Someday, in a blaze of glory, the message will translate into written language and I will manage to actually write exactly what I mean to!

It's so frustrating to have these brain storms, and then be unable to set it all down on paper in exactly the manner I want to.

The golden, perfect images in my head just won't translate into words!

That, of course, must be what separates world-class authors from those who aren't...those folks take the swirling thoughts within their minds and they come out true and perfect.

Of course, "perfect" takes lots and lots of work...but for me, the more I pursue something the more elusive it becomes.

l end up having to sneak uyp on an idea, write it out as quickly as possible, and hope for the best.

When I begin picking and pulling, stretching and condensing,

things always begin to suffer! I understand it's the same with a lot of people.

Letter writers tell me that frequently when they sit down to communicate with family or friends they go as blank and empty as can be, while others pour out everything that has been going on in their lives with no trouble.

Many columnists for large, syndicated papers have researchers who come up with ideas for them. I frankly can't see how in the world they manage to take someone else's ideas and translate them into something. They do an excellent job, however.

Why am I thinking about just how difficult it is to get an idea to come out right on paper?

Because there are two or three things worth observing right now... for example..the golden, rapturous quality of early mornng sunlight on the unsullied leaves just sprung from buds.

Another, the majesty and tension in the air before one of the frequent thunderstorms...where the birds are taking last minute dives after insects before the rain and the horizon promises fearful

How does one describe the feeling of warm spring sun on winter white skin, or the white of calves just introduced into this world?

These are a few of the images and feelings I'd like to be able to express..but words fail me.

But I know that someday, in that blaze of glory, my words will work out...and I'll get my message across.

May 2 Is Deadline For Gifted & Talented Program Nominations

Parents who wish to nominate their children for Prairiland Independent School District's gifted and talented program should contact the principal's office to obtain a nomination

May 2 is the deadline for receiving the nominations for the Gifted & Talented program.

Prairiland's gifted and talented program is now in its fifth year of operation and now serves high achieving students at every grade level.

A committee composed of administrators, counselors and teachers will select students who have been nominaed for the program based on IQ scores, SRA perceniles, teacher evaluations, grade averages and creative test scores. The selection process will take place at the beginning of the fall semester.

Gifted and talented students are those who excel consistently or who

show the potential to excel in any one or a combination of the following areas: general intellectual ability, specific subject matter aptitude, creative and productive thinking, leadership ability, ability in the visual and performing arts, and psychomotor ability. These students require educational experiences beyond those normally provided by the regular school program. Prairiland's gifted and talented program addresses the following areas of giftedness: creative and productive thinking ability and general intellectual ability.

Parents who have questions concerning theprogram should contact Jerry Leverett, Program Director, at Prairiland High School, extension

Texas-New Mexico Safety Fair Is May 2

An electric arcing demonstration that has received favorable comments throughout Texas-New Mexico Power Company's service area will come to Bogata May 2 during the company's safety fair.

The safety fair is free and open to the public and will be held from 9 a.m. until 4 p.m. at TNP's Bogata Construction Center on Highway 271.

The electric arcing demonstration will be presented at 10 a.m., at noon and at 2 p.m., using live electricity to dramatically demonstrate the dangers of electricity.

TNP has presented the demonstration in variosu towns it serves and has received favorable comments from those attending. "Excellent" and "educational" are two words that have been used in many of the thank you letters TNP received concerning the program.

Although the electric arcing dem-

onstrations will be one of the most vivid reminders of the need for safety during the fair, it certainly won't be the only one. Exhibits at the fair will also provide information about highway safety, hunting and fishing safety, fire protection and other ways to prevent accidents and injuries.

In addition to TNP, exhibitors include Contel, Deport Fire Department, American Red Cross, Red River County Extension Agency, St. Joseph's Hospital, Texas Department of Public Safety, Texas Parks and Wildlife and St. Michael's Hospital.

The fair will also feature an exhibit of the winners of a safety poster contest sponsored for students in first through fifth grades at five area elementary schools. The school winners will be on display at the fair, and a grand champion will be selected from the five school winners. The grand champion will receive a bicycle.

Statement of Intent to Change Rates

In accordance with the regulations of the Public Utility Commission of Texas, Texas-New Mexico Power Company announces the Company's intent to change rates for its entire Texas operations. The effective date of such change is May 17, 1991. All classes of customers will be affected by said proposed changes. The proposed rates will produce an increase in gross revenues to the Company over test year revenues adjusted for test year customer growth and weather and annualization of test year rate increases of \$35,836,827, or 9.63%. TNP is proposing an alternative rate base treatment for Unit 2 of TNP One, the second unit of the Company's generating facility located in Robertson County, Texas. Under this alternative, sale-leaseback treatment will be given to Unit 2, thereby including a lease payment in the cost of service, as opposed to traditional rate base treatment. If adopted, the sale-leaseback plan results in an increase in gross revenues of \$31,210,197, or an 8.38% increase over adjusted test year revenues during the first year of the plan. Texas-New Mexico Power Company provides electrical service to more than 165,011 customers located within the state of Texas.

A complete copy of the requested rate filing package is on file with the Public Utility Commission of Texas in Austin, Texas, and with all cities served by Texas-New Mexico Power Company which have retained original inal jurisdiction. You may inspect a copy of the filing during normal business hours at each business office of Texas-New Mexico Power Company in your area.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf

Country Cooking

By Gerrie Bankhead

Country Cooking is being shared this week from the kitchen of Charles and Alice Perry of Bogata. Charles and Alice have been married for eight years and have lived in Bogata all their lives. They have two sons, Rodney, age 13 and Zachary, age 5.

Alice has been an employee at Red River Haven Nursing Home since she was a senior in high school. She is the Dietary Service Manager, ordering all the food, making all the schedules, preparing documents andworking with a staff of 14 employees. Alice also has two part time jobs, one at Burress Food Store and at the Deport Post Office. She and her family attend the Free Hope Baptist Church in Bogata.

When asked to share her hobbies, Alice quickly answered her favorite pasttime is playing bingo. She enjoys meeting and visiting with people and also enjoys the prizes. She also enjoys cooking, of course, her job proves that. She says she is not a dessert cook, she likes to prepare main dishes. She enjoys having friends and family over to eat and for these occasions she likes to barbeque or fry fish. Charles does not enjoy the cooking aspect, just the eating.

Alice also enjoys working with crafts, ceramics and pretty-punch. At the present time she is taking piano lessons. She began about two months ago and is thoroughly enjoying it.

The recipes she shares with readers this week are among her and her family's favorites. When she cooks the Mexican Cornbread, she prepares a big pot of pinto beans and since the bread has meat and and vegetables in it, you have a complete meal. Alice says the pot roast is a meal you can put in the oven on Sunday morning before church and a couple of hours later, you have a delicious meal ready to eat. Her Banana Split Salad is also a quick and easy recipe, but very rich. She received this recipe from a friend in Ft. Worth.

If you have or know someone who has trouble with high or low cholesterol or diabetes, I have asked Alice to share some of these recipes with us. She ha sagreed to do so and we will print them soon. Also if any of our readers have recipes in these areas to share please send them to me and I will print them.

I received several replies this week concerning our recent requests. We want to share two Jeff Davis pie recipes, which are totally different and you can take your pick. One is shared form Dorothy Ritchey and the other, along with the Vinegar Pie recipe is shared by Regina Webb.

If you've enjoyed the article, request a recipe or have a recipe to share or suggest a feature, please call 652-6032 or write Rt. 1, Box 67A, Deport, TX 75435.

The game with Mineola on April 15 found the Patriots taking the 9-2 victory in a District 13-3A make up

This game moved their season cord and district record to 11-3 and 1, respectively.

The Patriots took over the lead in the game during the fourth inning without the benefit of a hit. James Freelen opened with a screaming, rising line drive which the centerfielder let bounce off the top of his glove, worth two bases, and ground outs by David Singleton and Cody Bowen got the run.

Jason Whitley led the offensive attack, with a 2 for 4 performance, but Michael Madewell's return to the homer column was welcomed by the coach and the entire Patriot team.

April 17 found the Patriots tromping over the Rains Wildcats 12-2, upping their district record to 3-1 at

Dexter Baker allowed only two base hits through the first five innings, who had a 12-0 cushion before Chad Whitley from behind the plate he allowed two meaningless runs in the sixth inning.

Baker struck out five on the day, but his only problem came from eight bases on balls. Both of the Wildcat runs in the sixth inning had first life

On Friday, April 19, the Patriots batted around int he first inning against the Wills Point Tigers, but what looked like it might be another cakewalk for the Patriots, didn't quite turn out that way in the scoring col-

Big performances by Larry Smith, 4 for 6, and Shane Morton, 3 for 5, were enough to keep the Tigers form extending the Patriots to the limit in the 17-16, nine inning game which consumed 3:47 in the playing. Dexter Baker, the third Patriot

pitcher, had been strong in holding the Tigers in relief, when two of the visitors waited out free passes.

Coach Scudder brought catcher to relieve Baker, and it was a good move, as Whitley punmched out the first two men he faced with infield put outs.

The ninth and crucial inning found the teams tied at 14 all.

The Patriots pounded out 20 hits on the afternoon, but th eonly four bagger was Michael Madewell's seventh of the season in the third inning.

Prairiland's six first ining runs came on singles by Whitley and David Singleton, an RBI walk by James Freelen and a three-RBI double by Bowen

Lady Patriots Break Into Win Column

The Lady Patriots finally got into walked Jeanna Jackson grounded out e win column last Thursday with a big win over Rains, 14-13. They scored in every inning except the

Crystal Ericsson had base hits to score two runs int he first inning and Melissa McLaughlin started the second inning with a double. Kristy Cantrell followed with a walk and Dana Monday flied out. Davonna Brumley made a base hit to score McLaughlin and Cantrell stole home. Tara Gifford then grounded out, advancing Brumley to third and then the pitcher overthrew, scoring Brumley. Marleena Bryant then

to end the inning with a tied score. Cantrell doubled in the third, scor-

ing Roddy and Ericsson and scored on two wild pitches. In the next inning, Cantrell doubled

again, scoring Jackson and Roddy. In the seventh inning, the game got closer as Rains scored three time sto pull within one run. Crystal Brewer came up with a great catch in rightfield to help preserve the victory.

On April 20, the Lady Pats had a great game against North Lamar, having only two erros and 10 base hits in nine innings.

Scott Scudder Gets First Save In Reds-San Diego Game

Scott Scudder, formerly of Blossom, finished with three innings of two-hit relief for his first career save when the Cincinnati Reds beat the San Diego Padres 5-1 last Wednesday night.

Scudder was moved into the bullpen by manager Lou Piniella in the last two days to shore up the righthanded relief corps, according to a Reds spokesman.

"It had nothing to do with perform-

ance," said the spokesman. "It was a coin flip between Scudder and Hammond as to which would be the fifth stater and which would go to long

Rookie Chris Hammond gained his first major league victory by allowing five hits in six innings during the game.

Scudder was scheduled to start, but Piniella changed his mind 48 hours before the Wednesday game.

e Prairiland High School deleates attending the State Leadership Conference of the Future Homemakers of America enjoyed being a part of the "Mysterious Solution" which was the theme of the conference held in San Antonion on April 12-13. Over 4,000 delegates from all over the state registered to attend the confer-

Delegates from Prairiland attending were Teri Hamm, Katie Mowery, Tiffanie Jones, Holley Kent and Daphney Mayes. As a result of their participation, these chapter officers were motivated to seek solutions to many of life's mysteries by developing skills for life through character development, creative and critical thinking, interpersonal communications, practical knowledge and Vocational Preparation. Teri Hamm also served as voting delegate from the chapter during the business session.

Holley Kent, currently a junior at Prairiland High School, was elected to serve as State FHA/HERO Vice President of Programs for 1991-92. Holley will represent Prairiland and the State of Texas at the National Leadership Conference of FHA/ HERO in Washington, DC in July. Her duties will begin in June when she will preside over the State Executive Council meeting at Austin.

The Prairiland FHA/HERO banquet will be May 6 for the purpose of recognizing outgoing officers and installing officers for 1991-92.

Growing Turf In Shade Is Perennial Problem

By Paul D. Payne

Shade is desirable in the landscape, but it is the number one problem in growing turf grass. We constantly receive questions on this topic, so we checked with Texas A&M University for their latest thinking. The following comments are those of Dr. Richard Duble, turf grass specialist.

Thee are a lot of situations where you just cannot grow grass in the environment that you have. Environmental changes caused by shade have a major effect on grass. Reduced light, less extreme temperatures, increased humidity, restricted air movement, competition from trees, increased disease problems and shallow root systems are all products of shade.

Grass in shade has less ability to use nitrogen, less photosynthetic activity, less growth, less wear tolerance, more susceptibility to pre emergent herbicides and less toler- in the summer. ance to cold.

The problem is not fertilizer or water, it is light. To grow turf in the shade, you must have a shade tolerant

Bermuda and buffalo grass have little shade tolerance. San Augustine is probably the most shade tolerant warm season grass, followed by centipede and zoysia. Tall fescue, a cool season grass, will grow in moderate to heavy shade where San Augustine fails.

In many heavily shaded areas, it is best to use ground cover plants or othe rlandscape materials rather than wasting time and money trying to go against nature.

Start with a grass variety suitable for shade, raise the mowing height, water deep and infrequently, apply nitrogen moderately in fall and spring and avoid high nitrogen applications

Patterson Introduces Right-To-Recall Bill

State Representative L.P. (Pete) Patterson, D-Brookston, has introduced HJR 61 which would give the people a right to recall all elected officials. Rep. Patterson said he believes it is very important for citizens to have a means to bypass political roadblocks to remove elected officials who fail to carry out the responsibilities of their elected office or fail

to respond to the wishes of the voters who elected them.

Rep. Patterson, serving in his eig. term in the Texas House of Representatives said "I reagize I am exposing myself to recall by the voters by proposing this legislation. If voters in my district feel I am not representing them, then they will have the means to do something about it."

As the young man went around to various classes at the school he was almost awed at the "hero worship" he found waiting for him!

McMikel reports that he arrived in Saudi Arabia in August, when the Asked how he stood it he replied "I

drank lots and lots of water...and besides, there just wasn't anything to do about it!".

McMikel stated that he"fought a little, mechaniced a little and worked on water purification" during his months in the Middle East.

He is glad to be home, and enjoyed speaking to all the young students who wrote to him.

"You guys really kept me motivated" he smiled.
