Mahon, Citizens Honored At Chamber Banquet

By Marie Harris
With a soft light illuminating the United States flag, several hundred people in the darkened Abernathy City Hall Community Center Thursday night reverently sang "God Bless America", to close the annual Chamber of Commerce banquet that had honored a former homemaking teacher, an outstanding farm family and a retired veteran congressman.

Mahon, who was presented a plaque by Andy Reid in appreciation for his many services to the Abernathy Community, the district and the nation. Mahon was the first man to serve as representative of the 19th Congressional District after it was created in 1934. He retired from the office in 1978.

Reid cited Mahon for helping Abernathy get such improvements as a centrally located post office and an airport, plus a supply of water, and a

center of recreation that includes golf course, pool, and club house.

"He is a humble man, tireless worker, honest citizen with love for West Texas and America, and has made a great contribution to his country through the years," commented Reid.

"It is a privilege to be here with people who are happy," said the 89-year-old Mahon. He was appointed to the powerful House Appropriations

Committee in 1939 and became chairman of its subcommittee on defense in 1949. He became chairman of the full 55-member Appropriations Committee in 1964.

"We are being called on to be better Americans to solve the problems which confront us and to improve the environment of every community," Mahon continued. "We have to put the principle of Christianity and God in our

Drug Bust Worth \$310,000

By Keith Tooley
Abernathy Police officers pulled over a van Saturday night about 10 p.m. that would later yield 607 pounds of marijuana with a street value of \$310,000.

The two new Abernathy Police officers, Raymond Hall and Raymond Naron, had set up a road-block on the

road leading to the Abernathy Airport. A Chevrolet van came to the road-block and without stopping drove out into a field to get around the police car, police officers said.

Officers Hall and Naron then pulled the van over without turning on their police lights, but merely flashing their headlights. When they confronted the

driver of the van, 37-year-old Warren August Mack of Lubbock, they detected the smell of alcohol, police officers said.

Mack was then charged with public intoxication, but police officers suspected there was something else bothering Mack. Therefore, they held him at the scene until a search warrant could be obtained, officers said.

Later the van was searched and 31 boxes of marijuana were found weighing 607 pounds. It was determined that the marijuana had a street value of \$310,000.

Airplane Delivers Marijuana

The entire incident occurred when U.S. Custom officials from Houston notified local police officers that a plane was possibly transporting drugs in this area. The plane landed at the Abernathy Airport around 10 p.m. Saturday and delivered the marijuana to Mack, police officers said.

It was identified as an Aztec two-engine plane. The plane had been stolen, possibly from California. The owner or navigator of the plane has not been found. The plane, van and driver of the van were all taken to Plainview. Mack is presently in jail there on a \$200,000 bond. He has also been discovered that Mack had two previous charges of homicide against him at the time, police officers said.

also involved in the operation and but were 25-30 law enforcement officers from all over the Abernathy area. Officers aiding Hale County Sheriff Deputies and the Abernathy police department included DPS

Narcotic Agents from Lubbock and Lubbock County Deputies.

The combined efforts of all officers involved made the drug bust a success, said Jim Hicks, acting Abernathy Police Chief.

FRESH FROM MEXICO? Possibly! The plane pictured is an Aztec twin-engine that transported 607 lbs. of marijuana to the Abernathy Airport where it landed. No pilot was found. The plane thus far has been traced to California. (Compliments of Dayton Marr)

Hygrade Gin And Davis Grocery Burglarized

Hygrade Gin and Davis Grocery were broken into last week and several items were taken.

One of the entrances to Hygrade Gin was pried open by a burglar last Monday night. The door was opened by a pin being knocked out of the lock.

The burglars were choosy taking only a cutting torch and a hose both valued at \$275. There were no damages sustained in the burglary.

Davis Grocery
Another burglary occurred last

Tuesday night at Davis Grocery and over \$500 worth of cash and merchandise were taken.

The burglars broke into the back door of Davis Grocery and took several select items including 80 cartons of cigarettes valued at \$440, two watches worth \$70, a small amount of cash and an undetermined amount of food stamps.

Preston Davis, owner of the store, stated that he had an idea who the burglars might have been.

School Board Promotes Sharp and Adkisson

Gid Adkisson and David Sharp were promoted to new positions with the Abernathy Independent School District.

Gid is presently the elementary principal. Starting next fall he will be in charge of the Cooperative Special Education program known as HONDA. HONDA stands for special education students in Hale Center, Olton, New Deal and Abernathy.

David Sharp, presently a counselor

for Abernathy Schools, will become the elementary principal in Adkisson's place.

Both of these personnel changes will go into effect in the fall semester.

School Board Meeting

The Abernathy School Board met Monday night to discuss several items of interest.

The results of the school board

canvass election returns were certified as being correct.

Colcen Cecil was appointed the authorized representative to receive commodities purchased from the U.S. Department of Agriculture by the Abernathy School District. She will receive these commodities to be used in the school cafeteria.

It was agreed by board members that it was time to take insurance bids on school buildings and their contents. A decision is still pending by the School Board Commission on whether Abernathy students will have to make up the two days they missed because of snow earlier this year.

The National Honor Society will be able to take a trip to Austin where they will be pages on the state house floor. Pages carry messages across the congressional building to congressmen seated there during legislative sessions. Honor Society members are allowed to participate as pages in a legislative session once every two years. The program was set up by Representative Pete Laney in 1977. The Abernathy Honor Society chapter is the only one that is allowed to attend these legislative sessions. They went first in 1977, then in 1979 and this year will be the third time Honor Society members will get to be pages at a legislative session in Austin.

On The County Line

By: Keith Tooley

Those who didn't get the chance to attend the chamber banquet really missed a treat. The food was good, the music great, and everyone there had something good to say about someone else. I've never attended any type of ceremony that was as patriotic as the chamber banquet last Thursday night. When Richard DuBose told me how well Jim Fullingim could sing, I had expected to hear a good singer. I didn't hear a good singer, he was a great singer. Even to a person who has subjected himself to the Beatles and the Beach Boys for most of his life, the gospel music came through. I don't think rock and roll or country music would have set a favorable mood for this banquet.

been nominated.

Don Williams was born in a little house in Blanco Canyon just south of Floydada about 8 miles. When I lived in Floydada, our house was located just 2 miles north of this canyon. I don't guess it would be a lie to say we were close to Don. I don't guess it would also be a lie to say I barely knew he existed.

Be sure and attend the "Focus On The Family" film series to be shown at the Church of Christ beginning Thursday, April 16 through Thursday, May 28. Each of these films offers an opportunity to understand the family as a whole, as well as the problems that confront each individual member of the family. See the ad on page three of this issue to find out more about this unique and informative film series.

I was informed that Struve Dry Goods had Bibles also. Who ever said Abernathy didn't have Bibles?

Janet Gales - Jeffery Houk Marry In Canyon

Miss Janet DaNeese Gales and Jeffery Allan Houk were united in marriage as the couple repeated wedding vows in a formal ceremony solemnized at 6 p.m., Saturday, April 4 in the Joseph A. Hill Chapel, Canyon, Texas. Officiating for the double-ring rites was the Rev. Norris Taylor, pastor of First Baptist Church, Spur. The bride is the daughter of J.C. Gales of Canyon and Mrs. Don Morrison of Plainview and the bridegroom is

the son of Mr. and Mrs. Odie Houk of Canyon. The bride is also the granddaughter of Mr. and Mrs. Jesse Morrison of Abernathy. Brass candelabras with white candles and sprengeri greenery encircled the archway for the bride and groom. The pews were decorated with white ribbon and flowing sprengeri greenery. Together they lit the unity candle. Pianist LaVonia Moody presented traditional pre-

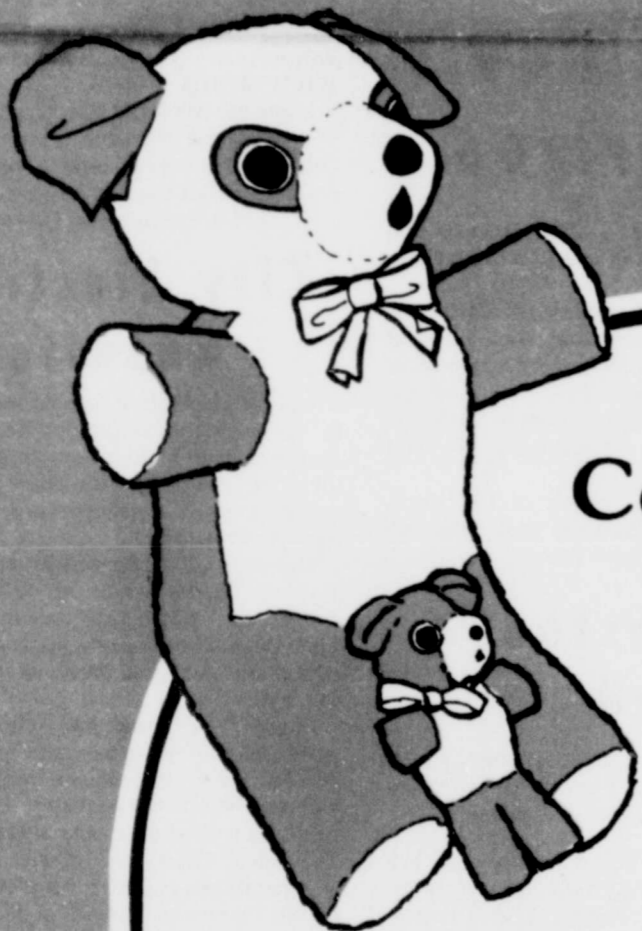

nuptial music and selections of the bride and also accompanied the vocalists. "Looking Through the Eyes of Love" was sang by Dee Dee Fullingim of Petersburg, Karl Vaughn of Edmonson sang "If". Together they sang "The Wedding Song". The bride wore a formal length gown of white silk organza and chantilly lace. The high Victorian neckline was accentuated by brussels embroidery and seed pearls. The sheer yolk bodice was

softly framed by an organza ruffle and chantilly overlay covered the rest of the bodice to the empire waist and the full bishop sleeves. The A-lined skirt flowed to a chapel length train, surrounded by a tiered flounce. The bride's hat was full trimmed, with the right side turned up and covered with matching chantilly lace. English net formed the veil, for a sophisticated look. The bride wore her great-grandmother Morrison's wedding ring and her great-grandmother Austin's dinner ring as "something old"; pearl earrings as "something borrowed"; her blue garter as "something blue" and in her shoe, she placed a sixpence for good luck.

and napkins were encrusted in silver with "Mr. and Mrs. Jeff Houk". The bridegroom's table was covered with an ecru cutwork cloth from Italy borrowed from the bride's aunt. Centering the table was the chocolate cake featuring the bridegroom's monogram in the center, made by the bride's aunt. A brass coffee service, other appointments of brass and dark brown napkins inscribed with the couple's name completed the table. Assisting with serving duties at the bride's table were Gayle Nelson of Canyon, Jessica Thomas, cousin of bride, and Karen Thomas, aunt of bride of Abernathy. Assisting at the groom's table were Sherry Houk of Pampa and Rose Houk of Fritch, sister-in-laws of the groom.

An elegant cascade atop a family traditional lace covered Bible with the bride's grandmother Gales lace handkerchief inside was defined with white daisies, Pells of Ireland and accented with babies breath with white picot satin streamers tied with love knots. Attending the bride as maid of honor was Rhonda Hoover of Spur. She was attired in a floor-length yellow pleated gown with an empire waist. The bodice had spaghetti straps with a sheer cover-up cape. She carried a spring bouquet made of nose gay with yellow daisies and sprigs of peach kolanchoe accented with babies breath. Bill Nolan served the bridegroom as best man. Ushers were David Holland and Prand Lacey of Canyon. Methodist Student Union Building was the setting for the reception which was held immediately following the ceremony. The bride's table was covered with an imported Swiss organdy hand applied cloth over a floor-length white skirt. The bride's bouquet was placed in the center of the table. Her cake was a three tiered white with birds and bells accenting it. On the top was a bride and groom with bells on the middle layer. The appointments on the bride's table were of crystal. Mints were white rosebuds.

Guests were registered by Miss Jamie Morrison of Plainview and Miss Del easa Gales of Canyon, sisters of the bride. Rice bags of white illusion tied with yellow lily of the valley were distributed by Jodi Morrison of Plainview and Shawn Gales of Canyon, sister and brother of the bride. For a wedding trip to Albuquerque, New Mexico, the bride wore a navy blazer, tangerine blouse, white skirt with navy accessories. The couple will make their home in Canyon where the groom is employed at Anthony's and the bride is a student at West Texas State University and works at the College Activity Center. Out of town guests attending were from Dalhart, Vernon, Amarillo, Lubbock, Lamesa, Silverton, Spur, Elk City Oklahoma, and Abernathy. A shower was held in Canyon for the bride hosted by Nell McDonough, Marie Rucker, Judy Clar, Jodi Magness, Carol Clark and Earnestine Barnes. A miscellaneous shower was held in Petersburg by Mmes. Jim McLaughlin, Frank Stanton, Dorothy Thompson and Miss Valorie McLaughlin.

ommunities. We talk about our short-coming and we have problems, but we are still the greatest nation in the world and we must try to move toward a safer world in which to live. I hope we sing "God Bless America" - if nobody else eads it, I will."

Mahon told his receptive audience, who gave him a standing ovation, that he had become pretty arrogant since he had retired and that retired politicians still love applause.

MR. AND MRS. Mahon also were honored with a proclamation ready by Abernathy Mayor Pete Thompson which proclaimed April 2 as George and Helen Mahon Day and made them honorary citizens of Abernathy.

A tape by Mahon's successor, Rep. Kent Hance, was played at the banquet. He expressed praise of the couple and appreciation for how the former congressman had guided other people.

MINNIE STRUVE presented the Citizen of the Year Award to Mrs. Jack Hackler, who came to Abernathy in 1934 as Evaughn Clark, a graduate of Texas Tech University, who taught home economics in Abernathy High School until 1967. At Tech Mrs. Hackler was outstanding scholastically and in leadership, serving as president of the Home Economics Club, Double Key and Forum. She carried a full load of courses and also had a job.

"As home economic teacher and Future Homemakers of America sponsor, she helped students develop skills and high ideals," said Mrs. Struve. "She gave of herself and time freely. She shares her talent in a low key and effective manner."

After retiring from teaching home economics, Mrs. Hackler started a new career as a first grade teacher, giving many children a good foundation until she retired in 1978.

Presently librarian of the Abernathy Public Library, she worked to bring recognition to the library from the State of Texas, qualifying it for state aid. Mrs. Hackler is a member of the 1935 Study Club that started the library from a summer reading program years ago, and first operated it on a small scale in the school, until it was given space in the new City Hall and made a public library about two years ago.

Mrs. Hackler is active in First Baptist Church. She and her husband are parents of a son, Billy Jack Hackler of Lubbock, and have one granddaughter.

BILLIE JEAN and Billie Harrison and sons were presented the Family of the Year award by Thomas Pettit, father of last year's honored family.

"They are devoted to family, friends and the land from which they derive a living," said Pettit. The Harrisons farm several hundred acres, raising mostly cotton and soybeans.

Primarily interested in education, Harrison served the Abernathy Schools as a board member for 21 years, the last four as president. He retired from the board last year.

Although neither Mr. nor Mrs. Harrison graduated from college, they have emphasized the importance of college educations for their sons.

Mark Harrison, a graduate of Angelo State University, is now a system analyst for an oil company in Houston. He and his wife, Deanna, have a daughter, Lane Harrison, who attended Angelo State University, is a salesman for a gasket company in Lubbock. He served with the U.S. Army in Korea. Kent Harrison, a graduate of Texas A&M University, will receive his master's degree from Texas Tech in May and then will attend the University of Illinois on a fellowship grant to earn his doctorate in agronomy. Jay Harrison is a sophomore in Abernathy High School. He is an accomplished musician and graduated from Abernathy Junior High as valedictorian.

ACTIVE MEMBERS of First United Methodist Church, Mrs. Harrison formerly taught a children's Sunday School class, sang in the choir and served on various committees, and Harrison now sings in the choir and is a member of the council on ministries. He has served as district lay leader and Sunday School superintendent.

Mr. and Mrs. Harrison were born and reared in Abernathy, and graduated from Abernathy High School. He attended Texas Tech. His mother, Mrs. S.M. Harrison, lives in Abernathy. The couple has been married 32 years. They have supported Future Farmers of America activities and both have been given honorary chapter farmer awards.

Harrison has served on the Governor's Vocational Advisory Committee two years and is secretary of the Hale County Appraisal Board. He has been a member of the Abernathy Co-Op Gin board 29 years, and secretary 28 years. Mrs. Harrison worked five years with her sister, Mrs. Ralph Stephens, in Abernathy Floral and since the first of January has been employed by Struve Implement.

RICHARD DUBOSE, outgoing chamber president, was master of ceremonies. He welcomed guests including State Rep. Pete Laney of Hale Center, who read a resolution from the House of Representatives, 67th Legislature, commending the Abernathy girls' basketball team Lady Lopes, which won the AAA state championship. He presented a certificate to each girl and their coach,

Larry Steele. The coach introduced his team and assistant coach. Carl Wayne Irlbeck, coach of the boys' basketball team which won state honors in 1980, also was recognized.

A clip was shown from the film, "The Acorn People" in which an Abernathy school student, Patrick Lewis, had a role. He was given a basketball.

CHARLES BOWEN, incoming president, introduced the Chamber officers and directors: Dale Thickston, vice president; Chris Waters, secretary-treasurer; Bobby Cunningham, Randy Peeples, Tommy Beck and Tommy Lane,

SPS Announces Feedlot Survey

Sam Thomas, manager of agricultural development for Southwestern Public Service Company in Amarillo, has announced that 4,453,878 fat cattle were produced in 1980 in the 45,000 square mile area served by SPS.

These and other statistics are revealed in a recently completed feedlot survey by SPS. The survey, conducted annually by Thomas' agricultural development department since 1963, is quoted throughout the United States by agricultural experts as the most authoritative source of information.

on the production of fat cattle in the Southern Great Plains area.

"We surveyed the same number of feedlots as in 1979 and the capacity in 1980 came to 2,638,000, a reduction of about 3 percent," Thomas said. "The impact to cattle owners was an esti-

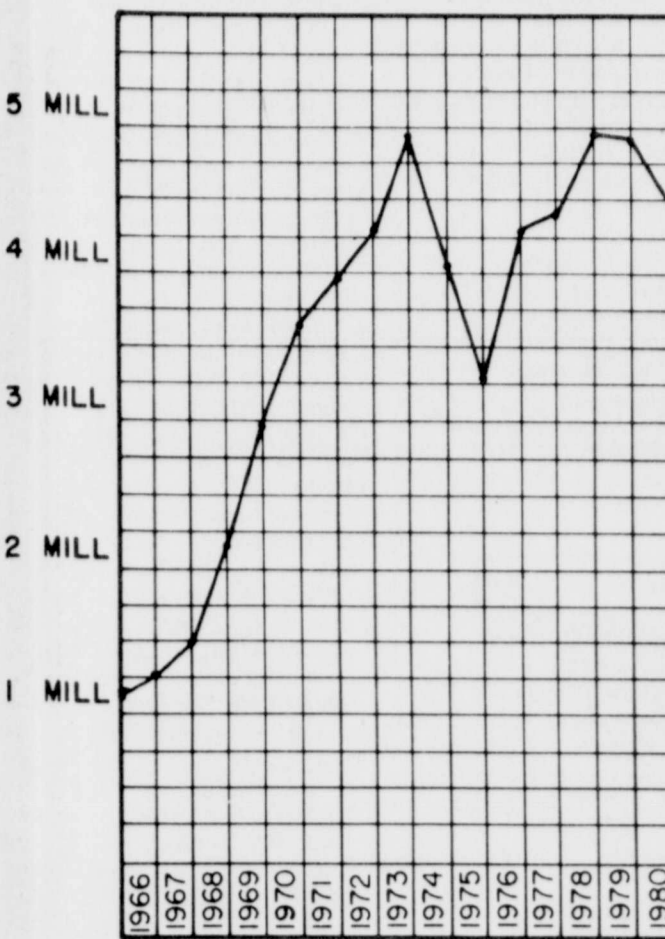

time the animals were in the feedlot would amount to \$241,248,385, or \$49.32 per animal, about 5 cents per pound live weight or 8 cents on dressed weight.

Thomas said the interest cost at 16 percent for the

major contribution to the development and growth of the industry and has been especially valuable in the vertical integration that has occurred in the SPS service area.

Copies of the survey will be available at Southwestern Public Service Company offices in about 60 days," Thomas said.

GROWTH OF FED CATTLE INDUSTRY

CUCURBITS NEED HONEYBEES - Without honeybees, there would be only limited cucurbit production in Texas, says a horticulturist with the Texas Agricultural Extension Service, Texas A&M University system.

Cucurbits include watermelons, cucumbers, cantaloupes, pumpkins, squash and gourds. Some 79,000 acres of cucurbits are grown annually in Texas - a \$50 million crop. Cucurbits absolutely depend on insect help to transfer pollen from male to female flowers, which produce fruit. Most cucurbit flowers are open for only one day, and honeybees account for about 85 percent of all flower pollination.

Young Farmers To Meet

Preacher's Weekly Devotional

Jesus tells us "in praying do not heap up empty phrases as the Gentiles do; for they think that they will be heard for their many words. Do not be like them; for your Father knows what you need before you ask him." (Mt. 6:7-8). Then He proceeds to teach us how to pray to Him through the words of "Our Father". Now the question is, why we should pray to God if He already knows our needs! The answer is very simple. We do not pray in order to inform God of our needs, nor do we pray to Him in order to convince Him how badly we need what we want. Neither do we pray to Him to try to make a deal with Him like we will do something if only He will give us what we want. We pray for one simple reason - to help us prepare ourselves for what is going to happen, or in other words, to prepare ourselves to accept God's will. Many times, therefore, we are praying for the wrong thing. We want something and we ask for it, but we never take time to think that possibly God has other ideas or reasons we may not know or understand. What we should pray for, therefore, is the ability to love God and to become better and stronger people in spite of, and because of, what His will is.

"IT'S A BIG JOB ..."

Slowing down the rising costs of anything these days. Even your electricity.

You've got someone working on it for you in the Southwest. Southwestern Public Service is using Wyoming coal to make electricity in its new power plants. Because some of the old plants run on fuel that just plain costs too much.

Electricity could cost a lot more than it does! But thank goodness it doesn't - because of coal!

Lakeview Philosopher

Offers His Two Cents Worth
On Problem Of Schools?
Failure To Educate

Editor's note: The Lakeview Philosopher on his Johnson grass farm offers his two-cents worth on the problem of public schools this week. Sounds inflationary.

Dear editor:
Because some kids are coming out of high school unable to read a parking ticket or balance a check book, teachers naturally are blamed and there's a move on in some areas to test them. This was tried in one big city and a third of the teachers failed.

I got to thinking, not only should beginning teachers be tested, but maybe the colleges who certified them to teach ought to be tested. Then the colleges should demand tests for high schools that're sending them unqualified students, and high schools should look to grammar schools, and they to boards of trustees, and trustees to parents, whose only recourse would be to blame their parents, and they their parents, on back I guess to George Washington.

Nobody has asked me, but my notion is that the first duty of a school is to teach a kid to read and write and possible to figure in case the battery on his pocket calculator runs down. After that, kids can expand in whatever direction their talents invite and their teachers can stimulate. No need to try to make classical scholars out of all of

them.
Naturally writers want them to continue to read, just as tire manufacturers and filling stations want people to drive cars, the IRS wants people to make money and lawyers want people to squabble.

The extent and value of a person's so-called book-learning can be vastly over-rated. I know lots of intelligent, un-fooled people who lead successful and enjoyable lives who, after getting out of school, haven't read more than two or three books in their whole life. But they do know what's going on, by way of newspapers and radio and TV and their natural ability to think for themselves.

One trouble with schools today is they've mistaken buildings for schooling. It's like Congress thinking if it puts up a new office building for itself it's automatically a better Congress. The problems facing the country are not the color of the wallpaper in the White House. No telling how far Abe Lincoln would have gone in the White House. No telling how far Abe Lincoln would have gone if his one-room school house had been air-conditioned. I'll bet the bus he rode to school wasn't even heated in the winter time.

Yours faithfully,
J. A.

FACED WITH "LEMON," consumers tend to replace rather than complain, says Bonnie Piernot, a family resource management specialist.

Studies show that consumers would rather spend money to replace a faulty item than invest time dealing with manufacturers, government agencies or lawyers, she says.

Wives are quicker to give up on a product than their husbands, but they're also more inclined to register a complaint about the product, says Mrs. Piernot.

FARM BILL VETO LIKELY - Farm policy proposals of Secretary of Agriculture John Block to the Congress increase the chances of veto of the 1981 farm bill, believes an economist with the Texas Agricultural Extension Service, Texas A&M University System.

Flock's proposals for eliminating target prices and providing increased secretarial discretion for loan rates and reserve release prices as well as storage and interest charges within the reserve are designed to provide a safety net policy for farmers. However, this likely will not go well with farmers who have looked on government programs that stabilize farm prices and incomes as necessary for sustaining high productivity.

For as the lightning cometh out of the east, and shineth even unto the west; so shall also the coming of the Son of man be.

HARNESSING HOTROCKS

Geo-thermal as an energy source to produce electric power is a distinct future possibility for some areas. So are many other exotic fuels. But for now there are only five sources available to meet our present demand; gas, coal, hydro, nuclear and conservation.

All New Deal teachers are encouraged to join this group. The meeting was held in the junior high library. One of the projects sponsored by the Classroom Teachers is a scholarship to be given to a deserving student at the end of this school year.

Flag Corp Added To Band

A flag corp will be a new addition to next year's New Deal Band. The girls recently selected are: freshmen - Lori Greenhill, Lisa James and Sheila Kirk; sophomore - Teri Williamson; juniors - Tonda Hughes, Cheri Glover; and seniors - Maribel Gonzales and Tracy Nicholson. Alternates are Lynda Conner and Cindy O'Neal.

Editor's note: the following notice was submitted to The Review from Ray West.

Dear Voters:

I regret if you wasted your vote in Saturday's school board election at New Deal. I never intended to run as a candidate for school board election. Last year I made it quite clear by stating that "choosing to file for office is a freedom few people enjoy". Had I intended to file for office, I would have followed the guidelines in the Texas Election Code.

In view of my ideas on this issue, please contact the telephone committee person or the person at the Young Farmers luncheon or anyone else who wrongfully encouraged you to waste your vote in Saturday's election.

SET THEM STRAIGHT! Respectfully,
Ray West

THANK YOU to everyone who supported me in the Trustee election.
Most people in the community don't like the place system for our trustee elections. This creates gossip, and untrue things are said. The campaign is not supposed to be a grudge match. Friends are candidates for the same place. I hope in the future campaigns that people will relate only the GOOD qualities and qualifications of the candidates.
I hope everyone will keep the teachers and students lifted up in their prayers. May God's richest blessings be on everyone in the community.

The gas company is in another name-change announcement. This time from Pioneer Natural Gas Company to ENER GAS. See the ad in this paper. West Texas Gas Company was the name when it started service to this area. Did the company have another name between West Texas Gas Company and Pioneer Natural Gas Company?

Looking back this week to The Abernathy Weekly Review dated July 28, 1927. Abernathy City Council granted a 20-year franchise to West Texas Gas Company in a meeting July 21, 1927. "The maximum rate to be charged for gas in Abernathy is 67 1/2 cents per thousand cubic feet for domestic use, and rates ranging from that to 15 cents per thousand cubic feet for industrial use." Work was to start on installation of the gas system here not later than Sept. 1, 1927. Gas was to be supplied in Abernathy by Nov. 1, 1927.

Fact or Fallacy: Athletes need more protein than non-athletes.
Answer: The fact is that the athlete has no greater protein needs than his less active counterpart. Exercise increases the body's requirement for calories. High school athletes can have a requirement of more than 4,000 calories due to the combined demands of physical activity and a rapid growth rate.

USE A PRESSURE CANNER for home canning low-acid foods, such as meats and vegetables (but not tomatoes), says Mary K. Sweeten, a foods and nutrition specialist.

A pressure canner is a "must" for low-acid foods so they can reach temperatures high enough to kill botulism-causing bacteria spores that produce the deadly toxin, she adds.

Mrs. Sweeten is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Seven Hale County Extension Homemaker Club members and two County Extension Agents participated in the District Texas Extension Homemakers meeting held in Seminole recently, according to Mrs. Wynon Mayes, County Extension Agent.

Attending the all day meeting were: Mrs. Lucille Witten, Mrs. Elmo Ellis, Mrs. Jack Robertson, Miss Ora Ellis, Mrs. E.W. Odom, Mrs. Wynon Mayes, Miss Melissa Robinson, all of Plainview and Mrs. Maybell Glass and Mrs. Olean Mathis of Abernathy.

Mrs. Jack Robertson, TEHA County Chairman, gave the response on the morning program and Mrs.

Wynon Mayes presented a book review, "Medley of Erma Bombeck" for the 220 persons who attended. Mrs. Martha Crawford, State TEHA Treasurer was the representative for the Board and told the group of goals that had been set by the Executive Board for the next 10 years.

Some of the long range goals include 50,000 members over the next 10 years. Educational programs and publications, workshops and leader training programs will be instituted that will be relevant to the needs of the members as it affects families.

The six 4-H scholarships will be raised \$50 per year until the amount of \$1000

each can be awarded annually. A change in the method of paying the scholarships and presenting them will be instituted during the 1981 year.

Mrs. E.W. Odom and Mrs. Olean Mathis were voting delegates for Hale County and participated in the Board meeting following the noon salad luncheon by the Gaines County Extension Homemakers Council.

All members attending participated in one of the three workshops on Cultural Arts, Family Resource Management and Safety during the afternoon session.
