background is favorable for a pickup in new housing starts, and for sales of existing homes also.

In heavy construction, prospects for 1983 are nondescript.

EMPLOYMENT-PERSONAL INCOME

The deeper and longer-than-expected recession saw an extension of the downturn and industrial production into late 1982.

will expand slowly while factory work weeks lengthen. Then, when business strengthens and public confidence improves, employment will rise more noticeably.

Look for personal income to trend upward in 1983 and probably average 4% to 5% higher than 1982.

CONSUMER AND GOVERNMENT SPENDING

Reluctant consumer spending attitudes during 1982 were a factor in the economy's inability to rouse itself into a recovery move.

Government spending will be higher in 1983 and lend good support to the economy.

CORPORATE PROFITS-DIVIDENDS

After 1982's dreadful showing, prospects favor an upswing in corporate profits after taxes during 1983.

Corporate dividend payments will rule higher in 1983.

increases than was seen in 1982 when there was a rash of cuts and omissions.

FARM OUTLOOK

The beleaguered farm sector is expected to experience some relief in 1983.

INFLATION-PRICES

The Fed persisted in its anti-inflation monetary policies over a good portion of 1982.

Supply gluts of oil, coal, metals and other industrial raw materials, plus heavy overhangs of foodstuffs, are bulwarks against any long run of stiff

price increases during the year ahead. However, deeply depressed wholesale prices are bound to experience some revival.

INTEREST RATES-MONEY & CREDIT

The welcome downtrend in interest rates encompassing the entire span of the maturity scale exceeded expectations during 1982.

FOREIGN AFFAIRS

U.S.-Soviet relations will not show much change until the new Kremlin leadership is fully organized.

sanguine, with the danger more a matter of setbacks for U.S. efforts from time to time and consequent erosion in American influence.

STOCK AND BOND OUTLOOK

The abrupt and spectacular transition in the trend of stock prices from down to up-bringing it a similar basic change in investment sentiment during the late summer of 1982--was an important development.

Water, Market Outlook Key Topics Of Soybean Meeting

Soybean market outlook and water allocation are key topics for the Texas Soybean Association (TSA) annual meeting January 21, 1983, at the Sheraton Spindletop in Beaumont. Beaumont is a marketing center for soybeans grown in the Texas and Louisiana Gulf Coast region.

rice and soybeans and one of the topics covered here will be an overview of the economics and availability of water for rice irrigation," says TSA Director Robert Horn of Nome. "There is concern in the rice areas of Texas that irrigation water may become both scarce and expensive in the near future. This fact could indicate a move towards

additional soybean acreage."

"Soybean Situation and Outlook" will be the topic of opening speaker Dr. Art Gerlow, extension economist-management, of Bryan. A representative of Continental Grain will present an outlook on soybean exports for 1983-84.

Dennis D. Baker, regional manager of the Trinity River Authority of Texas, will address "Economic Utilization of Water Resources in the Upper Gulf Coast." Dr. Herbert Gruff, Texas Department of Water Resources in Austin, will discuss "The Future Use and Availability of Texas Water Resources."

Extension specialists from Texas A&M will give quick review of what's new in soybean production for the Gulf Coast. In addition, the TSA will hold its annual business meeting. Following the luncheon, American Soybean Association (ASA) President B.B. Spratling, Jr., a soybean farmer from Roba, Alabama, will show

how soybean farmers are enacting bold programs in policy, market development and research to speed their recovery from the current recession.

Winners of the Texas Soybean Yield Contest will also be announced.

The 16th Annual Texas Soybean Association Meetings begins with an "early bird" breakfast buffet at 7:00 a.m. Registration opens at 8:00 a.m. and the program gets underway at 8:45 a.m. The TSA cordially invites all Texas and Louisiana soybean farmers and other interested persons to attend.

AMONG HUMAN SERVICE professions competing for government and business dollars, home economists offers financial supporters the most for their money, says Dr. Kinsey

Green, executive director of the American Home Economics Association. By working to prevent family problems, rather than having to treat them, home economists provide more cost effective services than others involved in crisis intervention, she contends.

Boy Scouts Meet

Shallowater Boy Scout Troop 515 met Tuesday December 21 for a night filled with holiday festivities.

The scouts met at the

First Methodist Church to pickup bags of fruit. Then, they shared their happy faces with some of the people in the community by delivering the fruit and singing Christmas carols. After the caroling, the scouts met back at the church for refreshments and a party.

The boy scouts will meet January 8 for a hike. They will leave from the church at 9 a.m. that Saturday morning.

The members of the Boy Scout Committee would like to wish all a very prosperous and Happy New Year.

TRANSITION

Lannie Bartlett

Services for Lannie E. Bartlett, 85, of 2131 52nd St. Lubbock were at 1:30 p.m. Wednesday Dec. 29 under the direction of Rix Funeral Directors of Lubbock.

Bartlett died at 7:15 a.m. Monday after a lengthy illness. He had been under a doctor's care.

He was born in Cookville, Tenn., and married Minnie Hefner on Dec. 15, 1915, in Goree. They moved to Garza County and then to Lubbock County in 1944. She died on Feb. 27, 1965. He married Ethel Roberts on Nov. 10, 1966, in Lamesa; she died Dec. 4, 1977. He was a farmer and a member of Oakwood Baptist Church.

Survivors include three daughters, Mrs. Ray (Theo) Spence of Slaton, Mrs. Donald (Peggy) Martin of Shallowater and Dorothy of Lubbock; a stepdaughter, Mrs. Alvin (Aletta Faye) Allison of Levelland; two sisters, Lucy Owens of Seymour and Ella Mae Gregory of Crane; four brothers, Thurman of Muleshoe, Earnest of Crosbyton, Lee of Brownfield and Cecil of Lubbock; nine grandchildren, 12 great-grandchildren; and a great-great-grandchild.

Final Tax Payment Due Soon

Taxpayers who did not have enough 1982 federal tax withheld, or whose amended income estimates for 1982 changed substantially during the last quarter, are required to pay the final installment of estimated income tax by January 17, 1983, the Internal Revenue Service says.

The IRS notes that there is an exception to this rule for the final installment for those taxpayers who file their returns and pay all taxes due by February 1, 1983. This exception applies whether the declaration is an original or amended one. Generally, taxpayers must file estimated tax if their tax

is expected to be \$200 or more and if they have more than \$500 in income not covered by withholding.

For additional information, a free copy of IRS Publication 505, "Tax Withholding and Estimated Tax," can be ordered by calling the IRS number listed in the local telephone directory under U.S. Government.

The first electronic computer was put into operation in 1946 and had to be kept in a place where the temperature was regulated. It used 18,000 vacuum tubes and was so large it filled an entire room.

Study Club Meets

The Shallowater Study Club members met December 7 in the home of Mrs. Christine Johnson. Mrs. Paula Middlebrook was welcomed as the club's newest member.

Following a short business meeting, Mrs. Pam Pair read a Christmas poem which was written by her mother, Mrs. Margaret

Parable of Jesus

And he said, Whereunto shall we liken the kingdom of God? or with what comparison shall we compare it?

It is like a grain of mustard seed, which, when it is sown in the earth, is less than all the seeds that be in the earth:

WORD of GOD

But when it is sown, it groweth up, and becometh greater than all herbs, and shooteth out great branches; so that the fowls of the air may lodge under the shadow of it.

And with many such parables spake he the word unto them, as they were able to hear it.

But without a parable spake he not unto them: and when they were alone, he expounded all things to his disciples.

Slick Road Blamed For Accident Near New Deal

Nita B. Armstrong, 49, of Odessa died Sunday morning when her car skidded off icy FM 1729 near New Deal.

The one-car accident, the 22nd fatal accident in the county outside Lubbock this year, occurred about 10 a.m. four miles east of New Deal.

Mrs. Armstrong was traveling east alone in a 1981 automobile and lost control on the icy road, according to the Department of Public Safety. The auto overturned, and the woman was

partially thrown from the vehicle and was pinned under it.

Justice of the Peace Dardie Williamson of Shallower pronounced the woman dead. She said the auto ran off the road, ended up in a field and apparently struck a power pole. "It was very slick," said Mrs. Williamson. "It was snowing real hard when we got there."

The body was taken to Resthaven Funeral Home in Lubbock.

"New Years Day"

"Bonne anne!" they shout in Paris; "Feliz ano nuevo!" in Spain. And beginning December 31, streets and houses throughout the U.S. ring with the greeting, "Happy New Year!"

All people celebrate the New Year, but they do not all celebrate it on the same day or in the same way. The Chinese New Year, filled with festivity, falls on the first day of the Holiday Moon, (usually in February). It is a birthday celebration for every Chinese, for whenever a Chinese child is born, he is considered one year old on New Year's day, the Jewish New Year is a solemn holiday of prayer, which usually comes in September.

We owe our January first New Year to Julius Caesar, who changed the Roman New Year's day from March to January in honor of Janus, the "God of Beginning." Romans pictured Jan-

us as a two-faced god: One face looked back at the old year, the other looked ahead to the new.

Now, on January, people all over the world think back about the year that has passed and ahead to the year to come.

We bring in the New Year with bells ringing and noisemakers grinding, with dancing and laughter and song, and with a wish for health and happiness for ourselves and for the world.

HAPPY NEW YEAR EVERYONE!

HAPPY ANNIVERSARY

Happy Anniversary this week to the following New Deal locals: Mr. and Mrs. Buddy Slaton, Mr. and Mrs. Dewey McCullough and Mr and Mrs. Robert Shropshire.

Fern Bigham New Correspondent

Fern Bigham, long-time New Deal resident, has agreed to write and gather New Deal News as a correspondent for the Abernathy Weekly Review. She is replacing former New Deal correspondent Sharla Attebury, who will no longer be able to write the news.

Sharla regretted that she will not be writing the news any more, but other obligations have forced her to give the chore to another capable local.

Those wishing to contribute news, ads or anything to the New Deal News page of the Review, should call

Fern at 746-6198 or mail it to Route 2, Box 341 Lubbock, 79415. She will be happy to take your news by phone or mail.

Coaches, teachers and other school personnel should call Fern and report the accomplishments of their students weekly. City personnel and other local organizations and groups should also report their meetings and news.

The New Deal page needs your help and input to make it successful. Be sure and report what you know to Fern so she can let everyone else know.

Student Council To Have Talent Show

In February the student council is putting on a talent show for the New Deal Elementary and Junior High. In the past, talent shows have been very

popular with the student body. For further details, contact Mrs. Farmer, Dena Lipham, or Tricia Teal.

Livestock Show Jan. 10

The New Deal Livestock Show will be held on January 10, 1983. There will be heads of medium wool and wool lambs, commercial heifers, rabbits and swine entered in this year's show.

Families who enjoy camping out can now generate the comforts of home away from home more easily.

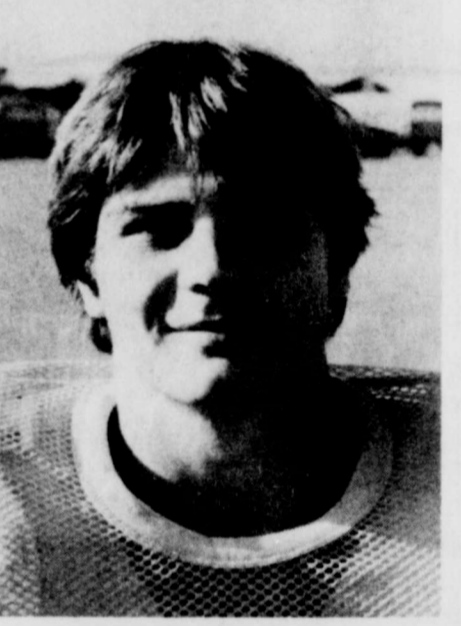

Happy Birthday

Happy Birthday this week to the following New Deal locals: Ophelia Otero, Thana Ho, Pat Cooley, Tom Connors, Felix Ramirez, Anna Ruiz, Karen Dunn, Kelby Agnew, Allen McIntire, Amy Lyn Haggard, Don Voyles, John Otero, James Sprowles and Tiffany Shropshire.

Reminder: Is Your Medicine Cabinet Ready For Cough And Cold Season?

With the "cough and cold" season in high gear, it's a good idea to take a long hard look at your medicine cabinet.

There's no cure for the common cold, but many good products are available to make you and your family more comfortable when you fall victim to a stuffy nose, sore throat, and other symptoms of the season. Fevers from a cold or bout with flu tend to dry out skin, leaving painful chapped lips and a raw red nose.

Your pharmacist will be glad to help you choose a selection of brands to make these minor—but often debilitating—ills go down a little easier.

Here are some basics to have on hand:

- Adult and children's thermometer
- An analgesic type rem-

For those of you who might be concerned, a premature baby was turned away from hospitals in Houston, Galveston and Beaumont on Christmas Day. The 1 pound, 13 ounce baby had a seizure and almost died because no hospital would accept him. They would not treat him because the parents had no insurance.

I am going to send \$20 to this family and anyone who wants to match my \$20 should call me a 298-2455.

death rates than men for all diseases except diabetes, a U.S. Census Bureau report shows, according to Cindy Wilson, a family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

COPING WITH INFLATION

may have positive outcomes, says Bonnie Piernot, a family resource management specialist.

For example, less money may mean more family interaction, time to get to know each other, to play games and to plan other family activities.

With more emphasis placed on family decision making, there is a much greater potential for creative decisions. Children have an opportunity to learn responsibility and cooperation if they are part of the decision-making team, the specialist adds.

Mrs. Piernot is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

INSIGHT INTO EYESIGHT

David R. Gibson, O.D.
DOCTOR OF OPTOMETRY

What An Eye Doctor Looks For

If you've never had an eye examination and your eyes are bothering you for any reason, you're in for a surprise. An eye examination is a lot more thorough than finding out how well you can read an eye chart.

An eye doctor spends years of study and training so he can recognize problems and treat them effectively. Sure, he'll want to know how well you can see the letters on an eye chart. He'll test both eyes together and then test each eye separately. Maybe your problem is only in one eye.

He'll want to know well you see at a distance as well as close up. He'll want to know how good your

peripheral or side vision is, how well you see objects around you. He'll want to know how good your color vision is.

Your eye doctor will be using very precise instruments to check your eyes to see if there are any signs of disease that could impair your vision or cause blindness.

All of this information will be considered when he writes a prescription for eyeglasses or contact lenses. He's the best friend your eyes will ever have.

Partners map progress.

Lewis and Clark were men of destiny who challenged over 2,000 miles of trackless wilderness west of the Mississippi. Captain Meriweather Lewis, army officer and frontiersman, chose the artist and mapmaker Lieutenant William Clark for his partner. From 1803 to 1806 the two young men combined their skills and talents to search for a northwest passage to the Pacific Ocean.

As partners, Lewis and Clark provided detailed maps and valuable scientific journals which later encouraged rapid settlement and development of the West.

Today there is a new frontier to challenge — an energy frontier. You and Southwestern Public Service Company are partners like Lewis and Clark. Partners working together making energy decisions to make a difference. For instance, when you install a High-Efficiency Add-On Heat Pump in your home, you and SPS work together to better manage electricity. And when electricity is efficiently managed, it makes the difference.

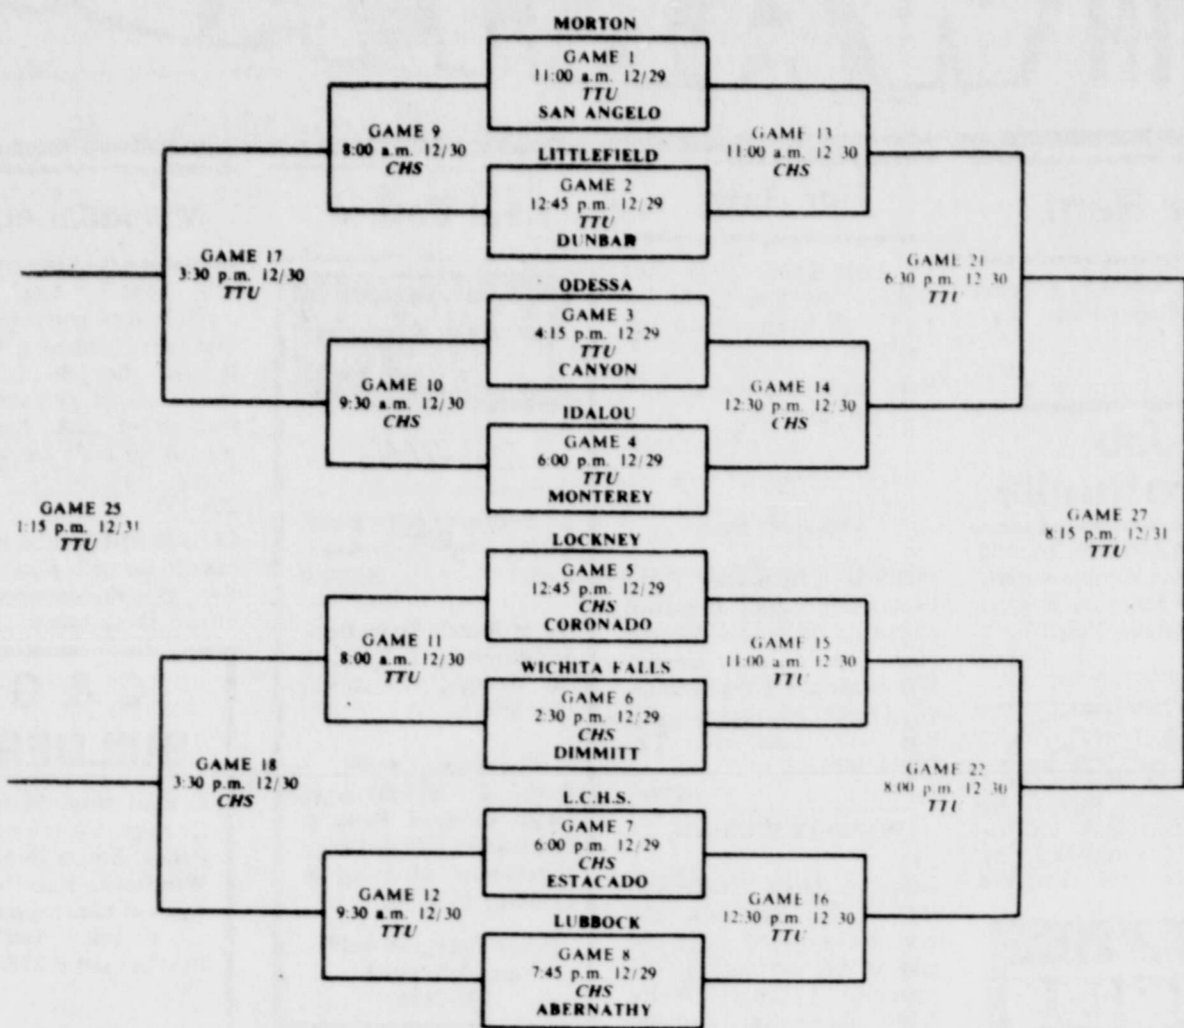

Together, Lewis and Clark charted the maps that made the difference which helped win the West. Together, you and SPS can work as partners, charting progress for a new frontier in electricity management.

You and SPS, partners managing electricity, make the difference.

Acquisition Of Right Of Way Property Made Easier

A major policy change in the acquisition of right of way for US and State highways has been announced by the State Highway and Public Transportation Commission.

Local levels of government now may request the department to accept initially an amount equal to 10 percent of the cost of needed right of way. The department will accept the voluntary contribution and take responsibility for the acquisition of the land.

Previously, local governments were required to purchase the right of way and were later reimbursed at least 90 percent by the department. Some counties and cities have had difficulty funding the purchase prior to reimbursement thus delaying needed projects.

Commission Chairman Robert Dedman said the new procedures will take financial pressure off local governments and should speed up projects by allowing a more orderly effort in acquiring needed right of way.

Dedman emphasized the

commission action was offered as an optional alternative to present procedures of right of way acquisition.
