## Chamber Park Deeded To City

Chamber of Commerce Park was officially deeded to the City of Abernathy at the April Chamber of Commerce meeting held last Thursday at 7 a.m.

The park is located at the north end of Avenue D, where Avenue D intersects the West I-27 service road. The City will be able to maintain the park as it has in the past. The Chamber cannot afford the up-keep of this property.

Rod Ellis presented the deed to Chamber President John Hale and he signed it at the meeting.

### Other Business

The 15 Chamber members present enjoyed breakfast cooked by Dan

Ward, Richard Boyles and Tommie Beck. Lewis Patterson gave the invocation and the minutes of the March meeting were reviewed and approved.

It was announced that this was the last meeting that John Hale would reign as President. The new President, Arno Struve, will take office at the Chamber Banquet tonight.

### Senior Citizens Center

The Chamber discussed getting some work parties together to prepare the Santa Fe Depot to be moved. The wood loading platform connected to the Depot will need to be moved. The lot where the Depot will be moved needs to be staked off for the

foundation. Then a concrete platform can be poured for the Depot to sit on. The lot has already been graded by Rod Ellis.

Arno Struve, Dan Ward and Clayton Enger said they would get out and contact prospective contributors who have not donated to the Center thus far.

Rudolph Struve stated that the boy scout bus is not being used and that he thought that it could be given to the Center at a later date. It would be used to pick up senior citizens, who cannot drive, and take them to the Center.

### Chamber Banquet

The theme of the Chamber Banquet this year will be the same as last years theme, "Abernathy A Good Place To Live". Diana Phillips needed to know how many people to expect so she can notify "Hens and Fens" of Lubbock, who will be catering the banquet. It was speculated that approximately 200 people would attend, which is about the same number as last year.

## ON THE COUNTY LINE

BY KEITH TOOLEY

ARNO STRUVE AND CLAYTON ENGER deserve at least a pat on the back for getting out and beating the bushes for donations to the Senior Citizens Center. They had collected between \$1,500 and \$2 thousand Monday and Tuesday of this week, bringing the total in donations and pledges made to the Center thus far to approximately \$7,800. Those who haven't contributed, but wish to do so, call Arno or Clayton and they will come collect it.

I'VE HEARD OF APRIL SHOWERS, but not April snow showers and I can't remember when I have seen that much snow this late in the year. It is not surprising considering the year we have had so far. Mother nature has been even more unpredictable than her unpredictable self this year.

Due to the strange weather pattern this year-the jet stream changing directions, etc., meteorologists say this could be a record year for tornadoes.

Abernathy is situated in the area known as "tornado alley". We also understand that Abernathy has been lucky and has a history of escaping tornadoes. There have been tornadoes at Lubbock, Cotton Center, Hale Center, Petersburg, Tulia, Plainview and most other small communities around Abernathy.

We don't want to be a pessimist, but odds are that a tornado could very easily come down on Abernathy. So be on the look-out and plan your tornado strategy early.

FROM TIME TO TIME we get ads from various companies all over the United States. We try to run the ads

of companies we know are reputable, but sometimes companies that look reputable are carrying on con games and offering get-rich-quick schemes that are not legitimate.

We will do our best to print only ads that we feel sure are on the level, but it is sometimes hard to tell.

According to the Texas Press Association, one firm to watch is Bond Industries, another company in the Texas-based American Fidelity Co. group of work-at-home advertisers. (NOTE: This is NOT the insurance company, American Fidelity Assurance Co.) Not long ago, this bogus American Fidelity was promoting MMPG/System 7 plant nutrient, containing mostly water. Any claim to a guaranteed salary is absurd. The Better Business Bureau reports that American Fidelity's work-at-home scheme was a poor record in regard to the consumer. The company operates out of New Brunfels.

Other ad scams include job opportunities in the "cruise ship" or "oil field" areas. According to the BBB, when a fee is charged in advance of a job, it is not a legitimate offer of employment.

Those who have had bad experiences with companies in which we have ran classified ads for in the past, let us know who these companies are and we will refuse future ads from them.

WITH TORNADO SEASON knocking at the door, we thought it might be wise to remind locals how serious they can be with this historical information: American's worst twister cut a

Several local churches also continue to distribute cheese and butter to locals at various times, but they will not inform the Review of when they are going to pass it out.

There was a man who lived in a town and sold hot dogs. He was hard of hearing, so he couldn't listen to the radio. He lived out of the coverage of cable t.v., so he didn't watch television. But he did sell good hot dogs. And he consistently ran an ad in his town newspaper, telling people about his hot dogs. People bought his hot dogs. He increased his meat and roll orders. He bought a bigger stove to take care of his increased business. He finally got his son home from the big city to help him out. Then something happened. Son said to father, "Dad, haven't you been hearing all the news on t.v.? There's a big depression coming on...times are really tough and getting worse...we've got to cut our expenses if we're going to make it." Dad listened to his son's advice. "Well, he has been to college, and he has been to the big city, maybe he knows more than me." So, the father cancelled his newspaper advertising. He cut down on his meat and roll orders. He closed earlier. People stopped coming to buy his delicious hot dogs. Times got really tough. "You must be right, son. We certainly are in the middle of a great depression. There just isn't any business anymore." Need we point out the moral of this story?

HOT AIR BALLOON STAMPS UNFOLD AN INTERESTING HISTORY LESSON

Hot air balloons are the colorful subject of a block of 20-cent commemorative stamps now available at the Abernathy Post Office.

The stamps feature modern hot air balloons plus the "Intrepid", a civil war balloon, and the "Explorer II", which made its flight in 1935.

The "Intrepid" is considered to have been the first aircraft used for military purposes in the United States. President Lincoln was convinced by Thaddeus S.C. Lowe, a professor, to fund a military balloon observer corps which was headed by Lowe. Shortly thereafter, the confederacy countered with their own balloons. Thus, the civil war became the first American war in which aircraft was used.

Lowe's balloon corps grew to include seven balloons and more than 200 soldiers. The balloons were filled with hydrogen gas, generated with acid and iron in horse-drawn carts, which had been built specifically for this purpose.

Some 100 years later, the Explorer was launched. A joint U.S. Army and National Geographic Society sponsored flight, the balloon took off in 1935 from a rock depression near Rapid City, South Dakota. On board with Captains Albert W. Stevens and Orvil A. Anderson was a large amount of scientific and biological test equipment.

The purpose of the flight was to study stratospheric gamma rays, radio transmissions and to determine if spores could survive in the

stratosphere. Reaching 72,395 feet, it set a world record for altitude. When it landed some 225 miles away, the balloon was swarmed by spectators from nearby White Lakes, South Dakota, as well as enthusiasts who had followed the balloon from the launch site.

The stamps were designed by David Meltzer, a Pennsylvania freelance artist who is associated with the National Geographic Society.

USE HERBICIDES ON

RANGE WEEDS--Range weeds could be a serious problem in many areas of Texas this spring due to last summer's drought and good rains in late fall and winter. Ranchers can use the herbicide 2, 4-D in early spring to control such annual broadleaf weeds as distaff thistle, broomweed, camphorweed and ragweed, says a range brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System. A dicamba-2,4-D mixture or a picloram-2, 4-D mixture is effective on harder-to-kill weeds.

## Attebury Recipient Of Scholarship

Seventy-eight Texas and New Mexico high school valedictorians and salutatorians, who enrolled at Texas Tech University as freshmen in 1982-83, have received \$200 scholarships from the Texas Tech Ex-Students Association.

Recipients included Dec Ann Attebury, daughter of Mr. and Mrs. Wade Attebury, 901 Velray Drive, Abernathy. Attebury was valedictorian of Abernathy High School in 1982.

The first full-time telephone operator was George Willard Coy, who began operating the District Telephone Co.'s exchange at New Haven, Conn. on Jan. 28, 1878.

### God Never Lets Us Alone

Text: "Behold, I stand at the door, and knock; if any man heard my voice, and open the door, I will come in to him, and will sup with him, and he with me." Rev. 3:20

Sometimes in a world like ours where there is so much that is tragic, it is easy for us to feel that God lets us alone. We got the idea that God has somehow for some reason forsaken us. Because

of this feeling, there are some questions that come to mind such as: What is God doing now? Where can I find God now? or God doesn't seem real to me now. But we find the answers to these questions in Revelations 3:20 (Read the text again) These words express an eternal truth that our Lord Jesus Christ is one who never lets us alone.

"Behold I stand at the door and knock." God is always near us. Continually he is knocking at the door of

our hearts. He is asking admittance because He wants us to let Him be a part of us and we a part of Him.

"If any man hear my voice". Not only is there the feeling of His nearness by His knocking, but he has given us ears to hear. We know that His is near as He speaks to us. Through prayer - meditation - preaching - teaching - or any other means which He may choose to speak. God is always near. Psalms 46:10 says:

"Be still and know that I am God."

If we feel God has forsaken us, it is because we have failed to open the door. Listen what will happen if we will hand Him the key. "I will come into him, and will sup with him, and he with me." He will come in and be a companion for life. Then love and joy will fill our lives and we will not feel God has left us alone.

## '82 Ag Receipts Down \$1 Billion In Texas

Total cash receipts from farm and ranch products in Texas were down about \$1 billion--or 9 percent--last year compared to 1981. Cash receipts from agricultural production last year are estimated at almost \$9.6 billion based on figures compiled by Dr. Carl Anderson, economist with the Texas Agricultural Extension Service, Texas A&M University System. "This total figure is based on input from county Extension agents and Extension economists from the various regions of the state," says Anderson. The total estimate does not include government payments. "1982 was obviously a tough year for Texas farmers and ranchers due to the general downturn in economic conditions and poor farm prices that resulted from high stockpiles of agricultural commodities," notes Anderson. "Weather

losses also were heavy in some areas, particularly in the South Plains where hail destroyed more than half the cotton crop." Cotton led the decline in cash receipts from crops, which totaled almost \$3.8 billion compared to the previous year's \$4.6 billion. Cotton receipts dropped from \$1.4 billion in '81 to \$875 million last year. Sales of food grain crops, mainly rice and wheat, were down almost \$300 million at \$739 million. Feed crops--corn, grain sorghum, oats, barley, hay and ensilage--sold for just over \$1 billion, down only slightly from 1981 levels. Oil crops--soybeans, peanuts, sunflowers, guar and flax--contributed \$288 million to last year's receipts--up moderately from the previous year. Receipts from vegetables were at \$364 million while sales of fruits and nuts added another \$83 million;

both of these categories of crops had reduced sales last year. Sales of all other crops totaled \$412 million, up from \$349 million in 1981. Sales of livestock products contributed most to the overall agricultural receipts in Texas last year--more than \$5.1 billion although the total was down \$300 million from '81. This included the sale of meat animals, dairy products, poultry and eggs, and various other livestock products, such as wool and mohair. Cash receipts from cattle and calves alone totaled \$3.8 billion or 40 percent of the state's agricultural sales. Hog sales totaled \$113 million while sheep and goats contributed another \$65 million. Sales of dairy products amounted to some \$545 million while poultry and

eggs kicked in another \$514 million. The sharpest increase in cash receipts came from farm-based timber, horses, fish farming, hunting leases, farm pond leases and recreation. Receipts in these areas jumped from \$581 million in 1981 to \$724 million last year. "Despite the economic woes in agriculture in 1982, Texas continues to rank third in the nation, behind California and Iowa, in total cash receipts," says Anderson. "The \$9.6 billion in agricultural receipts has a tremendous effect on the Texas economy to the tune of about \$35 billion in economic activity." Looking to the future, the economist sees some encouraging signs for farmers and ranchers. "Farm prices and incomes will improve as supplies decrease and demand increases," says Anderson. "Hopefully, the PIK program will be successful in reducing the level of surplus commodities. In addition, production costs should be fairly stable through 1983, and reduce interest and inflation rates should also help the farm economy.

### FFA Judging Teams Compete At Contests

The Abernathy FFA Judging Teams have been competing at several judging contests recently. Last week the Meats Judging Team and two Dairy Cattle Judging Teams competed at the Boys Ranch Judging Contest. The Meats Judging Team made up of Dan Evans, Russell Shuey, David McKinney and Sammy Wolf placed 6th. In individual performances, Russell Shuey placed 10th high at the contest. The nine FFA members on the two Dairy Cattle Judging Teams were Jan Rawlings, Melissa Hagstrom, Roby Fowler, Jackie Holloman, Randall Stillwell, Randy Houston, Brian Smith, Shawn Knight and Mark Bell. This past Saturday, the FFA Meats Judging Team competed at the Abilene Judging Contest. Those on the team were: Shuey, Evans, McKinney and Wolf. They did not place. The FFA Dairy Products Team and Livestock Judging team travelled to Canyon this past Saturday to compete. The Dairy Products Team placed 12th and the Livestock Judging Team did not place. Those on the Dairy Products Team were: Julia Waits, Lane Nelson and Phillip Vandyriff. Those on Livestock Judging Team were Cody Jones, Kelly Hill and Todd Pope.

past president of the National Cotton Council and current general manager of Plains Cooperative Oil Mill, Lubbock, and Nick Hahn, Executive Vice President of Cotton Incorporated. Each of the speakers, according to PCG President Tommy Fondren, has been asked to present the view from his particular area of expertise on the meeting's general theme, "Research, Promotion and Politics that Determine Cotton's Destiny." Hance is a member of the powerful House Ways and Means Committee, Fondren notes, a position from which he is able to have more than a little influence on Federal legislation and on administrative decisions affecting PCG producer and allied industry members. Senator Montford, as a member of the State Committee on Natural Resources and Vice Chairman of the Subcommittee on Water, is expected to review and assess his own and other efforts to develop and implement a Texas water plan. Montford is also a member of the State Education Committee and the Committee on Jurisprudence.

"Breihan's long years of prominence in agricultural matters and especially his service to the industry as 1982 President of the multi-segment National Cotton Council," Fondren continues, "uniquely qualifies him to provide an overview of industrywide efforts to maintain a healthy climate for cotton on all fronts." The final speaker, Hahn, heads up the nationwide producers' research and marketing company, Cotton Incorporated, into which producers put by far the biggest portion of their annual investment in research and market development. And, Fondren says, "that fact should make every producer want to hear his outline of CI achievements and plans for future activities." The PCG program also includes the annual President's and Executive Vice President's reports to the membership, highlighting PCG's contribution to research, promotion and services aimed at promoting and protecting the specific interests of producers in the organization's 25 High Plains counties. Concluding the day's activities for PCG will be a meeting of the 50-man Board of Directors at which 1983-84 officers will be elected. Current officers, in addition to Fondren, are Vice President Gerald Caswell of Brownfield, Bennie Claunch of Bula, Secretary-Treasurer, and Gary Ivey of Ralls, Chairman of the Board. All are eligible for re-election.

### Liner Says 1982 Agriculture

#### Yearbook Beneficial To Farmers

"Food from Farm to Table" is the title of the 1982 Yearbook of Agriculture. The annual yearbook is published by the U.S. Department of Agriculture. This year's yearbook is a practical book for both farmers and consumers, says Ollie Liner, county agent with the Texas Agricultural Extension Service, Texas A&M University System. Theme of the book is

"getting more for one's money." The yearbook has three major sections: "Changing Economics of Agriculture", "Farm Marketing in a New Environment", and "Food Buying-Making Decisions." According to Liner, the 416-page book has 44 chapters, many of the "how-to-do-it" kind for farmers and consumers. The yearbook may be ordered for \$12 a copy from

the Superintendent of Documents, Washington, D.C. 20402.

**JOINT HEARINGS EYE EXPORT PIK:** House Agricultural and Foreign Affairs committees in joint hearings were told by Secretary of Agriculture John R. Block that the slowdown in farm exports has given special urgency to efforts to maintain and expand agricultural exports. He said the value of agricultural exports declined by nearly \$5 billion in fiscal '82 and a further decline is indicated this year. He noted that the U.S. share of world markets declined for a number of commodities from 1980 to 1982, with U.S. cotton's share dropping from 40 percent to just over 30 percent. Secretary Block said USDA is using every tool under existing authority to reverse the decline, and strongly supported a blended credit program. **BOLL WEEVIL NUMBERS UP:** USDA researchers in the Greenville, Miss., area say their tests have turned up unusually large numbers of winter-surviving boll weevils in ground trash. Tests indicate 808 weevils per acre. This points to 42 percent survival, which

USDA entomologist Dr. Ted Pfimmer says is four times normal. Arkansas entomologist Dr. Jake Phillips reported 512 weevils per acre in the state's Delta area, based on ground trash examinations. Arizona extension agent Ivan Shields said traps set last fall indicate over 90 percent of the state's cotton this year would be infested with weevils. Arizona growers are setting traps this spring to slow the weevil advance. **PIK AUDIT UNDERWAY:** USDA's inspector-general has begun a three-phase audit of the payment-in-kind program in selected states and counties. The first phase is reviewing requirements for program participation. The second phase, focuses on compliance with program regulations, and will include an audit of cotton cooperatives, beginning June 15. The final phase in mid-September will cover handling of PIK-designated commodities by cooperatives, warehouses, and USDA's field and county offices.

"THE AVERAGE AMOUNT of time women spend in household activities has changed very little in the past fifty years," says Lynn White, an home economics specialist with the Texas Agricultural Extension Service, Texas A&M University System. According to White, research shows that homemakers as a whole spend 47-52 hours a week in household activities. Employed wives spend 26-35 hours per week on household activities in addition to their forty-hour work week. "Major appliances, easy-care clothes and convenience foods have not led to a decrease in the total time spent on household work," says White, "although they have changed the way in which that time is spent."

# The scars of an abused child can stay with us all his life.

In any way you can think of, the effects of child abuse are devastating.

Each year, over one million American children suffer from child abuse.

Over 2,000 of those abused children die.

And, for many of those who live, the effects of an abusive childhood may influence their entire lives. And ours.

Many teenage drug addicts and teenage prostitutes report being abused children. So do juvenile delinquents and adult criminals.

Because we pay to respond to those problems, we are all the

victims of child abuse.

Yet child abuse can and must be prevented.

The National Committee for Prevention of Child Abuse is a private, charitable organization that knows how to prevent child abuse.

But we need your help to do it. We need money. We need more volunteers. Send us your check today, or write for our booklet.

And, remember, if we don't all start somewhere, we won't get anywhere.

 National Committee for Prevention of Child Abuse

Help us get to the heart of the problem.

**GROWING TOMATOES LIKE A PRO...** ABOUT 95 percent of all Texas gardens have tomatoes, and this popular vegetable can produce a bountiful harvest by following a few proven practices, says a horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

Spring Giant, Jack Pot and Better Boy. Add plenty of organic matter and a complete fertilizer to the soil. Protect young plants from early spring winds with boards, shingles or milk cartons. Or put plastic bags around the wire cages you will use to support the plants as they get larger. Apply a fertilizer solution to plants every week or 10 days once small tomatoes appear.

The Greeks and Romans used butter largely as a medicine, preferring olive oil as a cooking fat.

## Ernest Wilson-Maggie Kruger Brother And Sister Reunited After 40 Years

Maggie Kruger of Aubrey hadn't heard from her brother in almost 40 years when she received a letter from him last week. But it didn't take long for them to arrange a reunion. Three days after Mrs. Kruger received the letter, Ernest Wilson of Abernathy arrived at her home northwest of Aubrey.

Wilson left his hometown of Aubrey in the early 1940s and moved to Cotton Center in West Texas. During those years, he lost contact with his family, which included Mrs. Kruger and the late William (Wild Bill) Wilson of Aubrey. "We got apart and couldn't find each other," Wilson said. "She thought I was

dead and I thought she was dead." Wilson's granddaughter, Denise Cooley of Azle, recently moved to Abernathy to live with him. He asked her if she would help him locate Mrs. Kruger. Miss Cooley wrote a letter from Wilson and mailed it to "general delivery" in Aubrey.

Mrs. Kruger received the letter last Thursday, March 31, and called her brother that night. They made arrangements for a reunion in Aubrey. Wilson boarded a bus and rode from Abernathy to Fort Worth, where he was met by his daughter and son-in-law, Mr. and Mrs. William

They drove him to Aubrey on Sunday, and he arrived at Mrs. Kruger's home at noon. Mrs. Kruger said she gave her brother a big hug when he arrived at her home, which was the original home of their parents, Mr. and Mrs. William

McKenzie-Wilson.

Wilson, a retired farmer and road worker, said he plans to visit Mrs. Kruger for three weeks before returning to Abernathy. He has lived in the West Texas town for 22 years. From The Post-Signal.

TO PERFORM AT CHAMBER OF COMMERCE BANQUET TONIGHT will be the Schapp Brothers, a local group which sings country and western and gospel songs. Pictured from left to right are Craig, Steve, Dan, Jeff and Rick Schapp. The banquet begins at 7:30 at the Community Center.

## Abernathy Death Ruled Suicide

An Abernathy Justice of the Peace has ruled suicide in the Sunday afternoon death of an Abernathy woman.

Shirley Groce ruled that the death of Mrs. J.R. (Bobby) Miller, 50, was caused by a self-inflicted gunshot wound.

Mrs. Miller was found slumped over in the front seat of her car late Sunday afternoon by a passerby, just off FM 54, about six miles northwest of Abernathy. The engine was still running.

Mrs. Groce said the woman apparently died about 3 p.m. Sunday. Services for Mrs. Miller were at 2 p.m. Tuesday at the First Baptist Church in Abernathy, with the Rev. Lloyd Riddles, pastor, officiating, assisted by the Rev. Murry Brewer, former pastor.

Services also will be at 2 p.m. Tuesday at First Baptist Church in Eldorado, Okla., with the Rev. Kenneth Coleman officiating. Burial will be in Eldorado under the direction of Chambers Funeral Home of Abernathy.

A native of Eldorado, she moved to Abernathy in 1973 from Hanson. She was co-owner of Miller Trucking Company.

She was a member of First Baptist Church in Abernathy.

Survivors include her husband, J.R.; three sons, Collins, Randy and Carroll, all of Abernathy; her mother, Euna Denton of Eldorado; two sisters, Cora Ray McSpadden of Quanah and Willie Joe Seitz of Canyon; a brother, Bill Denton of Quannah; and two grandchildren. From The Lubbock Avalanche Journal.

Many people, concerned about what's on television, are asking their legislators to support repeal of the regulations, saying pay TV will outbid free TV for vital programming such as major sporting events, movies, quality series and the like. The people are writing to the House of Representatives, Washington, D.C. 20515 and the U.S. Senate, Washington, D.C. 20510.

## Interest, Dividend Withholding To Begin; Some Accounts Exempt

Beginning July 1, 1983, payers of interest and dividends must withhold ten percent of each payment for federal income tax, the

Internal Revenue service said. Tax will be withheld at the time the interest and dividend payments are made to the individual or

credited to the individual's account.

Certain taxpayers will be exempt from withholding if they file certificates of exemption with payers and if they meet any of the following requirements:

Taxpayer last year had a tax liability of \$600 or less or \$1,000 or less if married filing a joint return;

Taxpayer is 65 or older and last year's tax liability was \$1,300 or less (or \$2,500 or less if taxpayer or spouse is 65 or older and they filed a joint return);

Taxpayer, or taxpayer and spouse, were not required to file an income tax return last year.

However, the IRS noted, many taxpayers may find the withholding a convenience that will free them of the need to make quarterly estimated tax payments and/or prevent them from being faced at tax time with a substantial tax bill and possible penalties for not having enough tax withheld.

Certificates of exemption should be obtained from payers. If they are not available, request Form W-6, "Individual Certificate of Exemption," by writing the IRS. Those who receive interest or dividends from more than one payer must file a Certificate of Exemption with each payer.
