk games, folk arts, and contemporary program for the public. There is no charge for admission.

Accent On Health

Texas Department of Health Robert Bernstein, M.D., Commission

Look-alike drugs, the newest drug culture in Texas with both illegal and legal aspects, are drawing the attention of the Texas Department of Health and law enforcement officials.

At the heart of the problem are bogus drugs which come in either the pill form or capsules and contain caffeine and decongestants, according to Forrest Burnham, a food and drug inspector with the Texas Department of Health.

"One of the big dangers," says Burnham, "is the subjecting of young, immature people to environments that are entirely — or representative of being — other than legal. These youngsters are forming habits that might be irreversible, if they decide

to go into hard drugs. They may think this is the way to reach maturity."

Burnham, who wears a western hat and a mustache, and dresses in high fashion western suits, is as at home on horseback as he is in the big van he drives on assignments from his Austin headquarters.

He's seen the proliferation of the drug dealing in look-alike drugs around school campuses and side street storefronts.

Youngsters refer to the bogus drugs with terms reminiscent of hard drug traffic — words like legal speed, black mollies, yellow jackets, Christmas trees and Florida snow. "Snow" is the street name for cocaine.

The capsules and pills contain caffeine and decongestants, some of the same ingredients you find in over-the-counter drugs. "But," said Burnham, "I'm not sure that any of the products you buy in a store have the same chemicals in the proportion

we are finding in the look-alike drugs."

Colors and shapes of the capsules and pills are designed to resemble drugs, such as amphetamines.

Unfortunately, says Burnham, these look-alike drugs, when used excessively, and for a period of time, can cause headaches, nausea and insomnia. Withdrawal problems can occur after long usage.

Burnham feels that kids who buy these look-alike drugs would purchase narcotics if they were so easily available. "As it is," he says, "the kids put them in their pockets and go to school where they show them around to their friends. They think it's something special." To Burnham, it's only a short step to hard drugs.

If dealers go unchallenged, they could very easily move into trafficking in hard drugs, he says. Burnham, in cooperation with law enforcement officers,

says the trail of the look-alike drugs begins with a distributor who purchases them from a pharmaceutical house. "The dealers advertise them by passing out business cards with a description of the products on them. They'll have telephone numbers listed on the cards and sell you the products with no questions asked." They may call the products alertness pills or stimulant capsules.

Burnham says there is more than one middleman in the bogus drug chain, and profit is made throughout the chain — from manufacturer to user. While the dealer may buy the products for \$100 to \$120 a thousand, they'll make their profit by selling them at \$40 to \$50 a hundred. The larger lots are broken down into smaller packets — usually zip-lock plastic bags — with no labeling which may contain as many as six different capsules or tablets and sell for up to fifty cents or more a piece.

This is where the Food and Drug Division comes in. Although the properly-labeled lots of pills and capsules may be legal, once they are broken down into small, unlabeled lots, they come under the "misbranded adulterated provisions of the Texas Food, Drug and Cosmetic Act, which is a misdemeanor. Sometimes, in the sale of large quantities, labels are scraped off the original containers, rendering them unlabeled.

Armed with his small weapon, Burnham has worked closely with law enforcement officers to put a detour into the trafficking of the products. "Often a local law enforcement officer, working undercover, will

The Annual Stock Show Is Coming

MARCH March 9th & 10th

ABERNATHY WEEKLY REVIEW

"Telling The World About Abernathy Since 1921"

President Reagan Deregulates Oil Industry.....

STRIKE IT RICH

YOUR CHANCES ARE BETTER THAN EVER.

More local residents are filing the the Bureau of Land Management Oil and Gas Lease Drawing. To qualify for this drawing you need only be an adult and an American Citizen.

A little known Federal law (the 1920 Mineral Leasing Act) makes it possible for you to compete equally with Exxon, Gulf, Texaco and other giants of the oil industry, because under the law a company or individual may submit **only one application** to lease per parcel.

The oil and gas regulations are complex and this letter offers only a thumb-nail sketch of the various ways to obtain a federal lease. The complete regulations are contained in the Code of Federal Regulations, Title 43, Part 3100. This book may be found in most public libraries.

The simultaneous oil and gas leasing system is administered by the Department of the Interior's Bureau of Land Management. On the 1st business day of January, March, May, July, September and November the BLM posts a list of lands within its jurisdiction that are available for leasing. Applications are accepted until the close of business on the 15th working day after the list is posted. If more than one application is received for a given tract, a drawing is held to decide who will get the lease. Three application cards are drawn for each parcel, and the order in which they are drawn fixes their order of priority.

NOTE: No assignment of a lease may be filed before the lease is issued by BLM. No agreement to assign a lease may be made before the lease is issued, or before 60 days after the drawing, whichever is sooner. Any assignment entered into as a result of an agreement which violates these restrictions will be disapproved by BLM. These restrictions are intended to allow all interested parties an equal opportunity to negotiate for the lease and to protect applicants from being unduly influenced to enter into agreements to make transfers not in their best interest.

If you the successful applicant, you are given 30 days to pay the first year's rental after you receive official notice. Upon payment the BLM will issue the lease. Currently the rental rate is \$1.00 per acre per year.

MOST IMPORTANT FACTS TO CONSIDER

1. We urge you to be cautious! You should consider the speculative nature of your investment in time, effort and money before filing an application. Oil Service performs a number of services as your agent for a fee. Oil Service is not an authorized agent of the BLM or Government. It is not necessary to patronize our service to apply for an oil and gas lease.
2. Most winners in the BLM drawings will tell you, "To win you need to be consistent in your filings..." While a few people have won a lease on their first time to file - most of us aren't that lucky. Decide the number of applications you want filed each period, then stay with it!! Your chances to win will be greatly improved.

Oil Service will select for you a parcel we believe to be the most desirable at \$20.00 per parcel (which includes the \$10.00 filing fee). The lease is 100% yours. Oil Service nor anyone associated with them does not have any interest of any kind in any lease you win as a result of our service. It is our continued desire that you consider using our service in the sale of your lease, and we will assist you in gaining financing of your lease payment, if required. After your application has been sent to BLM, we will send you a card telling you the State, Parcel Number, Description, Acres and estimated value of your filing.

March 10 is the last day Oil Service will accept application for the March filing period. All applications received after this date will be filed in the May filing period.

.....Clip and Mail.....
OIL SERVICE
 P.O. Box 1983
 Plainview, Texas 79072

Please enter my name in the earliest possible BLM drawing for.....parcels.

News and Comments by Buford Davenport

Abernathy Chapter No. 877 of the Eastern Star will have a meeting at 7:30 p.m. Thursday, March 5. "Texas Public Schools Week" observance is scheduled.

My thanks to former Abernathian Mrs. R.N. Pitts of 6937 Pollen Way, Citrus Heights, Calif. 95610, telephone 916-725-9281, for sending us several copies of The Abernathy Weekly Review published in 1927. She is the former Mary Ann Perkey Hurst, whose late parents, Mr. and Mrs. J.C. Hurst, were owners and publishers of The Abernathy Weekly Review starting in 1927.

If my questionable memory is correct, Jack and Agnes Hurst came to Abernathy in 1927, from the Marfa-Alpine area of Texas. Mary Ann's husband, R.N. Pitts, is a former Idalou resident.

In the 1927 papers that Perkey sent, there is a clue in the October 6 issue concerning the current-day intense athletic rivalry between the AHS Antelopes and the Hale Center Owls. The headline says "Abernathy Loses to Hale Center in First Football Game of the Season - Score 68-0".

Here are some interesting news accounts in the May 6, 1927, Review: "Abernathy to Represent Hawaii in Congress of Nations Pageant" in Wichita Falls convention of the West Texas Chamber of Commerce. Other headlines and quotes from that paper: "Clean-Up Day Works Wonders, Dallas Boosters' Special Train Stops in Abernathy, High Winds of Week End - Spoil Band Concert, Plans for Co-operative Gin Are Discussed At Meeting, King-Downs Wedding, Bids for School Are Advertised for North - Auditorium - and south - high school classrooms - wings to the original two-story red brick school building, Andrew Reid and Erzell Givens left Sunday for El Paso to attend the State Bankers convention, A.T. Johnston and family were in Lubbock Tuesday on business.

Community news columns in The Review were from

lowa Avenue (the Cone elevator and Cotton Roll Gin are in the area that was Iowa Avenue community), Science Hill northwest of Abernathy, Eagles Springs school was across FM 54 south of the Harold Thomas home), Petersburg, Lakeview and Bartonville.

Advertisements included: Stambaugh & Company, Gents Furnishings, W.H. Seale & Son Dry Goods, H.E. Bichter Insurance, First State Bank, Pinson Pharmacy, Struve Mercantile Hardware, Dry Goods and Groceries, R.M. Hardesty Hardware, Ralston Auto Co. advertising automobile tires for \$5.95 and up. The Tech Cafe, Gus Kallas, Proprietor, Lubbock, Lubbock Sanitarium.

The plant seed 90 cents per bushel; lost or strayed old gray mule and bay saddle horse from place near Anton. More from the old papers later.

Kelly Tooker On Dean's List

Kelley Tooker made the Dean's List for the fall semester at Texas Tech University. Tooker is a fourth year Electrical Engineer student. He is the son of Mr. and Mrs. Wendell Tooker.

Chamber of Commerce Needs Your Input

The Abernathy Chamber of Commerce would like to have the help of the Abernathy community with suggestions of names for the "Farm Family of the Year" and "The Citizen of the Year" Awards, that will be announced at the annual Chamber banquet to be held in April.

If you know of a family or person you feel is due such honors please send their names to Chris Waters, the Chamber secretary, with information about why you think these people should receive an award.

Mail it to Chris Waters, 907 6th St., Abernathy, Texas.

STEP Sessions Offered Abernathy Parents

Learning more effective ways of relating to your children takes courage, practice, and patience...the COURAGE to be open to, and accept, new ideas and attitudes...PRACTICE in applying the principles and techniques at home with your own family...PATIENCE for the time it takes to discourage your children's unacceptable misbehavior patterns. But anything of real value takes time.

Take the first step now! Become a participant in our systematic learning or Effective Parenting!

Boys Jr. Basketball Begins March 9

Jr. Basketball Boys Jr. Basketball play begins March 9. The playing schedule for Boys Junior Basketball is as follows:

Monday, March 9 - 7:30 Devils vs. Rangers and at 8:30 Bombers vs. Green Machines
Tuesday, March 10 - 7:30 Rangers vs. Lakers and at 8:30 Globe Trotters vs. Green Machines.
Thursday, March 12 - 6:30 Tigers vs. Devils, at 7:30 Bombers vs. Green Machines, and at 8:30 Globe Trotters vs. Super Stars.

Friday, March 13 - 6:30 Lakers vs. Tigers, at 7:30 Devils vs. Rangers, and at 8:30 AAA Bombers vs. Super Stars.
Saturday, March 14 - 1:00 Lakers vs. Devils at 2:00

STEP participants are helped toward realizing the goal parents want most: to raise responsible children who will grow into responsible men and women, capable of living meaningful, happy adult lives.

The Abernathy School is offering a course for effective parenting (STEP) to all interested parents. These sessions will be offered on Tuesday nights at 7:00 p.m. March 10, and continuing through March 24. Classes will meet in the high school academic center.

Tigers vs. Rangers, at 3:00 Super Stars vs. Green Machines, and at 4:00 Globe Trotters vs. Bombers.

Sign up date for Girls Junior Basketball will be Wednesday March 25 and the draft will be Saturday morning March 28.

Anyone interested in coaching a girls team should contact Marsha Sanders at 298-2155. The first ones to ask will be given a team.

Talk Of The Town

Mr. and Mrs. Bill Caffey and son Michael of Sidney were here last Friday and Saturday. They attended the Abernathy-Comanche basketball game in Lubbock. Their daughter Shana is a member of the Comanche team.

They spent the night in the home of the Richard Havens family. The Caffey's are former teachers in Abernathy. Steven Wall accompanied the Caffey's. He is a brother of Mrs. Melinda Megna of Abernathy. He spent the night in the Megna home.

4-Her's Creative With Wood

For Trent Woods, a 17-year-old Nashville, Tenn. high school senior, crating wood items comes naturally. Among his achievements are a glass-topped entomology curio cabinet with four slide-out cases and a large wall-sized bookcase with a lower cabinet made of rough-sawn poplar, both from original designs.

"I must have been born with a little sawdust in my blood, because my father, brother and grandfather are all woodworking craftsmen," says Woods. He has crafted more than 300 wood items, most as a participant in the 4-H wood science program, conducted by the Cooperative Extension Service and supported by Weyerhaeuser Company Foundation. He was one of six national winners in the program last year.

As part of his desire to preserve family heritage, the youth reconstructed and refinished an antique typeset drawer as a present to his parents, Mr. and Mrs. Paul Woods. He also stripped and refinished 13 pieces of furniture, and used his woodworking skills to help build a garage and a 26x30-foot woodworking shop with a complete second floor.

4-H members in the wood science program work on a wide variety of creative projects. They tackle such learn-by-doing projects as building bird and dog houses, making attractive gifts from scraps of wood, remodeling homes and businesses and making lumber from hardwoods grown on the family farm.

Members develop skills in the selection and appropriate use of various types of wood and wood products; explore career opportunities

associated with the manufacture and utilization of forest products; and develop an awareness of the business and economics of the forest products industry.

Awards, donated by Weyerhaeuser and arranged by National 4-H Council, are presented to members who excel in the program. Medals of honor are given to 4 members in each county; and one 4-H'er from each state earns an expense-paid trip to the 59th National 4-H Congress, in Chicago, Ill., Nov. 30-Dec. 4, where 6 national winners each will receive \$1,000 scholarships. Boys and girls can obtain more information on 4-H programs from their County Extension Office, 293-8481, Lubbock.

Cotton Today The Senate Agriculture Committee has announced that hearings on the 1981 farm bill will begin March 2 and run through March 25. A sub-committee chaired by Senator Thad Cochran (R-Miss.) will hold hearings March 2 on the cotton program. The National Cotton Council is scheduled to testify. All cotton organizations interested in testifying should contact Mrs. Denise Alexander, Hearing Clerk, Senate Agriculture Committee, 322 Russell Senate Office Building, Washington, D.C. 20510 (Telephone: 902-224-0014).

Meanwhile, House Agriculture Committee Chairman Kika de la Garza (D-Texas) says he expects House hearings on the bill to begin as early as the first week in March.

Two high-ranking priorities cited by de la Garza include research and exports. He said research continues to lay the groundwork for solving agricultural problems. Growing world population creates a need for greater food supplies, compounded by increasing standards of living that accelerate food need abroad, de la Garza said.

BALE COMMITTEE TO MEET: The Joint Cotton Industry Bale Packaging Committee will meet March 3-4 in Galveston, Texas. In addition to reviewing developments in overall packaging programs, the committee will tour port warehouses and other shipping facilities at Galveston.

Abernathy Native At Plainview

Dr. Lester B. Griffin assumed pastoral duties at Date Street Baptist Church, Plainview, Jan. 5. Before coming to Plainview he served churches in Peaster and Fort Worth.

A native Texan, he lived in Abernathy five years while his father, Joe R. Griffin, was pastor of Abernathy

First Baptist Church. Griffin graduated from high school in Weatherford and attended Weatherford Junior College. He also attended the University of Texas in Austin and Southwestern Baptist Theological Seminary in Fort Worth, where he received his Master of Divinity degree

and a Doctor of Ministry degree. Griffin and his wife, the former Betty Tow of Abernathy, have two children, Emily, 8, and Nathan, 4. They reside at 2803 W. 20th.

If ye love me keep my commandments.

Editor's note: The Lakeview Philosopher on his Johnson grass farm thinks he has an idea for farmers this week.

Dear editor: A lot of farmers are looking toward Washington these days wondering what sort of farm program the new administration will have. There may be a better place to look. It's the telephone company.

Here's why. The Bell Telephone Company made over six billion dollars profit last year, the highest in history of any American company, even after deducting the 20 cents it lost from me when one of its pay phones malfunctioned. I was calling to see what cotton was selling for.

Why then, you may ask, is the phone company with all that profit always asking for another rate increase?

It's simple. Regardless of the overall profit, the policy seems to be that every town with a telephone exchange ought to stand on its own feet and show a fair return on the investment there. So if a town isn't talking enough, if its grandparents are failing to call their grandkids long distance, then the phone

company has to raise the rates there. Seems fair enough.

And that's where farmers come in. Every farm of average size always has some land that's not as productive as the rest. So to get a fair return on every acre of his investment, a farmer ought to charge more for what the sorrier land produces.

"I'm sorry," he could tell a buyer when his crop is ready to sell, "but this portion came from marginal land and you'll have to pay me more for it. Me and the telephone company are entitled to a fair return on investment for every acre or telephone."

It might be argued that where the phone company befuddles us is in not figuring in long distance calls when it calculates its rate of return in any given town. That won't interfere with this new farm proposal. After all, isn't most of the stuff farmers raise shipped a long distance?

I don't see anything wrong with this new plan. After all, food for human beings is near about as important as talking on the telephone.

Yours faithfully, J. A.

Outstanding Students Listed
Kevin Galloway, sixth grade; Melissa Johnson, seventh grade; and Lupe Mejorado, eighth grade are

Citizens of the Month for January in junior high.

Students are nominated by a committee from the student council and voted on by a committee of teachers.

One-Act Play Practice Underway

Antelope Outlook

One Act Play tryouts were held January 26 and January 29.

Those making the one act play cast were Ruben Garcia, David Myatt, Mark Eddell, Darrick Stallings, Keith Robertson, Bilinda Scott, Angie Attebury, Darla McGuire, Carrie Smyers, Jill Blalock, Jorene Hobgood,

Leah Skipper, Melissa Hagstrom, Kelly Thompson, Cindy Stillwell, Connye Wolf, Rhonda Royal, Roger Gragg, Jane Sanderson, Stacey Mills, Lisa Garza, Lori Havens, Kelly DuBose, Jana Presley, and Susan Stone.

The name of the play is stages. It will be presented April 2, in Idalou in district competition.

T. Cullen Davis Addresses Meeting

Antelope Outlook

Mrs. Sharon Kester's business law and accounting class heard T. Cullen Davis while attending the Lubbock Christian Businessmen's luncheon. Davis, a multi-millionaire from Fort Worth, Texas, who professes to be a born-again Christian, spoke on the rising tide of humanism which he opposes. He pledged to "devote

time, money, and energy to the things of the Lord."

"It was very educational. I agreed with some of the things he said, but I also disagreed with some other things he had to say. He had some pertinent things to say about education in general; however, they were not applicable to our school," said Mrs. Kester.

The luncheon was Thursday, February 12.

Lakeview Locals

By Mrs. Norman Matthews (Reporter For Lakeview News Since 1945)

Mr. and Mrs. Quinton Colwell of Lubbock attended services at Lakeview Church Wednesday night, February 18. Quinton was the featured speaker for the service.

Mr. and Mrs. Gene Collins and Mrs. Elinor Collins were in Abilene last week to visit sister-in-law and daughter-in-law, Mrs. Boyce Lynn who is critically ill in the hospital there.

Dr. Glenn Harrison and Johnny of Plainview were dinner guests in the home of Mrs. S. M. Harrison, Sunday.

Mr. and Mrs. Clayton Enger visited her parents, Mr. and Mrs. O. L. Howard in Lubbock, Sunday.

Mrs. E. G. Mahagan visited her grandson and family, Mr. and Mrs. Roger Mahagan in Hale Center Sunday and Mr. and Mrs. J. E. Fawver at Happy Union, Monday.

Mr. and Mrs. H. L.

McGough of Plainview and Mr. and Mrs. Glen Curtis of Petersburg were guests in the home of Mr. and Mrs. Glen Amonett, Sunday.

Mr. and Mrs. J. D. Adams made a business trip to Abilene during the weekend.

Kyle Thomas of Lubbock spent Thursday and Friday with his grandparents, Mr. and Mrs. Glen Amonett.

A-1 LIQUIDATORS & SUPPLY

SAVE \$14.00 OUT OF EVERY \$50

By Shopping In Abernathy

Did you ever drive 60 miles or more to take advantage of a super special? An item that costs you \$50 locally would have to save you \$14.40 if you drove 60 miles round-trip to get it and just wanted to break even.

The American Automobile Association certifies that 24.0 cents is what it costs to drive your car one mile. That sweet buy can suddenly turn quite sour.

And each 60 miles takes 3 to 6 gallons of gasoline which the potential shortage of oil-derived fuels would encourage us to save.

Local merchants, whether they sell groceries, clothing, drugs, hardware, appliances or whatever, feature top line nationally advertised products at competitive prices. These same merchants support your schools, churches and civic groups. They help us all pay for the improvements that make this a better place to live.

So save yourself some money, help fight the energy crisis and support local merchants. And save the drive to faraway communities. Shopping at home is a wonderfully simple way to do yourself several favors at once.

Pioneer Oil And Gas Reserves

AMARILLO, Texas - Pioneer Corporation (NYSE) announced today that it will file a Form 10-K with the Securities and Exchange Commission which includes summary information on the company's oil and gas reserves at the end of 1980.

The report estimates the proved developed and undeveloped gas reserves at 198.2 billion cubic feet at the end of 1980, up from 184 billion cubic feet at the end of 1979. Proved developed reserves were 196.5 billion cubic feet for 1980, compared with 183.8 billion cubic feet for 1979.

Proved developed and undeveloped oil reserves at the end of 1980 were estimated at 4,014,000 barrels, compared with 4,376,000 barrels in 1979. Proved developed oil reserves were 3,980,000 for 1980 and 4,375,000 for 1979.

The present value of estimated future net revenues from all proved oil and gas reserves will be reported as \$347.8 million, compared with \$259.5 million at the end of 1979. As required by the

SEC, present value amounts were determined by applying a 10 percent discount factor. Future net revenues were computed by applying year-end priced without escalation except for fixed and determinable increases in prices that are permitted under the SEC regulations, although most sales contracts provide for price changes based on economic conditions, governmental regulations and the like. The company is therefore of the opinion that the future revenues are substantially understated.

Estimates in the report are based on data prepared by Miller and Euts, Ltd., an independent consulting firm.

Pioneer also announced that two of its subsidiaries have gas purchase and gas processing contracts from which 43,400,000 barrels of liquid petroleum gases are projected to be recovered at existing extraction plants during the contract terms. About 2,300,000 barrels of that amount will come from gas included in the reported reserves.

The present value of estimated future net revenues from the liquid petroleum gases and the sale of residue gas not included in the reported reserves is \$304.4 million.

4-H Chemical Auction A Success

Hale County 4-H Clubs and Mr. Denver Ford of Riverside Chemical Company co-sponsored the 4-H Chemical Auction on Thursday, February 19, 1981 at the Hale County Agriculture Center, with all proceeds going to the Hale County AG and Home Economics Funds. Tanya Tyler, Chairman of the Hale County 4-H Council from Hale Center gave the welcome. Donna Stout of Hale Center and Jim Bob Carver of Abernathy led the American Pledge and the 4-H Motto and Pledge.

Representatives from area chemical companies attending the auction were Mr. Don

Pope, representing EMC; Mr. Don Jackson representing Monsanto; Bob Fische representing Mobay; Glenn Watts representing Dow; and Denver Ford representing Riverside.

Also auctioned off were products from Delta and Pine Land Company Seed, Paymaster and DeKalb.

A substantial amount was raised for use in Hale County 4-H Club project work. 4-H members and their families appreciate the opportunity provided by Mr. Denver Ford of Riverside Chemical Company and the other companies represented. Special thanks also go to Mr.

CP Smith of Hale Center for auctioning off the chemicals and seed.

Reference to commercial products or trade names is made with the understanding that no discrimination is intended and no endorsement by the Texas Agricultural Extension Service of the Texas A&M University system is implied. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

Church of the Nazarene; Rev. Lester Anderson, Linda Salazar, Vickie Salazar, and Dolores Estarza from the Nazarene Mission; Rev. Tommie Peck, Hoppy Toler, Richard DuFosse, and Ruth Fulton from the First United Methodist Church; and J.B. Lester from Bethel Baptist Church.

Ten other committees are responsible for arrangements, counseling, finance, music, nursery, outreach, prayer, publicity, parking, youth, and all the logistics involved in holding a big event. Their work will be reported later.

The Abernathy for Christ Crusade steering committee met Sunday night to set up a budget for the crusade. The budget was approved for \$5,100. It was broken down into various committee expenses.

The Youth Committee will be allotted \$200. Arrangement Committee \$800, Music Committee \$1500, Prayer Committee \$50, Nursery Committee \$75, Counseling and Follow-Through Committee \$165, Ushers and Parking Committee \$25, Outreach and Attendance Committee \$65, Crusade Office Committee \$588.50, Steering Committee \$880, and the Publicity Committee \$750.45.

The people already involved look forward to the summer crusade and hope the entire community will be equally enthusiastic.

We Believe In The Future Of Farming And Ranching

The Future Farmers of America and the 4-H clubs are learning more about farming and ranching... in the classrooms and on the farm. Thus they are becoming more proficient in farming and the future of farming is in safe hands... for only through a strong agriculture can this nation hope to survive.

Local Churches Plan Summer City-Wide Crusade

Representatives of most Abernathy churches met in committees last week to plan a series of evangelistic services this summer for the whole community. David Ray, former pastor of Lubbock's First Baptist Church, has already agreed to be the speaker. The name chosen for the project, to take place June 21-26, is Abernathy For Christ Crusade.

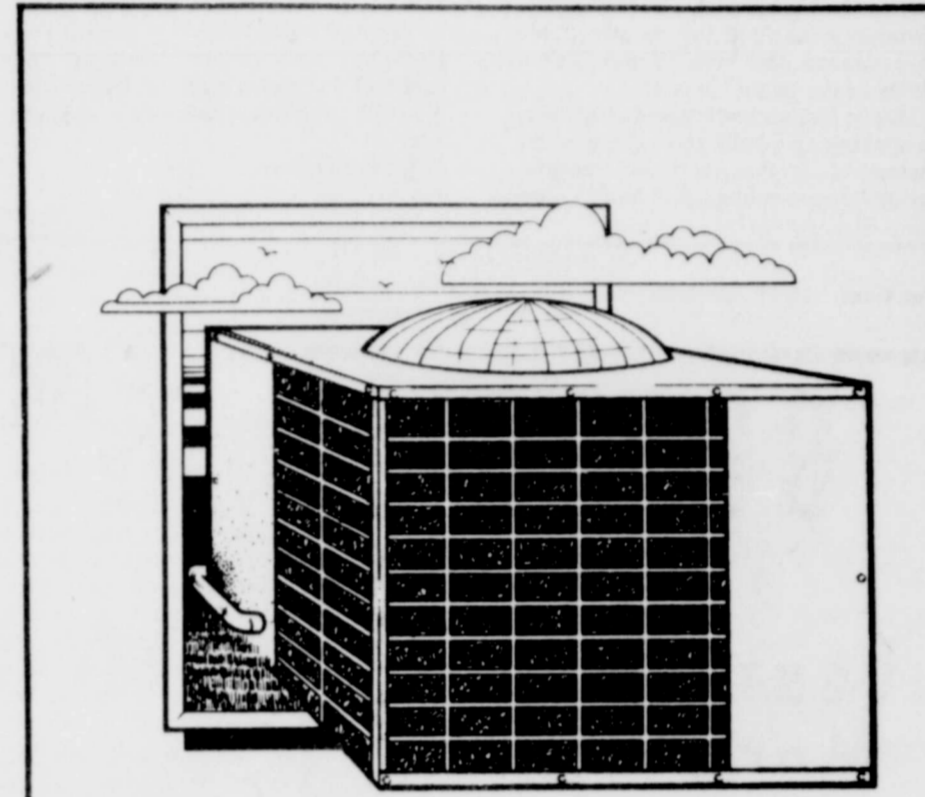

The project was initiated by Abernathy's Ministers' Association, a fellowship of local church pastors. The group meets regularly to assist each other in leading their churches to fill the spiritual needs of the town.

Lloyd E. Riddles, pastor of Abernathy First Baptist Church, is general chairman of the project. Vice-chairmen are Roswell Brunner, pastor of Abernathy's Church of the Nazarene and W.G. Spruiell, a member of

that church. Shirley Riddles of the First Baptist Church is secretary and Hoppy Toler of the First United Methodist Church, is treasurer.

A steering committee composed of several members of each participating church are working with Riddles to make general plans for the crusade.

The committee includes Rev. Riddles, Shirley Riddles, Don Moore, and Jim Bob Smith from the First Baptist Church; Rev. Jose Rodriguez, Joel Perez, Carlos Martinez, and Rudy Baldramios from the First Baptist Mission; Rev. Benay Rice, A.D. Helms, Earl Routh, and E.G. (Buddy) Tilley from the Assembly of God Church; Rev. Ken Horne, Carl Kelley, Jerry Sanders, and Cecil Murphy from Northside Baptist Church; Rev. Brunner, W.G. Spruiell, E.C. Patterson, Jr., and Arlis Paxton from the

Lakeview Philosopher Can't Get A Couple Of Statements By Iran Leader Out Of His Mind

Editor's note: The Lakeview Philosopher on his Johnson grass farm makes a few final remarks on the hostage ordeal this week.

Dear editor:
I guess about everything that can be said has been said about Iran and the freed hostages, but a couple of remarks by an Iranian leader have stuck in my mind.

When I say leader I mean whoever claimed to be the leader that week, because not only did Washington not know who was in charge from one week to the next, neither did the Iranians.

Anyway, the leader bragged about defying the United States by holding the hostages a year and two months. "We have rubbed the nose of the United States in the dust," he said.

This is like an underworld character, on sticking up a bank and holding some customers in the vault for ransom, saying "I sure rubbed that bank's nose

in the dust."

The other remark by a leader, following the release of the Americans, was "There is no proof that we mistreated them."

I believe something must have been lost in the translation. If somebody locked me up for a week, not to mention a year and two months, I'd sure calculate I'd been mistreated.

With such mysterious thinking as that, I won't be surprised if Iran sends us a bill for food and lodging for the hostages, wear and tear on their handcuffs, damage to boots used in kicking shinbones, replacements for blindfolds, time lost from work while demonstrating before TV cameras, and janitorial costs for sweeping up the ashes of burned American flags. The bill will probably come with postage due.

Yours faithfully,
J.A.

Representative Laney Hale County Elderly Named on Committees To Be Interviewed

State Rep. James E. (Pete) Laney (D) of Hale County has been named chairman of the House Administration Committee and chairman for budget and oversight of the Natural Resources Committee by Speaker Bill Clayton. Laney will also serve on the Agriculture and Livestock Committee.

Clayton said Rep. Laney would serve in these capacities during the next two years of the 67th Legislature.

Rep. Laney, a farmer by profession, is serving his 5th term in the House. Last session, he served on the Criminal Jurisprudence and Government Organization Committees and was chairman of the House Administration Committee.

Primarily procedural in nature, the House Administration Committee is composed of seven members with jurisdiction over administrative operation of the

House and its employees, the general house fund, and all property, equipment, and supplies obtained by the House for its use and the use of its members. Other responsibilities of this standing committee include the assigning of vacant office space, vacant parking spaces, and vacant desks on the house floor, and the monitoring of all admissions to the floor during sessions of the House.

The Natural Resources Committee, composed of 11 members, has jurisdiction over all matters pertaining to the conservation of the natural resources of Texas, the control and development of land and water and their resources, and the development and preservation of forests, including the regulation, control, and promotion of the lumber industry. Other areas of jurisdiction for this committee include the creation, modification,

and regulation of water supply districts, water control and improvement districts, conservation and reclamation districts, and all similar organs of local government dealing with water and water supply.

The eleven-member Agriculture and Livestock Committee has jurisdiction over all matters pertaining to agriculture, horticulture and farm husbandry and the livestock industry, including livestock and stock raising. The committee also has jurisdiction over matters involving the Texas Department of Agriculture, the Animal Health Commission and the Soil and Water Conservation Board.

Never leave a key under the doormat or hidden anywhere else outside.

Approximately 500 rural older adults living in Hale and Dickens counties will be randomly selected for an interview that will examine the characteristics and needs of elderly people, age 65 and older. Dr. Jean Pearson Scott, Department of Home and Family Life of Texas Tech University, will direct the study.

Local persons have been trained to administer the interviews that will be conducted beginning in March. Topics covered in the interview will include food habits, family relationships, consumer practices, and housing characteristics.

Dr. Scott received a research grant from the NRTA-AARP Andrus Foundation and Texas Tech University for the project.

Scott said the diversity of characteristics among older rural adults needs to be given important considera-

tion, especially in planning services and programs. "Many studies are too outdated to be useful in designing programs or guiding policies for the 80's," said Scott. The results of the study will provide up-to-date information for use by home economists, area service providers, researchers, and other professionals working with the elderly.

WORD OF GOD

Old Testament

I will be his father, and he shall be my son. If he commit iniquity, I will chasten him with the rod of men, and with the stripes of the children of men:

II Samuel 7:14

"Who likes not his business, his business likes not him."

Patton's Parts Place

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Loan discounts for grade and staple and micronaire are calculated by averaging the previous year's loan program discount for each quality with the five-month August-December average spot market discount on that quality for the previous year.

For 1981, USDA lists the possibilities as (1) giving the 1980 loan discount five times as much weight as the August-December spot quotes in computing the average (5-1), (2) giving the 1980 loan discount three times as much weight as spot quotes (3-1), or (3) giving loan discounts and spot market discounts equal weight in the computation (1-1).

To illustrate the gravity of what these possibilities portend, PCG has prepared the table below showing the effect each would have on the discount applicable to common High Plains cotton qualities in the 1981 loan schedule.

Of the three procedures USDA is considering for establishing quality differentials in the 1981 loan schedule, one would substantially reduce the loan value of High Plains qualities, one would cause a severe drop in loan values, and the effect of the third would be "unthinkably drastic."

This was the conclusion of Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., after PCG figured the grade and staple and micronaire discounts that would result from each of the three options printed in the February 4 Federal Register.

"Obviously none of these options will be acceptable to cotton producers in this area," Johnson says, "and we will be meeting with the USDA officials responsible for such decisions as soon as possible after they have been named and take office."

Parents, Youth Form Partners In 4-H

Parents interested in forming a partnership with their youngsters can do so in the 4-H program.

4-H is a program for youth between the ages of 9 and 19 and is administered by the Texas Agricultural Extension Service, Texas A&M University System.

Through 4-H, parents get involved with their youngsters by helping them with one or more of over 100 projects. By getting involved with the projects, parents help their youngsters learn basic skills and information and help them to fulfill an obligation. The "partners" then build on these successes in areas of project work, leadership, community service and many other character-building experiences.

By spending time with their sons and daughters in 4-H, parents can overcome the problems commonly referred to today as the "communication gap" or "generation gap". 4-H projects serve

as a beginning to start the parent-youth partnership, and the relationship can grow through mutual understanding and trust between parent and child.

Parents and 4-H'ers together learn to share the excitement of competition, the joys of winning and the disappointment of losing and to jointly work out solutions to problems as they arise.

Contact the county Extension Office (293-8481 Ext. 271) to learn more about the 4-H program and how it can develop close family ties through working partnerships. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or national origin.

An Austrian scientist has developed a new type of blood pump which performs normal functions of the heart.

After a heart failure, medication often is not able to restart the heart. Professor Navratil's mechanical pump can maintain blood circulation, enabling the heart to rest and heal completely.

So far, the device has been used successfully only in experiments with calves. The laboratory animals have lived for up to eight weeks while the device performed the functions of the heart.

Professor Navratil is working with membrane pumps which, he believes, could lead to development of a functioning artificial heart.

SBA Loans Until April 13

The deadline for farmers and ranchers to file physical crop loss disaster loan applications under the Small Business Administration (SBA) declaration # 1900 is April 13, 1981. Businesses have until July 13, 1981 to apply for Economic Injury Disaster Loans. This declaration covers the drought and extreme heat conditions during the 1980 crop produc-

tion season. If a Farmers Home Administration (FmHA) borrower suffers a disaster loss, it is suggested the borrower apply first with FmHA. An applicant cannot receive the total amount of his eligibility from both FmHA and SBA for the same disaster loss to his crops. Under SBA guidelines, should an applicant not receive his full eligibility

from FmHA, he could apply with SBA for the difference provided his application is received by the April 13, 1981 deadline.

For applications to be accepted, they must be received by the close of business or postmarked before midnight of the deadline date.

Wayne Fowler Agronomic Education Director, DEKALB AgResearch, Inc.

Choosing Corn Hybrids For Reduced Tillage Farming

As the public and farmers become increasingly concerned about the loss of farmland, the methods of farming are changing. Each year prime agricultural land is lost forever due to new highways, shopping centers, factories and homes. Some state, county and local governments are beginning to react to this disturbing trend by adopting laws to make it much more difficult to convert prime agricultural land to other uses.

In addition to the losses described above, farmers are spending even more time and money to prevent the loss of irreplaceable land due to wind and water erosion. During the past three years, many farmers in the traditional fall plowing regions of the country have switched to various methods of reduced tillage on corn ground. And, as the equip-

ment for reduced and no-till farming becomes more sophisticated, you will undoubtedly see more reduced tillage in the future. (Iowa presently has 43% of its cropland in some type of reduced tillage system.)

When selecting hybrids for reduced tillage or no-till systems, there are some points to consider:

1. Excellent seedling vigor: especially in continuous corn, heavy crop residues, and heavy or poorly drained soils. Fast emergence reduces the potential of insects, rodents, birds and seedling disease reducing the percent emerged.

2. Disease and insect resistance: the crop residue offers some degree of increased disease and insect problems. Northern and southern corn leaf blight and anthracnose are probably the most important. In northern areas, eyespot and yellow leaf blight might be seen. European corn borer, com-

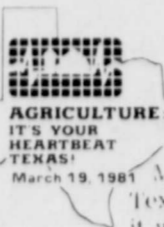

mon stalk borer and grasshoppers are insects to stay alert for as they overwinter in crop and weed residue.

3. Rapid plant growth: allows the plants to get above the residue and absorb more sunlight at the critical stage when potential ear-size is determined - approximately 35 days after emergence.

4. High yields: No matter what criteria are used to select hybrids, the one which pays the bills is yield. I'm seeing more and more no-till plot reports from farmers, state yield trials and county extension agents. Therefore, it is becoming less difficult to obtain performance data on hybrids.

If no-till, or reduced tillage, is in your plans for the future, be prepared to learn all that you can before you employ this system. It can work if you take the time to do it right.

March 19, Texas Agriculture Day

March 19, 1981 will be Texas Agriculture Day. And it will be part of a national celebration in the country.

Agriculture Day in America had its beginnings several years ago to celebrate the fact that American agriculture is the most efficient in the world, having tripled its productivity in the past two decades. For several years now, the Agriculture Council of America has tried to stimulate state observances of Agriculture Day each spring with agribusiness being the main supporters. This year, the Council has

requested state departments of agriculture to coordinate planning and attempt to rally more support for the day. And this year's theme, "Agriculture - It's Your Heartbeat", has been adapted to read - "Agriculture - It's Your Heartbeat Texas!"

The Texas Department of Agriculture is encouraging activities on March 19 and throughout the month. The Department will also disseminate information and promotional materials to public service groups or organizations to help promote the day.

Cliff Ward On LCC Football Team

Cliff Ward is among 47 footballers who are attending Lubbock Christian College this spring semester.

Ward is a 1980 graduate of Abernathy High School and is a linchbacker. He is the son of Mr. and Mrs. Lon Ward of 2010 Rice in Levelland.

New head football coach Don Cartee, a Friona Texas native, has been hitting the

recruiting trails hard in an effort to upgrade LCC's grid team, which competes with the likes of Trinity University, Austin College, Tarleton State University, McMurry College and Sul Ross State in the only non-scholarship league, the Texas Intercollegiate Athletic Association, in the Lone Star State.

Earned Income Credit Aids Lower Income Workers

The Earned Income Credit is a refundable tax credit available to certain working parents who earned less than \$10,000 in 1980, the Internal Revenue Service said.

The credit will be paid to taxpayers who qualify even if it exceeds tax liability or the taxpayer owes no taxes. Some taxpayers could receive a credit of as much as \$200. To be eligible for the Earned Income Credit, taxpayers must:

1. have an "Adjusted Gross Income" and "Earned Income" including that of spouse of less than \$10,000; and

2. file as married filing jointly, head of household, or qualifying widow or widower; and

3. not have any income earned in a foreign country or a U.S. possession, if the income is eligible for exclusion from gross income; and

4. live in a home with a dependent child for the whole year or qualify as a head of household because a

married child can be claimed as a dependent. If the taxpayer qualifies as a head of household because of an unmarried child, that child does not have to be claimed as a dependent.

Taxpayers may elect to receive their credit in one of two ways. If they are eligible, they can receive it when they file their return, or they may choose to have their employer include advance payments in their paychecks throughout the year.

Lakeview Locals

By Mrs. Norman Matthews
(Reporter For Lakeview News Since 1945)

Mr. and Mrs. Shorty Robertson and Mr. and Mrs. Bert Robertson of Petersburg attended the mid-week services at Lakeview Church Wednesday night, Jan. 28. Shorty was the featured speaker for the service.

Mrs. J. L. Johnson was a patient in Methodist Hospital several days last week.

Charles Coggin of

Plainview visited his parents, Rev. and Mrs. Coggin Tuesday.

Mr. and Mrs. Harry Sinclair of Plainview visited their daughter and family, Mr. and Mrs. Glen Amonett Tuesday.

Rev. and Mrs. H B Coggin attended General Conference at First United Methodist Church in Plainview Sunday afternoon and reported a good

meeting.

Mr. and Mrs. Henry Scarborough visited their son and family, Mr. and Mrs. Charles Scarborough in Lubbock last week.

The United Methodist Women met Tuesday afternoon in the home of Mrs. Oleta Gilmore. The meeting was opened with group singing "What A Friend We Have In Jesus" and prayer by Mrs. Coggin. The president, Mrs. Gilmore, presided at the business session. Mrs. Lawrence Amerson brought the devotional using the 12th chapter of Romans. Mrs. Johnson was in charge of the program which was given by Mrs. Harrison on the subject "God Loves You".

Mrs. Clayton Enger suggested that the UMW send a donation to Human Relations. The meeting was dismissed with prayer by Mrs. Harrison. Mrs. Coggin was honoree at a birthday party at the close of the meeting and received a number of lovely gifts. The hostess served refreshments to Rev. and Mrs. Coggin, Mrs. E. E. Senter, Mrs. Clayton Enger, Mrs. Florence Jackson, Mrs. J. L. Johnson, Mrs. N. Matthews, Mrs. S. M. Harrison and Mrs. Amerson.

Mr. and Mrs. Maynard Agee of Friona and Terri and Gena Gilmore of Lubbock visited in the home of Mr. and Mrs. Neal Barnwell and Mr. and Mrs. H. C. Barnwell during the weekend. They were

Southwestern Public Service Company's board of directors elected Sam R. Hunter and Larry S. Milner as vice presidents, and Mary L. Pullum as assistant secretary, in action following the company's annual stockholders meeting.

The three also were elected officers of the company. Hunter, who becomes vice president, rates and economic research, was director, rates and economic research. He joined the company as a groundsman in 1948, and holds a master's degree in business administration from Texas Tech. Milner, promoted to vice

president, communication and public affairs, formerly served as director, communication and public affairs. He was first employed by SPS as manager of industrial development in 1966, and earned a bachelor of arts degree at the University of Texas.

Pullum moves to her new position as assistant secretary from duties as secretary in the corporate financial office. She began her career with the electric utility as a clerk-typist during 1963, and attended Amarillo College.

In other board action, the present corporate officers

were re-elected.

At the annual meeting, stockholders voted to amend the company's articles of incorporation to increase the total authorized capital stock from \$180 million to \$330 million. This increases the number of common stock shares from 30 million to 55 million and the preferred shares from 3 million to 5 million. This amendment was necessary to allow the company to continue financing its ongoing construction program.

Also, the board declared a regular quarterly dividend of 34 1/2 cents per share of common stock, payable March 2, 1981, to holders of record at the close of business on February 13, 1981. Regular

dividends were also declared on preferred stock, payable May 1, 1981, to holders of record at the close of business on April 20, 1981.

The stockholders re-elected the incumbent board of directors for 1981.

Roy Tolk, SPS chief executive officer and chairman of the board, presided at the meeting, which was held at the company's headquarters in Amarillo.

RANGES AND OVENS

Cutting energy bills may mean taking a good look at the way we use our appliances. Since cooking is done in most homes every day, it is important to develop ways to use ranges and ovens more efficiently.

Here are some suggestions from home economists at Whirlpool Corporation that can help homemakers reduce the energy wasted in cooking:

- Plan meals for the most efficient use of the range. When using the oven for one food, if possible, try to cook the rest of the foods for the meal in the oven, too.

- Don't preheat when broiling, roasting, or cooking items such as casseroles. Preheating is only necessary with some baked products, and usually ten minutes of preheating is sufficient.

- Use a minimum of liquid or fat in cooking to help shorten cooking time.

- Use pans with flat bottoms, straight sides and tightly-fitting lids.

- Match the cooking utensil size to the surface unit size.

Stephen of Duncanville met them there for the services. Their son played a spell guitar for the program during the afternoon.

Mr. and Mrs. Gale Meadows of Lubbock spent the weekend with his parents, Mr. and Mrs. H. N. Meadows.

Mr. and Mrs. Henry Scarborough attended funeral services for Ben Talioferro, 94, Saturday afternoon. Services were held at Franklin Bartlett chapel. Burial was at Rest Haven Park. Survivors are one daughter, Bonnie Faye Sosbee and one son, Loyd Talioferro. The Talioferros are former residents of Lakeview.

Mr. and Mrs. Glen Amonett attended funeral services for his Aunt Maxine Amonett, 57, Monday afternoon. Services were held at 4 p.m. in Monterey Baptist Church.

Mrs. E. G. Mahagan visited Mr. and Mrs. Jess Hair in Plainview Saturday and Mr. and Mrs. Mac Hill in Tulia Monday.

There are about 1,600 telephones per 1,000 people in Beverly Hills, California.

Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you:

For every one that asketh receiveth; and he that seeketh findeth; and to him that knocketh it shall be opened.

If ye then, being evil, know how to give good gifts unto your children, how much shall your Father which is in heaven give good things to them that ask him?

Matthew 7:7, 8, 11

Looking ahead - to 1985 - agri-economist John Marten has some interesting predictions on the meat industry. If the current cycle continues, cattle numbers should peak around 1985 or '86, says Marten, to around 125 million head by the mid 80's. He pegs the 1985 steer price at \$90 to \$100 by mid-decade. An excellent five years is predicted for cow-calf operators, but with narrow feeding margins and a continued emphasis on buying and selling skills. By 1985, Marten sees hog prices averaging \$60 to \$70, but cautions that in order to maintain profitable prices, production will have to be kept below the 70-pound per capita level. The cornbelt will continue as the center of hog production with a slight westward shift by the mid-80's. Finally, Marten doesn't see decreased farm income due to energy cost increases, reminding the nation that farmers have always been in the solar energy business: Crop acres converting solar power into feed, food, fibre,

Soybean producers who have faced problems with lodging of full sized varieties received good news in the release of two new semidwarf varieties by the U.S. Department of Agriculture. Certified seed producers in participating states will begin obtaining released seed from the two new varieties - Sprite and Pixie - this year, and supplies will be available to farmers for the 1982 season. In two years of testing in high yield environments, Sprite averaged 6 to 6.5 bushels per acre more than Williams and Elf when planted in 30-inch rows. Pixie yields averaged about the same as Williams and Elf in 30-inch rows. In addition to producing a short, lodging-resistant, semidwarf plant, both varieties are very responsive to narrow rows and high seeding rates.

WHY 55?

- Traffic accidents are the number one cause of death to America's young people... 60% of accidental deaths of ages 1 through 19 are the result of traffic accidents.
- Excessive speed is involved in 70% of all fatal accidents.
- You lose 1 mile per gallon for each 5 mph you drive over 50. Department of Transportation studies show that cars improve their gas mileage from 17% to 40% at 55 as opposed to 70.
- The average car can get as many as 50 more miles per tankful. Or stated another way, you could save two extra gallons for every ten gallons you buy, simply by driving 55 instead of 70.
- If more drivers would go no faster than 55 mph, we could save 4.9 billion gallons each year. (Our country uses nine million gallons of highway motor fuel a day.)
- In spite of what you may have heard, public opinion is for driving 55 on America's highways. A National Highway Traffic Safety Administration survey showed that 77% of the public supports 55 as the speed limit.
- 55 mph may seem slow. The truth is, driving 55 costs you very little in time. A 100 mile trip driving 65 mph takes one hour and 32 minutes. That same trip at 55 takes one hour and 49 minutes. Seventeen minutes difference.
- Like better odds? At 55 mph, chances of a fatal accident are 1 in 33. At 70 mph, when a crash occurs, chances are 50-50 of a fatal accident.
- You can save a lot of money by driving no more than the speed limit... you get more miles out of the fuel you buy; you can eliminate paying fines for speeding tickets; you can reduce your maintenance costs; eventually, the reduction of accidents will decrease insurance costs. All by driving 55 mph.

Texas 4-H Center Summer Employment Opportunities

During the 1981 Texas 4-H Center summer season, there will be opportunities for summer employment at the Texas 4-H Center in Brownwood, Texas. Employment for young people this year will include lifeguards and counselors.

Two persons will be needed to work as lifeguards from May 30th until mid August. They must be certified and experience is preferred.

Seven more counselors

will be hired to work with the summer camping program. Their employment period will be June 29th through August 1, 1981.

4-H members or former 4-H members who have completed at least one year of college and are interested in this type of employment are to apply.

Applications are due before March 2. For more information, call 293-8481 or come by the Extension Office at 6th & Ash, Plainview.

Sorghum breeders for Pioneer Hi-Bred International, Inc., have discovered three of their experimental hybrids apparently have strong resistance to the new Biotype E greenbug that is threatening High Plains agriculture.

Discovered by researchers only last year, the new greenbug could attack virtually all areas of the regional sorghum belt. Therefore,

sorghum hybrids previously thought to be greenbug resistant may well be susceptible to the new insect and its deadly toxin.

However, greenhouse research on sorghums at the Plainview facility of Pioneer has indicated sorghum hybrids with resistance to the Biotype E greenbug could be

available to farmers as early as next year, said Dr. Gene Dalton, director of sorghum breeding for Pioneer.

"If the hybrids continue to demonstrate resistance to Biotype E greenbug damage during extensive field tests this summer, they might be available for 1982 planting," said Dalton. "But Pioneer will release none of the hybrids commercially until they are thoroughly tested and meet our strict performance standards."

Greenbugs first became a problem for sorghum farmers in the late 1960s. The insects, not much larger than a pin head, suck fluids from plant leaves, then excrete poisonous wastes into the plants. "It's the greenbug toxin, not the bug itself, that kills the plant," said Dalton.

By the mid-1970s, researchers had developed sorghum hybrids resistant to greenbugs. The Biotype C greenbug was, and still is, the main culprit.

The Biotype E was discovered only after researchers found that plants thought to be resistant to Biotype C were nonetheless dying from greenbugs. Even though they were not widespread last year, the new insects pose a potentially severe problem for growers.

"Pioneer had many tests scattered throughout the sorghum belt last summer," said Dalton, "but we were able to confirm Biotype E greenbug damage in only one of these locations. We will not know how widespread the new Biotype is until after the next crop is planted."

The greenhouse discoveries of apparently resistant hybrids involved seed that was developed from an inbred line on which Pioneer began research in the late 1960s.

"The work we began in the late '60s was designed to broaden the genetic base of Pioneer parent lines," Dalton said. "We used a number of exotic lines, collected from all over the world. And

Hybrids Have Strong Resistance To Greenbugs

COTTON TODAY

A NATIONAL
COTTON COUNCIL
SERVICE

COTTON MEN MEET PRESIDENT: National Cotton Council President Frank Mitchener and Executive Vice President Earl Sears were among a group that received a briefing recently on the nation's economic situation from President Reagan, Agriculture Secretary John Block, and other top advisers.

Administration officials stated spending cuts would be made across-the-board, including agriculture. However, they emphasized that spending for agricultural research and foreign market development has a high priority. During the discussion, Mitchener focused attention on the excessive cost of the cotton dust regulation and received favorable response.

EXPORT SALES INCREASE: New sales of raw cotton for current marketing year delivery jumped to 336,700 bales for the week ended January 29, the se-

cond highest total for the current year. The major buyer was China, 150,000 bales, with other large buyers being Korea, 77,100, and Japan, 43,000.

China's total commitment for the season is 1,542,000 bales. Strong sales of 1,900 bales were for 1981-82.

Exports of 179,200 running bales of upland cotton during the week brought the season's total commitments to 5,102,300.

LOAN EXTENSIONS AVAILABLE: The U.S. Department of Agriculture has announced that CCC non-recourse upland cotton loans that mature on or after February 28 can be extended through October 31. Applicable average spot market price for January was 85.11 cents per pound, 127 percent of the average price for the preceding 36 months. Under current law, a loan can be extended in its tenth month if the average does not exceed 130 percent.

 858687888990919293949596979899100!

A \$100 FACTORY REBATE

Install Gas Air Conditioning now, and you'll not only be cool the first day this spring... you'll save a cool \$100! Buy before May 1st and you'll receive a \$100 rebate direct from the factory... plus you can defer monthly payments until May, too. But \$100 and deferred payments are not the only reasons for installing Gas Air Conditioning.

Gas Air Conditioning Systems are very energy efficient. They now use less gas energy because the constantly burning gas pilot has been replaced with a new pilotless ignition system. Pilotless ignition saves gas, and saving gas will save you money.

Gas Air Conditioning is also very dependable. It's built to last and last with no loss of cooling capacity. Hand-crafted of sturdy stainless steel components, Gas Air Conditioning has fewer moving parts and no compressor to wear out or break down. That means less wear and lower maintenance costs. And to prove its dependability, Gas Air Conditioning gives you the longest warranty — the 10-year "No Sweat" limited warranty** — twice as long as all others.

Gas Air Conditioning. It's energy efficient. It's designed to lower maintenance costs, to lower operating costs. Gas Air Conditioning will save energy and that will save you money. And when you combine Gas Air Conditioning with adequate conservation measures, like caulking, insulation, storm doors and windows, you'll save even more.

But don't wait too long. The \$100 rebate ends May 1, 1981. Call now for a free home cooling survey and cost estimate. There's no obligation.

**Manufacturer's limited warranty covers all defects in material and workmanship on the sealed refrigeration unit for ten years from date of installation of the air conditioner when it is installed in a single-family residence. All other parts are warranted for one year from date of installation.
