

Gid Adkisson Selected School Superintendent

It was announced by the School Board at 9:30 Friday morning, that Gid Adkisson has been selected as the new Superintendent of Abernathy Schools. Gid's wife Marie and 13 other visitors were present to witness the occasion.

The past several weeks, the School Board had interviewed seven applicants for the job in separate executive meetings. Approximately 51 people applied for the job, but these applicants were screened and seven were interviewed.

In announcing their decision to hire Adkisson as Superintendent, the board said "after many long hours of deliberation and careful examination of all applicants, we feel that we have selected the best man for the job."

Adkisson was granted a three year contract at \$10 thousand over base.

Gid Adkisson has seen a lot of school teachers, administrators and superintendents come and go in the 60 years he has lived in Abernathy. He still lives on the farm where he was born in 1922, located 3 1/2 miles southeast of Abernathy. He was the son of Mr. and Mrs. G.B. Adkisson, Sr.

Adkisson grew up at the time when

Abernathy had no paved streets. Some students still road their horses and horse and buggies to school and parked them at a stable there.

There was only one school building during his early school years. The building served 11 grade levels and approximately 300 students.

Adkisson graduated from Abernathy High School in 1940. He attended Texas A&M College, (as it was a college at that time) for a period of 3 years. He was a senior striving to obtain a degree in Agriculture when WW II came along. When it did, the entire junior and senior classes were inducted into the services in 1943.

In November of 1943, he married the former Marie Hall of Quitaque.

He served in the Army for the next three years, 1 1/2 years of which he served over seas in Europe.

Adkisson got out of the services in 1946 and returned to Abernathy to farm. He farmed for the next twelve years.

In 1958, Adkisson went back to A&M and got his degree in Agriculture. This same year, he began teaching Math at Abernathy High School.

He taught Math for the next two

years while obtaining his Masters Degree in Education from Texas Tech University.

He became the Junior High School principal in 1960 and served in this position for the next 10 years.

In 1970 he became Director of the Bilingual Education program for two years, then Director of HONDA for two years.

In 1974, Adkisson became the Elementary School principal for the next seven years and in 1981 he moved back to his position as Director of HONDA (special education).

Since filling the position of School Superintendent, a new HONDA Director will be named to replace Adkisson. Adkisson stated that he knew there was a possibility that he would be selected superintendent, but when he heard the board's decision, he was elated.

In a recent interview, Adkisson stated that it is an honor and the job will be a great challenge.

"The Board of Education and the community has placed a great deal of confidence in me by selecting me as their Superintendent of Schools. I deeply appreciate this vote of confidence."

GID ADKISSON and wife Marie, were honored Saturday by the Abernathy Junior High students and teachers. They recognized Gid's appointment as the new Abernathy School Superintendent, by making a "Congratulations You Are #1" sign. The Junior High Student Council presented Gid with a scroll signed by all Junior High Students. The teachers gave Gid a potted plant. Gid Adkisson was selected Abernathy School Superintendent last Friday. He will serve in the position Delwin Webb previously held for 18 years. (Review Photo)

Adkisson said.

"I think that we have one of the best schools in the state and I will make every effort to maintain this degree of excellence and to help the school progress even further," Adkisson ended.

Gid and Marie have six children, five of which have graduated from Abernathy High School.

ON THE COUNTY LINE

BY KEITH TOOLEY

EVERY NEWSPAPER has a deadline and there is a purpose for it. We cannot make our deadline every week if you don't make our deadline every week.

Sounds confusing, but in the newspaper business there is not such a thing as skipping an edition or not making the deadline.

Please help us out in the future and bring your news and ads in before 4 p.m. Monday. In the past, we have been letting people slide to 5 p.m. But in order for us to make our deadline, we will have to have it by 4.

CONGRATULATIONS TO THE DISTRICT UIL WINNERS. Abernathy has once again proven to be superior to other area schools in academics.

Abernathy students not only excel in sports, but are strong in all areas of education. This is a good reflection on the teachers, coaches and the Abernathy School system.

OUR APPOLOGIES to Jerry Adams &

Clyde Vandygriff for the error on the front page of last weeks edition of the Review. We had a mass quantity of pictures last week, and somehow we put Jerry Adam's name under Clyde Vandygriff's picture. We regret the mistake and will strive to prevent these errors in the future.

BEWARE OF TORNADES...The season is approaching and one town in Texas was devastated by a couple of tornadoes last week. Paris was destroyed and 8 people lost their lives. 200 others were injured.

This could happen to Abernathy. We are located in the tornado belt and have been lucky in the past for evading the major storms.

The City tested the siren two weeks ago in preparation for tornadoes. Hopefully the sound will reach all residents if a tornado approaches.

Tornado safety tips were printed in the Review last week. Those who want to be prepared, should read the safety tips. It may save your life.

Police Report

The Abernathy Police Report for March revealed that 39 tickets were issued and 14 arrests were made, according to Police Chief Raymond Naron.

Of the 14 arrests, one was for the theft of an automobile owned by Tammy Henson, Naron said.

The theft occurred March 15 at 11:30 p.m. when the auto was taken from where it was parked in Lubbock. The automobile was found later at the 1300 block of Ave. L in Abernathy, Naron said.

Kirk Wade, Jr., of Lubbock, has been formerly charged for theft of the auto.

The charge is a third degree felony, Naron added.

Other Arrests

Other arrests made in March are as follows: 1 criminal trespassing, 7 public intoxication, 2 disorderly conduct, 1 consuming alcoholic beverages after hours, 1 possession of marijuana, 1 auto theft and 1 aggravated assault of a police officer, according to Naron.

Three wrecks occurred during March, but they were all fender benders and no one was injured, Naron ended.

Teenager Charged For Burglary

A 17-year-old white male has been charged for burglary of a habitation, according to Police Chief Raymond Naron.

The incident occurred Saturday at 4 p.m. at 1210 13th Street, the Rosa Garza residence, when the teenager entered a back window in the house and took \$8.35 in cash, Naron said.

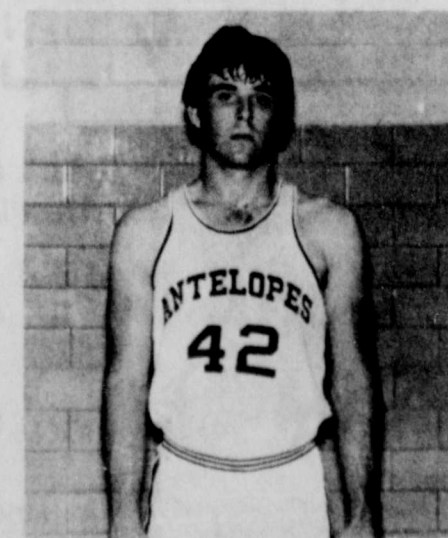

Rosa Garza was in the house when the teenager came back later, after leaving for a while, and saw the teenager in her house.

Garza caught the teenager and made him stay until police officer Johnny Clayton arrived to arrest him.

The charge is a first degree felony.

Cannon Selected To Play In All-Star Game

Rodney Cannon, of Abernathy, has been selected to play in the All-Star Game in Waco 15, 16, and 17th of April. He will also play on the Houston Coaching Team during the Texas High School-Coaching Association meeting in Houston July 19 thru 23rd.

School Board Sets Run-Off Election

The Abernathy School Board met Monday night at 7:30 and discussed a long agenda of business items. Twelve visitors were present.

Bud Rhodes gave the invocation followed by the minutes of the previous meeting being reviewed and accepted.

The first item of business was to canvass the election returns. At first there was a mix-up and board members deliberated 35 minutes before postponing the results of the school election. The election judge had to be contacted as a page was missing from the returns.

Later, the election returns were certified and the following results were announced: Speck Cox had 424 votes to Lonnie Cannon's 270 to win place two on the School Board.

Robert Pope was elected to place five with 432 votes. Lelloine Waits got 183 votes and S.R. Barrick 76. And for place seven, there will be a run-off election between Don McKenzie with 177 votes and Gale Davis with 159. Jim Carver had 107 votes, Lee Blanco 126 and Donna Powell 126.

The run-off election will be held May

Masons To Meet

Abernathy Lodge 1142 AF and AM will have a stated meeting April 8th, tonight, at 7:30 p.m. All members and visitors are urged to attend.

Election

1 between Davis and McKenzie and the new board members will be sworn in at the May School Board meeting.

A request made by Jerry Adams to permit his daughter, Laurie Adams, to graduate with 21 credits, was denied by the board.

It was denied on the grounds that it would be a violation of school regulations to permit a student to graduate with 21 credits, 7 semesters, rather than the 24 credits - 8 semesters that are required by Abernathy Schools. Mitch LeMoine stated that if Laurie was permitted to graduate with 21 credits, all other seniors would have been eligible to graduate early also.

Mitch LeMoine requested that the board help finance the Junior-Senior Banquet, to be held soon. The banquet will cost approximately \$1,673, assuming that 208 people attend.

LeMoine pointed out that the students need to raise the money to take a senior trip and the added banquet cost would diminish their trip funds. The Trip will cost \$3,400.

The board agreed to pay \$750 of the banquet expenses and termed the action "one year only."

Abernathy coaches will be allowed to conduct basketball camp again this summer.

George Riddell spoke to the board about allowing the band students to take a spring trip. The band will finance the trip that will cost \$3,900. The trip will be May 1 and 2 to Carlsbad, New Mexico where the band will compete in the concert contest and parade. The board approved the trip.

City Manager Rod Ellis presented the board with the plans of the city sewer system. A main line is located under Junior High and at times sewer water backs up into the academic center.

There are two alternatives, put a sump pump in a man hold there or re-route the main line at a cost of \$18 thousand. The sump pump would cost \$3,500. No action was taken.

There are three school maintenance vehicles, one of which is in terrible shape. The board agreed to buy a used pickup to replace this old maintenance vehicle.

The Board was notified that the TCEA meeting will be held September 25.

The Board discussed the \$143 thousand that was spent on the track in Antelope Stadium. \$124 thousand has been paid, but the board decided not to pay the \$19 thousand owed until improvements are made to the track that should have been made at the time of

Eggs, Baskets and Bunnies On Display

Spring is evidence at the Abernathy Public Library. In the display case there is an assortment of handmade and hand-decorated eggs, different types of baskets and charming variety of bunnies.

Mrs. Morris (Ann) Stevens has used her talent in woodworking to create a basket of eggs carved from various types of wood. One large egg is created from mahogany.

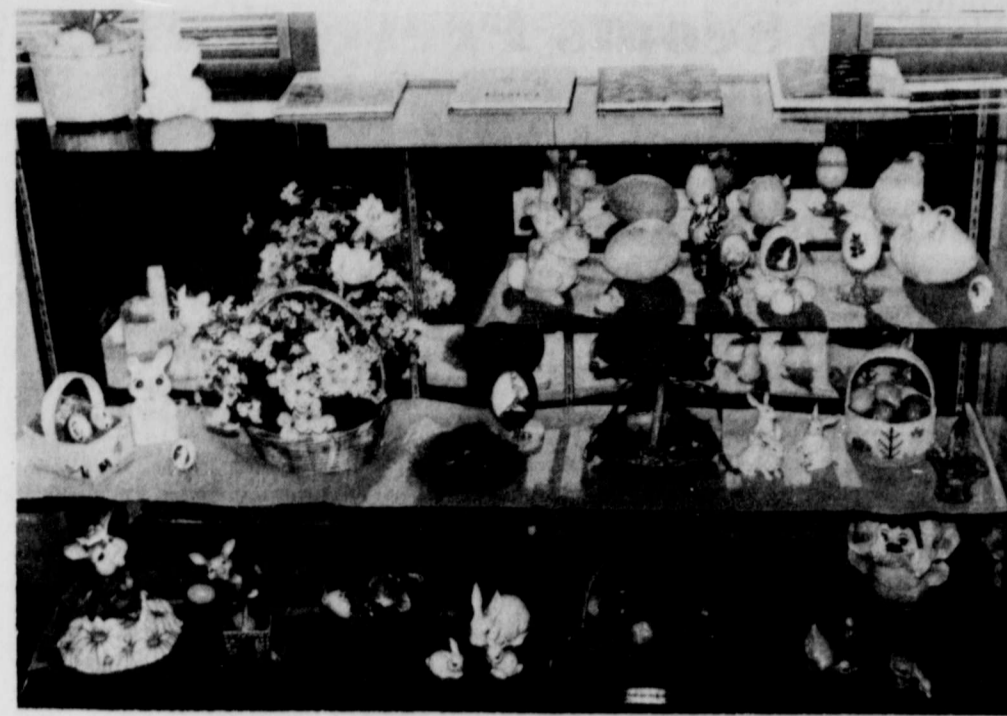

The use of eggs is an important part of the Russian Easter celebration. Displayed is an exhibit of eggs

created by Russian peasants depicting folk tale themes. Also, a group of Ukranian eggs decorated in the pysanky tradition of wax and color.

Mrs. Elbert (Clara) Harp has decorated chicken eggs with a spring theme, as well as an emu egg.

Various types of baskets are used to display the variety of eggs. Wicker, ceramic, and needlepoint baskets may be viewed.

Adorable bunnies of China, ceramic and fabric complete the touch of spring at the library.

EGGS, BASKETS AND BUNNIES on display at the Abernathy Public Library this month. Everyone is invited to come and view this Easter display and read a book about Easter. (Review Photo)

ATTEND ABERNATHY HOUSES OF WORSHIP

WORD OF GOD

But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed them all.

Even thus shall it be in the day when the Son of man is revealed.

In that day, he which shall be upon the housetop, and his stuff in the house, let him

not come down to take it away; and he that is in the field, let him likewise not return back.

Remember Lot's wife.

Whosoever shall seek to save his life shall lose it; and whosoever shall lose his life shall preserve it.

I tell you, in that night there shall be two men in one bed; the one shall be taken, and the other shall be left.

Two women shall be grinding together; the one shall be taken, and the other left.

Two men shall be in the field; the one shall be taken, and the other left.

Luke 17:29-36

Two women shall be grinding at the mill; the one shall be taken, and the other left.

Watch therefore; for ye know not what hour your Lord doth come.

Cub Scouts Presented Badges And Awards

Cub Scouts gathered together Monday night at the First United Methodist Church for an evening of fun and games.

Den # 4 opened the meet-

ing with the parade of the flag followed by the "Pledge Of Allegiance". Next the parents were entertained by Den 3, which presented a skit entitled "Cub Scout

Stew".

The "Red Ridge Boys" from Den 1, with their own hand made guitars, were there to pantomime their version of "Elvira".

Den # 1 Boys also completed four hours of the heart saver course taught by Jackie Buck, EMT, and Raymond Davis EMT-P. Boys who completed this course were Bradley Boozer, Jamie Buck, Billy Taylor, Corey Lusk, Brian Sparks and Joel Horenberger. They each received a certification card from the American Heart Association.

The boys have been busy throughout the year earning their patches and arrowhead awards. In order to receive one arrowhead, the boys must complete ten electives in their cub scout book.

Ten Shallowater Cub Scouts were presented with Wolf Badges and Arrowhead Awards. A boy must complete 13 achievements before he is entitled to wear the Wolf Badge.

Boys receiving awards were Den # 2, Brandon Perry, Den # 3 Leslie Sherman (2 Silver Arrow Heads), Justin Ables (4 Silver Arrow Heads), Shawn Springer (4 Silver Arrow Heads), Bryan Peeks (2 Silver Arrow Heads) Sean Campbell (2 Silver Arrow Heads) Michael Mann (2 Silver Arrow Heads), Alan Scott Derker (2 Silver Arrow Heads), Den # 4 Jr. Valverde (1 Gold Arrow Head), and Jay Seal (1 Gold Arrow Head and 1 Silver Arrow Head).

A lot of boys are involved

in the scouting program and they would like to see it grow bigger and better. If you would like to help, we have a place for you. Our

next meeting will be April 27th, 7:30, at the First United Methodist Church. Everyone is invited to attend. See you there!

 Mr. Garner, the Distributive Ed. teacher, will be featuring the Co-op students of Shallowater High in the next few issues of the paper. These are the students who go to school half a day and work half a day.

The stories will feature where the students work and also some of their tasks at work. Be sure to catch the Shallowater Review for surprising stories about these students!

Shallowater Methodist Women Meet

The United Methodist Women of Shallowater met Monday evening, March 22, in the Church parlor. After a short business meeting, members adjourned to the Fellowship Hall for an art demonstration.

The art demonstration was led by Mrs. Pat Isbell, a noted artist of Shallowater.

Mrs. Isbell's demonstration was a floral arrangement. She not only painted, but gave bits of information on the various techniques she used.

Mrs. Isbell is a very

talented artist. She has exhibited her paintings at various places in our area. Mrs. Isbell also teaches art classes. The ladies attending came away with a much greater degree of art appreciation.

was hostess for the evening. Twelve members and six guests attended.

The next meeting will be April 12th at 7:30 p.m. The United Methodist Youth of Shallowater will present the program.

Shallowater Potpourri Continued...

By Keitha Hopson
The following is an article by David Westbrook, one of the high school Journalism students who helped me with the school news this week. As a teacher, I am naturally proud of the achievements of Shallowater students.

The Year In U.I.L.
The University Interscholastic League has long been an influential, governing body for all types of elementary, junior high, and high school activities, from literary activities like Spelling, Journalism, Speech,

Drama, and Music all the way to activities in sports such as football, basketball, tennis, and track.

The Shallowater Independent School District has definitely excelled in all such areas in 1981 and 82. However, the many victories and successes of the year in U.I.L. have not been easy; rather, they have been earned by much effort and practice. Therefore, they are deserved.

On April 15, 16, and 17, sixteen students, myself included, will proudly re-

present Shallowater High School at the Regional Literary Meet in Odessa, Texas to compete with other schools in Region I. It is my hope that, as last year, as many State qualifiers will emerge as possible.

As a State Winner in U.I.L. Persuasive Speaking from last year, I would like to sincerely wish all contestants from S.H.S. the best of luck at Regional. It is indeed a fantastic accomplishment to advance that far.

But whatever the Regional results may be, it must be remembered that in educational competition, there are NO losers! This is because the self-discipline involved in competition are keys to those same values that will be of great value to everyone in life, therefore, there is quite a range of benefits from engaging in such an experience.

So, as we prepare for Regional and beyond, we ask for your support and best wishes; for those are two of the things which have gotten us as far as we are today.

With special thanks to all readers, David Westbrook.

Shallowater F.H.A. News

The Shallowater F.H.A. will have officer elections for 82-83 on Thursday, April 8.

The president elect and three F.H.A. representatives will go to the State meeting April 29 and 30. The State meeting will be at the Tarrant County Conven-

tion Center in Ft. Worth.

April 1, the Homemaking classes were visited by a guest from South Plains Electric Co., Nathalee Taylor. She is a Home Economics Economist and helped each class make English pizzas.

The day was enjoyed by all.

Jones-Lonney Elected To School Board

Steve Jones and incumbent Perry Looney were elected to the New Deal School Board last Saturday.

Jones had 175 votes and

Looney 158. Others in the race were Freddy Adame with 137 votes, Jose Luis Gonzales with 136 votes, Barbara McCoy Panter with 67 and Celia Ruiz 14.

New Deal News

There will be an Outdoor Volleyball Tournament in New Deal April 8, 9 and

10th. For more information contact Coach Steve Bigham at New Deal School.

Automobile Liability Law Goes Into Effect

The 90-day DPS warning period for the new mandatory liability insurance law expired last week. After midnight Wednesday, March 31, state troopers

began issuing citations to drivers who fail to show proof of insurance when such information is requested.

The law, which became effective January 1, 1982, requires all drivers to carry minimum liability coverage for bodily injury of \$10,000 per person (\$20,000 for two or more persons) and property damage of \$5,000.

Colonel Jim Adams, DPS director, said the law is encouraging more drivers to obtain the required coverage.

"DPS figures show that during 1981, approximately 73 per cent of drivers involved in reportable accidents had the insurance," Adams pointed out. "That number increased to 81 per cent for the first two months of this year."

Drivers who fail to carry the required coverage risk being fined from \$75 to \$200 for the first offense and from \$200 to \$1,000 for subsequent violations. In addition, a conviction under the new law will result in the suspension of the violator's driver license and motor vehicle registration unless the violator establishes and maintains proof of financial responsibility for five years from the conviction date.

LITTLE BOY, LITTLE GIRL LOST

Attach a metal ID tag to your young child's shoelace to help prevent him or her from getting lost on vacation or shopping trips, says Dorothy Taylor, a family life education specialist.

Taylor is part of the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

At General Telephone We're Not Simply Talking About Service Improvements We're Making Them In Abernathy

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects and modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For you, as a valued customer, this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utility Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

	Texas PUC Standards	Most Current Figure
% customer calls answered promptly business office/repair service	90	90
% service order commitments met as promised	90	100
* % local calls completed on 1st try	98	100
* % direct dialed long distance calls completed on 1st try	95	98.7
% out-of-service trouble cleared within 8 working hours	90	96.6

OUR PEOPLE MAKE THE DIFFERENCE

At First State Bank, people like Jane Blackburn make the difference. A graduate of Muleshoe High School, Jane was employed at Muleshoe State Bank for three and a half years before the family moved to Shallowater. She has been with First State Bank since January, 1973, and was elected Assistant Cashier in 1979.

Jane's husband, Bobby, a salesman for McCarty-Curtis, Inc., in Lubbock, serves on the Shallowater School Board, and their daughter, Dana, 16, and son, Joe Bob, 12, are students in Shallowater Schools. The Blackburns are members of First United Methodist Church in Shallowater, and Jane serves as treasurer of the Wesleyan Service Guild. She enjoys activities with children in church and school, and is a big supporter of the Shallowater Mustangs.

DURING A FAMILY CRISIS, remember family unity, says Diane Welch, a family life education specialist.

It's normal for families to feel closer and desire a higher level of togetherness with other family members during a crisis, the specialist explains. At such times, people work harder at getting along and value the support and sympathy that is shared, she adds.

Welch is with the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Politicos Stump In New Deal

A-J Correspondent NEW DEAL - Residents here heard the views of several candidates for various offices at a political forum Thursday night at the New Deal Clubhouse, with half the hopefuls represented by their spouses.

Among the speakers were Franklin Dunn, county commissioner of Precinct 3; Earl Yarborough, an Idalou justice of the peace who is seeking re-election; Freddy Adame, a candidate for the New Deal school board; and Joe Gonzales, another New Deal school board candidate.

Four spouses stood in for other candidates, including Mrs. Choc Blanchard, speaking on behalf of her husband, who is a candidate for county commissioner, Precinct 4; Mrs. E.L. Short, representing her state representative husband who is seeking re-election; Warren K. Wray, husband of Wanda Wray, a candidate for criminal district attorney; and Mrs. Charles Smith, speaking for her husband, a justice of the peace and candidate for county judge.

Hance Forms Farm Crisis Group

WASHINGTON, D.C.—U.S. Rep. Kent Hance, D-Texas, used National Agriculture Day to announce the formation of the Farm Crisis Group to focus attention on the crucial situation facing America's farmers.

joined Hance in calling on the Reagan Administration to take immediate steps to help alleviate the financial hardship facing American farmers.

"The American farmer is not experiencing a recession, he's experiencing a

depression," said Hance during a press conference at the House Agriculture Committee hearing room. "The current Farm Bill is a proven failure the way the President and Agriculture Secretary John Block are administering the pro-

Sorghum Farmers To Receive Payment

I would like to thank each of you for your support and vote in the election for school trustee.

Robert Pope

Grain sorghum farmers will receive deficiency checks of 48 cents per hundred pounds on their 1981 production. Commodity Credit Corporation will mail checks totalling approximately \$232 million.

Texas sorghum producers will receive the largest share with \$71.5 million,

while \$65.4 million will go to Kansas growers and \$44.8 million to Nebraska.

"USDA has informed us that the checks will be mailed on, or about, April 10," reported Elbert Harp, executive director of Grain Sorghum Producers Association (GSPA). The payment is the difference between the national average loan rate and the sorghum target price.

The 48 cent payment is the maximum amount permitted by law because the average price to farmers during the first five months of the marketing year (Oct. 1, 1981 - Feb. 28, 1982) was below the loan level.

The payment is a result of a provision written and sponsored by GSPA in the 1977 farm bill. This provision sets sorghum target prices in relation to corn according to the relative cost of production.

Payments are determined by multiplying the rate (48 cents/cwt.) by the farm acreage by the farm yield. (48 cents X acres X cwt. per acre). A farm with a 1981 planted acreage of 100 acres and a yield of 6000 pounds per acre, would re-

grams. There are measures the White House and the Agriculture Secretary can take to alleviate the problem, but they won't."

Hance also noted that President Reagan's first year in office marked the only year in history that farm prices fell for 12 consecutive months.

"The farm parity ratio," added Hance, "is at its lowest level since the worst months of the Great Depression, and at a time when interest rates hover at record levels."

The President should convene a White House Conference on Agriculture," said Hance. "Both the Chairmen of the House and Senate Agriculture Committees have written the President and asked him to hold such a conference, but their letters have gone unanswered."

"A White House Conference would do two things: focus the attention of the nation on the real problems we face in agriculture today, and secondly, would allow us to bring the finest minds in the country together to discuss the problems and come up with some solid solutions to get us out of this drastic depression."

"I realize the automobile industry, savings and loans, and other areas are in bad shape also," continued Hance. "But agriculture has been in bad shape for the last 4-5 years and conditions have to improve or we are going to lose an awful lot of farmers."

Hance said the President has not addressed the farm situation, "because they represent only about 3 percent of the population and it is not politically feasible for him to tackle the problem."

The Farm Crisis Group will continue to press the White House for action, said Hance, and will make proposals to the Administration and to Congress within the next three weeks. "We have to act fast," he said. "Our farmers are running out of time."

Joining Hance on the Farm Crisis Group were 12 Democrats: Texans Charles Stenholm, Marvin Leath, and Jack Hightower, Ed Jones of Tennessee, Glenn English of Oklahoma, Dan Glickman of Kansas, Leon Panetta of California, Don Albosta of Michigan, Byron Dorgan of North Dakota, Tom Daschle of South Dakota, and Iowans Berkley Bedell and Tom Harkin.

ceive \$2,880.

There will be an allocation factor of 99% for those who planted more sorghum in 1981 than previous years. When the allocation factor is applied to the example above, the payment will be \$2,851.

WANT TO CUT FOOD COSTS?

Consider purchasing generic products - products without a trademark, says Linda McCormack, a family resource management specialist.

Generic foods usually cost 44 percent less than brand-name products and 15 percent less than store-label items, she adds.

Many consumers find little quality difference in best-selling generics including canned fruit, coffee creamers, chlorine bleach and paper towels, the specialist says.

McCormack is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

It is forbidden by law for a French butcher to stock chopped meat; he must chop it fresh for each customer.

LUBBOCK, Friday, April 2, 1982

Thanks to the Agricultural Council of Arkansas (ACA), USDA has reversed itself on a ruling that would have required producers to plant at least one acre of a given crop in 1982 in order to protect their acreage base for that crop in 1983.

Now USDA has agreed that it will be possible for farmers to protect their bases for cotton, feed grains and wheat without planting in 1982. All that is required is that the zero planting be "properly reported" to the county Agricultural Stabilization and Conservation Service office. And, as before, 1982 crop bases will be protected if a farmer plants only a part of his 1982 base, provided he devotes the required acreage to conservation uses and complies with other program provisions.

The change in the way zero plantings will be treated came as a result of complaints from producers in the Arkansas Delta where the planting date is much nearer than on the High Plains. Producer objections to being required to plant a single acre were relayed to Washington along with a request for relief by ACA Executive Vice President Cecil Williams, Jr.

On the Plains, says Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., the important thing at this point is that producers sign up to participate in the acreage reduction program before the deadline on April 16.

"I can't imagine a situation which would make it unwise for a cotton producer to sign up in the program," Johnson continued, "since sign up is not a firm commitment and the actual decision to reduce or not to reduce acreage can be delayed until the final date for certifying acreage, probably around August 1."

In answer to another question on the acreage reduction program, Johnson replied, "Yes, it is possible to create a farm acreage base or expand an existing base."

The Agriculture and Food Act of 1981 states that the acreage base shall be the acreage planted to cotton, feed grains, wheat or rice for harvest in the crop year immediately preceding the year for which the determination is made, or at the discretion of the

Secretary, the average acreage planted to such crops for harvest in the two crop years immediately preceding the year for which the determination is made.

According to Williams, indications from top officials in Washington are that for 1983 the Secretary will choose to use the average acreage planted for harvest in 1981 and 1982.

Johnson, however, cautions that it may be too early to speculate on the regulations that may or may not be used to set 1983 acreage bases.

Lakeview Philosopher Tries His Hand At Budget Cutting But Decides The Job Is Not For Him

Editor's note: The Lakeview Philosopher on his Johnson grass farm looks at the national budget this week, some what.

Dear editor:

It used to be that anybody who could come up with an idea for a new source of revenue for the government was welcomed with open arms in Washington, but now just the opposite is in style. Anybody who can figure out where to cut spending and stay elected is in demand.

The Pentagon has tried it. For example, it has cut the price of meals served officers in the building's private dining rooms. They can get a good meal there for about half what they'd have to pay elsewhere. Who says military spending can't be cut?

Another department wants to cut the amount of milk served in school lunches.

If the situation gets desperate enough, somebody may even suggest cutting the amount of bourbon in a Congressman's mixed drink. His welcome in Washington won't be open-armed, but the budget has got to be balanced even if Congress isn't.

There's another suggestion that shows more ingenuity. Seeing that a balanced meal for school kids calls for at least two vegetables, somebody has

suggested that if you analyze it catsup is essentially a vegetable, so french fries and catsup meets the requirement.

This line of thought contains the germ of an idea for balancing the budget. Everybody knows a dollar coming in is more appreciated and therefore more valuable than a dollar going out. So, the way to show a balanced budget is to declare one tax dollar collected is worth two spent. There you have it.

When people talk about cutting spending they refer mostly to government spending, but cutting in the private sector ought to count too. For example, I read just last night that Americans spend one and a half billion dollars a year on cat food. I don't know what the figures are for dog food or food for canaries, parrots and pet coons, but there are all sorts of opportunity there for belt-tightening, or would be if manufacturers would stop making belt-less pants with stretch waistbands. Tightening your belt in that gear is like trying to pull yourself up by your boot straps when you're barefooted.

I have a notion I ought to leave budget-cutting to somebody else.

Yours faithfully,
J. A.

The board agreed to call for insurance bids for the May meeting. They will call for 80 percent coverage of school buildings and facilities.

The board will vote for an Education Service Center Director from a list of several area candidates that were reviewed.

David Sharp gave a presentation on the 5 year elementary reading program, Pegasus Pace. The program is federally funded and would go into effect August 30.

The state board of education reception will be held April 15 at the Lakeridge Country Club in Lubbock.

There has been a recent problem with vandalism. Students are bombing teachers and administrators residences with eggs, letting the air out of their tires and making tire marks on private property. The board voiced concern for this problem. School administrators pointed out that students will be prosecuted if caught.

The dust storm last week damaged

the roof of the Vocational Building. It has been temporarily repaired.

The TASB workshop will be held May 7 and 8 in Austin.

Superintendent evaluation forms were reviewed and okayed by the board.

The Texas Education Agency came to Abernathy schools to monitor the Migrant and Special Education programs.

Both programs were examined and evaluated. Representatives from the agency pointed out that the Migrant program was functioning correctly, but found some problems with the Special Education program, saying that more paper work needed to be done.

The lunchroom report revealed that the lunchroom account is in the red \$14 thousand.

Tax collections look good as school collections exceed the amount budgeted for \$7,200 in delinquent taxes have also been collected.

School enrollment is 970. The meeting adjourned after executive session, but no action was taken in this private meeting.

NCC ASKS DUST RULE CHANGES: The National Cotton Council has asked the Occupational Safety and Health Administration to lift the cotton dust standard for all industries and workplaces where significant health risks cannot be

shown, and to evaluate more appropriate and cost-effective approaches to protect worker health where risks are found.

In commenting on OSHA's proposal to re-evaluate the standard, the Council cited the Supreme Court's benzene ruling that said the agency had to find that a significant health risk existed in the workplace before issuing the standard.

On this basis, the Council said the dust standard should not apply to cottonseed oil mills, warehouses, classing offices, waste processing industries and their downstream customers, or to knitting, narrow fabric, and elastic fabric manufac-

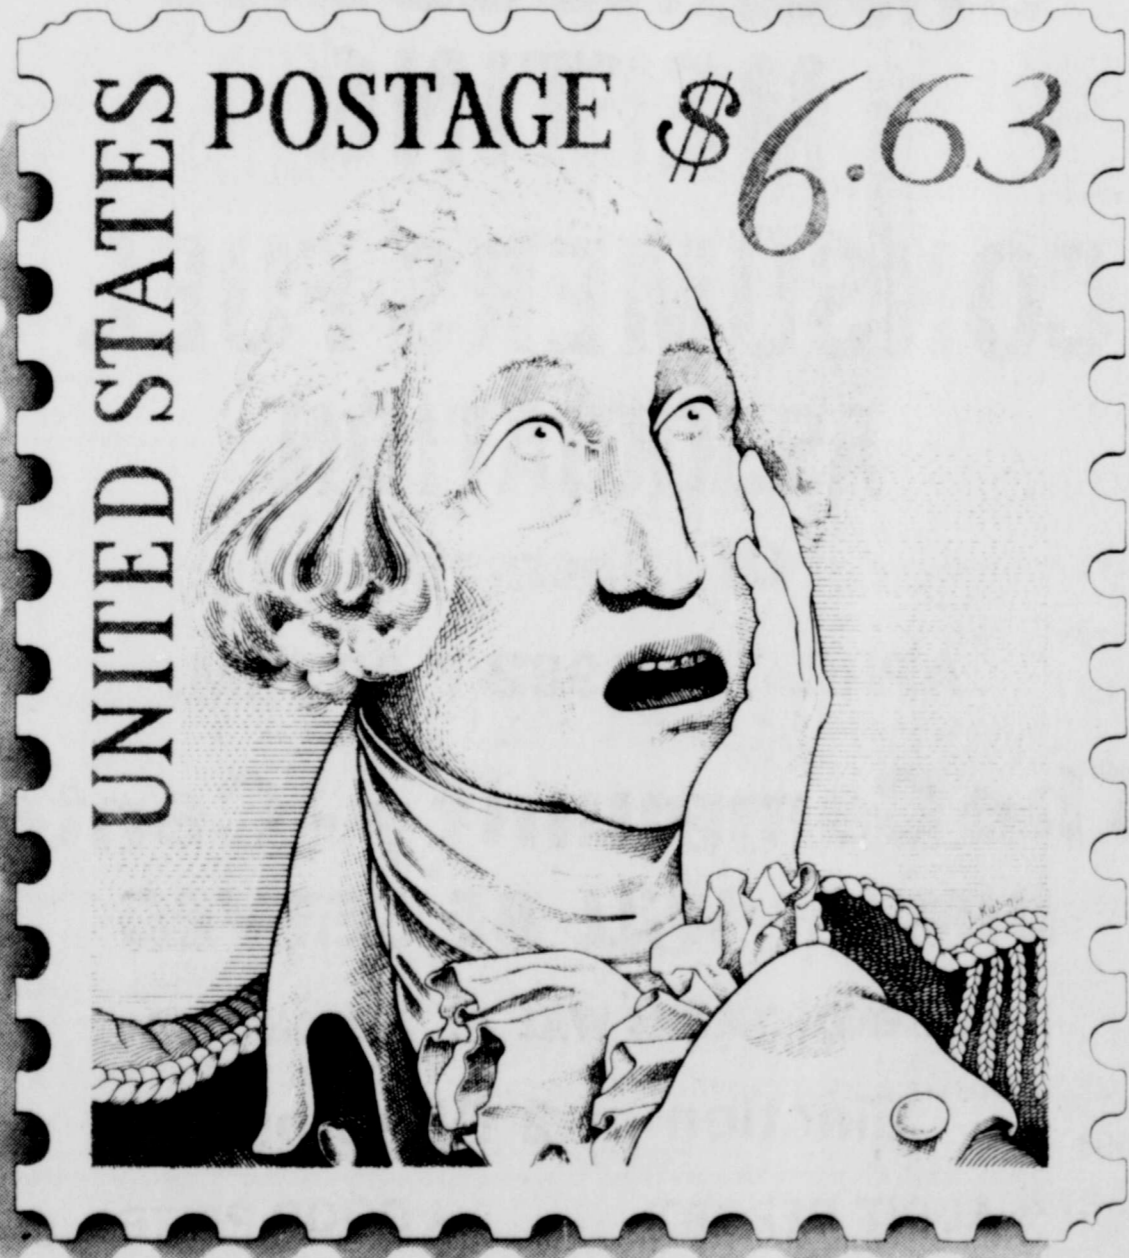

turing plants.

Slashing and weaving areas of textile mills also should be excluded since the evidence of risk is questionable or inconclusive, it stated.

EXPORTS MOVING OUT: Exports maintained good pace with shipments of 209,600 running bales of cotton during week ended March 18.

This brought season's shipments to 3,945,600, slightly more than the same date last year. The week's new sales for this season totaled 49,400 with Canada, South Korea, Taiwan, and Japan major buyers.

For out-of-town business, picking up a phone can cost less than dropping a line.

The stamp on a letter is only a small part of the cost of doing business by mail. You have to include the cost of secretarial time, materials, mail handling and overhead. That adds up to something like \$6.63. You can do a lot of business with long distance for that amount, take care of orders faster, and save time and energy as well.

Plus you never have to lick stamps.

An air conditioner can improve the performance of your furnace. An air conditioner? A very special air conditioner called the add-on heat pump. It cools in summer and heats in winter. And it works with whatever kind of furnace you have. The add-on heat pump will improve the performance of your furnace by keeping it off completely during a good portion of the winter. The add-on heat pump can satisfy your home's heating requirements more economically when temperatures are above 30° or so. That's about 80% of our area's normal heating season. Then, when summer comes, the heat pump becomes a cool pump, efficiently air conditioning the home. So, when you're in the market for air conditioning, look into the add-on heat pump. Call us to see what your savings could be.

We Have The New Century Pre-need Memorial Plan Now You Can Purchase Your Memorial Before Need

Many families are surprised and burdened at time of need at the high cost of the 47 things they have to do, on the most helpless day of their lives. Your memorial is one decision you must make alone. Also you must pay cash for some or all of these.

YOU MAY ASK; "WHY MAKE THIS DECISION NOW?"

- Stops Inflation
- Prevents Emotional Overspending.
- You Can Make The Decision While You Are Still Together And Not Left For One To Do Alone.
- Advantage Of Small Monthly Payments.
- Make This Important Decision Together.

Call or stop by our office in Plainview. One of our Memorial Counselors will be glad to explain the new Century Pre-need Plan to you without obligation.

GREEN POTATOES -- DO NOT EAT. They could poison you, warns Dr. Cass Ryan-Crowe, a food and nutrition specialist.

Ryan-Crowe is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Don't eat the green spots on potatoes, either, she cautions. Be sure to trim them away.

These spot areas, usually found around the sprout-formation sections of potatoes, contain solanine -- which, even in small amounts, is poisonous, the specialist explains.

Solanin will cause stomach pains, diarrhea, vomiting, and, in large doses, paralysis and even death, she says.

Letters To The Editor

Dear Mr. Tooley:

The Anti-Crime/Anti-Drug laws enacted by the 67th Texas legislature clearly established a high water mark for law and order legislation in Texas.

Texas state leadership and Texas citizens must not be complacent with this victory under their belts, and the war on crime must continue to be waged. Therefore, in September of last year, I sent a letter to Texas' criminal justice community urging them to identify areas of the criminal justice system which could be effectively corrected and addressed through legislation as part of my 1983 Anti-Crime Program. Their strong response was to toughen our laws on "driving-while-intoxicated."

At the very forefront of my 1983 Anti-Crime Program will be legislation imposing tougher penalties for those convicted of the DWI offense. Nationwide, drunk drivers each year take thousands of lives and, in 1980, it was estimated that nearly one-half of Texas' traffic fatalities were alcohol-related. These statistics, coupled with the staggering property losses each year from DWI, clearly indicate that tougher laws are needed to make our streets and highways safer.

In December, 1981, I created a Task Force on Traffic Safety to study Texas' DWI-related traffic fatality problem and make recommendations on legislative actions to be taken to address this issue. In addition, I am pleased to announce that I endorse the goals of MADD (Mothers Against Drunk Drivers), and my office is working with the Texas MADD Chapters to develop and fine tune necessary legislative solutions to Texas' DWI problem. When specific legislative proposals have been developed, they will be sent to you.

I am firmly committed to ensuring that tougher DWI laws are enacted in Texas in 1983, but successful attack on the drunk driving problem demands action by all Texans. I ask that you join with me in making the citizens of Texas aware of the magnitude of this problem and the need for strong DWI legislation and strict enforcement of DWI laws. Texas' highways are no place for drunk drivers, and we must do all we can to get them off the roads.

Sincerely,
William P. Clements, Jr.
Governor

Dear Mr. Tooley: Thank you so much for your prompt service. Your paper always comes to us in good condition. We have truly enjoyed news from "home". My parents Arthur and Virgie Chaney lived in Cotton Center for some time and his parents before that beautiful country.

I have been searching for sometime now for my Chaney Heritage, maybe you could help or direct me. I am searching for any and everything on my grandfather, Rufus Albert Chaney, and his wife-my grandmother, Sarah Captola Baughman Chaney.

Grandfather has only two sons left, my father and my Uncle, George of Bethany, Missouri. Neither can remember who their grandpa Chaney was, name, etc. Both Rufus and Captola are buried in Abernathy Cemetery.

I have found a clipping of grandmother when she died in a Lubbock Hospital of Bright's Disease September 24-1934. It gave her birth place at Charleston, South Carolina, February 7, 1864.

It stated the family moved near Hale Center in 1924. Grandfather expired February 4, 1927.

Is there any clipping, etc. available? They lived near the "Bartons". My dad Arthur stated his father Rufus left home at an early age because of "step-father

I am ever so grateful. Thanks again for your wonderful newspaper. I am, Sincerely,

Dear Editor,
On behalf of all parents and leaders in Hale County 4-H, I would like to express my appreciation to all the buyers at the Plainview Stock Show. Because you support this program, I believe you are showing your faith in the youth of our country. There are many adults

that credit "Staying out of trouble in their teenage years" to their animal projects they had while they were in 4-H and FFA.

By your support you are helping these youth to be able to continue this type project. We sincerely thank you.

Dear Mr. Editor:
Our school worked hard so the armadillo could be the State Mascot. Now a man in Hallettsville wants people to kill thousands of them. We are very sad.

Will you help us save the armadillos? Maybe people can write to Texas Parks and Wildlife at 4200 Smith School Road, Austin, Texas 78744. And maybe they won't buy silly things made from armadillos. Please help us.

INSIGHT INTO EYESIGHT

Can Tinted Glasses Hurt Eyes?

Plain, ordinary tinted glasses won't improve your ability to see. Neither will they hurt your eyes. Some people like to wear them because they shield their eyes from sunlight or the glare of bright lights. There's no harm in wearing them indoors if the light is good. But they aren't recommended when the lights are low. Your eyes depend on light for their ability to see. The combination of tinted glasses and poor lighting means your eyes will have to strain to see. Do that too often or for long periods and you will probably get eye-strain headaches. But if tinted glasses are worn because the eyes are bothered in any way, it's a good idea to have an eye examination first. Sensitivity to bright light is a warning that your eyes may be straining to focus on objects that are near or far away. Tinted glasses won't improve your vision or take the strain away. Only prescription glasses can do that. Prescription glasses can be tinted, too.

World's Largest Big Top Coming

The biggest of the world's big tops come to Lubbock fairgrounds, for one day only, performances at 2 and 4:30 p.m. on Sunday, April 18, sponsored by the Jaycees.

The great Carson & Barnes Wild Animal Circus boasts:
World's only 5-ring touring show;
Only traveling zoo at no extra charge, featuring a giraffe, rhinoceros and hippopotamus;
Eight herds of elephants — more than 25 of the ponderous beasts;
United States' only vinyl big top, completely waterproof — larger than a football field from goal posts to goal posts;
Young triple-somersaulting trapeze star Julio Gaona
Pretty Patricia White with her mixed groups of ferocious African lions and Royal Bengal tigers;
Almost 100 head of horses and ponies;
Trained bears, dogs, camels, llamas, mules, lions and tigers, horses and ponies, and the great herds of elephants;
Premier human performers from 17 nations.

It is a huge show — the kind that parents and grandparents will remember attending when they were youngsters. Probably never again will such a spectacle visit this area, as inflation and the high cost of energy may soon spell the end for such a giant traveling enterprise.

These increased costs have made it necessary for the last big tented show to reduce the length of its overnight trips, thus affording some smaller communities an opportunity to see the same tremendous circus as plays in Denver, Milwaukee, Chicago, Akron, Cleveland, and Pittsburgh. It is uncut — precisely the same show as is seen in the bigger cities.

Tickets will be on sale at the gate as late as showtimes. Midway attractions will be open one hour before each performance. See it now or miss it forever!
