

Wheat Harvest In Full Swing

The wheat harvest in the Abernathy area is in full swing and elevators are reporting that the wheat this year is in good shape, most of it is good to excellent in quality. Most of the wheat is registering a 1 or 2 in quality.

The Review checked with four area elevators to find out how the wheat harvest is shaping up this year. Those contacted were Plains Grain, Coop Grain, and the two Anderson Grain locations, one in Abernathy and the other at County Line.

Plains Grain reported that they received their first load of wheat June 13 from E. J. Pope, who farms five miles north of town. This first load weighed 8,790 pounds and the moisture content tested at 17. It was not determined how many bushels per acre the farm produced.

Plains Grain Manager, James Shannon, stated that farmers were getting anywhere from 20 to 48 bushels per acre. "The average bushels per acre for this area thus far would be about

30 bushels," Shannon said.

Shannon stated that the best harvests he had heard about produced 48 bushels per acre. Jackie Waters produced 48 bushels per acre on his dryland farm, located six miles east of town, and Johnny Megna produced 48 bushels per acre on his dryland farm located five miles east of town.

Shannon also added that the area east of town, which was pounded with hail two weeks ago, was only producing 20 bushels, or less, to the acre. "Before the hail storm, it would have produced 30 bushels or better," he added.

Coop Grain reported that they received their first load of wheat June 13, which is the same day Plains Grain got their first load.

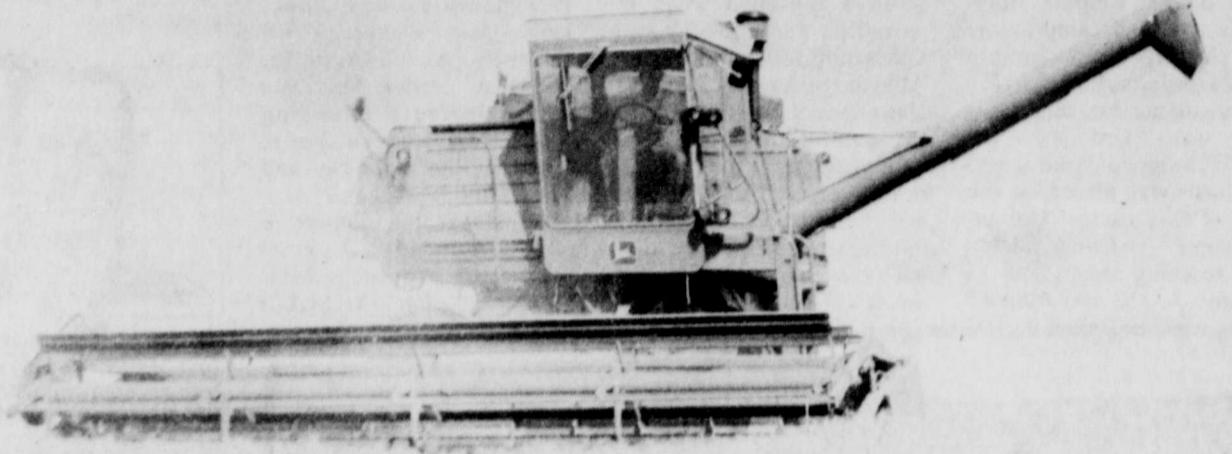

Carl Phillips brought in the first load from his dryland farm. The load weighed 16,400 pounds, or 61 pounds to the bushel. The moisture content was tested at 12.2 and the farm produced 31 bushels to the acre.

Coop Grain Manager, Ted Major, stated that the best harvest he had heard of was produced by Lewis Lutrick on the Spratt place, located three miles northeast of town. It was only a 13 acre field of wheat, but it produced 60 bushels to the acre.

Major stated that the wheat is really good this year, due to the heavy snows received during the early growing stages of the wheat crop. "Heavy snows with good moisture content cause good ground moisture in the deeper levels, which in turn usually insures a good wheat crop," Major said. He also stated that Abernathy farmers, on the average, are getting anywhere from 20 to 40 bushels per acre.

Anderson Grain has not received any wheat at their Abernathy location, but they have received two loads at their County Line elevator. Glen Burgett, who farms all around County Line, brought in the first two loads June 16. They weighed 20,000 pounds. The loads tested at 10.9 for moisture content and the quality was thought to be good.

The wheat harvest should continue at a fast pace this week as farmers have had dry, hot weather, which they need in order to harvest their wheat. It is evident that this could be considered a bumper crop year for wheat in the Abernathy area.

WHEAT IS BEING HARVESTED all around Abernathy as the wheat harvest season is in full swing. Area elevators report that the wheat is very good quality and some farmers are getting 48 bushels to the acre. Pictured is a wheat field being harvested on the Jerry Oswalt farm, two miles north of Abernathy. (Review Photo by Robert Brantley)

Laney's Co-op Bill Becomes State Law

A bill authored by state Rep. Pete Laney of Hale Center, relating to rules of agricultural cooperatives regarding the approval of by-laws and amendments, has been signed by Gov. Mark White.

Cooperatives must adopt amendments - previously approved by two-thirds of the directors - by a two-thirds vote of members who are present at a meeting at which there is a quorum, according to HB 669.

Current law states that amendments can be adopted by a majority of all members.

Under the legislation, initial by-laws may be adopted either by a two-thirds vote of the incorporating directors or a vote of two-thirds of the members present at an association meeting.

HB 669, sponsored in the Senate by state Sen. Bill Sarpalus of Amarillo, takes effect immediately.

Graduation Pictures Have Arrived

Graduation pictures have arrived at Abernathy Schools, and those who ordered pictures are urged to pick them up.

High school students should go to the library to receive their pictures and junior high students should pick theirs up at the junior high school office.

Students are urged to come get their pictures immediately.

Taxpayer Appeals To Appraisal Review Board To Be Heard

The appraisal review board (ARB) for Hale County Appraisal District will hold hearings for taxpayer appeals on July 6, 8, 11, 13, and 18, 1983. Property owners have until July 6, 1983 to notify the ARB of their intention to protest some aspect of their property appraisals.

The ARB is a group of citizens of the central appraisal district who have been appointed by the district directors to equalize property values and consider claims for exemption and agricultural value. With the implementation of the central appraisal district, taxpayers are now able to address a single equalization board, instead of one for each taxing unit in which their property is located.

According to Linda Jaynes, Chief Appraiser for the Hale County Appraisal District, a property owner may protest any of seven specifications of the appraisal office, as well as any other action that applies to the owner and adversely affects him.

- The seven protest areas are:
- 1) the appraised or agricultural value of the property;
 - 2) unequal appraisal of the taxpayer's property in comparison to the weighted average level of appraisals of other property in the appraisal district;
 - 3) inclusion of the property on the appraisal records;
 - 4) denial of a partial exemption, such as a homestead exemption;
 - 5) denial of agricultural-use, open-

space of timber valuation; 6) identification of the taxing unit or units in which the property is located; 7) determination that the taxpayer is the owner of the property.

A property owner who wishes to lodge a protest based on one or more of these actions must file a written "notice of protest" with the review board, Ms. Jaynes said.

Official forms are available at the appraisal office, she noted. However, the chief appraiser added that a letter from the taxpayer will also be acceptable as a notice of protest, as long as it identifies the property owner lodging the protest, the property that is the subject of the protest and indicates dissatisfaction with some determination of the appraisal district office.

A hearing will be scheduled after the notice is filed and the property owner will be informed of the time, date and place of the hearing.

The property owner filing the protest is then entitled to appear in person before the ARB to offer evidence or argument. He may also offer his evidence or argument by affidavit without appearing personally. The property owner and chief appraiser will be notified by certified mail of the ARB's decision.

For more information, contact Linda Jaynes at the Hale County Appraisal District office, 302 W. 8th St., Plainview, Tx. (806) 293-4226.

Cotton Seed and Tools Worth \$4,000 Taken From Teakell Barn

A barn at Teakell Gin was burglarized Sunday night, June 5 and \$4,000 worth of cotton seed and tools were taken.

The barn, owned by Bill Teakell, was not damaged. The burglars cut the chain and lock loose, which was holding the front door secure.

They entered the barn and quickly made off with 130 sacks of cotton seed, worth \$3,500 to \$4,000, and approximately \$150 worth of tools.

Teakell stated that they don't have any leads as to who might have burglarized the barn.

Rebates Up For Abernathy

State Comptroller Bob Bullock today sent checks totaling \$43.8 million in local sales tax payments to 974 cities that levy the one-percent sales tax. "The cities who lean most heavily on oil and gas for their local receipts are still suffering, but the rest of the state is beginning to make up for the drops in revenue we saw earlier this year," Bullock said. So far this year, local sales tax cities have received \$353.5 million, less than one percent behind the \$354 million total paid by this time last year.

Rebates for Abernathy are still on the rise, as Abernathy will receive a check for \$1,878 this period, an increase of almost 13 percent over last year at this time, bringing the total rebated to Abernathy to \$25,623. Other county towns were not as

fortunate. Edmonson will not receive a check this period, down 42 percent compared to 1982. Petersburg will not receive a check, as well, down almost 8 percent. Plainview will be rebated \$43,236 this period, but this city is still down 5.5 percent from last year at this time. Hale Center will be rebated \$589, up 6 percent, bringing that city's total to \$15,373. Overall, Hale County is down 4.5 percent in the amount this county has been rebated this year compared to last year.

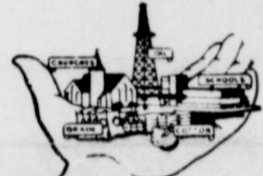

In Floyd County, Floydada will receive a check for \$3,346 this period, down 2.5 percent, bringing that city's total to \$44,282. Lockney will be rebated \$988, down 3.5 percent, bringing that city's total to \$19,711. Floyd County is down almost 3 percent.

Lubbock County is showing an increase in rebates this year of 6.4 percent overall. Idalou will be rebated \$1,386 this period, up 3.2 percent, bringing that city's total to \$17,055. New Deal will not receive a check this period, but is still up 12.4 percent over 1982. Slaton will receive a check for \$5,911 this period, up 5.2 percent, bringing that city's total to \$84,160. Wolforth will be rebated \$1,363 this period, down 1.1 percent, bringing that city's total to \$15,390. Overall, Lubbock County is up 6.4 percent compared to June of last year.

The City and MTA sales taxes are collected along with the state sales tax by merchants and rebated monthly to the cities in which they are collected by the Comptroller.

"IN THE PALM OF THE PLAINS" VOLUME 62, NO. 32 THURSDAY, JUNE 23, 1983 [SERVING HALE, LUBBOCK COUNTIES] U.S.P.S. NO. 003-340

Kelly Wins SPS Sponsored Trip, Vandygriff Runner-Up

Shad Kelly is one of five young men who won Southwestern Public Service Company-sponsored trips to the National FFA Convention to be held in Kansas City, Missouri in November. Philip Vandygriff was the runner-up in the contest and is the first alternate for the trip. Both boys are members of the Abernathy High School Chapter of the Future Farmers of America.

Shad is the son of Mr. and Mrs. Carl Kelly and Philip is the son of Mr. and Mrs. Clyde Vandygriff.

Kelly and Vandygriff were top students in the "Farm Wiring" course at a three-day farm electrification workshop sponsored by SPS in Amarillo, June 13-15. Eighty-four FFA

boys and five FFA girls from Texas and New Mexico attended.

Vocational agriculture teachers who made up the workshop faculty selected the five trip winners on the basis of test scores and class performance. Winning the trips were Frank Jesko of Lazbuddie, J. Dale Butler of Valley High School, Keith Williams of Mobeetie, Shad Kelly of Abernathy, and Brooke Owens of Artesia.

The workshop was the 21st sponsored by SPS. It was the second ever in which girls were students.

The future farmers learned how to wire buildings, build and use electric controls, or how to build electric motors. They also were taught how

electricity was made, and first aid and safety tips.

Five area vocational agriculture teachers paid by SPS taught the three courses. They were assisted by 10 adult FFA advisors and by SPS personnel.

The "Farm Wiring" course emphasized safe and efficient wiring of two- and three-way switches, proper wire splicing, and how to make a meter loop. The skills can be used in homes, barns, sheds, or other places electricity is needed.

Students in the "Electric Controls" course learned how to tie in three- and four-way switches, how to set up photoelectric cells for automatic lighting and how to set up two- and three-pole relays.

The "Farm Motors" course taught students how to operate, repair and build small electric motors.

On the second day of the workshop, the students toured SPS' Harrington Station, the coal-fueled power plant northeast of Amarillo. The station has a generating capacity of 1,122,000 kilowatts.

Southwestern Public Service primarily provides electric utility service to a population of more than one million in a nearly 70,000-square mile area of the Panhandle and south plains of Texas, eastern and southeastern New Mexico, the Oklahoma Panhandle, and southwestern Kansas.

4-H'ers are asked to bring pictures and project records.

Junior and senior report forms, as well as record book covers, will be available at the workshop.

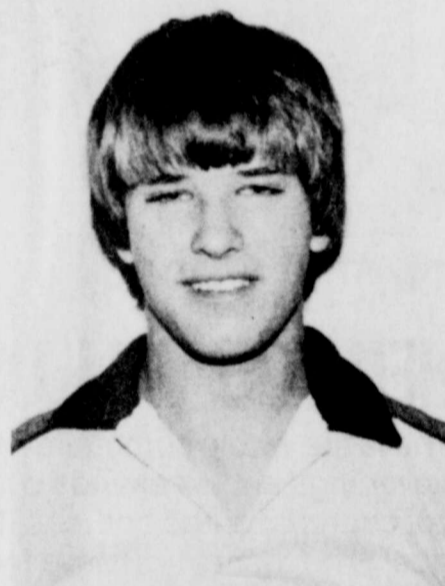

County Wide 4-H Food Preservation Project June 29

A county wide 4-H Food Preservation Project will take place Wednesday June 29 at the Hale County Ag Center from 9:30 a.m.-3 p.m.

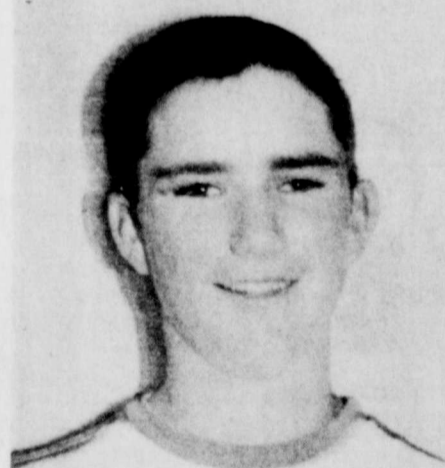

4-H'ers will make jelly, canned potatoes, tour produce markets and complete a 4-H project record.

A \$2 supply fee will be required and 4-H'ers are asked to bring a sack lunch. Drinks will be provided.

The project will be led by teen leaders, Donna Cummings, Marie Cooper, Cammy Campbell and Joan Davis.

ON THE COUNTY LINE

BY KEITH TOOLEY

"RETURN OF THE JEDI" the latest segment of the Star Wars saga, is one of the most entertaining and exciting movies of the '80s, thus far.

We had heard only good reports about the movie and finally got a chance to see it Sunday evening. The lines have been too long (1 to 2 hours) since the picture opened in Lubbock almost a month ago. Now viewers only have to stand in small 30-minute lines.

"Return Of The Jedi" is the third Star Wars movie that has been produced, and in this critic's opinion, is the best of the three. The special effects are incredible as usual, the plot is interesting and believable, and the performances by the characters make the movie a complete success.

The producers mixed many humorous scenes with serious, more dramatic scenes in a sequence that keeps your maximum attention throughout the movie.

On a scale of 1 to 10, "Return Of The Jedi" rates a 10. It is for all ages (a rarity these days), and we would suggest that everyone make it a point to see this movie.

THE THING ABOUT kleptomaniacs, if you've got it, you can always take something for it.

"ANYONE FOUND near my chicken house at night," reads a notice in a country newspaper, "will be found there the next morning."

THE COMMUNITY WHEEL CHAIR has been returned to the Review. It was loaned out to a local woman, who has a disabled mother in Lubbock. She used the wheel chair for approximately four months, then it was returned.

If anyone needs to borrow the wheel chair, or knows of someone who could use it, give me a call at the Review. The battery needs to be charged, but the wheel chair is in good shape and should be able to serve many folks to come.

4-H Record Book Workshop

A 4-H Record Book Workshop has been set for Monday, June 27 at the Abernathy City Hall in the small meeting room from 2 to 4 p.m.

All 4-H'ers and 4-H parents are invited to attend.

"Girls In Action" Attend Camp At Floydada

The local group Girls In Action (G.A.'s) from the First Baptist Church, Abernathy attended camp at the Plains Baptist Assembly near Floydada June 13-16.

The theme for camp this year was "Ordinary People." Throughout the week, emphasis was placed on the idea of God using "Ordinary People" and their talents and teaching them how to become "Extra-Ordinary

People."

The girls attending enjoyed a fun-filled week of worship, recreation, and Christian fellowship. The Abernathy girls used a Hawaiian theme for their "Around the World" banquet Tuesday night. Wednesday night, they presented the Prayer Calendar during worship service and used the church puppets for the talent contest.

Those attending camp were: Brandi McNeill, Beth Windham, Tiffany Pope, Leigh Ann Wages, Kristi Galloway, Alyson Aldridge, and G. A. Leader, Mrs. Nan Riley. Mothers attending were: Mrs. Gwyn Pope, Mrs. La Rita Galloway and Mrs. Bobby Wages.

Guidance and support of the G.A.'s is a special project of Women's Missionary Union (W.M.U.)

and the Baptist Church.

The girls would like to add a note of thanks to W.M.U., First Baptist Church, Abernathy and Scott Wells, Youth Director, Nan Riley, G. A. Leader, and all mothers who helped them get ready for and attend camp.

Theodore Roosevelt was the first U.S. President to visit a foreign country while in office. He traveled to Panama.

Lakeview Locals

By Mrs. Norman Matthews

Featured speaker at Lakeview Methodist Church last Wednesday night, June 15, was Miss Ethel Pearson of Abernathy.

After morning church ser-

vices Sunday at Lakeview Methodist Church, a covered dish dinner was served to all attending. Reverend Jesse Nave received an old-fashioned pounding from the group.

Mrs. E. G. Mahagan, her son Louis from Claytonville, and her son and family Mr. and Mrs. Melvin

Mahagan from Hale Center, met in Lubbock Sunday for a memorial dinner for Father's Day.

Mr. and Mrs. J. C. Montgomery attended church Sunday in Lubbock. Sunday afternoon they visi-

ted relatives in Levelland. Mr. and Mrs. Dwain Bristow of Abernathy, and A. B. Colwell left last Thursday and visited a few days in Springfield, Missouri with Mr. Colwell's granddaughter.

Grant-Ford Engagement Announced

Mr. and Mrs. Gary D. Grant announce the engagement and approaching marriage of their daughter, Kimberly, to Gregg Ford, son of Mr. and Mrs. P. W. Ford, Jr. of New Deal. The couple will exchange wedding vows September 24 in the First United Methodist

Church in Abernathy. Kim is a graduate of Abernathy High School and is employed at the Texas Tech Ex-Students Association.

Gregg is a graduate of New Deal High School and is engaged in farming.

Gregg Ford and Kimberly Grant

The trunk of the African baobab tree is sometimes as wide as the tree is high. The tree is pollinated by bats, and its blossoms open only in moonlight.

together.

Cliff and Wilma Newton visited Mr. and Mrs. (Bob) S. R. Jackson of Mineral Wells, who were former Abernathy residents. The Newton's left Saturday and came back Sunday.

Junia Speer has returned home from the hospital. Her business is open again. She has decided to keep June's Country Kitchen open.

SAVE 20% ON A GAS GRILL

...JUST WHEN YOU WILL USE IT MOST!

Here's an opportunity to buy a gas grill at a big savings... and have the whole summer ahead to enjoy it. That's a real bargain! You will make the most of our great West Texas evenings and weekends cooking outdoors. Gas grills give food that wonderful outdoor flavor without the mess of charcoal or the bother of LP tanks. And, while you are having a hot time in the backyard, your kitchen stays cool. The money you save by buying now will put a lot of hamburgers and steaks on that grill. Now's the time to move up to gas grill cooking while prices are down.

Prices in this ad reflect corrections from those listed in Energas statement enclosure on gas grills.

Kuhlers-Faatz United In Marriage June 17 In Lubbock

Darla Kuhlers and Christopher Faatz were united in a double ring wedding ceremony Friday, June 17 at the First Assembly of God Church in Lubbock.

Parents of the bride are Mr. and Mrs. Richard Kuhlers of Abernathy and formerly of Sioux City, Iowa. Parents of the groom are Mr. and Mrs. Donald

Faatz of Fort Collins, Colorado.

The candlelight service was officiated by the Reverend Jerry Roberts. There was a unity candle used in the service. This was followed by a special poem written by the groom for the bride.

The bride wore a priscilla gown of white satin with a long dipping train. It was overlaid with chantilly lace with a scalloped neckline. Her veil was of tulle and chantilly lace. Applied on the gown were twenty-eight galloon lace appliques, they swept from the front of the gown down to the train. The blusher veil was long and dipping to the end of the train of the gown and was made of illusion and chantilly lace. The dress was made by her maternal grandmother of Sioux City, Iowa. The grandmother spent several weeks in the Kuhlers home in Abernathy.

Matron of Honor was Carolyn Cox of Sherman, and her sister, Brenda Kuhlers, was her attendant. The groomsmen were

Ken Johnson, a friend of the groom, and Mike Faatz, brother of the groom, both of Ft. Collins, Colorado.

Flower girl was Mitzi Seger, cousin of the bride from Durham, Missouri. Ring bearer was Brian Faatz, nephew of the groom, of Ft. Collins, Colorado.

Vows were exchanged before an altar, decorated on either side of carnations and baby's breath with greenery entwined on candle stands. The main altar was in yellow, blue and white carnations. Yellow, blue and white bows decorated the first three rows of pews.

The bride carried a cascade of yellow and white roses. The bride had a pink orchid on her going away dress. It was entwined with baby's breath and greenery. The attendants carried a single yellow rose and the groomsmen wore white carnations. The groom wore a blue boutonniere.

The attendants wore matching floor length gowns of yellow and blue dotted

swiss with satin cummerbunds.

The flower girl wore a floor length white gown with chantilly lace. The gown had matching lace around the bottom. She wore a veil of blue, yellow and white flowers and tulle.

The bride wore a pearl necklace, which was given to her by her mother. Something borrowed was an old blue and white handkerchief from her grandmother. She wore coins in her shoes with the dates of birth of the bride and groom.

Darla is a 1983 graduate of AHS. The groom was a 1980 graduate of Rocky Mountain High of Ft. Collins, Colorado. He is serving with the Marine Corps.

The couple will reside in southern California after a wedding trip to Carlsbad, New Mexico and Tuscon, Arizona

Turner-Stanton Wedding Vows Exchanged

Beverly Turner and Dayne Stanton exchanged wedding vows in a candlelight service at 8 p.m. Friday, June 10th in the Abernathy Church of Christ, with Condy Billingsley officiating.

Parents of the couple are Mr. and Mrs. C. G. Turner of Lamesa, and Mr. and Mrs. Harold M. Stanton of Abernathy.

Serving as honor attendants were Sheila Osborn from Lamesa and Jace Mabry, cousin of the bridegroom, from Lubbock.

A graduate of Lamesa High School and South Plains College, the bride recently received her degree from Texas Tech University. The bridegroom is a grad-

uate of Abernathy High School, South Plains College, and is assistant Manager of Feagins Implement in Big Spring.

Following a reception in fellowship hall at the church, the couple left on their honeymoon to New Orleans.

Mrs. Christopher Faatz

Mrs. Dayne Stanton

Shadden-Murphy Engagement Announced

Mr. and Mrs. Lynn Shadden with to announce the engagement and approaching marriage of their daughter, Vicki Lynn Shadden, to James Anthony Murphy, son of Mr. and Mrs. Thomas Murphy of Dallas.

Vicki Lynn is a graduate of South Plains College and Tarleton State University

with a degree in Animal Production.

Jamey will complete his formal education at Texas Tech, receiving a degree in Animal Production and Nutrition.

The couple plan to wed July 15 in Abernathy. They will reside at Route 2, Abernathy.

Mrs. Dayne Stanton Honored With Bridal Shower

Mrs. Dayne Stanton was recently honored with a bridal shower in the home of Mrs. Joe Dolph Adkisson, 102 Ave. E.

Co-hostesses with Mrs. Adkisson were: Mrs. Reba

Thornton, Mrs. Bertelle Anderson, Mrs. Lucille Lambert, Mrs. Maxine Settle, Mrs. Wilma Newton, Mrs. Georgia Bartlett, Mrs. Judy Downs, Mrs. Irene Schreier, Mrs. June Lambert, Mrs. Martha Reeves, Mrs. Frances Overstreet, Mrs. Inez Gragg, Mrs. Patti Hall, Mrs. Dorothea Deering, and Mrs. Mary Duckett. The hostess gift was china.

Major And Dodson Receive Degrees From Tech

Approximately 75 students received their degree in Petroleum Engineering from Texas Tech May 14.

There were two Abernathy graduates in the group, Chad Major and Rod Dodson. Chad is the son of Ted Major of Lubbock. Rod is the son of Mr. and Mrs. V. A. Dodson of Muleshoe, former Abernathians.

Chad will be working for ARC Pressure Data, Inc. of Midland.

THOSE TO REMEMBER

Bob Stillwell is in Methodist Hospital.

Mrs. Jake Turner is in the hospital in Paris, Texas. She has been moved from the ICU and is now in a private room.

Mrs. Lamb is in Methodist Hospital recovering from surgery.

Mrs. R. C. Reedy was in Lubbock General Hospital for tests last week.

Mandy Ratcliff had a problem from her tonsillectomy after she came home. She has returned to the hospital and is doing well. She should be home soon.

Grace Canfield, Silby Coombes' Mother, is in Norman Municipal Hospital recovering from a broken leg. She is doing well and should get to return home soon, since she can walk with the cast.

We appreciate your business and support!

ATTEND THE CHURCH OF YOUR CHOICE

"Strength For Every Need"

Tommie Beck First United Methodist Church

Text "They that wait upon the Lord shall renew their strength." Isaiah 40:31
Nothing is more needful in these confused days than a consciousness of an all-sufficient strength other than our own. Isaiah suggests that "They that wait upon the Lord" shall have both that consciousness and also strength for every need. Here is his catalog of God's assistance.

I. "Mount up with wings as eagles." That which we think is impossible, really isn't when we "wait upon the Lord." God will enable us to do that which is needed.

II. "Run and not be weary." Even the emergencies that arise, God will help us cope and overcome, if, "We wait upon the Lord."

III. "Walk and not faint."

Those monotonous trying things that we go through each day, which are routine and bother us so much, will be different and be seen in a different attitude if "We wait upon the Lord."

There is but one condition, and then all this can be ours. "We must wait upon the Lord" meaning, slow down and live in His fellowship every day in every area of life.

Cotton Center Farmers Co-op Gin Holds Stockholders Meeting

Cotton Center Farmers Co-op Gin held their 47th annual meeting Friday June 10, at 7:30 p.m. at the 50 Yard Line Restaurant in Lubbock. 116 members and guests were present.

Tommy Joines, president, presided over the business meeting. Minutes from the 1982 meeting were read and approved. Dividend checks were paid on current operations totaling \$53,554.02. Added to seed rebates paid in January, this makes total refunds to the stockholders stand at \$61,254.02 for the year. 100 percent of current net income was paid.

Rick Riddle of Denzil McMillan and Co., Plain-

view, gave a report on the financial statement. He reported the gin had a very good year.

Three directors were elected to the board for a three-year term. They were Kenneth Burnett, Tommy Horsford, and Lonnie Stokes.

Tommy Joines introduced representatives from regional cooperatives. They were Wayne Martin, Plains Co-op Oil Mill; C. L. Boggs, Plains Cotton Co-op; John McQuien, Plainview Co-op Compress; and Wes Sharp, Texas Bank for Cooperatives. Other guests were Jim Roberts, South Plains Electric Co-op; Mr. and

Mrs. J. B. Wheeler, Hale County State Bank; Mr. and Mrs. Monte Lee, and Mr. and Mrs. Ron Young.

Jeff Black, vice-president, presented an award to Kenneth Burnett in appreciation for serving 20 years on the board of Cotton Center Farmers Co-op Gin. Manager, Bill Ivins gave a report on gin operations

for the year, and reported 9,110 bales ginned. He recognized all employees. Kenneth Burnett presented a ceiling fan to Mr. and Mrs. Bill Ivins from the gin. A drawing was held for door prizes. Some prizes were donated by other businesses. In addition, there were 24 100 percent cotton towel sets given.

Soil Moisture Devices To Determine Irrigation Needs Available

There are two types of soil moisture measuring devices that would be practical to incorporate into a farm operation: tensiometers and gypsum blocks. Each has its own usefulness.

The tensiometers are excellent for reading wet soils and the electroid blocks are accurate in dry soil. Either, or both, can be used to help producers in determining water applications.

Each crop has different capabilities of extracting water from the soil, with soybeans being the least capable of extracting water from the soil and sunflowers being the most, for the major crops grown in Hale county.

The county Extension of-

ice, according to Billy E. Warrick, Hale County Extension Agent, has a tensiometer use guide to assist producers in determining when the first irrigation is needed, at what level soil moisture should be maintained through the growing season, and to estimate the approximate time to cut off irrigation applications for the major crops in the county.

McKinney Presented "Salesman Of The Year" Award

Brac McKinney, of Abernathy, received the "Salesman of the Year Award" at the annual Owens Sausage family picnic in Richardson, Texas, Saturday, June 11th. This picnic is held on the Owens Farm grounds every year.

At the picnic, he received a plaque and an extra

week's paid vacation. He also received a Safety Award and a certificate for having no accidents, while on the job.

Brac has been with Owens Sausage for one year, as of last February. He works out of Lubbock, but covers an area extending from Andrews to Hobbs

to Roswell, New Mexico.

Brac is a graduate of Hale Center High School, but he and his family have been in Abernathy for the last 16½ years. He and his wife, Wanda, have three children; Ranae, 20, David, 16, and Carey, 14.

Hi Plains Drilling Computes Irrigation Data

Hi Plains Drilling, Inc. recently purchased a computer that is capable of helping area farmers learn more about their irrigation costs.

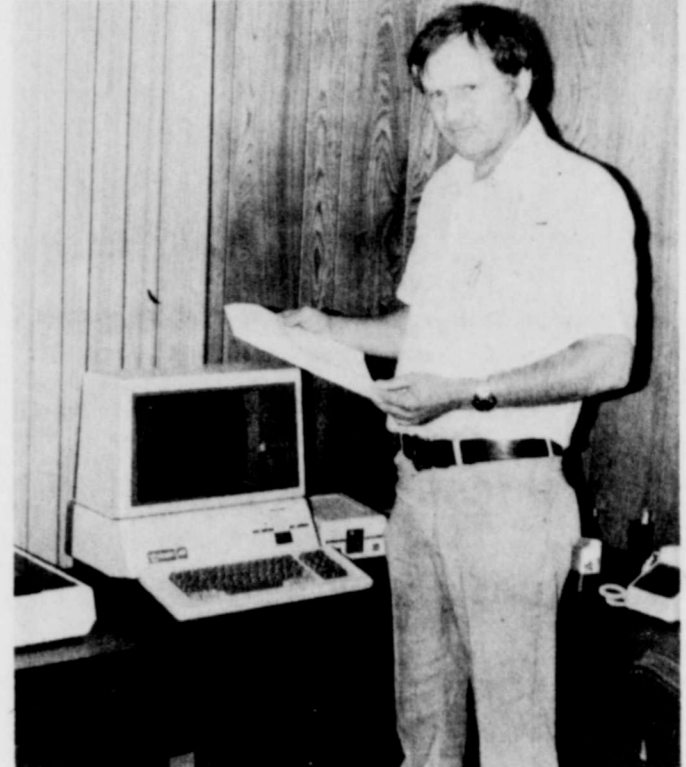

The computer is an Apple III, but the important factor is that the folks at Hi Plains Drilling have developed a program to help farmers learn how they can cut down on irrigation costs.

There are formulas farmers can use to find out such information as cost per acre inch and annual costs (based on average water applications), but the pro-

gram developed by Hi Plains is quick and accurate.

Gary Grant, President of Hi Plains Drilling, Inc. stated that it takes a farmer a long time with pencil and paper to figure out what he is spending for irrigation costs, when the Apple III and the program his company has developed can produce all the information a farmer needs to know in no time at all.

"We don't know of any other company in this area that has developed a program such as this," Grant said. "All the farmer needs to do is give us a little information, such as amount of water they pump (GPM), the pumping level, discharge pressure (PSI), fuel consumption, pump size and

IRRIGATION COMPUTER DATA is made available to farmers through a program developed by Hi Plains Drilling, Inc. of Abernathy. Pictured is president of the company, Gary Grant, with an Apple III computer and a program produced by the computer. (Review Photo)

Mr. Farmer:

Increase Your Cotton Yields Up To 200 Lbs.

Apply 100 pounds of our mix cost - \$12⁰⁰ acre an increase of only 100 lbs. yields - \$50⁰⁰ Per acre.

Plains Pest Management Report

Cotton has made some progress in growth. Many fields are now in the two-four leaf stage. Seed-

ling disease has become more apparent in cotton fields this week. Most fields have enough healthy plants to maintain a good yield potential. Thrips are still causing a problem in some fields. Even fields which have already been treated for thrips will need to be scouted during the next week, as thrips continue to migrate from wheat and pasture areas.

and actively feeding. They are easily controlled when small. A few insecticides which are available locally for bagworm control are malathion, carbaryl (Sevin), diazinon, chlordane (Durs-

ban), acephate (Orthene) and Bacillus thuringiensis (Dipel). If you have any questions, call Greg Cronholm at 293-8481, ext. 273 or 296-6939 (home) or 293-6114 (mobile).

summer bonus BONANZA

End-of-model rebates up to \$4,600 and a finance waiver offer to March 1, 1984 on new 40- to 228-hp John Deere 40 Series Tractors

There's no need for you to assign your PIK certificates to buy a new farm tractor now. Not if you take advantage of special end-of-model offers on John Deere 40 Series Tractors.

Between June cash rebates up to \$3,200 (see chart) and your trade-in, you'll likely cover downpayment. Then if you're a qualified buyer and finance with John Deere, finance charges will be waived to March 1, 1984. Or you can take an additional cash rebate in lieu of waiver up to \$1,400.* But you must act during June to take advantage of offers at this level.

One other reminder: We're discounting from tractor list prices that date back to 1981 on the 40 Series.

So get the new 40 Series tractor you need now. But hold onto PIK certificates and still get a new tractor for Investment Tax Credit plus first-year depreciation to help shield income in 1983.

Come on in soon. We're ready and willing to deal on the new tractor of your choice.

Model	Cash Rebate on Purchase	June '83 Cash Rebate in Lieu of Waiver	Maximum Rebate
228-hp 8640	\$3,200	\$1,400	\$4,600
179-hp 8440	3,000	1,100	4,100
180-hp 4840	2,700	1,000	3,700
155-hp 4640	2,300	900	3,200
130-hp 4440	1,700	700	2,400
110-hp 4240	1,500	600	2,100
90-hp 4040	600	550	1,150
80-hp 2940	1,400	400	1,800
70-hp 2640	900	350	1,250
60-hp 2440	400	300	700
50-hp 2240	100	250	350
40-hp 2040	100	200	300

(Offer subject to tractor availability)

*Maximum rebates on 40 Series tractors include a bonus for cash purchase, for financing with John Deere without waiver, or financing where you choose. Leases not eligible for cash rebates. Availability of John Deere financing subject to approval of credit. These offers may be reduced in value or withdrawn at any time.

Corn

Corn is growing rapidly with some fields now 36 to 42 inches tall. Southwestern corn borer emergence continues from overwintering sites. Sampling on 6/14/83 (Tuesday) indicated 40 percent emerged, 53 percent in the pupal stage and 7 percent larvae. A few SWCB adults (1-3 per night) are being collected from the Edmonson area. SWCB laying has been minimal at this time.

Insect Traps

Again this year, county specialists will be monitoring pheromone and light traps. The pheromone traps are being used to monitor cotton bollworm (corn earworms) and tobacco budworms. The light traps are being used to monitor cotton bollworms, southwestern corn borers, true armyworms and other pests found on crops in this area. Trap collection information on cotton bollworms will be used in a Moth Z-V computer program to give researchers a prediction of egg laying in cotton.

Bagworms

Every year we see bagworm damage to windbreak trees around farm dwellings. If you had bagworm problems last year, now is the time to treat your trees. The bagworms are hatched

ANOTHER TAX CREDIT. By hiring a qualified youth for summer labor, an employer can earn tax credit, says an economist with the Texas Agricultural Extension Service, Texas A&M University System. Calendar-year taxpayers may claim a tax credit on their 1983 federal income tax return for 85 percent of the first \$3,000 in wages paid to qualifying employees for any 90-day period between May 1 and Sept. 15.

Abernathy Students On Tech Deans' Honor Roll

More than 2,200 students at Texas Tech University qualified for the deans' honor rolls in the university's six colleges during the 1983 spring semester.

Students making the honor roll included the following from Abernathy: Clinton F. Barrick, Rt. 2, Box 169;

Rhonda Blalock, 1705 Ave. H; Jane B. Kveton, Rt. 2, Box 132; Susan B. McCune, Rt. 2, Box 166; Jimmy L. McKenzie, 1613 Ave. G; Nathan Neis, 1111-1st; Weldon L. Patterson, 505-2nd Place; Donald S. Raphael, 612-15th; Darrick L. Stallings, 509-2nd Place; Mandy

M. Thompson, 707-13th; and Gloria J. Torrez, 605 Ave. A.

To qualify for a dean's honor roll, a student must have a grade point average of 3.5 or more on a 4.0 scale and must have taken 12 hours or more of classes. Texas Tech has an enrollment of almost 23,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics.

EDITOR'S NOTE: This list may not be complete because many students list Lubbock as their official mailing address. Consequently, many are listed with the Lubbock honor students.

Herron Scores At SPS Workshop

Robert Herron, of New Deal High School Chapter of the Future Farmers of America, took third in a contest among FFA students studying "Farm Motors" at a recent Southwestern Public Service Company (SPS) farm electrification workshop.

The three-day workshop, held in Amarillo June 13-15, attracted 84 FFA boys and 5 FFA girls from Texas and New Mexico.

First place winners in the five contests at the workshop won trips to the National FFA Convention in Kansas City, Missouri, in November.

Herron is the second alternate for one of the SPS-sponsored trips.

Vocational agriculture teachers who made up the workshop faculty selected the five trip winners on the basis of test scores and class performance. Winning the trips were Frank Jesko of Lazbuddie, J. Dale Butler of Valley High School, Keith Williams of Mobeetie, Shad Kelley of Abernathy, and Brooke Owens of Artesia, New Mexico.

The future farmers learned how to wire buildings, build and use electric controls, or how to build electric motors. They also were taught how electricity is made, and first aid and safety tips.

Five area vocational agriculture teachers paid by SPS taught the three courses. They were assisted by 10 adult FFA advisors and by SPS personnel. The "Farm Wiring"

course emphasized safe and efficient wiring of two- and three-way switches, proper wire splicing, and how to make a meter loop. The skills can be used in homes, barns, sheds, or other places electricity is needed.

Students in the "Electric Controls" course learned how to tie in three- and four-way switches, how to set up photoelectric cells for automatic lighting, and how to set up two- and three-pole relays.

The "Farm Motors" course taught students how to operate, repair and build small electric motors.

On the second day of the workshop, the students toured SPS' Harrington Station, the coal-fueled power plant northeast of Amarillo. The station has a generating capacity of 1,122,000 kilowatts.

Southwestern Public Service primarily provides electric utility service to a population of more than one million.

Grant Catches 'The Big Ones' In Northern Canada

Gary Grant, President of Hi Plains Drilling, Inc. of Abernathy, flew to northern Canada last week on his annual fishing vacation. Grant travels to a secluded fishing area, where he always "finds the big ones," and he did.

Grant left Abernathy last Saturday, June 11. Grant, and friend, Jim Farmer of

Lubbock, flew Grant's Navajo two engine airplane from Lubbock Airport to Amarillo, where they picked up three other friends, Dick Holton, Gene Cudd and Max Baggerly, all of Spearman.

The group, with Grant as the pilot, flew straight through to Regina, a town in Saskatchewan, Canada.

They refueled there and flew to Lake La Ronge in northern Saskatchewan, Canada. They left Grant's plane there and took a float plane another 210 air miles

to Pipestone Lake, a lake about four times larger than Lake Meredith in Texas, and this is a very small lake for Canada. Pipestone Lake

is located about 700 miles north of the Canada-U.S. border.

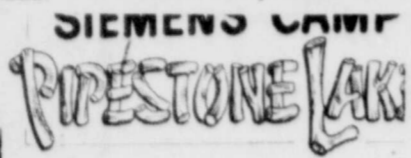

Grant fished at Siemens Fishing Camps at Pipestone and Engemann Lakes. Engemann Lake is located near Pipestone. These lakes are swarming with huge lake trout, walleye and northern pike, and the fishermen caught many of each of these kinds of fish.

Grant stated that some of the lake trout they caught weighed as much as 12 pounds, but that they have caught much bigger trout, some 25 pounds or better, in previous trips.

"One of the northern pike we caught weighed 18 pounds," Grant said about this trip. He added that they caught most of the fish with spoons by plugging different areas and trolling.

Grant and his friends returned from Canada this past weekend, after having fished at three different lakes for a week.

Grant ended by saying that the country was beautiful, and it was warmer in Canada than it was in Texas before he left. "It got up to 92 degrees one day," he added.

THE LAKE TROUT ARE BIGGER in northern Saskatchewan, Canada and these two area men caught some of them. Pictured on the left is Gary Grant of Abernathy, and on the right, Jim Farmer of Lubbock. They went on a fishing trip to Canada recently. They are pictured at Pipestone Lake with some of the lake trout they caught. Some of these trout weighed as much as 12 pounds - "small ones Grant said."

Terry Glen Davis

Terry Glen Davis, 25, died Saturday, June 11 at the Veterans Hospital in Albuquerque, N.M. He was the grandson of Lillie B.

Davis of Abernathy. Services were at 2 p.m. Tuesday, June 14 in Morrison Funeral Chapel in Dumas with the Rev. Larry Hall, pastor of First United Methodist Church officiating. Burial will be in

Northlawn Memorial Gardens. Mr. Davis moved to Albuquerque several months ago from Dumas. He was a student at the University of New Mexico. He was a U.S. Navy veteran

and was a member of Christ Methodist Church in Albuquerque. Other survivors are his parents, Mr. and Mrs. Ted Davis of Dumas and a sister, Deborah Watson of Albuquerque.

Mattie Smith

Services for Mattie Lou (Ethel) Smith, 74, of Morton were Monday at 2:30 p.m. in First Baptist Church in Morton with the Rev. John Jenkins, pastor, officiating.

Burial was in Morton Memorial Park under direction of Morton Funeral Home.

Mrs. Smith died at 2:05 p.m. Saturday at Cochran Memorial Hospital after a brief illness.

Mrs. Smith was born August 30, 1908 in Winters, Texas.

She married Thomas Thurman Smith Dec. 21, 1929, in Portales, N.M. He died in 1970. She came to the Morton area in 1925 from Winters.

Survivors include three daughters, Wilma Marie Stillwell of Abernathy, Wanda Fay Thomas of Irving and Ruth Ann Roberts of Plainview; three sons, Thurman Gerald of Weatherford, Hollis Royce of Irving and Bobby of Morton; a sister, Maggie Hodnett of Morton; a brother, Fred Crow of Morton; 12 grandchildren and five great-grandchildren.

The family suggests memorials to the American Diabetes Association.
