Abernathy To Lose Santa Fe Agency

Santa Fe Railway plans to establish a regional freight office at Lubbock designed to improve service to customers and create a more efficient operation. J.R. Fitzgerald, General Manager-Western Lines, Amarillo, announced this week.

This plan contemplates absorbing the agencies at Muleshoe, Sudan, Littlefield, Anton, Shallowater, Seagraves, Levelland, Brownfield, Lorenzo, Ralls, Crosbyton, Lamesa, Tahoka, Slaton, Snyder and Abernathy, and consolidating their work at the regional office.

At the same time, Santa Fe officials announced plans to maintain regional yard offices at Slaton and Snyder.

The Regional yard offices will be staffed with personnel to support and assist the regular freight offices and

trains operations and customer services.

Santa Fe officials will hold meetings Oct. 27, 28 and 29 at Littlefield, Brownfield, Lamesa, Snyder and Lubbock to explain the new operation to shippers and city officials from the affected communities.

"These small agencies have a limited staff and are open but eight hours a day," B.K. Perry, assistant general manager, Amarillo, said at the meetings. "They are often unable to provide quick response to requests about rates, car supply or car location. By having direct access to our computer, the new regional freight office will be able to respond to such questions much more quickly. The Lubbock freight office will

be open an expanded number of hours each day, giving our customers easier access by dialing a toll-free number."

"It is understandable there may be initial concern in a community when it first learns the local agent will no longer be physically located there," Perry said. "However, we believe we are going to serve them better and more efficiently under the new system. Technology available to us today makes this a logical, inevitable improvement."

Fitzgerald indicated additional offices will be established across the state. He said railroad officials will meet with shippers and community leaders in the affected areas to explain how the system works.

Antelopes Crush Hornets Nest 35-7

The over-rated Hornets proved to be no match for the Abernathy Antelopes this last Friday night as they were crushed 35-7.

The 40 degree weather had little affect on Abernathy fans as a large crowd gathered at Tulia to support the Lopes. The action on the field was easily exciting enough to keep thoughts on the game rather than the cold, but it was certainly a cold game for the Hornet fans.

The Antelopes elected to receive the ball first and began their first drive on 31 yard line. After two rushes, the Lopes elected to go to the air on their first drive. The Hornets were caught off guard and Max Riley connected with Rodney Cannon, who was all alone in the Hornet backfield. The pass play was good for 74 yards and the first touchdown of the game. Mark Riddell kicked the PAT and the Lopes were ahead 7-0 with 10:46 left in the first quarter.

The Hornets could not put together a drive, and the Lopes took over again with a successful drive highlighted by a 14 yard pass to Malcolm Dunn and rushes by Taylor, Ruiz and Riley. Riley ran into the end zone from one yard out to make the second touchdown, and it looked as if the Lopes would run away with the game at 14-0.

This was not to be the case yet. The Hornets came right back when Roland Powell ran 43 yards for a touchdown and the Hornets decreased the Lopes winning margin by 7. The half ended 14-7 in favor of the Lopes.

and the Lopes went ahead 21-7.

The Lope defense would not allow the Hornets to score again in this game, and before time ran out, the Lopes would score two more touchdowns.

The next touchdown was achieved by the running efforts of John Ruiz and Max Riley behind a tough offensive line that would not give. Ruiz carried the ball into the end zone to score the fourth touchdown of the night from three yards out.

A second touchdown would be scored by the Lopes in the fourth quarter with 4:21 left. Again it was the running of Riley and Ruiz aided by Moss and Taylor that put the Lopes within 7 yards of the end zone. Ruiz made the 7 needed and the Lopes went ahead 35-7, after Riddell made his fifth PAT good. The Lope defense held the Hornets once again and the Lopes ran the clock down.

The Lopes gained a total of 389 yards to Tulia's 164. 242 of these yards were made rushing and 147 passing. The Lopes had 23 first downs to Tulia's 10.

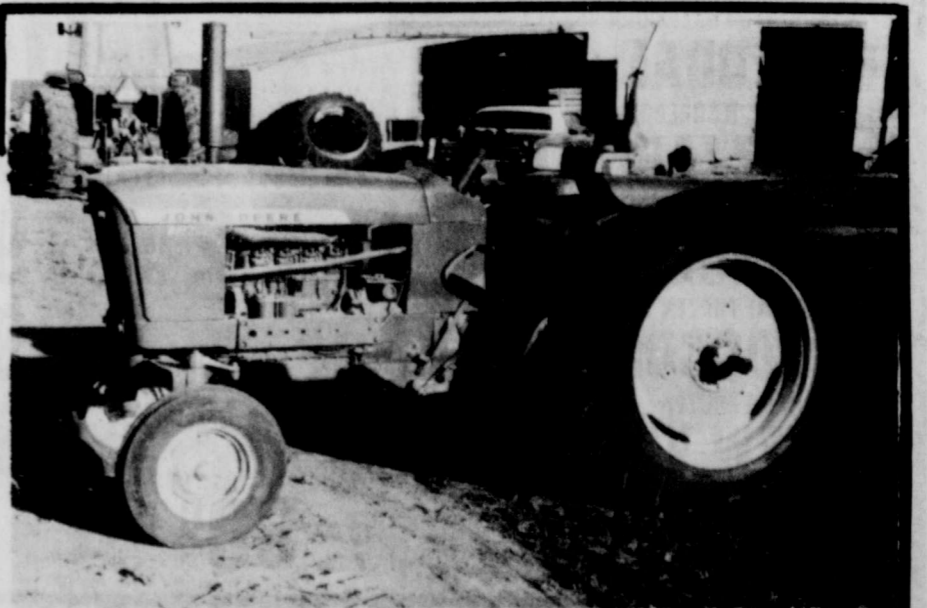

The two leading rushers were Max Riley with 83 yards and John Ruiz with 73.

COMPLETE and good for several yards was this pass to Alan Pettit in the Antelope defeat of Tulia Friday night. The Lopes won the game 35-7. (Review Photo)

Lockney," Aldridge said.

The Lopes boast a 2-0 district record and a 5-2 record overall. The only other undefeated team in this district is Floydada.

THIS BRAND NEW 19 1/2-YEAR OLD 1961 JOHN DEERE TRACTOR, was recently sold by Tommie Wages to a man from Montana. Montana. Toaves told Wages that there was probably not another brand new 1961 tractor like this one in the United States.

Toaves purchased the tractor over the telephone and sent Wages the money for the tractor before seeing it.

The small tractor was prepared for shipping. It weighed in at 7,300 pounds, which is much lighter than modern-day tractors.

Toaves will add the 1961 John Deere to his collection. He supposedly has every John Deere tractor made since they were originated. If he doesn't, Tommie Wages may have supplied the missing link.

The Lope JV will play Floydada at Floydada this evening at 5 p.m.

Wages Sells Brand New 1961 Tractor

Tommie Wages, of Abernathy, recently sold a brand new 1961 John Deere tractor to a tractor collector from Montana. The tractor has been in storage the past 19 1/2 years and is in the same condition it was in 19% years ago when it came off the John Deere assembly line.

Wages purchased the 1961 2010 Diesel Rowcrop from the late Burt Massey of Floydada. Wages, being a collector of old cars, went to the Massey residence 1 and 1/2 years ago to look at some old cars. At this time, Massey let Wages take a gander at a tractor he had stored in an insulated sheet rocked garage. The tractor had been kept in storage since Massey purchased it in 1961, a period of 18 1/2 years.

The owner of the 1958 Impala and a 1961 Metropolitan, Wages instantly wanted to add another antique to his collection, after having seen the tractor. He made an offer and Massey sold it to him.

He has 300 John Deere tractors that he keeps stored in his barns in

What do you do with a 1961 John Deere tractor that has only 4.7 tractor hours on it? What else but put it back into storage. "I just didn't want to see this brand new tractor go into the field after being preserved for 18 1/2 years," Wages said. The 2010 Diesel Rowcrop tractor was one of the first inline diesel tractors produced by John Deere.

Stored it was and has been for the past 1 1/2 years in a barn behind the A.B. Colwell farm, located one mile south of the Lakeview Church. After keeping the tractor in storage for approximately one year, Wages decided to try to find a tractor collector and sell it to him.

A buyer contacted Wages this May and told Wages he needed the tractor for his collection. They buyer was Louis Toaves of Wolf Point, Montana.

Toaves is a John Deere Tractor collector.

By: Keith Tooley

THE PASSAGE OF PROPOSITIONS 4 and 5 will greatly benefit Abernathy in the future. These two propositions will directly affect this small agricultural community. November the 3rd is the time and the Community Center is the place.

Abernathy will need water in the future and we cannot afford to overlook this opportunity to promote financing for water, as has been the case in the past.

Take five minutes and get out and vote. We need water and we need tax relief now.

past weekend. He admitted that the Lopes had more spirit and was the better team.

And he also said there were no hard feelings because his team lost to the Antelopes. Boy was it cold sleeping outside the Tooley house that night in Tulia.

IT HAS BEEN BROUGHT to our attention that several people are driving through the IOOF Cemetery at night. It would be fine if this certain group of persons would drive in and visit a grave and then exit quietly, but instead they choose to drive off the access roads and over graves.

At first, I found it hard to believe that anyone would get pleasure out of driving over graves. But I have seen the tracks and the paths that are embedded into the soil of several graves. The tracks are not all they leave. Cans and other trash is thrown into the cemetery.

It might be wise to have two locking gates put at each entrance of the cemetery. But it would not be practical to do this unless someone would be willing to lock the gates at the end of every day. Anyone having any better suggestions concerning this problem?

IT MIGHT BE WISE to mention the Review's policy for printing names in police stories. First of all, we are not bias to anyone regardless of sex, race, age, nationality, etc. Anyone breaking the law in Abernathy is naturally going to be in the police report, if the crime they committed is severe enough.

A severe crime could be defined as one in which the guilty party has been charged with a felony.

This is our policy at the Review. Anyone charged with a felony will be in the police report. The names of those charged for misdemeanors have not and will not be printed.

NEVER UNDERSTIMATE THE COWBOYS might be a good philosophy to go by after their 28-27 win over Miami. Yes, I had given up on the Cowboys when they trailed 13 points, my attention quickly focused back to the tube. This is truly the perfect pro football team and we expect to see them in the super bowl.

ON THE LOCAL SCENE, we pick the Antelopes to win this district. Lockney will not stand in the way. The Lopes will win this one by 21 points.

And then there's Floydada. Truly a team that has been over ranked as 8th in the state ranked and who's ability has been blown completely out of proportion. They haven't had a football team of there since I lived in Floydada 4 1/2 years ago.

And Childress, what an excuse for a football team. Even Idalou beat them.

And Tulia was suppose to be the team to beat this year. I may not get away with this one. I walked the sidelines with one of the biggest Hornet fans this

Civic And Non-Profit Organizations Exempt From Sales Taxes

State Comptroller Bob Bullock's office Friday said certain civic and non-profit organizations are now exempt from paying sales tax on items purchased for use by these organizations. The Comptroller's office reported recent changes by the Legislature will exempt non-profit Chambers of Commerce and groups to help the elderly from some sales tax requirements. Non-profit organizations created solely to provide assistance to elderly persons can now hold four fund-raising drives a year and not

have to collect sales tax on items made by persons at least 65 years old. The tax-free sales may take place on no more than 20 days during the year. Other organizations given exempt status by the Legislature must also qualify for an exemption from federal income taxes. Groups now exempt include: Organizations such as Rotary, Optimists, Kiwanis, Junior Chambers of Commerce, Lions and Garden Clubs and some property owner associations that are exempt from federal

taxes under Section 501 (c) (4) of the Internal Revenue Code (IRC). Fraternal societies such as Masons, Elks, Moose, knights of Columbus, DeMolay and the Eastern Star that are exempt under Section 501 (c) (8) or Section 501 (c) (10) of the IRC. Organizations formed to benefit veterans such as the Air Force Associations, American Legion, Veterans of Foreign Wars and Disabled American Veterans that are exempt under Section 501 (c) (19) of the IRC.

Computer Workshop Held At AHS

An instructional workshop on the Pet Commodore Computer and Word Processor was held all day Friday and Saturday, October 16 and 17 at Abernathy High School. The workshop was conducted by Dr. Lyndell Hutcherson from the Carrollton-Farmers Branch Independent School District near Dallas. Dr. Hutcherson has

been very instrumental in helping develop the computer-assisted teaching programs in Abernathy Public Schools. Dr. Hutcherson pointed out to the group that the Pet Commodore Computer was very adaptable to both the educational world and the business world. The computer can function as a com-

puter as well as a Word Processor, (a sophisticated, printing typewriter). Those attending the workshop were Barbara Webb, Floyd Galloway, Sharon Kester, Ann McCune, Faye Lutrick, Jeri Boyles, Wanda McKinney, Liz Attebury, Mary Mendoza, and Mary Jo Snodgrass.

Abernathy Salvation Army Fund Drive Organized

The kickoff meeting for the annual Salvation Army Service Unit fund drive in Abernathy was held at Halford Hall in the Church of the Nazarene at 10 a.m. October 28, according to Hoppy Toler, chairman of the local Service Unit committee. The committee chairman also revealed that the Rev. Roswell Brunner, pastor of the Church of the Nazarene, will serve as campaign chairman for the fund drive. The campaign chairman noted that the goal of \$900.00 will be used by The Salvation Army to help those in need in the area.

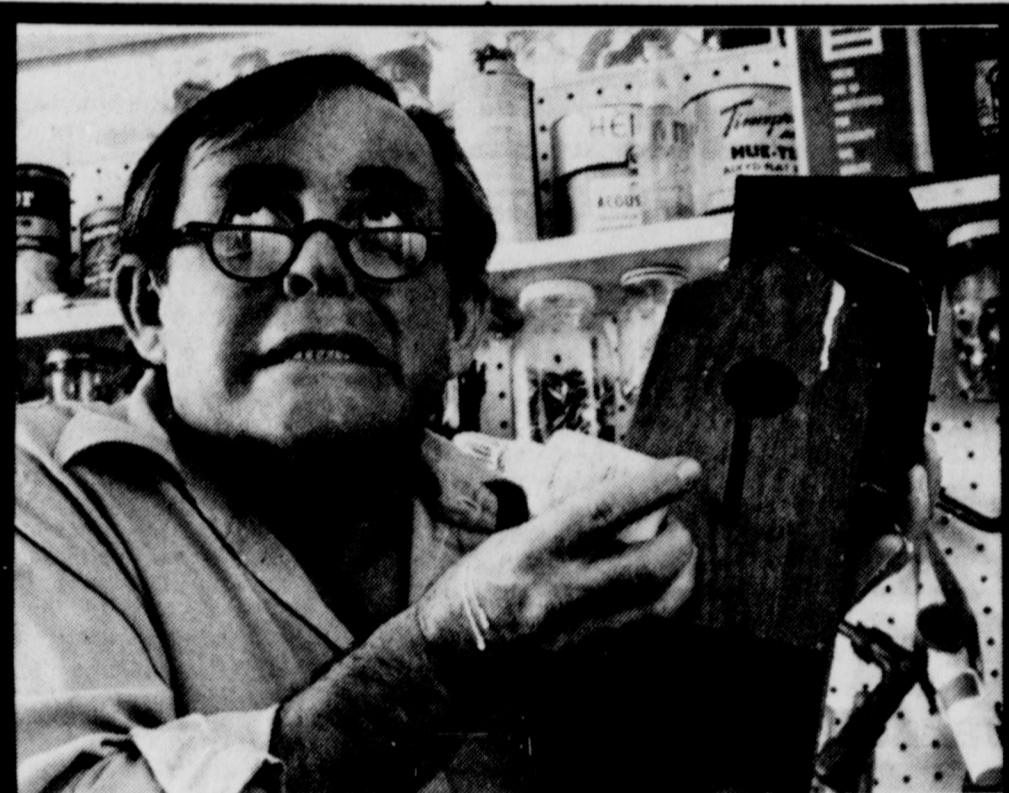

"We are confident that our community will support the emergency fund program as generously as in the past," Rev. Brunner commented. The Salvation Army Service Unit committee, composed of business and civic leaders in Abernathy, carries out a year-round program of aid to people with emergency needs. Acting on behalf of The Salvation Army, the committee arranges for food, lodging, utilities or other basic necessities that a family or individual might require in a crisis situation. The Service Unit commit-

tee also acts as a liaison with The Salvation Army's state-wide programs; such as summer camps for deserving youngsters at the Army's Camp Hoblitzelle near Dallas; help for paroled prisoners; and emergency relief in times of natural disaster. In addition to Chairman

SAFE HALLOWEEN TIPS TO FOLLOW

If you don't want Halloween to haunt your children this year, use some health and safety precautions to prevent their trick or treating from turning into tragedy.

When you put a lot of youngsters on the streets at night in dark neighborhoods, accidents can happen, says Harold R. Ray, Director of the Product Safety Division of the Texas Department of Health (TDH).

"Planning the Halloween excursion can resolve some of the pitfalls which may befall children," said Ray. "The best idea is for parents to go with their children."

He said parents or the children should carry flashlights so they can be spotted in the darkness. The flashlights will provide better vision and perhaps save falls which could happen on uneven ground or while going up or down curbs. Lights also may help keep unfriendly dogs at bay, said Ray.

"It's better to eat the traditional treats that are individually wrapped by the manufacturer. Unwrapped items, or those in torn wrappings, should be inspected very carefully. Fruits, he said, should be washed and then cut into small portions before eating, said Ray.

Ray said a good plan may be to have a neighborhood party for children in the same age, or to have parties at church or at school. This way the children will be able to dress appropriately in costume while having a chaperoned event in safe surroundings, said Ray.

Halloween comes on the eve of All Saints Day, which is celebrated on November 1, and was known as Halloween (evening), Robert Burns in "Hallowe'en", presented an imaginative and humorous version of the ceremonies as practiced in the rural Scottish districts of his day.

Halloween has been associated in the popular imagination with the prevalence of supernatural influences: hence, the carry-over of witches, skeletons and other frightening things in costumes and decorations.

WINDOWS
Text "Then spake Jesus again unto them saying, I am the Light of the world: he that followeth me shall not walk in darkness but shall have the light of life." John 8:12

A five year old girl suffered from a muscular ailment which left her unable to stand or walk. Her play was confined to the floor and her view was limited. A service club bought her a wheel chair, and she said, "Now I'll go and look out the windows."

Her resolve might well be that of everyone, especially those who know the attraction of the light of Christ. Remembering to look out the windows will make everyday of thanksgiving. How much wiser was the little girl than those who lose the power to be grateful because they have permitted greed or prejudice or complaining to cloud the windows through which they might look out?

To give thanks in all circumstances will keep alive the sense of wonder by which daily life can become more and more wonderful.

Local Cooking Specialist To Participate In Bazaar

Linda Barton will be a participant in this year's Arts and Crafts Christmas Bazaar at the Community Center on November 7.

She has been cooking professionally for five years and has attended various cooking schools in Lubbock, Austin, and Santa Fe. While in Santa Fe she did a short apprenticeship under a Master Chef at La Creperie. She has taught cooking and has won numerous cooking awards.

Linda uses only pure ingredients in her cooking—real butter, pure cream, & fresh eggs. This accounts for the high quality of her foods.

She will have a good selection of different types of breads, pumpkin and pecan pies, and candy at the Christmas Bazaar.

She caters breads, main dishes, and fancy desserts, ranging from one family to as many as 100 people.

Struve's Trip Continues

By Arno Struve
Department Stores. There are two kinds of stores in China, one in which the Chinese trade and another established apparently for tourists called "Friendship Stores". Prices are the same in each kind of store where they sell the same merchandise.

The regular department stores had a much greater range of things to buy, since sales were made for the average citizen. Both kinds of stores were multi-storied, usually three. The buildings were heavy masonry square-architecture structures.

Usually the stairs were terrazzo and had a safety-strips imbedded into the stairs about 2" from the edge. These safety strips were seen in all the stairs that we saw.

The department stores were nearly always crowded with customers. Prices are extremely reasonable. I purchased a fine denim shirt with a high collar for a little over \$5. A padded silk jacket for winter wear around the house costs about \$35. Mr. Chen suggested the padded silk jacket for warmth.

We purchased other items such as hats, knives, fire-dragon bowls, Chinese soup spoons and ladles, vases, Cloisene vases, rings (cloisene), whistling cruets (that won't whistle for us), tablets, paper cut-outs, pencils, chopsticks, many books in color of the things we saw, postcards, an aromatic sandalwood fan and other items that seemed to be typically Chinese. After we got home, we wished we'd bought more!

Color printing: The Chinese make very fine picture books in color which are tremendously inexpensive. People on bicycles. Since people are not permitted to own private cars, everyone has to have a bicycle. At rush-hour, when people are going to and from work, the streets are "rivers" of bikers. The buses had to warn bike-riders constantly so they'd know we were coming.

Some drivers were constant horn-blowers, but others were gentle and considerate. The latter were invariably the smoothest drivers, too. We marveled at the ease with which some of the drivers negotiated through the crowds of people, mule carts, bicycles, push-carts and tractor pulled trailers.

We had one old Chinese driver in Hohhot, the Mongolian city, who had little patience with people who didn't get out of his way when he blew his horn. In one instance he had to apply his brakes at the last moment because he wanted to express his displeasure at a biker who didn't hustle out of his way as quickly as he thought he should. The passengers (us), were thrown forward in our seats. No harm done, but we didn't care for that driver.

People. Hordes of people. Curious people. People doing hard manual labor. We were always the object of great interest when we passed down the street, and especially when we stopped. We even gathered a crowd once when we were stalled in the country where there were no houses within a mile. By they were friendly and smiling, especially the children. Of course we got a lot of good pictures in these situations.

Parks. Heavily used. Heavily trodden under hundreds of feet. No chance for plant life such as grass in most instances. People use the parks in the late evening, somewhat like they do in Latin America.

In Xian there was a television set up at a little pavilion in a big park and a crowd was gathering to watch. Very few people can afford TV. We didn't see many antennas. In Langzhou, at the hotel, we watched a basketball game on television between the China National Team (girls) and some U.S. college all-stars. The Chinese team won by a comfortable margin.

Struve's Trip To Continue Next Week.

Religions. We felt that the Chinese were very religiously inclined and if given the chance will embrace Christianity enthusiastically.

tically, it was our impression that the Christian missionaries of the long past treated the Chinese rather disdainfully, making them feel inferior instead of as brothers.

Labor was so very cheap that it was easy to mis-use their associates. Also the Chinese tradition of the superiority of scholars heightened this practice of disparity between the missionaries and their congregations. Brotherhood of man got lost somewhere in the process.

The Chinese are struggling today to eliminate the class divisions that placed great barriers between farmers, laborers, and menial servers and people of wealth and scholarship. The essence of the Cultural Revolution was this traumatic struggle to teach people that honest labor is just as "dignified" and important as any other way of serving.

Struve's Trip To Continue Next Week.

Those To Remember
Mrs. Addie Turner underwent surgery Monday morning at Methodist Hospital.

Mr. L.T. Nix remains for treatment in Methodist Hospital.

Bill Gist is now at home from Methodist Hospital.

Beatrice Hix is at Methodist Hospital.

Pearl Givens is a patient at Methodist in room 462.

Alice Cook was dismissed from Highland Hospital and is at the home of her daughter, Mrs. Faye Pope.

H.H. Oliver remains in Hi-Plains Hospital.

Talk Of The Town

Mr. and Mrs. Curtis Davenport, of Tuscola, visited in the home of Mr. and Mrs. Cal Tucker last Wednesday and Thursday.

Mr. and Mrs. Jerry Adams, of Tuscola, visited in Abernathy last week and stayed in the home of Mr. and Mrs. Calvin Beckum of Lubbock.

Frozen mixed fruits, served partially thawed, make a quick, elegant dessert. Add sliced bananas, diced apples or mandarin oranges.

WHAT'S COOKING? Linda Barton will be a participant in this year's Arts and Crafts Christmas Bazaar November 21. She has been cooking professionally for the past five years. (Review Photo)

LETTERS TO THE EDITOR

EDITORS NOTE: City Manager Rod Ellis sent a letter in August 1980 protesting the results of the 1980 Abernathy census. The letter was sent to the Census Bureau, Senator John Tower, Senator Lloyd Bentsen and Representative Kent Hance. Ellis questioned the 1980 census figure of 2,698 people in Abernathy and requested that there be an investigation and a recount of our population. Ellis received word that the population had been re-counted and that Abernathy has 2,906. This number has not been confirmed by the Census

LET'S KEEP THE WATER RUNNING IN TEXAS!

In cities and towns all across Texas, local water problems are threatening to erupt into one enormous statewide crisis. Countless communities are facing growing water supply, water treatment, sewage treatment and flood control problems estimated to cost a staggering \$50 billion over the next 25 years. To make matters worse, federal funds for water projects have recently been slashed. But on November 3, Texans have the opportunity to adopt a plan, already passed by two-thirds of the Legislature, which would harness a portion of our state's budget surplus to help shoulder that heavy local burden. The plan is proposed Constitutional Amendment No. 4.

Passage of Amendment No. 4 would:

- Make possible the sale of more than \$200 million in authorized and urgently needed state bonds to address a backlog of needed projects.
- Create a loan guaranty program to enable local communities to save millions of dollars in issuing future bonds.
- Begin to build a "nest egg" for the future from a part of the state's budget surplus to assist local governments in financing future water and sewage projects.

Texas' water needs *must* be met, either now or in the future. We can act now, and save money... or pay the higher price later for our neglect, with possible increased taxes. Sensible action now makes much more sense for Texas.

VOTE FOR CONSTITUTIONAL AMENDMENT NO. 4 ON NOVEMBER 3!

Dear Friends,

We have delayed writing this letter, hoping we would know for sure what William's title would be. With postage going up, though, we thought we had better go ahead and write.

It was shocking to us in March when we were informed that, due to financial reasons in the mission, William would no longer be South Central Regional Director. He is now missionary Evangelist and has been helping Men With Vision start chapters in the area. William's salary has been decreased substantially, and

we are desperately in need of shares. This is our main source of income.

We had a good July in Haiti where William headed up a work crusade. Jon worked

hard for the Morrises in Sweetwater to earn his own money to go. Joyce enjoyed the trip thoroughly. We thought the Haitians looked so similar to the Barundi that we wanted to speak Kirundi!

Becky will be married December 19 to Jimmy Smallwood, originally from Odessa but now living in Garland. She wants all our friends to know and is using this letter as a means of informing you.

She hopes to finish her master's program by May 1982. She is also staying busy with her first graders and church responsibilities. Lydia has been working at the First National Bank in Dallas since December 15 and was promoted to executive secretary in October.

Jon is an active junior in high school. He is president of the Patton Springs FFA Chapter, plays quarterback, and was a Homecoming Court escort.

In His Love,
The William Mayc family

Hale County Allocated Over \$164 Thousand From Road Fund

State Treasurer Warren G. Harding announced today that early next week \$25,770,675.15 will be distributed to the 254 Texas counties. These funds are the Lateral Road Fund administered by the State Treasurer's office as allocated by the sixty-seventh legislature.

The Hale County allocation is \$164,482.39, and the funds will be used for the construction and improvement of country roads. The lateral road fund is comprised of monies derived from gasoline taxes collected at the pump. The county allocations are based on the county square mile area, the rural population, and the county lateral road mileage. Expenditures of the funds are reported by the counties to the State Treasurer.

Treasurer Harding stated that the distribution includes money appropriated for fiscal years 1980, 1981, and 1982, as well as interest earned on these funds. The 1982 funds are being distributed now rather than at the completion of the fiscal year.

During a lifetime, the average human heart beats two and a half billion times.

Failing to secure passage of what it considered acceptable peanut and sugar support programs, the House leadership gave up on getting a final vote Friday and pulled the bill off the floor. Unless there's another change, which would surprise no one, they'll bring it back on Tuesday, October 20.

COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

Sporadic, on-again off-again House consideration of the 1981 farm bill plowed into another stump late in the day on Thursday, October 15.

It also parallels the Senate bill, as does a provision abolishing the disaster program in all except counties where all-risk federal crop insurance is not offered. Therefore there will be no cause for discussion of loan provisions or the disaster program in conference committee, leaving little chance any change will be made.

In fact where cotton is concerned the House and Senate bills as they now stand leave only two major differences to be settled in conference.

The Senate opted to set the target price at 71 cents per pound for 1982 and mandates an increase of five cents each year through 1985. The House measure fixes the target price at 120 percent of the loan each year.

The Senate bill carries one provision not mentioned by the House. The "Heflin amendment" would require quality differences in the cotton loan schedule to be calculated each year as a simple one-to-one average of the previous year's loan differences and recent spot market premium and discount quotations. That amendment in turn was amended to require the establishment of a study committee to "study alternative methods of establishing values of premiums and discounts... that will accurately represent true relative market values..." for U.S. produces cotton.

According to Gary Ivey of Ralls, current President of Lubbock-based Plains Cotton Growers, Inc., the bill's cotton section is essentially the same as it came from the House Agriculture Committee. Ivey and PCG Vice President Myrl Mitchell of Lenorah were in Washington prior to and during House deliberations.

Provisions of the House measure for cotton would set the base loan each year at (a) 85 percent of the median price of the past five years average U.S. spot market prices or (b) 90 percent of the July 1 through October 15 average of Northern Europe prices, whichever is lower. However if for any crop the Northern Europe price is below the U.S. market average, the Secretary at his discretion could set the loan at any level between the two. This is the identical formula used in 1979 and 1980.

Clements Warns Amendment 4 Failure Could Lead To Future Tax Increase

Governor Bill Clements warned Texans this week that defeat of Amendment No. 4 in the general election on November 3 could lead to higher taxes in the future.

Clements made the remarks at a meeting of Water for Texas Committee, a statewide organization of prominent leaders who are backing the amendment, which would provide a plan for setting aside a "next egg" from the state's budget surplus to help finance water projects.

"The truth of the matter is, Texans are more likely to face increase taxes if we DON'T pass Amendment No. 4," Clements declared. "That's simply because the surplus will be frittered away every two years with the help of some lawmakers opposing Amendment No. 4, and we'll end up facing a water crisis down the road that people will demand we take care of, even if it does mean a tax increase."

The proposed amendment, backed by the governor, a two-thirds majority of the Legislature and a committee of prominent leaders throughout the state, would provide for three actions:

- (1) Allow an increase in interest that can be paid from the current limit of 6 percent, now preventing sale of more than \$200 million in authorized and urgently needed state bonds, to a more realistic rate of 12 percent.
- (2) Create a loan guaranty program which will enable local communities to issue water project bonds at a lower rate because of backing of credit by the State of Texas.
- (3) Set aside one-half of the state's budget surplus

every two years to create a priority "next egg" fund to assist local government in financing of water and sewage projects and pay for vital research programs.

Proposition 5 To Correct Inequities In Taxation

The passage of an amendment important to Texas farmers and ranchers will be considered by voters on the Nov. 3 election ballot, according to Carrol Chaloupka, Texas Farm Bureau president.

Proposition 5 will include livestock and poultry with other farm products already exempt from property (ad valorem) taxation.

The passage of Proposition 5 is being sought because it corrects inequities in property taxation, Chaloupka said. Presently, the Texas Constitution reads: "Farm products in the hands of the producer are exempt from all taxation..."

However, in 1976, former Texas Attorney General John Hill ruled that livestock and poultry are not "farm products" and thus could be taxed.

"Passage of this amendment will eliminate the inequity caused by that decision," the Farm Bureau president said.

"Presently, only one-fourth of one percent of tax revenues are generated by livestock and poultry," he said, therefore, elimination of this tax would not be a burden on school districts in lost revenue. Passage of Proposition 5 would assure fair, uniform tax treatment for all food producers across the state, he said.

BBB Warns Locals To Beware Of Painters And Contractors

South Plains residents are cautioned to be on the lookout for itinerant painters who are working in the surrounding area. It has been reported by one consumer that when the rains of the past few days hit, the new paint job washed off.

This is a typical home improvement scheme in action. If you are contacted by someone wanting to do a paint job for you, please check their references and check with us.

Some contractors have

been known to change phoney signs on the side of trucks in order that people believe that they are a local contractor.

Sometimes license plates are also altered. If you have a problem with such a contractor, please contact your local police, sheriff or our office immediately.

Your BBB has also received an unusual number of calls this past week concerning unknown companies that are offering contracts on cotton. As with any con-

tractual agreement that involves a company which you do not know, we advise that the consumer move carefully. The best thing to do is to consult your attorney or banker.

Remember, a company that tries to pressure you into doing something or signing something on the spot may not have your best interest at heart. In short, the BBB motto, "Investigate Before you Invest" applies.

We, the family of Jack Jackson, would like to express our appreciation to each and everyone of you for being with us through this time of sorrow.

We know there were several names that we didn't get and some addresses that we couldn't find again, thank you all. Perhaps you sent a lovely card, or sat quietly in a chair. Perhaps you sent a funeral sprav. If so we saw it there. Perhaps you spoke the kindest words, as any friend could say; Perhaps you were not there at all. Just thought of us that day. Whatever you did to console our hearts, we thank you so much whatever the part.

God Bless you all, Merle, Steve, Teresa, J. Frank and Carol
