ITS A GO.

There is no longer a doubt about the fusion of the pops and republican and Hardites in Texas, it has been agreed upon. Hardy has moved headquarters to Dallas where the republicans have two floors and a regiment of clerks, costing more in a month than the democrats will spend during the campaign. The agreement is the pops gets six the republicans six and Hardy three electors and all are to vote for Kearby and pop congressmen. The republicans say if they are successful with the fusion they know they can count on the Hardites in the electoral college, and they have a way of reaching the pops. They will have barrels of money to turn loose, and say they will have after Oct. 1st, 200 speakers in the field, 100 pops and 100 republicans and assistant republicans, the Hardites. One of their managers told this writer that there would be ample campaign funds provided, and that he considered it perfectly legitimate to use it any way that would advance the cause of the party, meaning the republican party. He said they were paying speakers from \$50 to as high as \$2000 a week and expenses. Cuny had kicked over the traces because Green, Huston, Grant and Hedges did not care to give him what he wanted, but Kearby sent for him and they had a long confab and when he emerged from the pop, he seemed perfectly willing to get back in line for duty. It is said, in Dallas, Kearby promised him the presidency of the Prairie View Normal school.

The pops are trying to make Hanna's agents put up \$1000.00 to each of the 115 pop papers in the state. It was discussed before the conference and argued by the pop leaders that it would take that amount to keep the boys in line and get them to advocate the fusion. The speakers all will be paid and there will not be less than \$200,000 spent, and it may run \$500,000 to throw Texas in the republican column. They say if Kearby is elected it is a

republican victory as he is their tool and ally.

This is the serious condition that confronts the honest populists of this state, and the News does not believe they will be sold out by Kearby to the republican party. All pop papers coming to this office with the exception of the Gladiator have pulled down their electors, which goes to prove that the deal is on, and it further proves the fact that the gang that fought Bryan in the St. Louis pop convention and then bolted, sold out to the republican party, and are now carrying out the contract to turn Texas and the honest old farmers who have always fought republicanism and the single gold standard, to the worst class of political pirates and place-hunters ever before the people.

The News has too much faith in the honesty and integrity of the populist of Texas to submit to it, and it asks every populist that loves good government, his country, his home and family, to investigate before he casts his ballot, and he will find the News warning is based on facts that November will prove.—Hunt Co., News.

From St. Louis Republic:

Dr. E. P. Miller of New York, a gold standard high tariff advocate, predicts if Bryan is elected he will never be allowed to take his seat. This shows the temper of the men who have controlled this government in the past. They do not propose to let the people put a man in the presidential chair if he is objectionable to them. If Bryan is elected he will be inaugurated if it cost the lives of a million or more of his followers to enforce the will of the people. If there is anything in this threat it shows to what a crisis we have reached. Perhaps the money power will resort to revolution before they will surrender. The sooner the truth is known to their intentions is known the better. Vote for Bryan and Sewall.

BRYAN CLUB ORGANIZED.

A Bryan and Sewall democratic club was organized at the Court House Monday night with a membership of 53, all voters at Baird except two. Officers of the Club.

W. E. Gilliland, Pres; W. C. Whitley, V. P.; J. H. Walker, Secy; R. A. Speer, Treas.

Campaign Committee.
E. R. Sartor, H. F. Foy, H. D. Alexander, R. A. St John, A. G. Webb, W. E. Mayes.

The Club starts out under favorable conditions and several names have been added to the list already. Every man who intends to vote for Bryan should enroll his name with this club.

The battle is on and the victory will soon be lost or won for the silver cause. Some of the members are working hard to increase the membership of the Club. Nothing succeeds like success. If the members work like they ought to we will have four-fifths of the voters in Baird precinct enrolled in the Club by election day.

The Club decided to have the meetings public and every body is invited the ladies especially. A committee was authorized to be appointed to especially invite the ladies and the public generally.

The following committee was selected for that purpose:
F. S. Bell, B. L. Russell and A. A. Callahan.

An effort will be made to make the meetings interesting and entertaining. Short speeches will be made by various members next Monday night.

The Club will meet regularly hereafter on Monday night of each week, at 7:30 o'clock sharp. Everybody invited. Come out and hear the silver side of this great issue that is moving the great masses of the American people as never before in the history of any country.

Bryan, our matchless leader, is touring the country and winning thousands of voters to the cause of the

right and each individual friend of Bryan's and of the people's cause ought to do something, and the least one can do now is to join a Bryan club and lend your presence and influence to the good cause.

THE POPULIST PROGRAMME.

"In the Gal-Dal News report of the populist state convention appears the following forecast of the action of their state campaign committee:

"It will be a power. The campaign will be under its auspices. It will counsel an attack on the present state administration. It will command populist orators to ignore national questions. It will have nothing but assault, assault, assault and assault only the state officers. In about two months the word will be given out that the pops are in danger. The danger will be fearfully portrayed. Then the file will be told that a combination with the republicans is all that can save the party. The leaders will not speak for combination. The file is to work for it, and that is the programme to-day, and the chances are good that it will work. And to the campaign committee will be left the details of the trade with the republicans. They will be arranged. Let no one doubt this, if the scheme goes through. The details are not known. They are not made up. But whatever they may be the populist will demand the control of the offices in the state from governor down. And the republicans must have a quid pro quo. That quid pro quo will be McKinley electors. Just see if it does not turn out this way, if it does not, then the work of the leaders in this convention has been in vain."

IN THE CITY CEMETERY.

The Idle Reporter, moved by that peculiar instinct in human nature, which makes the whole world kin, went forth last Sunday for a stroll through the city cemetery, and viewed there among those those gentle scenes and sounds of nature, those lonely mounds whereunder sleep the dead, those over whom the glittering marble have been reared, telling of birth, death, age, and perchance of some good and noble trait in life, which marked the character of the eternal sleeper; the marble, so cold, so pure, so white, whereon, glow angel and apostle, blooming and flowering in the concrete expression of a grand, sweet, thought.

And here, in this city of the dead, where the Idle Reporter bethought himself that each fading calyx was a memento mori, yet, fount of hope.

But there, like humanity, the flowers bloom and die, among those white shafts, which tell their own sorrowful story of both life and death.

And there among the sleeping of the dead, who no earthly sound could awake, the Idle Reporter listened to the pathetic music of the song birds, which chanted their tender requiems to those who were sleeping in that everlasting peace, which "passeth understanding."

He inhaled the perfume of the flowers, planted by hands of love, and watered by tears of anguish, and he felt upon his brow, the sad breezes whose soft breath moved cedar boughs into the sad monotony of an endless dirge.

All around was like a golden sun burst on a field of living green, its sweet voices in the air, a type of harmony and ever springing hope, awakening memories both sweet and tender; so does this music of the spheres, that one hears from the acolian harps of wind as they whisper through the grasses and boughs of the trees; those lonely sentinels of the dead, music,

which is indeed at once, invocation and blithsom.

Then the Idle Reporter turned and left, as the day was fast falling to the twilight, with the memory still upon him of one near and dear, of one who has lately gone to his final sleep and of that new made grave away off in Virginia's sacred sod; and he thought "oh! for the touch of a vanished hand, and the sound of a voice, that is still."

McKINLEY vs. McKINLEY.

A few days ago Gov. McKinley in a speech to a visiting delegation said: "We want the same kind of money we have had since 1878." In other words he emphatically indorsed Cleveland's financial policy. Here is what McKinley said about Cleveland in 1891: "He was determined to contract the circulating medium and demonetize one of the coins of commerce, limit the volume of money among the people, make money scarce and therefore dear. He would have increased the value of money and diminished the value of everything else. Money the master, everything else its servant. He was not thinking of the poor then. He had left their side. He was not standing forth in their defiance. Cheap coats, cheap labor, and dear money; the sponser and promoter of these professing to stand guard over the welfare of the poor and lonely. Was there ever glaring inconsistency or reckless assumption?"

DEMOCRATS, ATTENTION.

At the request of several democrats I hereby call a mass meeting of democrats at the school house, Clyde, Tex., at 2 o'clock p. m. Saturday, October 3rd for the purpose of organizing a Bryan and Sewall democratic club. All persons who wish to unite with the democrats on the national ticket, and all democrats especially, are invited and earnestly requested to come out and attend the meeting.

DEMOCRATIC TICKET.

For President, WM. J. BRYAN.
For Vice President, ARTHUR SEWALL.
(Vote Republican.)

Silver was never called dishonest money until 1893.

Dear money means cheap wages, cheap property and cheap men.

According to the Middle-of-the-road pops, Sewall is the richest and meanest man in the United States.

If every ounce of silver, not used in the arts, produced in the whole world was coined into money it would not increase the money in this country quite as much per capita per annum.

Every outrage perpetrated in the campaign is laid on the Chicago platform. Even the gross insult offered Bryan by Yale students is condoned by gold bug papers on the ground that this spirit of intolerance is the outgrowth of the teachings of the democratic platform.

Sewall has been an advocate of free coinage of silver for years and that too in a republican strong hold where it is almost considered a disgrace to be a democrat. All this counts for nothing with such pure and spotless statesmen as Harry Tracy, Cyclone Davis and Marion Williams.

The republican state committee rejoice every time they hear a populist say, no Watson nor Bryan. That is the sweetest music on earth to the republican machine, because if the populists think that the republicans know it means either a half vote or a whole vote for McKinley. At the worst it means no vote for Bryan, and that is what the republicans want, of course.

Every National Convention this year, with the sole exception of the Indianapolis rump convention, has condemned Clevelandism. The republican party, however, proposes to follow out Cleveland's policy on the money question. On the tariff they admit that nothing can be done for four years; hence a vote for McKinley is an endorsement of the Cleveland policy.

The money changers have changed their tune somewhat now. Formerly they were afraid of a flood of silver now they say we will have less money than ever if we adopt free coinage of silver. This flood of money argument was just what suited most; hence they have changed their argument so as to make it appear that we will actually have less money than ever if Bryan is elected.

The Texas middle-of-the-road populist wanted some excuse to oppose Bryan, and Sewall's nomination furnished them with an excuse. If they did not have Sewall as an excuse to oppose Bryan it would be something else. The long boasted tenet of the pops that it is principles not men or office they wanted is thus rudely shattered. From Jerome Kearby down every populist candidate for office would, with a few honorable exceptions, gladly see Bryan defeated if they could only be elected themselves.

TOWN TOPICS.

The democrats will organize a Bryan and Sewall Club at Clyde today.

The STAR acknowledges receipt of a complimentary season ticket to the Texas State Fair and Dallas Exposition at Dallas, Oct. 10th and closes Oct. 25th.

Next Tuesday will demonstrate whether Tom Watson had any right to abuse new all for falling to carry Maine. Georgia holds her state election Tuesday and will go democratic.

Prince Bismarck's letter to Gov. Culberson, in which he says he is in favor of bimetalism, has evidently hit the Galveston-Dallas News and other single gold standard papers pretty hard judging from the amount of space they devote each day to criticizing old Bly.

Geo. L. Walton, brother of Buck Walton, populist candidate for Attorney General, has quit the populist party and is stamping the State for democratic party. Old time democrats like him refuse to be sold out to the republicans for McKinley.

The worst anarchist in this country are the monopolies, trust, and combines that have fattened off the toiling masses of this country. These groups would stamp out institutions and their power threatened by Bryan and they think to hoodoo the people by calling him an anarchist. Even that old fossil Palmer at New York under the drippings of the Wall street sanctuary could not refrain from pleasing the ears of his masters by referring to Bryan as an anarchist.

Nearly every large corporation of the country is fighting free coinage of silver, and one of their main reasons is that it will cut the laboring man's wages down one-half. Don't you see the absurdity of all this clap trap argument? No intelligent laboring man who will think for a moment but what is bound to admit that if these philanthropic corporations believed their own argument they would be whooping for free coinage of silver to heat old Nick; because nothing would afford them more pleasure than to have the price of labor reduced.

The Prodigal last week says two democrats to settle a dispute on the silver, and one of their main reasons is that it will cut the laboring man's wages down one-half. Don't you see the absurdity of all this clap trap argument? No intelligent laboring man who will think for a moment but what is bound to admit that if these philanthropic corporations believed their own argument they would be whooping for free coinage of silver to heat old Nick; because nothing would afford them more pleasure than to have the price of labor reduced.

 R. J. Harris of Callahan City was in town Wednesday. Everybody is hunting to get out the balance of their cotton crop and there says R. J. and have little time to talk politics.
 Mr. and Mrs. Gage and Mr. Kelner, Mrs. Gage's father, left for Fairfield Iowa, Thursday, where they go on a visit to Mr. Gage's parents. Mr. Gage will locate permanent in that section but just where he has not decided.

Prof. Pack of the Baird Public School who has been visiting relatives back in old Virginia during the past summer, returned home this week and will be ready to take his place as first assistant teacher when the public school opens next Monday.
 Several students from abroad are attending the school. The State would like to get a list of all such students for publication which will perhaps encourage others to send. Baird has an splendid school and the State is anxious for the people out in the country to know it.
 While one of our city reporters was strolling down Market Street one day this week, his attention was attracted, by a well known dry good's store with a string some 15 or 20 feet long, upon asking what about it, the clerk replied: "Oh nothing, only a lady sent it here, for get twice its length in length, for a pair of garters."

There are some people who never wear dark glasses and yet they never see any thing bright. It's the people who are dyspeptic and soiled. Everything is out of joint with such people I suffered many years with Dyspepsia and liver troubles but have been relieved since I take Simmons' liver regulator. I know others who have been greatly benefited by its use. James Nowland, Carrollton, Mo.
 An attraction of the State Fair that everybody will want to see and hear is the First Artillery Band of the Mexican army, which, by gracious concession of the State has been secured for the morning and evening concerts at music hall. This is the most famous band in Mexico, and one of the greatest bands in the world. It was a rare piece of luck on the part of the fair management to be able to engage it.
 The Texas State Fair and Dallas Exposition will open October 10th and close October 25th next. Preparations for the opening are now actively in progress, and are being made on a scale larger than ever before. The grounds and buildings have been re-modelled and improvements made in every quarter. New features have been added to please every taste and fancy, and reports from the State at large indicate that the attendance will exceed that of any previous year.

NOTICE.
 I have several hundred dollars due on subscriptions, some of it has been running from one to eight and nine years. I need money badly to meet obligations due and past due, and earnestly request all those who know themselves indebted to the State Fair for subscription or otherwise to try and pay something at least. I have published and sent out the State Fair to subscribers regularly through hard times or good times for years whether money was received on the subscription or not, but I never did money as badly as I do now, and I hope those who owe me will try to pay up, the smaller the amount the easier. Remember that while your amount may be small yet with a list of several hundred names owing like amounts in the aggregate it makes a large sum to me.

DESTRUCTIVE STORM.

BRUNSWICK AND SAVANNAH, GA. VISITED BY A GALE.

Several lives are lost and many injured. Much damage done to property. Heavy damage done to the crops of the Savannah River.

New Orleans, La., Sept. 20.—A special from Atlanta, Ga., says: A disastrous hurricane swept over Brunswick and along the Georgia coast yesterday morning. Heavy reports have been received from the storm center, which indicate that the hurricane was one of the fiercest and that great damage and probable loss of life resulted.

The wires went down for a distance forty or fifty miles this side of Brunswick and no information has been received from that place except by a train which left there while the storm was raging. The train was delayed in Brunswick two hours yesterday morning, the engine being unable to make headway against the wind, which was blowing at a high velocity. Wind and water worked destruction, and the train left Brunswick with the streets were filled with debris, wires, telegraph poles and the roofs of buildings were being carried away. People were injured by flying objects and one lady was killed.

At Everett, a small station a few miles from Brunswick, the rails and tracks were obstructed by trees, and the only train that could cross from Brunswick was provided with a clearing train and a crew for a distance of twenty miles, the crew clearing the track of debris and trees.

Mr. H. N. Morris, of the Atlanta Telephone company, reached Atlanta last night from Brunswick, and reports that the city was visited by a lady damaged, and that three big vessels were sunk in the Brunswick harbor. The latter were blown away from their moorings. The tops of the sea and wind destroyed much of Brunswick's shipping interests. Mr. Morris says that the ship, the *Monitor*, was blown away from her pier and that she was floating helplessly in the water in danger of going to the bottom.

A part of the Oltshire hotel, the leading hostelry of Brunswick, was blown away, and that the streets were totally or partially wrecked. Many houses in the suburbs were blown away and the water rushing through the streets in torrents, carrying property, household furniture and other articles toward the harbor.

Telegraphic communication was restored with Brunswick at 1 o'clock this (Wednesday) morning and the leading news of the hurricane is being received.

Four persons were killed outright and many others injured. The *Dr. Davis* and John Jefferson and baby also colored.

A careful estimate places the damage done to the city of Brunswick at \$500,000. Many lives were lost. The storm at Savannah was equally disastrous, and several persons were killed in that city.

The Carver Claim. St. Paul, Minn., Sept. 20.—The Carver claim on the site of St. Paul and part of Minneapolis, is reported from Napoleon, O., to be revived and pushed. The late Jonathan Carver had a claim on the northwest in 1786, and lived in the town which has since been known as Carver. Carver, near the Indian mounds, where the aborigines lived for many years. For various reasons these Indians decided to him about 100 square miles of territory at this point. The original reasons of land were made by the Indians to the general government, but no record was made in the deed books of this land, so it is considered an open title. Dr. Carver, the grandson of the old pioneer, came here in 1843 to settle the claim, but congress would not recognize him or his claim. The original document ceding the land from the Indians to Capt. Carver was for several years kept at the state historical library as a curiosity, but was destroyed in the state capitol fire.

Cigarmakers in Session. Detroit, Mich., Sept. 20.—Yesterday's session witnessed the beginning of the fight between the American and the socialistic factions in the Cigarmakers' international convention, the occasion being the seating of Walter W. Hemmerling from New York. Objection was raised to him on the ground that he was not actively engaged in the trade but it soon dropped on the debate which followed that the socialists objected to him because of his anti-socialistic tendencies.

Delegate Isaac Bennett, of New York, led the opposition to Hemmerling in the address of the latter before the guild. At noon a vote was taken on the question, which resulted in a complete rout for the socialists. The meeting was seated, his opponents having only fifty of the 246 delegates present.

Gold from Australia. Washington, Sept. 20.—The director of the mint has received a telegram from the San Francisco mint stating that about \$4,000,000 of gold has been shipped to arrive there from Australia a week from Friday next. Information is received from London that the Bank of England has ordered \$10,000,000 to be sent to the United States before the end of the week. With these shipments are expected to arrive the treasury, which together with the amount of gold in the vault would bring the gold reserve approximately to \$125,000,000.

SEVERE ENCOUNTER.

SPANISH VOLUNTEERS WERE SURROUNDED BY INSURGENTS.

A Desperate Fight Took Place.—There was a severe encounter between two companies of Spanish volunteers and three companies of Cuban insurgents in the town of Havana, Cuba, Sept. 20.—A special from Havana, Cuba, says: Thirty-five Spanish volunteers commanded by Lieut. Romeo, were surprised by a force of insurgents as they were leaving the town of Guayacan, province of Havana. A desperate battle was fought, the insurgents attempting to cut their way through the rebels. Their efforts were without avail, but they did not cease fighting until only twenty-three of their number were killed and wounded. Among the killed was Lieut. Romeo. The volunteers who escaped reported that severe losses were inflicted on the rebels.

Havana grocers, owners of clothing and other goods, and cigar factories have been placed under the same military supervision as the drugstores with reference to the sales of retailers in the interior towns ordering goods from the city.

In the future must bring or send a success and clear discharge is required to be approved by the local military commander.

Conrad Geo. Lee, who has finally obtained the release of Samuel S. Tolson, was informed that Tolson must leave the island on Wednesday next. The release of Tolson is a matter of interest in Pinar del Rio and along the western coast are not only paralysing the local military movement, but also the full energy of the people and some weeks more carrying in the case of Capt. Gen. Weyler's new operations against Antonio Maceo.

Troop ships from Spain continue to enter the port daily, bringing reinforcements. About 27,000 men have disembarked.

Many of these veterans of former campaigns are clearly disgusted with and consequently are expected to achieve better results than the recruits formerly brought over. Apparently they are full of energy and are anxious for the fray.

A majority of them are landed across the harbor to Regua and other districts thence by different routes to points on the island by rail or coast transportation.

A correspondent in Santiago de Cuba says that the American printers, Frank Arramonte and Julius Sans, formerly transferred from Vera Cruz to the civil prison in the city together with Gonzalez, a Venezuelan foreigner, are awaiting trial. The names of the prisoners were called for trial. The Americans are visited frequently by Conal Hyatt or his deputy, Conal Pravez, who returns to them well treated by the prison authorities.

The Spanish press of Havana is eager for the removal of the Meade faction of the proposition to expel from the island all Cuban negroes as soon as the triumph of the Spanish army in the present struggle shall be secured and to follow up the step by encouraging white immigration from the United States and Central and South American countries.

The negroes would be allowed to voluntarily embark for ports of the United States and Central and South American countries. When they depart from Cuba, it is alleged, the future place of the island be a white wash welcome.

Telephone Company Sues. Little Rock, Ark., Sept. 23.—The Fort Smith telephone exchange of the Hartford Telephone Company, which has collapsed, has collapsed after a struggle for existence during the past four years, and passes into the hands of the Northwestern Telephone and Bell companies, operating under the Telephone exchange.

This exchange was the foundation stone of the Hartford Telephone Company, which was originally capitalized at \$800,000, and afterwards reduced to \$400,000. The exchange was built in the most thorough manner, and cost the Hartford International Telephone Company more than \$2,000,000. The Northwestern Telephone and Bell companies own the property for less than 30 per cent original cost.

Theatre Closed. St. Louis, Mo., Sept. 23.—The Century theatre, which has been in course of construction for more than a year, at a cost of \$1,000,000, was closed last night. The building covers half a square, and is white marble with a gray granite front. The theatre is owned by the business center of the city and is said to be the finest theatre in the United States. The play presented last night was "Liberty Bell," and was acted by the famous *Phobias*, an organization from the Empire theatre, New York.

The Strike Situation. Louisville, Colo., Sept. 23.—The statement is made that the strike was being pointed by the miners' union Saturday night to consider the question of declaring the strike of the *Black* by prominent means, but yesterday Secretary Dewar declared positively that the strike will not be declared, and that the demands of the union are conceded.

The Dry Goods Firm of Gerst & Co. Alexandria, La., was closed by the sheriff the other day.

NO NOTES.

THE NOTES FOR PAYMENTS ON PRICES AND BONDING on such instruments are generally sent or transferred to others, typographed with bank or factory, or traded for other goods. Live notes, when placed in hands for collection may never see their day unless needed, hence no business man should give notes when being instruments on installation. Live notes are liable to be held anywhere between Texas and New York, consequently those who sign them have no opportunity to plead for an extension and too late. Agents and dealers who demand notes on installation should generally state that notes do not pass from their possession. It is also to be noted that they take "bank" notes. The collection is ample security in itself. Agents and dealers who say live notes will be presented if not promptly paid, ought to state that notes are liable to be in the hands of parties unknown to them. To whom, manufacturer or others, may come from.

We Do Not Demand Notes on Installation Sales.
We carry everything in the most line.

DRUGS.
The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit habitually is to receive a shock to the system, as tobacco to an inveterate user becomes a stimulant that the system continually craves. "Baco-Cure" is a scientific cure for the tobacco habit, in its forms, carefully formulated after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure. It is purely vegetable and guaranteed perfectly harmless. You can use all the tobacco system while taking "Baco-Cure." It will notify you when to stop. We give a written guarantee to cure permanently by any case with three boxes, or refund the money with 10 per cent interest. "Baco-Cure" is not a substitute but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. CURED BY BACO-CURE AND GAINED THIRTY POUNDS.

From hundreds of testimonials, the originals of which are on file and open to inspection, the following is presented:
Clayton, Nevada Co., Ark. Jan. 28, '95
Eureka Chemical & Mfg. Co. La. Cross, Wis. - Gentlemen: For forty years I used tobacco in all its forms. For twenty-five years I smoked. I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit with colden, and I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Florida of Gold," etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Cure" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight, and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and conditions.
Yours respectfully, P. H. HARNBY.
